But that which in the casket lies:
These outward charms that please the sight,
Are naught unless the heart be right.

GOD'S MANY.

A DELUSION EXPOSED BY THE MICROSCOPE.

Let us instance a noble service rendered our common humanity by the microscope.

How often, like some spectacular scenes in a drama, do we find in the pages of the Old World history passages of deep pathos and fierce passion, and both, alas! occurring as the offspring of religious superstition. So there were miraculous apparitions of blood, one while in rain from the heavens, and again in spots in the dwellings of God and of men. Of course these were portents of most dire significance. The recital is too long, for even in Christian chronicles it covers a thousand years. In 1262, shocking to tell, while ministering at the altar of his church at Bolsena, a Bohemian priest was seized with the terrible temptation to doubt the transaustantiation of the wafer which he had just consecrated. Horrified at his own guilt, the celebrant of the mass beheld drops of blood oozing from the sanctified Host. All were awe-stricken at the miracle, and the Church instituted in commemoration the feast of Corpus Christi. Such was the pious legend.

In the fourteenth century, when Heinrich von Bulow had destroyed the village and church of Wilnach, as if to show that Heaven was pained at the sacrilege, eight days afterward the Host on the altar was observed to be stained with drops of blood!

Near the close of that fourteenth century appeared Raphael, a wonderful man, with a genius sublime, with passions grovelling, and withal a religiousness that made him feel and pass for devout. In the now celebrated stanze of Raphael in the Vatician is that miracle of the painter's genius "Miracolo di Bolsena." Its exhibition at each feast of Corpus Christi intensified the Church's conception of the so-called miracle which confirmed the faith of the Bohemian priest. Unhappily the bloody portent returned; the Host was again spotted with gore. The zeal for, of the ecclesiastics became insane, for, horrible to relate, thirty-eight innocent Jews were burned to the stake. For what? For crucifying the Lord afresh, for torturing the Host until it bled!

In 1824 the "blue Moselle" was horrified with a rain of supernatural blood; and again in 1848 the unnatural gore fell from heaven. And now Ehrenberg takes the matter in hand for sober investigation, and the microscope alone is to determine for the superstitions of men. This great man dissipated the miracle entirely by exciting wonder in another direction, for he announced that these bloody rain-drops were composed of real living organisms, but so minute was each individual that it would take over forty billions of them to make one cubic inch.

Thus the microscope has done away with these grim portents of a thousand years. This red snow and bloody slime have now their distinctive place and names among organic things. They are *microscopic vegetables*—unicellular plants. In the arctic regions Captain Ross found this encrimsoned snow *extending in masses of miles*. He bro't some home, and the able botanist, R. Brown, pronounced it *Algarum genus*. It is curious to notice the controversy of so many able botanists, with their diverse judgments. But after a while all came back to the judgment of R. Brown; and Agardh, the able German algologist, gave this, the lowliest of the algæ, the name *Protococcus nivalis*.

But about the drops of blood! This also the microscope has determined to be an alga, and bears the name given it by Agardh, *Palmella cruenta*. Its structure is even simpler than that of an oidium. The name, though not romantic, is significant. Palmella means a vibration or quivering, and is here suggestive of that tremulous movement of which a great clot of coagulated blood is capable. The entire name indicates the significance "of quivering gore." In England the popular name of this fungous slime is "gory dew." It occurs as shining red films or thickish blood-red stains on damp walls, and chiefly on the whitewashed walls of cellars. Being a unicellular plant, when the cells are mature there is a flowing together into viscous masses, which look and feel unpleasantly like clotted blood. Presenting also this aspect of gore, though not so decidedly is the *Hæmatococcus sanguineus*, of Agardh. Though moist to the touch, this has not the gelatinous character of palmella; hence the bloody illusion is not so vivid.—Prof. SAMUEL LOCKWOOD in *Harper's Magazine for May*.

Postmaster Parks lately received a letter addressed to the handsomest girl in Whitehall. It was whispered about one evening, when the next day his office was besieged by pretty girls, all inquiring for the letter. He has since received a letter addressed to the homeliest girl in Whitehall, which has been sent to the dead letter office.

Don't be Idle.

Young men, don't be idle. Don't regard this world into which you have been placed for a short period of time as though it were not intended for you as well as people who seem to stand above you. Don't be dropping off from it at the lapse of your time, unknown, unrespected or unmissed like a useless dog. Don't think you have been placed upon it for the mere purpose of "filling up," or for squandering the earnings of your fellow beings; there is always plenty to be done, and plenty which will have to be done in your time. We are all needed to a greater or less extent in the routine of the life which we must follow here, and if we avoid performing the duties of it when they confront us, it is adding so much more to our own misery. Never be heard saying that you cannot make a living or support, perhaps the small family surrounding you, for that is only repeating the words of a confirmed lounger, but ever express a determination to look up and perform the duties that have been overlooked, or avoided, perhaps, by others going before you in their haste to reach a higher goal, or in their determination to take the unatural course of life, and be lazy. Let all you do, be done well, and do not be afraid to let the world see your ambition; then, if there is any merit in being a useful man, you will receive your due share of it. It may go hard with you at times, and discouragement will frequently stand in your way, but let not that be a barrier to your progress, move on and you will soon reap the benefit of your labours, and when you yourself have passed away from existence, the result of your ambition will remain as a proud monument to your memory.—*Reading Tribune.*

Odd Thoughts.

A helping hand to one in trouble is often like a switch on the railroad track—but one inch between wreck and smooth-rolling prosperity.

Sleep, death's younger brother; and so like him that I never dare trust myself with him without saying my prayers.—Sir Thomas Brown.

Riches are the baggage of virtue.—They cannot be spared or left behind; but they hinder the march.—Bacon.

'Tis with our judgments as with our watches. None are the same, yet each believes his own.—Pope.

Women remark manners far more than character. The mental force that might be compressed and pointed into a javelin, to pierce quite through a character, they splinter into tiny darts, to stick all over the features, complexion, attitude and drapery.—Foster.

Friendship may and often does grow into love; but love never subsides into friendship.—Byron.

We wear our teeth out in the hard drudgery of the outset, and, at length, when we do get bread to eat, we complain that the crust is hard, so that in neither case are we satisfied.—Scott.

The Easiest Way.

Don't live a single hour of your life without doing exactly what is to be done in it, and going straight through it from beginning to end. Word, play, study, whatever it is—take hold at once, and finish it up squarely and cleanly, and then attend to the next thing, without letting any moment drop out between. It is wonderful to see how many hours prompt people contrive to make of a day; it is as if they picked up that the dawdlers lost. And if ever you find yourselves where you have so many things pressing upon you that you hardly know how to begin, take hold of the very first one that comes to hand, and you will find the rest all fall into file and follow after one another like a company of well-drilled soldiers, and though work may be hard to meet when it charges in a squad, it is easily vanquished if you can bring it into line. You may often have seen the anecdote of the man who was asked how he accomplished so much in his life. "My father taught me was his reply, when

PETERBOROUGH, APRIL 20, 1876.

VERACITY EXTRAORDINARY.

The last *Review* contains an extraordinary article anent a communication to the School Board. The writer must have received his information from some one drunk, or worse, from some one of disordered intellect. To speak plainly, the whole article is founded on falsehood and enmity. There is not a word of truth in the assertion that the paper ever was lost or missing, and only some one whose prejudices are warped, whose judgment is deficient, or whose reason is vitiated in some way, would have given currency to a rumor founded on hearsay from one who must have been under the influence of strong passions when imparting it. The truth is, Dr. Burnham, against whom the wanton and silly attatck is made, never said it was either lost or missing. He merely said; that either he or the Secretary of the Board had it.

The editor of the *Review* has an old pique against the doctor and hence this untruthful and uncalled for attack. The doubly mean insinuations that the doctor had concealed it, and thus, "did good by by stealth and blushed to make it known" could only emanate from a weak judgment or from base motives.

The following *morceau* from the *Review* is untrue in every particular and in every word:

"But it turns out, if the information we have gathered is correct, that the document is lost! Dr. George Burnham, Senior, knows nothing about it, and declares he never received it."

Is it not too bad that any journalist could be found who would thus publish a statement containing not one word of truth. Dr. Burnham was not at the Board meeting, and never said that he did not receive it.

On the Tuesday previous to the writing of the article referred to, Dr. Burnham gave the paper to Mr. McClelland, with a request to attend the meeting of the committee, which he had called, stating that he feared he could not be present. Mr. McClelland placed the papers before the committee, and then again, on Tuesday evening laid them on the table in an open Board meeting. So much then for the truthfulness of the article referred to.

Not unfrequently a wish is father to a thought. It must have been so in this case. The writer says:

"Now, no one can be blamed *for allowing the thought to arise* that perhaps this damaging document has been conveniently lost, and that an attempt is to be made to smother up its contents from the public ear."

Is this not vicious? "No one" says this veracious writer, "can be blamed for allowing the thought to arise." What information there must be in the thoughts of the writer whose utterances in this article are untrue in every word and whose imaginations towards our school and principal have for some time savored of enmity.

If the *Review* had had the welfare of the schools at heart, or believed that matters were not properly managed by the Board, why did Mr. Romaine refuse to act as Trustee when appointed by the Town Council in January last? If he had done so, and had gone to work to rectify abuses, if they existed, he would have deserved well of the citizens of the town, but he knew there was nothing wrong, and hence feared to take a place on the Board. What can be said of his sincerity when he refused this favorable opportunity of re-organizing school matters.

Here is another short sentence from our confere:

"From what we can learn of the history of this little bonahell—for as such some people evidently regard the document referred to—it appears that, for reasons which none of the readers of the *Review* will be slow to conjecture, the Education Department has lately been keeping an eye upon our Schools, *and from observation and information received*, caused a communication to be forwarded to the School Board containing some very caustic reflections respecting their management."

The question may reasonably be asked, who forwarded this information to the Department? was it the Editor of the *Review*? or did some disaffected person do so? The *Review* says the Department has *received information*. From whom? how? when? with what object in view? No one from the *Review* office has visited the School for about two years, when Mr. Carnegie visited it in person, and he then was honorable and honest enough to report fairly what he saw and heard. Another visit from Mr. Carnegie will be pleasing to the Principal and to the Board. But this information that comes secondhand, must come from some one whose moral vision is so dull as to falsify the record, and perhaps, to whose ill will some of those in authority have become amenable. Was it an officer of the Board of Trustees or a Teacher that supplied "this information"? or is it merely imagination founded on prejudice? The Board in the past, has foolishly allowed Teachers to draw their salaries while endeavouring to blast the fame of an institution, of which all true citizens are justly proud. If they do this in the future, then they deserve to suffer the consequences of the act.

The Examination of the Institution will soon come off, according to law, in June. As that will be conducted by High School Inspectors it will afford a fair test of the management, and until that comes off we prefer to wait, and abide results In the mean time we make bold to say that there are more than a dozen boys in the Institute ready to test their education side by side with the writer who so unspairingly abuses the School and it Ma agement.

TOWN COUNCIL

The Council met on Monday evening

Present—the Mayor, and Councillors Douglas, McClelland, Paterson, Hopkins, Taylor, Cook, Elliott, Thornton, Cahill, Rutherford, and Haggart.

The minutes of the previous meeting were read and confirmed.

COMMUNICATIONS.

The Clerk informed the Council that the By-laws that had been voted on were carried, viz: the $6,000 for bridges, and $6,000 for schools; the former was carried by 61 of a majority, and the latter by 60.

From Scott & Edwards, giving notice that in the case of Nicholls vs. Cumming, was to be appealed to the Supreme Court.

From Henry Denne and about 14 others complaining that since the extension of the town limits nothing had been done to improve Smith Street, and that it is in a disgraceful condition. There are no approaches or sidewalks, and people are going to build houses this spring, and asked the Council to strike a grade.

From John C. Holmes, asking the Council to pay $4.50 of rent which he is unable to pay.

Councillor Dixon then came in and took his seat.

From P. McNamara and G. T. Greene, asking the Council to lay a sidewalk from the Railroad to Park Street.

From T. Croly, giving notice that the contract of Curtis & Croly is void, and requesting the Council to return him his bond.

The Mayor said that about a week ago he met Mr. Dumble in Mr. Edwards' office, when he heard that he was going to apply for an injunction in the Court of Chancery to put a stop to the Smith St. Bridge and Grading, and also that he instructed Mr. Belcher to measure the work that had been done, so that they would be able to pay the contractors.

Mr. Paterson asked if the work was going to be stopped altogether.

The Mayor in answer said that he thought that this petition had better be referred to the Bridge Committee, and let them deal with it.

From W. Cummings, stating that he had examined the bridge on the creek and found that the following needed repairs—the one at Mr. W. Hamilson's, one on Brock Street, one on Hunter St., and one on Ried St. one on King Street.

From Geo. T. Greene, asking for some plank and scantling for to crib up the embankment of his house, that the water has taken away.

ACCOUNTS.

From the Returning Officer for holding the election on the By-laws, and election of Councillor, $18.00.

DISPOSALS.

Messrs. Scott & Edwards' communication received and referred to the Town Solicitor with instructions to defend it.

The Returning Officers accounts were ordered to be paid, if found correct.

The petitions of H. Denne, George J. Greene, and P. McNamara, were all received.

John C. Holmes' petition was referred to the Town Physician, to report to this Council.

T. Croly's petition was referred to the Smith St. Bridge Committee.

Mr. Cummings' petition was referred to himself to deal with it as he was Street Inspector.

BUTCHERS BY-LAW.

Mr. Rutherford moved that the Council go into committee of the whole on the second reading of the Butchers By-law—Mr. Dixon in the chair.

After the Clerk read the By-law over, Mr McClelland asked whether that would effect the present By-law in existence or not.

The Clerk stated that the present By-law had no effect on farmers coming into market and selling meat by the quarter or carcase, and that the present By-law only holds butchers that make a practice of doing so to have to pay a license of $30.

Mr. Haggart said that a great deal of dissatisfaction has been expressed by different parties how the market stalls are let, and that there are only five stalls let in the market, and the butchers who occupy them pay over $450 rent and taxes, while there are nine around the town who only pay about $90, and he only wished to deal squarely with them all, but that it is not fair that the butchers in the market should pay $450 a year, while the other nine outside butchers only pay $90; and that when the Council built the market they built it on the principal of letting all the stalls in the market before granting licenses to outside butchers. He thought that the stalls in the market should be put up at auction and given to the highest bidder, and no licenses granted outside till the stalls were all occupied. As it was parties could apply for a license and get one, and he believed that the butchers in the market should be protected from hucksters coming in and selling on the market.

Mr. McClelland said that he did not see the force of Mr. Haggart's argument as he only took one side of the question and made it appear that the butchers in the market paid $450 a year, while the other nine paid only $90 of a license and did not take into consideration the taxes of the other nine outside butchers.

Mr. Rutherford agreed with Mr. McClelland and said that Mr. Cluxton was the first to grant butchers license, some years ago, and said that outside accommodation was necessary, and he believed that the butchers had just as good a right to sell meat any place as the baker or grocer has a right to sell bread. He believed the butchers outside of the market were giving good satisfaction, and if the butchers in the market could not compete with the ones outside, why let all come out.

The Mayor said he had something to do with the letting of the stalls, and that Mr. Rutherford was right when he stated that Mr. Cluxton was the first to give out butchers license, and that they had some dispute in the market and he bro't over from Ashburnham a butcher to retaliate on them, and that it was only the object of the Council to let one in each ward at that time, and also that this was a very delicate matter to dicuss, and that they were here to do the best they could for every person, but if the butchers in the market were not protected they would get out, and the town would lose a certain amount of revenue. That they had to keep a certain amount of meat all the year round, while the outside butchers could open and shut in the busy season of the year at their option, and the people have then to go to the market for their meat, where they have it all the year round. He was in favor of only having four outside butchers—one in each ward.

Mr. Douglas said that it would be fair to put them up at auction and give every man a chance, and give them to the highest bidder.

Mr. Paterson said that there should be a license to protect butchers. Grocers cut up meat and sold it in their stores by the pound, and the Inspector should not allow it. At times parties would come down and bid the stalls up to very high figures for spite, and then go away and not take them, and that the Commissioners would have to give it to the former man at the same figure as before. As Mr. Stevenson was a Commissioner and was present, perhaps he could give us some information on the subject.

MR. STEVENSON

said that he was opposed to letting them by auction, as parties could come and bid for them who did not want them, and then they would be compelled to give it to the man who had the stall before at the same rate, and he believed in giving every person a license, but charge them a fair amount therefor.

Mr. McClelland said that he did not approve of letting them by auction, but would put a price on the stalls and give the occupiers thereof first choice.

Mr. Douglass said that it was all the better for the town if parties came there and bid them up to a high price.

Mr. Haggart said that Mr. McClelland endeavored to show to the town that the outside butchers had paid as much as the butchers in the market.

Mr. McClelland said that he did not.

Mr. Haggart said, well, you tried to, and that you may go to any city or town in Canada and you will see that butchers in the market are protected from the outside ones, and that they would not compromise, as you could not get nine or ten men in the same business to compromise, but they will have to give better value for their money. If the butchers were not protected perhaps you would see Mr. Winch occupying Dr. Kincaid's old stand, and a fat lamb or a quarter of beef hanging out in the middle of June with a lot of flies "buzzing" around it, and that he would go in for forming a market and have every person bring there everything they sold, such as barley, oats, sheepskins, and in fact every thing that is brought to town should be brought on to the market before being disposed of, and he therefore moved that the outside butchers be charged $50, and give every person a license.

Mr. Hopkins said that when he was in the business he was glad to take any stall that he could get.

Mr. Toole said that the outside butchers wished to be charged about $50 of a license.

Mr. Hopkins wished him to ask them and see whether they did or not.

Mr Cahill said that all the Councillors had spoken in favor of the butchers, but that he would speak from a poor man's point of view, and said that it was wrong for them to let the grocer have the hide and tallow for nothing, while the poor man had to pay for the meat.

Mr. Haggart then withdrew his motion

Moved by Mr. Elliott, seconded by Mr. Haggart,—That the butchers' license be free.

Mr. Douglas moved in amendment that the license be $25.

Moved in amendment to the amendment that the license be $20.

Messrs. Cook, Haggart and Elliott voted for the motion.

Messrs. Toole, Douglas and Taylor voted for the amendment.

Messrs. Paterson, Thornton, Hopkins, Cahill and Rutherford voted for the amendment to the amendment.

Moved by Mr. Toole, seconded by Mr. Douglas,—That the clause be filled in with $40.

The following motion was moved and carried:—That the whole matter referring to the Butchers License be laid over and referred to the whole Council in committee of the whole.

CHARITY.

A communication was here handed in and read from Dr. Kincaid in reference to the case of Wm. McDonald, whom he had attended professionally, complaining of undue interference by parties, and asking the Council to give directions as to what was to be done.

ACCOUNTS.

Moved by Mr. Cahill, seconded by Mr McClelland,—That the Treasurer be instructed to pay the accounts of R. Romaine and Owen Curran, amounting to $135 and $30.62, respectively.—Carried.

STREET AND BRIDGE COMMITTEE.

Moved by Mr. Haggart, seconded by Mr. Hopkins,—That the Street and Bridge Committee do at once examine the Streets and Sidewalks and report at the next meeting of the Council what they think necessary to be done.—Carried.

CENSUS.

Moved by Mr. Cahill, seconded by Mr. Haggart,—Whereas the Educational Department has issued an order whereby it is necessary to ascertain the number of children between the ages of five and sixteen, and whereas it is desirable to have a complete census of the town taken with a view of licensing more hotels for the accommodation of the public,—Be it resolved that Messrs Haggart, Hopkins, and Douglas, be a special committee to wait on the License Commissioners to request them to grant a certificate in accordance with the License Act, and that they report to this Council at its next meesing.—Lost.

CHARITY.

Moved by Mr. Paterson, seconded by Mr. Hopkins,—That having heard the Town Physician's statement, and also Mr Doharty's with regard to Wm. McDonald, now lying in Mr. Doharty's,—Be it resolved that the Charity Committee and Town Physician have full power to act as they may deem necessary.

SMITH STREET BRIDGE.

Moved by Mr, Rutherford, seconded by Mr. Douglas,—That the Treasurer be authorized to pay John Boyd, on the written certificate of the Town Engineer, such sums as shall become due, and in accordance with the contract price.—Carried.

BY-LAWS.

Moved by Mr. Cahill, seconded by Mr. Taylor,—That the By-laws providing for the issue of debentures be now read a thire time and passed, and that the Mayor and Clerk do sign and seal the same.—Carried.

The By-law for $3.000 was read a third time and passed. The By-law for $6,000 was also read a third time and passed.

BUTCHER STALLS.

Moved by Mr. Thornton, seconded by Mr. Taylor,—That the Commissioner be requested to let the butchers stalls in the market by public auction.—Lost.

WATERING STREETS.

Moved by Mr. Paterson, seconded by Mr. Hopkins,—That as the time of watering the streets is approaching, and as it is desirable to adopt some new and better system of watering our streets, be it therefore resolved that the Mayor call a public meeting of the merchants and all parties interested, to discuss matters with the Street and Bridge Committee, on Tuesday 25th inst., at 7.30, p. m.—Carried.

On motion of Mr. McClelland, seconded by Mr. Rutherford, the Council adjourned for one week, to meet at 6.30, p. m.

SCHOOL BOARD.

The Board met on Tuesday evening.

Present, the Chairman, and Messrs. Edwards, McClelland, White, Robertson, Johnston, Cox, Morrow, Pentland and Edmison.

The minutes of the previous meeting were read and confirmed.

A communication was read from the Assessors stating that the School lot in the South Ward was in arrears for taxes and liable to be sold for them, in 1876.—Referred to the Committee on Finances, with power to pay if correct.

From Mr. Croly, asking that his bonds for building the South Ward School be handed over to him, as the work has long since been taken off his hands.

On motion of Mr. McClelland, seconded by Mr. Edmison, the Secretary was instructed to give Mr. Croly his bonds.

A communication was received from S. N. Lasher, in reference to engaging a teacher of Vocal Music.—Received on motion of Mr. Edwards.

A communication was read from Principal Dixon asking leave of absence for 9 months on account of ill health.—Rec'd.

COLLEGIATE INSTITUTE,

Peterboro, April 18th, 1876

To the Board of Trustees Col. Inst. and Public Schools,

GENTLEMEN,—Believing that I require at least nine months' rest for the restoration of my health, I ask you kindly to relieve me for that length of time from the arduous duties connected with my Principalship. In sickness and in health, I have done my best for the advancement of the Collegiate Institute and the Public Schools of which you are the Trustees, and I cannot but point with pride and satisfaction to their position to-day when compared with what it was when I was appointed Principal, nearly nine years ago.

In the service of your Board, I overworked myself, and I therefore present this request to be relieved at the coming holidays, for the time already specified, with the greater confidence, hoping by rest, climatic change, and the blessing of the Almighty, to return to you in that full vigor of health which I never expect to enjoy unless I give up for a reasonable length of time my present connection with your Schools. With a lively sense of the many past favors of which I have been the recipient at your hands,

I am, Gentlemen,
Yours very gratefully,
JAMES B. DIXON, M. A.
Principal.

Mr. Edwards asked if the Committee on Appointments were prepared to report

Mr. Edmison stated that the Committee on Appointments had unanimously agreed that they had nothing to report. That as Mr. Dixon had asked for leave of absence, and as the changes in the organization had long since taken place by direction of the Principal, Mr. Dixon's ill health he regretted to say was the cause of his asking to be relieved from duty for a time; all regretted that it was necessary, as Mr. Dixon was the best Principal that had ever been employed by the Board, and under his management the School had progressed far beyond what had been the case under any previous Principal. He felt it his duty to say that Doctor Burnham had been summoned to attend Court at Cobourg and had left on the train and consequently could not be present to-night; as to the papers they had never been lost or missing. The Chairman of the committee had handed them to Mr. McClelland to lay before the committee in case of the absence of the Doctor. Mr. McClelland had laid them before that committee, and the committee had considered the whole matters and agreed to let them alone, as all that the communication from the Department referred to had been arranged, some time ago.

Mr. McClelland said that the report of smuggling or hiding the papers was not founded on fact as they had been before the Board and submitted to a Committee. That the committee had considered the communication in all particulars, and the letter had been read before the Board three or four times, and he had it now and would lay it before the Board if desired. The letter was then placed on the table and read by the Secretary. The Chairman had called the committee together, and that committee had unanimously agreed to the course represented by Mr. Edmison.

THE LETTER.

EDUCATION DEPARTMENT,

Toronto, March 3rd, 1876.

SIR,—I have the honor to state that the Inspector who last half year visited your School, reports as follows. The attention of the Board is called to his remarks.

ACCOMMODATIONS: as at last inspection. The roof of this fine building leaks badly in many places. The premises are all well looked after. The rooms in a very neat and clean condition. Stoves throughout, except a few, Rattan heaters which have not been properly set up, and smoke badly.

ORGANIZATION: The organization of the Institution is faulty and needs complete re-arrangement, which I discussed with the head master, which will be introduced next term. Mr Dixon's feeble state of health has compelled him to relinquish a portion of the teaching, and the time given to the different classics is not judiciously divided. The head master teaches mathematics in the forenoon, and inspects the Institute and the Public Schools in the afternoon.

REMARKS: I regret to say that the head master, who has labored so faithfully here is in very infirm health. The Classical Master is inexperienced in his subject, and was recommended to visit some superior school where it is well taught. He is well meaning and anxious to do well, and I trust will improve. The teaching in Science and in Modern Languages is exceptionally good.

J. GEORGE HODGINS,
Dept. Superintendent.

Mr. Edwards expressed dissatisfaction that the Chairman had not reported before, nor yet was present to night to apologize.

Mr. Cox said the Chairman had no need to apologize. The Committee had done its duty fully, and unanimously agreed to what had been done.

Mr. Morrow was also satisfied with the course the Committee had advised.

Moved by Mr. Cox, seconded by Mr. McClelland,—That the communication of the Principal be received, and his request to be relieved from the Principalship be granted, and that he be relieved for one year from the summer vacation, and that this Board desire to express their sincere regret that his failing ill health has rendered such a step necessary after so many years of arduous and successful labor in connection with the School.—Carried.

Moved by Mr. Edwards, seconded by Mr. McClelland,—That the Committee on Appointments take the necessary steps to procure a Principal in place of Mr. Dixon, during his absence.—Carried

The Board adjourned.

MOUNT PLEASANT.

A young man named Gibson in the employment of Mr. Webster, of Mount Pleasant, had two of his fingers cut off lately with a straw cutter.

STONY LAKE.

FIRE AT JULIENS LANDING.—On Sunday evening between the hours of five and six o'clock, as they were sitting at tea, the house occupied by Mr. Wm. Cox, as a Temperance House, was found to be on fire. the fire caught between the upper ceiling and the sheeting of the roof, from the stove pipe, and notwithstanding all their efforts to extinguish the flames it increased so rapidly that they were obliged to leave the fire and try and save the Furniture and the other stuff in the house, which they succeeded in doing But the furniture was considerably damaged as is always the case in such cases. Mr. Cox's loss will be about $600 or $150 but the house was owned by James Speed, Esq., the stable adjoining was also burned and a quantity of lumber and shingles, as Mr. Speed, was intending to build this summer. His loss will be between $400 and $500, and I believe there was no insurance.—COM.

KENNE.

The Anniversary Meeting of the Otonabee Branch of the Bible Society was held in the Methodist Church in this village on Tuesday evening the 11th inst. The roads being in a very bad condition the attendance was not as large as usual, but those present evinced a very commendable interest in the important work of extending the circulation of the Bible. No agent visiting this Branch for the present year, the Meeting was addressed by the resident Ministers, the Revs. Messrs Andrews and Wicher. These gentlemen in earnest evangelical and appropriate addresses well sustained the interests of the Bible Society in this locality. It was gratifying to find that although the attendance was smaller than last year the collection was larger.

HILLBROOK.

The enquiry as to Post Office management at Millbrook did not prove a serious one; it was all over some letter going astray and getting to the dead letter office at Ottawa instead of to Chicago. The parties had angry words over it, but no charge of dishonesty or mismanagement other than the above

The roof of Morrow's tannery was on fire on Monday but it was soon put out.

Miss Dean, school teacher, was the recipient of an address and nice present at the Easter holidays.

Millbrook had another flood on last Thursday, the whole place was submerged

LANG.

To the Editor of the Examiner.

DEAR SIR,—Some time ago a tavern was started in this village, with a very fit character as proprietor, and ever since its dire effects on simpletons who frequent it are truly lamentable. Young beardless lads, hardly fit to be let loose from their mother's apron strings, may be seen at almost all hours of the night reeling home from it, drunk, and think they are men. Mr. Editor, if that is what constitutes a man, men's worth is very little. Old men may be seen wending their way towards the terrible region of doom, and when their voluntary imbibe that which "will in a short time send them to a premature grave. And now, Mr. Editor, I appeal to you as you are one of the License Commissioners of this Township, if application be made for a license for a tavern in this village to exert your utmost influence to prevent any such license from being granted, and in doing so you will oblige,

A Friend of Morality.

Lang. P. O. April 18th, 1876.

LITERARY

To the Editor of the Examiner.

Dear Sir,—I see in the last *Review*, an article on our School, headed the "Missing Document," and as the writer reflects on the management of School matters, I trust his object is to advance the interests of education. In order that the educational interests of the people may not be entirely neglected, may I suggest to the Board the propriety of sending the writer to our School for three months to improve his English Grammar, for I learn that he has no taste for Classics. Here is a specimen of his English composition:

"The people—the parents of our school "children—should always possess the "fullest guarantee that their interests "and the education of their children is "hedged round by proper safeguards, and "is safe in the hands of a School Board. "If any one is to be sheltered is it right "that the whole school should suffer? "Is it right that its usefulness as an "educational institution should be impaired and remain doubtful?"

Your readers, Sir, will come to the conclusion in reading this elegant piece of diction, that he requires at least a few lessons on the use of verbs and on syntax For instance, in the above he says, "their interests and the education of children IS hedged," etc., and again he says "*is* safe" etc. For errors like these we boys would get whipped. I trust that the Board will act on my suggestion and that I may have the pleasure of the Editor's company for a few months. By giving this a place in your next issue you will oblige

A UNION SCHOOL BOY.

Peterboro, April 17, 1873.

THE ignorant peasants, when first enlisted in the army and navy of Italy, are bathed, uniformed, and taught to read and write. The primer is thrown in with the weapon, according to prussian tactics, and it has proved of great utility. When mustered out, the soldiers and mariners go home with tolerable enlightened heads to instruct their neighbours and families.

NEW ADVERTISEMENTS

$5 to $20 per day at home. Sample worth $1 free. STINSON & Co. Portland, Maine.

PETERBOROUGH
Grafting Establishment

I shall run two Grafting Waggons this Spring through April, May and June; one from Peterborough through various towns, and one between Cobourg and Rice Lake and vicinity, on the following terms:—

At $6 per 100 Grafts, one-half to be paid down and one-half on the first day of July for all that are living at that time. ANY number less than 100 Grafts will be charged at the rate of $8 per 100 and cash down. Plums and Cherries should be grafted as early as possible. Scions I procured from the Genesee Valley Nurseries, Rochester, N.Y. Every tree grafted will be labelled and the variety thereon I guarantee to be true to name. New and choice hardy varieties will be grafted. Board for the men and horse keeping included while doing the job.

Lakefield, April 19, 1876. Auctioneer.

SPRING, 1876!

ORMOND & WALSH

Are now fully prepared with their Spring supply of of newly imported

Field, Garden, & Flower Seeds.

Purchasers of Seeds must now be convinced of the disappointment experienced in buying seeds from boxes or packets already put up and placed in Stores on commission, and in many instances transferred from place to place for years before being sold; the disappointment experienced, not only from their non-vegetative power, but from the small quantity contained in each paper. To prevent these disappointments Messrs. ORMOND & WALSH sell the whole of their seeds by weight, at a fair and moderate price, with a guarantee of their FRESHNESS and vegetative power.

They would call the attention of those who purchase Field Seeds, to the fact that the produce of Ormond & Walsh's Seeds have taken the majority of prizes at the Agricultural Shows of the County for some years, and particularly for Carrot, Mangold and Turnip at the Central Exhibition of last year.

Special care has been bestowed in the selection of Flower Seeds, Stocks, Asters, Balsams, Phlox Drummondi, Larkspurs, and Perennials, have been received in the original packages, as imported. Other kinds in great variety.

Messrs. Ormond and Walsh are Agents for Messrs A. Sanders, of Port Hope, and will have constantly for sale, during the Spring and Summer, all descriptions of bedding-out plants, and also House Plants of the best descriptions, in great variety, in blossom, and at very low prices.

Timothy, Clover, Vetches, Hungarian Grass, Seed Wheat, with a variety of Grass Seed in quantity, and on cheap as any House in Town.

Peterborough, April, 1876.

The Examiner.

PETERBOROUGH, APRIL 20, 1876.

INSOLVENT NOTICES will hereafter be inserted twice in a local paper, and once in the GAZETTE.

BOW PARK.—It is said that the Hon. Geo. Brown has sold the Bow Park farm to an English company, who intend to devote it to raising thorough-bred stock.

HORSE ROUTE BILLS.—Parties desiring Horse Route Bills can have them printed at the EXAMINER printing office, cheaply and speedily, and also a choice variety of "Horse Cuts" to choose from.

ST. PAUL'S CHURCH.—Rev. Mr. Torrance, of Montreal, will again conduct religious sermons in St. Paul's (Presbyterian) Church on Sunday next at the usual hours.

OFF FOR BRITISH COLUMBIA—Mr. Jas. Millar and Mr. Alex McDonald, son of Mr. D. McDonald of this town started for British Columbia yesterday. We wish them a pleasant journey and success.

PERSONAL.—Mr. Joseph Craig of the Walkerton *Telescope*, and formerly foreman in the EXAMINER office, has been appointed Inland Revenue Inspector in his district, county of Bruce. He is worthy of the appointment.

ST. GEORGE'S SOCIETY.—The Chaplain of this Society will (D. V.) preach a sermon in St. John's Church, Peterboro, on Sunday evening the 23rd instant at 7 o'clock. A collection will be taken up after service in aid of the benevolent fund of this Society.

TEMPERANCE LECTURE.—F. S. Spence of the Ontario Temperance Prohibitory League, will lecture on the Prohibition of the Liquor Traffic in the Temperance Hall this evening, Thursday April 20th 1876 Chair to be taken at 7.30 o'clock. Collection in aid of the League fund.

FIRE COMPANY.—The Village Council of Lakefield are making arrangements or the purchase of a Fire Engine for that place. This is a step in the right direction not to wait till the village is burnt down and then wonder why they had not purchased one before.

ALEXANDER MORROW, ESQ., one of our most respected and exemplary citizens died on Monday, at the age of 80 years. His wife was buried just two weeks ago. They had lived together over 56 years. His funeral took place yesterday, when all business places were closed as a mark of respect.

SPRING NOTES.—"Shoot that Fur Hat" and go to Hyman's Hat Store and get a New and Stylish Spring Hat. Mr. Hyman has a very large stock on hand, and as he makes a business of this alone, he can, without doubt, suit the taste and style of every person. Give him a call—next to Davidson's Bookstore.

MR. PETER HAMILTON is now offering a complete assortment of Farm Implements of his own manufacture. He is well known. His Implements give entire satisfaction. Buyers can get them repaired readily at any time, without sending away. Encourage home manufacture.

GLASGOW WAREHOUSE.—Mr. Erskine has just received a beautiful stock of all goods in his lines, consisting of such a variety as to prohibit enumeration.—Ladies dress goods in great variety; wools of all colors; silks and grenadines to please every fancy. He invites an examination. His prices will be found moderate.

MILLINERY.—Miss Delaney is just receiving her Spring Stock of Millinery, Mantles and Fancy Dry Goods consisting of the newest French and American styles in pattern bonnets, hats, beautiful flowers feathers, ribbons, laces, silks, etc. She is preparing to do an extensive business, and her pleasant and obliging manner and excellent taste will secure her a large patronage.

CENSUS—A motion in the Town Council on Monday evening to take a census of the Town was lost. To do so with a view to increasing taxpayers would be foolish in the extreme, for the gain would not be proportionate to the evil that would follow, and to take the census in this way, with a view to obtaining the school census, would compromise the School Board with this additional tavern, which we hope will be avoided.

PERSONAL—James Bellwood, Esq., of Ashburnham, has sold his farm in Ashburnham and purchased one consisting of 1,500 acres in the county of Norfolk. He left yesterday for his new abode. He will be in a position, on such a farm, to show his skill as a leading agriculturalist among western farmers. The best wishes of his numerous friends here, among whom he was highly respected, accompany him.

UNION.—The Toronto TRIBUNE, (R.C.) proposes a union of all the Roman Catholics in the Dominion for the purpose of being better able to unite to discuss subjects affecting them, and then that an annual congress might be held for such discussion. It is strange that the TRIBUNE should do this since the Church condemns secret organizations. Organizations however controlled by the Church are permissible.

THE TORONTO PRESBYTERY—There was a meeting of the Presbytery on Tuesday. The committee reported "that they cannot recommend the Presbytery to accept Mr. Macdonnell's statement as satisfactory." Then follow the reasons. The report was received, and the first part of the report was adopted, viz., That the taught doctrines at variance with the confession of faith. The second part of the report refers to the words, "Eternal Torments" etc. We will endeavor to publish the full report next week. A committee was appointed to confer with Mr. Macdonnell.

OUT ON A LARK.—It appears that some person or persons unknown, lately maliciously, wantonly, and it is feared with malice prepense, broke several panes of glass in some of the buildings on Simcoe and other streets. This rowdyism was perpetrated about three a. m., an early hour for respectable people to be out on street rambles. Parties are blamed who may be innocent, but it is to be regretted that some one had not boldness enough to make their acquaintance and introduce them next morning to the Grand Cadi. More respectable persons are not unfrequently in his audience chamber.

MEAT—The Town Council spent neatly the whole of Monday evening in trying or devise some legal way of adding a cent a pound to the poor man's beef, and are to take the matter up next Monday night again. People so charitably disposed should be endeavoring to take a cent off both bread and beef. The more a poor man can get for his money the better for him, but to confine the sale to butchers' stalls will tend the other way. Why did our Town Fathers not grant the prayer of the Dry Goods Merchants? They say for fear of monopoly. Then let them avoid other monopolies.

MORE LAW—The Town Council received notice on Monday evening that Mr. R. Nicholls has carried the case anent taxes to the Supreme Court. The case was not considered of much importance at first, but it has gone so far now that it will be one of the noted cases of the Courts. It all arose out of a mistake of the Assessors in filling in the schedule. Mr. Nicholls claiming that he had no chance of appealing to the Courts to rectify any error until the taxes were levied. It has been heard three times, but will receive a quietus in the highest Court in the Dominion.

REVIVED.—We clip the following from the Lindsay *Post* in connection with the Lakefield *News*:

"GOING INTO BUSINESS.—Mr. Wm. M. O'Beirne, who has been for the past three years foreman and local reporter of the *Canadian Post*, is going into business on his own account, in Lakefield, where he will publish the *News*, a paper recently started there. Mr. O'Beirne is a careful and industerious young man, skilful and tasteful as a printer, and possesses the literary ability and experience to make an interesting and lively newspaper We regret the loss of Mr. O'Beirne's services, for his relations with this office have been of a pleasant and satisfactory character. We can commend him to the business men of Lakefield, and have no doubt he will turn out a newspaper that will be a credit to himself and to the community whose hearty support it will we trust, receive."

THE HON. JOHN CARLING is President of the Licensed Victuallers of London, Ontario. At a meeting of the Association Mr. Carling presiding, after numerous speeches in answer to the various toasts of the evening, Mr. W. Simpson Smith assumed an upright position and spoke against the new license bill, concluded his remarks as follows, which we take from the columns of the *Free Press*:

"To his mind there was too much religion and too much politics in this country, and only by the efforts of the Victuallers' Society could salvation be expected to come."

And yet, no doubt, Honest John Carling is a member of some christian church in which there are too many of such men and too little religion. We are not told that one dissentient voice was raised to the immoral sentiments of the creature Smith.

OUR LITERARY TABLE

THE NEW DOMINION MONTHLY.—This ever welcome periodical for April is received. It is one of the excellent works issued from the office of the Montreal *Witness*.

RAILWAY GUIDES.—Now that every one is commencing to arrange for a trip to Philadelphia to attend the Centennial Exhibition, it becomes an important matter to be provided with the articles necessary for the journey. Among the most important is a railway guide. Official Time Tables, the pocket edition of the well known 'Travelers' Official Guide' for April, is before us. With its clearly printed pages, neat sectional and handsomely colored general map, its carefully compiled information respecting population, hotels, etc., of all principal places, and above all, for Centennial travelers, the fine lithographic map of Philadelphia, showing the Exhibition Buildings and the lines of street cars in the city, it contains all the information that could be desired. Published monthly by the National Railway Publication Company, at the very low price of 25 cents.

HARPER'S MONTHLY for May has been received and will be interesting to lovers of light literature. The following item of religious inteligence from the May number will be appreciated by the readers of the EXAMINER. It is entitled—

REVEREND AND RATHER REVEREND.

We are afraid that even our friends of the clergy are not unappreciative of the value of a title properly bestowed. We are quite sure that in England much weight is attached to it, judging by the following anecdote, which has just come to us from abroad:

A certain rural dean said to his bishop that he thought it rather hard, as the dean was entitled to be styled "The Very Reverend," and the arch-deacon "The Venerable," the rural dean—who had, as the bishop knew, very grave and responsible duties attaching to him—was merely "The Reverend." The prelate, reflecting for a moment with apparent seriousness, said he saw the grievance, but was at a loss for the remedy, unless styling the rural dean "The *Rather* Reverend" might meet the difficulty.

Speaking of church dignitaries, in that clever modern novel *The Bachelor of the Albany*, the wines proper to be set before high clerical people are described at a dinner given by that beau-ideal of an English clergyman, the Dean of Ormond:

"As to Dr. Bedford himself, his radiance, his benevolence, his amenity, his fullness and fatness, are only to be illustrated by supposing that, by some marvelous alchemy the spirit of good humor had been distilled, concentrated, and incorporated, into a folio body of divinity. The dean had brought forth from his cellar, for the occasion, his oldest and finest wines; his very *reverend port, his right reverend claret, his episcopal Champagne, his archiepiscopal Burgundy.*"

The fluid suitable for Reverend and Rather Reverends is not mentioned. Perhaps beer or sherry.

THE EVENING TELEGRAM—The first number of this new venture has reached us. It is very neatly got up, and contains the latest news from all quarters. Taking this number as a standard it bids fair to be popular. We wish it success. There is room for it between the two political organs, although we cannot say that it intends to be neutral.

SPECIALTIES IN MEDICINE.

We publish on our eighth page a lengthy article describing the system of the noted specialist, Dr. R. V. Pierce, of Buffalo, N. Y., in which he sets forth with considerable force and clearness his reasons for devoting his whole time and attention to a single department of medicine—the treatment of lingering chronic diseases. The same article also takes up the subjects of diagnosis, methods of consultation and treatment, etc., and will be found to contain many valuable hints to the invalid. Dr. Pierce is the author of a work which has already attained a large circulation "The People's Common Sense Medical Adviser"—containing some nine hundred numerously-illustrated pages, and devoted to medicine in all its branches, a work well calculated for the guidance and instruction of the people at large, and which may be had for $1.50 (postpaid) by addressing the author. Dr. Pierce has now been before the general public long enough to enable the formation

THE GEORGIAN BAY BRANCH.

The following communication to the Montreal *Gazette* has been forwarded with request to publish it, which we gladly do, in order to afford information on such questions.

To the Editor of the Gazette:

SIR.—I have read with very much interest your article in the GAZETTE of this morning upon the Georgian Bay Branch, but you have dealt so tenderly with the scheme of the Government that I am afraid your article is calculated to do more to secure the construction of that line than anything which has been or can be said by the open advocates of it.

The Georgian Bay Branch,—the contract for the construction of which was given to the Hon. A. B. Foster, a Government supporter,—was projected for the purpose of utilising the water stretches in opening out a means of communication with the North West, but the very slightest examination of the circumstances and facts demonstrates that this was only the ostensible reason, and that the real one must remain behind.

The Georgian Bay Branch as projected can form no part whatever of the Pacific Railway proper when completed. The latter scheme the advocates of the Georgian Bay Branch and the Government who propose to carry it out characterised as altogether beyond the means of the country, and a work which would have to be spread over many years and done by instalments.

This being so, what justification can there be for those who hold their opinions, spending a large sum of money in constructing a railway to the waters of the Georgian Bay, necessitating the erection of most expensive works there, if the railway is ever to become of any use, and probably the subsidizing of steamers in order to establish the means of communication by water from French River to the West and North-West? Surely the means of communication already existing are quite as satisfactory as the proposed Georgian Bay line.

If you will turn to a map (I enclose a spare copy of one which will answer the purpose) you will find that there is already railway communication at seven different points on Lake Huron and the Georgian Bay, viz:—Sarnia, Goderich, Kincardine, Southampton, Owen Sound, Collingwood, Midland City.

The difference between the distance from the head of Lake Huron to French River and to Sarnia is about 100 miles.

Sarnia has the advantage of being nearer to Saginaw Bay and to the country lying along the greater portion of the north of Lake Huron.

From Collingwood and Sarnia there are established lines of steamers running during the summer months, being composed of vessels of the very first class.

There are excellent appliances for handling traffic at both points, and the railways leading to them are in a condition to do any amount of business, and will undoubtedly command a large share of all the trade going.

Would not common sense, therefore, dictate that to improve the means of communication from either Collingwood or Sarnia, if it is possible to improve it, would be the cheapest and easiest method of improving the route to the North-west, and carrying out the policy which has suggested the building of the Georgian Bay Branch, viz., that of utilizing the water-stretches at the least possible cost?

It is no secret that the entrance to French River is difficult and dangerous. Owners of vessels will not send one there from choice, and inducements must be held out in the shape of extra facilities or money advantages to turn the tide of traffic into that channel.

I have spoken principally of the routes via Collingwood and Sarnia, because at both points there is excellent accommodation and established means of transport to and from them.

If the question of distance is, however, to determine the controversy in regard to the Georgian Bay line, there is another route open and available at once which cannot be overlooked, i. e., the route via Port Hope and the Midland Railway to Midland City.

The distance from this point to Montreal by railway is only 391 miles, against a distance of 440 miles from French River.

Sarnia must necessarily be the winter outlet, to a very large extent, for the North-West Territories of the Dominion. A part of the trade may go through Windsor to Detroit; but it is certain that the great bulk of the business will, during the winter months, when communication by water is impossible, find its way through Sarnia.

The railway distance from French River to Montreal, by the existing lines and the projected new line from Montreal to Ottawa, is at least 410 miles; the distance from Sarnia to Montreal, by railway, is 503 miles; the distance from Collingwood, 428 miles.

Now, the difference in the distance from the head of Lake Huron to these points respectively would add only an infinitesimal amount to the cost of transporting traffic to the one furthest away from it, and might be more than offset by the extra facilities provided at the one place as contrasted with the other, and the matter of the accessibility of the harbors.

The distance by water between Midland City and French River is less than 100 miles. At the former place there is an excellent harbor, accessible in any weather, a railway already constructed, and much work done towards the construction of terminal facilities. Why is this route not adopted with the view of utilizing the water-stretches and improving the communication with the North-West, and the money which will be wasted, if expended on the construction of the Georgian Branch, saved?

It is understood that a very little assistance would enable the Company owning the Midland line, which has been struggling for years to meet its engagements, to put that railway in first-class condition. Every convenience exists for the erection of grain elevators and warehouses at Midland City, and it has been shown that in point of distance it has all the advantages possessed by French River. No one will venture to contend that the Georgian Bay Branch is necessary for local purposes.

The real question at issue is, perhaps, that of *supplying the Ottawa Valley with railway communication*. Of course that district is entitled to the same assistance in securing railway communication as has been extended to other parts of the Dominion; but has it any claim to subsidies to the extent which has been proposed? And further, it is neither necessary or desirable that a railway for local purposes should be built in the most expensive way, laid with steel rails, and, in short, constructed as if intended to carry the very largest amount of traffic which could possibly be passed over it? Surely, in these hard times, and when there are so many large works, the completion of which is of the greatest possible importance to the country, it amounts almost to criminality to expend money upon such a scheme as this Georgian Bay Branch.

It is understood that the contract entered into last year has been abandoned, and that the way is open to a reconsideration of the whole subject. It is to be hoped that Parliament will look carefully into the situation, and if it should be determined that the Ottawa Valley is to be supplied with railways at the public cost, that some plan will be hit upon of doing it at less cost and in a more satisfactory manner than will be accomplished by the construction of this expensive Georgian Bay Branch, ostensibly for an object which it will in no sense secure.

NORTH-WEST.

Montreal, March 31st, 1876.

BIRTHS

BARR—On the 17th April, at Lindsay, the wife of Mr. Charles D. Barr, of a daughter.

BUTLER—At Asburn, on the 13th instant, the wife of Mr. John Butcher of a daughter.

CANADIAN NATIONAL SONG.

(ORIGINAL)

Rich in wood and water,
Rich in nature's stores,
Canada the beautiful—
Are thy fertile shores.

Land of the lake and the river,
Home of the good and the true,
The heart of Canadians must ever
Feel proud of a country like you.

Palaces of beauty,
Plough thy summer lakes,
Through thy leafy forests,
Ring the woodman's axe.

Land of contentment and plenty,
Dominion from sea unto sea,
Supplying each want and each dainty,
To those who are dwellers in thee.

Rich in fruits and flowers,
Sweet birds of song,
Revel in thy bowers,
And trill thy woods among.

Land of sweet homesteads, and cosy
As ever decked Nature's fair breast;
Land of gay maidens all rosy
And ripe to be kissed and caressed.

Canada, thy dauntless
Are exquisitely fair,
Pump on thy crystal waters,
And fresh catchable com air.

Land of the maple and beaver,
Land of the torrents of foam,
May we never forget her or leave her,
Our dear our Canadian home.

Land of fried and freest,
Dominion broad and free,
Canada, may blessings
Ever follow thee.

Satan and the Temperance Societies.

A celebrated Welsh Minister, (said to be a Christmas Evans) once addressing a Total Abstinence Meeting, delivered a speech something to the following effect, in the similitude of a dream.

"Methought," said he, "in my sleep I was transported to the pit of woe, and carried to the very presence chamber of the Prince of darkness. From this chamber messengers were constantly passing to and fro with tidings of what was doing in the broad dominions of the King of Hell. Whilst there, a spy from this world of ours rushed rapidly in, with tidings from earth: 'What news,' said Satan" what news?' 'News!' said he, 'bad enough! They have just formed a Missionary Society.' 'Missionary Society!' said the infernal company, 'what is that?' 'Why,' said the spy, 'a Society to send the Gospel to the Heathens.' 'Ah,' said Satan, 'That won't do. I must put a stop to that; the kingdoms of heathen darkness belong to me; I must be up and active.'

Whilst he was yet speaking, in came another from earth, who, observing their fright, asked, 'What was the matter?' They told him. 'Oh,' said he, 'never mind; for the vessel which carry the Missionaries and visit these lands, carry also spirituous liquors, and their crews are fond of it; while the Missionaries themselves are moderate drinkers; the liquor will destroy their labors, never fear, my friends'

Well, soon after came in a fresh messenger, breathless with haste. 'What news?' asked Satan. Oh, said he, 'it is all over: they have formed a Bible Society.' 'Ah,' said Satan, 'that's a bad job: a Bible Society, eh! That will overturn my kingdom; I must stop that.' But before he had done speaking, there appeared one who said, 'Calm your fears, my colleagues. I have watched the men and women with their Bibles, and many go and pawn them for a few pence for drink; and those who keep them, get little good from them when they read them with their heads stupid and drowsy through beer.' 'Oh,' said Satan, 'that's right; the Bible will do us little damage while those sinners on earth quaff down strong drink!'

A little after, another spy appeared with his hair standing on end with fright. 'What's the matter?' said the Prince of Darkness. 'Matter enough, your majesty,' said he; 'they have formed a Temperance Society!' Said Satan—'I never heard of that before; what is it?' 'Oh,' said the spy, 'a society to drink no spirits, and to bring back the drunkard to sobriety again.' 'Well,' said Satan, do they let those who belong to this Society drink wine, beer, and the like?' 'Yes, your majesty; but they recommend them to be moderate!' 'Aha,' said Satan, (and he grinned horribly a ghastly smile), 'comfort yourself, my trusty servant; 'tis from the moderate people I fill you drunkard's den with the lost; whilst many continue moderate, multitudes from their ranks will fall, and I care not whether they get drunk on beer or brandy—'tis all the same to me. Don't be alarmed.'

"There soon appeared a fresh spy from this globe of ours; 'Ah, your majesty,' said he, 'it is all up now:—they have formed a Teetotal Society.' 'Teetotal?' and the Devil, 'what an odd name; what does that mean?' 'Why they drink no strong drink at all, they want to change the beer shops, taverns and gin palaces for butchers and bakers, and shoemakers and drapers and the distilleries and breweries, to flour mills and manufactories.

"Ah," replied Satan, "we are ruined now, the Missionaries and the Bible will succeed, and men will begin to think, and God will conquer and reign. Our fiendish occupation on earth will be done; for no strong drinks are abandoned, and the Bible and the House of God loved, poverty will vanish—crime, ignorance and sin will decrease, and peace, plenty and purity be enjoyed. But," said he, with a malicious look, "do the clergy, and the magistrates, and the middle classes, the professed christians, and fathers and mothers, all favor this teetotalism, and turn strong drink out of their houses?" "No," said the spy. "All right," says Satan "we have no fear that our royal reign on earth will be destroyed, whilst the clergy and the magistrates and many of the professors of religion decline the abstinence pledge, and refuse to deny themselves for others good. Keep your eyes open, ye trusty guardians of my throne, and keep your courage up, for so long as the use of strong drink is respectable, we who rule in hell shall govern on earth." Reader, what think you of this?

"Go out, young man, she's not here," said a Pennsylvania preacher, last Sunday, in the midst of his sermon, to a youth he saw standing hesitatingly in the door way.

"Now Spriggins, my dear," said Mrs. Spriggins, at the theatre, during the first intermission, "you needn't go out to get any coffee, for I have got a half pound in my pocket."

"I never complained of my condition but once," said the old man, "when my feet were bare and I had no money to buy shoes, but I met a man without feet and became contented."

Thackeray once described a kiss of etiquette as "a kiss which is like the contact of oysters." But a kiss not of etiquette is like a rip in a yard of calico—you can't tell where it begins or ends.

HOUSEHOLD AND FARM.

CHEESE STRAWS.—½ lb. butter, ½ lb. Parmesan cheese grated, ½ lb. fine flour well mixed with a small salt-spoonful of cayenne pepper, one egg, and a little salt. Roll it out to thin paste, and bake a light brown. Cut it into a neat form, and serve quite hot on a napkin.

BREAD PUDDING.—Soak the bread in cold water, then squeeze it very dry take out the lumps, and and boiling milk, about half a pint to 1 lb. soaked bread; beat up two eggs, sweeten, add a little nutmeg, and bake the pudding slowly until firm. If desired a few raisins may be added to the pudding. This is a very cheap pudding, and a general favorite in the nursery.

FRENCH TAPIOCA PUDDING.—Take 2 oz. tapioca, and boil it in half a pint of water until it begins to melt, then add half a pint of milk by degrees, and boil until the tapioca becomes very thick; add a well-beaten egg, sugar, and flavouring to taste, and bake gently for three-quarters of an hour. This preparation of tapioca is superior to any other, is nourishing, and is suitable for delicate children.

WHITE SOUP.—Take a large knuckle of veal, 1 lb. ham, and a fowl, if required; a few peppercorns, a head of celery, fine shredded, and two or three onions; add six quarts of water, and let it stew for several hours. Strain the soup, and, when cold, having taken off the fat, add to the liquor on the day it is required, ½ lb. almonds, blanched and pounded. Boil it very gently, then pass the soup through a sieve, and then thicken with half a pint of cream and two eggs.

CHICKEN PUFFS.—Mince up together the breast of a chicken, some lean ham a little parsley, some shallot, and lemon-peal, and beaten mace. Let this be on the fire for a few minutes in a little good white sauce. Cut some thinly rolled-out puff-paste into squares, putting on each some of the mince; turn the paste over, fry them in boiling lard and serve them on a serviette. These puffs are very good cold, and they form a convenient supper-dish.

A BACHELOR'S PUDDING.—4 oz. grated bread, 4 oz. currants, 4 oz apples 2 oz. sugar, three eggs, a few drops of essence of lemon, a little grated nutmeg Pare, core, and mince them finely—*sufficient when minced, to make 4 oz.*; add to these the currants which should be well washed, the grated bread, and sugar; whisk the eggs, beat these up with the remaining ingredients, and when all is thoroughly mixed, put the pudding into a buttered basin, tie it down with a cloth, and boil for three hours.

IRISH CAKE.—Take 1 lb. butter beaten to a cream, ¾ lb. sugar, sifted and dried, nine eggs, the yolks and whites beaten separately, ½ lb. almonds blanched and sliced, 1½ lb. of currants, picked and dried, the same weight of flour also dried. When the butter has been worked with the hand to a cream, sift in the sugar, which should be quite hot; when mixed, pour in the yolks of eggs, then add the whites, work it half an hour, then add the flour by degrees; when thoroughly mixed, add a very small tea cupful of brandy. The currants and almonds, with ½ lb. lemon or citron peal, should be added just before the cakes are placed in the oven, which should be hot. The cake should be beaten and an hour; the hand should be kept moving the same way, and not taken out.

NEW GOOSEBERRY.—The Early Kent is said to be enormously productive, never mildews, and is of a good marketable size fully ten days before the Houghton.

YOUNG men if you should see your girl gazing at your feet, don't shift them about uneasily, or draw them up and sit down upon them, under the impression that she is overwhelmed by their size. She is merely taking your measure mentally, for a pair of slippers, on the toes of which she intends to work a blue dog with a green tail and yellow ears.

MOTHS.—will work in carpets in rooms that are kept warm in winter as well as in summer. A sure method of removing the pests is to pour strong alumn water on the floor to the distance of half a yard around the edges before laying the carpets. Then once or twice during the season sprinkle dry salt over the carpet before sweeping. Insects do not like salt, and sufficient adheres to the carpet to prevent them alighting upon it.

DOMESTIC HINTS.—Knives are very often stained by fruit or vinegar. The stain can be removed by rubbing them with a piece of raw potato before they are cleaned on the board. To clean a *metal* teapot put it in a solution of common soda boiling hot; let it stand twelve hours near a fire; then pour it away, and wipe with a clean cloth. In case a knife or fork handle gets loose set the handle upon end, fill the cavity with pulverized rosin, then warm the small part of the knife or fork and insert it slowly, crowd firmly and hold it in right position until the rosin cools enough to set. The moment used knives are taken into the kitchen, they should be dipped into hot water and wiped, taking care not to wet the handles.

RULES FOR MILKING.—The following rules are issued from a New York cheese factory for the use of its patrons.—

1. Milch-cows should have free access at all times, to good running water.
2. They should never be heated by being run, stoned or dogged.
3. The utmost cleanliness should be observed in milking, and by no means wet the handsin the milk while milking
4. No can of milk should stand where it will absorb the barnyard or stable odor, or any other scent.
5. The milk should be strained and well aired immediatelp after having been drawn *from the cows.*
6. Some arrangement for effectually cooling is at all times very desirable and, when the milk is kept at home over night, is indispensable.
7. Scalding all vessels used about milk at least once a day with boiling water, and rinsing with cold water at night, is essential.

GRAFTING HINTS.—A writer on this subject says:—I once knew an old grafter who declared "a scion must be hungry hungry before it will grow," which in plain language means that a scion laid away for a short time is surer to grow than one cut fresh from the tree. This theory is not confined to the old grafter alluded to above, but has received credence among many skilled horticulturists of the present time. Certain it is that a scion like a cutting is not injured by being cut from the tree prematurely, and laid away with proper care until needed. Some prefer grafting very early; I do not. Just previous to actual growth is the time I select for performing the operation, but I like my scions cut early and preserved in damp soil or moss—the latter preferred. Be careful to have the bark on the scion and stock to fit accurately, tie tightly, wax thoroughly, and there is very little risk about the work.

THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S

Before Taking. After Taking.
SPECIFIC MEDICINE
Cure all Nervous Diseases such as Tremors, Debility, Prostration etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse; as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by devianting from the path of nature and over indulgence.
The Specific Medicine is the result of a life study and many years experience in treating these special diseases. Full particulars in our pamphlet which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing

THE PHYSICIANS' REMEDY
When you are ill and don't know how to get over it you generally send for your physician. If the opinion of SIXTEEN LEADING PHYSICIANS of Montreal is considered worthy of confidence, you will try
Dr. BIRNBAUM'S
Rheumatism and Gout Remedy to the efficacy of which those Sixteen Physicians have certified, for the cure of
RHEUMATISM. NEURALGIA. GOUT.
LUMBAGO. STIFFNESS IN LIMB OR JOINTS.
SPRAINS. FROSTBITES. CHILBLAINS.
BRUISES. CUTS BURNS. WANDERING PAINS.
&c. It has cured several of those Physicians and thousands of others in Canada, and is now considered on this Continent as well as in Europe
The Only Reliable Remedy,
For all kinds of Rheumatic Affections. The fac-simile signatures of 16 leading Physicians of Montreal, are on each bottle as a guarantee of its efficacy.
☞ *For sale by all Druggists at 50 cts and $1.00 per bottle* ☜
CERTIFICATES OF PHYSICIANS
—ARE—
ON EACH BOTTLE!!!!
and can be had also by applying to
CHARLES MARTIN,
Montreal.
Sole Agent for Canada and the United States.

One of the Testimonials!
From Dr DUNCAN MCCALLUM, Montreal—
I the undersigned have been suffering very much for the last two years from Rheumatism in the ankle joint, so much so that I was often prevented from attending to my calling, but three applications of Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and sufferes which I did not experience for the last two years, and after eight days' use of this remedy I find myself entirely cured
I owe this statement to the public in the profession and to the merits of that genuine article
DUNCAN MCCALLUM, M.D.
Montreal, 25th March, 1872 18-1y

VINEGAR BITTERS
PURELY VEGETABLE FREE FROM ALCOHOL
DR. WALKER'S CALIFORNIA VINEGAR BITTERS
THOUSANDS proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, *Pustules, Boils, Carbuncles, Ring-worms,* Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the turn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
R. H. MCDONALD & CO.,

GENERAL

AGENTS WANTED,
Agents Wanted in every Township in Ontario to sell the famous Prize Medal Organ manufactured by the South American Organ Co and George Stark & Co's Pianos.
Special inducements will be given to first class agents and close of three or four wishing to purchase
Any number of testimonials in favor of those first class organs can be furnished, but as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—No testimonial, however flattering can add to their reputation
The Stock Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873
Churches requiring organs will be liberally dealt with. Style 22, South American, are would call attention to as being especially adapted for churches and halls, as proportions are graceful and its musical qualities are unsurpassed. The grand organ stop gives the player facilities for variety and shading effects. The stop can be used so as to obtain by touching the ringing of bells from a whisper of gradually swell forth all the power of the instrument in a most harmonious way
Pianos and Organs furnished Wholesale and Retail from any of the first class American manufacturers
Circulars and price list sent free on application

THOS. ELLIOTT'S
COMBINED
Hay Rake and Ladder
ITS ADVANTAGES.
Attach it to the rear axle of the waggon and it will rake, clear, and load Hay, Rye, hay or other crops that is to be cut, or bind, and by having a low reel drive the teeth down, mash no herbs. One horse can be driven as a rake, walk, and the man can build better than from two machine rakes, which has been stacked. It will save from $2 to $3 a day, and save time enough of of the time of the other modes of working. It is simple of construction; is not drawn by, and will endure much wear and can be used on hill sides or on a windy day, being kept over with wires.
County or Township Rights for Sale.
On liberal terms by a visit to the undersigned, the Patentee, Peterboro, who is having security.
THOS. ELLIOTT,
George Street, Peterborough.

Case of Rev. Mr. Macdonnell.

At a meeting of the Presbytery of Toronto, held yesterday in the lecture-room of Knox Church, the case of the Rev. Mr. Macdonnell was further considered. Rev. Dr. Topp acted as Moderator, and there was a very large attendance of members, both clerical and lay.

Professor MACLAREN presented the report of the Committee appointed at the last meeting of Presbytery to consider a report upon Mr. Macdonnell's statement.

REPORT OF THE COMMITTEE.

"The Committee appointed to consider and report to the Presbytery under the statement handed in by Rev. D. J. Macdonnell, respecting his agreement with the teaching of the Confession of Faith on the doctrine of future punishment, met and considered the same, and having requested and obtained an interview with Mr. Macdonnell, the precise meaning of certain portions of his statement was more definitely elicited. At a meeting of the Committee held last evening a paper, herewith appended, was handed in from Mr. Macdonnell, containing certain notes on the statement submitted to the Presbytery. Your Committee now beg to submit the following report:—

"Mr. Macdonnell's paper, without accepting the doctrine of future punishment as taught in the Confession of Faith, declares a qualified adhesion to the language in which it is embodied. In dealing with this document, in the light cast upon it by Mr. Macdonnell's explanations, verbal and written, three question were considered, viz:—1, Does Mr. Macdonnell's paper embody a statement of views which the Presbytery should accept as satisfactory? 2. If there be indicated in said paper a deviation from the received doctrine of the Church is it of such a nature as can be tolerated in one holding the office of a Gospel minister? 4. What action should be taken by the Presbytery in the premises?

"1. In dealing with the first question your Committee observe that the point raised by Mr. Macdonnell's sermon of last September, out of which the difficulty arose, has respect to the duration of future punishment. The view which that discourse seemed to countenance is that at some future period sin and punishment shall come to an end, and all God's intelligent moral creatures be restored to the Divine favour. Those who maintain this view necessarily hold that such expression as 'everlasting punishment,' occuring in Scripture, do not mean endless punishment, but a punishment which is of limited duration. The bearing of this upon the teaching of Mr. Macdonnell's statement will be apparent.

"Your Committee feel that they cannot recommend the Presbytery to accept Mr. Macdonnell's statement as satisfactory, for the following reasons, viz.:

"1. He does not declare his adhesion to the doctrine of future punishment as taught in the Confession of Faith, in the well understood and historical meaning of its language. He says that the language of the Confession on this point is almost entirely borrowed from Scriptures, and it would appear that it is only when construed in the manner in which he is accustomed to construe Scripture that he declares his adhesion to it. For in reference to the well understood phrase 'eternal torments' when he says is not in Scripture applied to the punishment of wicked men, he accepts it as having the same meaning as "everlasting punishment' in Matt. xxv. Did Mr. Macdonnell accept the doctrine of future punishment as taught in the Confession of Faith, according to the ordinary and historical meaning of the terms, this explanation would be unnecessary.

"2. Mr. Macdonnell in his statement does not define in what sense he understands the phrase 'everlasting punishment' which he substitutes for "eternal torments.' This omission is the more unfortunate after the grave doubts excited by his sermon respecting the meaning which he must attack to such Biblical language. Probably few Universalists would object to the eternity of future punishment, if they were only allowed to understand eternal punishment as having the same meaning as they attach to 'everlasting punishment' in Matt xxv.

"3. It is evident from the concluding portions of his statement that Mr. Macdonnell does not understand 'everlasting punishment' in Matt. xxv. in the sense in which that phrase has usually been understood in the Christian Church, as denoting a punishment which is eternal. If God's Word teaches the endless duration of the punishment of the wicked, it necessarily excludes all hope of their final salvation, but Mr. Macdonnell holds 'everlasting punishment' in such a sense that he can declare, "I do not consider myself debarred by the teaching of Scripture from hoping that God may in some way put an end to sin and its curse.' And he does not notwithstanding the distinct Scripture announcement that the wicked shall go away into everlasting punishment, Mr. Macdonnell can write 'What God may do hereafter is apparently not among the things revealed, or intended to be known; it is evident that he holds 'everlasting punishment' in Matt, xxv, in a sense different from what these words convey to the ordinary reader, and altogether unlike that in which they have been generally understood by the Christian Church. It is manifest that the word everlasting' as used by him in his statement in its ordinary meaning, but rather as equivalent to a meaning which it is assumed the original Greek words may bear. This is, indeed, distinctly recognized in the appended notes herewith submitted, where he says I substituted in the words 'everlasting punishment,' occuring in Scripture, do not mean endless punishment, but a punishment which is of limited duration. The bearing of this upon the teaching of Mr. Macdonnell's statement will be apparent.

"Your Committee feel that they cannot recommend the Presbytery to accept Mr. Macdonnell's statement as satisfactory, for the following reasons, viz.:

"1. He does not declare his adhesion to the doctrine of future punishment as taught in the Confession of Faith, in the well understood and historical meaning of its language. He says that the language of the Confession on this point is almost entirely borrowed from Scriptures, and it would appear that it is only when construed in the manner in which he is accustomed to construe Scripture that he declares his adhesion to it. For in reference to the well understood phrase 'eternal torments' when he says is not in Scripture applied to the punishment of wicked men, he accepts it as having the same meaning as "everlasting punishment' in Matt. xxv. Did Mr. Macdonnell accept the doctrine of future punishment as taught in the Confession of Faith, according to the ordinary and historical meaning of the terms, this explanation would be unnecessary.

"2. Mr. Macdonnell in his statement does not define in what sense he understands the phrase 'everlasting punishment' which he substitutes for "eternal torments.' This omission is the more unfortunate after the grave doubts excited by his sermon respecting the meaning which he must attack to such Biblical language. Probably few Universalists would object to the eternity of future punishment, if they were only allowed to understand eternal punishment as having the same meaning as they attach to 'everlasting punishment' in Matt xxv.

"3. It is evident from the concluding portions of his statement that Mr. Macdonnell does not understand 'everlasting punishment' in Matt. xxv. in the sense in which that phrase has usually been understood in the Christian Church, as denoting a punishment which is eternal. If God's Word teaches the endless duration of the punishment of the wicked, it necessarily excludes all hope of their final salvation, but Mr. Macdonnell holds 'everlasting punishment' in such a sense that he can declare, "I do not consider myself debarred by the teaching of Scripture from hoping that God may in some way put an end to sin and its curse.' And he does notwithstanding the distinct Scripture announcement that the wicked shall go away into everlasting punishment, Mr. Macdonnell can write 'What God may do hereafter is apparently not among the things revealed, or intended to be known; it is evident that he holds 'everlasting punishment' in Matt, xxv, in a sense different from what these words convey to the ordinary reader, and altogether unlike that in which they have been generally understood by the Christian Church. It is manifest that the word everlasting' as used by him in his statement in its ordinary meaning, but rather as equivalent to a meaning which it is assumed the original Greek words may bear. This is, indeed, distinctly recognized in the appended notes herewith submitted, where he says I substituted in the words 'everlasting punishment,' occuring in Scripture, do not mean endless punishment, but a punishment which is of limited duration. The bearing of this upon the teaching of Mr. Macdonnell's statement will be apparent.

"Your Committee feel that they cannot recommend the Presbytery to accept Mr. Macdonnell's statement as satisfactory, for the following reasons, viz.:

Peterborough Examiner.

PETERBOROUGH, APRIL 27, 1876.

APPROACHING CHANGES

Owing to the continued illness of Principal Dixon, the School Board has granted him twelve months leave of absence for the purpose of recruiting his health, which has been shattered through overwork in the service of the Board. In remodeling the classes during his absence, it may not be amiss to consider the advisability of a different division of labor, so as to do away with one Teacher. If this can be effected without impairing the efficiency of the Institute, it will be a saving of $1,000 a year, which would be a move in the right direction. This matter will be brought before the Board at the next regular meeting, and a classification to that end proposed for the consideration of the members. This may necessitate a change of Teachers to some extent, but a change will have a wholesome effect; and no time can the change be brought more appropriately before the Board than at the present. A Head Teacher or Principal has to be secured for at least a year, let him be a classical master. The Board can then engage an efficient English and Mathematical master, and combine the two subjects in one department. By this course $1,000 will be saved, and the efficiency of the Institute maintained. More work, it is true, will be required of some of the teachers, but this would have a wholesome effect in the end. The saving of $1,000 is a question of importance, and one that cannot long be ignored by the Board. An effort towards attaining that desirable object is worth a trial, and a wise selection of teachers will guarantee the continued efficiency of the Institute.

CIVIL ENGINEERS "AT HOME."

Sandford Flemming, Esq., entertained his profession at a grand dinner, at Ottawa, on the 12th Instant.

The FREE PRESS says it was one of the most unique and at the same time one of the most enjoyable affairs got up at the Capital. The invited embraced some of the leading Engineers on the Newfoundland, Intercolonial and Pacific Railways. On this occasion Mr. Flemming eclipsed all former efforts, and entertained his friends in a princely and magnificent style, calculated to cement the bonds of friendship which already bound the company.

The table was beautifully decorated with natural flowers, and a bouquet of flowers was laid before each guest, a mark of respect by Mrs. Flemming, who has unfortunately been ill for some time past. One of the most prominent articles on the table was a huge block of ice resembling a Rocky Mountain Glacier. The fare was most remarkable; in its selection every province of the Dominion was represented, including even Keewattin, from which came a pemmican of the Saskatchewan, a beaver tail and cariboo tongue, and whatever way obtained every province was represented. The guests too were from every quarter of the Dominion and before them were found the choicest luxuries and daintiest bits of their several districts. On the title page of each bill of fare was printed in neat letters the name of the guest for whom it was intended, an the second page was "the bill of fare."

Mr. Flemming occupied the chair, with the Hon. Mr. Mackenzie on his right,

The toasts were the usual loyal ones, and the speeches appropriate.

After several volunteer toasts had been duly honored, Mr. Mackenzie proposed the health of Mrs. Flemming, and in so doing, referred to her recent illness, and expressed the hope that she would be speedily restored to perfect health. Mr. Flemming responded, and thanked them on behalf of Mrs Flemming for the honor. Owing to her late illness, it was impossible to entertain those present at their private residence, as had been the original attention, but Mrs. Flemming had shown that she remembered them by presenting them each with a bouquet of flowers.

The National Anthem was now sung, after which one of the most enjoyable evenings of the season was brought to a close.

LICENSES.

WEST PETERBOROUGH.

The Commissioners for the West Riding met on Tuesday, at the residence of Mr Smith, Chairman of the Committee, who on account of his late illness has not yet ventured to town on business, although able to go out in his carriage, and we are glad to be able to report improving rapidly.

After receiving the reports of the Inspector, and considering each application, they recommended granting tavern licenses as follows:

IN THE TOWN—Huffman House, John Sullivan, Mrs. H. Morgan, R. N. Roddy, Wm. Croft, A. P. Morgan, Ed. Phalen, J. Dunlop, Caisse House, Joseph Brault, James Wilson, Napoleon Provencaux.

As there can be two more granted, other applications are left over for consideration on Friday.

The Shops recommended are, W. Harty & Co'y, Rush, Rubidge & Co., McKeiver & Hogan, John Cameron, A. Morton, Geo. Snyder, John Garvey, and Thomas Chambers & Son.

SMITH—M. Hetherman, Bridgenorth; R. Northby, Selwyn; S. Nicholls, Buckhorn; James Kearney, Youngs' Point.

LAKEFIELD—G. German, Mrs. Purser and James Carveth. No shop licenses were granted.

ENNISMORE—P. Grady

NORTH MONAGHAN—Mrs. Scott.

There were no other applications from Ennismore or North Monaghan, and no applications from Harvey or Galway, so that in the West Riding there will be 20 tavern licenses, 8 shop licenses, and no saloons.

EAST PETERBOROUGH.

The Commissioners for the East Riding met in Ashburnham on Thursday last, all present. Mr. Stratton was appointed Chairman, and Mr. Drain Secretary,

It was agreed that the meetings of the Commissioners be held in Ashburnham, and that Mr. Stratton make arrangements to get the use of the Town Hall for the purpose.

The Inspector placed the applications for licenses before the Commissioners, and his reports thereon, when the following persons were recommended to obtain tavern licenses.

OTONABEE—John Gall and John McLaughlin, Keene; A. Krakine, Wallace Point; John Smith, Indian River.

ASPHODEL—Hugh Beckett, Mrs. Brennen, — Hill, Norwood; Geo. Galvin, Westwood; R. Ball, for shop license in Norwood.

ASHBURNHAM—Geo. Rickey, tavern; Lewis Glover and E. Calcutt, shop license. Wm. Swanston's application left over for consideration when the Commissioners meet to day. Applications from Belmont, Dummer and Burleigh were also laid over. There were no applications from Douro.

TOWN COUNCIL.

SPECIAL SESSION.

The Council met on Friday evening in special session.

In the absence of the Mayor Councillor Dixon was appointed chairman.

The Clerk stated that the meeting was called on a verbal message of the Mayor to take into consideration the Butchers By-law.

Mr. McClelland said that on reconsidering this matter he would move an amendment that the outside butchers be charged $10, that they were necessary, and thought that all this council should ask from them was enough to give them power to say where they shall be, and how many. The amount, if it was higher, only comes out of the ratepayers pocket, and the butchers in the market pay no license—merely a rental—and that the outside butchers pay rent, taxes and license, and against charging the outside butchers more than $10. He therefore moved, seconded by Mr. Cook, That the blanks be filled in with $10.

Mr. Rutherford asked for information in connection with the butchers license. The butchers who had the stalls in the market went to the Secretary of the Commissioners and renewed their rent for the next year before it was time, and if it was legal for the Secretary of the Commissioners to receive it in advance, he was in favor of putting them up at auction and giving all the butchers a chance.

The Clerk said that the Commissioners have the entire control of the stalls, and they act just as trustees.

Mr. Rutherford said he thought the Commissioners did what the council authorized them to do, but he did not agree altogether with Mr. McClelland as to the price of license; some of the butchers wished to be charged $50 a year, but moved an amendment to the amendment that the blanks be filled in with $15.

Councillor Thornton said that Mr. Rutherford must have met the wrong man, as he had been talking to some of them, and they were not willing to pay more than $10.

Mr. Haggart said that the council have met to discuss fairly and squarely the wants of the people. The butchers in the market pay $450 a year; nine outside butchers only pay $100, and urged that a license be put on the farmer butchers who make a practice of going and buying their neighbors cattle, fatten them and bring them to market.

Mr. Douglas said the butchers pay no license, merely rental, and that they got value for their money, while the outside butchers paid rent, taxes and license.

Mr. Haggart said that the butchers in the market pay a rent to the town of Peterboro which is more than equivalent to the license of the nine outside butchers

Mr. Cahill said that if the 5 stalls in the back of the market were rented they would add about $200 more to the finances of the town.

Mr. McClelland said that the outside butchers were necessary, and that he did not know of any person in town that had closed his place to suit himself, but he knew of one or two that had to close for want of support; that the most obliging man, and the person who kept the best meat, were the ones that would draw custom. He thought that meat should have as free a scope as bread, as they were both a commodity of every day life, that the outside butchers were accommodating the public and should not be charged any more than that which would give the town the control of them.

Mr. Dixon was in favour of charging them $50.

Mr. Elliott said that it was not protection the butchers want, it is monopoly, and urged the council to raise the outside licenses gradually, but would vote for Mr. McClelland's motion of $10.

Mr. Cook did not see why the outside butchers should be charged a high license and let the butchers in the market go the same as they were before, they should deal with them all alike and show no partiality.

Mr. Hopkins coincided with Mr. McClelland, and said that the outside butchers were necessary, but would vote for the original report of the committee which was to charge them $20; if he had to vote alone on it, as he had promised to vote for it.

Mr. Paterson was in favour of having them as they were, without charging them; if they wanted to let them by auction why not let them by sealed tenders, and no person would know what another was giving, and they would then give what they really thought they were worth.

Mr. Rutherford asked how would it be if they all tendered for the same stall.

Mr. Paterson said the Commissioners would have to deal with it, and let them go through the market the same way.

Mr. Rutherford asked for the Mayors view on the matter, and wanted to know after discussing for about an hour and a half the Butchers By-law, what they were called here for.

Mr. Paterson said that he understood that they had adjourned till Monday.

Mr. McClelland said that perhaps some of the members knew that they had no power to take up the By-law to regulate the sale of meat, and that they had no power to deal with it at the present time, as it was necessary to form a market By-law. If such By-law was appealed it might be brought in contrast with the Market Clerk or Tolls.

Mr. Paterson said that this question had nothing to do with interfering with the Market Clerk after the tolls are let.

The Mayor then came in and took his seat and stated his object for calling the meeting together was for them to discuss the best means for the protection of the Butchers' Licenses, and when they agreed on anything to put it in writing, and hand it over to the Town Solicitor to see if it was legal.

Mr. Cahill thought the meeting was called to discuss the whole market By-law, but found that it was only the butchers By-law. He was in favour of having outside butchers and would vote in favor of charging them the usual amount of $10, as they should have as good a right to sell meat as the baker has to sell bread, as they were both necessaries of life.

The Mayor said the law gave the municipality power to regulate the butchers licenses, and that there is no law for regulating bread other than it must be a 4lb loaf, and he believed if they charged the outside butchers $50 of a license it would not increase the price of meat one fraction.

Mr. Rutherford said that $20 was too much, and that $15 was about right.

Mr. Elliott said that $10 was enough to charge the outside butchers.

Mr. Cahill said that seeing that some members of the Council urged that the outside butchers wanted to be charged $50, he would move that all the present outside butchers at the present time pay $50, and all new ones taking out license be charged $10. He thought that this would satisfy both parties, and pressed on the council the necessity of making a new market By-law so as to compel the farmers to bring all their produce to the market before disposing of it, and that this would be a far better plan than having the streets blocked up at Mitchell's and Dixon's corner with the farmers sleighs drawing wheat, this would increase the revenue of the town, and would not drive any of their grain to other markets,

The Mayor wished to know if Mr. Cahill was joking or not.

Mr. Cahill said some of the Commissioners wanted to charge them $30, and he thought this would meet their wants.

Mr. Haggart said that after all the discussion on the Butchers' By-law he would see who was the poor man's friend, and that he could get a seconder for this motion, "that the outside Butchers' licenses be $1 per year."

Mr. Cahill said that Mr. Haggart was always too extreme; at one time it was $50, and then again it was $1, he believed in moderation in all things.

Mr. Haggart said that it was as near free at it could be; the council had to regulate this and see that they kept proper places, and wished to see who were the poor men's friend in this council.

Mr. Hopkins said that he had pledged himself to vote for the original motion or he would vote for Mr Haggart's amendment; he was not going to sit all night and then "jump the broomstick," but would not object to it if it should carry.

Mr. Rutherford said that as he had no seconder for his motion he would withdraw it and would second Mr. Haggart's amendment.

The motions were then put on the following divisions:

Messrs. Cahill. McClelland, Douglas Cook and Elliott voted for having it at $10.00.

Messrs. Hopkins, Taylor and Toole voted for the original motion of $20.

Messrs. Haggart and Rutherford voted for the license to be $1.00.

Moved by Mr. Hopkins, seconded by Mr. Rutherford,—That the By-law be reconsidered over again.

Mr. Haggart then put his motion again for the license to be $1.00, which was lost on the following division:

YEAS—Messrs. Haggart, Paterson and Rutherford.

NAYS—Messrs. Cahill, Toole, Taylor, Hopkins, McClelland, Cook, Thornton, Elliott and Douglas.

Mr. Toole then moved the following motion which was carried:

Moved by Mr. Toole, seconded by Mr. Thornton,—That all grain and other farm produce not exempt by the statute be brought to the market and made liable to pay a market fee.—Carried.

Mr. McClelland here drew their attention to the Market By-law, that farmers and others had a right to sell fresh meat by the quarter, side, carcase, only on the market square, and said that before they go to pass a By-law we shall have to repeal that, because it may bring us in contact with others, that this council will be liable to the market clerk for any losses that he might sustain, and if some of our farmers are a little speculative, buy their neighbors cattle, bring them home and fatten them, and then bring them to market, why should the butchers in town try to monopolize the farmers coming in and selling if it was to the benefit of the ratepayers of the town for them to do so.

Moved by Mr. Cahill, seconded by Mr. Cook,—That the license fee for outside butchers be $10. This was declared carried on the following division:

YEAS—Messrs. Cahill, Taylor, Toole, Haggart, Hopkins, Douglas, Thornton, and Rutherford.

NAYS—Messrs. McClelland and Elliott.

The second clause of the By-law was read when it was moved by Mr. Cahill, seconded by Mr. Haggart,—That a license fee of $25 per annum be in addition to the usual license fee be charged to all persons who do not already pay a license to this corporation who make a practice of buying up cattle, sheep, &c., and offering them for sale on the market by the quarter or carcase, provided the butchers in town will enforce this part of the By-law at their own expense.

The motion was carried and referred to the Town Solicitor to see if it was legal.

The council then ad ourned.

TO ALL CONCERNED.—The License Inspector require all those who are taking out Licenses to get the bonds filled, signed and sealed at once, and sent in, the cash placed in the banks, and the certificates placed in their hands. By order

The Committee on Depression of Trade drew up their report on Tuesday. They regret that they have not been able to go over the whole ground embraced in the order of reference, and are therefore unable to submit to the House all the necessary information to complete the consideration of the subject. They recommend the renewal of examining either by Committee ai Commission during recess, They state that the causes which produce depression in the commerce of our country are beyond legislative control; attribute depression in the lumber trade to diminution of demand in England United States, Indies and South America. With regard to merchantile depression, the system of credit was a faithful source of mischief. Excess in value of imports over exports seems indicative of inflation. They hold that the complaint against America drawbacks system of sugar is not well founded.

At a meeting of the Depression of Trade Committee in Ottawa on Thursday, M. D. McGrae, woollen manufacturer, of Guelph was examined. He said he has a capital of $12,000 and annually turns out $60,000 worth of goods. He imports a third of his wool, and finds that he can produce goods cheaper than similar goods can be made in Great Britain and imported here, paying freight and duty. He wanted no higher protection that the present one of 17½ per cent. Mr. Watson, of Ayr, manufacturer of agricultural implements, was also examined and said he was opposed to further protection. This shows the absurdity of the cry got up by protectionists that our manufactures are being ruined for want of higher duties.

A Young lady dressed in much false hair was warbling at the piano, and when her mother summoned her to assist in some household duties, her rosy lips opened poutingly and snapped out, "O, do it yourself!" And then went on singing, "Kind words can never die."—*Norristown Herald.*

It is said that $22,000 changed hands in Toronto, on the Oxford Cambridge boat race.

Last week a special fast train winged James Gordon Bennett of the New York *Herald*, from Niagara Falls to Syracuse, 158½ miles, in 156 minutes, and made three stops. At Rochester Bennett told the engineer he would give him $1,000 if he would run to Syracuse in 81 minutes. The distance of 97 miles, and the run was make in 83 minutes, including a stop of five minutes for water at Palmyra. The engineer came within two minutes of his $1,000, and Mr. Bennett gave him a check for $1,00' leaving off one cypher for two minutes, or $450 per minute.

A TROPHY OF THE CHASE.—Mr. James Sawyers, of Stanhope, has a pair of moose's horns for which he was offered $20, which offer he laughed to scorn. The animal from which they were taken was killed last fall at Cedar Lake by Mr. Benjamin Sawyers, of Minden, weighed about a thousand pounds, and was 12 years old. The horn measure 4 feet 1 inch from tip to tip and weighed something over seventy-five pounds Each horn measures 13 inches across the widest part of the flat, and one of them has ten prongs and the other eight. The fortunate possessor intends to have a cute seat made of them. The moose's ears measured 13 inches.—Fenelon Falls "Gazette."

Lindsay at the Centennial.—Mr, J. C. Rodden has sent a patent railway rail to Philadelphia, and Mr. Charles Foley 155 specimens of Canadian birds to be shown at the Centennial.

IMPORTING OATS—One of our merchants has ordered a car loads of oats from Toronto in order to supply the local demand in this village. Such an unusual proceeding in the natural course of trade is not due: we are informed, to any scarcity of the grain in this section, but simply to the fact the farmers will not sell at the prices offered, and hence it is found cheaper to buy in Toronto and bring them here by rail.—Cannington "Gleaner."

NEW ADVERTISEMENTS

SPRING, 1876!

ORMOND & WALSH

Are now fully prepared with their Spring supply of of newly imported

Field, Garden, & Flower Seeds.

Purchasers of Seeds must now be convinced of the disappointment experienced in buying seeds from boxes or packets already put up and placed in Stores on commission, and in many instances transferred from place to place for years before being sold; the disappointment experienced, not only from their non-vegetative power, but from the small quantity contained in each paper. To prevent these disappointments Messrs. ORMOND & WALSH sell the whole of their seeds by weight, at a fair and moderate price, with a guarantee of their FRESHNESS and vegetative power.

They would call the attention of those who purchase Field Seeds, to the fact that the produce of Ormond & Walsh's Seeds have taken the majority of prizes at the Agricultural Shows of the County for some years, and particularly for Carrot, Mangold and Turnip at the Central Exhibition of last year.

Special care has been bestowed in the selection of Flower Seeds, Stocks, Asters, Balsams, Phlox Drummondi, Larkspurs, and Portulacca, have been received in the original packages, as imported. Other kinds in great variety.

Messrs. Ormond and Walsh are Agents for Mitchell Brothers, of Port Hope, and will have constantly for sale, during the Spring and Summer, all descriptions of bedding-out plants, and also House Plants of the best description, in great variety, in blossom, and at very low prices.

Timothy, Clover, Vetches, Hungarian Grass Seed, Millet, with a variety of Grass Seed in quantity, and as cheap as any House in Town.

Peterborough, April, 1876. 15-3in

The Examiner.

PETERBOROUGH, APRIL 27, 1876.

ABRAHAM WIDMORE of Dummer has returned from Kingston, he having been released after one year's imprisonment.

WHISTLE-WING—The "Whistle-Wing" will commence her regular trips on next Monday.

USE CLARK & Co's Extra Quality Six Cord Cotton, with ANCHOR ON SPOOL. Leading Sewing Machine Agents say it is the best.

THE Mendlesshon Quintette Club of Boston will give a concert here on Friday 12th of May. The number of Artists to take part in the performance is a guarantee that the concert will be a success.

TRAVELLERS TAKE CARE OF YOUR VALISES.—A mulatto was sent to Belleville gaol on Saturday, for stealing a valise from a Grand Trunk Car. He had an accomplice to whom he threw it, and afterwards rifled it.

PETERBOROUGH BOAT CLUB.—The Regular Monthly meeting of the Peterboro-Boat Club, will be held at 7:30 P. M., On Monday next, 1st May, at the Boat House. Several matters of importance will come up at this meeting.

ST. PAULS CHURCH.—Rev. Mr. Calder of Orono will preach in St. Pauls Church, Peterborough, To-morrow, (Friday) both morning and evening, at the usual hours preparatory to the Lord's supper, which will be given on Sunday.

THE COTTINGHAM ESTATE.—This estate was sold on Saturday last, realising about $100,000. Some of the land in Ops, brought $58.50 per acre, and a park lot in Omemee $77 per acre. Mr. Thomas Stephenson purchased the Omemee Mills at $12,200.

The Best Sewing Cotton for Hand or Machine Sewing is CLARK & CO'S EXTRA QUALITY SIX CORD. Notice the Anchor on each Spool.

THE BREWERS.—The License Inspectors have received Instructions to demand from all brewers the sum of 150 each, as License, and to enforce payment thereof. The Brewers either have received notice to this effect or will in a few days.

LICENSED VICTUALERS.—This association for this district will meet on the 3rd of May at the Stewart House here, Important business connected with the liquor traffic is to be discussed and funds subscribed for protection of members in case of any Law suits.

REDUCTION OF FARES—The Port Hope *Times* says: That a general reduction of the passenger fares on the Midland Railway came into force on Monday last. Tickets will be sold at stations at ten cents less than tariff rates. but full price will be exacted when fares are paid on the cars so they say.

THE MEDICAL COUNCIL EXAMINING BOARD.—According to "Students" the Medicos of the Examining Board at Toronto had a loud time. Drunkenness, profanity, and general pandemonium antics are reported as the order of some members of the Board. What a shame to have the profession suffer by their general indiscretion in selecting such examiners. Some of them ought to be rotten egged.

TEMPERANCE DEMONSTRATION.—We understand that the Good Templars of this town and county intend holding a temperance demonstration on Dominion Day. G. W. Ross, Esq., M. P., Mrs. Yeomans, of Picton, and other noted temperance speakers have been invited, and are expected to be present, and deliver addresses. The friends of temperance in the adjoining counties are to be invited to join in making the demonstration a success.

CLOSE SEASON.—The close season for Pickrel and Maskinonge commences on Monday May 1st, and will continue until the 15th of May, when that for Bass will begin, ending a month later. Inspector Cochrane will be on the alert and it will be dangerous to attempt a violation of the law, which provides severe penalties for those who set at nought its enactments. Every person ought to assist in preventing any attempted violations of the law which come under their notice.

W. G. Tennessy's Show rooms are now open, and are beautiful. In the Millinery Department there are bonnets and hats in Leghorn, chip, straw and lace and all the new shades in ecru, cream, sealbrown, pale blue, mauve, etc. Mantlets in cashmere, silk-velvet, fichus, jackets, linen costumes and everything to please the fancy. Miss Currie will take great pleasure in shewing all these novelties, and in fitting up in her most inviting style any of these articles.

THE DECLINE AND FALL OF KEEWATIN, or the Free Trade Bedskins, a satire, has been issued from the GRIP publishing office. The object of the author is to hold up to ridicule the great pow-wow of parties over "the free trade and protection humbug got up by the Tories, and into which RED-PUSH, CLEAN-HANDS and other Chiefs of the tribes of Keewatin have been dragged. The illustrations by J. W. Bengough, are in his usual inimitable style. The letter press work is in the best style, and the thrust at party inconsistencies impartial. GRIP's last Cartoon also, is one of his best.

SALE OF FURNITURE.—Attention is directed to the sale announced to take place on Thursday, May 4th, at one o'clock p. m. A large quantity of Elegant Household Furniture, belonging to John Elder Esq., will then be offered without any reserve whatever. An opportunity of purchasing cheaply some beautiful and useful household articles is here afforded, and to those who "keep house" this opportunity should not be lost. A Catalogue of the articles has been issued, and contains a brief list of the goods, which can be obtained by applying at his store.

HALL INNES & Co.—We invite attention to the advertisement of Messrs Hall Innes Co. this issue. Their spring and Summer stock is complete in all departments with the nicest and newest goods. Their Millinery rooms are open with all the novelties in Bonnets hats ribbons feathers laces, and everything to be found in a first class establishment. Especial attention is invited to a want long felt, which want the Messrs Hall Innes & Co, have now supplied by keeping a full assortment of Mme. Demorest's Patterns of Ladies Misses and boy's clothing. Call and obtain a catalogue.

KILLED BY A FALLING TREE. We regret to learn that Timothy Crough, of Ennismore, was killed while chopping in the woods on Monday. He was chopping cedars and two or three of them lodged on another dry cedar. He succeeded in getting the lodged trees cut down, when, the other one relieved from the weight sprang back. In the spring, a portion of it broke off and struck him on the head, causing injuries of which he died in about an hour, never speaking after the accident. He was about 30 years of age, and leaves a wife, but no children. He was about a year married.

PETERBORO LITERARY ASSOCIATION.—This association held its usual weekly meeting on Tuesday evening last,—Mr. W. H. Scott, E. A., President, in the chair. Mr. H. F. Beck read "The Haunted Palace"—Edgar A. Poe. Mr. C. A. Boulton read a very interesting essay entitled "Our Future." The subject for debate was—"Should Capital Punishment be abolished?" The affirmative was argued by Messrs. Earl and N. D. Beck, and the negative by Messrs. Edmison and E. H. D. Hall. The President, after summing up the various arguments adduced, gave his decision in favor of the affirmative.

BRANTFORD.—The *Courier* says: That on Saturday last, the residence of Mr. Brendon, of that town was Entered and a quantity of silver, to the value of $100, stolen. The robbers entered by the Kitchen window which had not been secured. On either the same night, or on Sunday night, some over honest persons entered the workshops of the Blind Asylum and carried off $240 worth of tools. No article that can be obtained at the hardware stores were taken, and the *Courier* says there were twenty-two benches to select from, and as the tools are useless to any one but inmates of the Asylum it is difficult to assign a motive for the theft. A man calling himself John Walsh succeeded in obtaining a suit of clothes on a forged order, but in presenting another order for carpeting, the merchant's suspicions were aroused, and he succeeded in detaining Walsh till he found out that the orders were forgeries and then had him arrested.

CONFERENCE—Perhaps it is not generally known that the Toronto Conference of the Methodist Church of Canada, will hold its Annual meeting, early in June, in the George Street Church Peterborough. We are informed that the Conference Proper will be in session about eight days. The Members of the Stationing Committee will assemble some days earlier than the Conference. It is expected that from 250 to 300 Ministers will attend this Conference. It is Customary for the resident families, where the Conference is held, to Entertain the ministers at their homes. No doubt the Methodist Church in Peterborough can accomodate even this large number of Ministers. But it may give pleasure to many members of other Congregations to have one or more of the Ministers billeted with them. If so the matter can easily be arranged by conferring with either of the Methodist Ministers of the town. They are now very busy preparing the list of billets and it will be necessary for those desiring to show their hospitality to attend to the matter at once.

FOUND DEAD IN HER HOUSE.—Mrs. Hunter a dressmaker, on Hunter Street, was found dead in her house on Monday morning, lying on her face on the floor. An inquest was held by Doctor Kincaid, and at the inquest it was discovered that for some time the woman has been mentally deranged. She lost her husband in the American war, shortly after an only daughter died, and since that time she has manifested mental weakness, although she endeavoured to earn her living by dressmaking. Lately she refused to let her wants be known, until when found she was so poorly clad, and in want of nourishment that it is generally believed she died from these causes; although several ladies offered her assistance, she refused to let her real state be known. There was literally nothing in her house but a crust or two of bread, no bedding, no clothing, no furniture except a stove and trunk, and a couple of chairs. It was said that Mr. Patterson had told Mr. Reavis to get the Town Physician to see her on Thursday or Friday, but it was not said that he did so, and thus for want of nourishment and clothing, largely because she would not accept or would not let her state be known, and for want of medical authority to have her removed to some place where she could be taken care of, this poor creature, robbed in part at least of her reason, is allowed to die of starvation, while drunken loafers and saucy worthless vagrants were receiving of the bounty of those who dispensed charities. This is just as was expected all along, and is another proof of the necessity of placing charities in other hands than those of office seekers, or partizans, who would use even the life of a fellow being to secure an object, let that object be gain or honor, or the power to injure an opponent. If she had had a vote she she would have been attended to.

TOWN COUNCIL.

Monday. April 24.

The Council met on Monday evening

Present—the Mayor, and Councillors Dixon, McClelland, Paterson, Hopkins, Taylor, Cook, Elliott, Thornton, Cahill, Rutherford, and Haggart.

The minutes of the previous meeting were confirmed. The Councillors and the Mayor deeamed for some time whether they should read the minutes of the special meeting or not on Friday evening, the Mayor contending that it was not necessary for them to confirm a meeting where they met in committee of the whole, and some of the Councillors held out that they met in council, and on motion went into committee of the whole. However the minutes were read and received.

Mr. Cahill wished to rescind from the By-law referred to the Town Solicitor the part of the By-law referring to the butchers being at the expense of prosecuting outside butchers while we have a License Inspector and Chief Constable at good salaries, and thought that they should see after it.

The Mayor said that he could do this when on the second reading of the By-law.

COMMUNICATIONS.

From John drawing the attention of the council to a petition presented some two years ago in reference to a drain that was washing the earth from his lot.

From E. Arabambo praying that a sidewalk be laid on Cedar Street.

From Joseph Ballar and 12 others asking for a water table on Bethune Street, and a sidewalk on Sherbrooke Street.

From John Burnham and 60 others asking the council to lay a sidewalk from the market square on Hunter Street, to the wharf and boat house, also one from Sherbrooke Street to the same place.

From L. Smith asking for a crossing over the drain to reach his house.

From A. Sloman and 20 others asking for a sidewalk on Sherbrooke Street.

From P. Goyette and others asking for a sidewalk from Sherbrooke Street to Water Street.

From John Lynch asking the council to gravel and water table Elm Street to Park Street.

From Geo. Barlee and R. Hall reporting on the Relief Committee accounts, and stating that they were correct according to vouchers.

ACCOUNTS.

George Tanner,	$74 10
John Irwin, Fire department	3 00
S. McCabe, work on creek	0 50
— Moher	0 50

DISPOSALS.

The petitions for sidewalks will stand over till next meeting, six voting for the petitions to be received, and six voting for them to be referred to the Street and Bridge Committee.

Tanner's account was referred to the Furnishing Committee with power to act.

John Irwin's account was referred to the Finance Committee.

The other accounts were ordered to be paid. Auditors report was read and fyled.

FINANCE REPORT.

Mr. Cahill, chairman of the Finance Committee read over the following reports recommending payment of the following accounts:

James Howden,	$50 00
A. Comstock,	46 25
J. Pappin,	7 25
R. White,	4 00
H. Morgan,	2 00
J. Brown,	4 50
E. Greene,	3 50
Dixon estate,	10 00
Geo. Johnston,	8 00
H. Best,	32 00

On motion of Mr. Cahill the report was received and adopted.

Moved by Mr. Cahill, seconded by Mr Haggart,—That the Clerk be requested to furnish to the council at their regular meeting after the end of each month a statement of his disbursements during the previous month with total to the end of the month, and the department to which such disbursement is chargeable.—Carried.

Moved by Mr. Paterson, seconded by Mr. McClelland,—That as this council is paying for the use of the archway to and from the market, it is desirable to have the said archway completed and put in proper order for travel, and that the Clerk notify Mr. Bradburn to have the said done as soon as possible, and that the Street Inspector have the platform moved to the proper place, and all obstructions removed from the market.—Carried.

The council adjourned for two weeks.

BIRTHS

GRENDY.—On the 5th April, at Peterborough, the wife of Mr. Harry Grundy of a son.

CAMPBELL.—At Elphrida, on the 20th inst., the wife of Rev. I. Campbell of a son.

DIED.

LONG.—At Ashburnham on Wednesday, 26th instant Mr. Wm Long, æt. 56 years

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Cymond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' ECLECTRIC OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

READ THIS TWICE.—Five to thirty drops of Thomas' Eclectric Oil, will cure common Sore Throat. It never fails in Croup. It will cure a cold or cough in twenty-four to forty-eight hours. One bottle has cured Bronchitis of eight years standing; recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application in all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lame Back or Crick in the Back. For diseases of the Spine and Contraction of the Muscles it is unequaled. In Rheumatic or any other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and in Colics, after the best and cheapest medicine ever offered to the people—the cheapest, because it takes so little to do you good—it is composed of six of the best oils known, and nothing but oils. It is worth its weight in gold. Why not buy it to-day?—A. H. Dee Rochers, assistant postmaster, Arbabaskaville, P. Q., writes;—"Thirteen years ago I was seized by a severe attack of rheumatism in the head, from which I have nearly constantly suffered. After having used 'Thomas' Eclectric Oil' for nine days, bathing the forehead, I have been completely cured, and have only used half a bottle. This I can certify under oath if you wish."—Rev. J. Mallory, of Smyrna, N. Y., writes "Dr. Thomas Eclectric Oil cured me of Bronchitis in one week Dealers all over the country say, "We have never sold a medicine that has given such complete satisfaction as this."

Sold by all medicine dealers. Price 25 cts.

S. N. THOMAS, Phelps, N.Y.

NORTHROP & LYMAN, Toronto, Ont., Sole Agents for the Dominion.

NOTE—Electric—Selected and Electrized.

Quality supplied to all my former customers.

continued from first page.

have asked the Presbytery to accept the statement, which would have relieved the difficulty so far as it was a personal difficulty. But when they were asked to receive an satisfactory—let them mark the words—a statement which contained these words: 'While I do not consider myself debarred by the teaching of Scripture from *hoping* that God may in some way put an end to sin and suffering, I am satisfied that it is not a part of the message with which I am entrusted, as a minister of the Gospel to hold out any hope of future pardon to those who have in this life rejected Christ. 'Now is the accepted time.' What God *may* do hereafter is apparently not among the things revealed or intended to be known.' He (Principal Caven) could not pledge his conscience to say the statement was satisfactory, because it was neither consistent with the Confession of Faith nor with the sense in which they understood the representations of Scripture on that important subject. He spoke with pain and sorrow, and he earnestly hoped the resolution would be accepted as satisfactory.

Rev. Mr. MITCHELL said he thought it was proper, as he proposed at the last meeting of the Presbytery the motion to receive Mr. Macdonnell's statement as satisfactory, that he should take the opportunity presented in seconding the motion now before the Committee to state his reasons for the course he had pursued. At the Committee meeting he wished very strongly that Mr. Macdonnell's statement, that he desired the second part of his declaration to be withdrawn, should have been presented in the report. He fully concurred in the criticisms of Principal Caven. In regard to the expression relating to Mr. Macdonnell's interpretation of Scripture, there was not the slightest intention to reflect upon him as an expounder of the Word of God. It might appear as if he (Mr. Mitchell were standing in a somewhat inconsistent position, When he proposed that the statement be received as satisfactory, he thought Mr. Macdonnell had put himself right in the first part of his paper. He did not wish to push their brother into giving an interpretation of the word *aionion*, and was willing to understand him as taking the position that "eternal torments' was a term synonymous with 'everlasting punishment,' for the reason that the word 'everlasting' was Mr. Macdonnell's difficulty. When they came together in conference the meaning of 'everlasting,' according to Mr. Macdonnell's interpretation, began to appear that he would apply it as it was applied in portions of Scripture, to things finite, and as indicating an indefinite cycle of periods of punishment, which when completed would leave the way for God to do something else with the wicked than what other portions of Scripture might indicate. He (Mr. Mitchell) was not prepared to accept such a view of the doctrine. He held to the Confession of Faith *simpliciter* and believed in the doctrine of everlasting punishment. He hoped that Mr. Macdonnell was wrong in his interpretation, for the reason that there was a conflict going on between his mind and his heart—that while he gave an intellectual assent to the doctrine there arose in his mind a conception of the awful nature of the subject, and with it a sort of vague unformed desire that God would in some way put an end to sin and suffering. He was thoroughly satisfied with the expression, "I am satisfied it is not a part of the message with which I am entrusted as a minister of the Gospel to hold out any hope of future pardon to those who have in this life rejected Christ' The use of the word 'hoping' in the first part of the same sentence, however, presented a direct contradiction. The e was no use hoping for something which was hopeless. He could not understand Mr. Macdonnell preaching that if a man rejects Christ now, there is no hope of salvation, and then telling him that there was hope. But he (Mr. Mitchell) was prepaired to set aside that contradiction, because of the interpretation he thought Mr Macdonnell gave of the word "hope'—that it was an unformed desire that God would put an end to sin and suffering, and that it was like hoping against hope. To-day we received news of a vessel having been wrecked, and the information and evidence adduced renders it to all intents and purposes absolutely certain that a relative or friend had gone down with the ship; and yet it was natural to hope that the relative or friend had been saved. Believing that such was Mr. Macdonnell's interpretation of the word 'hope.' he (Mr. Mitchell) could understand that while indulging in that secret hope, Mr. Macdonnell would yet be ready to preach the gospel that there is no hope for the man who rejects Christ From the proceedings in Committee, and Mr Macdonnell's speech today, the interpretation of the word 'hope' assumed a different phase. He had declared with much emphasis that he does 'hope.' Then they must look for some intellectual ground on which the hope was built, and whenever there was a hope built on a faith that there will be a final restoration, that was in contradiction with the statement, 'I am satisfied that it is not part of the message with which I am entrusted as a minister of the Gospel to hold out any hope of future pardon to those who have in this life rejected Christ.' He hoped Mr Macdonnell would not oppose the reference to the Committee proposed in the report.—The fact that he had withdrawn a sentence in an important document which was presumed to be the result of five months study, showed that he had shifted his ground somewhat, and a want of deep heartfelt conviction in regard to the matter. He (Mr. Mitchell) trusted the Committee would be able to reconcile the position of Mr. Macdonnell with the standards of the Church. Such was the result which every member of the Presbytery desired should be attained, and the Committee would only approach their brother in a spirit which could be called by no other term than Christian and brotherly

Principal CAVEN urged that it was unnecessary for the Presbytery to adopt the reasoning which led to the conclusions, only the conclusions themselves.

Rev. Mr. BAIN desired to explain that his previous remarks were directed to showing that in cases involving points of greater importance than the doctrine of future punishment no judical procedure had been taken. The minister who said, 'I am satisfied that it is not a part of the message with which I am entrusted as a minister of the Gospel to hold out any hope of future pardon to those who have in this life rejected Christ,' could hold no serious error of doctrine. The Presbytery might pronounce a sentence and send it through the country, but what weight would the plain people give to it compared with Mr Macdonnell's own statement just read? They were not able to enter into elaborate criticisms of doctrine, but in view of his statement, Mr. Macdonnell had nothing to fear from the judgment of Christian men and women.

Rev. Mr. ROSS said he would be sorry to interfere with Mr. Bain in the exercise of that courtesy which the Presbytery had very properly extended to him, but his statement that some parties in the Presbytery should restrain their zeal, and withold their fire till the game was fairly out, was scarcely in keeping with the position which he occupied as a member of the Court by courtesy.

Rev. Mr. BAIN said he had stated that to his mind Mr. Macdonnell was labouring under difficulties connected with exegesis, and that under the circumstances it would be wise for members of the Presbytery to restrain their ardour and withold their fire till the game had fairly left cover.

Rev. Mr. CARMICHAEL (Markham) said Principal Caven had said he did not wish to reject the ground held by the Presbyterian Church in Canada in regard to this matter. He did not see that Mr Macdonnell wanted to reject any ground held by the Presbyterian Church in expressing the hope he had. The word αιων translated 'day' in the first chapter of Genesis was held by the best Reformers to mean an indefinite period of time, but afterwards the idea became prevalent that it was a day of 24 hours. The word αιων was in many passages of Scripture translated everlasting. In Mr. Macdonnell's idea there was a period when in one way or other—he did not say how—there was to be a restitution to all. He did not say this was the message he was to convey to his fellow-men. He said 'Now is the accepted time,' but he hoped that there was an eternal period when the merits of Christ's shed blood should be imparted to all. This appeared to him to be Mr. Macdonnell's meaning. They must not endeavour to be too strict in regard to the thoughts entertained by ministers of the Church. If he had the misfortune to express this hope, were they to stifle him and by their action drive him from the position he now occupied as a prominent nd useful member of their Church? He had stated distinctly that he was injudicious in the statements in his sermon in Sephenhop, and now he stated that his duty was to warn men to flee to Christ. He thought their plain and obvious duty was to accept the meaning Mr. Macdonnell then gave.

Rev. Principal Caven—Does Mr. Carmichael say that the word αιων is translated everlasting?

Rev. Mr. CARMICHAEL—In many passages.

Rev. Principal CAVEN—It is entirely new to me.

Rev. Mr. REID said that at the last meeting he had expressed a modified degree of satisfaction with what he heard of Mr. Macdonnell's statement at the time. His impression was that in the first clause he virtually assented to the plain doctrine set forth in the Confession of Faith on this point, and that the second clause was a virtual declaration that what ever thought might be in his mind on the subject he would not set it forth in his teaching. He acknowledged that in the course of that evening the gratification he had felt at first very largely departed, more especially after Mr. Macdonnell's own statement. His hope had been that without discussion or statement the matter would have been referred to a Committee, and if that course had been adopted he was satisfied the difficulties which now environed them would have been less than they now were. He now found himself still further embarrassed by the note which Mr Macdonnell had given in; where it was most distinctly stated that he taught a meaning of the word everlasting which the Presbyterian Church generally had not accepted in regard to the future state of men. He shuddered at the meaning of the word everlasting being unsettled, because, supposing there was a degree of uncertainty as to the future state of the unbelieving, must there not be a corresponding degree of doubt as to the condition of the saved? In regard to the second part of the statement, he could not, on more full consideration, reconcile the declaration that 'it is not a part of the message with which I am entrusted as a minister of the Gospel to hold out any hope of future pardon to those who have in this life rejected Christ,' with Mr. Macdonnell's statement that day—'I do hope.' What did he hope? It was that there might be a change in the condition of the unbelieving. He had heard it stated that in Committee Mr. Macdonnell would not declare that under that statement he would be precluded from preaching such a sermon as that which had given rise to all these investigations. On these grounds the measure of satisfaction with which he had at first listened to this statement had been taken away.

Rev. Mr. MITCHELL said he hoped Mr. Reid would be corrected as to what took place in the Committee.

Rev. Professor MCLAREN said he tho't it was unfortunate that there should be any reference made to what took place in the Committee, except what was reported. He thought there was something said on the subject, and if necessary would state what it was. It was not exactly to the effect represented by Mr. Reid.

Rev. Mr. REID recalled his statement on that subject, and repeated that on the ground he had mentioned he could not feel satisfied with Mr. Macdonnell's statement.

(Continued in our next issue.)

Sir John Macdonald's friends are loudly proclaiming that the Reform party are corrupt because Mr. Malcolm Cameron spent $5,000 in purchasing a newspaper, to be placed under Reform management. On Friday it was shown to the Private Bills Committee that $60,000 already been sunk in endeavoring to establish the *Mail* newspaper as the organ of the liberal Conservative party, under Sir John Macdonald's leadership, and that $50,000 more is required for the same purpose. Mr. Cameron looks small by the side of that. His whole purchase money would not have lasted the *Mail* more than a few months.—Ex.

Pride is a good, thing but when it is duly propped up in ignorance it is perfect.—*Voltaire.*

A man rarely speaks of himself without loss. His accusations of himself are always believed; his praises, never.—*Montaigne.*

HIDE BOUND HORSES.—A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs—by correcting which, and giving to them a healthy tone and condition the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous cases with complete success, generally effecting a cure in a few days. It is the best condition medicine known and may be given with perfect safety at all times, and does not require that the horse be kept from work. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman Toronto, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

THOUSANDS OF PROMISING YOUTHS,—of both sexes, go down to untimely graves, from general debility and weakness, who might be saved by fortifying their system with Iron The Peruvian Syrup is an Iron Tonic prepared expressly, to supply this vitalising element, and is the only preparation of iron that will assimilate at once with the blood.

BURNETT'S COCOAINE—allays irritation, removes all tendency to dandruff and invigorates the action of the capillaries in the highest degree. The Cocoaine has earned a deserved reputation for promoting the growth the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy nature gloss to the hair and will cause it to retain its shape for hours.

TWO FOLLIES—First, to eat a healthy supper for the pleasure experienced during the brief time it is passing down the throat, at the expence of a whole night of disturbed sleep, and a weary waking in the morning. Second, to try all the remedies in existence for rheumatism, pains in the back and sides coughs, colds, cramps, sprains, bruises, &c before trying the "Canadian Pain Destroyer." Sold by all medicine dealers at 25 cents per bottle.

ATTENTION has been called to the fact that inasmuch as salts of Hypophosphites are more readily absorbed by the system they are better] indicted as auxiliaries with which to improve the Blood, and generally to cure wasting diseases, than all other preparations from Phosphorus.

And since Phosphorus enters so largely into the animal economy it becomes par-excellence the best vehicles with which to associate the other vitalising ingredients of healthy blood, nerve and muscle.

In Fellows' Syrup of Hypophosphites and combined all the substances found necessary to insure robust health, and, whereas, it was in vanied with a view to supply every deficiency, it certainly has preformed some wonderful cures.

A late number of the St John *Morning News* thus concludes a lengthy article eulogising Fellows' Syrup of Hypophosphites: "Mr. Fellows is certainly entitled to high credit for this energy and enterprise in working up his valuable discovery so successfully, and the presence gentlemen in any community is a matter on which that community should congratulate itself."

The St. John *Telegraph and Journal* says, The invention of Fellows Hypophosphites has become one of the valuable industries of the country unique of its kind, and a credit to the Dominion of Canada."

THE USE OF DR. WHEELER'S COMPOUND Elixir of Phosphates and Calisaya as food for the brain and nervous system is founded on well established chemical and physiological laws since it is composed of elements entering the formation of these organs and capable of supplying them with nourishment. Great mental efforts, anxiety, excitement, worry, fatigue, blood poisoning, many diseases or ungrave ails, excessive indulgence or habits that use up the vital powers, speedily interfere with the nutrition of the brain and nerves which presides over all the functions of the body, and sooner or later fatal consequences must inevitable result. In the Elixir we have reliable remedy for nerve exhaustion and loss of constitutional vigor from these causes.

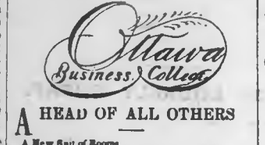
THE GREAT ENGLISH REMEDY



Before Taking. After Taking.

DR. WILLIAM GRAY'S SPECIFIC MEDICINE

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

PURELY WALKER'S CALIFORNIA

VINEGAR BITTERS

OTTUMWA IRONWORKS proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Corner of George and Simcoe Streets, Peterborough.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It is wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS.

PRICE $1 00.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the mercury contained in most other blood medicines, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unsuspected tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed in the blood throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows the presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in time, a cure, by the use of the *Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Blotches, Sore Eyes, Sore Ears*, and other eruptions and visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Tic Doloureux, Neuralgia*, and the various *Uterine* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required before the system is entirely purified of these subtle poisons. But long continued use of this medicine will eradicate the complaint. *Leucorrhœa or Whites, Ulcerations, Female Diseases*, are speedily and permanently soon relieved and ultimately cured by purifying and invigorating effect. Minute directions for each case are found in our Almanac, which is supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *J

AGENTS WANTED.

Agents Wanted in every Township in Ontario to sell the famous Prize Medal Organ Manufactured by the South American Organ Co. and George Steck & Co's Pianos.

Special inducements will be given to first class agents and clerks of three or four wishing to purchase

Any number of testimonials in favor of these first class organs can be furnished, but as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—No testimonials, however flattering can add to their reputation

The Steck Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873

Churches requiring organs will be liberally dealt with. Steck St. Nicholas Americus, we would call attention to as being especially adapted for churches and halls, its proportions are powerful and its musical qualities are unsurpassed The grand organ stop gives the player full vision for various and splendid effects, the stop can be used so as to slowly increase the volume of tone from a whisper or suddenly bring forth all the power of the instrument in a burst of harmony

Pianos and Organs furnished Wholesale and Retail from any of the first class American manufacturers

THOS. ELLIOTT'S COMBINED Hay Rake and Ladder

ITS ADVANTAGES

Attach it to the rear axis of the wagon and it will gather, clean, and load Hay, Barley or other grain that is too short to bind, and by having a boy to drive the team one can load the loose beans can be gathered as a two rack, and two man can build better than from two men forking, which has been tested It will save from 50 to 60 a day, and more than one-third of the time of the ordinary mode of working. It is simple in of construction Not of draught, and will endure much wear, and is worked on full sides or on a windy day, hung hand over with wire.

County or Township Rights for Sale.

on liberal terms by applying to the undersigned, the Patent Right Hay Rake and Ladder.

Case of Rev. Mr. Macdonell.

(Concluded from last week.)

Rev. Mr. King said he spoke on this subject with great reluctance, and in the direction in which his judgment and conscience compelled him to speak. He had no business in saying that after Mr. Macdonell's candid statement as to his understanding of the word everlasting he should have been astonished if the Committee had brought in any other finding on the first point than that the doctrine contained in the communication of Mr. Macdonell was not satisfactory or such as they could recommend the Presbytery to accept. The position taken by Mr. Macdonnell was clearly a new position in the Presbyterian Church, and was so serious a change in the creed of the Church that no Presbytery could give its sanction to it, and it was only competent for the Supreme Court to grant the liberty that was claimed. He could not cherish the idea that even in connection with the most profound examination of Scripture the Church of God would ever be led without some new revelation to modify its creed in this way. Some who had spoken, and especially Mr. Bain, had stated that the modification became harmless when accompanied by the declaration that in his ministry Mr. Macdonnell would hold out no hope of future pardon to those who had in this life rejected Christ; but he asked it, with such a hope as that entertained by Mr. Macdonnell, it would be possible to emphasize the doctrine of the punishment of the wicked as a minister of equal ability, but having no such hope, would present it? It was clear that it would affect the presentation of the whole subject. No doubt Mr. Macdonnell's preaching would, notwithstanding this, be far more vital upon his hearers than that of many of them who entertained more orthodox views, but they had not to look at the question simply in the light of Mr. Macdonnell's preaching. If there was any way in which Mr Macdonnell could be allowed to go on with his most successful ministry without its compromising the church and amounting to a virtual change in the creed, he was prepared to go in for it, but to give him the liberty in that form was to give it to every man who claimed it if the General Assembly should ratify their doing so. While he could not see how any Committee could have brought to the Presbytery any other finding than this, he was glad that the Presbytery was not asked to adopt the whole of the reasoning on the statements by which the recommendation was supported. He did not feel that the Committee would be wise in going out of its way if it had made some recognition of the apparent concessions which Mr. Macdonnell had made, though he was not prepared to say that they amounted to very much; and probably Mr. Macdonnell would feel that he could not make concessions that amounted to very much without changing his position.

Rev. Mr. Macdonnell desired to make a remark as to the line of argument dwelt upon by various members. His words were, 'I hope that God may in some way put an end to sin and suffering.' That was not final restoration. There was another possibility. He thought the simple statement of this was an answer to some of the arguments which had been advanced.

Rev. Prof. McLaren pointed out that in consequence of Mr. Macdonnell's second paper having been handed in to the Committee only on the previous evening, they had to recast, to a considerable extent, the deliverance which had been previously prepared, and he thought it was not wonderful that the phraseology of the report, in some cases, was not as carefully got up as the members of the Committee would have desired if the time had been more simple. He (Mr. McLaren) had his previous statement as to the reason for the Committee not leaving out the sentence which Mr. Macdonnell was willing to have omitted.

Mr. Wm. Mitchell said he regretted that no other member of the Presbytery had proposed an amendment. He would move,—'That the Presbytery, considering all the circumstances, accept the Rev. D. J. Macdonnell's statement, and declare that the matter be now allowed to drop.' He thought there was so little difference between what Dr. Caven and Mr. Macdonnell had stated as to their ideas of a reconciliation that if they approached the subject in the true spirit of Christian charity and brotherly love no difficulty would be experienced in coming to a satisfactory solution of this unfortunate question. There was not a person that Mr. Macdonnell had preached in which the full doctrines of the Presbyterian Church had not been sustained with the exception of the sermon which had created all this trouble, and in which no decided opinion or view contrary to the standards of the Church was expressed. A doubt or uncertainty was expressed as to the reconciliation of some passages of Scripture, and that was all. If Mr. Macdonnell had advocated the view of the final restoration of the wicked, the Presbytery could not have done more than they had.—He thought they had done too much, and that the matter ought to have been settled when it first came up, as it would have been if the spirit of kindness and brotherly love had been exercised. His opinion was that there had been a degree of harshness exhibited towards Mr. Macdonnell—not so much in words but the actions of the Presbytery had not been in accordance with the words expressed by members. He did not understand what the Presbytery wanted more than the manly, straightforward statement which Mr. Macdonnell had made. In his first statement he said he adhered to the standards of the Church, and in the second he stated that while he was a minister of this Church he would teach no doctrine contrary to the standards of the Church.

Rev. Prof. McLaren said that Mr. Macdonnell did not adhere to the standards of the Church, but simply to the language, which he even qualified.

After a short conversation,

Mr. J. Mitchell said that the first part of the statement certainly expressed Mr. Macdonnell's compliance with the standards of the Church.

Rev. Prof. McLaren said that an adherence to the Confession of Faith meant not adherence to the mere language but to the doctrine. There was a distinction between the doctrine of a document and the mere phraseology. If he had accepted the doctrine of the Confession of Faith on this point the whole matter would have ended.

Mr. J. Mitchell said that of course Mr. Macdonnell had had difficulties; we all knew that every one had difficulties in reconciling many passages of Scripture. Many of the leading men of the Church had such difficulties, and they were still allowed to remain within the Church. Perhaps it was just as well that we did not understand everything; but so long as a minister in their Church professed and preached the doctrines of the Church, he did not see why he should be interfered with, although he did entertain privately hopes which he did not teach to the people. He would ask again, and he asked it entirely on his own responsibility, if the Presbytery would be satisfied with a declaration from Mr. Macdonnell that so long as he was a minister of the Presbyterian Church in Canada he would not allude to the subject of the restoration of the wicked. He wished, if it were competent, to get an answer from the Presbytery on that point.

The Moderator said that it would not be quite in order to attempt to answer such a question as that at present. If a Committee were appointed to deal with the matter it would be competent for them to deal with the question if it were put to them by Mr. Macdonnell.

Rev. Mr. Ross thought that Mr. Mitchell should divide his motion. The first part should simply be an amendment to the motion proposed, and then the latter part would come in connection with the third section.

Rev. Mr. Fridels said he did not think Mr. Mitchell was quite correct in saying that the Presbytery had dealt harshly with Mr. Macdonnell. He thought that every member of the Presbytery was deeply sorry that Mr. Macdonnell had placed himself in the position he had. [illegible] to see a way out of the difficulty consistently with his retaining his position in the Church, and consistently with an adherence to the standards of the faith.

Rev. Mr. Carmichael (Markham) said the reasons he had communicated to the session were that he was afraid that the relapsing of the work to a Committee time after time would end in no practical result. He also apprehended that the meeting would not stop where it was, for he believed if Mr. Macdonnell was driven from the Church there would be such a reading of the Presbyterian body as had never taken place in the history of the world. (Loud cries of 'amen' and 'hear, hear.') He besought the brethren to be cautious. They could have a good portrait of the individual without having every feature perfect. They should remember that old Dr. Bowes, of Stadacona, had held fully to the maintenance of all, even of the heresy, and he had not at least been taken to task by his Presbytery or Synod.—He (Mr. Carmichael) held firmly to the fundamentals of the Confession on this question, but his desire was that they might have unity and brotherly love, and deal with Mr. Macdonnell in a manner as consistent as possible with it, was that if what they took to be the fair and legitimate force of Mr. Macdonnell's statement was the actual state of his mind, then it was not right and proper that he should continue a minister of the Church.—They knew, however, that men did not always succeed in conveying their ideas exactly to the minds of others, and they hoped there would be a possibility of giving an expression of Mr. Macdonnell's sentiments which might be, not of the kind which they took this statement to be, but if it was a fair and legitimate expression of Mr. Macdonnell's sentiments they cordially meant that he should not remain a minister of that Church. He believed that was unquestionably the mind of the Committee, and that was his own view in submitting the motion.

Rev. Mr. Macdonnell said that was clear, and he (Mr. Mitchell) to be made clear because the sentence had struck him as being the sent

Peterborough Examiner.

PETERBOROUGH, MAY 4, 1876.

THE MEANEST KIND OF PARTY WARFARE.

Conservative newspapers are resorting to the meanest subterfuges to arouse a sympathy for their fallen Chieftan, Clean Hands. They carry their desperation and spleen to the foot of the gallows—to the penitentiary, and even so far, as to accuse the Governor-General of political bias in exercising his vice-regal prerogative of Clemency. It must be that, while in power, they were guilty of this sin, or they never would attribute it to others, unless on the most reliable evidence of guiltiness.

The first manifestation of this baneful spirit in the Conservative press was manifested in the case of the commutation of the death sentence of Dr. and Mrs. Davis. Although the commutation was necessary to enable the courts to use the evidence of Davis in a criminal case against the carter who aided in removing the body of the unfortunate victim.

The Sombra tragedy in which Mrs. Finlay and the man Smith are the cruel instruments of the murder of Finlay, an offensive farmer, is now affording them another opportunity of exhibiting their zeal at the expense of common decency, and of mercy. Mrs. Finlay, it is well known, was suspected of being the murderer of her husband, incited by a passion aroused by her adultery with the hired man, Smith. At the trial, however, she gave such evidence as convicted Smith, although it was shown that she swore differently from what she did at the inquest. She however swore that she gave false evidence at the inquest.

Smith, about the time that he was to be executed, made a statement which left little doubts in the minds of the people generally, that although he was guilty of immorality with her, yet that *she* was the murderer of her husband. Her prevarication, and her admission of swearing falsely at the inquest to save herself, and the looseness of her character, combined to modify the verdict of public opinion in Smith's favor, and his Counsel, Mr. Glass, succeeded in making such an impression on the Minister of Justice, that the Royal Clemency was extended to Smith, and his sentence of death, commuted into imprisonment for life; when, lo, political enmity comes again to the foreground, and the Minister of Justice is accused of the worst political motives in advising the exercise of mercy to a criminal whose guilt, to say the least, was doubtful. Were ever such mean, contemptible, dastardly tactics resorted to, to gain a political end? What can be thought of the party who would thus trifle with the lives of their fellows for such a paltry reward as a momentary advantage of their party? What can be said of a press that will use its position as a public educator, to poison its readers with false principles, and to inculcate the immolation of the divine principles of mercy on the altar of the most unworthy and cruel selfishness? It is a pleasing thought that we have a Minister of Justice whose heart and mind are so far above the pettiness of party that he can deal with questions affecting the lives of human beings in the spirit of our holy Christianity, and in doing so, smile contemptuously at the littleness of soul that impugns his motives.

WHO IS TO BLAME?

At Temperance Lectures and in Speeches the question has frequently arisen:—Who is to blame for the increase of the liquor traffic, or for the slow progress made by prohibitionists? The professing Christian says the temperance men, because of their inactivity and want of earnestness. The Temperance men attribute the blame to the churches or the professedly religious.

Without attempting to fasten the blame or want of success on either party, accused, let us say that there is work enough for both to do. As the law now stands, the traffic is largely taken out of the hands of Municipal Councils, and put in charge of Commissioners. These Commissioners are not responable to electors, who are, (in some cases) influenced by strong drink—but only to public opinion. If public opinion is not sufficiently educated to appreciate their labors, they can not be turned out until a few more lessons have been tried. But leaving this matter just now, what should the temperance and religious people do? Should they not unite to form Vigilance Committees in every section of the County? These Committees should have a President or head to whom information of violations of the law could be secretly imparted He could then give this information to some person appointed to receive it for the whole Riding or County, and this latter in turn lay particulars before the Inspectors respectively, who will be bound to take proceedings against those who may be accused of breaking the law. The Magistrate is bound not to give information as to who the person was who gave him the information. If, however, theft should be any fears as to the Magistrates keeping secrets, surely one man can be found in whom confidence can be placed, and let all information be committed to that man Such a person can be found. If religious people are willing in this way to aid the temperance people in carrying out the law, they will give at least one practical their sincere desire to suppress immorality wherever they find it. If, on the contrary, they are willing to rest satisfied that preaching and praying and attending to extraordinary religious devotions is their whole duty, they need not wonder if they find themselves accused of being the stumbling block in the way of Temperance Reform It is to be feared however, that they will "pass by on the other side' and leave the work in this matter to others.

STRANGE, NEVERTHELESS!

The Toronto TRIBUNE thinks we did it an injustice in reference to its advocacy of "Catholic Union." If we have done so it was far from our intentions. As to any misgivings of the Catholicity orthodoxy of our *confrere*, no such idea ever entered our mind It is the excess of that orthodoxy that we believe controls the TRIBUNE In its advocacy of "Catholic Union" to bring about a "Catholic Congress" for deliberating on matters affecting Roman Catholics, we see the very same thing which the TRIBUNE has been condemning in the Protestant Defense Alliance of Lower Canada. The Protestants of Lower Canada consider their rights in danger from the injustice of the Dominion (R C.) party there. The Roman Catholics of Ontario consider themselves ignored, and injustice done them by the Dominant Protestant party of Ontario. The Protestants of Quebec agitate a union for self defence, and for deliberating openly on matters affecting them, and the TRIBUNE condemns the "alliance" as it is termed.

The TRIBUNE agitates a Union of Roman Catholics for the same object—deliberating on matters affecting Roman Catholics in Ontario, and the TRIBUNE sees no evil in the union. Would the TRIBUNE propose that Protestants be scrupled to membership of a Catholic Union? and if not can he not see that it would be a secret society so far as Protestants are concerned, and be nothing more or less to Catholics than what Orange Societies are to Protestants; and the TRIBUNE'S inconsistency consists in advocating a Catholic Union for Roman Catholics, while condemning, in no measured terms sometimes, an Orange Union for Protestants. We have no dread of either "Unions" All Orange Societies have degenerated into political clubs so to speak, unless in one or two Counties where a few members have united to oppose the perversion of the organization to such unholy purposes. All "Catholic Unions are," and will be, if more are brought into existence, political organisations to promote Catholicism, and we fail to see the consistency of the TRIBUNE in advocating the latter while condemning the former, unless on the grounds before stated, in the interest of the Church — Such a "Union" as our respected *confrere* advocates, must and would necessitate a more enlarged Protestant oneness or union, and if that should be the result of this Catholic "Union," which would be the gainer? We leave our very kind and courteous *confrere* to draw his own conclusions. We have no fears for the future of Protestantism, if yearly Councils of the Faithful were held in every Country in the world. But using the Church Protestant or Catholic to promote political objects ought to be condemned by both religious elements of our citizens.—A religion that requires a State to hold it up, and the influence of corrupt politicians to ensure its existence, has a very precarious existence indeed.

LIBERAL LOGIC.

The Presbytery of Toronto has a White Elephant on their hands, in the matter of the "Final Restoration" theory set forth by one of the brethren, namely Rev. D. J. Macdonnell. The doctrine is at variance with the theological standard of Presbyterianism, and the Presbytery, taking the only reasonable course open to it, cited the Preacher of heterodoxy before it, and asked for an explanation.—*Eight* months were given him to recant or explain. At the expiration of that period he *explains*, and declares still that he does not believe in the 'eternal hell punishment" theory of the Confession of Faith, unless defined as he is accustomed to do, but he promises if let alone to be silent on his peculiar views on this subject, A Committee is appointed to report on his explanations, and the committee consisting of the best men in the Presbyterian Church in Canada, report, that they cannot recommend the Presbytery to accept Mr Macdonnell's statement as satisfactory,

All at once it is discovered that jealousy of Mr, Macdonnell's great talents and brilliancy as a Preacher, is the cause of this persecution by the entire Presbytery but especially by the Rev. Mr. Robb,

WHAT SILLY TWADDLE.

Was it jealousy in the mind of Mr. Robb and of 28 members out of 31 of the Presbytery, that induced Mr Macdonnell to preach the sermon that has caused so much toss?

Was it this jealousy that induced the Reporter to attend Mr. Macdonnell's Church on that particular Sabbath, before the Presbytery knew even the text, much less the mind of the Preacher, and report the sermon for the *Mail* newspaper.

Was it jealousy of Mr. Macdonnell's great talent that induced the Montreal *Witness* to re-publish the sermon as at variance with Presbyterian teaching and preaching ever since the days of Calvin and Knox?

Was it jealousy that induced the Moderator to call a meeting of the Presbytery and to cite Mr. Macdonnell before it to explain his position on this almost essential doctrine of Presbyterianism?

Was it Mr. Robb, who, although not on the Committee to whom it was referred, indnced that Committee to report as they did, that they could not recommend Mr. Macdonnell's statement to be accepted as satisfactory. If Mr. Robb effected all this, then truly, he is an extraordinary man, and more than a match for the whole Presbytery. Nay, verily, but is it not jealousy that induces the friends of Mr. Macdonnell to attribute the cause of this fuss to Mr. Robb, when in deed and in truth it is to be attributable to the indiscretion of a man who preached the heterodoxy, and refuses to recant! Indeed it is remotely attributable to the Presbytery which was satisfied with his mangled acceptance of their Confession of Faith at his ordination or induction, and that one error, accepted in simplicity, has so increased that it threatens even the disruption of the Church in Canada unless Mr. Macdonnell's statements be again accepted.

Read the remarks of Mr Carmichael of Markham, at the meeting of the Presbytery.

Mr Macdonnell's popularity as a Preacher and usefulness as a Minister are urged as reasons why he should be petted and flattered and allowed to remain in the Church, and if occasion offers, or his mind on those doctrines become more established, have another discussion, when perhaps the errors will have taken deeper root in the minds of not a few of the people, for it cannot be denied that in every community there are those who gladly accept the "No Hell" theory as more in accordance with their daily walk and conversation, and also because their hopes for the future lead them to wish there is and will be none. The doctrine is a consoling one to the careless and over grasping, to the toper and general law breaker, and is very palatable to many of Burns' "Holy Willie" type of character. In their desire to retain or cherish a doctrine so pleasing to them, but so opposed to their standard of faith and teaching, they should not forget, that to attribute the whole trouble to the jealousy of Mr. Robb or any other Minister is unjust and unchristian, and this the more so, when they know that there is not a shadow of foundation for it, and that too in the face of the fact that Mr. Robb, Professor McLaren, Principal Caven and others who refuse to accept Mr. Macdonell's wild fancies, are as far above as teachers and preachers as the sun is brighter than the moon.

As to the question of his usefulness as a Minister, there may be room for hesitation as to who the person was who gave him the information. If, however, theft should be any fears as to the Magistrates keeping secrets, surely one man can be found in whom confidence can be placed, and let all information be committed to that man Such a person can be found. If religious people are willing in this way to aid the temperance people in carrying out the law, they will give at least one practical their sincere desire to suppress immorality wherever they find it. If, on the contrary, they are willing to rest satisfied that preaching and praying and attending to extraordinary religious devotions is their whole duty, they need not wonder if they find themselves accused of being the stumbling block in the way

JUST SO

The Cobourg *Star* (Conservative) summing up about Sir A. T. Galt's pamphlets says:

In this sensible and honest view of the case A. T. Galt is sustained by the whole Protestant population of the Dominion, without distinction of party. Besides, it is degrading and demoralizing to the Roman Catholics to be held up for sale to the highest bidder, and told that because their bishop has been got over, they must vote as he directs. However much the Catholics in Ontario may venerate and love their spiritual teachers, and yield to their guidance in church matters, a large minority of them will not sell their franchise or be driven to the polls to vote for any particular candidate In Quebec the Church is, we believe, all powerfull and its people are less free And from that quarter the danger is great. It is to the Catholics of the sister province, therefore, that Sir A. T. Galt has addressed his appeal and pointed out the danger that they will incur if they use their undoubted majority for the purpose of depriving the Protestants of that Province of their civil rights. Mr. MacKenzie must feel that he cannot get the Catholic Church support without giving something there for, and if that equivalent be the abandonment of or title to the rights of Protestants in the Province of Quebec, he will incur the deadly hostility of the main body of supporters from this Province."

Just so, the clergy in Quebec look to the conservatives for a continuance of favors as in the past, but the Conservatives threaten dire results (deadly hostility) of those favors should be continued What will our Cobourg Conservative *confrere* say, when we tell him that his conservative friends in East Peterborough, are already counting on running a man who has sold himself to the party against which the *Star* threatens such results. Yet we believe our information is correct when we state that an attempt is being made on the part of leading conservatives in this county to draw their party through the same process they did at the last election on certain conditions, and the conditions are to obtain a *quid pro quo* in the shape of votes. The *Star* therefore must not be too passionate, he may have to eat his leek, withdraw his angry words and apologize. He has not yet received advice from head quarters.

THAT MISTAKE.

The Norwood REGISTER is a little vexed over our remarks on the "mistake" Mr. Mowat made in the appointing of License Commissioners for East Peterboro. We admit he is very good natured generally, and rarely manifests any ill temper towards the EXAMINER, for which we must feel under deep obligations to him. We can assure him that his reference to the School Inspector does not rile us. We never fretted over it; never uttered a word of complaint, and never yet said the Council did wrong.—and if their Officer is doing his duty well, it is very satisfactory to learn it from such an intelligent source as the REGISTER. He says: "But he must protest against our (the REGISTER) Office being used as a place of meeting, as it cannot be, like the EXAMINER Office used for meetings to discuss the Liquor Question." We are sincerely obliged to our *confrere* for giving us this excellent character, and we can assure him that if by renting or giving our office to the Commissioners for 12 months free, would be the means of destroying the Liquor traffic, we will gladly either give or rent or allow it for their use. and if by that means prohibition can be secured then we will feel doubly repaid. It would be an honor conferred on us, indeed to be in any way instrumental to that end. If the Editor of the REGISTER is afraid of using his office for a good purpose, at any time the people of Norwood wish to hold a Temperance Meeting in our office, they shall have our assistance. With all due respect to our *confrere*, and wishing him prosperity, the Commissioners will not seek to injure him in his profession, but whenever Mr. Stratton can legally make one *tavern* less in a municipality he will give his vote to accomplish it. He sails under no false colors in the matter of Temperance Reform. and will know neither Church nor Party in its interests. Dear REGISTER, come with us, we will do thee good.

SCHOOL BOARD.

The Board met on Tuesday evening.—Present, Jas. Stevenson, Esq., Chairman, and Messrs. Edwards, Edmison, Pentland Morrow, Cox, Johnston, Robertson, and McClelland.

In the absence of the Secretary, who had been called away to Cobourg on the decease of his father, Senator Perry, Mr. Edwards read the minutes of the previous meeting, which were then confirmed

A communication was read from Miss Panton and Miss Bladell, giving a report of their visit to the Whitby and Oshawa High and Union Schools, during the two days taken by them for the pu pose. The report was received.

Applications for the Principalship during Mr. Dixon's leave of absence, were read from Mr. W. W. Tamblyn of Oshawa, and Mr. Jeffers, Classical Master in our own Institute. Both were referred to the Committee on Appointments.

A communication was received from Mrs. Cottingham complaining of the use, by a teacher, of unbecoming language towards a pupil, a daughter of Mrs. Cottingham. The complaint had been made to the Principal, who requested the teacher to make an apology for the language used, or resign The teacher refused to take the advice, and hence the reference of the matter to the Board.—The letter was referred to the Committee on Appointments with power to do as they deemed prudent in the matter.

A second letter from the Education Department was read, requesting the Board to have the School census of the Town taken and forwarded to Toronto, as it would be the basis of the apportionment of the government grant for the year. The Chairman informed the Board that he had made arrangements to have the census taken, at a cost of $50, and that it was now being done.

A letter was read from Prof. Martin offering to conduct music classes in connection with the school without any cost to the Board except the finding of a room for him. The fee to be $5 per quarter. The offer was accepted. the arrangement to be under the control of the property committee

Accounts were received from

H. Owens. $2 for fixing pumps; Robt. Romaine. 3 70 for printing; J. Lundy, 6.60 for sidewalks. S W. S.; S. Johnston, $20 40 for cutting wood.

These were referred to the Finance Committee, except Mr. Lundy's, which was referred to the Property Committee with power to pay it if correct.

A report of attendance for the previous month was handed in by Mr. Jeffers. It shows a total on the registers for the month:

Collegiate Institute,	151
Average do	125
Public Schools,	772
Average do	569

With Auburn School not heard from.

Mr. Crawford from Auburn addressed the Board in reference to the bad state of the fence round the school property This was referred to the Property Committee, with power to act.

Mr. Johnston read a report of the visiting committee for the month of April The committee reported the schools in a very satisfactory state.

The Inspector read a report of the state of the different rooms in the public schools during a late visit, and suggesting that more attention be given in all the rooms to reading and penmanship, and suggesting also that the teachers be required to give all the school hours to the work of teaching, which he feared is not now being done.

The report was received and the Board agreed to draw the attention of the teachers to these portions of it through the Principal.

On motion of Mr. McClelland, seconded by Mr Cox, Professor Martin's offer to teach music without any expense to the Board was accepted, on conditions that all be under the control of the Property Committee.

Mr. Edmison moved, seconded by Mr. Pentland.—That Mr. Jeffers assume the duties of Principal and act in that capacity in Mr. Dixon's absence. After some discussion this was agreed to, but understood to be temporary.

On motion of Mr. McClelland. seconded by Mr. Cox, the report of Miss Panton and Miss Blaindell were received, and the thanks of the Board tendered to those ladies

Mr. McClelland drew the attention of the Board to the smoking state of the stoves, and the wisdom of heating the building by steam or water, as he believed from all he could learn was saving in cost of wood in three years would pay the whole cost of the change.

On motion of Mr. Pentland. seconded by Mr. Cox, the property committee were empowered to obtain a statement of cost, and report to the Board. The Board to pay expenses.

The Board adjourned.

PROTESTANT HOME

To the Editor of the Examiner.

SIR.—Referring to the report on the Protestant Home grant, Councillor Rutherford, as chairman of the Special Committee appointed to meet the ladies of the Protestant Home, read and submitted a report, stating that they had waited on the ladies as directed, but regretted to state every proposal made by them had been rejected:

The report was received and fyled 10th April, 1876. I do not think it proper that the public should conceive the idea that the ladies of the Home have acted arbitrary in the proposals made by the Town Council, and will state briefly what the proposals were and why they were rejected:

1st The Council wished the word "Protestant" erased from the name of the institution, and call it a Home or, House of Refuge.

That was declined, on the ground that it was not in conformity with the lease, which expressly states that the building must be kept open, and used as a Protestant Home, for the relief of aged females and destitute orphan children.

2nd. They wanted the ladies of the Home to undertake the dispensing of charity through out the town generally, and relieve the Charity Committee of the Town Council from that arduous duty

That proposition was rejected and considered out of place and not in accordance with their views, inasmuch as they (the ladies) did not wish to interfere with a duty which they considered belonged to the Charity Committee of the Town Council.

3rd They wanted to have two or more members of the Town Council elected members of the committee to act with the ladies and attend their regular meetings and assist on the work of charity.

All of which the ladies respectfully declined,and replied that unless the Council had confidence in the past management of the Home and the manner in which the previous grant had been expended and were not unanimous in giving the usual grant to assist them in the work of charity and relief, both in the Home and those they considered were in need of it outside, the ladies would decline to accept the grant and endeavour to carry on the work of charity with the means now at their disposal and the donations received from time to time from persons who appreciated their past labours.

MARGT. ROMAINE,
President P. P. Home

April 25, 1876.

ASHBURNHAM.

COUNCIL.—The Council met on Monday evening. Present—The Reeve, John Burnham, Esq., in the chair, and Messrs. H Calcutt, Rombough, Mowry and Bennet. The minutes of the previous meeting were read and confirmed.

COMMUNICATION.

S. Wright was heard before the Council asking for a sidewalk on the north side of Robinson street from Lake street to Mark street next to the new school lot.

ACCOUNTS

From John Craig	$26 10
Do do	7 40
Dr. George Burnham	5 75
Mr. McGregor	80 00
Mr. Swanston	4 80
John Craig, overseer of Highways	60 00

Which on motion were ordered to be paid.

ASSESSMENT ROLL RECEIVED.

Moved by Mr. Rombough, seconded by Mr. Mowry—That the Assessment Roll for 1876 be received and fyled, and that the Court of Revision be held on Friday the 26th day of May, inst., at the usual time and place, and that the Clerk give due notice thereof—Carried

SIDEWALKS

With reference to sidewalks and crossings, Mr Calcutt said that the best plan for them to do, and the Council agreed with him, was for the members of the Council to form a committee of the whole and examine the streets, sidewalks and crossings, and see what is necessary, and get it done.

Mr Burnham, Reeve, said that some parties had been speaking to him about laying sidewalks, and he agreed with Mr Calcut in examining them all and see what was to be done in the matter.

The Council adjourned.

NORTH MONAGHAN.

COUNCIL MEETING.—The Council met on Monday, April 17th, at the call of the Reeve. All the members present. The Reeve in the chair. The minutes of the last meeting were read and confirmed.

PETITIONS RECEIVED AND READ.

From Wm. Eyres, and signed by 43 others, praying that the Council would open up and legalize a road across the eastern part of the 10 h concession of the township according to a survey made by T. Clementi, P. L. S. which was handed in to the Council. A By-law in connection with the above received two readings. From David Doig, and 19 others, calling the attention of the Council to the state of the road from Owen Carmine, to the river, suggesting that the hill be cut down, and the road gravled, as it is impassible, a new road division to be formed, having D. Doig, pathmaster, and the sum of $10 granted to be expended thereon in addition to the statute labor, under the superintendance of Councillors Leary and Brownscombe. From Wm. Lang, and others, praying that the Council would open up Concession line between the 7th and 8th and that the pathmaster might be empowered to sell the timber thereon, councillors Birney and Robinson appointed a committee to inspect the timber, and report at the next meeting of the council. The Clerk handed in a letter he had received from James W. Fitzgerrald, respecting the increased valuation of his lots in the 12th concession, Referred to the Court of Revision,

BY-LAWS AMENDED.

By-law 239 substituting Wm. Hopkins, Pathmaster, in place of G. D Edwards, H. Merrick, in place of Wm. Tully; and David Doig, to a new road Division, by-law 240, Joseph Green, Sr. Poundkeeper in place of James Armstrong. The Council re-audited the Township accounts of 1875, refusing to entertain the Treasurer's entry of $21.25 as interest coming to him for monies paid in 1873, and adverted to in the Auditors report, as he had never sent in any account of the same to the council. The Clerk left on the table a map of the Town-hip showing the divisions of the several school sections, after a very lengthened examination of the subject it was proposed to take 100 acres from lots No. 9 in the 12th and 13th concessions in No. 2 School section, and add them to No. one, this was lost, and a motion for the Boundaries to remain as they are at present was carried.

ORDERS ON TREASURER.

Assessor $40, and Mrs. Keet $2.50 through Councillor Brownscombe. Council then adjourned till the first Friday in June at 1 o'clock then to meet as a court of Revision on the Assessment Roll, and for the discharge of other Township business.—COM.

OTONABEE.

COUNCIL MEETING.—On Monday, 17th Jaunary, the newly elected council met as follows—James Miller, Esq., Reeve, Thos. Blizard, Esq., Deputy-Reeve, Messrs. Jno. Long, Duncan McIntyre, and Robt. Girvan Councillors, who severally make the declaration of office and qualification, after which the Reeve took the chair and addressed the council. Minutes of the last meeting read and confirmed. A new agreement was made with the Clerk and Treasurer. Salary of Clerk and Treasurer for current year to be $160 for all services to be done by him not in excess of past year. The Reeve was authorized to make arrangements for the keep of H. McManus to the 1st of May next, at the rate of one dollar per week. The Treasurer was directed to pay the following sums:—To Jas Sullivan and Mrs. Fraser, each the sum of $4 for relief; Thomas Buck for statute labour tax remitted $1 50, the work having been performed; Peter Hamilton for repair of road scraper, $3; Malcolm Camp bell for making drai pipes at town hall, $3.75; James Mills for expenses purchasing furniture for town hall, $2; also for services altering flats of union school section, $2; Wm. Lang for services as Commissioner, $15 and Malcolm Campbell for services as Commissioner building town hall, &c., $10 A motion passed at December meeting of council granting the wood on allowance in road between 14th & 15th con. opposite lot 21 to Edward Bennet was rescinded, and Mr. McIntyre authorized to sell no wood on said road allowance to the highest bidder, and expend the money on said road, reporting to council what he my do in the matter. Mr. Girvan was authorized to sell the wood on allowance for road between the 10 & 11th con. opposite lot 2?to highest bidder, and report to council, Mr. Blizard reported that he had in accordance with authority of council sold the wood on the allowance for road between lot 21 & 22 in 4th con. to James Miller to $8. Mr. Hugh Kent and others heard expressing aid to build a school house in school section No 11.—Andrew Nelson Esq., made application to have the east halves of lots No. 19 & 20 in 4th con detached from school section No. 2, and added to school section No. 1 The Clerk was directed to give the necessary notices of said application. Messrs. J. Grady and H Moore were heard in support of an application made by them to take the west halves of lots 22, 23 and 24 in the second con., and lot 22 in the 3rd con. from school section No. 1 and add them to school section No. 3 The Clerk was directed to give the necessary notices of said application. The Reeve and Dep'y Reeve were appointed to make enquiry and report as to the advisability of this council assisting to build a school house for school section No. 11. The Clerk was directed to write to John Leslie, Esq., Treasurer of Douro, that the council will take $60 and interest thereon from 20th August 1874, in settlement of their claim against Douro in case of O'Conner vs. Otonabee and Douro. The Reeve appointed James Drummond one of the Auditors for current year, and the council appointed James Anderson Auditor for current year. George Hunt was appointed Inspector of Licenses. Robt. Weir was appointed Assessor and James Gallon Collector. The Clerk was directed to prepare a By-law for granting certificate for tavern and shop licenses for the same localities as last year and same parties, except for house at Allandale, also for a certificate to Mrs. Shields, for house at old Monaghan bridge. The Clerk was directed to deduct from Donald Campbell's taxes the amount charged for statute labour, the labour having been performed. Council adjourned to 21st February next.

Monday, February 21st.

Council met pursuant to adjournment, all the members present. Minutes of last meeting read and confirmed. The Reeve and Mr McIntyre were authorized to purchase from Alex Rutherford 45 pieces of cedar each 16ft. long, 12 inches diameter, at $3 per hundred feet, for culvert at Dixon's creek. The Treasurer was directed to make the following payments:—To R. Devell $8 50, for work to be done on new road across his land; Wm. Andrews for keep of Hugh McManus last summer. $6; for relief of Michael Foley to Jas. McCann such sum as Clerk and McCann may deem requisite. not exceeding $10; Mrs Frenier for relief, $5; Malcolm Campbell for extra services as road overseer. $5.50; George E Nelson for benches and door fastening for town hall, $42 50; Alex. Connel for repairs of road scraper and cedars, $8.21; Robert Romaine for printing, $11.54 — Parties were heard with reference to certain changes in limits of school section No 13 and 10. Moved by Mr. Lang seconded by Mr. Blizard,—That the west halves of lots 12, 13. 14 and 15 in the 4th con. be taken from school section No. 13 and added to school section No. 10, and that a By-law be prepared for that purpose.—Carried. Messrs. Dennis and Wm Kenally were allowed to commute their statute labour for 3 years, not to exceed 36 days, the work to be certified by one of the councillors. The Clerk was directed to give the printing required by this municipality to such printer as will do the work cheapest. A By-law appointing certain township officers passed the several readings. Council adjourned to 20th March.

LINDSAY.

Lindsay has organized a Driving Park association, which has appointed the committee to consult with the South Riding Agricultural Society for the purpose of obtaining grounds and buildings suitable for a Driving Park.

The Lindsay *Post* says:—The reports as to the condition of the fall wheat in the immediate neighbourhood of Lindsay, are not favourable, but there is not much sown. In Fenelon and further north where much more is grown the reports are favourable. It is said to be in as good condition as former year. One thing may have led to the impression that a good deal has been winter killed. There was little or no growth of the blade last fall; and therefore the fields have a bare aspect. A warm shower would start the roots, and enable a correct judgment to be formed of the extent of damage, if any.

BURGLARIES Lindsay, May 1.—Early on Saturday morning burglars went at work in this town, and entered four houses, going into the bedrome in their search for money, which was apparently their principal object. They entered the dwellings of P. Nicolls, G. H. Bertram, P. Sennett, and Thomas Sadler: In the houses of the first two they got nothing but some loose change but Mr. Sennett was relieved of 60, and Mr. Sadler of a valuable silver watch. The burglars were seen in Mr. Sadler's house, but too late to take any measures for their capture. Several other houses were tried. A gang of small boys have been committing imgiaries on a small scale, and to-day Chief Constable Douglas arrested two, and will no doubt succeed in bringing the others to justice.

LAKEFIELD.

Our sister village has had a robbery. A watch and silver trinkets. A peddler giving his name as Thomas Wardhaugh, visited that place on Tuesday, offering his wares very cheap. During the day, however, he heard that Mrs. Findlay was from home on a visit to her sister, Mrs Nelson, when he entered her dwelling, went to the bureau where he found a silver watch which he pocketed. He unlocked a cash box, took $18 and some cents therefrom and shutting the doors after him left unmolested by anyone in the vicinity. When Mrs. Finlay missed her watch, she telegraphed to Constable Johnston to arrest him, as he had left for Peterborough, Mr. Johnston arrested him and put him in the Lock Up for the night so as to bring him before the Police Magistrate next morning In the morning, however, he managed to escape, unlocking the cell door, and walking off and could not be found. He must be a regular scoundrel, worth watching, and must have keys to lock and unlock places where he expects plunder. He is about 5 feet 10 inches high, smooth face small features, and curly hair, and hails, from Lindsay.

MILLBROOK.

HORSE SHOW—The Spring Show was held on Tuesday. About 30 horses were on the grounds; only 17 were entered In Draught Horses the prizes were awarded to—

1st—Netherby, owned by R. Grandy.

2nd—Whitby Champion, owned by S. Staples. Six entered.

In General Purpose Class—

1st.—King Alfred, owned by J. Montgomery.

2nd—Heart of Oak. Five were entered Roadsters—

1st—Green Mountain Patchin owned by P. Pollard.

2nd—Jack the Barber, Jr., owned by J. Kerr. Six were shown.

WE ARE NOT AS OTHER MEN.—The Napanee *Express* thus self complacently writes:—"There are at the present time in our county gaol but 11 prisoners,—6 males and 5 females. They are confined there for the following crimes.—Two for larceny; 2 murder, male and female; 2 vagrancy, women; 1 arson,—the man being insane; 1 lunacy; 3 idiots,—1 male and two females. This speaks well for the morality of our county."—What more could be expected any where, much less in Napanee. Murder, Larceny Vagrancy, Arson, etc., black enough surely.

A PUBLIC THRASHING.—The *Mail* says: A poor fellow received a fearful thrashing in a lane off Adelaide street yesterday afternoon from the hands of a well known Toronto merchant. It appears that a number of anonymous letters had been sent to members of the merchant's family in which his character was blackened. He paid no attention to the missives at first, until forced by their frequency he, with the assistance of a detective, endeavoured to discover who the party was. Suspecting a certain man he obtained samples of his hand writing, and on comparing them with the letters he found them to be identical. He met the man, whose name was Ashley Richies, on Adelaide street yesterday and demanded an apology. Richies refused, and the maligned person thereupon forced him into a lane and gave him such a horse-whipping that he was heard to shout "murder" at no very short distance from the spot.

SUN SKITS.

The boy got a little mixed in his verses, who recited:—"A certain man went down from Jerusalem to Jerico, and fell among thieves; and the thieves sprang up and chocked him."

In the Island of Dominica is a boiling lake on the top of a mountain 2.500 feet above the sea level. This boil came to a head without a poultice.

Rev. Mr. Bannie, of Chatham, will leave for New Guinea about the 15th inst. Like the prodical son, he will arise and go to Pas(u)a.

The colored preacher, Brother Murray who has locked himself in the basement of his church, amuses himself by singing "Hold the Fort"

Many of the members of the House of Commons are sick. It's a Cauchon. Bad smells are always productive of ill health

We are told the Sons of Temperance of Orillia are about to go back to their old hall Old Hall? Surely, they can't mean Old Alebo Hall.

Some one says there are 400,000 feathers on the wing of a silk worm moth. Now we'll bet a quarter the figures are wrong, and we're willing to leave it to the companion of any fellow who is good at figures —Say Cartwright.

A "Protestant" writing in a Parkhill paper is said to be so bigoted that he will not cross his "t's." And we're willing to wager something that there are some who would not on, y do that job for him, and dot his "i's" as well.

FAVORITE PRESCRIPTION.

Dr. Pierce's Favorite Prescription is very strongly recommended by the Medical Faculty and is largely prescribed among their Female Patients. It is worthy of all confidence, as may be seen from the following testimonials;

Dr. G. B CHAPMAN, Plattsmouth, Neb. writes: I have under treatment a lady, who for the past seven years has been afflicted, and, after trying several physicians without receiving benefit, *is gaining rapidly on your Favorite Prescription*

ATLANTA, Ill.

Dr. R. V. PIERCE, Buffalo, N. Y., *Dear Sir*—I have not words to express my gratitude to you for your advice and assistance in my case. There is not one who has used your medicines since they have been brought here, but that can say which they have been greatly benefited. Since I have been so helped by its use, six or seven around me left off all doctors and other medicines, and now use it in their families after being cured of the same disease as mine. You do not know what a wonder it created in our city, by its restoring my sister I wrote you about, for she had been under the care of three of our best doctors, but could not sit up but for a few minutes at one time. I begged of her to try your medicines, and before she had used half the bottles she could go all around the yard, and has now just come home from a visit five miles away.

MRS. THOS. McFARLAND.

Dr. Pierce's Favorite Prescription is sold by dealers in medicines generally.

Commencing at 1 o'clock p.m

WM. WOOD,
May 2, 1876 18-3in Township Clerk

BY-LAW CCXLIII.

A BY-LAW to provide for opening up a new line of Road across the eastern part of the 10th concession of the Township of North Monaghan.

WHEREAS certain owners of property together with upwards of forty ratepayers of the Municipality of North Monaghan have petitioned the Council praying that they would open and legalize a public highway across the Township in accordance with the following description of Theodore Clement, P.L.S., as follows:

Commencing on the north side of the allowance for road in front of said 10th concession at the distance of six chains and 63 links easterly from the southwest angle of lot No 9 in said 10th concession. Thence north three degrees eight chains 40 links. Thence north fortytwo degrees east 23 chains more or less to a point distant 50 links westerly from the line between lots 9 and 10. Thence northerly parallel with the line between lots 9 and 10 twenty chains more or less to within one chain from the south side of said Railroad thirtysix chains and 50 links more or less to the south side of the concession road in rear of said 10th concession.

The described line to be the west side and the south side of said road and the road to be sixty feet feet wide.

Said Bylaw will be read a third time on the 2d day of June 1876.

WILLIAM WOOD,

PETERBOROUGH, MAY 4, 1876.

LOCAL NEWS.

THE WHEELE-WHO made her first trip of the season to Harwood, on Monday.

OUR MERCHANTS are putting up their awnings, they expect summer yet.

THE RIVER.—The water is rising in the river, but does not indicate any appearance of being high this year.

ON DIT.—It is rumoured in Toronto that the Rev. D. J. Macdonnell will give up preaching and study law.

UPPER CLARK & Co's Extra Quality Six Cord Cotton, with ANCHOR ON SPOOL. Leading Sewing Machine Agents say it is the best.

PETERBORO BOATING CLUB.—An adjourned meeting of this Club will be held at the Boat House to-night, (Thursday) at 7.30 p. m.

FASHIONABLE new ribbons, new hats, new feathers, and all the novelties of the season at Miss E. Delaney's, next door to Stinson's Boot Store.

The Best Sewing Cotton for Hand or Machine Sewing is CLARK & CO'S EXTRA QUALITY SIX CORD. Notice the Anchor on each Spool.

W. LECK is offering his stock of Hats, Caps, &c., at the lowest prices, and much lower than has been offered heretofore. Go and get one immediately.

AUCTION SALE.—Remember the extensive Auction Sale of Household Furniture, &c., to day, belonging to John Elder, Esq., north end of George Street, commencing at 1 o'clock sharp.

PERSONAL.—We are glad to be able to state that Alexander Smith, Esq., of the firm of Boyd, Smith & Co., is able to be around again, and is expected to be able to attend to business in a few days.

DOES IMPROVED STOCK PAY.—Mr. H. Collins of North Monaghan, sold a bull calf last week to Mr. Hugh Davidson, of Smith, for $100. The animal was one year and 14 days old. This should pay.

ROOM PAPER.—Landlords and tenants about to renovate their houses, should call at T. Menzies' Bookstore, where they can get the handsomest and cheapest stock of room paper and window shades in town.

BREAKING THE LAW.—In several Counties the new License Inspectors have succeeded in fining parties for the violation of the law. What is being done in this County? The Inspector should find out the law breakers.

P. D. DORAN is offering Dry Goods, Ready-made Clothing, Boots and Shoes, &c., at a great reduction. Parties who want to make 25 per cent instead of getting only 4 or 5 in the banks, should call and examine his goods at once and save money while they can, See advertisement

THE following has been sent to us with out a voucher:—Mr. John Byram of Otonabee, near Allendale Mills, owns a ewe which has had five lambs between March 15th, 1875, and May 1st, 1876, viz., two on March 15th, 1875, two on October 23, 1875, and one on May 1st, 1876, all doing well. Who can beat this.

LAUNCH AT COBOURG.—The "Annie Cuthbert," now being built at Cobourg, for the Centennial races, will be launched on Monday, May 8th, at 2 o'clock, p. m. The "Whistle-wing" will carry passengers from Peterborough to Harwood to connect with the train Monday morning She will leave here at 7 a.m., returning on Tuesday.

FARM FOR SALE.—We direct attention to the advertisement in another column to the sale of the valuable farm in the Township of Douro, known as the "Blackman Farm" containing 100 acres. This farm is one of the best in the township, and is situated only three and a half miles from the Village of Lakefield. Sale at Morgan's Hotel, at 2 o'clock, p. m., on Saturday, 6th May.

READINGS.—An evening with the Poets. The popular reader, Mrs. Anne Bourne, of St. Thomas, Canada, will give a select programme of Readings in the Temperance Hall, here, on Wednesday evening next, 10th inst., under the auspices of the Good Templars. The programme is a good one and the evening will be a pleasant one no doubt. Admission 20c. As many as can should go and hear Mrs. Bourne.

STEAMER CHIPPEWA.—This Steamer was launched on Saturday last, and is being thoroughly repaired and fitted up for the coming season, when she will commence her regular trips between Lakefield and Stony Lake, due notice of which will be given in a few days. The Thursday Excursions, so popular heretofore, will also be commenced in due time. This trip for cheapness and pleasure is equal to any in the Province.

BOOTS AND SHOES.—Mr. Wm. McCullagh showed us, this week, some very fine boots which have been ordered from him by parties in British Columbia, and which are now ready for sending away. Mr. McCullagh says that his business is considerable and is increasing very much from that part, he having had a great many orders from that distant appendage of our Dominion, this spring. He makes a perfect fit and a beautiful boot which must be admired in that colony.

ADVENTURE.—The late A. T. Stewart, of New York, was one of the most successful merchant princes of the century. He began with his bare hands and died worth forty millions. Printers' ink was one of the grand secrets of his success. After years of experience he wrote: "He who invests one dollar in business should invest one dollar in advertising that business." Merchants and tradesmen, take note of it, and advertise in the EXAMINER It is the best advertising medium in this County.

THE PETERBORO BAND.—This Band turned out serenading on Thursday eve'g last, for the first time this spring, and performed some excellent pieces, highly creditable to the members of the band, which promises well for its future efficiency under the leadership of Mr. F. Miller. We believe it is the intention of this band to give a Concert in the Music Hall, to-morrow evening where a choice selection of pieces will be rendered.—Admission as usual. Concert commences at 8 o'clock p. m.

TOWN MONEY GONE.—The Town Treas. has already paid away for Streets and Bridges, $3101.55, and only four months of the year past. What need for care here?

THE TOWN ESTIMATES, 1876.

Value of Real Estate.....	$2,066,310
Value of Personal Property..	347,110
Value of Personal Income....	111,600
Total	$2,547,020

Population 6,810. Cattle on roll 266. Sheep 8. Hogs 108. Horses 333. all the canine species in town are dogs.

SALE OF GROCERIES.—Rush, Rutledge, & Co., have a very large and well selected stock of Groceries, Liquors, &c., which they are selling at great reductions for cash. Their stock is nearly all new, and consists of everything to be found in a first-class grocery establishment. They have been doing a large business both in town and country trade since they commenced, and their very obliging manner to customers is sure to meet with success. Give them a call and see the goods before purchasing elsewhere Remember the place—John Moloney's old stand, near the Caisse House.

BODY FOUND.—The body of the young man, son of Mr. Hanbidge of Otonabee, who was drowned about 8 weeks ago, was found on Monday, about 50 to 100 yards from where it was believed he went into the river. The interment took place on Tuesday and was very largely attended the deepest sympathy being expressed for the sorrowing family. The finding of the body is a consolation to them, as they have not ceased a day since he was drowned to look for it. He was 27 years of age, very amiable, and much beloved by the whole family, all the members of which are in intense sorrow for his loss.

SUNDAY FUNERALS.—At a meeting of ministers held in Shaftesbury Hall, Toronto, on Monday, April 14th, Rev. John Potts presiding, the following resolution was unanimously adopted, and received the signatures of nearly every minister of all denominations in the City of Toronto. "That whereas the due observance of the Christian Sabbath is essentially associated with the best interests of 'morality and religion; and whereas in ordinary cases funerals on the Sabbath are inconsistent with the due observance of that day; therefore, the ministers of the city would call upon the Christian people to refrain from and discountenance Sabbath funerals, except in cases of absolute necessity; and, for themselves, they feel called upon to withold the sanction of their presence and service from funerals held in disregard of this principle."

BURGLARIES.—Our good town has had rumours of attempted burglaries during the past week, that cause some uneasiness in some circles. On Friday night last some person entered the dwelling of Mr. J. Z. Rogers, of Ashburnham, went into his bedroom, where a lamp was burning, took his pants and the keys of his store and vault, and twenty cents therefrom. Mrs. Rogers saw the fellow, but was so frightened she could not move for a time. Just as the scamp decamped through the window she aroused Mr. Rogers, but too late to do more than look at him as he ran away. Next day the keys were found near Mr. Calcutt's Brewery gate. Mr. Rogers went and aroused the man in the Store, and it is thought by this means prevented any attempt to enter it. Either the same or the following night some one entered Sheriff Hall's residence, but did not succeed in obtaining anything therefrom.—There are some fast young men around some of our hotels, who will not work, and it would be an interesting enquiry how they support themselves. They must do so by gambling, cheating, or stealing, and perhaps now and then by entering dwellings, &c. Should not all such men and boys be watched by our town constable and hauled up before the Police Magistrate to give an account of themselves, or *go up* as vagrants. If men will not work neither should they eat.

PROHIBITION.—On Thursday evening last, Mr. F. S. Spence, Secretary of the League, Toronto, delivered an interesting Lecture in the Temperance Hall, on the subject of Prohibition. The Lecturer very clearly and convincingly showed the enormity of the evils of the traffic in strong drink, and the weakness of the arguments against prohibiting it entirely. He also discussed the question from a Revenue standpoint, and showed from statistics that with the decrease in the sale of intoxicating drinks the revenue increases, from increased consumption of other articles paying a higher tariff. He spoke fluently, reasoned closely, any his arguments were convincing, but there were none present but good temperance people, and hence the result cannot be said to be great gain to the cause except to establish those who are already in the service. At the close the Rev. Mr. Willoughby moved a vote of thanks to the Speaker, and in doing so, cast some reflection on the Temperance people as obstacles in the way of securing prohibition. Mr. Ford seconded the resolution. Mr. Stratton in putting the resolution took occasion to remark in defense of the temperance associations that, not temperance people, but religious people were to blame. This opened a little friendly discussion in which Rev. Messrs. Rice and Willoughby took part, defending the religious people, especially Methodist, from blame; Messrs. Stratton and Pentland charging them with inconsistency and blame. After this little episode, the vote of thanks was put and unanimously carried, and tendered to Mr. Spence.—The meeting was not large, but intelligent and very orderly.

LAUNCHED.—Mr. H. Calcutt's new Steamboat was launched on Saturday last at 4 o'clock p.m. There was quite a crowd of spectators present. Miss Calcutt performed the ceremony of naming her the "Golden Eye," and very nicely indeed did the young lady perform her part, as the "Golden Eye" glided into her intended element amid the cheers of the onlookers. As she did a number of small boys who had perched on a board fence near by, were treated to a cold bath by the vessel removing the fence rather unexpectedly. In the evening Mr. Calcutt entertained all his hands to a supper, and thus very pleasantly completed the auspicious circumstances of the launch. The "Gold Eye" is in an advanced state of progress, she is 105 feet at keel, 95 feet beam, 18 feet wide, and when completed will be about the size of the Isaac Butts' She is intended for the Otonabee and Rice Lake waters, and will be a great acquisition to pleasure seekers as well as to those who require towing, freight, or otherwise to travel on those waters. Mr. Calcutt intends that he shall be able to meet the requirements of all who may patronise him with faster sail and more certain regulations. He expects that the "Golden Eye" will be completed by the first week of June; in the meantime the "Whistle-Wing" will take her usual routes and be ready for pleasure trips or excursion parties. He has secured the services of Captain Ewart, of the "Isaac Butts," who knows all the waters and places of beauty thoroughly, and who will spare no pains to ensure the comfort and pleasure of all who may commit themselves to his care on those beautiful waters. Mr. Calcutt deserves great praise for his enterprise, and we trust that the venture will turn out a golden prize for him.

GENERAL NEWS ITEMS.

At the Cobourg assizes Arthur Cawley was sent to the Reformatory for stealing.

The *Star* also has the following;—The following is from the Toronto correspondence of the New York news paper *Reporter*:

"The first phonographic newspaper report published in Canada was furnished in October 1848 to the Cobourg *Star*, by Theron C. Lenard, now of new York. The work occupied a week, and Mr. L. received $10."

We beleive that happened about the time the first Provincial Exhibition was held in Cobourg.

It is anticipated that trains will be runing by the end of the week on the Kingston & Pembroke Railway.

THE Dunkin by-law carried in the township of Storrington, has been quashed by Chief justice Harrison for want of notice of the passage of the same.

CHIEF JUSTICE HARRISON held yesterday that a citizen of Toronto may sweep his his own chimney or may employ any one he chooses to do it, notwithstanding a by-law to the contrary. Who has a better right?

HON. MR PERRY arrived home at Cobourg from Ottawa where he has been very ill, on Wednesday evening last. Mr. Reynold's manager of the St. Lawrence and Ottawa Railway, having placed the Superintendents Pullman Car at his disposal, and in which he was conveyed from Ottawa to Cobourg. We are sorry to say that very little hopes are entertained of his recovery. Since writing the above he has died.

THE KIRBY'S CASE.—A verdict of $1,500, was by consent awarded to the widow of the late W. Minor's, conductor of the Midland Railway, at the Cobourg Assizes, who was killed on the Midland Railway by his head coming in contact with a Telegraph Pole.

BEATEN TO DEATH.—In the beginning of last week a man named George Bain, beat his son-in-law George Stewart with a whiffletree, causing death. Bain and his wife had lived unhappily for some time, and the wife in consequence had gone to live with her son-in-law. Bain on the day referred to went to Stewart's and demanded to see his wife, and was told by Stewart to go and see her. Stewart, however, afterwards told him to leave and a quarrel ensued, when Bain went out and got a whiffletree and beat Stewart that he died next day. Whiskey again the cause of the murder. But then public opinion would rather permit the murder than rob the drunkard of his one glass more.

THE MACDONNELL THEORY.—The Presbytery of Toronto met on Tuesday, and the question of how to deal with Mr. Macdonnell was fully discussed. The Presbytery refused to receive anything but an unconditional acceptance of the Confession of Faith by Mr. Macdonnell, by a vote of 34 to 14. Mr. Macdonnell has appealed to the Assembly, and so the question stands. The persons who vote to accept Mr. Macdonnell's qualified statement are Rev'ds Meikle, Carmichael (King), McFaul, Mitchell, Hay, Atkin, Orool, Carmichael (Markham), McLaren, Cheltenham, McGillivray, and Elders Gemmill, Johnson, Bell and Mitchell.—A statement made in the Presbytery is not far from the mark, viz: That some were more anxious to get Mr. Macdonnell into line, than they were for the purity of the doctrines of the Church.

BIRTHS

FORSEY.—At Toome's Point, on March 5th, the wife of Mr Lewis G. Fobert of a son.

DAWSON.—On the 26th of April, at Peterborough, the wife of Mr Alexander Dawson of a son.

ELLIOTT.—On the 29th of April, the wife of Mr. Thos Elliott, of Otonabee, of a son.

MARRIED

SMITH—HUSTIS.—At the residence of the bride's father on the 19th ult., by the Rev F. Andrews, Presbyterian Minister, Mr George Smith to Helen, daughter of Wm Hustis, Esq., Lang, all of Otonabee

TROTTER—DOUGLASS.—By Rev J W Wicher, on May 3rd, at the residence of Mr William Edwards, brother-in-law of the bridegroom, Mr James Trotter to Miss Mary E Douglass, all of Otonabee.

DIED.

LARMOUR.—On the 29th of April, at the residence of his son-in-law, Wm Donaldson, Esq., Township of Hamilton, Robert Larmour, senr., in the 88th year of his age.

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This Individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 13¼ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' ECLESIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Medford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Mayhew, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing sad relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Ramon, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr Mayhew of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

Sold by all medicine dealers, Price 25 cts.

Peterborough, 26th April, 1876

GENERAL NEWS.

The insurrection in Bosnia is spreading

A gang of pickpockets are operating successfully in Toronto.

It is rumored that Lieut-Governor Morris, of Manitoba, is to retire.

The price of wheat in the San Francisco Stock Exchange has advanced to $35,000.

Three horses were drowned on Tuesday in crossing the river at Montreal.

The proposed cable in the Gulf of St. Lawrence will cost from $130,000 to $140,000.

The peppermint crop in one county Illinois last year sold for $500,000.

Diptheria is greatly on the increase in Toronto, and is very fatal among the children.

The school census of Toronto shows 5,993 children between the ages of five and sixteen years.

A brakesman named William Clarke, of St. Thomas, fell from the the top of a train on the 8th inst., the wheels instantly passing over his legs, badly mangling them from the effects of which he died in fifteen minutes after the accident. He was a young unmarried man, aged about nineteen.

The baby-farming business is now getting the light. Out of 719 infants received at the *Grey Nunnery* during the year, 613 died under one year old.

The Ottawa *Free Press* says: "We regret to learn that faint hopes are entertained for the recovery of Senator Perry, of Cobourg. Mr. Perry is nearly ninety years of age. We learn since that Mr. Perry has been moved to his home.

To leave men in error, may be as wrong as to lead them into it. Hence silence, on the part of those charged with teaching, may be as false teaching itself.

Colds produce catarrh, catarrh produces laryngitis, bronchitis, and consumption. The slightest cold therefore tends toward consumption, and especially is this the case where there is a scrofulous constitution or tendency. Hence, how important that the cold or catarrh, either acute or chronic should be arrested and subdued at once. For this purpose take Dr. Sage's Catarrh Remedy. It is unnecessary to add testimonials, as where once tried it recommends itself. It is sold by druggists and dealers in medicines.

Beauties of the American Postal System.—A Detroit seed firm recently moved six and a half sacks of its catalogues to Windsor, Ont., and there mailed them to persons in the United States, saving $2, 179 by the transaction, or cheating the United States revenue, as some call it, out of that amount. The charge for what is known as "third-class matter" in the United States is four times as much as is charged for the same class in Canada. Under the late postal arrangement between the two countries, United States and Canada each agree to take charge of the other's mail without charge. Hence the Detroit transaction. The remedy is obvious. The United States authorities should reduce their charge for third-class matter to our standard. Their rates was increased last year, and in view of recent developements it cannot be considered too harsh to say were increased solely in the interest of the Express Companies. Whether or not, in these days high postal charges are anamalous and barbarous and ought to be abolished.—*Globe*.

The Napanee *Beaver* says:—Last Thursday night the curtain fell on a local romance, which equals any that Ada Gray's genius has crystallized into reality during her visit here. Miss Jennie Marshall, the heiress of the "cool million" from one, married the humble object of her affections a young lady named Brown, Just fancy Brown stepping into a million and a wife at the same moment. By her marriage this Lady of Lyons forfeits $10,000 and a palatial homestead; she followed the dictates of her heart and sacrificed lucre for love. The boy Cupid thrown into the balance with glittering gold and broad acres, made the latter kick the beam. This rare heroine left home and its comforts, and lived here as a servant girl, rather than be coerced into hateful marriage. When her million come to her, she was determined to make things secure! and on Thursday night last took her Brown to St. Mary Magdalen's church, and the Rev. Rector made the pair a unit. Mrs. Brown took the midnight train en route to England. Meantime, though Mr. Brown may be mad to be in clover; he cannot relish being turned out to grass in so summary a manner.—*Vive l'amour*.

Hide Bound Horses.—A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs—by correcting which, and giving to them a healthy tone and condition the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous cases with complete success, generally effecting a cure in a few days. It is the best condition medicine known and may be given with perfect safety at all times, and does not require that the horse be kept from work. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman Toronto, Ont. Proprietors for Canada. Sold by all Medicine Dealers.

Thousands of Promising Youths,—of both sexes, go down to untimely graves, from general debility and weakness, who might be saved by fortifying their system with iron. The Peruvian Syrup is an Iron Tonic prepared expressly to supply this vitalising element, and is the only preparation of Iron that will assimilate at once with the blood.

Burnett's Cocoaine—allays irritation, removes all tendency to dandruff and invigorates the action of the capillaries in the highest degree. The Cocoaine has earned a deserved reputation for promoting the growth the growth and preserving the beauty of the human hair. Ladies dressing their hair elaborately for the evening will find that it imparts a healthy natural gloss to the hair and will cause it to retain its shape for hours.

Two Follies—First, to eat a healthy supper for the pleasure experienced during the brief time it is passing down the throat, at the expence of a whole night of disturbed sleep and a weary waking in the morning. Second, to try all the remedies in existence for rheumatism, pains in the back and sides coughs, colds, cramps, sprains, bruises, &c., before trying the "Canadian Pain Destroyer." Sold by all medicine dealers at 25 cents per bottle.

Attention has been called to the fact that hæmoids or salts of Hypophosphites are more readily absorbed by the system they are better indicted as auxiliaries with which to improve the Blood, and generally to cure wasting diseases, than all other preparations from Phosphorus.

And since Phosphorus enters so largely into the animal economy it becomes par-excellence the best vehicles with which to associate the other vitalising ingredients of healthy blood, nerve and muscle.

Fellows' Syrup of Hypophosphites and combined all the substances found necessary to insure robust health, such greatness, it has in created with a view to supply every deficiency, it certainly has performed some wonderful cures.

A late number of the St. John *Morning News* thus concludes a lengthy article containing Fellows' Syrup of Hypophosphites:—"Mr. Fellows is certainly entitled to high credit for this energy and enterprise in working up his valuable discovery so successfully, and the proudest gentlemen in any community, as a matter on which that community should congratulate itself."

The St. John *Telegraph and Journal* says, The invention of Fellows Hypophosphites has become one of the valuable industries of the country unique of its kind, and a credit to the Dominion of Canada."

The use of Dr. Wheeler's compound Elixir of Phosphates and Calisaya as food for the brain and nervous system is founded on most established chemical and physiological laws since it is composed of elements entering the formation of these organs and capable of supplying them with nourishment. Great mental efforts, anxiety, excitement, worry, fatigue, blood poisoning from disease or impure air, excessive indulgence in habits that use up the vital powers, speedily interfere with the nutrition of the brain and nerves which results sooner or later from exhaustion of the body, and poverty or utter failure are inevitable result. In the Elixir we have reliable remedy for nerve exhaustion that loss of constitutional vigor from these causes.

THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S

Before Taking. After Taking.

SPECIFIC MEDICINE

Cures all Nervous Diseases such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcohol in spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorhea, Impotency and all diseases, that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Diseases of Vision, Premature Old Age, and many other diseases that need unnecessary to mention here, all of which, as a rule, are a result of indulgence in a certain habit. Full particulars in our pamphlet which we desire to send free by mail to every one.

The Special Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing

WILLIAM GRAY & CO.,
Windsor, Ont.

Sold in Peterborough, A. W. Kemp; by Dr. Bell, and all druggists. Sold in Lakefield, by F. Walton, and Northrop & Lyman, Toronto, wholesale Agents.

One of the Testimonials!

From Dr Duncan McCallum, Montreal—

I the undersigned have been suffering very much for the last two years from Rheumatism in the hip-joint, for which no one thing else which prevented from attending to my calling, but three applications of Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and stiffness which I did not experience for the last two years, and after eight days use of the remedy I feel myself entirely cured.

Of every bottle sold, A PORTION is given to the profession to test the merits of that genuine article

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove to better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

LEWIS LIPSETT.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no [illegible] medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use. In every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels miserably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Burnett's Extracts
"The best in the world."—Fifth Av. Hotel, N. Y.
Burnett's Extracts
"Unsurpassed for purity."—Continental Hotel, Phila.
Burnett's Extracts

The superiority of these Extracts consists in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never in the whole history of medicine has anything been so widely and deservedly upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the nations of the earth, its virtues have been tested, and its wonderful cures of pulmonic disease have become known. Its unfailing character, under the most trying circumstances, to subdue the severest attacks of the ingravated throat, has made it known as a reliable protection against them. When adopted to the earliest access of disease, even in young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and for those pernicious affections of the throat and lungs. As a protection against sudden attacks of croup, it should be kept on hand in every family, and those subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases, where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is the victory over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the influence of *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

As generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other poisonous substance whatever, it in no case is there any period, however long and inveterate, of its administration, before the patient is pronounced well and safe. Even when all other remedies have failed, a trial of this will prove beyond question its superior power to cure. Travellers can make themselves safe by taking it before exposure to the disease, and those who are attacked will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

THOS. ELLIOTT'S COMBINED Hay Rake and Ladder

ITS ADVANTAGES.

Attach it to the rear axle of the wagon and it will go either, clean, and level Hay, Barley or other grain as it is about to bind; and by having a boy to drive the team and a man to build, the horses can be driven at a fast walk, and the man can build better than from two men pitching, which has been proved. It will save from 25 to 35 a day, and more than one-third of the time of one man made of reaching. It is simple of construction, light of draught, can be built at much less cost than the two hand on lift sheaf-rack, and may be hung loose over with wire.

County or Township Rights for Sale. on liberal terms by applying to the undersigned, the Patent Right being secured.

THOS. ELLIOTT George Street, Peterborough. March 31st, 1876. 13-tf

PETERBOROUGH Grafting Establishment

I shall run two Grafting Waggons this Spring through April, May and June; one from Peterborough through various townships and one between Cobourg and Rice Lake and vicinity, on the following terms:—

At $5 per 100 Grafts, one-half to be paid down and one-half on the first day of July for all trees any living at that time. Any number less than 100 Grafts will be charged at the rate of $6 per 100 and cash down. Plums and Cherries $8 per 100, any number less than 100 at the rate of $7 per 100 and cash down. Plums and Cherries should be ripe and as early as possible. Scions I procured from the Genesee Valley Nurseries, Rochester, N.Y. Every tree grafted will be labelled and the variety thereon I guarantee to be true to name. New and choice hardy varieties will be grafted. Scions for the next and future seasons labelled while doing the job.

Call or address L. F. CARPENTER, Peterborough, Ont. Office, Seed Rooms and Residence No. 1, Johnston's Row, George Street. 16-tfn

SEND 25 c. to G. P. ROWELL & Co., New York, for Pamphlet of 100 pages, containing list of 3000 newspapers, and estimates showing cost of advertising.

GENERAL

AGENTS WANTED. Agents Wanted in every Township in Ontario to sell the Genuine Prize Medal Organ Manufactured by the South American Organ Co. and George Stock & Co's Pianos.

Special inducements will be given to first class agents and clubs of three or four wishing to purchase Any number of testimonials in favor of these first class organs can be furnished, but as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—No testimonial, however flattering can add to their reputation

The Stock Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873

Churches requiring organs will be liberally dealt with. Style 33, South American, we would call attention to as being especially adapted for churches and halls, in proportions are graceful and its musical qualities unsurpassed The grand organ stop gives the player facilities for various and splendid effects. the stop can be used so as to slowly increase the volume of tone from a whisper or suddenly bring forth all the power of the instrument in a burst of harmony

Pianos and Organs furnished Wholesale and Retail from Ship of the best class American manufacturers

Circulars and price list sent free on application

J. A. HALL, Sheriff. Sheriff's Office, Peterborough, 1st of May, 1876 18

IMPORTANT TO FARMERS.

I HAVE A FEW OF THE Oshawa Superior Spring Hoe Seeders and Drills

UNSOLD. Farmers wishing to purchase one would do well to do so at once, as my last order could not be filled, and I therefore

CANNOT GET ANY MORE THIS SEASON!

I want to make room for a large Stock of

REAPERS and MOWERS

which I expect this week.

W. GRAHAM, Bowie's old stand, Hunter St. Peterborough, April 10th, 1876 16-tf

$5 to $20 per day at home. Samples worth $5 free. STINSON & Co., Portland, Maine.

Select Poetry.

To My Beloved.

From W. J. V. to ANNIE.

[illegible]
And fairer lips than mine
Be pressed in love's enraptured [illegible]
To those proud ones of thine.

Sweeter songs may softly woo thee
In the hour of light hour,
More alluring smiles win thee
In some loved Indian flower.

Floating softly with the zephyrs,
Thy poetry soul may hover by
To the golden realms of fancy
Far beyond Fate's clamoring cry.

For me of fair ethereal beauty
There may most thy longing gaze;
White-winged angels hover o'er thee
Through life's darkly chequered ways.

Beauty's self may pay thee homage,
Sin thy brow her laurels bind;
But she can not love thee during
While a love as pure as mine,

Flowers that rear'd thy pathway o'erlay,
May it's golden sunbeams fade,
Stars that gem the far-off heaven,
Though by heavenly flowers made.

Oft will roll their bright light from thee,
Leave thee to the storm and gloom;
E'en the [illegible] pathway
Will forsake thee at the tomb.

But my love will reach beyond it—
Light the darkness of the grave,
Reach into the heavenly kingdom
Over death's mysterious wave.

The English Child Murder.

THE BUTCHER'S TERRIBLE STORY.

HE BRUTALLY ASSAULTS THE GIRL, KILLS HER CUTS HER UP PIECES WHICH HE TRIES TO BURN, THE SKULL BROKEN INTO FRAGMENTS WITH A HAMMER, REMORSE TO THE BLOODSCOURED WHO DISCOVERED THE CRIMINAL.

The English newspapers contain long accounts of the Blackburn tragedy. The London Telegraph of April 20, has the following under date of the previous day:—"The clue of mystery which a day or two ago surrounded the murder of poor little Emily Holland is now dispersed, and the public curiosity is somewhat lulled pending the resumption of the coroner's inquiry.

The details of the confession of the prisoner Fish are even more horrifying than was generally supposed. The prisoner states that he first took Emily Holland, the child, up stairs, and, having violated her, left her almost dead upon the floor. Then he was then he fetched a razor up stairs and deliberately cut the throat, the blood saturating her hair. He then went to shave some customers. Having shaved several men he locked the door and went to the Golden Lion Vaults, where he had two glasses of beer and a bowlbread mixture to settle his stomach. He then returned to his shop and, at the usual hour, 9 o'clock, put the shutters up and locked the door. He commenced the fiendlike work of dismembering the body after bringing it down a ladder into the front shop. The body having been dismembered, Fish put the arms and head into the fire, and wrapped the trunk and legs in newspapers, and concealed them among the coals in the back kitchen. He then locked up his shop up and went home, leaving the arms and head burning in the fire. Next morning when he came to the shop, to his astonishment he found the fire had not consumed the head, which a barometer and smashed it into pieces. These pieces he collected, wrapped them in a newspaper and carried them away. Whilst Fish was away there were found by Taylor's bloodhound. The prisoner was in great perplexity as to how he should dispose of the dismembered parts; but each was his audacity that he actually carried away the legs to Lower Cunliffe, and the arms to Pleasington, on the top of which he had committed this abominable crime. He hardly knew what to do with the trunk till about nine o'clock on Wednesday night he ventured, after wandering about for some time in utter desperation, to which it over the wall at the field at Eastwell. It was found next morning, and the town being in a ferment of excitement, he dare not remove the parcel out of the chimney. When the tramp Taylor was brought up for examination on the first occasion, the barber Fish actually tried to gain admittance to the court to hear the charge preferred against the poor innocent fellow, but the throng was so great that he could not get in.

There is reliable authority for stating that a perfect section of Emily Holland's skull has been recovered. The profile is a very finely chiseled cut thus. It is evident that she was a pretty little girl with a Grecian face. The nose is burned off, but the eye is perfect, and there is a tuft of hair resembling on the top of the skull of a light brown color, and, though it had been washed, it is still clotted with blood. The eye-brow is framed but not burned off. There are two teeth remaining in the lower jaw, and the ear, a very little one, is in perfect preservation. The flesh on the cheek bone is singed with the flames, but is not burned off. The mouth is open, which goes to prove that at the time the murder was committed the child was struggling for her life. On the day of the murder the child was dressed in a black Cobourg frock, and a piece of this frock was discovered in the coal hole stained with blood. Portions of the limbs have been found into which the murderer threw the body whatever as to the identity of the murder. The prisoner Fish was dressed in clothes similar to those which have been sworn to as having been worn by the tramp. He had on a mixture cord, a pair of fustian trousers, and clogs, which, however, were not cut down in the front as affirmed by some of the witnesses. He also wore a check comforter, and one witness particular referred to a man wearing an article of this description. Drs. Markland, Cheesebrough, and Patchett have made a thorough examination of the skull of Emily Holland, her clothing, and the clothing of the prisoner, and to-day will be revealed such a tale as was ever before heard of in criminal records. The prisoner Fish is in a most dejected state, and it is doubtful whether he will live till the sessions takes place. He is guarded night and day by two policemen, and he states that he could point out the razor with which he did the deed. He says that he could not wash out the stains of blood from it. Great sympathy is felt for the parents of Emily Holland, and the poor mother is in a state of prostration after her confinement; the father tries to cheer up as well as he can, but the dreadful fate which has befallen his little daughter has visibly told upon him.

IN COURT.

After being removed the prisoner confessed that he committed the murder, and without being aided by any one, mutilated the body and disposed of the remains. The details of the confession will not be made public until Thursday. The prisoner's shop was searched yesterday afternoon) when a portion of Emily Holland's clothing, cut into pieces, was found among some coal. All the furniture was seized and taken to the police office.

The prisoner Fish was born in Dartford, and at age of eleven was taken out of the Blackburn workhouse and apprenticed to Mr. Braswell, barber, of Northgate, who is a member of the jury in the case. When he had served two years he ran away, and after his being absent three years, returned and remained four years, longer. He left last Christmas, and was committed to prison for fourteen days for stealing the money of his master.

Curiosities of Conscience.

Truly, conscience is a queer thing. Reticent, in some shape, in every man, and in some peculiar, and generally unexpected way. Its appointments are not confined to the chief knob, and, accordingly, the less subject to law. It is an acute faculty, or is it merely a product of education? Also the moral principles, and straightening the whole body of abstract notions by the cases, in a hopeless effort to solve the unsolvable problem. Do this question hinge a good deal of truth doubtless; but it is not such abstractions that we care to talk about. The interesting thing is the actual practical fumbling of conscience, and the queer, subtle turns, fundamentally true, sometimes of small

Sending Prayers in a Cart.

Mr. Spurgeon occasionally tells a good story. He would rather make his people laugh than put them asleep. His homely but quaint illustrations often stir his congregation as the gale stirs the leaves of the forest. A poor man who had a very large family, gave them a very comfortable supper while he was in health. He broke his leg, and was laid up for some weeks. As he would be for some time destitute of the means of grace, it was proposed to hold a prayer-meeting at his house. The meeting was led by old Deacon Brown. A loud knock at the door interrupted the services. A tall, lank, blue-frocked youngster stood at the door with an ox-goad in his hands, and asked to see Deacon Brown. "Father can't not attend this meeting," he said, "but has sent his prayers, and they are out in the cart." They were brought in in the shape of potatoes, beef, pork and corn.—The meeting broke up without the benediction. Nor did the poor fellow suffer during his whole confinement. The substantial prayers of the donors became a means of grace.

Forgive and Forget.

How much more happiness there would be in the world if all would forgive and forget! It would be a soothing and healing balm for all hearts. There would be no striving or wishing for revenge upon our enemies. "Oh," says one, "I can forgive, but I cannot forget." If we entirely and truly forgive our enemies as a natural consequence we also forget the injuries done us. To forget, especially, a wrong done us, we do not mean to say that we lose all remembrances of the act, but the thought of it is buried so deep in the bottom of our hearts that there it remains in oblivion until ungovernable circumstances bring it to mind. Our hopes may be raised from the darkest and deepest of pits, even up to the verge of bright realizations; our anticipations are the highest and most ennobling; our faith be made strong, for it will be bound by the golden chain of love, the fruit is forgivenness; and our bark will glide on the river of life with but few storms; the turbulent waves will be quieted by the unseen hand of the Omnipotent, and also be guided by it past all dangers and as we near the shore we shall see the beautiful golden city, that will be our eternal home. May we always forgive and forget!

A CLEVER ARREST.

A $10,000 EXPRESS ROBBER CAPTURED IN HAMILTON.

(Spectator of Saturday.)

One of the most important arrests ever made in this city took place last evening at ten minutes to twelve o'clock. It will be remembered that some three weeks ago the press and the telegraph warned the country that Geo. E. Schooley, an employee of the Adams Express Company, Cincinnati, had absconded with $10,000 of the Company's money. Mr. J. B. Rhodes, the Superintendent of the Co'y, sent the chief of police this city a card containing the photograph and full description of the thief, and other particulars which would assist an officer in detecting him. Detective McPherson took charge of the card, and has ever since been on the lookout for his man.

Geo. E. Schooley took the money from his employers at Nashville Tenn., on Sunday the 16th April last, and left for Detroit. He stayed there but a short time, when he crossed to London and remained in that city three days, when he came on to Hamilton and put up at a private boarding-house on Gore St., giving his name as George Edwards. He kept pretty steady, but frequented 104 John Street, north, a house of ill-fame. He was very familiar with the women there, by whom he was called "Ike." McPherson studied his case well so as to be sure to spot his man should he ever come across him. It appears that he detected Schooley on the street on one occasion, and instantly commenced to shadow him to see if he was the right man. Last evening about 11 o'clock he dropped into 104 John street north. There were several men and women there, and among them the young man whom he suspected, slightly under the influence of liquor. After watching him for some time McPherson walked up to him, and holding the photograph before Schooley's face said, in a quiet way, "Is that your photograph?" Schooley was completely taken aback, and after staring at the picture for a moment, gasped out, "Yes, it is."

McPherson then asked him to come with him, when Schooley protested slightly and abused the officer. McPherson then called upon the other man in the room to assist him, and soon had the express robber at the police station. He had on his person $1185 in American money; fifty-four $20 bills; four $100 bills; seven $50 bills (all Canadian money); and $22 in smaller money.

In justice to the prisoner be it said that he was completely broken down with the thought of his crime. He said he had known no rest since he had taken it—that he had not spent any of the money he had stolen, and that he would return every cent of it, with interest, to the Adams Express Company. He did not claim the protection of the British flag, which he might have done, but asked to be brought to the headquarters of the Company he had wronged at once. He was taken to Cincinnati this morning. Geo. E. Schooley is a young man, twenty

Peterborough Examiner.

PETERBOROUGH, MAY 11, 1876

THE RYAN TRAGEDY.

The town is justly thrown into a state of undue excitement over the death of Mrs. Ryan, caused, it is much to be feared, by the hand of her own husband. The particulars are given in another column, and until the whole matter be finally investigated it is not our duty to prejudice the case in any way. But taking the most lenient view that can be taken, the sad gloom cast over this motherless family, has been caused by intoxicating liquors. The unfortunate man, now awaiting his trial for the murder of the wife of his bosom, was, when sober, quiet, harmless and unoffending, and one of the last men likely to be guilty of such a dark act. At the inquest it was shown that he has been drinking since before St. Patrick's day, and that many days he used two or three pints of either brandy or whiskey, enough to keep him strongly under its influence all the time, and now he is charged with the awful crime of wife-murder, and the only palliation is that "he was drunk when he did it." His own statement that "she did it herself," no one will believe.

But what can be said of the dark curse that hangs over our fair country in this soul and body destroying whiskey traffic! Can the people be called Christians who tolerate it, who license it on its mission of woe and sorrow and degradation everywhere! Are the churches afraid to grapple with it! Town Councils won't even do what they can to get rid of it, and politicians of all shades bow down before it and worship it. How can religion prosper where it abounds! Just 7 churches in this town and 23 places licensed to undo what the Church is but poorly doing. There are nine Ministers of the Gospel of Love, but over seven times nine persons employed in a traffic of misery, want, wretchedness, blasphemy sin and death! Just think of it and pause and ponder ye hypocrites who aid, abet, encourage support and sustain a traffic that destroys as this one does! But for it, Mrs. Ryan's children would have a living mother, their father would not be in prison, their home would be happy and prospects bright; but alas, it is clouded and they are in sorrow.

No better time than the present could be to strike a death blow at the monster, and to this end there should be a mass meeting of all good men to devise the best *means*. Ministers, temperance men, philanthrophists, come forward and let all men see on what side you are in this matter.

A HORRIBLE MURDER.

JAMES RYAN Stabs his Wife with a Tanner's Leather Knife.

She Dies Almost Instantly

On Monday evening, about 20 minutes past eight, this town was thrown into an uncommon state of excitement on receiving the intelligence that James Ryan had stabbed his wife with a large knife thro' the heart, and that she was dead. Our Reporter rushed to the place, and found a large crowd in Dunlop's Hotel, and found the rumour too true, as he saw the woman lying dead with a large wound in the breast in close proximity to the region of the heart, but very little blood issuing from the wound. The Chief Constable had by this time made a prisoner of Ryan and had him placed in jail for safe keeping. Dr. Kincaid, as Coroner, had ordered an inquest, and a jury was summoned. They examined the body and adjourned till Tuesday at two o'clock, to allow time for a *post mortem* examination. During all this time the excitement was entense, and all wondered at the crime, as Ryan, who is one of the oldest citizens of Peterboro—had always been known as a quiet, civil, unoffending man, and being in very comfortable circumstances, was supposed to be living in domestic happiness.

THE INQUEST ON TUESDAY.

JOHN DUNLOP on being sworn said:—My attention was drawn to the screaming of the little girl of Mrs. Ryan; I then went to see what was the matter; met my own little girl and she said that Mrs. Ryan had fainted at the door; I went to the door and saw a woman lying on the sidewalk, went to her and lifted her up; I asked who she was; Mrs. Ryan's little daughter told me it was her mamma I held her up then for awhile and Mrs E. Phelan came; I saw another woman there who said that she saw her running up the sidewalk; don't know who the woman was; I then sent a man for the doctor, sent for Dr. O'Sullivan; I thought she drew a breath and carried her into my own house; she never spoke after I saw her; asked the little girl no questions; the little girl met her father in the hall in my house, and struck at him with her hands and said, "Pa, you have killed my ma," or words to that effect, not sure of exact words on account of the noise she made; Mr. Ryan asked me what was the matter; I said that something ailed Mrs. Ryan, thought she had fainted; he then left and I did not see any more of him he had his hat and coat off when he came into my house; did not notice any difference in him.

To the Foreman.—She did not breath after I saw her; she was about 30 or 40 yards from her own house when I saw her.

Mr. SCOTT appeared at this stage on behalf of the prisoner, Ryan.

Mrs. ELLEN ROBINSON, on being sworn, said:—I reside in Peterboro; was not acquainted with Mrs Ryan; was going home from my work last evening, and when between Ryan's and Dunlop' I saw a woman walking in a hurry with two little girls with her, after I passed her I thought she was going into Dunlop's, the little girl cried out, "My poor ma," I looked around then and saw the same woman lying insensible on the sidewalk. I formed this opinion from having examined her and tried to bring back life into her again; I helped to carry her into Dunlop's; *the little girl was with her and said that her Pa had been drunk* and had been beating her Ma; saw the mark of blood and the wound after opening the dress; no person was with her except the little girls; did not see Mr. Ryan in Dunlop's; saw Ryan standing in his own door; Mrs. Phelan asked him if had seen what he had done, she then told him, and *he said "Is that so?" and* walked in and shut the door; he said it quite cool and slammed the door after him; Mrs. Ryan was greatly excited when I met her, I thought she was angry.

By Mr. Scott.—When Mrs. Phelan spoke to Ryan she said, "Oh! Ryan, Ryan, do you know the deed you have committed, you have killed your poor wife!" he shut the door after Mrs. Phelan had spoken to him; he had just been coming out; this was about 15 or 20 minutes after Mrs. Ryan fell on the sidewalk; he appeared with his coat on as usual. Here

DR. O'SULLIVAN, on being sworn, read the following statement.

Post Mortem Examination on the body of the late Mrs. James Ryan, of the Town of Peterborough, made on the night of this 8th day of May, One Thousand Eight Hundred and Seventy Six, by the undersigned.

GENERAL APPEARANCE.—*When seen* body lay on a bed in a room in S. W. corner of the house lately occupied on Simcoe Street—head to the west; had on a dark working dress, two chemises—cotton and woolen, two petticoats and a pair of worsted stockings; around the lower part of abdomen was pinned a piece of grey factory cotton; a space over the chest, about the size of a large hand of the dress and chemisee was saturated with blood, and in the centre of said space these three garments presented a small cut or perforation as if made by some sharp instrument. On removing the cloths the body presented on careful inspection a healthy though somewhat emaciated appearance. A small space over the chest was *stained with blood*.—In the centre of this space opposite the cut in the cloths, and about the breast bone, at or immediately between the junction of fourth ribs with this bone was observed an incised wound, penetrating the said breast bone, beginning at its centre and extending leftwards and downwards to the length of a little more than five-eighths of an inch, corresponding exactly with the width of a blade of knife shown us, at a point from the tip of said knife, where the blood stain which was very distinct, ceased; said knife was very tapering.

INTERNAL APPEARANCE.—On opening the cavities of chest and abdomen the organs all presented healthy appearance except a small diseased spot on the surface of the right lung, apparently of long standing, and the distended appearance of the pericardium or small sack which contains the heart, there was a small quantity of blood in the left side and a blood stain on the pericardium immediately beneath the wound in the breast bone. In the centre of this stain and exactly corresponding with the wound in the breast bone was a wound in the pericardium penetrating this sack. On attempting to remove the pericardium, large quantities of dark blood escaped from it. On opening the pericardium the heart was found to present a healthy aspect. Near the base and on the front side corresponding with the wound in the pericardium was a wound penetrating the portion of the heart called the right article, and on being further examined this wound was found to extend almost entirely through the whole base of the heart, gradually getting smaller until its termination in a point on the external wall of the left auricle, which was nearly perforated. Having found *coagulated* blood in the *whole course* of the wound which would not occur had the wound been made after death. We are perfectly satisfied that the said wound was the cause of death, hence we considered further examination unnecessary.

JOHN O'SULLIVAN, M. D.

I concur in the above statements.

THOS. HOLYWELL, M. D.

DR. HOLYWELL, sworn:—Said was present at the post mortem examination, assisted Dr. O'Sullivan, coroborate the statement made by him; the wound was through the fleshy walls of the heart, there must have been considerable force used to go through the wearing apparel, the party must have been strong and muscular to do so; saw a knife with blood on it the size of the wound; do not think the woman could have committed murder with the knife herself.

To Mr. Scott.—He thought that it was barely possible for the woman to have done it herself as she was apparently not strong and thin, and it would require considerable strength and muscle on her part to do it.

Dr. O'Sullivan recalled on the point of whether he thought it possible for a woman in her condition to have done it herself, said he was perfectly satisfied that a person could not possibly make such a wound on themselves, the force of *the blow must have been very great*, I knew her to be physically weak some time ago.

PATRICK RYAN, aged 16 years, sworn:—Am a son of the prisoner, James Ryan, was at home a portion of Monday, was not at home when this accident occurred, when I left home in the morning my father was coaxing mother for money, she would not give it to him; she went out to do some shoping, he went up town and brought home a flask of liquor, don't know where he bought the liquor, he got another about 6 o'clock in the evening, he lay down on the sofa, did not eat any supper while I was there, after supper I sat at the window. Ma was advising him to stop drinking and said that it was not like some rational sicknesses, he knows the difference, he is not a baby, I went out after that, when I got back after supper mother was in Dunlop's stabbed, she was just dying, father drank very hard; he started on the 16th of March and ended on Monday last, he was about three days out of them all sober, looked steadier when not drinking, there was some quarreling going on the days that he was drinking.

To Mr. Scott—He had been sober before for three years since the tannery was burned, he has been drinking constantly since the 16th of March, the last two or three days he has been drinking more, he drank two or three flasks a day which held about a pint each, he appeared quite sensible all the time, did strange unnatural things by running from one bed to another, about three weeks ago he gave a quarter to witnesses little sister to change beds with him, he was sleeping the most of his time; have seen him staggering, appeared to be silent, never spoke many cross words, sometimes he scolded mother, he was always very quiet when he was drunk, when he was not drunk he would sometimes scold her, mother did not like his drinking, she was complaining about it and often told him he was doing wrong, never heard her say that she would destroy herself if he would not quit drinking. He went to the bank on Friday but it was closed, offered mother a cheque for $20 if she would give him some money, he did not attend to business the same as when he was sober, he would sometimes ask how the stock was getting along.

To the Coroner.—Mother said she would not live with him if he carried on the way he was doing, never heard him say that he would strike her or do away with her.

To the Jury.—It was to another woman that mother said that she would not live with him if he did not quit drinking, did not take notice whether he had his coat on or not when I saw him in the door.

MINNIE RYAN, 8 years old, daughter of the prisoner, sworn:—I have been to school to him in the 3rd book, have been reading a good deal, went to school yesterday all day, got home at 3 o'clock. Have been at school a good deal. Pa and Ma were at the house when I got home from school in the afternoon, he was sitting up on the chair, ma was setting on the rocker beside him; went out to play on the sidewalk when I came home, did not hear them saying anything to each other, got home about six o'clock; Pa was in bed then, Ma was getting the tea ready; I had tea and asked leave from Ma if I could go out to play; went out again; I came in then about 8 o'clock, Pa was standing on the floor when I came in; Pa wanted to take some whiskey, I told him he could not do so unless he went into the other room to sleep; he did not go into the other room but came and sat beside Ma; I then went out to tell Maggie Dunlop that I could not go out; I heard me scream and I ran to the front door and met Ma—Maggie Dunlop was with me then; Ma came out and said nothing, Maggie Dunlop and I went with her, and when she got to the steps of Dunlop's house she fell back and died.

To the Jury—Pa said nothing cross to Ma; did not hear him threaten at any time.

To Mr. Scott—Pa commenced to drink the Thursday before St. Patrick's Day; before he commenced to drink he was kind to Ma and the children; never heard mother scold him for drinking; Pa was standing in the middle of the room at six o'clock; he went and sat beside Ma, and was in the rocking chair quite close to her; I did not hear him say anything to her: I went out, and did not see him in the summer kitchen or yard; I saw a knife that he cuts leather with on the sewing machine; the chair was near the sewing machine; and the knife was on the sewing machine, and Ma was sitting in the rocking chair near him; Ma did not say anything when I met her, she only gave one screech; when I went in to the house the knife was there at 6 o'clock, the sewing machine was in the kitchen; I did not go to the kitchen at 8 o'clock; they were sitting in the dining-room when I saw them.

Mrs. E. PHALEN, sworn.—Am acquainted with Mrs. Ryan; she was not dead when I ran across; she was then lying on the sidewalk near Dunlop's door; I heard the little daughter screaming and I ran to see *what was the matter*, when I reached her she was not dead but speechless; I raised her up in my arms and bathed her face with brandy; the Doctor was sent for; we carried her into Dunlop's and got a chair and a pillow and placed her head on it, she was still breathing, but soon expired without ever speaking; I saw Ryan with his back to the door, and I said to him: Oh! Ryan, Ryan, what have you done; this was after we noticed the wound; he made no reply, but stood standing in the door; he had his coat on; I was always under the impression that he was quiet.

To Mr. Scott—Did not see him when at Dunlop's; just at his own door; he was standing in his own porch between me and the light; in reply he said that Mrs. Ryan had done it herself.

The Coroner said: Mr. Ryan claims the privilege of going over to his own house with Mr, Johnston; as Mr. Scott was absent for a few minutes he then went over to the house with Constables Johnston and Irwin; went to the room where the dead body was, went forward and kissed it, and then returned to the Inquest, never speaking to any person in the house.

R. DAILY, farmer, sworn, said:—When I heard the alarm given I ran over from Mr. E. Phelan's hotel; saw the deceased lying on sidewalk supported by 3 or 4 women, some person said she had fainted and I *told the crowd that if she had fainted* to keep back. and I then went back to Phelan's hotel; never heard her moan or speak; saw her when she was alive; did not see Mr. Ryan at Dunlop's when I was there.

H. PHELAN, bartender, sworn, said:—Last night I heard some person calling very loudly, calling Ma; ran to the door to see what was the matter, saw it was across the street at Mr. Dunlop's hote', so I ran across; saw Mrs. Ryan, deceased, lying on the sidewalk; called for my mother to come over, there was a quite a few standing around then, she took a hold of her and lifted her up; the little girl was crying all the time and saying "my poor Ma;" she seemed to be gaining more strength and was alive; she did not speak while I was there; have not seen Mr. Ryan before for about six weeks; heard that he was drinking. That is all I know about it.

EDWARD CLARKE, Engineer, sworn,—Am acquainted with the late Mrs. Ryan, I am in the employ of prisoner Ryan; about the 19th or 20th of March I thought there was something wrong with him, when we began to inquire we found out that he had broken out on a little spree and continued it till now; came to the conclusion from the peculiar manner that he acted; other mornings he would come and open shop at 7 o'clock, and since then he would only come out sometimes in the forenoon and not again till between 5 and 6 o'clock in the evening; we knew from his handling the leather differently that there was something the matter with him; I have known him to have two or three bottles a day, some holding a pint and a half; do not know where he got the liquor; he never spoke to me about his business; know nothing about the *cause of the death of the deceased*; as far as I know they always lived happily together

To Mr. Scott.—He got worse these last three weeks; his father said that it was better to put him in jail for two or three days to cure him; he appeared to be out of his mind; he came to the tannery more like a child than a man; he has come and asked me if his father or Pack had been there, and then standing at the stove; he was always kind to his wife and family; never heard him say a cross word to his wife.

GEORGE JOHNSTON, Constable, sworn, said:—I was in the Council Chamber when I was informed of the murder being committed; about 20 minutes past eight the word came to me that Mr. Ryan had stabbed his wife in the house and that his wife was dead; heard some one say to look out, for he (Ryan) had a knife; went in at the hall door and found a light on going into the kitchen; saw Ryan standing with his back up against the kitchen table; went forward to him and asked him if he had a knife, he said no; told him I would have to search him, when he took a small pocket knife out of his pocket and handed it to me; I then arrested him he made no resistance; I informed him that I had arrested him for stabbing his wife, and he said he never done it, he was informed by some one present that he had killed his wife, and he said, "My God, is she dead," or words to that effect. Oh the way to jail he asked me if his wife was really dead, I said I was told so but that I had not seen her; Mr. Phelan and I got a light and searched the house for the knife, but did not find it; the knife now produced was handed to me by Dr. Kincaid, Coroner; I was told that he picked it up in the yard; it has not been out of my possession since; I laid it on the table at the inquest last night before the Coroner's Inquest, but was not away from it. Coroners measured the knife with the wound in the chest, and found it to be the same size exactly; there was blood on the knife which has been rubbed off with paper; I thought the man seemed to be heavily under the influence of liquor, by the way he spoke, and the heavy smell of liquor off him; there was no other knife showed to the Doctors but this one.

To Mr. Scott.—I got the knife last night; the blood stain was about half way up on the knife.

MINNIE RYAN, re-called, said:—Pa was sitting in the chair in the dining-room; the sewing machine was in the kitchen; *the knife was on the sewing machine.*—(The knife now being shown to her) she said: "That looks like it, that is it;" he used the knife in the tannery; do not know who brought it there.

To Mr. Scott—I was talking about a minute to Maggie Dunlop when I heard my mother scream.

WILLIAM BULLING, sworn—Said that he did not know anything about the death of Mrs. Ryan; have not seen Mr. Ryan since last *Friday*; he was under the influence of liquor when I saw him; saw him drinking liquor; I work in the carrying shop upstairs; I have seen (showing the knife) a knife like the one produced here frequently in the tannery; sometimes they used to take it into the house to cut meat with; I cut a pipe full of tobacco with the knife now produced on Friday last; it is used for splitting hides in the tannery.

JAMES RYAN said that he wished to make a statement before the people here. His lawyer advised him not to, but he insisted on doing so.

The Coroner said that if he wished to make a statement he would take it down, but for him to be very careful what he said for it might be brought up in Court against him.

RYAN'S STATEMENT.

JAMES RYAN, sworn:—I am a tanner of the town of Peterborough, did not use the knife on my wife, she use it herself, am not guilty of murder, I of course as some of the witnesses have said have been drinking a good deal and deceased spoke to me about giving it up, she told me on two or three occasions that if I would not give it up she would make away with herself, yesterday evening about 5 o'clock or a little later the knife produced in Court was on the sewing machine in the kitchen and she took up the knife and gave herself a prod with it, then she made for the door. I did not think that she was much hurt, I was not much alarmed until the crowd began to gather; of course then I heard how matters stood, after stabbing herself she must have thrown the knife away.

Mr. Johnston, re-called:—Do not know where the knife was got, heard that it had been found under the back door.

Dr. Kincaid said that he and Mr. Williams had found the knife in the yard and if it had been thrown out there unset have been some boards put over it afterwards.

This completed the evidence. and in an hour the Jury gave the following

VERDICT.

That she came to her death on the evening of the eighth day of May, one thousand eight hundred and seventy six, by the infliction of a wound in the chest by some sharp instrument which penetrated the heart as well as the chest, and that from the evidence adduced, the said wound was produced by James Ryan, the husband of the deceased. In witness whereof, as well the said Coroner as the Jurors aforesaid, have subscribed their hands and seals the day and year above written.

OUR CALIFORNIA LETTER.

ANAHEIM, LOS ANGELOS CO., CAL.
April 20th, 1876.

To the Editor of the Examiner.

DEAR SIR,—When I last wrote we were all busy seeding. Now everything is planted, and the hay harvest has commenced. Last winter here was rather a singular one. Our rain-fall has been about fifteen inches, but in place of very heavy falls at once, we have had them oftener. The crops look well so far; but unless we have foggy nights soon the late sown grain will be light. At present the weather is very warm with a dry wind, which tells on the crops very soon. The winter has passed without any of the severe frosts we sometimes have, yet on the first of the month the glass was down to 28 degrees; it did some damage to young trees and to many vines which had begun to send out their shoots. Potatoes that were over the ground were cut off also, but we have come off easily compared with last year. So far fruit promises well for a full crop. Grass for stock will also be plenty The sheep men are now busy shearing their flocks. I believe the quality is better than usual this spring, yet the price is low, and it does often seem to me so foolish looking to ship unwashed wool containing from thirty to forty per cent of dirt all the way to New York paying heavy freight thereon, but then I suppose the railroads and steamers must have their share.

Our Legislature has now adjourned and *I think the results are anything but* what will be satisfactory, especially to this part of the State. I notice one Bill has been passed that may have a salutory effect on evil disposed persons. The Bill awards a certain number of lashes on the bare back to any person beating his wife. The punishment will be inflicted under the supervision of an M. D.

The Chinese are seemingly a great nuisance in the minds of many now on this coast. A great many of the heathen have settled in town, and our church is trying to keep up a Sabbath School for their benefit. They teach them the alphabet, and sometimes over seventy turn out; of course their object is only to learn English, yet it may have a different effect on their lives, yet from what their motive now is, one thing is certain, that two races have now met on this continent—the one travelling East, the other West. The problem now is what is to be done! Shall we educate them and send them back to China with the good news to their benighted land, or shall we hurl them back worse than when they came among us, for they are very apt scholars in the science of trickery as practised in our day. These questions must be met, and at no distant day. I often think they bear a striking resemblance to the Indian, and I do think they will yet be found one race. The trade winds from the West to the East may have wafted their Jews to the shores of this continent long ago.

I must however close this letter, and trust soon to write again.

I remain,
Yours truly,
JOHN HUNTER.

LINDSAY.

BURGLARIES IN LINDSAY.—Early on Saturday morning burglars were at work in Lindsay and entered four houses, going into bed rooms in their search for money, which was apparently their object. They entered the dwellings of P. Nicholls, G. H. Bertram, P. Sennett and T. Sadler. In the houses of the first two they got nothing but some loose change, but Mr. Sennett was relieved of $60, and Mr. Sadler of a silver watch. The burglars were seen in Mr. Sadler's house, but too late to take any means for their capture. In the other houses were tried, A gang of small boys have been committing burglaries on a small scale, and two of them have been arrested.

ASSESSOR'S RETURN—The returns of the Lindsay assessors have been handed in. The assessment shows an increase of over a quarter of a million, being $1,227,052 which with $41,825, non-resident makes a total of $1,268,877. The population is returned at 5,203

CAMPBELLFORD.

TIMBER BUSINESS.—We learn from the Campbellford *Herald* that the transportation of logs and timber down the Trent river will be in full operation shortly, a small quantity having passed that place on Monday last. There are about 300,000 square feet of pine to be shipped for the Quebec market, during the present season.

SYMPTOMS OF CATARRH

Dull heavy headache, obstruction of the nasal passages, discharge falling into the throat, sometimes profuse, watery, acid, thick and tenacious mucous, purulent muco-purulent, bloody, putrid, offensive, etc. In others, a pressure, dry, watery, weak, or inflamed eyes, ringing in ears, deafness, hacking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath impaired smell and hearb, dizziness, mental depression, trekling cough, etc. Only a few of the above symptoms are likely to be present in any case at one time.

INDISPUTABLE EVIDENCE

Thos. J. Bishop, of South Brooklyn, N. Y., writes that his wife had suffered since a child with Catarrh until it had resulted in what eminent physicians pronounced Consumption; that she has used Dr. Sage's Catarrh Remedy with Dr. Pierce's Golden Medical Discovery, and they have worked wonders with her case.

GRAVEL ROAD FROM PETERBORO TO BOBCAYGEON.

To the Editor of the Examiner.

SIR,—I would like to bring this matter before the public of Peterboro, Ennismore and Bobcaygeon; believing that the construction of such a road would be highly beneficial to all those places, and that it will only be necessary to bring it to their notice to secure their co-operation. The whole distance, I believe, is twenty-three miles. Seven miles of these, viz, from Peterboro to the opposite shore of Mud Lake may be said to be already made, leaving some sixteen miles to be constructed. I assume that the cost of doing this will not exceed twenty thousand dollar, and this I propose shall be paid by those three places and by the County in equal proportions, being just $5,000 each. The money would be well spent and the return to all parties would be four-fold. Such a road would open up a good communication between Peterboro and the whole back country, Bobcaygeon receiving the first fruits of it in the stimulus thus given to her trade, and such a road would serve until a railroad could be pushed through, and would do more than anything else to help on a railway, by developing the necessity for it, just as the construction of the Mud Lake bridge has shown its necessity and advantages, and because a closer and easier communication between Peterboro and Bobcaygeon would bring about a greater intimacy and trade, and thus increase the friendship of those two towns. I would like to see what the people interested have to say about this undertaking, and especially the people of Ennismore and Bobcaygeon. This road would run nearly through the entire length of Ennismore and would be a great benefit to that township.

BY-LAW CCXLIII.

A BY-LAW to provide for opening up a new line of Road across the eastern part of the 10th concession of the Township of North Monaghan.

WHEREAS certain owners of property, together with upwards of forty ratepayers of the Municipality of North Monaghan have petitioned the Council praying that they would open and legalize a public highway across the Township in accordance with the following description of Theodore Clement, P.L.S., as follows:

Commencing on the north side of the allowance for road in front of said 10th concession at the distance of six chains and 63 links easterly from the southwest angle of lot No 9 in said 10th concession. Thence north three degrees eight chains 40 links. Thence north forty-two degrees east 23 chains more or less to a point distant 50 links westerly from the line between lots 9 and 10. Thence northerly parallel with the line between lots 9 and 10 twenty chains more or less to within one chain from the south side of said Railroad thirty-six chains and 50 links more or less to the south side of the concession road in rear of said 10th concession.

The described line to be the west side and the south side of said road and the road to be sixty feet wide.

Said By-law will be taken into consideration by the Council of the Township of North Monaghan, on the 2nd day of June.

The Examiner.

PETERBOROUGH, MAY 11, 1876.

LOCAL NEWS.

THE DUNKIN ACT was carried by a large majority in Lennox, Addington, and Missisquoi.

SEVEN trains are now running daily between Toronto and Hamilton, all carrying passengers.

THE proclamation of Queen Victoria's assumption of the title of Empress of India, was gazetted last Friday.

USE CLARK & Co's Extra Quality Six Cord Cotton, with ANCHOR ON SPOOL. Leading Sewing Machine Agents in the land.

EUROPE.—We believe it is the intention of the Hon. E. Blake to visit Europe this summer, and will sail in about two weeks.

LEFT OVER.—The annual report of the Directors of the Mechanics Institute, and a report of a meeting of the Town Council are unavoidably left over.

CHANGE OF TIME.—Mr. Newhall has changed the time for running the stage to Bonfhorn, from Friday till Saturday, Leaving the Stewart House at 11 a.m.

The Best sewing Cotton for Hand or Machine Sewing is CLARK & CO'S EXTRA QUALITY SIX CORD. Notice the Anchor on each Spool.

CONVENTION.—A Convention of all the Young Mens' Christian Associations of the United States and Canada is to be held in Toronto, commencing July 12th, 1876.

THE Germans of Hamilton have presented another petition to the Board of Education in that city asking that the German language be taught in the Public Schools.

PRACTICE.—The Fire Brigade held their first practice of the season on Thursday evening last. The engine was in good condition, and apparently well worked by those in charge.

TREES.—Large quantities of Fruit and Ornamental Trees have been coming into town daily for some time past, mostly from the United States. We believe the Canadian Nurseries receive a fair share of patronage also.

CONCERT.—We trust our musical friends will not forget the Concert of the Boston Mendelssohn Quintette Club, which takes place to-morrow evening, in the Music Hall. The programme is one of the best the Company has produced.

SPORTING.—The close season for snipe commenced last Thursday, and ends on the 15th of August. Beaver, muskrat, mink, martin, racoon, otter and fisher, must not be killed between the 1st of May and the 1st of November. Sportsmen would do well to remember those facts.

MR. CREWS, Inspector of Vital Statistics, was in town upon official business and we understand has instructed Mr. Edwards to prosecute several persons who have failed to comply with the provisions of the Registration Act, among whom we are informed are some of the Medical Profession.

PHILHARMONIC SOCIETY.—We are requested to state that a general business meeting of the above Society will be held at the Huffman House on Monday evening next, 15th inst., at 7.30 p.m., sharp. A large attendance is particularly requested as business of much importance will be transacted.

LECTURE ON MARRIAGE.—The Rev. Mr. Clarke gave a very interesting lecture on this subject in the Bible Christian Church Ashburnham, on Wednesday even'g last. The audience though small were well pleased with the Revd. gentleman's remarks. Had the subject been known in time he would have had a full house.

CORRECTION REQUIRED.—Our contemporary in last issue, has unintentionally done the Teacher of the Auburn School, an injustice, which we hope he will rectify. Mr. Johnston is a worthy teacher, very painstaking, and is discharging his duties faithful. The slight mistake in the *Review* report, would lead some to think this was not so.

MUD.—The Street Inspector has got men employed scraping the mud from the principal streets and filling in all holes with broken stone. And has also received instructions from the City Fathers to have the stones broken that were purchased for the Charity men to break during the winter, and have them put on the streets.

NOT CREDITABLE TO ONTARIO.—From statistics published in the *Globe* of Thursday, it appears that Protestant Ontario drinks more *per capita* of all the intoxicating liquors than any of the other provinces in the Dominion. Is this creditable to Ontario, and to the loud boasts of Protestant morality and religion compared with Quebec?

NEW GOODS.—Messrs. Haggart & Bro. have received a large stock of winceys, linens, boots and shoes, &c., which they are selling by Auction every Wednesday and Saturday, and by private sale during the day. They have also a large lot of silver electro-plated ware, which they are to dispose of by auction in a few days. For particulars of electro plated sale see catalogues.

PETERBOROUGH LIBRARY ASSOCIATION.—The above Association met as usual on Tuesday evening. Mr. R. B. Edwards in the chair. Mr. Edwards read a piece entitled "A Legend of Bergess" by Adelaide Ann Proctor. The question, "Is the Federation of the British Empire desirable," was then debated. The debate being open to all members of the Association the subject was discussed from many different points. The Chairman gave his decision in favour of the affirmative;

THIRD TO HANG HIMSELF.—Ryan, now in jail for the murder of his wife, has made two attempts to hang himself. One on Tuesday morning, when he tried with a towel and his neck tie but was prevented by the Turnkey. A second time on Tuesday night after the Inquest when he tried by twisting his braces or suspenders to hang himself, and this time was seen and prevented by a person left to watch him. He attempted to get away from the Constable while going to jail, by jumping out of the "bus," but was soon brought to time and stood still.

CENTENNIAL TRIP.—Mr. Saml. Hulbert travelling agent of the Northern Central and Pennsylvania Railways was in town on Thursday last, making arrangements for the sale of tickets, and giving any information that was required as to the best route to the Centennial Exhibition. There are a great many ways to Philadelphia, but by this route you will find it the cheapest, quickest, and most attractive. You have the privilege of stopping any place along the route and can return by New York for one dollar extra. The price of ticket from Rochester is $14.65. Be sure your tickets read *via* Canandaigua, over the Northern Central and Pennsylvania Railroads.

THE Corporation of St. Catharines has been sued for $10,000 by Asher & Co., through their solicitor, Mr. Bykert, on the ground of being illegally fined by the Police Magistrate $50 and costs for selling without a transient trader's license. Asher & Co. sold out a bankrupt stock at the Boston Dry Goods Store, and made such havoc with the regular trade that a By-law was passed imposing a license on transient traders. McOuaber & Bradfield's bankrupt stock was offered by tender, and the same Asher & Co. made the highest bid, and proceeded to sell in the same store without moving the goods.—The stock having been purchased in the town, and having paid assessed rates, Asher & Co. claim that they should not have been asked to pay a license, and that the fine for refusal was illegally imposed.

HANGING AROUND CHURCH DOORS.—The following remarks of the Oswego PALLADIUM apply with singular appropriateness to this town:—"People who attend divine services in the churches on Sunday evenings complain of the number of young men and boys who congregate around the church doors when the services are over. There ought to be a stop put upon the bad practice, and unless the young men desist policemen should be detailed to break up the gatherings. It is very annoying for a lady to run the gauntlet of fifteen or twenty young men and to stand the ogling she is subjected to. Young men, if you want to go home with the girls be manly about it. Do not sneak around like whipped curs, but go to the girl's house, escort her to church, sit along side of her and then see her home.

BONUSING MANUFACTURES.—The *Mon*etary Times makes the following suggestion to manufacturers about to accept bonuses from municipalities:—"The town of Mitchell is offering a bonus of ten thousand dollars in municipal debentures to any firm that will start a factory there giving employment to sixty workmen. Why this generous offer was not made to retain the manufacturing firm which moved to Stratford some months ago on an inducement being held out by that place, is not very clear. We always thought the success of any enterprize depended upon capable management and a fair field for using the capital invested.—It seems now that by a grant of money one can be made to succeed anywhere. If a manufacturer is not doing well in one place a bonus will make his business all right in another. He need not bind himself to stay. He may get another offer within the year that will make it worth his while to go some place else. As there seems to be money for manufacturers in these solid inducements held out to them of late, we would suggest that they build their establishments in sections, so that they can be moved around the country without difficulty. When the Union Pacific was building, the station houses for the west were put up in this way at Omaha. After a building was finished it was taken down, put on the cars, shipped out on the prairies and stuck up again where wanted. We advise manufacturers who have to put up their own building to adopt this style and they will no doubt find it profitable.

CONCERT.—The Firemen's Band gave an entertainment in the Music Hall, on Friday evening last. The ladies and gentlemen who so kindly volunteered for the occasion, combined to present a pleasing and enjoyable entertainment. The audience was not as large as was anticipated, owing to the disagreeable state of the weather. However the Concert passed off very well, and the audience seemed well pleased with the evening's performance. The Band played well, showing great improvement of late. "Come back to Helen," and "Beautiful Brighton," were well rendered by Miss Brown, as was also "Come Birdie Come," and "Good old days of yore," by Mr. Miller. The Irish Comic Songs of Messrs. Donoghue and Regan were loudly encored. The Band then gave another selection, which met with marked applause. Mr. J. Ormond then appeared in Dutch character and sang "You got the Belle of the Ball," and was loudly encored, to which he sang another German song, entitled "Michael Schneider." His vocalization is very pleasing, and on this occasion he met with great applause. The Cornet solo by Mr. Miller was given in good style. A very pleasing part of the evening's performance was provided by our Ventriloquist, Mr. O. Dixon, who displayed his great powers in his own peculiar manner. The after piece was a laughable farce entitled "Zoological specimen or the sudden arrival," it being one of the most amusing pieces of Comique. A very enjoyable evening was brought to close by the band playing the National Anthem. Mr. J. Ormond and Miss Ormond played the accompanyments with their usual taste and skill.

A HEROIC FAMILY.—The young men receiving the honors undermentioned are brothers of Mrs. James Ross of this town:

It was with particular interest that the report of the interesting presentation at Aberdeen, of the gift from the King of Sweden to Captain Falconer, of the schooner Lark of Newburgh, was read by his many acquaintances in Spey, his native place, and none the less owing to the fact that the same day his brother, Jos. Falconer, received a congratulatory letter and one sovereign from the Emperor of Russia, in recognition of a very noble deed performed by him in the presence of hundreds of people, when at Newburg in October last, on a visit to his brother above named. The occasion was when the brigantine Olga of Riga, bound with a cargo of coals from Hartlepool to Copenhagen, came ashore at Newburgh during the severe October gales and was wrecked. The coast guard men were trying to save the lives of the shipwrecked crew by means of Manry's Life-saving Apparatus, but unfortunately, as the first man was being landed, the lines became unworkable, owing to the vessel breaking up, and part of the wreck getting entangled about the ropes. The poor fellow was thus, for a very considerable time, kept dangling half-way between the wreck and the shore, crying to the excited crowd for help, when Mr. Joseph Falconer appeared on the scene, and, immediately seeing a remedy, swam. axe in hand, to the entangled part, which he very soon disengaged. The process of working the gear was then proceeded with, and all the crew were landed in safety. It is also worthy of note that yet another brother, William Falconer, was a few years ago presented by our Board of Trade with £3 for saving the crew of a sinking vessel at Spey; and no doubt but this pluck and usefulness in cases of emergency are greatly due to the early and excellent training the family have received from their father while performing his sometimes difficult and dangerous duties of pilot at Speymouth.—*Elgin Courant.*

MENDELSSOHN QUINTETTE CLUB.—We beg again to draw the attention of our readers to the concert to be given by this excellent club on Friday evening. We hope that the great merit of this club will draw a crouded house. We subjoin an extract from last Friday's *Globe*.—

The Mendelssohn Quintette Club of Boston gave a concert last evening in the Music Hall. The deservedly high reputation the association have won secured an audience that, in view of the unpropitious state of the weather, might be termed large. The programme, an unusually good one—in fact an improvement upon former schemes—was it is needless to say, marked in its performance by a high degree of artistic ability. It afforded cause for approval that an overture such as that to Weber's 'Oberon' took the place of 'Tancredi' and other overtures of that class with which the Club have in the past been accustomed to head their Toronto programmes. The *Andante* from Schubert's Quartette in Dominor, the *Presto*, from Beethoven's Quintette in C, and arrangements of the ballet music from Meyerbeer's 'Robert le Diable,' of the Pilgrims' Chorus and Tournament March from Wagner's Tannhauser, most popular of all, Schumanns' 'Traumerei,' completed the list of the numbers played by the Club. It would be unnecessary to comment upon the manner in which these various compositions, of widely different schools, were performed, as the playing of the members of the Club both individually and collectively, is spoken of in terms of the highest praise in every home in Toronto where high-class music finds a place. The instrumental soloists were Mr. Charles N. Allan (violin.) Mr Ryan, (clarionet) and Mr. Heindl (flute.) The first-named artist created a perfect furore by his brilliant execution and happy treatment of Sarega's 'valse caprice.' Mr. Ryan played in his usual felicitous manner. Mr. Heindl gained a large share of the applause of the evening. The vocalist was Miss Humphrey, who possesses a very promising, fresh, and sympathetic voice. Her principal effort was in the scene from 'Der Freyschutz,' in which occurs the exquisite prayer, 'Softly sighs the voice of evening,' and which Mademoiselle Titiens is never weary of singing.

BASE BALL.—We clip the following from the Lindsay Post last week, throwing out the hint that they are going to make things warm for our Base Ball Players here this summer:—"A junior base ball club has been organized with a membership of twenty. The following are the officers:—President, John Butler; Secretary, Alfred Penny; Treasurer. Peter Curtin; Captain, James Nolan.—Now, Peterborough, look alert!" We wonder what our young base ball players are doing this year; we have not heard from any of them yet.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. O. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—
THOMAS' ECLESIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.
WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Ramon, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr Maybee of this place indeed me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.
Sold by all medicine dealers, Price 25 cts.

INSPECTION INVITED

Choice Poetry.

NOT QUITE A TRAGEDY.

BY KENDALL MUKEYTRICK.

Miss Arabella Maud St. Clair
Rejected young Jerome;
And he, in madness and despair,
Meandered to his home.

"Her love to me she'll never give."
He said, and tore his hair;
"By gosh how ever can I live
Without A. M. St. Clair?"

But after he had mused awhile
His heart grew rash and stout;
He rushed up stairs in tragic style,
And took his razor out,

He placed the edg against his throat
Like some poor wretch depraved,
And left not e'en a dying note,
In short—he only shaved.

WHO IS MULDOON?

Tell, oh, tell me, if you can,
Who is "Muldoon the solid man?"
Is he "heretic or quaker"
Or is he of the creed of "Shaker"
Tell, oh tell me if you can
Who is "Muldoon the solid man?"

An Elopement Repented.

A few days ago we published a brief announcement of the death of Harlow Case in the island of Ceylon, whither he fled twenty-five years ago, and until now nothing had been known of his whereabouts. In 1850 Case was Collector of the Port of Sandusky. He fell in love with the wife of his deputy, Henry Francis, seized $22,000 of the Government money and eloped with Mrs. Francis and her little child. They fled, as it now seems to Ceylon. A short time ago an American missionary made the acquaintance of Case and Mrs. Francis. He describes them as living in an earthly paradise, but both haunted by and one dying of remorse and home sickness. Their bower was a living tomb. We quote his description of the interview in which he detected the personality of the guilty pair:

"Sir," said Case, in tones I shall never forget "If I have sinned, God in; heaven knows what I have suffered and if in Francis' bereavement he has cursed me, that curse is fearfully fulfilled. Poor Mary in dying—has been dying for months, and I have known it, It has been for me to see the failing step, the dimming eye; it is for me to see the terrible struggles of her almost worn out frame: it is for me to listen to her language of remorse that sometimes almost drives me mad. Yes, mad, mad, mad!" he said in a frenzy, rising and crossing the floor with long, hasty strides. Then burying his face in his hands, he exclaimed: "Too late! too late! I have repented!" There was a long pause, and he continued, cautiously: "No human means can restore my poor companion. Her moral sensibilities become more and more acute as she fails in strength so that she often reproaches herself constantly." A weary mournful sigh broke from his lips, as if his heart would break. "Oh! if he knew," he exclaimed again "if he knew how bitter a penalty she is paying, he would pity her—and if he could forgive her. Will you see her sir?"

I shrank from the very thought,

"She has asked you, sir; do you deny her request? Hearing that you came from America, she entreated me to bring you to her. I promised that I would."

Up the cool, wide, matted stairs, led me into a chamber oriental in its furnishing and chaste in its magnificence. There, half reclining in a wide easy chair—a comfy shawl of lace cast over her attenuated shoulders, the rich dressing gown clinging and hallowed to the ravages sickness had made—sat one whose great beauty and once gentle gifts made the light and loveliness of a sacred home. The eyes only retained their lustre; they were woefully sunken. The blazing fire, kindled at the vitals, burned upon her sharpened cheeks—burned more fiercely, more hotly, as she looked upon my face.

The first question was, "Are you going back to America, sir?"

The hollow voice started me. I seemed to see an open sepulchre. I told her that it was not my intention to return at present.

"Oh, then, who will take my little child back to her father?" she cried the tears falling. "I am dying, and she must go back to him. It is the only reparation I can make—and little enough—for the bitter wrong I have done them. I hoped, a moment afterwards, checking her sobs; "I hoped you might tell him that his image is before me from morning till night, as I knew he must have looked when the first shock came. Oh, sir, tell him my story. Warn, him, warn everybody! Tell him I have suffered through the long, long hours these many years—oh! God only knows how deeply."

"Mary, you must control your feelings," said my host gently.

"Let me talk while I may," was the answer. 'Let me say that since the day I left my home I have not known a single hour of happiness. It was always to come—always to come—always just ahead—and here is what has come—the grave is opening, and I must go to judgment."

Mrs. Francis soon died. Case has since died. The daughter started to return to her father in a vessel that was lost at sea. It was supposed that Francis committed suicide after the breaking up of his home, as nothing was heard from him. His story, which has lately came out, is as dreadful as that of the others

Up to the time of the elopement, Francis had lived with the utmost confidence in his wife's honor, and betrayal dawned upon him, it partially turned his brain, and he became a monomaniac, with only two objects in life—to gain revenge on Case and get back his child. He sold his little property at a sacrifice, and set out on a long pursuit of Case and Mrs. Francis. They had gone to England. He followed them, and arrived there just in time to hear of them in France. From France he traced them to the north of Europe, and thence they led him a will o' wisp dance—sometimes in sight, and at other times unheard of for months—to Constantinople, where they became entirely lost. Five years passed. When the Crimean war broke out Francis enlisted in the English army and served until the end of the war. Some years thereafter he was in employ of Adams' Express Company on the Pan Handle road, and was 'queer.' His mental unsoundness at last led to his discharge, and it is said he is living on a farm in Minnesota.—*Buffalo Express.*

The First Baptist Church of New York, holds its Centennial celebration with flags, festival, music, and mirth. Dr. Armitage said, in his address, that he had carefully marched all the Revolutionary records, and could not find that any Baptist ever was a Tory. He had found a document sent by General Washington to the Baptists, which spoke of the singular unanimity with which they had sustained their country's cause.

HOUSEHOLD AND FARM.

SEED FAILURES.—The following are some of the principal causes of failure of seed:—1. Some cultivators, through ignorance of the fact that the products of a garden, being natives of various soils and climates, require peculiar management, deposits their seeds in the ground at an improper season. The early and most hardy species and varieties should not be planted until the ground can be brought into good condition, as some species of plants that in an advanced stage of growth will stand a hard winter, are often cut off by a very slight frost while young, especially if exposed to the sun after a frosty night. 2. Some species of seeds, such as bean, beet, cabbage, lettuce, radish, salsify, turnip, &c., being from their nature apt to vegetate quickly, are often destroyed while germinating through variableness of the weather, and some are liable to be devoured by insects in 48hours after they are shown, and before a plant is seen above the ground, unless a suitable remedy is applied in time to annoy the insects. 3 Some species, as carrot, celery, leek, onion, parsley, parsnip, spinach, &c, being naturally of tardy growth, taking (in unfavorable seasons) from two to three or four weeks to vegetate, are apt to perish through instructions of the soil, or other untoward and unaccountable circumstances which cannot always be controlled. 4 The failures often occur through seeds being deposited too deeply in the ground or left too near the surface. Sometimes, for want of sufficiency of seed in a given spot, solitary plants will perish, they not having sufficient strength to open the pores of the earth, and very frequently injudicious management in manuring and prepairing the soil will cause defeat.—Ex.

HUNGARIAN GRASS, or miles, makes excellent hay if cut before the seed ripens. Sow from the last week in May to June 10th, at the rate of half a bushel of seed to the acre; and it will be ready to cut in August. Sometimes three or four tons of hay are grown per acre; and it never injures stock if cut when the seed just assumes it full form. It may be sown earlier, but it requires quick vegetation to grow up ahead of wild grasses and weeds, which early sowing does not always effect.

SALT FOR ANIMALS.—That salt is beneficial to cattle and horses, when given to them occassionally, cannot be doubted, It is so decided by our most scientific veterinary surgeons; and it has been given to sheep and cows for centuries, as they seem to crave it a times; therefore let no good farmer abandon the contom.

BREATH TAINTED BY ONIONS.—Some Leaves of parsley eaten with vinegar will prevent the disagreeable odor of the breath by eating onions.

CARE OF DAUGHTERS.—Would you show yourself really good to your daughters? Then be generous to them in a truer sense than that of heaping trinkets on their necks. Train them for independence first, and then labour to give it to them. Let them as soon as ever they have grown up, have some little money, or means of making money, to be their own, and teach them how to deal with it without needing every moment somebody to help them. Calculate what you give them or will bequeath to them, not as is usually done, on the chances of their making a rich marriage, but on the probability of their remaining single, and according to the scale of living to which you have accustomed them. Suppress their luxury now, if need be, but do not leave them with scarcely bare necessities hereafter, in stiking contract to their present home. Above all, help them to to help themselves. Fit them to be able to add to their own means rather than to be forever pinching and economizing till their minds are narrowed and their hearts are sick Give all the culture you can to every power which they may possess. If they should remain among the millions of the unmarried, they will bless you in your grave, and nay of you, what cannot be said of many a doting parent by his surviving child:—"My father cared that I should be happy after his death as well as while I was his pet and his toy."

MIND YOUR OWN BUSINESS.—Mind your own business and let other people do the same. What is their own business is none of yours, unless they themselves make it so. If people ask you for advice, give it, willingly and conscientiously, just as you would act yourself if their case was yours. This is doing as you would be done by. But wait till you are asked; don't go trusting your opinion on the shoulders of others unless you are invited to do so; if you do you will only be called a "meddlesome Matty," and get no thanks for your trouble, no matter how good your intentions may be. People generally like to do as they think best, not as others would have them do—unless you happen to have the same mind as themselves, when they will probably think you have more sense than those who differ from them. Attend to your own concerns as much as possible your self; this will teach you always to be self-reliant, and will be a great advantage to you. It is all very well, if you can afford it, to get others to do for you what is disagreeable for you to do yourself; but no one is his own master so long as he is dependent on others. Mind your own business in regard to your opinions. How foolish to get angry and be forever quarreling because others do not think as you do: everybody has as much right to his opinion as you have to yours, and, no doubt, the same desire to maintain them. When you have once stated your opinion retain it as such unless you have good reason to change your mind; but because your opinion is different from that of others, it is no reason that you should go trusting it into every one's face whom you know is opposed to you; this will do no good but may do much harm; difference of opinion often creates a coolness of feeling between the best of friends. Therefore mind your own business and attend to your own concerns, and be willing that others should do the same; a praying, meddlesome disposition is a bad trait in any one's character, and will bring you into more trouble than you will find it easy to get out of.

NICE MUFFINS.—One quart of flour two eggs well beaten, two ounces of butter, one pint of milk, one tea-spoonful of salt, one gill of yeast. To be dropped from a spoon into the oven, and baked quickly.

BLANC-MANGE (first-rate recipe).—Season one quart of rich cream to your taste, or, say, put five ounces of sugar and ten drops of extract of vanilla, lemon, or rose. Whip the cream to a stiff broth. Pour one pint of cold water on one ounce of isinglass; let it steamer on embers until perfectly dissolved. When luke-warm, pour the cream slowly in, beating it all the time till stiff enough to drop from the spoon. Then put it in moulds.

ORANGE CAKE.—1 quart of flour, 1 cupful of butter, 4 eggs, 3 tablespoonfuls of yeast. Make into a stiff batter at night with milk. Next morning add a tea cupful of corn meal, beat well.

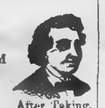
THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S



Before Taking. After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing
WILLIAM GRAY & CO.,

One of the Testimonials!
From DR DUNCAN MCCALLUM, Montreal—
I the undersigned have been suffering very much for the last two years from Rheumatism in the ankle joint, so much so that I was often prevented from attending to my calling, but three applications of Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and stiffness which I did not experience for the last two years, and after eight days' use of this remedy I find myself entirely cured
I own this statement to the public, to the profession and to the merits of that genuine article

Peterborough, April 13th, 1876. 15-tf

VINEGAR BITTERS

THOUSANDS proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
R. H. McDONALD & CO., Druggists and Gen. Agts., San Francisco, California, and cor. of Washington and Charlton Sts., N.Y.
Sold by all Druggists and Dealers.

Ayer's Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a
HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Sarsaparilla
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from the cures many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed entangled with corruption, have been purified and cured by its Scrofulous affection and disorders, such as ulcers, gravated by the scrofulous contamination in the blood, which they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, the unseen and unsuspected tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. And yet it seems so breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be accidentally deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers, also on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is a prudent, even when no active symptoms of disease appear. Whoever is afflicted with the following complaints generally find immediate relief, and, in time, cure by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other scrofulous affections of a virulent form, Epilepsy, Neuralgia, and the various uterine affections of the muscular and nervous systems.
Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required subduing these obstinate maladies by any medicine. But long continued use of this medicine will effect the complaint. Leucorrhœa or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising as they often do, from the rankest poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Dyspeptic, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections or symptoms of Weakness, will find immediate relief and convincing evidence of its restored power upon trial.

GENERAL

AGENTS WANTED.

Agents Wanted in every Township in Ontario to sell the Genuine Franz Model Organ Manufactured by the North American Organ Co. and George Stock & Co's Pianos.

Special inducements will be given to first class agents and clubs of three or four wishing to purchase

Any number of testimonials in favor of these first class instruments can be furnished, but as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—no testimonials, however flattering can add to their reputation

The Stock Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873

Churches requiring organs will be liberally dealt with. Style of finish American, we would call attention to as being especially adapted for churches and halls: its proportions are graceful and its musical qualities are unsurpassed The grand organ stop gives the above features for unison and extended effects, the vox-humana stop as to closely imitate the human voice, that no worked on hill sides or on a windy day, being heard over with wire.

Pianos and Organs furnished Wholesale and Retail from any of the best class American manufacturers

Circulars and price list sent free on application

A. M. DARLEY,

General Agent

Stock Office, Peterborough.

All instruments warranted for five years.

HENRY OWENS is still Manufacturing the leading pumps of the Dominion And would most respectfully solicit purchasers to call and examine the New Patent Cone Pumps, (lift and force) before purchasing elsewhere. The particular Lever Pump has four advantages over any other lever pump yet offered to the public, a full description will be given on calling at my factory. Sole manufacturer in the Counties of Peterborough and Victoria of the Celebrated Pumps in different styles.

All kinds of common pumps always on hand at reasonable rates.

He also begs to bring to your notice the celebrated Spring and Force Pumps which have already taken the First Provincial Prizes wherever they have been exhibited. There can be no reasonable doubt after so many years trial, of the superiority of those pumps which at once combine all the advantages of a Fire Engine, and are particularly adapted for watering Gardens Washing Buggies, &c., &c.

Pumps supplied and repaired on short notice.

ALSO STILL AGENT FOR

The Massey Manufacturing Coy., Wood's Reap Wood's Mower, Johnston's Reaper, Cayuga Chief Mower, Sprague Mower and Combined Reapers and Mowers.

THOS. ELLIOTT'S

COMBINED

Hay Rake and Ladder

ITS ADVANTAGES.

Attach it to the rear axle of the wagon and it will gather, clean, and load Hay, Barley or other grain that is too short to bind, and by having a boy to drive the team and a man to build, the horses can be driven at a fast walk. and the man can build better than from two men forking, which has been tested: It will save from 62 to 65 a day, and more than one-third of the time of the ordinary mode of working. It is simple of construction, light of draught, and will endure much wear, can be worked on hill sides or on a windy day. being fixed over with wire.

County or Township Rights for Sale.

on liberal terms by applying to the undersigned, the Peters Hotel being secured.

WHITE OR RED BRICK,

PRESSED OR UNPRESSED,

At as low a rate. If not lower, than they can be got elsewhere, and of as good a quality or superior to any other yard.

MARK CORBOLD.

Dover, April 21, 1876 19-6

TOWN COUNCIL.

Council met pursuant to adjournment.

Present, the Mayor in the chair, and Messrs Cahill, Taylor, Haggart, Paterson, McClelland Cook, Elliott, Dixon, Rutherford.

The minutes of the previous meeting were read over and confirmed.

COMMUNICATIONS.

From E. Phalen, complaining of a house belonging to George McCombs protruding 20 inches out on the street, and asking the Council to interfere.

Mrs. Crowley asking leave to sell liquors without license as her husband is very ill, and she has no other way of support.

G. C. Gero, asking for Butchers License to sell meat at Geo, Wheeler's old stand, corner of Murray and George Streets.

From W. C. Sanders, Clark of Lakefield, asking if the corporation had a second hand Fire Engine to dispose of.

From L. Dobbis, calling the attention of the council to the small allowance made to the members of the Fire Brigade, and asking for an increase.

From John O'Flynn, asking the council to pay the fare of himself and family to Charlotte

From J. McCarthy, asking the council to advance him the amount to pay his wife's fare to the hospital at Toronto, as she was in danger of losing her sight.

From D. Faucher and 90 others, asking the council to make provision for the watering of the streets, and recommending them to appoint Adam Dobbin.

From John Macdonald and others, Clement Gordon and others, and James A. Delaney, asking for sidewalks,

From H. Owens, asking to have the sidewalk in front of his stores repaired and widened.

The Treasurer's return of Expenditure for the month of April, 1876, was read, which is as follows:—

Charity	$153 80
Fire	16 75
Miscellaneous expenses	248 09
Printing and Stationery	136 20
Constable	8 00
Salaries	37 50
Special Grants	50 00
Streets and Bridges	1211 84
R. Road Damages	57 00
Total	$1913 18

The amount paid out from January to April 1st, inclusive, was $13,395,86.

ACCOUNTS.

R. Romaine, Printing $242 16

T. Eastland, passenger to Burleigh ... 2 00

The accounts were referred to the Finance Committee.

DIPPOSALS.

Treasurer's statement was referred to the Finance Committee. H. Owens' referred to the Street Inspector. John McDonald and others, C. Gordon and J. A. Delaney's sidewalks, referred to the Street and Bridge Committee to report. D. Faucher and others was referred to the Street and Bridge Committee to report. O. Flynn and McCarthy's were referred to the Charity Committee with power to act. L. Dobbis's referred to Fire Committee. W. C. Sanders' referred to the Fire Committee. Mrs. Crowley's received—referred to the License Inspector with power to act.

Mr. Rutherford then had another fling at the Examiner. He called in question the truthful correctness of the statement that already $2,1C1,58 had been expended on Streets and Bridges, this year. This statement is not like his Ivory Rule—short at one end. Nor like his report on the Croly hill, where the frozen earth "would cut like cheese." The figures were taken from the Treasurer's books, and are correct. Truthful, honest Arthur! his reason must be like his Rule—when he uses it, somewhat doubled up.

Mr. Cahill said that Mr. Rutherford was issuing the Examiner wrongfully, and that the statement was correct that it had been expended, but it did not my where the money that was to pay comes from.

The Mayor also admitted that the statement in the Examiner was correct; and made some explanations as to the work.

REPORT OF STREET AND BRIDGE COMMITTEE.

Mr. Rutherford, as Chairman of the Street and Bridge Committee, read over the report after making a tour of the town. The following is a copy of the report with the exception of the cost being added to it which the Chair man read over after each statement, but was not in the real report:

Your Committee beg to report that in accordance with the resolution passed by this Council ordering the Street and Bridge Committee to make an examination of the streets, bridges and sidewalks, they have to report that in their judgment it is desirable to make the following improvements, viz:—

Smith Street—1st. To remove stumps on Benson street, to make proper water tables, and also a sidewalk 3 ft. 4 inches wide to extend from Smith street north to the farthest house built. Cost, $120. 2nd, To fill up all ruts from the railway to Stewart street. Cost $5. 3rd, To make a waterable from Stewart street to Smithtown road. Cost, $10.

Antrim Street—A crossing and culvert at Aylmer Street and a side walk from George street east to Water street 3 ft. 4 inches wide Cost, $40.00

Edinburgh Street—1st. To make a drain and a water table west from George street to creek. Cost, $100. 2nd. A crossing between Bethune and Stewart streets. Cost, $5

Dublin Street—1st. To grade road from Stewart to Rubidge streets, to fill up road from Downey to Donegal streets and to make a sidewalk three planks wide between same streets on the north side. Cost, $100. 2nd. A culvert on Donegal street. Cost $20.

London Street—1st. Water table from Stewart street to the railway and to repair the sidewalk from George to Stewart street on the north side. Cost, $10. 2nd. To culvert and make good the road at Gilchrist St. Cost, $15. 3rd. To make good the road between Water and George Streets. Cost, $5. 4th. To make a sidewalk three planks wide from Waterford street to Harvey street

McDonnell Street—To fill up road between Read and Downey streets, to enlarge culvert at Reid, to raise the road between Aylmer street and railway crossing and to enlarge culvert at Bethune street. Cost, $50.

Murray Street—1st. To enlarge culvert, to fill in the road at Water street and to continue water table from Murray eastward to Brock street on east side of the road. Cost, $40. 2nd. To make sidewalk from Park St. to the farthest house west, 3 ft. 4 inches wide and a water table on the north side. Cost, $25.00.

Brock Street—1st. Culvert at Stewart St., to open a water table from Brock and Hunter streets on the east side of Stewart street. Cost, $14. 2nd. Culvert at Reid street, culvert and fill in at Donegal street. Cost, $15.

Elm Street—To grade road and to open water table. Cost, $40.

Hunter Street—1st. Water table between Rubidge and Reid, and between Rubidge and Bethune streets, north side. Cost, $14. 2nd To make water table from Park street to Boundary line as far as necessary. Cost, $20

Simcoe Street—1st. Sidewalk between Reid and Rubidge streets two planks wide. Cost, $15. 2nd. A sidewalk between Simcoe and Charlotte streets on the west side Downey 3 ft. 4 inches wide Cost, $25. 3rd. Crossing at railway. Cost, $10. 4th. To repair road from Park street to boundary line. Cost, $30

Your Committee would here recommend that the Inspector and Health Officers take the proper steps to get the property holders to open up a drain from Charlotte street to Hunterbrooke street for the purpose of taking away the stagnant water lying on Charlotte street.

Hunterbrooke Street—1st. A Sidewalk from George to Water streets, north side, 6 feet wide. Cost, $40. 2nd. To make a proper drain from Aylmer street to the south. Cost, $100. 3rd A sidewalk 3 & 4 inches wide from Rubidge street to the boundary line, north side Cost, $20. 4th To clean out the drain on the south side. Cost, $10.

Dalhousie Street—To grade the road from George to Aylmer streets, to make a proper gravel [illegible] two inches deep on Simcoe street and sidewalk on north side. Cost, $75.

Wolf Street—To make a bridge and to fill up the ruts. Cost, $200.

Ludgate Street—Water table on the north side between George and Aylmer streets and sidewalk two planks wide, on the north side. Cost, $90.

Chamberlain Street—To deepen water table, to make sidewalks three planks wide and gravel roads in each as far as necessary. Cost, $75.

Prince Albert Street—1st. To make a sidewalk 2 planks wide from the drain road to the farthest house. Cost, $60. 2nd. To continue sidewalk to Chamberlain street on the Drain road. Cost, $40.

Paterson Street—1st. To water table and make good the road from the drain to the boundary line. Cost, $75. 2nd. To make a crossing for Mr. Smith on Drain Road. Cost, $6.00.

Bethune Street—Water table from King to Sherbrooke streets, sidewalks 3 ft. 4 inches wide on the west side of Stewart street between Sherbrooke and Dalhousie streets, water table on the west side from Dublin to Smith street, and to make a culvert. Cost, $35.00.

Downey Street—1st. To grade the road and make water table between Dublin and McDonnell streets.

Peterborough Examiner.

PETERBOROUGH, MAY 18, 1876

EASTERN TROUBLES.

The Eastern part of Europe is again in trouble: Turkey the scene of it. The matter is a very simple one. From what can be gleaned from telegrams, &c., it appears that the conversion of a Christian girl to Mahommedanism, has almost, if not entirely, succeeded in involving Europe in war. At Salonica, where this thing occurred, the American and French Consuls were murdered by Mahommedan fanatics, and a general uprising against all the Christians in Turkey is feared. English and French war vessels in the Mediterranean have been ordered to Turkish waters to prevent such an event if it should be attempted.

At a very early date of the Christian Era, the North African and Roman Churches, and what might be termed that of the Eastern Empire, began to strive for supremacy, and many and bitter were the contentions and persecutions that ensued. Mahommedanism over-ran North Africa, and swept out any traces of Christianity that it found, and became one of the parties in the strife for religious supremacy. The Eastern Church took the form of what is known as the Greek Church, and differs only slightly from the Roman.

The fanaticism of the three forms of religious opinion is too well known to need a word of reference. It is enough for us to know that the only safe position for each, and the only way to preserve the adherents thereof from embroiling the nations in war is to subject each to the civil powers, and by force compel them to respect each other, until civilization takes the place of fanaticism and then may order be expected out of the chaos.

The civil power in Turkey is too weak and profligate to command respect, and it might be as well for the world if its weakness should lead to blotting it out of Europe. The only trouble that could arise out of this would be the partitioning of the country between rival claimants, but the wisdom of statesmen could obviate anything from that source.

The rebellion in Herzegovina is not yet settled. Austria has undertaken to be pacificator, and may yet succeed, but the evil day for Turkey cannot, in any event, be far removed. The only safe forms of government with a view to the peace and safety of the subject are those of England and Prussia, where men raised up by special education for the purpose, are placed at the head of civil affairs, and all matters are left to those who claim a special fitness for their work. Where the Church and State are so united as to be considered necessary to each others existence, as in Turkey, Spain Portugal, and France to a certain extent, there is a continual resort to trials of strength, between advanced statesmen and the Church party that prevents progress and prosperity. The doctrine of the supremacy of the civil power is distasteful to a portion of the people, it is true, but nevertheless, that supremacy is necessary to keep the very men who are sent to preach peace in peace with other men.

The existence of the evil spirit in those parties has been used as a weapon against Christianity, ; but not Christianity, but the lusts and avarice of its professed followers are to blame. From whence come wars and fightings among you? Come they not from your own lusts?

THAT FAINT HOPE.

Our dear friend the *Review* very mildly refers to our remarks on the 'liberal logic' of those persons who would leave the blame of the fuss in the Toronto Presbytery to the jealousy of Ministers rather than to the *heresy* preached by the Rev. D. J. Macdonnell. Well, of course when two Elders of the Presbyterian Church speak in the *Review*, we must be silent. When they speak they do so with authority. But by the way, are the two Elders believers in the Macdonnell theory? Do they hold that faint hope of a wild fancy of Protestant Purgatory as preached by their hero? Do they hope, they don't know when, to be relieved hereafter from the penalties of irregular lives here by a long imprisonment or by an exercise of mercy, without like James proving their faith by their works? Perhaps they do, but if they do what lay the blame of Mr. Macdonnell's heresy to those men who had no other alternative but bring him to account for the doctrines he taught, or neglected to teach. The other theory, is that Mr. Macdonnell's superiority of intellect and his close study and research make him a better judge of truth than those other old fogies who are behind the times. What is the use of study if nothing new or interesting is evolved? Mr. Macdonnell has evolved no new thing in his sermon; then to what good purpose were such talents and intellect given him? The purgatorial theory of his heresy is as old as Roman Catholicism and the universal restoration theory or fancy is hundreds of years old, as old as the purgatorial for which the latter was invented. Then to what good purpose all this imaginary talent. When in Peterborough he held and taught that all philosophers were inspired. Perhaps he will yet preach the inspiration of the two Elders. Should he attempt this piece of folly it will be no more foolish than attempting to pass off for new ideas the theories of centuries past. We will have the consolation, however, in future that we know that the two Elders do not believe that they will have to render an account for their deeds done in the flesh, and therefore we may be prepared for any course of conduct they may pursue.

A CONSERVATIVE LEADER.

The Montreal *Witness* of the 13th Inst. contains an article under this caption, in which it shows that the Conservative party is suffering from want of a good Leader, as Sir John's health is fast giving way, thus unfitting him for his position.

The *Witness* says: It was evident from the first day of the last Session that there had been a great loss of vigor on his part since the close of the previous Session." For a large part of the time he was not in the House at all, and when he was there he was evidently not physically equal to the duties of his important position.

The question is a very pressing one, for Sir John Macdonald was not equal to his duties last session, and if he continues to lose vigor with equal rapidity, will be much less so next one, There is apparently only one way out of the difficulty, and their duty to themselves and to their country makes it imperative that the Conservatives should adopt it. They have two leaders in the country who would greatly strengthen the Opposition in the House. They have also a number of sure constituencies in Ontario, which will elect any man whom Sir John Macdonald presents to them, let alone men of ability, standing, and party fidelity, who are a necessity to the Opposition in the House Let provincial lines be ignored and Messrs. Macdonald of Picton, and White, of Montreal, returned to Parliament for Ontario constituencies. The Opposition will, with these gentlemen on the front benches, be much more effective than it is at present. As matters were last session, especially during the latter half of it, after the protection divisions were over, in spite of their increased numbers and the enthusiasm which they felt at the beginning, it is pretty safe to say that the Opposition must have felt themselves much worse beaten than they did during the previous one. Action in this matter is certainly needed, and Sir John Macdonald will deserve the thanks of the country if he takes vigorous measures to secure the assistance in the House which he so much needs.

LAKEFIELD.

PROCEEDINGS OF COUNCIL—FIRE BRIGADE CONCERT—ELECTION OF OFFICERS.

The Council met on Monday evening, 8th of May Present, the Reeve in the chair, and Messrs. Strickland, Hull, and Shields.

The minutes of the last meeting were read over and approved.

PETITIONS.

From John N. Davis, asking the Council to refund him $2 which was paid for taxes in error.—Received.

From the Lakefield News, asking the Council to pay their account, which on motion was ordered to be paid.

From the members of the Band asking for a grant of $100 to assist them in purchasing instruments to complete their set. —Received. Also, from the same, asking the use of the Council Room to practice in. —Granted.

FIRE ENGINE.

Mr. Hull reported on behalf of the Committee appointed to arrange for a Fire Engine, and stated that they communicated with Lindsay, Peterborough and Port Hope Had received an offer of the Peterborough Engine for $600 with 500 ft. of hose. The Clerk of Port Hope informed them that they had two engines to sell, and recommended them to go and see them as no doubt a bargain could be made.

The Reeve read a communication from the Clerk of Peterboro stating that their engine could be procured on very reasonable terms.

Mr. Hull said he had been talking to some of the old firemen of Peterboro and they said the engine was no good.

The Reeve thought it would be advisable for one of the Council to go down, accompanied by a practical man, and try the engine.

Mr Hull said that to spend $400 on the engine out of the $700 appropriated for streets, and let the balance go towards repairing the streets.

On motion of Mr Strickland the committee was authorized to visit Port Hope, and examine the engines there and report at next meeting of Council. all necessary expenses to be borne by the Council.—Carried.

AUDITORS REPORT.

Mr. Hull handed in the Auditors Report of the school accounts, and on motion the report was received, and the Clerk authorized to have the balance settled with the Treasurer for 1875.

BY-LAW TO IMPROVE WATER POWER.

The Reeve gave notice that R. C. Strickland & Co, proposed petitioning the Council to submit a By-law granting a bonus to aid them in improving the water power, and requested the Council to call a meeting for the purpose of discussing the question.

Mr. Hull was opposed to the Bonus, and could not see the importance of the question, as there were plenty of men he said looking after the water power who would give Strickland & Co. all they gave for it, and would make the improvements necessary without assistance from the Village.

SIDEWALKS.

Applications were received from Dr. Bell and P. Strickland for sidewalks.

Mr. Galvin called the attention of the Council to a bad hole in the River Road, as an accident might occur and the Council would be held accountable for it. Mr. Shields was authorized to have the necessary repairs attended to at once.

Council then adjourned till Monday evening.

LIST OF OFFICERS.

The following were elected officers of Washington Lodge, No: 379, I. O. G. T., on Wednesday, May 3rd:—

W. C. T., A. P. Bower; W. V. T., Miss L. Scott; P. C. T., John Hall; W. C., Geo. Shields; W. S., James Graham; W. R. S., Miss A. Carter; W. L. S., Miss M. Barrie; W. A. S., Miss Annie Coates; W. T., Miss Kate McDonald; W. F. S., W. Coates; W. M., John Robertson; W. D. M., Miss C. Wynne; W. I. G., Miss M. Gillen; W. O. G., Jas. Graham, Senr.

THE FIREMEN'S CONCERT.

The Concert given here on Monday evening by the Peterboro Fire Brigade Band, was well attended.

THE TACTICS of DESPERATION

The following trenchant remarks from the Hamilton *Times* on the recent attacks on the Minister of Justice will be universally endorsed:

Whatever else Mr. Blake has done or has not done since he re-entered the Ottawa Government, he has, without any doubt earned the better hatred of the Tory remnant in Ontario. He has the misfortune of being a terrible hard hitter when he has an opponent to deal with, and during the recent session he was called upon more than once to inflict severe punishment on the Tory leaders. They could not answer him on the spot, so now they are taking their revenge out through the columns of their newspapers. It is no much easier and safer to attack Mr. Blake in that way than to do it to his face at a time when he can reply, that we may expect the whole reason to be taken up in the effort to pierce him through and through with Tory goose quills. When next session comes, then the leaders will decide on only a "gentlemanly" opposition, so that they will have the double advantage of making unanswerable attacks on him during recess, and of being two gentlemanly to endorse them when he meets them again on the floor of the House.

ANOTHER REVOLTING WIFE MURDER.

A MADOC FARMER BEATS OUT HIS WIFE'S BRAINS.

BELLEVILLE, May 16.—A most shocking cold blooded murder was committed in the township of Madoc on Sunday James McQuillan, a farmer living in the 7th concession of that township, near the village of Bonnuckburn, had lived unhappily with his wife, from whom he had separated in March last. He went to Kingston, leaving her destitute, and she was given a home with a neighbour, with whom she resided whilst her husband was absent. He returned about three weeks ago, but his wife did not return to their home. On Sunday he sent his father to negotiate for her return, and she promised to meet him at his brother's. She left shortly after nine o'clock on the same morning to keep the appointment, taking with her two children, aged respectively two and a half and one and a half years, and was seen about ten o'clock in company with her husband, he carrying one child and she the other. Four hours later her dead body was found by her husband's brother lying by the roadside horribly mutilated, the upper part of the skull having been smashed in with a large stone, the brain being scattered about, and the throat of the victim giving evidence that she had been severely choked before being killed. The husband, who was found at his father's house, with the two children, was at once arrested by the neighbours, who had turned out. He did not deny the charge. His coat was found to be spotted with blood, and parts were still wet as if he had been washing out the blood stains. An inquest was held on Monday before Dr. Sutton, coroner at Madoc, and a verdict of Wilful Murder returned against McQuillan, who was brought to the county gaol here today.

He is a man of about thirty-five years of age, and was always of a jealous disposition. At the time of the commission of the crime he was perfectly sober. The murdered woman was married to McQuillan about four years ago she had two children, and was far advanced in pregnancy.

THE EASTERN QUESTION.

The correspondent of the *Times* telegraphs as follows from Constantinople:—A general panic prevails here. The lower classes of Mahometans are purchasing daggers and revolvers with money supplied by persons who are plotting the overthrow of the Sultan and the Government, and the massacring and plundering of Christians. The Mahometans insult and threaten Greeks and Armenians, bidding them to prepare for immediate death. Travellers are leaving *en masse*. European residents are sending away their families. The presence of an European squadron, and the organization of volunteer European militia, can alone allay alarm.

RACUSA, May 13. Advices from Scutari sources state that a battle was fought yesterday near Biasse, in which 700 Turks and 100 Insurgents were killed.

The Turks at Scutari had a celebration over the murder of the German and French consuls at Salonica.

SMYRNA, May 13. Two more Italian iron clads under Vice-Regal Viry have gone to Salonica.

LONDON, May 13. The *Army and Navy Gazette* says the British fleet in the Mediterranean has been ordered to rendezvous immediately at Smyrna in view of possible Oriental difficulties.

The Bulgarian insurrection is extending. Disorders are apprehended at Rustchuk. The *Times* Berlin special despatch says that the German squadron has not yet been ordered to the Mediterranean. Germany will await the result of the inquiry into the Salonica outrage.

The *Times* Vienna despatch reports that Russia has proposed that the Powers send delegates to Turkey to superintend the execution of reforms, and that, in order to show due respect to the Ottoman sovereignty, the Sultan should be allowed to appoint delegate from a list of persons proposed by the Powers. It is said that Count Andrassy is not averse to a mixed Turkish and European Commission.

The *Times* Berlin telegram says: Advices from St. Petersburg represent that Russia contemplates, by means of the above Commission to carry out something like the insurgents' propositions of reform with the assistance of Austrian or Italian troops, or a combined force of Austrians and Italians. Germany is pretty sure to consent to any arrangement agreed upon by Russia and Austria.

BERLIN, May 14—Everything points to a complete understanding having been arrived at by the three Empires in connection with the Turkish question. They are clearly animated by a pacific policy. The decisions arrived at here, to day, be communicated to the English, French, and Italian Ambassadors One result of the conference is that Turkey has been requested to grant the insurgents an extension of the armistice for the purpose of executing promised reforms and aiding further negotiations. The Powers also intend to reinforce the naval strength of Scutari for greater protection of Christians Great credit is given to Prince Gortschakoff for the able manner in which he handled the Eastern question.

Notwithstanding the pessimist language of the newspapers of this city, the recent Ministerial changes in Turkey are regarded in the diplomatic circles as favorable to pacification and reform. The new Grand Vizier decidedly favours reform, and from the well known energy of Bussem Von Pasdha, the new War Minister, it is expected official protection will be offered Christians against the fanaticism of Old Turks.

The decision of the conference in the matter of the Turkish troubles will be embodied in a memorandum communicated direct to the English, French and Italian Governments. The memorandum is drawn up for the purpose of inducing the guaranteeing Powers to give their moral support to the demand addressed to the Porte for a several week's armistice in Herzegovina, and also to give material support at Salonica by sending men-of-war thither for the protection of Christians. These men-of-war would be held in readiness to hasten to any port of the coast on summons from the foreign consuls. The German gunboat, Komet has been ordered to Constantinople.

The following official despatch has been received from Salonica to-day:—On Saturday thirty-six arrests were quietly effected. To-day perfect tranquility prevails. It is purposed to make further arrests to-day.

PARIS, May 14. Intelligence received here from Salonica announces that that port has been blockaded. None of the inhabitants are allowed to leave until the enquiry has terminated. Two French ironclads and two frigates have arrived at the Piræus, Greece, on the way to Salonica. Fresh disturbances are still feared. Schools are closed and work has been suspended. The bodies of the murdered Consuls are still unburied.

BELGRADE, May 14. The Servian frontier is completely lined with a cordon of Turkish troops. Free ingress or egress is impossible. There is great irritation in the official circles here.

LONDON, May 15. The *Standard's* Vienna despatch says disturbances are feared in Syria, where the excitement is daily increasing. Two English Men-of-war arrived at Jaffa, three at Beyrout, and one English and one French Man-of war at Latakia.

The Vienna correspondent of the *Times* says the recent Ministerial changes at Constantinople were caused by a demonstration of 5,000 Softas or Musulman theologians, who sent deputations to the Sultan requesting the removal of the Grand Vizier and Scheik Ulislam. Both officers were removed on this demand. Large crowds assembled at the installation of the new Vizier, which so alarmed the Christians that they asked for protection from the foreign ambassadors. The new Vizier, however, has pledged himself to maintain order.

The Russian Telegraph Agency announces that the Russian corvette Bokai will sail from Nickolaieff for Constantinople, where she will do service as a guard-ship. Prince Alexis goes to Salonica in the man-of-war Svetlana.

The Paris correspondent of the *Times* says calumnies now propails in Constantinople.

A Berlin telegram to the *Daily News* states that tremendous pressure has been brought to bear on the Conference there in favour of Russian armed intervention from the West and immediately against Constantinople.

The London *Times*, reviewing the proceedings at the Conference, says the announcement of complete agreement between the three Imperial Powers is satisfactory, but it appears that all the plans of positive action are rejected, and that the powers are about to tender good advice again to the Sultan and the insurgents. We think it would be premature to thank the Chancellors for the settlement of the Eastern question.

THE unemployed will be glad to learn that the Victoria Railway Company want 200 men and 50 horses to work on that road. Applications should be made at once at the Lindsay office, William street; S. Swanston, Fenelon Falls; or to H. P. Clarke, Kinmount, or Mottie's Bridge.

FROM THE GLOBE.

There is a Mr. Watson perambulating the country at present, professedly in the interests of Prohibition and Temperance, but really in those of his own pocket and his Conservative political friends. This gentleman has the highest possible opinion of his own abilities, and has not the slightest doubt that if the affairs of the universe were arranged at all as they ought to be, he would long ere this have been called to occupy the most prominent position in this or in any other country. Under the thin disguise of preaching Temperance and advancing the cause of Prohibition, he spends most of his time in denouncing Mr. Mackenzie and all his belongings, as well as Mr. Crooks and his License Bill. He talks, we understand, for a while on Temperance, and then sends round the hat in order to make sure of his gains. After the needful has been secured he launches out into politics, and comes, among other things, down so far as to discuss the Premier's personal habits, of which he claims to have perfect knowledge. The fact is, this Watson is a Tory who want to advance the interests of his party under false pretences. When our friends comes across him let them treat him accordingly.

Mr. Watson visited Peterboro some time ago and pretended he was a Reformer. His public utterances were not of a character to be condemned, but in private he was not as careful of private character as he should be, He is not friendly to the Premier, but we fancied this arose from his extreme temperance views.

SEEING THE CENTENNIAL

AN ESTIMATE OF THE COST OF A MONTH'S VISIT.

(*New York Tribune.*)

"How long will it take to see everything throughly?" the reader may ask. At least a month and the time will be well spent, too. At its conclusion you will be familiar with the best arts and industries of the entire globe. The cost of a month's stay in Philadelphia, with daily visits to the Exhibition, will be as follows, supposing the visitor to practice such economy as is not inconsistent with comfort and the object of his visit.—

Room in private house for one month	$25 00
Breakfast and suppers at 50 cts each	30 00
Dinners on the grounds at 75 cts each	22 50
Thirty admission to exhibition, 50 cts	15 00
Street car fares	7 50
Evening amusements	10 00
Incidentals	15 00
Total	$124 00

By taking regular board in a boarding-house or small hotel, the cost of living can be so reduced that the first three items can be brought down from $17 50 to $70, or $80, and perhaps even to $30. A week's stay at a first-class hotel and daily visits to the fair may be estimated to cost as follows:

Board seven days at $5	$35 00
Admission to exhibition	3 00
Car fares	1 50
Incidental	5 00
Total	$45 00

The maximum price for hotel board is $5 per day. There are plenty of excellent houses where the charge is from $3 to $4, and in many good, comfortable hotels it is as low as $2 or $2 50. Boarding houses charge from $6 a week and up for room and meals. At the grangers' encampment, about seven miles out on the line of the Pennsylvania railroad, rooms in rough, shed-like structures are furnished for fifty cents a night, and meals at an equally moderate price, In short there are all kinds of prices for all kinds of people, just as in other cities, where there is no world's fair.

SHOOTING CASE.

A report from Wallacetown states that James Webster was, on Friday morning, May 12th, shot at his residence in Aldborough, by some unknown person. Immediately two medical men were summoned from Wallacetown to attend the wounded man. They found him wounded by a rifle ball entering at the collar bone, which it fractured, and passed through the apex of the right lung, and it is supposed to have dodged in the left shoulder. The surgeon could not find the ball by probing. Air is escaping from the lung through the wound. Altogether the case is regarded as very critical. Promptly a warrant was issued by Mr. McIntyre, J. P., of Wallacetown, and George Wright, a neighbour of Webster's, was arrested and brought before Mr. McIntyre, when a preliminary enquiry was held and the evidence of the two medical men and a few others was taken. The evidence was not completed. The prisoner was remanded to jail to await the result of Webster's condition and obtain more evidence. When the constables went to arrest Wright this morning they had to use a little stratagem, as they were afraid of him, as he has been considered a dangerous lunatic for some years and of a very violent temper when aroused. Mr Samuel Matheson was requested to accompany the constable, and if possible, to get Wright to walk away from the house, where he was armed with revolvers and a combined rifle and shot gun already charged. When approached by Mr. Matheson he appeared to surmise his errand and told him he would shoot him Mr. Matheson at once made a spring on him and the both fell on the ground, and during the struggle, the revolver Wright had drawn was discharged, and Matheson received a slight wound in the cheek. He has been considered a dangerous man for many years and the public hope that if he is acquitted of the shooting, that he will be confined where he can do no harm.

The man who pays more for rent than he does for advertising don't understand his business.—*Horace Greely.*

MR. J. G. Webb, Reeve of the village of Cobourg, has given public notice that merchants and others depositing waste paper and other rubbish upon the streets, in future, will be prosecuted as the law directs; and boys running velocipedes or hoopes upon any public thoroughfare in the village will be dealt with in a similar way.

WE learn from the Cobourg *World*, that the dead body of a newly-born, female child, in a perfectly nude condition, was found in a cattle guard on the line of the G. T. Railway, in that town, lately, supposed to have been thrown there from a passing train, or by parties living in the neighborhood. The constables are looking the matter up.

UNLICENSED HOUSES.—A crusade against unlicensed houses has commenced in Toronto and will be carried on vigorously. It is said there are over five hundred in the city in full swing, and it is feared unless vigorous measures are taken under the new Act, they will increase.

THE GRAVEL ROAD TO BOBCAYGEON.

To the Editor of the Examiner.

Sir,—I trust that the people interested in this undertaking will bestir themselves and lose no time in endeavoring to secure its accomplishment this year. It can be done as well now as at any other time, and, if worth doing, is worth doing well. One good effect of the construction of this road will be to give an early impetus to the extension of the railway to Bobcaygeon. One thing leads to something else, and the more the communication between Peterboro and Bobcaygeon is facilitated, the greater will be their business transactions, and thus a greater necessity for a railroad will be demonstrated. Even with a railroad in operation it will be found that the existence of a good road will be of immense benefit not only to those two towns and to the township of Emmemore, but to the surrounding country, and its advantages will be felt and appreciated by the people of Verulam and Harvey and places beyond Such a road must at once become a leading thoroughfare, and when once in use, like the Mud Lake Bridge, would be found to be indispensible. I think the people of Bobcaygeon ought to show an interest in this matter and I expect to see the Bobcaygeon *Independent* take it up and advocate its advantages with its usual ability. And, if the people of Emmemore are alive to their own interests they will do all they can to ensure the early construction of this road which will do so much to improve and increase the value of their lands, far beyond the whole cost of the road.

PETERBORO.

LIVER AND BLOOD DISEASES.

By R. V. Pierce, M. D. Author of "The People's Common Sense Medical Adviser."

A healthy liver secrets each day about two and a half pounds of bile, which consists a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood, and be conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day (two and a half pounds of poison? Nature tries to work off this poison through others channels and organs—the kidneys, lungs, etc., but these organs become overtaxed in performing this labor in addition to their nature, but become variously diseased.

The brain, which is the great electrical center of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart, and it fails to perform its office healthy. Hence the symptoms of bile poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings, and irritability of temper. The blood itself being diseased, as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots, pimples, blotches, and other eruptions, sores, boils, carpuncles, and scrofulous tumors. The stomach, bowels, and other organs, cannot escape becoming affected, sooner or later, and we have, as the result, costiveness piles, dropsy, dyspepsia diarrhœa. Other symptoms are common, as bitter or bad taste in mouth, internal heat, palpitation, teasing cough, unsteady appetite, choking sensation in throat, bloating of stomach, pain in sides or about shoulders or back, coldness of extremities, etc., etc. Only a few of the above symptoms are likely to be present in any case at one time. The liver being the great depurating, or blood-cleansing organ of the system, set this great "housekeeper of our health" at work, and the foul ecrruptions which gender in the blood, and rot out, as it were, the machinery of life, are gradually expelled from the system. For this purpose, Dr. Pierce's Golden Medical Discovery, with very small doses daily of Dr. Pierce's Pleasant Purgative Pellets, a pre-eminently the articles needed. They cure every kind of humor from the worst scrofula to the common pimple, blotch, or eruption. Great eating ulcers kindly heal under their mighty curative influence. Virulent blood poisons that lurk in the system are by them robbed of their terrors, and by their persevering and somewhat protracted use the most trained systems may be completely renovated and built up anew. Enlarged glands, tumors, and swalling, dwindle away and disappear under the influence of these great resolvents.

PROTECTION IN MONTREAL.—So strong is the feeling in Montreal in favor of the Conservative policy of fair play to home interests that even the *Herald*, long time Free Trade organ as it is, now says very little on this question. The *Witness* still continues on the wrong side, with the prospect, however, that the subscription for it's proposed new gift testimonial building will not become efficient until it drops it's insane advocacy of Free Trade and accept the doctrine of fair play to home interests, in which actually nine out of every ten of its own readers believe. When it happens, as we feel certain it will happen before long that Montreal has not a single daily journal flaunting the Free Trade flag, the people of the Dominion generally will be able to make passable estimates of the patriotism that has overtaken our commercial metropolis, and the abundance of sackcloth and ashes in which Montreal men have to lament their folly of 1872 73. —*Mail*.

The *Witness* is quite ready to change its mind when convinced it is wrong, but the *Mail's* argument is not the right one to bring about that conviction. The *Witness* has not had a habit of running with the crowd or of hauling down its flag, or of finding its positions in the long run on the wrong side. In times of depression protection usually gains ascendancy over the public mind, as it is so easy to blame natural phenomena upon the policy of the Government. The present stringency seems likely to last a good while yet, and the present prevalence of the protection sentiment along with it. But both will come to an end.—*Montreal Witness*.

The Examiner.

PETERBOROUGH, MAY 18, 1876.

LOCAL NEWS.

Hon. Mr. Cameron is still ill, at the Capital.

The population of Ottawa is 26,214. Assessment $11,713,470.

Prof. Linder gave a very successful entertainment in the Music Hall, on Tuesday evening last.

The water in the river is higher than usual, and great loss of property is anticipated unless it soon abates.

The Albion Hotel Orillia was consumed by fire on Monday night. Loss $4,000; insured for $2,600.

Montreal.—At this City the water is higher in the river and at the wharves than it has been, except once, heretofore.

The Song of the George St. Sprinkler:

"Sprinkle, sprinkle, water cart,
How I wonder where thou art."

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. Notice the Anchor on each Spool.

Mr. Jas. McWilliams, Jailor, has just returned from Toronto, having conveyed to the Asylum, Timothy Curtin and Mrs. Ardill, who are insane.

Mississippi State is likely to have a war of Races—white *vs.* black. There have been two or three trials of strength already, and several lives lost.

Hats.—Gents, remember that Hyman has a large stock of hats and caps, and you can always get the most fashionable styles at reasonable rates for cash.

Kingston.—A Roman Catholic Priest of Kingston lately visited a public school and ordered the Roman Catholic pupils to leave and go to a Separate School.

Mexico.—The Revolution progresses in Mexico. Foreign Consuls have been threatened. Is the time come for the United States to take Mexico in and civilize it?

Middlesex.—Mr. R. Scatherd, brother of the late Member, has been selected as the Reform Candidate for North Middlesex. The election will be about the 7th of June.

Excursion.—The Steamer Whistlewing will run her annual free gift excursion from Keene, on Wednesday, May 24th, leaving Keene at 8 o'clock, for Gore's Landing.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—Notice the Anchor on each Spool.

Dramatic.—The Ada Grey combination will play in the old Methodist Church, for three nights, commencing this evening. The play announced for this evening is Camille.

Two more Victims.—Two boys lost their lives on Saturday and Sunday morning in Toronto, through whiskey. One was drowned, and the other lay down on a lime kiln and was burned to death.

A Fall in Beef.—Last Thursday, while a couple of fat cattle were being driven along one of our streets, one of the poor animals fell down exhausted, but after a rest resumed its course to the slaughter house.

Got their Reward.—John Henry and — Dwyer, who were lately convicted of stealing grain from Mr. Stewart, river road Otonabee, left here last week to put in a term of two years in the Central Prison, also Joseph Valois.

Mr. Elder is receiving daily large additions to his stock of dress goods, prints grey and white cottons, tweeds, etc., all of which he intends offering at very moderate prices for cash. Call and examine his new goods and prices.

Bankrupt Sale.—Purchasers of Dry Goods will be pleased to learn that Mr. W. Fairweather has received another large Bankrupt Stock of dry goods, boots and shoes, &c., which he is selling at a tremendous sacrifice for cash

A Breach of Promise Case has just been tried at Hamilton, and damages of $700 awarded. The parties had been engaged for 26 years. The fair plaintiff must be a patient soul. Now out of her "teens." Her waiting long deserved better.

Auction Sale.—There will be sold on Monday, the 22nd of May, the old S. S. Buildings on the George St. Methodist Church Property, all the old buildings on the new Church property, together with a quantity of scaffolding, poles, ropes, &c.

Auction Sale.—We would direct the attention of our readers to the advertisement in another column of the sale of the "Fraser Farm," Lot No. 5, Con. 9, North Monaghan, to take place at the Commercial House, to-day, (Thursday) at 2 o'clock, p. m.

Cutting Freights.—East bound freight rates from Chicago to New York are down fifty per cent compared within ten days ago. Great competition prevails among all the great through lines. The Grand Trunk of Canada is taking the lead in the reduction of tariffs.

Change of Time.—The new time table of the Midland Railway came into effect yesterday. Trains now leave Peterboro' for Port Pope at 5.35 a. m., and 4 p. m., and arrive from Port Hope at 12.15 and 9.25. The mails for the South will now close at 3.40 and 6 p. m.

Damages.—The suit of Nicholls *vs.* Nicholls *et al*, or rather the question of damages arising out of the suit nominally Mostyn *vs.* the Dickson Estate is being argued at present in the Court House before W. H. Weller, Master, and evidence as to damages is being taken. The end is not yet.

Run Away.—On Thursday afternoon last, a horse belonging to Eastland's Livery Stables ran away from Ashburnham somewhere, crossing the bridge and down the front street to its own stable, doing no damage, with the usual exceptions of breaking the buggy. The party paid the loss.

Spring and Summer Goods:—Rogers has received his Spring imports, and has full lines of Goods in every department, all selected with the greatest care and will be offered cheap for cash. Their Circular is well worthy of perusal, and we feel sure customers will be well served by calling at Mr. Rogers's, Ashburnham.

Political.—The petition against the return of Mr. Gideon Striker to the Ontario Assembly for Prince Edward County, before Judge Burton and Vice-Chancellor Blake yesterday, was dismissed without costs as regards the corrupt practices and recriminatory charges. The petitioner is taxed with the cost of the scrutiny.

The Cornwall Gazette is defunct, and type and other material will be added to the *Freeholder* Office. The *Freeholder* is one of the oldest Reform papers in the province, and is well conducted. We wish it continued prosperity, and trust it will long continue to be an honest defender of good government and Reform principles.

Fire.—Monday night about 10.15, an alarm of fire was given, and was found to be in the engine room of Mr. George Tanner's Furniture Factory. The Fire Brigade were soon on the grounds and succeeded in preventing much serious damage. The loss is not yet determined, principally covered by insurance in the Hand-in-Hand.

The Uxbridge Guardian speaks in flattering terms of the Waterous System of Water Works in that Village. It says: "Uxbridge may well feel proud of its apparatus for extinguishing fires, and numbers of the most influential business men of the village express themselves highly delighted at the perfect and cheap scheme, and now have not a single regret at having to pay such high taxes last year."

The Caledonia Murder.—Ward, the Caledonia Murderer has been sentenced to be hanged on Tuesday, 20th June. From the evidence adduced at the trial we do not see how the jury could have returned any other verdict. That he had used his wife badly from the day of their marriage was not denied. He had also threatened to take her life at different times.

Cricket Club.—The annual meeting of the Peterborough Cricket Club was held at the Huffman House, on Friday evening of last, when there was a very large attendance. The following officers were elected for the current year:—H T Strickland, President; T Rutherford, Vice-President; R D Rogers, Secretary; J E Hammond, Treasurer; W H Rackham, Captain; Messrs C S Wallis, W Hartley, and J Jardine, Committee.

Another Murder Intemperance.—Last Thursday Mrs. J. O. Moore, the wife of a prominent citizen of Hamilton, died under circumstances which suggested inquiry. The inquest has not been concluded, but the evidence so far adduced indicates that deceased stated to a servant that she had been abused by her husband, and that death was caused by the rupture of a blood vessel in the head, her death being accelerated by intemperate habits.

Selwyn Temple, No. 50.—On Monday last Inst., the following officers were elected for Selwyn Temple, No. 50, I. O. G. T:—John Moore, W. C. T.; Maggie Moore, W. V. T.; R. J. Trumpour, W. S.; Hugh Duff, W. C.; Mary A. Mann, W. R. S.; Jane Anderson, W. L. S.; Jane McKee, W. A. S; John Roger, W F. S.; Isabella Sanderson. W. T., Ed Blewett, W. M.; Louisa McKee, W. D M.; Emma Kincaid, W. I. G.; William Duff, W. O. G.

The Weather is still cold and the season backward. The fall wheat in this section of country is said to be badly damaged if not completely killed, but farmers are not depending on it entirely. Beef, mutton, cheese, butter, etc., are now articles of importance and about as remunerative and less risk and labor. It is too soon to complain as is too often the custom. Notwithstanding complaints last spring there was a full harvest, and so it may be again.

Friendship Temple, No. 146.—At the last regular meeting of Friendship Temple No. 146, the following officers were elected for the ensuing year:—H. Nesbitt, W. C.; Sis. M. A. Heather, W. V.; A. Johnston, W. S; D. Pentland, W. T.; W. Strain, W. F. S.; J. Doxsee. W. M.; Sis. Mann, W. I G.; W. Appleyard, W. O. G; W. Maitland, Chap.; Anna Fitzgerald, W. D. M.; Charlotte McNeil; W, A. S.; Lizzie Condon, W. R. H. S.; Lizzie Ambrose, W. L. H. S.

Temperance Drinks.—Messrs. Foy & Starr have commenced the manufacture of temperance drinks in Peterborough. They have fitted up their place in good style, and having one of the finest Soda Vans that has appeared in this section of the country they are prepared to deliver their cup that inebriates not, any where in the Town and surrounding Villages. We can heartily wish them prosperity as their business entails no woe or sorrow on the community. We bespeak for them a liberal patronage during the approaching warm months.

Personal.—*Legal:* We see by the Toronto Dailies that Mr. C. W. Sawers of this town passed his second intermediate examination last week successfully, and without an oral. Mr. Alex. Haggart, also well known in Peterboro, has passed his examination and is now a Barrister.—*Medical:* Mr. G. H. Burnham, son of Dr Burnham, Senior, has passed a successful examination in London England, and is now a member of the Royal College of Surgeons, London. We wish our young men success, and will always be glad to herald it.

Freelon Falls.—The *Gazette* says: A few nights ago a feeble attempt was made to enter the Shoe Shop of Mr. James Agnew, but the would-be burglar didn't enter. John Stanton fell from the high tramway extending from the old saw to the refuse kiln, but did not receive any serious injury. Mr. Bradley Mowry has left the Falls to resume the foundry business in Lindsay. There was a fire in the Freelon Falls Foundry on Thursday morning; considerable damage was done; no insurance. Work goes on on the Victoria Railway.

Phrenology:—"I look upon Phrenology as a guide to Philosophy and the hand-maid to Christianity; whoever disseminates true Phrenology is a public benefactor."

HORACE MANN.

Prof. Landes, Phrenologist and Physiologist, is stopping at the Huffman House where he gives Phrenological Examinations and Charts. Young gentlemen about starting in life for themselves may learn for what business or profession they are best adapted, and how to win success, by procuring an examination. He will remain this week.

The Tragedy.—Ryan who was committed to jail for the murder of his wife, is not in good health. He has taken no food since his incarceration. On Tuesday he took a little beef tea, but immediately threw it up. The Jail Surgeon allows him a little brandy daily. He is very nervous, but does not appear affected very much. Unless he takes some change and food, it may go ill with him. It was rumoured on the streets that he had the *delirium tremens*, but we do not learn that there is any good grounds for the rumour. A watch is kept with him day and night.

The Egg Trade.—Few people are aware of the large extent and great importance of the egg trade in this district. Buyers operate here all the season, and regular purchases are shipped to Rochester *via* the Norseman. The Chapin Bros. are the principal buyers here, and have shipped during the past month about 12,000 dozen of eggs at an average of 11½ cts. per doz. Last year the number of eggs shipped from Peterborough was over 75,000 dozen at the cost of $6,500. The value of the egg trade can be judged of by the above figures, for which we are indebted to the courtesy of Mr. E. Chapin.

Burleigh Falls Hotel.—During the past two or three weeks a great number of our citizens visited the Burleigh Falls Hotel. They expressed themselves well pleased with the manner in which Mr. Holmes has the place arranged for the pleasure and comfort of guests. There is every reason to believe that this will be one of the most pleasant and popular summer resorts in the Province, there being good fishing and everything required for the pleasure and comfort of visitors. It will also be very easy of access, after the Steamer "Chippewa" commences her regular trips to Stony Lake. For particulars see cards.

Cryptic Masonry:—At the regular meeting of the Cryptic Council No. 11, R & S Masters, G R O, held in the Masonic Hall, George Street, Peterborough, on Tuesday evening, the 9th instant, the following were installed officers for the ensuing year, viz:—

V. Ill. Comp. J. O'Donnell. T. Ill. M.
V. Ill. Comp. C.D. Macdonnell, P.S. Ill. M.
Ill. Comp. James Jardine, D. M.
" A. F. Huffman, P.C. of W.
" W. Faiterson, jr., Treasurer
V. " C. D. Macdonnell, Recorder
" Robert Elder, C. of G.
" W. Patterson, C. of C.
" R. W. Smylie, Steward.
" R. C. D. Booth, Steward.
" R. K. Connell, Sentinel.

Deserving of Praise.—It is seldom indeed that we have a good word for tavern keepers; not that we think they are not sometimes deserving of a good word, but to speak well of them appears like favoring their business. A case came to our knowledge last week that we cannot pass over, and we only wish all our tavern keepers would do likewise. We are informed that Mr. John Gall, of Keene, refused liquor to labouring men although they have the money to pay. He refuses on the grounds that they have enough to do with their money without spending it in whiskey. If all would do so—then we could praise all. But they do not follow his example.

Mendelssohn Quintette Club.—The Concert given by this Club on Friday evening last, was a rich musical treat. The music was by the best classical authors, and the performance not to be surpassed. The violin and flute solos were most superb, leading the fancy into the fairy enchanted grounds of the mellifluous harmony of sweet sounds. Miss Humphrey, who accompanies the Club, sang several pieces in the most enchanting style. Her voice is under perfect control, and finely trained. She held the audience spell-bound in every piece. We may here state that the audience was a very select one, and appreciative, although the hall was not crowded.

New Buildings.—Robt. Nicholls Esq., is commencing to build a fine block on Simcoe Street, two large stores and a new building for the Ontario Bank. Mr. Belcher has supplied the plans and designs. This building with the old block will make one of the finest blocks in town, next to Cox's block on George Street. Mr. Wm Lech is also building a new store on George Street. Mr. Thomas Menzie is erecting a splendid mansion on George Street, the design is by Mr Barchard, and will be very handsome. Mr. Thornton is preparing to build a number of private dwellings near the South Ward School, so that already we see signs of activity in the building line.

A Good Idea.—At the Metropolitan Church, Toronto, on Sunday last, the Rev. John Potts stated, in connection with reading announcements, that he had received some notices of lectures, with the request to announce them, but he wished to intimate to the interested parties that such announcements were not only becoming tiresome to listeners, but they were objectionable for another reason. The pulpit had, in the past, been made too much an advertising medium in this way, and as it was wholly unnecessary in a city like ours, where there are both morning and evening newspapers, he had determined that, personally, it should no longer be made available for this purpose. This is a step in the right direction.

Lindsay.—The Lindsayites are in trouble over the idea of erecting new schools. There need be no undue uneasiness. They require a new High School building. To begin patching the old one would be madness. It is at present no credit to the progressive people of Lindsay, and the wonder is that they have not come to this conclusion long since. The Board should not fail to have the whole thing removed at once, and a new one erected in some more modern style of architecture. The present building might be worshipped without being accused of idolatry. Both the *Post* and the *Warder* should cease their personalities and join hands to have the blotch removed from their town, and a nice modern building erected on the site of the ruins.

The Centennial:—The great event of the day is the Centennial Exhibition of the world's industry at Philadelphia. It is now open and visitors in large numbers have already been to see the works of industry and skill from all nations now on display. The grounds, or buildings, for the arrangement of the articles are not yet complete. The month of June will be the best time to visit the exhibition. Railroad companies are moderating their rates so as to enable all classes to see the wonders that will be there. Fare while in the city need not be expensive as was anticipated; board and lodgings can be obtained from $5.00 to $1.00 per day, according to taste or means, and homes no one of even moderate means need fear to visit Philadelphia and witness what he never can have the opportunity of seeing again.

Beatty's Guide to Elegant Hand Writing.—The above is the title of a little book for self instruction in the most approved style of Penmanship, Spencerian System. It is accompanied with about 20 copy slips, together with ornamental flourishes, executed in the neatest manner. The book contains rules for guiding the pupil in acquiring this most useful and beautiful accomplishment, and it commends itself to those who desire to improve their penmanship, and the samples of writing will serve as useful helps in attaining to elegantly formed letters. Mr. P. Begg of the Brighton *Ensign* is at present in town delivering the books on former orders, and no doubt will be glad to supply all who may desire a copy of the book and the specimen copies. He also takes orders for an excellent steel pen, which is very much admired by those who have used it,

The Change.—The *Irish Canadian* is becoming intensely anti-Scotch in all its utterances. Is denounces Scotch morality in no measured terms, and if it should remain in its present temper, it will sicken of some Scotch disease and require a potcherd to scrape himself withal. What with the hateful Scotch names for towns, townships and counties, the Scotchmen in office and the influence that elects men, the *Canadian* is soured and choleric; and then, too, that sad and terrible thing known as Canadian Protestantism is disturbing his usual serenity. It is not nothing but a "vulgar licentiousness," "a coarse mob," "rebels against discreptive and decency." "The revolution which those violent and ignorant men have accomplished, makes all government of order and authority impossible." Our respected *confrere* is forgetting himself. This sad spectacle of Orange Protestantism should but lead him to be humble. Let him that thinketh he standeth take heed lest he fall.

Peterborough F. & G. Association.—The monthly meeting of the County of Peterborough Fish and Game Protective Association was held at the Huffman House on Wednesday evening, the 3rd instant, with Mr. W. Eastland, Vice-President, in the chair, The corresponding Secretary read a letter from Mr. W. S. Wilmot, as to supplying the Society with salmon fry for our back lakes, and also as to his obtaining some black bass for propagating. It was resolved that the monthly meeting of the society should in the future be held on the first Thursday evening of each month instead of Wednesday as heretofore. The subject of mill rubbish was discussed, and it was stated that Mr. Cochrane, the Fishery Inspector, had notified the mill owners that he would enforce the law, in doing which the Society are determined to assist him if necessary. Mr. H. Strickland, according to notice, then spoke in favor of sowing wild rice in certain localities where cover is wanted for ducks, and after a discussion it was agreed that steps should be taken to do so at the proper season.

The Agricultural Foundry.—Mr Peter Hamilton is again doing a big season's work in Agricultural Implements Already he has sold a large number of Farming Seeders, Drills, Cultivators, Ploughs etc. He also this spring sent a large consignment of first class ploughs to the western counties of Bruce and vicinity He is now making reapers and mowers of best design and quality. His Johnston Reaper is said to be a superior machine, better than most machines in the market and gives general satisfaction. His Woods Reaper and Humming Bird Mower are giving good satisfaction to those who purchased them. He is also manufacturing Threshing Machines of excellent make. Mr. Hamilton is so well known in this and adjoining counties, that farmers need only to be told that he has all their wants on hand to induce them to go to him at once. Then, too, all repairs can be secured so promptly right at home, that his works offer inducements that works at a distance do not, The money paid him still remains in the town and county, and thus continues to do good at home. Farmers should not be slow to see this and support a man who supplies all they want at moderate prices.

The Monetary *Times* contains an able article, in which it depicts the folly of Societies, such as Grangemen, Free Masons and Odd Fellows, establishing and attempting to maintain Co Operative Life Assurance. Such organizations evidently forget that in life assurance, as in every other branch of business, certain expenses are necessary, besides providing for the death loss, and that the annual fee charged must consequently be in proportion. We understand that a Brockville Society has been engaged in the annuity business, and that a recent examination of the accounts has disclosed that the end of the tether is nearly reached and that, should the payment be continued, but a short time will elapse before the fund is completely exhausted.

BIRTHS

McLean.—At Mount Pleasant, on the 8th ult., the wife of Mr. James McLean, of a son.

Hall.—At Peterborough, on the 15th instant, the wife of Mr. George Hall of a daughter.

Fowler.—At North Monaghan, on the 18th April, the wife of J. B. Fowler, Esq., of a daughter.

Vaughan-Lloyd.—On the 11th instant at Oconah, the Wife of W. C. Vaughan Lloyd, of a son.

Tully.—At Rosehill, Smith, on Wednesday the 5th instant, the wife of Mr. W. J. Tully of a daughter.

MARRIED

Rae-Milne.—At the Manse Lakefield, on Wednesday 3rd instant, by the Rev. A. Clarke, Mr. Albert Rae to Miss Elizabeth Milne.

Payne-Doque.—On the 3rd instant, at the Methodist parsonage, by the Rev. Richard Clarke Norwood, Mr. Jeremiah Payne, of Dummer, to Miss Mary Doque, of Belmont.

Branch-Butch.—On the 10th ult., at the residence of W. Bowes Esq., by the Rev. F. Ba...off, Mr. Jonathan S. Branch to Miss Lucy Ann Boyes all of the Township of Smith.

McClenahan-Wallace.—By the Rev. W. L. Scott, in the Village of Lakefield, on the 2nd of May 1876, Mr. James McClenahan, of the Town of Peterborough, to Miss Jane Wallace, of Lakefield.

Thompson-Sine.—At the residence of the bride's father, Derby, on the 3rd instant, by the Rev. John Bowyer, Mr. James Thompson, formerly of Emily, to Miss Sarah Jane, youngest daughter of R. Sine, Esq.

Laing-Ramsbottom.—At the residence of the bride's mother, Peterboro, on the 17th inst, by the Rev. R. Maclennan, Mr. John Erown Laing, Merchant, Port Perry, to Lilly Brown, second daughter of the late George Rams...ottom, Esq.

Kennedy-McKinney.—On the 5th Apl. by the Rev. Newton Hill, at the residence of the bride's father, Jos. H. Kennedy, Preston-Captain, Whitepine, formerly of Peterborough, to Miss ... second daughter of James McKin...ey, Esq., of Monaghan.

Hockett, Mr. James Smallacombe, of Lakefield, to Miss Elizabeth Mary Pye, of Dunrea, daughter of the late Mr. Thos Pye, formerly carter in the Clerks' Department of the late John Hutchison, Esq., of Dobcaster.

DIED.

Tully.—At Smith, on Tuesday 9th of May, Mr. Patrick Tully, aged 56 years.

Wright.—In North Monaghan, on the 6th of May, Jane daughter of Mr. James Wright, aged 20 years.

Bell.—In Smith, on the 29th of April, Ellen Dinsmore, relict of the late Matthew Bell, Esq., of Smith, in the 82nd year of her age. Deceased was born in Portland-on Scotland, emigrated to Canada with her husband and family in the year 1820, and settled on Lot 17 in the 6th concession of Smith, in July of the same year over 56 years ago, where she has since lived and died. She was, we learn, the oldest pioneer of the settlement, and it is said of her that she was the first white woman that settled on the shores of Chemong Lake. Her husband, Matthew Bell, Esq., died about twenty years ago, leaving six sons, all of whom are still living in the neighborhood of the parents early settlement.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—
THOMAS' EXCELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN COLD.

What they Say of it! A few Facts for the People.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Mhefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Russan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three o four years, and I never found anything like it for curing lameness. It is a great public benefit.—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

J. STRATTON.
19 Inspector P. S., Town of Peterboro

BY-LAW CCXLIII.

A BY-LAW to provide for opening up a new line of Road across the eastern part of the 10th concession of the Township of North Monaghan.

WHEREAS certain owners of property, together with upwards of forty ratepayers of the Municipality of North Monaghan have petitioned the Council praying that they would open and legalize a public highway across the Township in accordance with the following description of Theodore Clement, P.L.S., as follows:

Commencing on the north side of the allowance for road in front of said 10th concession at the distance of six chains and 62 links easterly from the southwest angle of lot No 9 in said 10th concession. Thence north forty two degrees east 23 chains more or less to a point distant 50 links westerly from the line between lots 9 and 10. Thence northerly parallel with the line between lots 9 and 10 twenty chains more or less to within one chain from the south side of said Railroad thirtyair chains and 50 links more or less to the south side of the concession road in rear of said 10th concession.

The described line to be the west side and the south side of said road and the road to be sixty feet four wide.

Said Bylaw will be read a third time on the 2nd day of June 1876.

WILLIAM WOOD,
Township Clerk.

Monaghan, May 2nd 1876. 18-3d

GENTS FURNISH

The West Durham "News."

We copy the following from the Bowmanville *Statesman* of the 4th of M... which will only confirm the general opinion of the character of the man who runs the *News* :—

"On Wednesday night of last week our office was burglariously entered by some person or persons, and a portion of our mailing list stolen—one of the galley lying likewise "pied." On the following Friday the West Durham *News*, a most pretentious but unsuccessful Grit paper, published what purported to be a statement of the circulation of the *Statesman*, taken from our mailing list. Said statement is *false*; and although the public generally may not feel interested in the matter, we invite advertizers to call at our office at any time and satisfy themselves as to the facts of the case. In the section of country from which Bowmanville business men draw most trade, the *Statesman* is unsurpassed as an advertising medium, either as regards numbers or standing of the families who may be addressed through its columns. The lists will be shown to advertisers who wish to satisfy themselves of local circulation, and they can judge for themselves of the disinterested (?) false representations of sneak-thieves and their accomplices,

"For about twenty-one years we have been connected with the *Statesman* office, and during the whole of that time we cannot recall an act by any opposing individual or party to equal in intensity of despicable meanness the recent exploit of "Joshua" of the *News*. Have any of our brother publishers ever known a contemporary to be guilty of such a low-lived trick?

"Since the establishment of the *News* there is a strong liking in certain quarters for stolen letters, garbled to suit purposes, and the lying in unlimited. The public will serve their own welfare by double locking their doors at night, and mounting guard to prevent the depredations in the interest of the fallen saint from Dover. The Public Property Committee should likewise see that burglar proof locks are affixed to the cemetery. In the meantime let "Joshua" stand forth as the personification of falsehood and sneakdom."

Washing Made Easy.

Some months ago some one inquired for a recipe to make washing easy. I send one which I have used for many years, and consider it the best I ever tried :—

Five lbs. hard soap, melt with one quart lye, *one-fourth ounce* pearlash; when the soap is dissolved, put it into the vessel where it is to remain. When it is cool enough to put your finger in for a minute, add half a pint each of spirits of turpentine and heartshorn.—Stir all well, cover tight and it is ready for use

DIRECTIONS FOR USING.—Make a large and hot suds; put down your dirtiest white clothes, then the cleanest, soaping dirty places; let them soak half an hour, or until you get your breakfast dishes put away; then tell Harry that if he will turn the wringer, you will make a pudding for dinner. A slight rubbing will remove any remaining dirt; then rinse through two waters besides the blueing, and you will not need to boil them more than once a month Treat your colored clothes the same way, and if there isn't more than a baker's dozen to wash for, and you step around lively, I guess you will find plenty of time to make that pudding, and get yourself tidied up before dinner.

Some object to the turpentine, but I don't believe it will ever hurt any one, if they rinse in warm water—and no woman should ever rinse in cold, after washing in hot water. Ever's Work

High-top-cock-loftical!!!

THE SCHOOL MASTER ABROAD!

EVIDENCE OF AN IRISH SCHOOL MASTER BEFORE A BENCH OF MAGISTRATES.

Mag.—What are you, sir?

S. Mas.—I'm an expounder of the membraneous filaments, conglobated within the nucleous of the pericranium, and my 'native simplomatic doxosity soars high above the mediocre of scholastic flagellators; but, ratiocination has enabled me—

Mag.—Stop, stop, sir! All we want to know, is, what you have to say in this affair?

S. Mas.—Well, then, your worship, not to be egotistically prolix, I was resuscitating my body, and renovating my mind by a perambulation through your city, when I saw the assailant, now at the bar of your honorable court, move quickly forward, and, with Herculean force, and solpecular ferocity, he felled the assailed with a bludgeon, to the earth, and he could not have obtained his perpendicularity were it not for the timely interference of your obsequious, obedient and humble servant, Florence Bernard O'Sullivan, Academician.

Asphodel Council.

The municipal council of Asphodel met on the 24th inst. Present, R. E. Birdsall, Reeve, J. P. Brown, Deputy-Reeve, and Councillors Rorke and Stephenson.

The minutes of the last meeting were read and confirmed.

The following petition was received.

To the Reeve and Council of Asphodel:

The petition of the undersigned humbly sheweth—

That a married woman named Mrs. Philip Metcalf came to my house ill, and craving shelter. In a few hours she was delivered of a child. I could not turn her out, and her husband having forsaken her she remained till able to go away. She had no means, and I being old and in poor health could not afford to keep her without some compensation, and I humbly pray your honorable body to grant me such compensation as to you shall seem meet

(Signed) MARGARET SMITH,
Widow of the late C. Smith.

It was moved by Mr. J. P. Brown, seconded by Mr. Thos. Rorke,—That, in compliance with the above petition, widow Smith get the sum of $12.00.—Carried.

A petition was presented by Owen Eagle asking assistance for himself.—The Council refused to take any action in respect to the same, as they consider that he properly belongs to Hastings.

Moved by Mr. Jas. Stevenson, seconded by Mr. J. P. Brown,—That David Foster be paid $3.50 for team and rig going to Stoney Lake with the members of the Council and others, to examine the ninth line with a view to granting money on the same.—Carried.

A petition was received from James Moore and 10 others asking to be taken off Union School Section No. 10, now united to the Village of Hastings, and to be attached to some convenient section in Asphodel.

It was moved by Mr. Thos. Rorke, seconded by Mr. J. P. Brown,—That the above petition be received, but in consequence of there being no provision in the School Law applicable to such change, we refuse to take any further action on the same at present.—Carried.

Moved by Mr. J. P. Brown, seconded by Mr. Thos. Rorke,—That John Harper be paid $5 for desk for Town Hall.—Carried.

By-law No. 53, appointing township officers for the current year, received its several readings.

Moved by Mr. Thos. Rorke, seconded by Mr. Jas. Stephenson.—That this Council adjourn till the last Monday in May, then to meet as a Court of Revision, and that the Clerk give the necessary notice of the same.—Carried.

PORT HOPE.

ANOTHER DODGE.—Last week a man—probably the one who got the boots to stretch,—made a good thing by going around borrowing black shawls for his wife to go to the funeral of their child in. He also succeeded in getting a bonnet or two for the same purpose. It is needless to say he has forgotten to return them.—(Times.

FARES TO PHILADELPHIA.—In our last issue we intimated that the energetic general freight and passenger agent of the, Midland Railway. (A. White, Esq.,) had gone to New York for the purpose of arranging terms for issuing through tickets from all points on the Midland to Philadelphia and return. We understand he has met with success in his efforts, and it is expected that tickets will be issued at the following points via Port Hope and steamer *Norseman* to Rochester and thence by the New York Central and Northern Central Railways, or via the Erie and Lehigh Valley Railways to Philadelphia and return, at about the prices mentioned, viz :—Millbrook, $19.40; Bethany, $19,65; Omemee $20. 30; Lindsay, $20. 05; Woodville, $21, 50; Beaverton, $21.75; Orillia, $22. 90; Waubaushene, $23,80; Peterboro, $20.10; Lakefield, $20.45. The above prices are in United States currency, and we believe will be found lower than any other road, so that parties residing along the Midland Railway will thus be enabled to visit the great cities of the American Union, as well as the Exhibition at Philadelphia, at a cheaper rate than they will in all probability ever have an opportunity of doing again.—[Times.

APSLEY.

CRICKET.—The annual meeting of the Apsley cricket club was held in the town hall on Monday evening, the 8th inst. The officers elected for the current year are the following :—James Golborne, President; S. W. Clegg, Vice-President; Geo. McIlmoyl, Secy.-Treasurer; J. D. McIlmoyl, Captain; Messrs. Platt, Shaven, Lounsley, Staples, Giles, Coons and Biggs, Committee. A friendly game will be played on the 24th of May between the married and single cricketers.

PENELON FALLS.

LAUNCHED.—The fine little steamer "Coboconk was launched on Thursday afternoon, according to an announcement. Quite a number of villagers assembled to witness the ceremony, which was successfully performed and was the of work of only a few moments as the necessary preparations had been carefully made beforehand. The engine will be put in and the boat completed as soon as possible, and Mr. McFadden says she will be ready for her trial trip in a few days.—*Gazette.*

MILLBROOK.

PRESENTATION.—On the occasion of her departure to take a position in the Central School at Port Hope, Miss Brown was presented by the children of her Sunday School class with an affectionate address and a ring of considerable value.

ANOTHER CALAMITY.—A discouraging misfortune happened here last Saturday evening. A large portion of the splendid new brick block being put up by Messrs. Wood & Kells fell and made a complete wreck of nearly all that was done by this firm last year, the only part left is the store next Mr Collins' block, and it is in a very unsafe condition. The foundation under one of the centre walls gave way. Mr. Collins' being on better foundation are considered safe, this is fortunate, more especially as he has just opened up with a magnificent stock of new goods.

CAMPBELLFORD.

COMMITTED FOR LARCENY.—Campbellford, May 11.—Samuel Whitney, arrested at Stirling last night, charged with sundry thefts, was to day brought before J. M. Ferris. Some of the stolen articles were found with him. He was at his father's, in the township of Brighton, when, learning that he was wanted, he started back with a horse and covered buggy, both of which are supposed to be stolen, but are not yet identified. He was commited to Cobourg. He is a young man about twenty-seven years of age.

DOMINION BILL—The Campbellford *Herald* says; "Another attempt is to be made for the passage of the Dunkin Bill in these Counties, and the abolition of the liquor traffic. Petitions bearing the signatures of as many ratepayers as many be obtained in the various municipalities are to be presented to the Counties' Council at the June session; and it is said those engaged in the work have good hopes of success."

HIDE BOUND HORSES.—A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs—by correcting which, and giving to them a healthy tone and condition the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous cases with complete success, generally effecting a cure in a few days. It is the best condition medicine known and may be given with perfect safety at all times, and does not require that the horse be kept from work. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman Toronto, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

THOUSANDS OF PROMISING YOUTHS,—of both sexes, go down to untimely graves from general debility and weakness, who might be saved by fortifying their system with iron. The Peruvian Syrup is an iron Tonic prepared expressly, to supply this vitalizing element, and is the only preparation of iron that will assimilate at once with the blood.

TWO FOLLIES—First, to eat a healthy supper for the pleasure experienced during the brief time it is passing down the throat; at the expence of a whole night of disturbed sleep, and a weary waking in the morning. Second, to try all the remedies in existence for rheumatism, pains in the back and sides, coughs, colds, cramps, sprains, bruises, &c; before trying the "Canadian Pain Destroyer." Sold by all medicine dealers at 25 cents per bottle.

ATTENTION has been called to the fact that incompetent be salts of Rochelle and are more readily absorbed by the system they are blood, lubricate the auxiliaries with which to improve the Blood, and give quality to cells and tissues, than all other preparations from Phosphorus.

And since Phosphorus enters so largely into the animal economy it becomes pre-eminence the best vehicles with which to associate the other vitalizing ingredients of healthy blood, nerve and muscle.

An Fellows' Syrup of Hypophosphites and combined all the substances found necessary to insure robust health, and, wherever, it was invented with a view to supply every deficiency, it certainly has performed some wonderful cures.

HAIR WORK.

Go to Sara Vern Commens and take them to Joseph Dann, where you can get them made up very neat, and cheaper than any where else in town. Underlips and Parasols mended, on short notice. Remember the place—opposite Mathieu & Reid's Bookstore. All articles repaired cheap.

THE GREAT ENGLISH REMEDY
DR. WILLIAM GRAY'S
Before Taking. After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first a result of Self-Abuse, from the path of nature and over indulgence.
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 a package, or six packages for $5, or will be sent by mail on receipt of the money, addressing

One of the Testimonials!
From Dr DUNCAN McCALLUM, Montreal—
I the undersigned have been suffering very much for the last two years from Rheumatism in the ankle joint, so much so that I was often prevented from attending to my calling, but three applications of Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and stiffness which I did not experience for the last two years, and after eight days' use of this remedy I find myself entirely cured.
I owe this statement to the public to the profession and to the merits of that genuine article
DUNCAN McCALLUM, M.D.

VINEGAR BITTERS
PURIFIES, REGULATES, INVIGORATES, CLEANSES, CALIFORNIA, DISPLACES, ACTS LIKE A CHARM
VINEGAR BITTERS
Grateful thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no one... is so universally required by every body as a cathartic, nor was ever any before so universally adopted into use in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of the remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—
For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For Dysentery or Diarrhœa, but one mild dose is generally required.
For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.
For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.
For Suppression a large dose should be taken as it produces the desired effect promptly.
As a Dinner Pill, take one or two *Pills* to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it often advantageously where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
Sinners and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that we will not publish the certificates of them here, but will assure the public that its qualities are maintained.

Burnett's Extracts
For cooking purposes.
Burnett's Extracts
"Pre-eminently superior."—Parker House, Boston.
Burnett's Extracts
"Confectioners' choice supreme."—Continental Hotel, Phila.
Burnett's Extracts
The superiority of these Extracts consists in their great purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the factitious Fluid Extracts now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are highly concentrated that a comparatively small quantity only need be used.
LEMON, VANILLA, ROSE, ALMOND, NECTARINE, CELERY, ORANGE, PEACH, NUTMEG, CINNAMON, CLOVES, GINGER.

Proprietors.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.
Probably never before in the whole history of medicine has anything appeared to challenge upon the confidence of mankind to such an extent as the *Cherry Pectoral* has, during a long series of years, and among those to the ranks of men who have been prominent in their generation in the learned professions, its unrivaled character and virtues have won the highest encomiums of the learned, have received the sanction of the highest authorities in the land, and have been given to the world in a way that, at the same time no other effectual remedy has ever been given to mankind, commanded, and the confidence of the *British and Irish*, and has won a position against subdued attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
Although settled *Consumption* cannot be thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they entirely disappear.
Singers and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that we will not publish the certificates of them here, but will assure the public that its qualities are maintained.

PETERBOROUGH, MAY 25, 1876

CAUSE AND EFFECT.

For a year or two, crime, especially murder, appears to have been on the increase, until it has become almost an epidemic. It is said that periods of frequent crime have their recurrence, like periods of commercial depression or diseases of a contagious nature, causing some alarm, a general cleaning up, and more regard to health rules. In a period when the frequent commission of crime disturbs the equanimity of the public mind, men are wont to seek for the cause outside of themselves and would attribute it, like other epidemics, to the state of the atmosphere or the quality of the air they use. The shocking calendar of crime that has been recorded in Canada during the past few months has caused those of a particular cast of mind to look upon the cause as a miasm, as if by the term they might place the responsibility of the crime on some unseen influence which cannot be controlled. These would be philosophers must shut their eyes to the prevalence of a traffic in the land that destroys reason, undermines the humane tendencies of man's nature, corrupts the moral sensibilities and produces mania, ending in this terrible record of murder which has convulsed the public feeling.

If the people would turn their attention in this case, as is common in the case of epidemics, to find out the origin or cause of the malady in order to its removal, they would find that instead of crime being the result of an unseen and uncontrollable agency, it is the natural effect of a well established law, that crime produces crime, which intensifies or becomes more appalling and disgusting according to the mental state of the criminal when he undertakes to carry out his maniacal intentions.

Previous to and parallel with this period of murder that so shocks the whole people, there has been and continues to be, a period of excessive use of intoxicating stimulants. These have produced a kind of mental disorder justly termed a species of madness, and nine-tenths of those guilty of murder have been found in this state when they committed the crime. If philanthropists, therefore, would remove the crime, they should first seek to remove the source from whence it springs.

The History of those murders which have most shocked and agitated the public will reveal the fact that out of ten cases, nine have been committed when the murderers were under the influence of strong drink. Whalen, the murderer of McGee, left the hotel after taking "the drinks" to commit his bloody act. Smith the convicted murder of Finlay, was given to strong drink, and had brought home his bottle of brandy the day or so previously, and from his statement it would appear that Mrs. Finlay, did not refuse its use as he says the brandy was for her. Dr. Davis, was an acknowledged drunkard.

The Young's now under sentence of death for the murder of McDonald, drank at the tavern, left and perpetrated the foul deed, returned to the tavern and drank again, and were known as "fast young men." The murder or death of Mrs. McRae in Hamilton, now under investigation, appears to have been caused through liquor, and our own Ryan wife murder is too well known to be referred to. The late dreadful girl murder in England too was by a man who went to the saloon even while planning and carrying out the diabolical act. Indeed, it may be asked what murder is ever committed that the parties are not under the influence of intoxicating liquors at the time.

It may be said that if the evil was not there the whiskey would not reveal it. Evil is everywhere, if but the occasion offers for its manifestation, many an evil thought exists that no passion or circumstances reveal, and so long as it is known only to the one mind, that of its harborer, the man may be the worse of it, but the world otherwise suffers nothing. It is the perpetration of crime that effects the public, not the mere design or intention never carried out. It makes little difference therefore to the world what a mans thoughts may be if they remain thoughts, and do not evolve in evil action. But if whiskey affords the venom that arouses the sleeping thoughts into action, ending in horrible remembers, then should not whiskey be truly considered the cause, the effects are too well known,—arson, robberies, burglaries, murders, etc.

In the present state of the public mind there is a tendency to punish crime, which is just and right, but there is a desire to pass over the source of it, and thus let it flourish and produce more fruit, ending in death.

No effort is being made on the part of the people as a whole to put a stop to this fruitful source of crime. Is it right to cry for the blood of the murderer, while the evil that nerved him is cherished and protected? This should not be. To remove the evil, remove the source of the evil, and in no way can this be so effectually done than by removing the curse of the whiskey traffic from our land.

Very Superior Stock of Colored Shirts in Town will be seen at T. Dolan & Co's tf.21-

THE LICENSE LAW.

It is very difficult to frame a law that will prove satisfactory to every one, and it is about as difficult to carry out a law, even a good one, without meeting with faults finders, and persons, who through their own selfishness find themselves in opposition to the law.

The present License Law is a good one, and if fairly and impartially carried out will do much to abate the evil of intemperance. The law is framed to prevent the establishment or existence of more "drinking holes" and gambling dens, and to protect the unfortunate person whose love for strong drink is stronger than his good intentions, by removing saloons and gambling dens out of his way.

The object of the law also is to license a sufficient number of well regulated houses for the accommodation of the travelling public. In the past the country has been cursed by a set of good-for-nothings, who too lazy to work betook themselves to selling whiskey to provide what they were ashamed to beg, and then by taking advantage of their poor dupes who patronized them, they could live in idleness, and above want.

The Commissioners have wisely made some of such men betake themselves to some other business, and thus have done a little to protect the more respectable tavern keepers, and enable them to make a living without degrading their fellows.

It remains now with the public, and especially the temperance and religious public, to assist in this partial reform of the greatest abuse of modern times. The assistance of the people is required, and if that aid be not given is will be one more proof that public opinion is not quite prepared to support any government in reforming this abuse. The religious public are particularly interested in this matter if they are honestly Christian. It is true many of them are not honestly Christian. But is it not a stain on the civilization and enlightenment and christianity of the present day that members of all the churches are the siders and abettors and supporters of this demoralizing traffic. Not only so, but they are guilty of joining hands with the law breakers and men destroyers to entail the curse on the community. Lately (and perhaps still) an unlicensed house existed at Allendale, and who were the patrons thereof? Members of Christian Churches. Who petitioned for its continuance? Elders and Deacons of Christian Churches. Who personally besought the Commissioners to grant a license to that place? A member of a Christian Church. The names are all in our possession. What Christianity! What hope can there be for the Churches whose Christianity is at such an ebb?

At Norwood the first men known of late to ask a man to violate the law are members of a Christian Church. Just out of an annual or quarterly meeting—fresh from prayer and praise and earnest entreaty, let us hope that Satan's kingdom would soon be destroyed, yet with perhaps that petition still echoing onward to the throne above, they hasten to build up Satan's kingdom. Yes, so it is! and the Ministers are as represented by the Prophet—dumb—cannot bark. In other places, the same as recorded above may exist, but so long as the members of all the Churches wink at the evil and abet it, it will go on. Let them remember, however, that it is written:—"Woe unto him that giveth his neighbor drink, that puttest the bottle to him and makest him drunken also."..."The cup of the Lord's right hand shall be turned unto thee, and shameful spewing shall be on thy glory."

Surely the pious portions of the professedly Christian community will take this matter to heart and do what they can to assist in ridding our Province of this terrible evil, and at the same time prove to the world that their Christianity is more than a name. Every Christian should be on the side of his Master, doing good, (not evil) continually.

The Queen's Birthday.

The citizens manifested their devotion to their Queen and Country by keeping her natal day as a general holiday. There were various exhibitions of Loyal fun in the parades, races, and sports that were got up for the occasion.

In the forenoon the Turf was the great attraction, which by lovers of sport would be enjoyed. The following are the names of the Horses entered, and the first race was a half mile race, best three in five—

Rush & Elliott's, O'Tat	3	4	3
F. Berube's, Maria Patton	1	1	1
McKeiver & Hogan's, Maid	5	5	5
J. Stubb's, Stumps	4	2	2
D. G. Henthorn's Unknown	2	3	4

The Judges declared Maria Patton 1st, Stumps 2nd, and Unknown 3rd.

The second race was half mile heats, best two in three, the following is the place taken by each when passing the Judges;

D. G. Henthorn's Minnie Warren	1	1
H. Winch's Kight	4	2
R. White's Irish Maid	3	4
J. Drake's Light Eye	2	3
Rush & Elliott's O'Tat	5	0

The latter horse was withdrawn after the first heat.

Everything seemed more than usually pleasant, and although over 500 persons were brought together, and some of them the usual horse racing class, not a single drunk man was to be seen, nor any unpleasantness. The effect of Crook's Liquor law is something like a charm.

GAMES.

In the afternoon the foot races, throwing, weights, jumping, etc., gathered an immense crowd of spectators to the Cricket Ground, Ashburnham, where the Olympic games were held under the auspices of the Boating and Cricket Clubs. The greatest quiet and good nature were again visible here, and everything went off satisfactorily.

The following is a list of successful contestants:

Throwing Cricket Ball.—1st prize Geo. Fitzgerald, 104 yds. 12 in. 2nd, T. Rutherford, 103 yds. 21 in.

Putting Weight.—1st C. McDonnell, 18ft. 6in., 2nd D. Cameron, 17ft. 10in.

Broad Jump.—1st T. L. Snow, 16ft. 2nd Geo. Fitzgerald 15ft 11in.

Throwing Weight.—1st C. McDonnell, 45ft. 4in., 2nd J. McDonald 36ft.

Mile Race.—1st Geo. Rogers, 5m. 37sec., 2nd E. Rogers.

Hop, Step and Leap.—T. L. Snow, 36ft., 2nd F. Hilton 34ft 10in.

100 Yard Race.—1st E. Rogers, 11 sec., 2nd C. Ming.

Sack Race.—1st T. L. Snow, 2nd W. Cook, 3rd E. Rogers.

High Jump.—1st T. L. Snow, 5 ft I in., 2nd D. Cameron, 4 ft. 11 in.

Hurdle Race.—1st E. Rogers, 27 sec., 2nd T. L. Snow, 3rd J. McDonald

Three Legged Race.—1st G. Rogers, & E. Rogers, 2nd T. Rutherford & A. Paisley.

Quarter Mile Race.—1st E. Rogers, 62 sec., 2nd C. Ming, 3rd G. Rogers.

Wheelbarrow Race.—1st Geo. Edwards, 2nd P. Clancy.

Boys Handicap Race.—1st T. Kane, 2nd S. Jay.

Consolation Stakes.—1st A. Mather, 2nd W. Woods.

Pig Race.—The porker got off without a follower, as no one seemed willing to enter into a contest for his successful capture owing to the slippery nature of the animal.

The Judges were Geo. Barlee, Esq., President of Boating Club, and H. T. Strickland, Esq., President of Cricket Club, and their opinions and decisions gave entire satisfaction throughout the programme. They appeared very willing to give every person fair play, and all seemed well pleased with the management of the games. Good music was provided during the intervals by the Firemen's Band, under the leadership of Mr. Miller. After the competition the prizes were presented on the grounds.

The Firemen did not make their wonted display, but had an enjoyable repast in the evening. Fire crackers, also, were almost shoved out of existence for fear of the lock-up. The day was fine—the people appeared happy and enjoying themselves. Not a single act is known to have marred the harmony of the day, and all our citizens were thus enabled to retire to sweet dreamland praying that our beloved Victoria may have many more birthdays.

TOWN COUNCIL.

The Council met on Monday evening.

Present—the Mayor, and Councillors Dixon, McClelland, Paterson, Hopkins, Taylor, Cook, Elliott, Thornton, Cahill, Rutherford, Haggart and Douglass.

The minutes of the previous meeting were read over and confirmed.

COMMUNICATIONS.

From P. Hamilton, asking for a crossing from his Workshop to the Foundry on George Street.

From John Gibbs and G. L. Mitchell, Chief and Assistant Engineers, giving notice that they had examined the tanks and find that the one on the corner of George and Brock Streets is leaking, and only 3 feet of water in it. The one at the Presbyterian Church and the one at the Nunnery are both leaking, and parties asking for them to be repaired; also that the box at the railway bridge is filled up with stones.

From John Whyte & Co., asking the Council to make an approach to their show rooms on Hunter Street, as they had purchased the old Skating Rink from Mr. Hill.

From Edg, Pearse, requesting that the Council authorise the Clerk to have the taxes struck off the old Stalker lot in the north part of the town, as he was in possession of it now and they could not collect it.

From George McCombs, giving notice that he was going to move his house back off the street, and asked the Council to give him time; and also to send a Surveyor down to arrange the width of the street.

From Thos. Greenhow, complaining that the Council had not built a crossing in front of his house, and asking them to either extend the sidewalk to his place on one side of the street, or build a crossing to the other side.

From M. Martyn, per Dennistoun Bros. & Hall, giving notice that the piers put down in the river for the Smith Street Bridge would affect his water privilege above, and also that if they did not attend to it he would look to the town for damages.

From J. Stevenson, asking the Council do something on Simcoe street to keep the water from running on to his premises at the store house as he has suffered great loss.

From Thomas Bradburn, drawing the attention of the Council to the grading and water tabling on London street, as it had never been completed and that the water is running on to his premises.

ACCOUNTS.

John Boyd repairing swing bridge $36 48
John Irwin cleaning hose 4 75
Jas English fitting up fire alarm. 40 00

Councillors Dixon and Thornton then came in and took their seats.

DISPOSAL OF COMMUNICATIONS.

Edg Pearse—referred to the Finance Committee; John Whyte & Co, referred to Street and Bridge Committee with power to act; Thos Greenhow, referred to Street and Bridge Committee; Messrs Irwin and Mitchell, referred to the Street Inspector with power to act: P. Hamilton, granted; Dennistoun, Bro & Hall, referred to Mr Scott; J. Stevenson, received; Thos Bradburn, received; J Irwin, ordered to be paid; J Boyd, ordered to be paid if found correct. Mr Collins giving his order for the payment of half of it on behalf of the County Council.

STATUTE LABOR.

On the motion of Mr McClelland—Mr Collins addressed the Council in reference to the statute labor to be done by both municipalities this year, and wished to know whether the town was going to do their own work or amalgamate with North Monaghan and have it done together, also that he was surprised at the town when he saw in their last minutes that they had appropriated $50 for planting shade trees in conjunction with a similar grant from the county, to be under the supervision of the Street Inspector and County Clerk, and takes the work out of the sub-committee's hands appointed by the town and county to do so, as he was appointed by the county and the Mayor by the town, and he was in doubt whether it was legal to grant the money or not.

The Mayor said that no doubt the Council would work in harmony with North Monaghan this year as they had done on previous occasions.

Councillor Hopkins came in and took his seat.

FIRE COMMITTEE.

Mr. Patterson then read over the report of the Fire Committee which on motion was received and adopted.

REPORT OF FIRE COMMITTEE.

In reference to the communication from the Fire Brigade asking for an increase of salary, your Committee recommend that the Brigade be reduced to 30 good able bodied men, and that their pay be fifteen dollars each, annually, and that there be a fine of 75 cents each imposed for neglect of duty at fires, and the reduction or selection of the men to be made by the Chief and Assistant Engineers and two Captains the two first Lieutenants and Secretary. We also recommend that six coats be procured for the use of the branchmen, at a cost not exceeding $75, and also that By-law No. 148 be amended according to this report.

All of which is respectfully submitted.

WALTER PATERSON, Jr., Chairman.

FINANCE.

Mr. Cahill, as chairman of the Finance Committee, read a report which on motion was received and adopted, recommending payment of the following accts:

Thos. Rutland, fare to Burleigh	2 00
R. Romaine, printing	240 00
John Irwin, reeling hose	3 00
W. Roberts, fitting Clerk's office	21 67

Also that the Collector be required to return the roll before the next meeting of the Council, together with the names of all persons whose taxes have been remitted, with the several amounts.

G.GOD RE-LAW.

The Council then went into committee of the whole on the By-law to limit the expenditure on Streets and Bridges to a certain sum. Mr. Douglas in the chair. It was moved by Mr. Rutherford, seconded by Mr. Elliott, That the amount to be expended this year on Streets and Bridges shall be limited to $4,600.—Carried.

Committee rose, reported progress.

STREET AND BRIDGE COMMITTEE.

A report of the Committee on Streets and Bridges was put in, but passed in such a way as not to be understood even by the Council. It was proposed to expend $1,961 on bridges, culverts, cuttings etc., but the sidewalks were struck out, and matters now are chaos.

Mr. Haggart said he was in favour of advertising for tenders for the work, and give it to the lowest tender no matter who he was, and draw up an agreement binding him to do so in a proper manner.

RATE 14½ OR 15 MILLS.

The Mayor then drew the attention of the Council to the rate for this year. He said that he was held responsible to a certain extent for the rate of the town. The Collector's Roll for this year would be about $35,000. The town was in arrears to the Commissioners $10,500, and they would have $2,000 additional to meet their demand this year. The School Board would ask about $3,000 for school purposes, and there were other items such as charity, printing, and other incidental expenses, together with $1,500 for the Smith Street Bridge, which would cause a rate of about 14½ or 15 mills in the dollar to be raised to defray expenses. He said the Council should have issued debentures for $2,000 more to help meet liabilities, as there was $991 lost by turning the late debentures into cash.

Mr. Haggart said after this there would be about $11,000 left, which he thought would meet the expenses incurred.

CLEANING HOSE.

Moved by Mr. Paterson, seconded by Mr. Cook,—That all accounts for cleaning hose after fires be paid in future on the order of the Chairman of the Fire Committee, certified by the Chief Engineer.—Carried.

REQUEST GRANTED.

Moved by Mr. McClelland, seconded by Mr. Cook,—That Mr. Geo. McCombs' request to have that portion of Simcoe Street surveyed be granted, so that he may be enabled to save his house placed in accordance with said survey.—Carried

The Chairman of the Street and Bridge Committee said that they could not grant the right of some of the ratepayers of the town as to giving the appointment to Adam Daobin for the watering of the streets as there was not a sufficient number of signatures attached, but authorized the advertising for tenders for the work.

RUBIDGE STREET ONCE MORE.

It was moved by Mr. Thornton, seconded by Mr. Rutherford,—That the Street Inspector be instructed to proceed immediately and remove all obstructions on Rubidge street, between McDonald and London streets, which was lost on the following division:—

YEAS—Messrs. Rutherford, Thornton, Douglas, Elliott and Paterson. (5)

NAYS—Messrs. Cahill, Taylor, Dixon, Haggart, McClelland, Hopkins, and Cook. (7)

The Council adjourned for one week.

FENELON FALLS.

THE FOUNDARY.—We learn from Mr. Hamilton that the Fenelon Falls foundry, destroyed by fire last week, cost with its contents $3,410 when built in 1871; and although some of the original machinery has deteriorated in value, large additions have been made, so that the loss was a very heavy one. Mr. Hamilton with commendable pluck and energy, has already commenced rebuilding, and expects to have the new foundry in full operation in the course of five or six weeks.—*Gazette.*

DUMMER.

COUNCIL.—Council met at Old Town Hall, April 29 1876. Present Messrs Wigmore, Ritchie, Robb, and Crowe, Councillors. Not Present, the Reeve. On motion, Mr. Robb was appointed Chairman. Minutes of last meeting read and confirmed. Mr. Slaven's case laid over. Circular from Editor of Peterboro *Times* read and filed. William Spier made application for pay for a sheep killed by dogs. Laid over. James Morrison presented an account of $17 20 as funeral expenses of Catherine E. McMeel. Moved by Mr. Wigmore, seconded by Mr. Crowe,—That the accounts for burying Catherine E. McMeely be not paid, and that the accounts be filed.—Carried. On motion the statements of James Morrison respecting a road on Thomas Robinson's farm was received, and Mr. Wigmore was appointed to examine the rout of road, and report to Council. Moved by Mr. Crowe, seconded by Mr. Wigmore,—That the first settling of the Court of Revision on the Assessment Roll be held at the Town and Agricultural Hall, Warsaw, on Saturday the 27th of May next, commencing at 10 a. m., and that the Clerk give the necessary notices respecting said Court. Carried—The application of Winfield Lesson, to have about 30 rods opened so as to connect sideroad between lots 15 & 16 in 9 con. was laid over for the present. Moved by Mr. Cowe, seconded by Mr. Ritchie—That William Franklin Darling be appointed Clerk of this Council, and that a By-law be passed for that purpose.—Carried. Orders granted.—To James Stratton for blanks, ballots, &c for Municipal Election $13 50. Richard Hatten as License Inspector $10. By-laws passed.—One to appoint Township Officers and one to appoint a Township Clerk. Council adjourned for Court of Revision to 27th of May next.—Com

BOBCAYGEON.

MELANCHOLY ACCIDENT AND LOSS OF THREE LIVES.—We have to record a very melancholy accident by drowning, which took place in Pigeon Lake, on Tuesday morning last. Mrs. Fortune, the wife of Mr. Fortune, a farmer in Harvey, started after breakfast with her two youngest children, aged respectively 6 months and 2 years, in a small punt to row to Mr. Crowley's, a neighbour who lives on Jacob's Island. She started out and when last seen was just rounding a point on the Harvey shore. Mr. Fortune accompanied by Mr. Johnston the father of Mrs. Fortune went off to work on the opposite end of the farm and did not return until evening. As Mrs. Fortune had taken her two younger children with her they concluded that she was going to stay all night at Mrs. Crowley's and did not give themselves any uneasiness. On the following morning (Wednesday) they again departed to work taking their dinners with them, and were suprised on returning at night to find Mrs. Fortune still absent. Somewhat alarmed they then went over to Crowley's and found she had not been seen at any time and every enquiry well made to discover her, but in vain. A search was instituted but neither bodies or boat could be found and it was surmised that in rounding the point the punt ran on a stump just covered with water and was there upset. On Thursday evening a large party assembled with jack lights and used every exertion to find the bodies, and they succeeded in finding the body of Mrs. Fortune, which was conveyed to a suitable place and the search for the children continued.

PETERBOROUGH POTTERY.—Mr. Aitken and Mr. Orr have both received an addition to their stock of pottery from the works of Mr. Wescott, at Peterborough. This pottery is of a character deserving of special notice on account of its excellence, and a comparison of the productions of the Peterborough Works with those of other places will prove that Mr. Wescott's pottery is about the best in the Province. It is very satisfactory to find a manufacturer who depends on the excellence of his own productions to ensure for them a large demand, and who does not desire to have his industry "protected" at the cost of the tax payers. If those manufacturers who are so desirous of obtaining "protection" would only give their productions the same care and skill and attention bestowed by Mr. Wescott in producing his articles, they would find that they could successfully compete in any market without any legislative protection obtained at the cost of the community.

FISHES.—The Government Officer for the protection of the fisheries in this district, Mr. Godfrey, has been very actively engaged in his duties during the past few weeks. He is continually on the alert, and through his constant watchfulness no poaching has taken place. The law is being thoroughly enforced.—*Independent.*

LAKEFIELD.

Special meeting of the village Council would in the Council Chamber on Monday evening last. Present—the Reeve and Councillors Hall, Shields, Dinwoodie and Strickland. Minutes of the last meeting passed approved.

A committee appointed to visit Port Hope to see the fire engines for sale there, reported that they examined them and find them in good condition.

John Robertson, whom the committee enlisted to accompany them to examine the engines, was of opinion that it would better to purchase a new one.

A motion of Mr. Hall, seconded by Mr. Strickland, a public meeting was ordered to be called to take into consideration the propety of getting a new fire engine, or other means to protect the village from fire the meting to be held on Tuesday evening, 2d May, 1876.

Mr. Dinwoodie considered that a by-law granting a bonus for the improvement of the water power should be submitted to the people to have their opinion passed on it, as heard. R. C. Strickland & Co., had undertaken to pay all expenses should the by-law be defeated. He moved, seconded by Mr. Strickland, that the Clerk be instructed to prepare a by-law in accordance with the agreement laid before the public meeing by R. C. Strickland & Co., for submission to the people, provided that R. C. Strickland & Co. pay all expenses in case the by-law is lost.

Mr. Hall said he knew the people of the village were opposed to the bonus, and moved in amendment, seconded by Mr. Shiels, that a by-law be not submitted as it was contrary to the wishes of the majority of the people, and the loan was illegal.

The amendment being put the vote was as follows:—Yeas.—Messrs. Hall and Shiels. Nays,—Messrs. Dinwoodie and Strickland. The Reeve gave the casting vote on the amendment.

On motion of Mr. Hall, seconded by Mr. Shields ——, was granted the use of the west end of George street for pasture until said time as the Council may require it, provided he clears up said street.

On motion of Mr. Strickland, seconded by Mr. Dinwoodie, C. Paten was appointed road inspector at a salary of $1.50 per day whilst working on the roads.

On motion of Mr. Dinwoodie, seconded by Mr. Shields, the Clerk was instructed to advertize for tenders for planks for sidewalks and also nails and stringers.

On motion of Mr. Shields, seconded by Mr. Hall,—Percy Strickland was authorized to purchase plank to build a sidewalk from the main street to the street passing the Park lots, not to exceed $7,50 per thousand, and the stringers not to exceed $10 per thousand.

The Council then adjourned.

HARVEY.

The Harvey Council met at the Town Hall on the 75th May, Reeve and Councillors all present. Minutes read and confirmed. Petition read from L. Beaudry and others: requesting the Council to open a new road between lots 22 and 23 in the 14th concession, and the concession line road at the rear of said lots to the west corner of lot 25. Also a request from Wm. Wood, Esq., for a money grant to be expended on the 11th concession line.—The petition and request were laid over for future consideration. The Treasurer presented the Collector's Roll and report thereon for the year 1875, which was received by the Council. On motion a new road beat was formed on the concession line between the 16th and 17th concessions, opposite lots Nos. 6, 7 and 8, in the said concessions. Thomas Cahill was appointed overseer on said beat numbered 40. D. Brodie, Senr., was appointed Road Commissioner instead of John Clarkson to let out by contract all money grants for roads on the south side of Pigeon Lake,—After much discussion a motion was passed granting $580 for roads and bridges, $204 for the north side and $300 for the south side of Pigeon Lake. The sum of $20 was granted for the concession road between lots 5 in the 11th and 12th concessions. On motion the Council adjourned to the third day of June next, for Court of Revision and general business.—COM.

EVERYTHING in the Gentlemen's Furnishing are now at T. DOLAN & Co's. 21-tf

BUCKHORN.

DESCRIPTIVE.—Buckhorn is situated on the East side of the township of Harvey, and on the banks of that magnificent stream of water which passes Bobcaygeon to Lakefield and Peterboro, and at the point where it passes this village is a beautiful fall of about twenty feet, as fine a water privilege as may be seen in any part of our fair Dominion. There are two mills on the north side of the river that are comparatively idle on account of the depression in the lumber trade; but on the south side a mill could be put up with very little expense and a water power secured sufficient to work any factory or establishment which would be erected. The inhabitants are an intelligent class of people, and in their general deportment resemble some advanced cities on the frontier. Their morals are good, with one or two exceptions, where we are confidentially assured you could get (a horn on the sly) which we deplore and lament, and we fear very much with all the temperance vigilance, these parties will soon come to grief. There is one licensed tavern here and another is closed because no license would be granted. Buckhorn is supposed to become a village of considerable proportions in progress of time, as all the streets are laid out with their names: we hope the happy day is not far distant, but we fear it much. It will not want a good foundation, for you can walk on solid rocks for miles around.

PERSONAL.—We are sorry to learn that Mr. Stewart who has kept the post office here for a number of years, with great satisfaction to himself and the public, has sold out. He is a gentleman of culture and refinement and will be much missed by the community. We wish him and Mrs. Stewart every success wherever Providence may be pleased to cast their lot. Mr. Henderson, late of Peterborough, to whom he has sold out his entire stock, seems to be a man of good common sense, and we have no doubt but that his obliging, courteous disposition will command a large share of public patronage, and by his pushing spirit is likely to be successful.—*Lakefield News.*

COBOURG.

A LARGE quantity of grain for Winans & Butler is coming in by the Cobourg and Peterboro Railway.

GRANGE.—The Northumberland Grange which numbers over one hundred members held their regular meeting at Grafton. The Grange is increasing in numbers, and all the leading farmers in this vicinity have become members.

LODGE MEETING.—The annual meeting of the Grand Orange Lodge B.N.A., will be held here this year, commencing on the 6th of June. The Brethren here are making arrangements so as to ensure visitors a pleasant time.

OBITUARY.

MRS. JANE GORDON the subject of this notice was born near the Town of Magwiresbridge, in the County of Fermanagh, Ireland, in the year 1782, consequently she was 93 years old at the time of her death, which took place at the residence of her son, Mr. John Gordon, Huntingdon, on the 11th inst. Mrs. Gordon has been a widow for 32 years; has been a member of the Methodist Society over 60 years; she emigrated with her family to Canada in 1868, and has resided with her son, John, ever since. She leaves behind her three sons and two daughter, viz.: John Gordon, who is a member of the Township Council of Huntingdon; Rev. A. Gordon, now of Peterborough; and Mr. Robt. Gordon, District Master of L. O. L. No. 2, South Bentinck. The funeral sermon was preached in the Orange Hall, in the 11th concession of Hungerford, by the Rev. A. Dunn, from the 21st chapter of Revelations, and part of the 25th verse—"And the gates of it shall not be shut at all to day. In this Hall she has been a constant worshipper of that God in whom she put her trust and has now taken her to her eternal reward, and where Christ has prepared mansions for those that are prepared to inherit them. Her remains were conveyed to their last resting place in the Methodist grave yard at Tweed on Saturday, the 13th inst., by a large circle of friends and acquaintances.—*Intelligencer.*

PETERBOROUGH, MAY 25, 1876.

EARLY ROSE. are receiving daily from Rochester, Vegetables, &c. Read their advertisement.

INSANE.—Mrs. Newton, of this town was committed to jail on Monday by Mr. Hutton, as being insane.

A coloured clergyman has recovered damages from a Philadelphia publican who refused him accommodation because of his colour.

PRESBYTERIAN.—The members of St. Paul's church have given a unanimous call to the Rev. John Torrence, who lately preached in that church.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ABSENCE OF RAISE SPOOL.

CARPETS.—We omitted, last week, the names of H. D. Dark and F. A Hilton, who also passed the Junior Examinations very creditably, also Mr. C. S. Wallis.

CENTENNIAL.—We wish to draw the attention of our readers to the advertisement of the Midland Railway Co'y respecting the rates to the Centennial Exhibition.

On Thursday last, a barque belonging to St. Catherines, light, bound up from Port Colborne, was capsized during a squall in Lake Erie, and six of the sailors drowned.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ABSENCE OF RAISE SPOOL.

POISONED HERSELF.—A Mrs. Lockwood, who lived near Bernt Brae, Seymour, poisoned herself on Friday last. Particulars not received—Wanted to throw off the mortal coil.

AUCTION SALE.—Messrs. Haggart and Bro. will sell by Public Auction, at 2 p.m. on May 26, the whole of the furniture and hotel plant belonging to the St. Lawrence Hotel, Brock street. Sale without reserve.

T. DOLAN & Co. have a very nice assortment of Gent's Furnishings, which they are selling cheap. They have also a large assortment of Dress Goods, Lenos, Cottons, &c., which they are making a Clearing Sale of. Give them a call.

BOOTS AND SHOES.—Messrs. R. Stenson & Son have in stock, and regularly make to order. boots and shoes of best quality and latest styles. They have the seamless boot which is considered very serviceable.

PROGRESSING.—The erection of the buildings for the Central Exhibition, Port Hope, has been commenced, and will be pushed through as speedily as possible. The Committee are working with great energy to ensure the Exhibition a success

REMOVED.—Mr. Adam Hall has removed his Boot and Shoe Store to S. White's old stand, George Street, and is there prepared with a large and well assorted stock to supply all who may give him a call with fashionable and serviceable understandings.

THE FLOODS.—The heavy rains on Sunday evening caused a rise in the creek. The dam at Hamilton's foundry was injured, some side walls were removed from their places. The freshet entered Mr. Paterson's tannery but did no very serious damages.

MR. JOHN JOHNSTON, one door south of the EXAMINER Office, has on hand a full assortment of groceries, crockery, etc. and also a nice selection of cottons, ribbons, tweeds and cloths. He is prepared to make nice suits to order and to guarantee a good fit. Give him a call and a trial.

BOOTS AND SHOES.—A. Conner has received some new styles of American Boots and Shoes, and Gaiters. His stock appears serviceable and good, and should command the attention of those who require something in this line. He manufactures to order, and warrants satisfaction.

NEW CARDING MILL.—Mr. Grilling, late of Norwood, has fitted up with new machinery the building adjoining the Mowry Foundry Ashburnham, near the old Carding Mill, where he is prepared to attend to custom carding on liberal terms. The farmers of Otonabee, Douro, Dummer and Smith would do well to take a note of this.

A HINT.—The following sign can be seen hanging out in Towanda, Pa. :—"John Smith—teacher of sewtillions and other dances—grease tent in the neatest manner—fresh salt herrin on draft—likewise Godfreys cordial—rotten sausage and other garden truck—N. B. A bawl on Friday nite—prayer meetin thursday also anney magin by the quire.

MUSIC IN SCHOOLS.—The School Board have secured the services of Prof. Martin to give music lessons in the school building at the reasonable price of $5 per quarter. We must say that the Trustees made a step in the right direction. The Public Schools all over are considering the propriety of adding this important branch to their school studies.

PUGILISTIC.—Norwood was the scene of a pugilistic encounter last week. Two men whom John Barleycorn had placed on their mettle tried the sort of stuff each was made of. One got colored peepers, a swollen mellow, and a few other hearty spots in the encounter. Too drunk to stand up, it is said. Just so! whiskey again. And yet some of our winnepers want more grog shops.

PETERBOROUGH LUTHERAN ASSOCIATION.—The Association proposes closing its first session by a public meeting to be held on Wednesday evening next, at 8 o'clock, in the Temperance Hall. The Association has been organized only about two months. It is hoped that the people of Peterborough will give its members such encouragement by a large attendance at the public debate.

SAMPLES.—We observe that Wm. McCullagh has now on view in his shop window a handsome sample case of Boots and Shoes, also a very fine assortment of ready-made work. They are made in the best manner and of superior material, giving them a handsome, as well as a substantial appearance. Any person in want of anything in this line would find it not amiss to call and examine his stock.

QUEEN'S BIRTHDAY.—We took a stroll around town on the evening of Her Majesty's birthday to see the effect of the new license law, and were pleased not to find even a single drunk person on the streets or any where in view. Peace and quietness prevailed every where. So much for Mr. Crooks' license law. The approaching fair day will also afford another opportunity of its work, which we will await and note.

A FAIR TEST.—The boiler for Mr. H. Calvert's new Steamboat was taken over the new iron bridge on Monday evening. The boiler weighs 10 tons, the truck or stump machine on which it was, is said to be 3 tons. Three span of horses would be at least 15 cwt. each, or 4½ tons. The load and teams therefore must have been 17½ tons, yet there was not a quiver in the bridge. That was a very good test of its quality and strength.

AN EXPRESS TRAIN running west from London, Ont., passed through another switch, the locomotive upsetting, the chest bursting, and the driver and fireman being scalded to such a degree that the former is dead and the latter dying. A verdict holding the Company and the Section Foreman responsible for the Engineer's death has been returned. The foreman was committed to trial for manslaughter, but is admitted to bail.

DRESS GOODS.—We wish to call the attention of the ladies to the advertisement of Messrs. W. Fairweather & Co, in our columns to-day. They have received an extra large stock of ladies Dress Goods, bought for them in New York at much less than the goods cost in England and according to their advertisement they propose selling cheap for cash. We notice that this is the third shipment they have received from New York this Spring.

WAX FLOWERS.—The attention of our lady readers is called to the new method of making Wax Flowers being introduced here by Mr. F. S. Stone, of St. Catherines. This method is entirely new, being quicker, cheaper and easier than any other, and work made in this way is much more durable. Mr. Stone is staying at Mrs. Weir's, Hunter street, and will be glad to show specimens and give particulars to all interested in this art.

LOOK OUT.—Unlicensed liquor sellers, as well as those who are in the habit of contravening the regulations issued by Commissioners, had better be on the alert as Messrs. Ritchie and Drain, as well as a Detective, will be on their track, and, without fear, favor or affection, do their duty. Those who sell on Sunday will not be forgotten. It is an undeniable fact that Sunday selling has been carried on to a great extent for a length of time, and it is now time that active steps were taken for its suppression.

ÆSTHETIC.—Some of the most beautiful views of the most attractive and delightful scenery around town and on our back waters can be obtained at *Little's Picture Gallery. They consist of* views of the town from various points from the tower of St. John's Church.—The Court House, the New Bridge, the River, the Cemetery, the School Building, the new Methodist Church, etc. They are well executed, and will command a ready sale. The different views of George Street give the town the appearance of a City.

BORDWELL'S SENSATION.—This Company gave two entertainments in the Music Hall, on Wednesday and Thursday evening's last. The first evening there was a very fair audience, but on their second appearance the house was very slim The whole thing was a sell. The only redeemable feature in it was the "Big 6" of this town whom they engaged to play for one evening. Ireland and the Franco-German War is gone, leaving na'ar a one to say "will ye no come back again." One night of such a thing is enough for this town.

A SPAN OF HORSES BURNED.—On Friday last, the stables of John McMartin, who lived on a farm of Mr. Grover's were consumed, and a span of horses, harness and whatever was in the building burned. Mr. McMartin had put his horses in the stable at dinner hour, and went into his own house to dinner. He had been engaged in burning brush and stumps. The stable took fire from the sparks, and it and contents were consumed in a few minutes. Mr. McMartin in trying to save things, was badly burned. Great sympathy is expressed for his loss and suffering

EAST PETERBORO.—Some would be tavern keeper, (probably Silas Burnham) with more love for whiskey than tor the truth has charged the License Commissioners with granting licenses in Keene that were not applied for, and with refusing to grant licenses to two persons who were applicants. It is useless to trouble with the matter, unless to, let the public know all that is going on in reference to the whiskey trade. The accusations are about as trutaful as the men generally is, and that is all we need say. He may possess his soul in patience, he'll get no license till the Inspector gives him a good character.

ADA GRAY.—The Ada Gray Combination has been drawing full houses every evening this week. She seems to be a great favorite with theatre goers, as they flock to hear her successive nights. The drama has always been attractive, but few troupes have appeared in Peterboro' that have been able to secure such crowded houses every evening for a whole week and retain the sympathy of their audience without satiety. The original object of the drama may be in part lost sight of, but its attractiveness is as great as ever it was, judging from the number who are patronizing it here, she will remain the balance of the week.

MR. D. STIRTON has resigned his seat in the House of Commons for South Wellington, and has accepted the Postmastership of Guelph. Mr. Stirton has represented South Wellington for nearly 20 years. He was elected, in the first instance, to the Legislative Assembly of the Province of Canada in 1857. was returned to the Commons in 1867, was re-elected by acclamation in 1872, and, although nominally opposed in 1874, defeated the Conservative candidate by the crushing majority of 1,189 votes.—Throughout his life Mr. Stirton has been a firm and steadfast supporter of Reform principles, and many both in and out of Parliament to do his full share of work in the cause of his party.

GRANGERS PIC-NIC.—A monster Pic-nic will be held at Pine Hope under the auspices of the Durham Division Grange on the beautiful grounds of Col. Williams ex-M.P.P. on the 2nd of June, next. Special arrangements have been made with the G.T.R. and Midland R.R. for the accommodation of those attending the Pic-Nic at reduced fares on that day. The Hon. Victor E. Piollet, lecturer of P. A. State Grange, one of the most eloquent Grange orators in America, will be present and deliver an address on Grange principles, also other prominent speakers from a distance are expected, besides a large array of local speakers. The occasion will be enlivened with a choice selection of instrumental music. A cordial invitation to the agricultural public is extended.

TOWN POPULATION.—Mr. D. C. Edwards has just completed taking the census of the Town for School purposes under the direction of the School Board and has done so in a most creditable manner In doing so he took also the population of the Town and these affords a correct census at the present time both of population and of children of school age. The population by his figures is 6610, independent of transient persons. The children of school age *i.e.* between 5 and 16 years, both inclusive, number 1883, or 28½ per cent of the whole population. The correctness of this census as well as that given by the Assessors may be accepted from the fact that they differ only to the number of 80. The Assessors also take in transient persons to the number of 260, *i.e.* persons not having permanent residences in town. Of these 1886 children of school age the reports of the Protestant Board shows that 1891 attended school during the year, and the register of the Separate School Board shows that —— attended school. Hence —— must have attended no school.

FOR NOVELTIES in Gentlemen's Furnishings, see T. DOLAN & Co's Stock. 21-tf

OUR LITERARY TABLE

RECORD OF THE YEAR.—This capital new Periodical, which has already reached such an enormous popularity, is something entirely new and original in the way of a Monthly Magazine. Being a sort of Reference scrap-book or monthly record of any nature that happens in any part of the world, together with a selection of the choicest current miscellany, prose and poetry, foreign and domestic. Edited by Frank Moore, of the "Rebellion Record." Price 50 cts. G. W. Carleton & Co., Publishers, New York.

ENLARGED.—The Belleville *Intelligencer* comes to us this week enlarged and improved in appearance. It is now one of the largest weeklies in the Dominion.—The reading matter of the *Intelligencer* is always well selected, and in tone strictly moral. The news columns contains the latest events, local and foreign, of importance, and this makes it a welcome visitor. The politics of the *Intelligencer* are not what we could desire, but perhaps it is better that there should be diversities of opinion. We wish our *confrere* continued prosperity.

HARPER'S MAGAZINE.—The June number is one of the most entertaining we have received. The first thing to turn to is "Daniel Deronda," of which the entire fourth book is given. It is one of the most powerful and charming parts; and leaves the reader at a most exciting turn of events. It fully deserves the commendation of the London *Times* that it is a story "the constructive art of which approaches perfection." Another attraction opens this month in "the Laurel Bush," an "old-fashioned love story," by Miss Mulock. There are three clever short stories—always a good point in Harper's—and illustrated papers about "Virginia in the Revolution;" the "Romance of the Hudson;" and "Trail in the far South-west." A capital paper is contributed by B. H. Stoddard about "Lord Macaulay and his Friends," with portraits of Praed, Hannah Moore and other celebrities. The Editor's Drawer is this month very good.

THE EVANGELICAL CHURCHMAN.—This is the title of a new weekly paper published in Toronto, in the interest of the principles of the Evangelical party in the Church of England. The first number is unusually good, neatly printed, and contains about fifteen pages of excellent reading matter, and is truly Evangelical in its tone. It breathes a spirit of friendship to the other orthodox denominations rarely to be met with in the organs of apostolic succession. Its object is a good one—the propogation of sound Gospel truth, and the extension of those principles instead of ritualism. Judging from the tone of the first number the EVANGELICAL CHURCHMAN will give no uncertain sound on the gospel doctrines of the Church of England. It claims and deserves the support of Churchmen, and the warmest sympathy of all Protestant denominations in the Dominion. As a religious paper cannot be published without funds, and as the enterprise is one that deserves support, every Churchman should at once send in his name for a year, with as liberal a subscription as possible. We wish the paper a large support and success in its mission. It bids fair to be one of the best family papers in Canada.

CORRESPONDENCE

*** We do not hold ourselves responsible for the views of our correspondents

PROTESTANT HOME

To the Editor of the Examiner :

Sir,—I would like to make a few remarks about that institution in our town, styled the Peterborough Protestant Home to which I have long been a contributor, not, I must say, for conscience sake, but because of the importunity of some of those connected with it, it being easier for many of us to give money, rather than listen to persuasions and and arguments which are evidently considered by those who urge them to be unanswerable. Now about this (P.P.H. I have, with many others, been watching the manipulation of its affairs for some time, and think the management, or pismanagement, glaring. All that is done there might be done with less expense to us all in a different way. Why must that house be kept up at all for all that is done there? If may be urged that the building is given, true, but a housekeeper must be kept, paid a salary and boarded, a woman paid to wash once a week, went and the cutting of it, light, and endless et ceteras of housekeeping, and for what? To keep three or four old women and two or three children. Some of these pay their board there. Now, surely, the ladies could get those people to board with some other compassionate poor people to whom the sum paid would be a help, and thus a double charity done and that with less outlay than the present system involves. Up to the present year the Council granted an annual sum to the House, but some remonstrated by the Council and by others were cast aside, as when, a case, the particulars of which appeared in one of our papers over the signature of the late president of the P.P.H., and other cases might be mentioned. What so natural as that unfortunate should be commended, in good faith to the kindness of charitable ladies? A physician made application to the president of the House on behalf of a poor woman in ill health, in need of some care and comforts, and who, in his opinion, was a fit subject for the House, but, forsooth, he was refused, the woman was a Roman Catholic, she was sick, she needed by rough husband might come and frighten, &c. Surely a little reflection might have shown that the doctor's applying was a sufficient guarantee for the woman's having medical attendance, and that he also would provide against annoyance from her husband. The position taken was not justifiable, and was, to say the least of it, very bad policy, as was also the attitude assumed towards the Council. The Council were giving money gathered from Protestants and Catholics alike, and had a right to expect that the ladies should sit-Pall, (the Council dispensed their charities alike to all as they were bound to do, and when the House refused to do this or to comply with any of the wishes of the Council the Council would not have been justified in making the grant—it is not their own money and we do not put them there to give away ours blindfold: indeed they should have cut it off long ago and would have done so but for the before mentioned importunity; and, with a spite unfeminine (gallantry forbids me to my feminine) the Council are styled anything but honest. Now, I am not at present in the Council, but I believe that those who are there are honestly doing the public work for us who put them there, and garbled reports of council meetings, in which those who opposed the grant are held up in an unfavorable light, cannot hurt them however discreditable to the inspiration from which these reports come; their source is well known to be fond of making itself felt. We have not yet arrived at the stage of woman's rights which some of our fair friends covet, and might be well to keep in mind that husband's might be enquired of concerning what their better (?) halves say and do. There are submissive husbands who allow their other selves to say and do all that is to be said and done; but I do not wish to take up your time with trifling remarks and with an apology will proceed with the matter in hand. I understood from some of the poor that they were turned away from the door of the Home, with the intimation that the ladies had decided to withhold outside relief from nearly all applicants because they had not got the grant from the Council this year, and on enquiry I found this corroborated. Now the next thing will be that we shall have beggars from door to door, and yet we are giving our money to ladies to use in charity; and the hero of the late William Hall have given them four hundred dollars lately; (a liberality which they were wonderfully slow to acknowledge,) is it a proper thing to turn away poor people who are sent there for help? if the poor are to come to our doors for aid we must use our money for them ourselves—though an association for the purpose of enquiring after the poor and aiding them wisely is the right thing, if we can't have it done so we must do individually. We can't be giving our means to be used as the whims of those managing the P. P. H. may dictate. There are women who could get good situations in respectable houses if their young children were off their hands. If this Home must be maintained, why cannot such children be taken there? it would be in the interest of common humanity and of morality too that the doors of the Home should be opened wider if it is to kept up at all. I understand that some of those who were on the Home Committee have recently with drawn, not feeling satisfied with the spirit which was shown; and we outside are beginning to enquire into the state of affairs, and as agitation generally precedes reform, many of us are hoping for good results in this case. If things were conducted on a broader basis, more like the Dorcas Society which did its work well and had no fault found with it, some who have always kept aloof might fall in and give valuable assistance in the work of the Home.

With adologies for taking so much of your space, I beg leave to subscribe myself,

FAIR PLAY,

ALLANDALE.

To the Editor of the Examiner.

Sir,—I think the License Commissioners are pretty sure of escaping the woe pronounced upon them of whom all men speak well. Their refusal to grant a license in this village brought a squeal from the proprietor of "My Hotel," that set the whole village laughing at him. My advice to that talented young gentleman would be go south young man, and run for President of the United States.

PHILALETHES.

Lang P.O. May, 1876.

THE INVALID—A PEN PICTURE.

See her pallid countenance, but a short time ago the picture of ruddy health, the envy of the school and the pride of the household. She was always welcomed by her schoolmates, for her little form and pleasing disposition carried cheerfulness into their ranks. Diligent punctual and exemplary obedient and graceful at home, she won the hearts of all. But, alas, we are sorrowed. Those rosy cheeks and ruddy lips are bleached by Consumption. The voice once so enchanting in laugh and song is feeble, husky and suppianted by a hollow cough. Let us approach her couch gently and take her hand. Do not shudder because of the feeble and pasionless grasp. The hand once so hearty and plump is emaciated and shows bony outlines, while the cords and tortuous veins are plainly mapped upon the surface The pulse that bounded with repletion, carrying vigor to the whole system, and imparting life, beauty, vivacity, health and strength, is delicate to the touch. The feeble heart cannot propel the thin, scanty blood with force. Must we lose her while yet in her teens? Companions and friends gather you may stay this destroyer of our happiness and not suffer the loss of so bright a gem. Something more is required now than dietary and hygienic observance, for nature calls for aid and she shall have it. Take this pleasant medicine. It is invigorating. How it allays the irritable cough, improves the appetite and digestion and sends a healthy tingle through the frame. The blood is enriched, nervous force increased, and the heart bounds with a new impulse. See her face and the heart degrees; the color is returning, her voice is getting clearer, and pleasant words are spoken. The strength falters yet, but is gaining. Let us take her out in the sunshine. In a short time she will be able to go without our aid, a cheerful girl. This delightful medicine must be God-inspired. It is restoring health to our loved one. She is emerging from her sickness sweeter and nobler than before, and Dr. Pierce's Golden Medical Discovery must have the credit. It has raised her.

S. R. EELAR, druggist, of West Union, O., says that Dr. Pierce's Golden Medical Discovery has effected a wonderful cure of Consumption in his neighborhood.

MARRIED

HOUSE—HUNTER.—At the Methodist Parsonage Norwood, on the 16th inst., by the Rev R. Clarke, Mr Henry Hoare to Miss Mary Ann Hunter, both of Dummer.

DIED.

HUTCHINSON.—At the residence of his brother-in-law Mr Justice Pate, Millbrook, on May 14th, Walter Hutchinson of South Monaghan, aged 40 years.

PEARCE.—At Peterborough, on Wednesday May 24th, Timothy Pearce, Esq., aged 87 years.

☞ Funeral will leave his late residence, Edinburgh Street, To-morrow, at 3 p.m.

VANDUSEN-LLOYD.—In Otonabee, on the 18th inst. by the latest son of W O Vaughan-Lloyd, Esq.

WOODMAN.—At his residence, Mount Pleasant, on May 9th, George Workman, Esq aged 65 years.

MONDAY.—At Peterborough, on Sunday, 21st instant, H. Monday, Esq., aged 56 years.

BRADLEY.—On the 15th inst., the infant son of Mr Joseph Bradley, aged 9 months.

NOTICE.

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, (and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart. Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full direction: and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Urmond & Walsh, in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay and all Medicine Dealers

—ELECTRICITY—

THOMAS' EXCELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgement of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Russan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three o four years, and I never found anything like it for curing lameness. It is a great public benefit.—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

Assignee.

Peterborough, 8th April, 1876 17-4t

COLLEGIATE INSTITUTE.

In accordance with the Statute and the Regulations of the Council of Public Instruction, an examination of Pupils for admission to the High Schools and Collegiate Institutes will be held (D.V.) on each High School or Collegiate Institute District, on

Tuesday 27th & Wednesday

28th JUNE, 1876, at 9 A.M.

Candidates should, if possible, notify the Town Inspector, through the Head Master, not later than the 21st Inst. of their intention to present themselves for examination, so that the Inspector may inform the Department not later than the 5th June, of the probable number of Candidates for admission.

J. STRATTON,
10 Inspector P. S., Town of Peterboro

BY-LAW CCXLIII.

A BY-LAW to provide for opening up a new line of Road across the eastern part of the 10th concession of the Township of North Monaghan.

WHEREAS certain owners of property, together with upwards of forty ratepayers of the Municipality of North Monaghan have petitioned the Council praying that they would open and legalize a public highway across the Township in accordance with the following description of Theodore Clement, P.L.S., as follows:

Commencing on the north side of the allowance for road in front of said 10th concession at the distance of six chains and 66 links easterly from the centre post angle of lot No 9 in said 10th concession. Thence north three degrees eight chains 40 links. Thence north forty-two degrees east 23 chains more or less to a point distant 30 links westerly from the line between lots 9 and 10. Thence northerly parallel with said line between lots 9 and 10 twenty-eight chains more or less to within one chain from the south side of said Railroad thirteen chains and 30 links more or less to the south side of the concession road in rear of said 10th concession.

The aforesaid line to be the west side and the south side of said road and the road to be sixty feet feet wide.

Said By-law will be read a third time on the 2nd day of June 1876.

WILLIAM WOOD,
Township Clerk.
Monaghan, May 2nd 1876 18-4t

A

Choice Poetry.

TOBACCO.

BY P. GRANTSTONE.

Of all the [illegible] Lord,
Tobacco is the foulest weed;
Though in itself no fault I find,
But of its use by beasts kind.

Of this weed you will chew and smoke,
And think it right to bear the yoke;
But pause and think, for well you know
That cattle feeds its use do grow.

It robs our home of bread and meat,
Turns children ragged on the street;
It burns our barns, and houses too;
Now who can say this is not true?

This weed is used by young and old;
It robs our coffers of the gold;
It stains our lips, and carpets, too;
Say, with it, then what shall we do?

The little boy to be a man,
Will use tobacco if he can;
But the dumb brute will pass it by;
To be a man it will not try.

And women, too, will use the weed,
When of life's comforts stand in need;
For worthless trash their money goes,
To make a chimney of their nose.

Now, little boys, if wise you'd be,
Then touch it not, but from it flee;
It takes your dollar, and stinks you too;
Now tell me what with it you'd do.

And little girls, with blooming cheek,
If joy on earth you all would seek,
Search out its crimes, then tell me true
With what this weed is best to do.

I'll tell you what with it to do;
In the wild woods we'll let it grow,
And let it die, both branch and seed,
And thus get rid of the poison weed.

Kissing the Bride.

The custom of kissing the bride at a wedding is [illegible] still insisted on by many people with great vigor. A very amusing story is told by an exchange of a Kentucky backwoodsman who had, after a long and ardent courtship of the belle of one of the Kentucky cities, won her for a bride. She had for a long time wavered in her choice, undecided whether to take him or a gentleman of wealth and position in the city, but finally chose the humbler lot in obedience to her heart. The wedding was celebrated in great style, and the manly groom was almost as much admired for his colossal proportions and athletic symmetry as was the bride for her exceeding loveliness. Among the guests was the unsuccessful suitor, who was well aware of the jealous wish which the groom had regarded him, but who had overcome his chagrin at his failure, and was sincerely anxious to congratulate the bride. One by one the guests offered their [illegible] kisses, while the groom looked on with approval and delight. [illegible] among the rest, came the rejected lover. The young groom watched him keenly, but without the [illegible] expression. The unfortunate rival felt the delicacy of his position, and not caring to provoke the husband's ire, he did not proffer the salute which was customary. As he was giving place to others, after wishing the newly-married pair well, the groom grasped him with his iron fingers and in a low tone said:

"She's my wife, and I propose to see that she is treated as well as my wife should be treated. [illegible] her, I'll break every bone in your body." Rather than quarrel, the gentleman kissed the not unwilling bride, and the groom was satisfied.

DON'T GIVE UP, BUT TRY.

A gentleman travelling in the northern part of Ireland heard the voice of children and paused to listen. Finding that the sound came from a small building used as a school-house, he drew near; as the door was opened, he entered, and listened the children were spelling. One little fellow stood apart, looking very sad. "Why does that boy stand there?" asked the gentleman. "Oh, he is good for nothing!" replied the teacher. "There is nothing to him. I can make nothing of him. He is the dullest boy in school." The gentleman felt surprised to hear this. He saw that the teacher was so stern and rough that the younger and more timid boys and girls were nearly crushed. He said a few words to them, and then placing his hands on the brow of the little fellow who stood apart from other children, he said, "One of these days you will be a fine scholar. Don't give up, but try, my boy—try." The boys was aroused. A new purpose was formed. From that hour he became studious and ambitious to excel. And he did become a fine scholar, and the author of a well known Commentary on the Bible, a great and good man, beloved, honored, and celebrated. His name was Rev. Dr. Adam Clarke. The secret of his success is words knowing; "Don't give up, but try, my boy."

Philosophy after Marriage.

"You love me no longer," said a bride of a few months to her better half in his gown and slippers. "Why do you say that Pug?" he ask, quickly removing a cigar from his lips. "You do not caress me nor call me pet names you no longer seek so anxiously for my company," was the tearful answer. "My dear, continued the aggravating wretch "did you ever notice a man running after a car? How he does run, over stones, through mud, regardless of everything till he reaches the car, and he sees [illegible] inside. Then he quietly seats himself and reads his paper. And [illegible] does that mean? Why, simply that the car is as important to the man after he gets in as when he was chasing it, but the man [illegible] is [illegible] and [illegible] I would have shot any one who put himself in my way when in pursuit of you, as I would now shoot anyone who would come between us, but as a proof of my love you insist on my running after the car."

WHY not established a Hippodromanies church?

"SOCIETY," says Sam Slick, "is like a barrel of pork—the middle good, but the top and bottom a little tainted.

A VERY clever woman has said, "I do not wish anybody to do anything slanging, but if they do, I want to know all about it."

EPIGRAM (to frog-man): "What inscription would Pythagoras (after much reflection): "A round, straight line, with a hole in the middle."

TOO much mental application has a tendency to distort the imagery of the brain. It is a sad sight to see a policeman pledging with the beer pot, or a volume of Darwin until the midnight oil is almost burned out, suddenly close the book and begin to pare [illegible] with a [illegible] knife, [illegible] of laying hold of a tail.

A PHYSICIAN [illegible] to [illegible] take of the pudding, replied, "No, [illegible] thankful for [illegible]. By no means, sir [illegible]. I have already indulged in pleasantry at the expense of a craving appetite, my pocket book is entirely and satisfactorily satisfied."

HOUSEHOLD AND FARM.

GRAFTING HINTS.—About this time as the old almanacs have it look out for hints on grafting; but with all the good advice and plain directions given by the various papers, there are yet many people [illegible] they never have any success in performing this operation. I once knew an old grafter who declared "a scion must be hungry before it will grow," which in plain language simply means that a scion laid away for a short time is surer to grow than one cut fresh from the tree. This Theory is not not confined to the old grafter alluded to above, but has received credence among many skilled horticulturists of the present time. Certain it is that a scion like a cutting is not injured by being cut from the tree prematurely, and laid away with proper care until needed. Some prefer grafting very early; I do not. Just previous to actual growth is the time I select for performing the operation, but I like my scions cut early and preserved in damp soil or moss, the latter preferred. Be careful to have the bark on the scion and stock to fit accurately, tie tightly, wax thoroughly, and there is very little risk about the work.

CURING SKINS.—A method of curing skins without removing the hair is given by a Correspondent in the *Farmer's Journal*, "Take soft water about ten gallons, one half bushel wheat bran, seven pounds of salt, two and a half pounds of sulphuric acid. Dissolve all together, and put the skins in the skins in the solution, and allow them to remain twelve hours, or longer if necessary. The skins may then be taken out, well washed and dried. They can be beaten soft if desired."

MOTHERS IN A DILEMMA.—The Dan McCulloch, Leader says that lately two children were born to two mothers in the west part of that town, in the same room and at the same time. The woman who cared for the little strangers bathed and clothed them, and started to present them to their waiting mammas. Then she made the startling discovery that she had inextricably mixed the infants so that she was unable to decide which was the mother of either, the little ones being of the same sex. The two mothers cast lots for choice agreeing that if the children should, when grown develop family traits sufficiently to identify them they should be exchanged if the selection should prove to be incorrect.

A MARVELOUS piece of mechanism has just been exhibited in Paris. It is an eight-day clock, which chimes the quarters, plays thirteen tunes, playing three tunes every twelve hours, or at any hour you name it. The hands go round as follow: one once a minute; one once an hour; one once a week; one once a month; one once a year. It shows the the moons age the rising and the set of the sun, the time of high and low water, half ebb and half flood, and there is a curious contrivance to represent the water, which rises and falls, lifting some ship at high water tide as if they were in motion, and, as it records, leaving them dry on the sands. The clock shows the hour of the day, the day of the week, the day of the month, the month of the year, and in the day of the month, provision is made for long and the short months. It shows the signs of the zodiac; it strikes or not and chimes or not, as may be desired; and it has an equation table, showing the difference between the clock and the sun for every day in the year.

GARDEN CROPS—Unbleached ashes sown broadcast over onions just started has an excellent effect, and is the best manure that can be applied to the crop. They stir dry, valuable also for [illegible] beets, potatoes and turnips. On sandy soil bleached ashes are excellent manure for all garden crops, including corn and potatoes. Hen manure, when carefully mixed with plenty of soil, may be used with great effect upon the surface of onions, as it contains no weed seeds, and hastens growth, where it is wished to hasten growth very rapidly, nothing equals the super phosphate of lime. It is a [illegible] fertilizer, prepared by treating ground bones with sulphuric acid. Of course the stable and barn-yard manure must be relied upon chiefly for the garden, but if used in the spring must be well rotted.—*Indiana Farmer.*

THE BRITISH CORN TRADE.—The *Mark Lane Express*, in its review of the British corn trade for the past week says:—Vegetation has made little progress since last week's report in consequence of continued lowness of temperature Autumn-sown wheat is strong enough to withstand the cold, but barley and oats are suffering considerably. Thousands of acres in Essex have been sown with barley and other crops, the condition of the soil rendering it impossible to plant wheat. The backwardness of cereals, however, is not itself a cause for alarm, and the chances of disastrous frosts are daily becoming remote. There is little change in the local trade. Some cargoes off the coast, as well as some English wheat, have been taken for the continent, but the export demand has been mostly confined to these transactions, and France, Holland, and Belgium have been buying direct from New York, Odessa, and other shipping ports. The supplies of foreign wheat, lately, have been inconsiderable, but with the opening of navigation at St. Petersburg we may expect an increase, although it is probable earlier shipments there will run mainly for Germany, which has bought a considerable quantity since. Maize has been freely taken for forward shipment, at moderate prices tempting buyers.

CANADIAN THISTLE.—A writer in an American exchange says: "If I had a farm covered with Canadian thistles, I should plant as much as I could with corn; I should thoroughly work my corn. Occasionally a thistle would dodge the cultivator, should be grubbed out, a foot deep, with a good, long shank-grub hoe. Do this for two years, and the Canada thistle will be dead. To work the fallows I should plough deep, and harrow, then would have a shovel ploughshare made three feet wide, with a loop through the middle just right to slip over the point of any common ploughshare. With such a plough one can plough five acres per day; don't need to be ploughed more than four inches deep, and just as often as a thistle can be found appearing in sight, I should run my plough through the fallow. Of course this cannot be done where there are stumps or rocks, but thoroughly cultivate land in this way two years in succession, and the Canada thistle cannot stand it."

SIMPLE RECIPE FOR PRESERVING EGGS. Pack them, during the summer and fall for winter. Take a stone crock or [illegible] and put in a layer of salt, then a layer of eggs—[illegible] an inch deep—insert your eggs on the small end, and cover each layer of eggs with [illegible] salt. [illegible] the eggs are fresh when packed, and put into a cool dry [illegible] they will keep perfectly good until the following summer.

A [illegible] of [illegible] has been built at the [illegible] of [illegible] new station on the Stony Creek Railroad. All "deadbeats" are requested to get off at this station.

HARNESS WORK.

[illegible] Horse Covers, Carriage and Sleigh Rugs, Whips, Curry Combs, Brushes and Trimmings kept constantly on hand at Robinson's Harness Shop, Dunbarton Block, Peterborough. Remember the place—opposite Dickson & Reid's Residence. All orders punctually attended to.

THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S

Before Taking. After Taking.

SPECIFIC MEDICINE

Cures all Private Diseases, such as Tremors, Debility, [illegible], which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits, and the Special Medicine is most especially recommended as an unfailing cure for Seminal Weakness, [illegible] Impotency, and all diseases that follow as a consequence of Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Sight, Premature Old Age, and many other diseases that lead to Insanity or Consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

Your Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money by addressing

WILLIAM GRAY & CO.,
Windsor, Ont.

Sold in Peterborough, A. W. Kempt, by Dr. Bell, and all Druggists. Sold in Lindsay, by E. Walton, and Mackenzie & Laymen, Toronto, wholesale Agents

THE PHYSICIANS' REMEDY

Rheumatism and other Remedy in the efficacy of which other British *Physicians* have certified, for the cure of

RHEUMATISM, NEURALGIA, GOUT, LUMBAGO, STIFFNESS IN LIMBS OR JOINTS, SPRAINS, FROSTBITES, CHILBLAINS, SORE THROAT, BITES, STINGS, WEAKNESS AFTER, &c. It has cured several of those Physicians and thousands of others in Canada, and is now rekommended on this Continent, as well as in Europe

The Only Reliable Remedy,

For all kinds of Rheumatic Affections. The fac-simile signa tures of Leading Physicians of Montreal, are on each bottle as a guarantee of its efficacy.

☞ *For sale by all Druggists at 50 cts and $1.00 per bottle.* ☜

CERTIFICATES OF PHYSICIANS —ARE— *ON EACH BOTTLE!!!!* and can be had also by applying to

CHARLES MARTIN, Montreal.

Sole Agent for Canada and the United States

One of the Testimonials!

From Dr DUNCAN MCCALLUM, Montreal—

I the undersigned have been suffering very much for the last two years from Rheumatism in the ankle joint, so much so that I was often prevented from attending to my calling, but three applications of Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and stiffness which I did not experience for the last two years, and after eight days' use of this remedy I find myself entirely cured

I owe this statement to the public, to the profession and to the merits of that genuine article

DUNCAN McCALLUM, M.D.

CURATIVE PROPERTIES PECULIAR TO VINEGAR BITTERS. the most wonderful Invigorant that ever sustained the sinking system.

Persons can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, *Coughs*, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can *only benefit but not harm it. If wanted* merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. In forms of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and lays the stage for offending or fatal diseases, without exciting a suspicion of its presence. Again, it seems so breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in due length, cure, by the use of this *SARSAPARILLA: Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other symptoms of visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pain in the Kidneys, Neuralgia*, and the various *Uterine* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when originating, as they often do, from the rankling poisons in the blood. The *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affecting symptoms of Nervousness, will find immediate relief and convincing evidence of its restorative power upon trial

Choice Poetry.

GROWING OLD.

Is it parting with the roundness
Of the smoothly moulded cheek?
Is it losing from the dimples
Half the dashing joy they speak?
Is it fading of the lustre
From the wavy golden hair?
Is it finding on the forehead
Graven lines of thought and care?

Is it dropping, as the rose-leaves
Drop their sweetness over-blown,
Household names that pass were dearer,
More familiar than our own.
Is it meeting on our pathway,
Faces strange and glances cold,
While the soul with mean and shiver,
Whispers sadly, "growing old."

Is it frowning at the folly
Of the ardent hopes of youth?
Is it cynic enshrouding,
At the rising of truth?
Is it disbelief in having,
British hate or mercy spurned?
Then such blights of nature's noblest
Is a "growing old" indeed.

But the silver thread the shineth
Whitely in the thinning tress,
And the pallor where the gloom was,
Need not tell of bitterness;
And the brow's more earnest writing
Where it once was marble fair,
May be but the spirit's tracing
Of the peace of answered prayer.

If the smile have gone in deeper,
And the tear more quickly start,
Both together meet in music
Low and tender in the heart;
And in others' joy and gladness,
When the life we find its own,
Surely angels lean to listen
To the sweetness of the tone.

Nothing lost of all we planted
Is the time of budding leaves;
Only some things bound in bundles
And set by—our precious sheaves.
Only treasure kept in safety
Out of reach and out of rust,
Till we clasp it, grown the richer
Through the glory of our trust.

On the gradual sloping pathway,
As the passing years decline,
Glances a golden love-light falling
Far from upper heights divine,
And the shadows from that brightness
Wrap them softly in their fold,
Who unto celestial whiteness
Walk, by way of "growing old."

THE CALEDON MURDER

Ward's Brutality to his Wife.

A SAD STORY.

The circumstances attending the murder of Mrs. Ward, of Caledon, by her husband, and his subsequent burning of the body, have been already published at length in the *Globe*. As he is now under sentence of death for the crime, the history of his former treatment of his wife and victim, as given in the Brampton *Times*, published in the town where his trial took place, will be of interest. It will be remembered that when the jury, after more than a day's deliberation, found a verdict of guilty, Ward, on being asked what he had to say why sentence of death should not be passed upon him, stated that from the evidence and the address of the Crown Counsel, he could not, had he been on the jury, have given any other verdict, but complained that one or two of his witnesses had not been called. Since his conviction he has not shown the least signs of insanity, and eats and sleeps well. Not half the atrocities of the convict to his wife were brought up at the trial, as natural enough witnesses in such cases do not generally tell any more than they are asked. One of the witnesses—an eye witness to his brutality—has since stated, that on one occasion, as Mrs. Ward was lying down, and complaining of not being well, he lifted her up and sat her on a chair, and then took her up by the shoulders and lifted her up and bumped her down again just as heavily as he possibly could, slapping her cheeks till they were red, and when she begged of him not to do so any more, he asked her to kiss him, and when she was about to do so he spit in her face. This is only one of the many cruelties she had to endure in about a four months' marriage. From facts obtained from her friends in Toronto, it appears that *three years* ago last September she came to this country to better her condition, through accounts she had heard of the high wages given here. While on her way across the Atlantic with some other emigrants three sovereigns that she had to pay her way to Toronto after landing were stolen by some emigrant from under her pillow, and she was left penniless. The captain of the ship, taking an interest in the girl, raised a subscription on board to pay her way as far as Montreal, at the same time giving her a letter of introduction to some of his friends there, among whom he thought she would likely get a place. Her murderer happened to be on board the same vessel on his return from England but had not become intimately acquainted with her until on their way from Quebec to Montreal. On arriving in Montreal he went with her to see the place the captain's letter directed her to but upon seeing the place she expressed her regret to Ward that she was not able to go to where her acquaintances were in Toronto. Ward at once offered to pay her fare to Toronto, and on their arrival there he went with her to Mrs. Bennett's, one of the witnesses at the trial, who stated that she knew her from her birth. Mr. Bennett on hearing of the circumstances, offered and wished to give Ward the money he had advanced to pay her fare from Montreal to Toronto, but Ward would not take it, nor did he up to the time of their marriage. The date of their arrival in Toronto was near or about the time that witnesses state he laboured under the delusion of being poisoned, and a few months afterwards he was confined in Brampton gaol as a lunatic. For nearly two years after that they did not see or hear from each other, until Ward's father and mother and himself met her in Toronto about eight or ten days before they were married. At this time Ward's father and mother invited the girl to go to their place on a visit; she consented, and a few days after they were married in Toronto, and from that very day until the day of her death she almost daily received blows from him in small fists or other, a great deal of it being of the most degrading kind. Her friends in Toronto, as also some of the first families of that city with whom this young girl, who was not 21 years old, lived, speak of her in the highest terms. They say she was kind, gentle, well-behaved and very intelligent. She left the monster two or three times for his brutality to her, but he would generally go to Toronto to find her out, and would make all sorts of promises to be kind to her if she would only return, but she would no sooner be back a short time before his treachery would again show itself, and she at last had arranged with him to part forever on the morning she was found dead. Her parents, who live in Southampton, England, were devotedly fond of her, and after she had been in this country about a year, and while she was living at Dr. Kennedy's, on John St., Toronto, she received a cable despatch from her father, who was then

PETERBOROUGH, JUNE 1, 1876

UNFAIRNESS.

The *Irish Canadian* complains that we misrepresented him in *our* remarks in reference to his Anti-Scotch tendencies, to which he has been giving expression for some time past. He says the terms used by him were called forth in reply to an editorial in the *Globe*, in which an attempt was made to glorify the Scotch at the expense of the Irish. Perhaps the strong Scotch tendency of the "Globe" did lead it to do injustice to Irish character and morality, and then the Editor of the "Irish Canadian" would be justified in defending the land of his birth, and the morality of his nation: but he cannot plead innocent to the charge that he has been endeavoring to create a feeling in the minds of his readers that they need not expect even fair play in the race for favor with Scotchmen. Nor can he plead innocent to the charge of using terms in reference to the dissatisfaction in Grace Church, as to the character of the Rector thereof which would be considered as applied to Protestantism in general, and Protestantism as manifested by Orangemen in particular. That the terms used would be understood by others as by us, and as applied to Canadian Protestantism we will leave all who have read the article referred to to judge. But even if applied in the restricted sense explained by our confrere he was not warranted in using those terms even to Protestantism in a restricted sense, as the acts of individuals can not and should not be used in condemnation of any is muniess it openly avows and teaches such conduct. Now as protestantism teaches its votaries "*to respect men for their works,*" it cannot be blamed for witholding respect where acts declare the person unworthy of respect. Protestantism does not teach that a man is a priest forever, unless that his life and conversation be in full accord with the priestly office, and when the latter is not the case in the opinion of those most intimately concerned, and the person still persists in retaining his office and emoluments, no matter how unworthy, it is not to be wondered at if words and acts be indulged in, not in full accord with the teachings of pure morality. All this may be regretted, but it ill becomes the "Canadian" to use bitter or harsh terms against a system because in an extreme case words and actions have not been tempered with grace. We are glad to find however that the terms "vulgar licentiousness" &c., were not applied to protestantism, but to the few persons who acted indiscreetly in Grace Church on a late occasion, and we are please to learn that our confrere is ready to admit that there is an enlightened protestantism with which he can sympathize. We would be sorry to do our contemporary a wrong, and hence we gladly give place to his defence, and trust that our drawing attention to this matter may be the means of moderating his language. No good comes out of denunciations of principles that are dear to protestants or to catholics. Such terms never convince any one of the error of his ways.

Every attempt to arouse creed against creed, or nationality against nationality ought to be avoided as injurious to the growth of Canadian patriotism, and the sooner all those feelings of clannishness or of national prejudices are confined to their native soil, the better will it be for our young Dominion. It is the blending of all that is good in Scotch, English and Irish character and morality, and burying the old world prejudices in Canada, that will make the Canadian people progressive, moral and happy.

FRIENDS OF MAMMON

The Chairman of the Street and Bridge Committee is determined to make friends for himself at the expense of the Corporation. On Monday morning he set three men, two boys and two horses and carts to work to cut up Murray street to make a garden for Mr. Burns who lives near him. The men he ordered to commence in a hole at the foot of a little knowle between Rubidge and Reid street. They set to work and made the hole several feet deeper than it ought to be. By this he thought to make the place so dangerous that the Council would be compelled to spend about $1,000 to make the place safe. Then this gardener had no authority to make gardens at the public expense. He had consulted neither Committee nor Council. He is dictator himself and can do as he wills. Mr. McClelland called this kind of conduct in question in the Council on Monday, and Mr. Rutherford in reply said he thought the chairman should have some latitude. Give Mr. Rutherford latitude and he will give the people taxes. Put a certain class of men on horse back and they will ride to Lockrow.

This cutting on Murray street is somewhat akin to his boring for oil on Dublin street in winter. He cut a hole on it about 24 feet long, 8 feet broad, and 3½ feet deep at an expense of not less than $200. He didn't strike oil, and quit, but he thought to compel the Council thereby to carry out his ideas, but then body could not see an Councillor Rutherford did. The Mayor has already fined the town at 16 to 25 millions the dollar, but if the Chairman of the Committee gets mistake, a mill or two may be added.

The Council made a movement on Monday evening to do away with this Committee, and the motion was carried. It is to be hoped that the matter will see that it is done.

DOMINION DAY.

Grand Temperance Demonstration in Peterboro.

THE HON NEAL DOW, THE GREAT MAINE LAW CHAMPION IS ENGAGED TO BE PRESENT AND DELIVER AN ORATION.

MR. KNOWLTON OF LONDON, AND MR. T. M MCNAUGHTON OF COBOURG WILL ALSO ADDRESS THE ASSEMBLAGE.

TEMPERANCE FRIENDS FROM LINDSAY, PORT HOPE, COBOURG AND THE SURROUNDING DISTRICTS WILL BE PRESENT TO TAKE PART IN THE DEMONSTRATION.

The Agricultural Grounds and Drill Shed have been engaged for the occasion, and hence there will be ample accommodation for an immense gathering, and protection from either heat or rain.

Refreshments will be provided on the grounds at moderate rates as the confectioners have kindly consented to erect stalls and provide refreshments.

The Temperance people of this County should not fail to do do all in their power to make this demonstration a success.

The Hon. Neal Dow is an eloquent and effective speaker. It will be worth all the trouble to hear him alone.

The Committee are doing everything in their power for the comfort and pleasure of all who may come out on the occasion.

The day will be a holiday, and thus afford an excellent opportunity for enjoyment and information on this now all engrossing subject.

The admission is placed at 10 cents, and is so low that it will barely meet expenses, no matter how great a number may attend it.

Let our Temperance friends talk this matter up till Dominion Day, so that Peterboro may be able to boast afterwards of a grand Temperance Demonstration.

EVERYTHING in the Gentlemen's Furnishing are new at T. DOLAN & Co's. 21-tf

TOWN COUNCIL.

The Council met on Monday evening.

Present—the Mayor, and Councillors Dixon, McClelland, Paterson, Hopkins, Taylor, Cook, Elliott, Thornton, Cahill, Rutherford, Haggart and Taylor.

The minutes of the previous meeting were read over and confirmed.

COMMUNICATIONS.

From Rev. V. Clementi, asking on behalf of the Little Lake Cemetery Co'y to have the road to the Cemetery repaired as it was in a dangerous condition and would only cost about $10.

From N. Cole, giving notice to the Council that he would not again ask them for the amount due him for taking care of the late F. H. Knapp, as his brother had sent over a sum of money to pay for his keeping, and it was placed to the credit of the town.

From J. W. Dinwoodie, Reeve of the Village of Campbellford, stating that a deputation from that village would visit Peterboro on Wednesday afternoon to have a trial of the Fire Engine which this town had to dispose of.

From John Millar, asking for a bonus of $5,000 to start a manufacturing establishment for the manufacture of a Patent Lock Stich Sewing Machine. He engages to employ from 60 to 75 hands, at a cost about of $25,000 to commence the business.

To the Mayor and Town Council of the Town of Peterborough.

GENTLEMEN,—Having recently obtained a patent for the manufacture and sale in the Dominion of Canada, of a WAX Thread Sewing Machine, upon the Lock Stitch Principle, being the only patent for such a machine in existence, and intending to patent the same in Europe. I purpose establishing a factory for the manufacturing of such machine in the Town of Peterborough, should sufficient encouragement by way of Municipal Bonus be offered to warrant the investment here of the necessary capital.

To put in operation and to provide the essential power, machinery and appliances for a factory of this kind, and of the capacity to employ from 60 to 75 hands would necessitate a cash capital of from 22,000 to $25,000, provided suitable premises for the same could be obtained upon leasehold, should it not be possible to obtain suitable premises upon leasehold the requisite cash capital would be necessarily increased by the amount of the cost of lands and building.

Should I meet with sufficient encouragement to warrant me in commencing the enterprise in this Town, it will be prosecuted without delay so that the factory may be in working order within a period of about six months.

I therefore respectfully request your honorable body to submit to the consideration of the ratepayers of the Town a By-law proposing to aid in the proposed work, by granting a bonus of the sum of $5000 upon the terms and conditions following :—

1. The amount to be payable in debentures of the Town of Peterborough at par when the said proposed factory shall be in full working order, with all the power machinery, and appliances requisite, and in the employment of not less than 50 hands.

2. The debentures to be handed over when the said proposed factory shall be in full working order, with all the power machinery, and appliances requisite, and in the employment of not less than 50 hands.

3. Such reasonable conditions as may be determined upon by way of security for the continuance of the proposed factory in the town and the continuance of its capacity as above indicated.

4. Such other conditions as your honorable body may reasonably require I shall be ready at any and all times to afford to your honorable body or to any committee that may be appointed in that respect, all possible information, as to the merits of the machine, it is proposed to manufacture and the probable extent of the demand for the same and such other information as may be brought desirable.

I would be very glad to have the determination of your honorable body on the request hereby made as soon as it may be convenient, in view of the fact that I desire to have a factory of the kind indicated in operation during the present season. I have the honor, &c.,

JOHN MILLER.

From John Greene, asking the council to have the water-table in the English Settlement fixed so that it would not carry away the earth from around his house, as it was, his place was not easy of access on account of the water and mud.

From John B. Belcher, Chief Engineer, reporting that the tower was not of sufficient strength in its present state for the fire alarm that had lately been placed there, and also that the hammer for striking the alarm was too heavy, it being 25 lbs., and during a severe frost in winter it would be likely to break the bell.

From W G. Thomson and 95 others, asking that the town have some regular adopted system of watering the streets, or giving the contract to some efficient person for 3 years at a time; as it was no person would go to the trouble and expense of putting up a right website for the purpose of watering the streets as they thought perhaps have the contract for one year at a time; also that the streets had not been watered before early enough in the season nor were they sprinkled till the dust had been done away with in the fall, and praying for the council to take some steps to have the work done right, as the merchants are in a great loss by their goods being damaged by the dust.

Accounts were received from Gas Co'y for $21.60 for fixing gaslers, and from W. H. Robertson printing, $15.65

DISPOSALS.

The accounts were referred to the Finance Committee : J. Miller's referred to Finance Committee to report at next meeting ; John E. Belcher's referred to *Fire* Committee to report ; John Green's referred to the Street and Bridge Committee ; Rev. V. Clementi's referred to Street and Bridge Committee with power to act ; J. W. Dinwoodie's received, J. Cole's referred to Charity Committee.

FITTING UP GARDENS.

Mr. McClelland asked for information as to the chairman of the Street and Bridge Committee spending public money in the fitting up of a private garden, and taking the dirt off Murray Street to a depth of 10 feet, which would eventually have to be replaced if the town went to open the street.

Mr. Rutherford said that the great flood on McDonald Street had stopped the passage through the water table, and the water was forced through the garden of a poor man washing the earth entirely off one corner and leaving some vegetables that had only been planted there the day before here, and that the Mayor and himself had thought it better to have the soil replaced as he could come on the town for damages on account of not having sufficient water tabling to carry away water.

Mr. McClelland said that it had been the custom for parties to apply to the council for anything that they wanted, and let them deal with it. It was quite competent for him to do so the next day if he wished. This was not the first time that he had to call the attention of the council to the way the chairman of the Street and Bridge committee was expending the money of the ratepayers without consulting the members of the Street and Bridge Committee, and if this sort of thing was to go on there was no knowing where it would stop, he was continually spending money without the other members of the committee knowing anything about it.

Mr. Haggart then rose to speak but the Mayor would not allow him as he contended that there was no motion before the chair, to which some of the councillors held that there was.

STREET AND BRIDGE COMMITTEE REPORT.

Mr. Rutherford as chairman of the Street and Bridge Committee read over the following report, which, on motion, was received and adopted.

The Committee appointed to consider the application of Messrs. Croly & Curtis for a surrender of their contract for the construction of the eastern approach to the bridge, beg to report that they have had the matter under consideration and recommend that the request be not granted, but that the Contractors be requested to remove the work forthwith, on the terms contained therein.

All of which is respectfully submitted.

A. RUTHERFORD,
May 29th, 1876. Chairman.

Received and adopted.

FIRE REPORT.

Mr Paterson chairman of the Fire Committee reported, recommending that the number of men in the fire company be reduced, and that they receive a larger remuneration for their services than heretofore.

On motion the council went into committee of the whole, Mr. Cahill in the chair, when the following passed through its several readings :

That the number of men for the hose and engine company be reduced from 56 to 20, and receive a sum of $15 per year, and that the number of men for the hook and ladder company be 10, and that they receive the sum of $13 per annum, with the usual reduction of statute labour.—That any member of the company who is absent from a fire or who is present and not working shall be fined the sum of 75 cents, or give a sufficient excuse for the non-performance of the work. The fine to go to the general funds of the comp'y.

Mr. Irwin was heard as to whether he thought that 30 men would be a sufficient force to work the company. He said he was under the impression that if the men were picked from the centre of the town that they might do it. However the members of the company thought that they could, and they were going to give it a trial.

Mr. Hopkins opposed the By-law, as it was his opinion that 30 men was not a sufficient force in case of a large fire taking place.

Mr. McClelland was in favor of reducing the staff from 60 to 30 men, as it was a larger proportion with the engine than 60 was with the old engine, for there were always a number of the firemen pumping on the old one, together with some of the citizens.

The By law was filled in with the above figures and passed.

Moved by Mr. Rutherford, seconded by Mr. Elliott,—That the Street Inspector be instructed to have the gravel drawn away from the Methodist Church and placed on McDonald Street between Bethune and Aylmer Streets, provided the trustees of said church have the gravel filled into the carts.—Carried.

Moved by Mr. McClelland, seconded by Mr. Paterson.—That the Clerk be instructed to ask for tenders for watering the streets as soon as the petition presented shall have been signed by the required number to justify the levy of a special rate, and that the tenders when received be referred to a special committee composed of Messrs. McClelland, Dixon and Haggart, with authority to award the contract.

Mr. Dixon said he did not see why the merchants should have to pay the tax for watering the streets while the ratepayers receive a benefit from it as well as the merchants.

THE MCDONALD CASE.

Mr. Paterson said that nothing had been done as to the removal of the young man McDonald. Mr. Doherty was here and wished to say something on the case.

Mr. Doherty said he wished the council could get him sent to the hospital as soon as possible before the warm weather came on.

Mr. Cook said that the Charity Committee had sent a Doctor there but the family preferred some other Doctor and sent for him and therefore took the matter out of the Charity Committee's hands; the young man had some wealthy uncles in the country and they might perhaps do something for him.

Mr. McClelland said that he wished Mr. Loch to be heard as he had gone to work and pulled down a stone building on George street to erect a brick one instead, and that he also had pulled down a wooden stable in the rear of it to build a one story brick instead, and when about completed, Mr. Beavis informed him that he would have to erect it in conformity with the fire By-law, which would deprive him of the light in his back shop, and he thought no reasonable objection could be taken to the brick building after his pulling down the wooden one.

Mr. Loch said that if he had known that there was such a By law in existence he would not have pulled down the wooden structure but would have let it remain as it was. If I am compelled to build up my back building it would deprive me of the light in the workshop where my hands work. As it was a great improvement to the lane one he looked to the Council to give him the benefit of the mistake and allow the building to remain as it is.

Mr. Haggart wished to know what was before the chair as there was no motion in writing.

Mr. McClelland said that Mr. Haggart was pretty sharp to-night.

Moved by Mr. Haggart, seconded by Mr. Paterson—That the Fire Committee be authorized to sell the old fire hose cart now in the hall of hose No. 2 company, and those the said committee deem the defunction from Central Hose and complete the sale if possible.

Mr. Dixon took objections to the motion, he thought that if the engine was worth $600 to any other town it was worth $600 to Peterboro. what was the town to do in case the steam fire engine gave out at a large fire ? which was not an unusual thing in other towns.

Mr. Patterson said to do as they had done before, use the pails.

Mr. Elliot was in favor of having the engine sold and spending the money in pails and thus form a bucket company.

Mr. McClelland said that it would be as well for them to spend the whole of it in Babcock fire engines and spread them around the outskirts of the town.

Mr. Rutherford asked how high would the engine throw.

The Mayor said as high as you could go up a ladder.

The motion was then put and carried on the following division :

YEAS—McClelland, Patterson, Hopkins Haggart, Taylor, Letherford, Cook and Elliott. NAYS—Dixon and Cahill.

REPAIRING.

Moved by Mr. Haggart, seconded by Mr. Hopkins—That the furnishing committee be authorised to have the safe in the Clerk's office fitted up at once:—Carried.

Moved by Mr. Rutherford, seconded by Mr. Elliott—That the street Inspector be instructed to have the bridge on Hunter street at once attended to.

Mr. Haggart said that the chairman of the street and bridge committee was going around spending the money of the ratepayers, doing things that were not necessary and without the knowledge of the other members of the street and bridge committee. That there had been $6,000 appropriated for the streets and bridges this year, and before the year was out it would cost the town $10,000, as the chairman was going about ordering things to be done that was not in the report at all.

Mr. Cahill said that he was a member of the street and bridge committee and he did not know where the money was going to, he said that if parties came to him and asked what was being done with our money, what could he say, and him a member of the committee, surely they would think that he was paying no attention to the business at all. The chairman had given orders to fill up a lot in the upper part of the town and he knew nothing about it. If Mr. Rutherford was going to spend the money of the town this way, without us knowing anything about it, why let him do it, only I will resign from the committee. If I am appointed a member of a committee I want to know what is going on and where the money is being expended.

Mr. McClelland said that the night the fire engine stood on the bridge he was waiting every minute to see it go down ; that there had been money expended on the street to make it passable which made it impassable, and if any accident happened the town would be responsible for it.

The motion was then put and carried.

Moved by Mr. Paterson, seconded by Mr. Elliott,—That as Downey Street has suffered considerable damages from the late rain storms and will require some repairs to be done, be it therefore resolved that the Town Engineer examine said street and report what will be necessary to repair the damage and prevent any further damage being done.—Carried.

VOTE OF CENSURE ON MR. RUTHERFORD.

Moved by Mr. McClelland, seconded by Mr, Cook,—That this council cannot endorse the action taken by the chairman of Streets and Bridges in expending the moneys of the town without the authority and sanction of the council.

After considerable high words had been passed in which Mr. Rutherford was accused of spending money without authority, and he all the time preaching economy, Mr. McClelland withdrew his motion.

Moved by Mr. Haggart, seconded by Mr. Hopkins,—That no work be done on Streets and Bridges without having been passed by the council, and that the Street and Bridge Committee be done away with.

This motion was declared lost by the Mayor, but 6 councillors out of 10 voted for it. The following is the division :

YEAS—Messrs. Cook, Hopkins, Haggart, Paterson, McClelland and Dixon.

NAYS—Messrs. Rutherford, Taylor, Elliott, and Cahill.

On motion of Mr. Rutherford, a By-law to amend the Building By-law was read a first time.

SURVEY OF STREETS.

Moved by Mr. Cahill, seconded by Mr Taylor,—That the Town Engineer be requested to make a survey of Sherbrooke and Lake Streets with a view of making drains on said Streets as provided for in the report of the Street and Bridge Committee.—Carried

EXTENDING GEORGE STREET.

Moved by Mr. Cahill, seconded by Mr. Taylor,—That Messrs. Haggart, Elliott, McClelland, and Dixon be a special committee to ascertain the cost of extending George and Aylmer Streets south to the boundary, and that they report to this council.—Carried

The council adjourned for two weeks.

POST HOPE.

FATAL ACCIDENTS.—Yesterday afternoon two sons of Capt. Rich'd Clarke and a lad named Stevenson, went out into the Lake in a small sail boat, and the wind coming up strong, the boat was upset. The elder Clark stuck to the boat, while the youngers one and the lad Stevenson attempted to swim to the shore. The boy Stevenson was rescued in a drowning condition, but poor Frank Clarke, becoming exhausted, sank within a few rods of the shore and was drowned. His body was recovered in about an hour and a half afterwards. Deceased was in the fifteenth year of his age, and was one of the lads who had experienced religion at the recent revival services in the Methodist Church. We remember his expression at the prayer meeting at the close of last Sunday's service, when, in such a manly tone, he said, "The Lord is my Shepherd," and little did we then think it would be the last time we would hear his testimony of Jesus. It is still another warning. "Be ye also ready, for in a day or an hour as ye think not, the Son of Man cometh."—*Times*

CAMPBELLFORD.

DEATH BY POISONING.—We have this week to chronicle the sad death, by poisoning, of Mrs. Wm. Locke, an old and respected resident of Seymour township. On Friday morning last, about seven o'clock, Mrs. Locke, feeling unwell, prescribed some medicine for herself, during the absence of the other members of the family, but by some means partook of a large quantity of Paris green which she found in the house. Immediately after swallowing the dose, she was taken sick, commenced vomiting, and convulsions set in, and in the state she continued until death ended her sufferings a short time afterwards. Dr. Bogart was summoned, and arrived about an hour and a half after the poison had been taken, but it had done its work, and her case was beyond the control of human skill. She was 71 years of age. Her funeral, which was largely attended, took place on Sunday afternoon last.—*Campbellford Herald.*

BETHANY.

The corner stone of a new Episcopal church was laid here on the Queens Birthday by J. K. Kerr, Toronto, Grand Master of the Grand Lodge of Canada, A. F. and A. M. There was a large gathering of Masons from Peterboro, Lindsay, Millbrook, Port Hope, and other parts of Ontario district. Mr. Kerr delivered an eloquent address, which, although spoken from the immense crowd distinctly. The proceedings were accompanied with singing by the Sunday school children, and music by the Lindsay band. After the ceremony adjournment was made to the dinner table, Rev. Mr. Thompson, T. W. Allen, R. H. Hunter, and many other gentlemen addressed the meeting on the occasion. A vote of thanks was also given to the Masonic body for laying the corner stone.

LINDSAY.

A YOUNG LADY DROWNED.—A melancholy accident happened here on the 20th Inst., by which a young lady, Miss E. Ryley, lost her life by drowning. It appears that Mr. Robert Bell, hotel-keeper, and his wife, Mr. Arnott, a carpenter, Miss Ryley, and another young lady went on the River Scugog in a skiff, and the current being very strong they were carried against the end of a scow which caused their boat to upset. The party had not been out more than five minutes when the accident occurred. By assistance from the shore the other four were saved. The body of Miss Ryley has not yet been recovered.

THE GRAND JUNCTION.—Mr. W. Shanly, the gentleman who has promised on certain conditions to complete the construction of the Grand Junction Railway to Peterboro, is now making a preliminary survey so as to secure the cheapest and most practicable route.

KILLED BY A FALLING TREE.—On the 15th inst., an old man named Wm. Goodenough, left his son-in-laws house in the afternoon to chop wood, near Bolengeon, and was found dead when they went to call him to tea, with a tree he had just felled lying on him. The tree appears to have struck another tree and then to have fallen on him

REMOVAL OF THE DEAD.—On Monday last, about midday, there passed through Kent street a waggon load of coffins with their contents. They were piled up two or three tiers high, and on the top sat the driver smoking his pipe as unconcernedly as though he were conveying a load of merchandize to its destination instead of the remains of his fellow-mortals. The teamster with his load was on his way to the Riverside Cemetery The coffins had been raised from the old burying ground in accordance with the design of the School Board to occupy that ground for school purposes. We feel disposed to question the propriety of isolating Kent street, the principal thoroughfare of the town, as a portion of the route to the cemetery. A little consideration for the nerves of delicate persons would have suggested the need of a cloth of some kind being thrown over the coffins.

WHISKEY STEALERS PUNISHED.—Last week, four tramps named John MaDonald, John O'Neill, James Kenney and Donald Campbell were arrested at Lorneville for stealing two bottles of rye and a bottle of brandy from McIntyre's tavern at that place. They were committed to Kingston gaol, and on Tuesday last tried before Judge Dean at interim session. McDonald, O'Neill and Kenney were each sentenced to one month in gaol with hard labour, and Campbell was let off with a lecture.

SUNDAY SCHOOL JUBILEE.—The Union Sunday School Jubilee in the Methodist Church, on the Queen's Birthday, was a very pleasant and successful affair, though the audience was not as large as the entertainment deserved. The chair was occupied by Judge Deane, who discharged his duties in his usual manner. An excellent programme was well carried out, the Sunday School children under the direction of Mr. Lasher singing effectively and in good time. Miss Wright and Mr. Lasher gave a couple of solos, and Mrs. Roberts presided at the organ. Rev. Mr. Prosser delivered an admirable address on "The Power of Little Things." Those interested in the Jubilee have decided to give another next Thursday evening when an equally good programme will be presented, and many who were spending their holiday in other ways will have an opportunity of attending.

COBOURG.

ALMOST A FIRE.—Cobourg had a narrow escape from a serious fire on Sunday morning. About four o'clock the alarm was given, when fire was seen in the front window of Mr. Sailsburry's book store, as if coming from the cellar beneath. Assistance was soon on hand, and the flames were quenched before much damage had been done. It is supposed that during the heavy storm which prevailed, the lightning communicated with a gas pipe from the telegraph wire, and having melted the pipe set fire to the gas.

THE LATE ACCIDENT.—We deeply regret to record a very painful and fatal accident, which occurring on the morning of the 26th cast a damper on the joys of the day. It appears that a Miss Ellen Sharpe, of Hastings, who had been in the employment of Mr, Angus M'Donnell, and who had never been in Cobourg in her life, had visited some friends in Baltimore by the name of Shillington, and accompanied them to town there being in the carriage young Shillington; his sister and Miss Sharpe. When they neared the G. T. R. crossing on Division street, but were yet some distance from it, the front bolt of the whipple trees dropped out and the tongue fell, and frightened the horses. The lad tried to draw them to one side, but the horses shied in a contrary direction, and seeing trouble, the girl Shillington jumped out and was unharmed. The lad soon after fell out forward and the vehicle passed over him, and the young woman Sharp did not quit the buggy till the horses were going at full speed, when she jumped, but fell on her head, and her neck was broken. This was nearly opposite the residence of Mr. C. M'Kechnie, and she was taken into his residence, but expired there in about 10 minutes. An inquest was held by Coroner Mason, and a verdict rendered in accordance with the facts.—*Sentinal.*

A NARROW ESCAPE.—On Saturday afternoon a son of Mr. P. Duffy in throwing a pitchfork into a shed door, struck a son of Mr. W. Wall, whom he did not see but who was coming out of the door, the tine entering the head quite close to the eye. The little boy received quite a dangerous wound, but at present is doing well. He came within an inch or two, however, of losing his life.

KILLED ON THE TRACK.—The express train going west on Saturday evening last, when near Colborne, ran over a man named Merrikle, completely severing his head from his body. The deceased was a man of intemperate habit, and was probably under the influence of liquor at the time of his death.

FIRST ARRIVALS.—The Arlington has already received a batch of summer visitors, Captain Creighton and his family from Newport, R. I., having arrived and taken quarters for the summer.

There were onlwten citizens outside the Royal Canadian Yacht Club in the City of Toronto who contributed towards the building fund of the Countess of Dufferin.—This's a bloodied city for you.

DEATH IN GOAL.—We regret to note that two men died in gaol this week, the 24th May. Joseph Debeau was committed by Mr. Holland of Port Hope, in the last stages of consumption. The inquest held by Mr. Mason passed severe resolutions condemning the action of the police magistrate, and the case we hear has been represented by the Inspector to the Attorney General. The other case was that of James A. Lawrence, a servant of Mr. Sargent, of Haldimand, who was committed as insane, but in the opinion of the gaol surgeon was not insane was suffering from acute disease of the brain, to which he rapidly succumbed. He was committed by Messrs. Doolittle and Greenwood, who deserve severe censure for committing the helpless sick to the cold hospitalities of the common gaol. The officers of the gaol rendered the poor sufferers every kind attention, but it was no late to help them; death had nearly finished its work before their incarceration.

SHADE TREES.—The wise provision made for the planting of trees in the following extract, from the New York *Tribune*, is worthy of imitation in this country, where very few trees are seen along the country roads :—

"The law in New York making provision for planting shade trees along the highway is as follows : Any inhabitant liable to highway tax who shall transplant by the side of the public highway any forest shade trees or fruit trees of suitable size, shall be allowed by the commissioners of highways, in abatement of his highway tax, 25 for every four trees set out ; but no row of elms shall be placed nearer than 70 feet, no row of maples or other forest trees nearer than 50 feet, except where which may be cut 30 feet apart ; no fruit trees must also be set at least 30 feet apart, and no shrubbery or trees of any kind shall be made, upon penalty of $5 for every tree set out, to be deducted from highway taxes, if the owner of the land shall remove any tree planted as aforesaid, or any fence erected to protect the same, without the consent of the commissioners of highways, or shall prune any branches of such trees, except such as shall be necessary to admit the passage of carriages on the highway, or shall cut down any trees in front of his premises, without the consent of the commissioners of highways, or shall neglect to replace any tree which may have died within two years after the same shall have been planted, he shall forfeit the sum of $5 for each tree, to be deducted from his highway taxes."

The Peterboro and Bobcaygeon Gravel Road.

To the Editor of the Examiner.

SIR,—I am sorry to see this matter treated as it has been by the *Independent*. What I wished was, viz, to have it discussed upon its merits. We can do no good to make use of recriminations and recriminations by the people and papers of our own place against those of the other, and I think the question is deserving of a better fate. I will not enter into any discussion of bygones as to railroad matters because it can do no good and can in no wise favor my present object, which is to establish a clear relationship between us both, and to bring about as easily as possible a better feeling than at present appears to exist, judging by the remarks of the *Independent*, and I would fain hope that those remarks do not express the feelings of the good people that town. I don't think they have any good reason to attribute any blame to the people of this town for the delay in making a railway connection with Bobcaygeon, and perhaps the people of the latter place may remember that when we were nobly trying to construct a railway under the special charter which then existed for that purpose they were induced by the Belleville deputation and the Midland Railway Co'y to oppose it, and that they then refused to help us. I do not charge this as any fault against the people of Bobcaygeon and of Verulam as I suppose they did their best according to their judgment, acting upon the representations which were then made to them, and they made the very same mistake which we once made when the people of Port Hope offered to make their road to this town instead of to Lindsay, and which mistake cost us so much to rectify, after all the mischief was done. And I fancy that it is and will be the same with the people of Bobcaygeon. Lindsay and Toronto have tapped and are taking from them all their trade ; are fast destroying the further growth and prosperity of this rising town, and now, in this state of things their newspaper organ very humbly submits to kiss the hands that smites them and seems content to become a humble follower of Lindsay instead of looking about for some means of extrication from their difficulties. To become a mere hanger-on and feeder of Lindsay will not help to build up Bobcaygeon, and it will be a poor satisfaction to the people of the latter town to go still further away from Lake Ontario to do their business, instead of coming to Peterboro, and thus be so far on their way to the front and to the eastern markets. The people of Peterboro, I believe, are doing all they can to push through the Cobourg Railway to Bobcaygeon, but they cannot do impossibilities ; and I believe also that as soon as the times get better that road will be built through. In the mean time I would like to have a gravel road built, and even with the railway the gravel road will be found to be a necessity and of great benefit to all the people of the back country. I therefore once more invite the people of Bobcaygeon to give this matter their serious consideration and give all their aid and encouragement to this work and they will find that nothing will so much demonstrate the want of a railway as the construction and use of this Gravel Road.

Yours, &c.
PETERBORO'.

The Examiner.

PETERBOROUGH, JUNE 1, 1876.

LAKEFIELD.—The bonus affair has got into the *News* and will in all probability keep there a while.

FIRE IN THE WOODS.—It is reported that there is an extensive fire in the woods in the limits of the W. A. Scott estate.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH Spool.

MACRAE of Hamilton has been committed to take his trial for wife murder. He was drunk when he did the deed.—Both were given to strong drink.

P. B. C.—The regular monthly meeting of the Peterborough Boating Club will be held at the Boat House on Monday evening next, 5th inst., at 7.30 P.M

MUSIC IN THE PARK.—The Firemen's Band will commence their free promenade concerts on the Court House Green, to-morrow evening, June 2nd, at 7. 30 P.M

SERENADE.—The Firemen's Band surrounded Mr. John O'Donnell, L. D. S., at the Huffman House, on Tuesday evening, after his return from his wedding tour.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

CRICKET MATCH.—There will be a match played on the Cricket Ground Ashburnham, between the Port Hope and Peterborough Clubs, on Friday 9th inst., when good play may be looked for.

REMEMBER the drawing for the Gold Watch at P. D. Doran's Store will be at 10 o'clock, A. M., on Dominion Day, in order that parties holding tickets may have an opportunity of being present before going to Pic-Nics, &c.

GREAT CONFLAGRATION IN QUEBEC.—On Tuesday 1,000 houses and $1,000,000 worth of property were destroyed by fire, in the City of Quebec. The whole of the Mountain Ward to the fortifications is consumed. The fire originated on Scott Street.

CHINAMEN.—One thousand Chinamen lately landed in Sanfrancisco, notwithstanding the strong feeling against them. [illegible] only wise thing to do with them is to treat them as citizens and make them amenable to law and order.

DISSOLUTION.—The partnership heretofore existing between Rush, Rubidge & Co., has been dissolved, Mr. Rubidge retiring from the firm. The business will be carried on in future under the name and style of Rush & Elliott, who will keep on hand a choice stock of goods to be disposed of at reasonable prices.

MISSED HIS WAY.—On Monday evening a stranger offered twenty-five cents to get admittance to the Council Chamber while Councillor Rutherford was addressing the Council. He mistook the place for the theatre, and thought he was missing the fun, imagining the show was in full blast. The man must a' been daft.

BELLEVILLE.—A man named Thomas Manderson of Belleville, hung himself on Saturday night, in his bedroom. The body of the suicide was resting on the floor, from the hips down, the head being about 18 inches from the floor. A bottle partly filled with whiskey was found near the body, and accounts for the act to some extent.

DROWNED AT POINT HOPE.—On the Queen's Birthday a boy named Fred. R. Clarke was drowned by being upset from a boat, in which he and two others were taking a sail. A puff of wind caught the sail and caused the boat to fill with water. The other boys swam so as to be rescued by those on shore, but Fred. sank too far out to be relieved, until life was extinct.

COMMENCED BUSINESS.—Mr. Samuel White requests us to state that he has again commenced business in the Store lately occupied by Mr. E. W. Ernest, Stuness Street, where he will be glad to see his old friends and as many new ones as possible. Mr. White is well known in Peterboro' and vicinity, and from the character of the work heretofore made by him, and his determination to give complete satisfaction, he hopes to regain and retain his old custom.

AN UPSET.—One of those gentlemen whom the Town Council boarded and gave their tobacco and whiskey, was so drunk on Tuesday that he had to use his rake to maintain his equilibrium. The Council does not now pay for his whiskey but the Street Inspector employs him to keep the streets near the tavern doors cleaned and small stones removed. For this he is paid $2.00 a week; of this $2.50 pays his board and fifty cents gets whiskey enough to make him drunk now and then.

PETERBOROUGH FALLS.—Smith & Co'y of Peterboro Falls have suspended payment. This is said to be owing to their not being able to realize on their lumber, salaam at great loss. Their assets are in excess of their liabilities, and hence a little extension of time might enable them to resume business without loss to any one. The dull state of the lumber market for two or three seasons makes it critical for men who have hundreds of thousands of dollars invested without the possibility of realizing for some time.

GRAHAMS' PIC-NIC.—The Durham Division Grange will hold a Pic-nic at Port Hope, on the commodious grounds belonging to Col. Williams, on Friday, to-morrow, when it is expected a very large gathering will be present. The Hon. Victor H. Fiolet, lecturer of the Pennsylvania State Grange will deliver a lecture on Grange principles. Arrangements have been made with the Midland Railway to carry parties desirous of attending from stations along the line and return at a single fare.

BOARD OF TRADE. There will be a meeting of the merchants of this Town in the Council Chamber, this evening, at 8 o'clock, p.m. to form a Board of Trade for the Town, of which all concerned will take notice.

REMOVED.—Haggart & Brother have removed their Auction Rooms, to L. Lippett's old stand, next to Mr. Kempt's drug store, where they will continue their sales as before. Parties having goods to dispose of by auction would do well to give them a call, farmer's sales throughout the country will also be attended to at very reasonable rates guaranteeing satisfaction. Give them a trial and judge for yourselves.

TURKEY.—The Sultan has been dethroned, and his nephew, Murad Effendi, proclaimed. This was effected without any loss of life. The general opinion is that this will facilitate the settlement of the Eastern Question. The new Sultan has agreed to a permanent assembly of Notables; Abolition of the Seraglio, and a reduction of the civil list to 5,000,000 piastres. Both Christians and Mussalmans express satisfaction.

EXTENSIVE SALE OF FURNITURE, &c.—Haggart & Bro. will sell by public auction on Thursday June 8th, at the residence of John Moloney Esq., George Street, all his furniture consisting of parlor, dining room and kitchen furniture, carpeting, mirrors, pictures and silver ware. At the same time he will sell several thorough bred horses. The sale will be at two o'clock, and terms cash. Sale without reserve as Mr. Moloney is giving up housekeeping.

MOWING AND REAPING MACHINE SALE.—Those of our readers in want of a Mowing or Reaping Machine, will do well to remember the sale of the Peterboro' Manufacturing Company to take place on the Market Square next Tuesday forenoon. We understand that the Company have since their last sale disposed of quite a number of their machines by private sale, and that they have such an offer for the balance as renders it very unlikely that they will again offer them to the public, after Tuesday next.

CONFECTIONERY.—Messrs. James and Harry Long have bought out Mr. Wm. Kane's Confectionery, and are selling their stock at very low prices. They are prepared to furnish lunches, hot tea and coffee at all hours, and ask a share of public patronage. Their store is next to Nicholls & Halls old stand, at present T. Robinson & Co. The Messrs. Long will take great pleasure in affording all the comfort possible to their friends, and their prices will be found very low. Ice cream and other cooling drinks always ready.

WATERDOWN.—A Doctor Walker, dentist of Waterdown, near Hamilton, got into an altercation with his wife on Sunday morning last. She upbraided him with having another wife. He immediately took a pistol and fired two shots at her; both balls entered at her left side passed through the left breast and lodged in the front of the breast bone. She ran away shouting he had shot her. He then fired two balls into his own breast and instantly expired. A child about seven years old witnessed the strange freak. He must have been drunk, although this is not reported.

TO FISHERMEN.—The Fishery Inspector, Mr. Geo. Cockrane, of Lakefield, has permits only on the following conditions: 1st—Anything in the inland waters of the County of Peterboro to be allowed solely for pleasure and under permits. 2nd—Permits for this privilege to be issued to a foreigner is to be exacted on delivery, and $1 per day on any number of days under five. Permits can be had by applying either personally or by letter to Mr. Cochrane, Lakefield P.O. No communications answered unless a stamped envelope is forwarded for reply.

A NEW ENTERPRISE.—The Town Council met last night to consider the advisability of granting a bonus to Mr. John Miller, to aid in commencing the manufacture of a new Sewing Machine in this town. The machine is for leather, and for using a waxed thread. It is also the only Lock-stitch machine of the kind yet invented. Mr. Miller promises to employ from 50 to 75 hands regularly, and asks nothing till the whole is in working order —See his letter in Council proceedings. The machine is considered by judges to be an excellent one, and as Mr. Millar has the patent, the works would be permanent. The sum asked for is small, but the people will be judges. The Council will submit the By law,

STEP BY STEP.—This is the title of a little Temperance Story in poetry, by Mrs. Muchall It is intended to paint more vividly than prose will, the growing influence of the first glass, and the dire results of frequenting the tavern, ending in poverty, wretchedness, sorrow and death. The book is neatly printed, and as Mrs. Muchall is her own agent she will call on the citizens of Peterboro this week. $5 are spent in purchasing this book will be a favor to her, and will also aid to some extent in encouraging the object of the book—the suppression of a habit that is ruining tens of thousands of young hearts who silently bear the evil, until death releases them. We cordially recommend "Step by Step" to our readers.

S. S. OPENING.—The basement of the New Methodist Church, George Street, which has been fitted up in a very commodious manner, and in a style corresponding with the main building, will be formerly opened for S. S. purposes on Sunday 11th Inst. The sermon in the morning will be preached by the Rev. Mr Brecken. Chairman of the Barrie District, in the afternoon addresses will be delivered by Rev. Geo. Young, returned Missionary from Manitoba, Rev. Chas. Fish and others Rev. Enoch Wood, President of the Conference, will occupy the chair. The opening service will be conducted by Rev. Wm. Briggs, Chairman of the Belleville District. On the following evening, (Monday 12th June) a public Soiree will be given, proceeds in aid of the building fund. Music furnished by the choir.

CENTENNIAL CHRISTIAN HOMES.—The great number of visitors in Philadelphia, during the Centennial Exhibition, necessitates the opening of private homes for board and lodging. Many Christian families, who are unwilling to open their doors to a promiscuous public, have arranged a plan by which they give admission to Christians and their friends. This will be equally pleasant to Christian people abroad who may not wish to be associated with the great variety of characters brought together in hotels and public boarding-houses. In order to have this select class the rates of board is generally much lower than prevails by other arrangements, varying from $5 to $14 a week, and from $1 to $2.50 per day. Each family fixes its own price, and receives its pay direct from its guest. Those wishing to secure places under this arrangement will please write as long beforehand as possible to the Office for Centennial Christian Homes, Care of Rev. Edwin M. Long, S. E. cor, 12th and Berks Sts., Phila., Pa.

THE MECHANICS' INSTITUTE.

The annual meeting of the Peterboro Mechanics' Institute was held in their rooms on Monday evening, May 15th, Mr. R. Robertson President, in the chair.

The minutes of the last quarterly meeting were read and were confirmed after some discussion as to the resolution raising the subscription to $2. some members maintaining that it was only a notice of motion

The Secretary read the Directors report, as follows:

REPORT OF THE BOARD OF DIRECTORS FOR THE YEAR ENDING MAY, 1876

Another year having come to a close, your Directors, before resigning the trust confided to them beg leave to report:

That taking the great depression in all kinds of trade into consideration, the year passed over without much falling off in the numbers of our membership, though we have felt it a little in that direction, mostly all of which may be mainly attributed to neglect of canvassing for payment of fees from the members who had been on the roll for the previous year.

The members on the roll for the year now ended is 343, against 370 the previous year. 105 names have been dropped from the roll owing to non-payment of fees for the year now closed, a great number of whom might have been good active members if they had only been called for their fees We find then 6 new names have been added to the Mechanics' all constituted, and with this addition our loss of members is only 36.

The Directors for the coming year may, by placing the claims of the Institute before the public in a much more striking manner than has been done in the past years, be able to make a large addition to the membership and bring it up to what has been the wish of its friends since its first organization, that is, to a self-sustaining institute.

The circulation of the books has been very large. The Librarian's books show a total of 4,230 volumes lent out during the year, making an average of over 17 volumes for each member, &c, on our roll.

The usual careful selection of books added to the library through the year has been made and highly appreciated by all who have had access to it, and the Directors cannot let this opportunity pass without returning their hearty thanks to the Library Committee for their unremitting care and attention in catering so well to suit the tastes of the reading public. The number of volumes purchased being 257, at the cost of $327.63, the total number of volumes in the library being 1865, amounting to $2,877.26. About 100 volumes have been rebound and along with the school library, which has been incorporated with our own, we have a grand total of upwards of 2,000 volumes in the library.

The reading room has been regularly supplied with the usual popular papers, magazines and periodicals, and has become quite a favorite resort of the members who have a desire to store their minds with the improvements of the day in mechanics and manufactures, as well as with the current events over the world.

Evening classes have been conducted very effectively during the winter half year in the following branches, viz: arithmetic, mechanical drawing and practical mechanics, and in book-keeping. $36 were paid in by the pupils. The teacher's salaries amounted to $190, the total expenditure to about $230, leaving the sum of $194 to be paid from the funds of the Institute. The pupils have been regular in their attendance and must have gained a great amount of information, judging from the excellent work shown by them at the examination at the close of the course, when Messrs. Andrew McFarlane, Alfred Clark, and George Miller were awarded the three prizes given by the Ontario Association of Mechanics' Institutes for greatest general proficiency. The progress made by the pupils proves conclusively that the teachers, Messrs. Earle, Trout and Nesbitt have faithfully performed their duties.

The Treasurer's statement will explain the Financial position of the Institute and therefore it is unnecessary for us to enter into that matter.

[illegible] year of the existence of the Institute, your Directors feel proud to have to report that it is in a good way of working, and under improved circumstances, which they fondly think they see before it, there can be no doubt but that it will continue its good work and go on increasing in both usefulness and prosperity.

In the course of the year there has been given to the Institute for the furtherance of its object, by the executors and heirs of the late William Hall, the munificent sum of $500 which has been invested in the names of the Trustees appointed by the Institute for that purpose until the fitting time arrives when it may be expended to the best advantage to edit vance the purposes for which it was contributed.

As you are all aware a change in the constitution with regard to the amount to be paid as fees for members and subscribers has been made, raising it to $2 a year and no additional entrance fee. A word of explanation may be thought necessary on that head.

A number of people in the town and vicinity have complained of the difficulty of getting books out of the library on account of not being able to get them only on two nights of the week as at present, stating that if an arrangement could be made by which they could get them out at regular stated hours on any week day or night, a large increase would be made to the membership.

This, as you must know, would imply increased accommodation in our rooms, as well as increased expenditure, for in that case no librarian could give his time for nothing, as our present one has done, therefore we would have to pay for one to attend all the time, and as our present fees would warrant no such outlay it became a necessity to advance the fees to $2 a year, a very small fee indeed for such privileges as our Institute can now afford, a library of upwards of two thousand volumes and increasing every year by some hundreds of volumes, an excellent reading room and as soon as possible splurged and more convenient rooms, giving improved facilities for carrying on evening classes, &c., and enabling your incoming Directors to make it a first-class institution.

All of which is respectfully submitted.

B. ROBERTSON, President.
WM. JOHNSTON, Secretary.

The Treasurer handed in the following abstract statement of receipts and expenditures, which, on motion, was handed to the Auditors, Messrs. E. Pearse and F. E. Bell.

TREASURER'S ABSTRACT STATEMENT.

1875. *Dr.*

May 27. Balance in Savings Bank	$20 27
Dominion Bank	231 05
Breakfast Classes, Evening Tea	26 00

	$1413 40

Examined and found correct.

EDG. PEARSE,
FRED. E. BELL, } Auditors

Peterborough, 22nd May, 1876.

The election of officers being then in order the President appointed Messrs W. H. Trout and Wm. Johnston as scrutineers.

The following officers were then duly elected, viz:

PRESIDENT—Mr. Robt. Robertson.

1st VICE-PRESIDENT—Mr. W. Johnston.

2nd VICE PRESIDENT—Mr. W. H. Trout.

TREASURER—Geo. B. Shaw.

DIRECTORS—Rev. Y. Clementi, and Messrs G. H. Regan, E. J. Tobin, H. B. Brereton, F. E. Bell, C. Easton, A. H. Delaney, W. J. Gage, Wm. Bracken, Jas. Hughes, W. McLean, A. Macpherson.

The President then presented the prizes awarded by the Association of Mechanics' Institutes, to the three pupils making the greatest general proficiency in the evening classes for the past winter, viz:

Andrew McFarlane	$10 00
Alfred R. Clark	5 00
George Miller	4 00

Mr. Pearse brought up the question of the annual fees for membership, and gave notice that he would move for the rescinding of a resolution passed at the last quarterly meeting, relative to the same. An alarm of fire occurring, the meeting adjourned until Monday, May 22nd, at eight o'clock.

According to adjournment, a meeting was held in the rooms of the Institute, on May 22nd, Mr. R. Robertson, President, in the chair.

The Auditors headed in their report, which on motion was received and adopted.

On motion, the thanks of the meeting were given to the Auditors for their very efficient services.

Moved by Mr. Pearse, seconded by Mr. McLean,—That this meeting reconsider the resolution passed at the last quarterly meeting.—Carried.

Moved by Mr. Pearse, seconded by Mr McLean,—That hereafter the fee for membership be one dollar and fifty cents for old members, leaving the fee for new members at two dollars, as heretofore.

Moved in amendment by Mr. Shaw, seconded by Mr. Wm. English.—That the membership fee remain at one dollar per annum for old members, and two dollars for new members, until such time as the Board of Directors consider it expedient that the fee shall be at the rate resolved at the last quarterly meeting, when the By-law was adopted regulating the fee at two dollars per annum and no entrance fee.—Carried.

The meeting then closed to be called together again at the regular quarterly meeting in August next.

WHICH SHALL I TAKE?

This is often a serious question with the invalid. He finds the market flooded with proprietary medicines, scores of which are recommended as certain cures for his peculiar ailment. He reads the papers, circulars, and testimonials, and finds each sustained by plausible arguments setting forth its virtues and specific action. The recommendations are as strong for one as for another. The cures claimed to have been wrought by one are as wonderful as those claimed to have been wrought by another. In this perplexity and doubt, the sufferer is sometimes led to reject all. But it should be borne in mind that this condition of things in one that cannot be remedied. In a land where all are free, the good—the truly valuable—must come into competition with the vile and worthless, and must be brought to public notice by the same instrumentality which is *advertising*. In such a case, perhaps the only absolute proof that a remedy is what it claims to be, is to try it. The "test of a pudding is the eating of it." "*Prove* all things, hold fast to which is good," is the apostolic injunction. There may, however, be stronger presumptive evidence in favor of one remedy than there is in favor of another, and this should be allowed its due weight. A due regard to this may save a vast amount of experimenting and a useless outlay of money. As presumptive evidence in favor of *Dr. Pierce's Family Medicines*, the Proprietor desires to say, that they are prepared by a new and scientific process by which the virtues of the curative plants and roots are extracted without the use of a particle or alcohol Not a particle of this destroyer of our race enters into the composition of either his Golden Medical Discovery of Favorite Prescription This consideration alone ought certainly to rank them high above the vile compounds saturated with alcohol, Jamaica, rum, sour beef, or vinegar, which are everywhere offered for sale Again, they are of uniform strength, and their virtues can never be impaired by age They are also made from fresh herbs and roots, gathered in their *appropriate seasons, when they are flush* with medicinal properties. In support of these claims the following testimony is offered:

A. V. PIERCE, M. D.: NEWARK, N. J.

Dear Sir,—I have sold a great deal of your excellent remedies, and I prefer to sell them before others, because they give good satisfaction to those who use them. I hear such remarks as "Sage's Remedy completely cured me; it is a splendid thing;" or, "Pierce's Discovery is just what I wanted; I feel better than I ever did," One of our celebrated singers uses it for strengthening her voice, and says "there is nothing equal to it," and so I might give scores of remarks said about you and preparations. A colored woman was using your Discovery, and after taking three bottles was completely cured. She, being in the store, said to me, "I don't want no doctors round me so long as I can get the Discovery; it beats all your doctors" *And so I might go on.*

I am, most respectfully, yours,
ATHA B. CROOKS.

Escape of the Young's at Cayuga

The two Young's under sentences of death for the murder of the man McDonald, on his way home from Hamilton, escaped from Cayuga jail.

On Sunday night the jailor went into the cell of the prisoner James He found everything apparently right, the manacles on the prisoner's legs seemingly secure. Lawrence proceeded to lock the shutters as usual, and while doing so received a violent blow on the side of the head from behind which stunned him. He remembers nothing farther than the consciousness that he was struck on the head repeatedly and rendered senseless. On coming to himself he at once pyclimed the state of affairs, and, though he could scarcely move at first, he ultimately crawled down towards the hall, and gave the alarm. On his sons and other inmates of the prison going upstairs, it was discovered that both the Youngs were gone. The scene in James' empty cell disclosed what had occurred. The shackles which inclosed the prisoner's legs, and which are riveted to the floor, had evidently been opened with a false key, which is now in the hands of the Sheriff, and is manufactured out of what looks like a brace or vest buckle. This must have been done previous to Lawrence coming into the cell, although when he entered all appeared in order. The blankets on the bed and the floors were besmeared with blood. It was found on examination that after Young had knocked his victim down with the blow from behind, he had attacked him with the shackles, cutting him terribly about the head. One cut has severed one of Lawrence's ears; another on the left temple has laid open that part of the face; while a third has almost broken the jaw. There are other cuts about the head more or less serious, and it is a wonder that he is alive. Besides the wounds, on the head, he complains of being sore all over his body, and thinks his assailant must have sat or knelt on him while delivering the blows. It is supposed that, so soon as he had settled Lawrence, James proceeded to John's cell, and with the keys, which he had possessed himself of, liberated him also. They had then opened the iron door connecting with the hall, and quietly stepped out by the rear, jumping the fence and landing in the Court House yard. John's shackles were left lying on a sofa in the hall, they having retained them probably with the purpose of attacking any one who might obstruct them. They passed out unobserved. The government has offered a reward of $600 for the capture of each. These are desperate scoundrels, and it is to be hoped will soon be captured and suffer the reward of their conduct, as a lesson to others.

UNFAIRNESS

The Peterborough *Examiner* has placed us under review after the fashion known to American slang as 'slashing ground.' We have no objection to be taken to task by our contemporary if the taking be done with the carefulness of good conscience. True, we have criticised Scotch morality under comparisons of the British census; but, beyond this, the *Examiner* is not justified in stating that we wave "denounced Scotch morality in no measured terms." The terms were in fact "measured" by Commissioners of the Crown. They would never have been employed by us save to reply to an editorial of the week before, in which the *Globe* had dragged facts of the census five years after date to do not this falsely in an attempt to glorify the Scotch at the expense of the Irish. Will our contemporary favor us with the justice of giving this explanation to its readers?

We have never found fault, in our objections to the nonobedience of our countries, against Scotch names as such. We have protested simply that countries wrested from the wilderness by the moral and physical energies of Irishmen, should receive any names whatever over which malice is appear that [illegible] civilizers were other than Irish. Will the *Examiner* be so fair as to give us the benefit of this correction?

Our outcry against Scotch cannibalism was applied but under circumstances in which it works the unfair. It was urged at a length which shows plainly that nothing was farther from our intention than to object to that cannibalism within limits of right and reason. To associate our objections to it, and to the ascendancy which has been hatched by it under the wings of the Reform party, with any unfriendly feeling towards our Scotch fellow-citizens, were not only to do us a wrong, but to put upon us a mortification. We call on our Peterborough contemporary to bear witness that in our many expressions of dissatisfaction on these points, we have repeatedly confessed our respect and kindness for the Scotch and our admiration of the noble names that glorify their nationality. Will the *Examiner* make the *amend honorable* by assuring its readers of this?

"Vulgar licentiousness," "coarse mob," "rebels against discipline and decency," were never applied by us to "Canadian Protestantism.' The looseness or haste of the *Examiner* in stating to the contrary, does us a wrong which we hold very grievous. The words have been used by us, it is true, but were confined in their application to the violent men who expelled their pastor, the Rev. Mr. Jones, from Grace church in this city, then hurled a virtual defiance at their Bishop. The whole tenor of the article from which *they are quoted*, forbids any such statement as that of our contemporary; for it dwells on the distinction between the ignorant and the enlightened Protestant; and expresses earnest sympathy with the latter as embodying "the reverential, the orderly, the worshipful," virtues which it declares "precious in the esteem of all well-constituted minds." We ask the *Examiner* to do us the curtesy, if it hesitate to do us the justice, of setting us right on this point before its readers.—*Irish Canadian*

BIRTHS

BELCHER.—At Peterboro, on May 18th the wife of T. D Belcher, Esq., C.E., Superintendent N & T Works, of a son.

MARRIED

O'DONNELL—ROSS—At the residence of the bride's mother, Toronto, on Thursday the 25th day of May, by the Rev G J Moxon, Incumbent of St. Philips, Mr J O'Donnell, L.D.S Peterboro to Sarah Blow Ross, daughter of the late C. Ross, Esq., and grand-daughter of the late Assistant Commissary-General Ross, Canada.

DIED.

BELCHER—In Peterboro, on May 18th, the infant son of T D Belcher, Esq., C.E, Superintendent N & T Works

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution

In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Keppt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' ECLESIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil. Read the following testimonial:—From Robertson, Parsons Centre, P. Q., writes, "I have been afflicted with rheumatism for the last four years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all." C. G. Hart, Postal Keeper, West Hartford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Mayhew, Barefoot, Westbrook, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, some of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the general confidence."—Joseph Rosman, township Percy, writes, "I was persuaded to try Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. H. Hamilton, Portworth, writes, "For a cut I was troubled with a swelled ankle, which annoyed me very much. Mr Mayhew of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

Select Poetry.

Whittier's Centennial Hymn

Our fathers' God! from out whose hand
Our centuries fall like grains of sand,
We meet to-day, united, free,
And loyal to our land and Thee,
To thank Thee for the era done,
And trust Thee for the opening one.

Here where of old by Thy design,
The fathers spoke that word of Thine
Whose echo is the chief reliance
Of rended hett and falling chains,
To grace our festal time from all
The realms of earth our guests we call.

Be with us while the New World greets
The Old World, thronging all its streets,
Unrolling all the triumphs won
By art or toil beneath the sun:
And unto common good ordain
This rivalship of hand and brain.

Thou who hast bade in concord forted
The war flag of a gathered world,
Beneath our western skies fulfil
The Orient's solemn of good will,
And, freighted with Love's golden fleece,
Send back the Argonauts of peace.

For art and labour met in truce,
For beauty made the bride of use,
We thank Thee, while Withal we crave
The mastery virtues strong to save,
The honest pride to glean alright,
The manhood never bought or sold.

O! make Thou us, through centuries long,
In peace secure, and justly strong;
Around our gift of freedom draw
The safeguard of Thy righteous law,
And cast in some diviner mould,
Lest the new cycle chame the old.

THE WOOL TRADE.

The wool season is shortly approaching, and as nearly every storekeeper in the country is in the habit of taking in supplies from the farmers, it is most essential that it should be done with judgment. Many losses have taken place through [illegible] and from all over-[illegible]. And we believe there are numbers of traders at this moment who do not appreciate the conditions under which wool is likely to open, and the influences which cannot but prevail in determing prices.

Wool is one of those articles for which there is practically only one market outside of ourselves. Our own wants are likely to be less than usual, for the woolen manufactory is depressed here as well as elsewhere. And the Canadian mills do not take our best quality. Combing wools are wanted by the American manufacturers of fine worsted goods, and other articles, mostly of a costly character. The articles were all the rage a few years ago, when luxury and extravagance were universals. People then seldom cared much about the price of goods. They had abundance of money and spent it freely. Now, the tide has set in strong in the other direction. Economy is the order of the day. Costly fabrics are set aside for plainer wear. The market consequently runs on other lines and our woolen will not be wanted to the extent they were. The same thing has taken place also in England. Trade is extremely depressed, and the English clip of fine wool will be rather in excess of the manufacturers' requirements than not. England has [illegible] taken wool from America, and will be more likely to be a competitor with us than otherwise.

A careful review of the whole position leads to the conclusion that prices must rule low. We cannot expect to [illegible] as high as we did last year, and those who buy from farmers will do wisely to govern themselves accordingly. Large buyers who know the course of the market will be extremely careful in such a season as this. Otherwise they may lose heavily. Dealers too, who may be presumed to know the course of trade, will not be inclined to make advances on a high basis. They will rather take large margins, in view of contingencies pointing to low values.

We are of course aware that it is for the interests of Canada to get a high price for all her products. And generally, yearly [illegible] care that we get all that the market affords. Our area is too wide-spread, and there are too many parties that want our productions, for any depression to be brought about by combination. This remark applies to all our exports, and to wool as well as the rest. But it would be most unwise not to take the position into consideration in doing the average opening price. Competition will bring things to a certain level no doubt. We merely do say duty in making our friends acquainted with the facts that bear upon the case.—*Monetary Times.*

DASTARDLY SHOOTING CASE.

On Friday morning last James Webster, of Aldborough, near Chatham, was shot by an unseen person. Immediately two medical men were summoned from Wallaceburg. They found Mr. Webster wounded by a rifle ball entering at the collar bone, which it fractured and passed through to the apex of the right lung and supposed to lodge in the left shoulder. The surgeons could not find the ball by probing. Air was escaping from the lung by the wound. A warrant was promptly issued by [illegible] for the arrest of Matheson and Geo. Wright, a neighbour of Webster's, and lodged in gaol. Wright was discharged on bail, but Matheson was committed for trial. The evidence of the two medical men and a few others was taken. The examination was not completed, and the prisoner and witnesses bailed to await the result of Webster's condition and obtain more evidence. When the constables went to arrest Wright they had to use a little strategy, as they were afraid of him as he had been considered a dangerous [illegible] man of some years and of a very violent temper when aroused. Mr Samuel Matheson was requested to accompany the constables, and if possible to get Wright to walk away from the house, where he was armed with revolvers and a double barrelled rifle and shot gun already charged. When approaching by Mr. Matheson he appeared to surmise his errand, and told him he would shoot him. Mr. Matheson at once made a spring upon him, and they both fell to the ground, and during the struggle the revolver Wright had drawn was discharged, and Matheson received a slight wound in the cheek.

FULLY DRAWN OUT.

Having had the opportunity of seeing the burning of a furniture factory in the large town of Peterboro' a few days ago the whole proceeding in such cases may interest our country readers. It was about 10 o'clock at night, a bell rang violently, and was immediately answered by another bell of a different tone, and soon all the bells of the town were sentencing their wild sounds rapidly and vigorously on the night air, and hurrying feet were heard on the sidewalk—men hastening towards the great red glare which lighted up the spires and steeples which projected from the gloom beneath. Presently on strong broad wheels, with double rows of sparkling and with showers of sparks leaping from its funnel round the corner in rapid motion came the steam fire engines, hurling at once on the low bridge which crossed the stream. A trap door in the covering of the bridge was then thrown open, and the huge metal-pointed hose was plunged into the water beneath, a telescope sustaining a most brilliant light was placed near the engine, the truck on which the hose was wound was taken towards the burning factory, leaving behind a long line of piping; one end of this was hastily attached to the engine, a cool, active, and unruffled man round up the fierce fire, and placed a number of tools, wrenches, and an oil can on the bridge beside him ready for use. All this occupied but a few minutes and the fire had already burst through the roof, the inflammable material within the dwelling [illegible] great billows of flame, the fire issuing in streams from every window and door in the factory. And now the engine showed signs of economizing power, and trembling with suppressed energy. In a moment the human monster uttered its voice, giving forth a half shriek, which might have waked the dead, and the steamer started with fearful strength, sending the rushing water along the lank tube until the hose swelled breathed like a huge serpent and at once the stream burst upon the burning building in a perfect torrent. The flames, [illegible] with increased violence, but soon showed signs of defeat. By this time the steam was at its full strength, and to this [illegible] it seemed that nothing must give way or the boiler explode was most over, [illegible] loose. Another hose was now attached and a second stream poured on the fire, which in about as many [illegible] minutes [illegible]

Lemon pudding.—Cream pie one cupful of cream, one and an [illegible] yolks, [illegible] sugar, and one cupful of [illegible] sugar, and one cupful of [illegible] Use the whites of the eggs to [illegible] to a stiff batter. Bake in rings.

Corn Cake.—One quart of corn milk, three eggs, one teacupful of flour, [illegible] corn meal enough to make a batter as thick as for pan cakes. Bake quickly in pans well buttered.

Rye Cocktail.—Into a quart of rye flour put half a tea spoonful of salt, and [illegible] dissolved in a little cold milk; add two well beaten eggs to the [illegible]; season and flavor to taste.

GENERAL NEWS ITEMS.

Chatham has sixteen taverns licensed at $130 each, and six shops at $100 each.

Ottawa's population, according to the assessors' returns, is 44,547, and the valuation on which her real property is taxed, $25,250,350.

Whitby has fixed the Town Solicitor's salary at $100 and the Mayor's grant for charitable purposes at $150.

The Belleville Town Council on Monday night refused to give a first reading to a by-law to grant a further bonus of 50,000 to the Grand Junction Railway Company, prayed for by petition of 450 ratepayers. It is held that the council is bound by statute to submit the by-law.

Orangeism at the Centennial.—The Montreal Witness says: "The Centennial celebration of American Independence is likely to become noted for the display to be made in Philadelphia on next July 12th, by the Orangemen of the United States. Every man who has been initiated in the mysteries of this order is to participate in the parade and muster in Philadelphia next 12th of July. Orangemen from all parts of the world will receive a very cordial reception there on that occasion Canada Orangemen are particularly invited to co-operate in the celebration."

For the Centennial.—Mr. W. Burt, of this town, has forwarded to Philadelphia a curiosity that should be venerated by Philadelphians. It is a $40 bill issued by the Continental Congress in 1778, and redeemable in gold or silver. It is 8x4 in. in size, thick paper, in good preservation. It is numbered 323,382, and bears on its face the following:—"This bill entitles the bearer to receive forty Spanish mille dollars, or the value thereof in gold or silver, according to a resolution passed by Congress at Philadelphia, Sept. 26, 1778." It is signed by Dwight M. Cother. Mr. Burt came across this paper in West Virginia, and was offered $50 in gold for it some years ago. If rare it will probably be worth much more than its face value.—*Lindsay Post.*

Merciful unto his Beast.—A farmer named Michael Brady, a resident of Thorold Township, a few days ago was brought before Mayor Baxter, of Thorold, charged with cruelty to his horses. Brady had left his horses hitched to a waggon and "checked" up all night, while he was off playing draw-poker. The horses were very much distressed when found by a policeman. The circumstances being reported to the Mayor he gave orders that Brady should be immediately arrested and detained in the lock-up for trial. The Mayor very strongly expressed his indignation at the brutal treatment of the horses, and regretted that the law did not give him power to impose upon Brady similar treatment to that inflicted upon the horses. He fined him $10 the highest fine the statute allowed, together with $4.50 costs.

The other day a number of the leading Reformers of South Huron called upon Mr. M. C. Cameron, ex-M. P. for the riding, and presented him with a handsome service of silver as a mark of their appreciation of his services in the cause of Reform. The testimonial consisted of sixteen pieces of solid silver. The tray, a very large one, was beautifully engraved with a wreath of maple leaves, and on the centre of the wreath was the following inscription, beautifully executed:—"Presented by the Reformers of South Huron to M. C. Cameron, as a token of their appreciation of his services whilst their representative."

Fall Wheat.—The fall wheat throughout this section of country has sustained no little injury. We learn of some farmers who have had to plough up several acres, the wheat having been utterly exterminated. In sheltered parts, however, some very fine fields may be seen, but it greatly needs the heat and moisture so essential to its development. Taking it on the average, and the weather proving anything favorable, as good a yield may be expected the present season as last. The severe frosts prolonged cold weather, have been very destructive to a great quantity of grain.

A sad accident occured at the mill pond in the village of Embro, on Saturday evening of last week. Three men named Wm. A. Beattie, Thomas Savage and a man named Bowels, went out on a boat which capsized, throwing all three into the water. Bowles, being able to swim, made for a stump, and got ashore Beattie and Savage, being unable to swim, were drowned. They were those in the district most intelligent and highly respected. Savage was to have been married on the 24th of May.—*Paisley Advocate.*

Ancient Order of Hibernians.—New York, May 20.—At a meeting of the Catholic societies last night to arrange for attendance at the laying of the corner stone of the new church of the Paulist Fathers, the chaplain of the organization of the Ancient Order of Hibernians thereupon called upon Father young to explained that he had been compelled by Vicar-General Quin to retract the invitation to that Order. Several prominent Hibernians who attended the meeting asked for the Vicar-General's reasons. Father Kearney replied that the Vicar-General has determined to deem the Order beyond the pale of the Church, until it establishes chapels in connection with its meeting places, like all other Catholic bodies, and discards mysterious signs and passwords.

"A wonder of Medical Science," may well be applied to Dr. Winslow's Balsam of Wild Cherry. It is nearly half a century since this remarkable remedy was introduced to the public and yet the immediate and favorable approbation which it gained by its wonderful cures of coughs, colds, whooping cough, sore throat, influenza, consumption and all bronchial complaints, is to this day fully sustained.

Burnett's Cocoaine for the hair has stood the test of time and competition. It has established a reputation for purity and efficacy in every quarter of the world. For twenty years it has been a favorite with the people and is [illegible] with the trade. The name "Cocoaine" has become a valuable property. We have established our sole right to its use in several at law, thus protecting the public and ourselves from imposition.

What is best to be done.—If you are suffering from rheumatism, lame back, sprains strains or bruises, sick head-ache, tooth ache, colic, bowel complaint, burns, frost bites, etc. decidedly the best thing to get is a bottle of the "Canadian Pain Destroyer." The cost is trifling and its effects certain. It has never failing remedy, and no family should be without it. Sold by all medicine dealers.

Very Natural.—When a person has proved an article and found it good and answering the purpose for which it is intended, he will not readily abandon it for one of doubtful reputation, or concerning which he knows nothing. We are led to make these remarks owing to the course always pursued by those who have used that celebrated and valuable home medicine Hagyard's "Yellow Oil." They have Cleared Out most of their old stock, and are NOW RECEIVING a Large and Assorted Stock of

SPLENDID GOODS

Which have been purchased with great care as to quality and price, and which they offer at prices as low as to defy competition. Their stock comprises

VINEGAR BITTERS

PURE TEA AND BARKS CALIFORNIA VINEGAR BITTERS FREE FROM ALCOHOL

Observe the thousands proclaim VINEGAR BITTERS the most wonderful invigorator that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

REMOVAL! REMOVAL!

ADAM HALL

HAS REMOVED HIS STOCK OF BOOTS & SHOES

TO GEORGE STREET,

In Samuel White's Old Stand!

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no [illegible] is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compositon. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to healthy, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhœa, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired relief by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels miserably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Burnett's Extracts

For cooking purposes.

Burnett's Extracts

"Pre-eminently superior."—Parker House, Boston.

Burnett's Extracts

LEMON, VANILLA, ROSE, ALMOND, NECTARINE, CELERY, ORANGE, EACH, NUTMEG, CINNAMON, CLOVES, GINGER.

Burnett's Extracts

"The best in the world."—Fifth Av. Hotel, N. Y.

Burnett's Extracts

"Used exclusively in our house."—Continental Hotel, Phila.

Burnett's Extracts

The superiority of these Extracts consists in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used.

PERRY DAVIS & SON & LAWRENCE,

Agents for Dominion of Canada.

JOSEPH BURNETT & CO., BOSTON,
Proprietors.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything been so uniformly and universally successful in relieving the sufferings of the human family, as has been shown in the case of this invaluable remedy for pulmonary complaints. Through a long series of years, and among most of the nations of men it has been highly valued and prized for its wonderful power to control and cure the various affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and those subject to, or predisposed to Colds and Coughs, all should be provided with this antidote for them.

Although acting on Consumption in its most incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the diseases of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Ringers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or adduce more arguments to the public that its qualities are fully maintained.

GENERAL

AGENTS WANTED.
Agents Wanted in every Township in Ontario to sell the famous [illegible] Organs Manufactured by the South Ameri[illegible] Co. and George Steck & Co's Pianos.
Special inducements will be given to first class agents and circulars [illegible] of our wishing to purchase
Any member of [illegible] in favor of these free reed organs can be furnished [illegible] as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—No instrument, however flattering the cash to their reputation
The Steck Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873
Churches requiring organs will be liberally dealt with. Sit to St. South Americans, we would call attention to no being especially adapted for churches and halls, its proportions are grounded and its musical qualities are unsurpassed. The grand organ stop gives the player facilities for various and splendid effects, the stop can be used so as to slowly increase the volume of tone from a whisper or suddenly bring forth all the power of the instrument in a burst of harmony
Pianos and Organs furnished Wholesale and Retail from any of the first class American manufacturers
Circulars and price list sent free on application
A. M. DARLEY,
General Agent
Church street, Bowmanville, Ont.
N.B.—All instruments warranted for five years

VIOLIN STRINGS THE BEST in Town, at Mathias' Bookstore.

PAPER WINDOW HANGINGS—all styles, at Mathias Bookstore. 19-1y

THE SONG OF TIME.

Changily, men fly as I go,
Whether the weather be dark or bright,
Nothing to me is the rain or snow,
Nothing care I for the dark or light,
Only to see the days run by,
Only to hasten, the nights, care I;
Here ring forward I hang and sing,
Knowing none other than "I" is King!

Changily, men fly as I speed,
Nothing the fellows from day to day!
Little of beauty or love I heed,
Cling to your treasures while ye yet may!
Over the fortune of men I reign,
Lover and loved of me complain,
Blisses the fleetest I make take wing,
Kisses the sweetest, for I am King.

Smiles the most winning away I bear
Off to the isles of the setting sun,
Leaving the clasping gray hair and care,
To wear in their stead : ll their life is done.
Joys you are prompting I stand, and then
Move you are clasping around in man;
Pleasures outnumbered, I take, and bring
Measures of sorrow, for I am King.

Wishing I bring to the bride's fair fame,
Memory's cushes for future long dead;
Flickering flames I leave in place
Of the clear light of love that was once outshed.
Carrying even thing bright away,
Marrying beauty to w'se's decay,
Stealing from youth its fair-day spring
Feeling no ruth I but s'nout I'm King,

All other exception them mine are naught,
All of them perish and fade to dust;
Graved in the vain my hand hath wrought,
Nothing you cherish escapes my lust.
Mine by May blossoms most fair I take,
Day by day, thrown the most fair I shake;
Flowers that are pr wet with blight I mine,
Towers that are surest to earth I fling.

Ever destruction is my delight.
I bid, build up that I may pull down;
Never is moved within my sight;
Glory, treasure, or grand renown.
History part of my life hath sung;
Mystery hideth when I was young;
Where the air breathes of purest things,
There the air over my triumph sings.

THAT TWO-GALLON JAR.

It was easy to see that for the first time in his life Tim Donovan had come upon a great trouble. He had thrown himself full length on the grass that grew near the shade of the forest, and all the beauty of the summer day, the songs of the birds and the rustle of the cool leaves, the clear sky and the flowing river, faded from sight and hearing. He could think only of what the man at his side had been telling him, and a fierce pain shot through his temples, and a fiercer one through his heart, when he closed his eyes on the world and on himself for a moment.

Frank Murray, his companion, looked down on the stern, handsome face of Tim with a touch of compassion. He was suffering, too; but before the agony of the strong man at his feet his own seemed to sink into utter insignificance. Rather than break in upon his thoughts he was walking away through the trees, but Tim opened his eyes and called him back.

"It would be fairer and manlier," he said, with his face turned to the sky, "to settle the matter as I at first proposed. Since, however, we dare not do that, the next best thing is to leave [illegible]"

"We are agreed, I consent," the other with a sigh of relief. "To-morrow at nine o'clock is the hour. Until that time good-bye," and with a quiet shake of the hands they parted.

Tim walked away at a slow and thoughtful pace towards the city, and as he proceeded, ran over in his mind the various circumstances which had led to this memorable scene with Frank Murray. As in nearly all such cases, there was a lady, young and beautiful, at the bottom of the affair.

Mary Galvin was just the age to enflet the attention of young men matrimonially inclined. Her beauty and the gentleness of her character naturally caused good men to desire her as a wife and it so happened that both Tim and Frank were in love with her, and both suitors for her hand. But although Miss Galvin appeared to esteem them more highly than the rest of her admirers, still she had never shown a decided preference for either. This was puzzling. The young gentlemen concluded that she might be happy with one, were t'other dear charmer away," and it was finally resolved that that "charmer" should withdraw from the filed.—Then the question, which shall it be, arose. The plain common-sense way would have been, to propose to the young lady, and let her dictate put an end to speculation; but they were not sufficiently courageous to do this, and all hope of a settlement was fading when Frank came to the rescue.

"We have good, trim sail-boats," said he, after a long conversation with Tim, "and we can handle them easily. Let us run a race to the entrance of the harbour and back again. Who ever wins——"

The blank was expressive enough for Tim. Frank's plan was a novel one, with something of romance about it; and after a severe struggle at thus disposing of all his long cherished hopes, Tim, as we have already seen, consented.

There were no two persons more utterly unlike in character and personal appearance than those two friends.—After a close comparison, however, the verdict would be in favor of Tim's massive physique and firm, gentle bearing. Both were intelligent, and educated according to their position, and both were frank, generous, and open-hearted, Tim to a greater degree than his companion. Perhaps it was this large open-heartedness that was the chief cause of Tim's one failing, a failing that placed him far behind Murray in the race of life. He had a liking for whiskey. He took his toddy as regularly as he took his meals, and once or twice it got the best of his strong head. Ah! that was the one fatal defect of his otherwise pure, ingenuous nature.

As he was about to leave the beaten path over the fed to for the highroad, he saw a trim, graceful figure flitting before him, that set his heart going at a furious rate. He hesitated in his walk, but she heard his footsteps, and glanced carelessly around, recognizing him, and stopped, with a pleased smile. And Tim was fairly intoxicated with delight as "Black eyes laughed a welcome into his. Then he thought of the morrow and what it might bring forth, and immediately he became cool again.

"O, Tim," she cried, "how glad I am to see you. There was no one near to take down the [illegible] and my hands are filled with flowers, and now, and so many things, that I was ready to faint."

"Let me help you," she added, looking into his face archly.

Tim brightened up at that, and tore the bars from their fastenings rather savagely.

"But she would have said the same to him," he sighed, inwardly, and straightway relapsed into a profound gloom.

They talked spiritedly as they went along, Tim wondering how he could do it, and somehow or other it came out about the race, and Miss Mary was delighted, and declared she would be there to witness it, never imagining how much of sorrow and doubt there was for the man at her side in what she regarded only as an interesting trial of skill. Tim sighed again, and was really pleased when at last he bade her good evening.

And now his troubles began in earnest. On his way home he entered McLaughlin's saloon by the rear door—Tim never frequented these places—and whispered a word to the bar-tender who soon brought to light a two gallon jar of the best whiskey. Tim took the same jar, tenderly, and carried in home. It was dark by this time. He would not have borne it in broad daylight for a fortune.

A number of friends dropped in to see him that evening, and the two-gallon jar was often called upon to aid in keeping the company cheerful. Tim drank every time, contrary to his usual custom, and became quite free in speech. So did his friends, and that night the most important secrets were told in the cosy kitchen. They were made acquainted, one and all, with the coming race, and affirmed themselves ready to stake their last dollar on Tim's success—which was, to say the least, highly encouraging to our hero. In the end, they went home feeling quite elated, and their host went to bed in a muddled state of mind.

Poor Tim! his overwhelming sadness was the only excuse he had to offer for this debauch, and his conscience reproached him severely on awakening the next morning. It was certain that he was not in a condition to race across the harbor that day; but he would not postpone it, and thus prolong the exceeding misery that he suffered. He had recourse to the two-gallon jar for an "eye-opener," and when his nerves were steadier he took a second pull "to put him in condition." Then he started off, and arrived at the pier in excellent spirits. About twenty of his friends were assembled, much to Tim's surprise, as he could not remember of his having told any one except Miss Mary. That young lady was present, as she had promised, with her father, and Tim felt quite a glow steal over him when she approached and put her little hand in his, saying, with much solicitude,

"The water is so rough this morning, Tim, had you not better give over the contest until a fairer day?"

"By no means," he replied, gently retaining the hand so kindly offered, "this roughness is not dangerous, and will only add to the interest of the race."

"Then I hope you will be successful" [illegible] and was afterwards sorry for the remark, Tim blushed so, the tears coming into his eyes.

"Thank you," he returned, faintly, "Ah, here is Frank."

Old Mr. Galvin, for some unknown reason had his heart set on Frank Murray's success, and made a little wager with his daughter as to the probable result. The young men were now in the boats preparing everything for the start. Tim hoisted a pennon of white and blue, Frank one of white and green; and, finally the two stood, one hand on the tiller the other on the ropes, awaiting the signal. It was given, the sails squared to the breeze, and the vessels bounded away over the troubled waters.

Now, as to their respective merits in sailing, there was not much doubt.—One was a fair match for the other, and their boats were of the same size and make, so that the two gallon jar being left out, it was hard to decide which would be the victor.

That two-gallon jar, however, soon put a new face on the state of affairs. Tim had scarcely been in his boat two minutes when the whiskey, together with the high waves, created a difficulty His temples began to throb, his brain grew dizzy, and he could hardly see. By a powerful effort he retained sufficient sense and tact to guide his boat safely, but in the finer points of sailing his mismanagement was evident from the first.

On they flew at a respectable rate of speed, and in ten minutes the entrance of the harbor was reached. Both turned swiftly and elegantly. The home run began, but Tim's condition was now really critical in spite of the erect steady position he maintained. Frank Murray exersed all his skill, and in his cool eye and firm hand took advantage of the mistakes made by his opponent the distance between them was rapidly increased. Tim was soon helplessly behind. He made a few feeble attempts to go at least straight ahead, and failing allowed the vessel to travel as it pleased. The consequence was, that as the very moment Frank Murray was receiving the congratulations of his friends Tim

PETERBOROUGH, JUNE 8, 1876

IRATE GALT and DEPRESSION OF TRADE

The subject of Trade and of its fluctuations is engaging the attention of the people of Canada very largely. Some of those who discuss it are laying the blame of all the depression in trade to the existence of a Reform administration, and are blind, or pretend to be, to the fact that it is general, no matter what the form of Government.

It manifested itself first in the neighboring Republic. Canada being so contiguous was next affected by it. It soon extended itself to the Mother Country and has become almost general. It does appear strange, therefore, that Republicanism in the United States, Conservatism in England, Reform in the Dominion of Canada, Imperialism in Russia and dis-union in France and Spain, should all produce the same result, viz., depression of trade and stagnation of business. This is abundant proof of the illogical nonsense that is dished up to Canadian readers in Conservative organs, daily and weekly.

Sir Alexander Galt, more reasonable and more logical than his old colleagues, attributes the present financial crisis to its true cause, over importation and extravagant expenditure. For years the balance of trade has been against us, until that balance has reach $40,000,000 to $50,000,000. The means of paying at once is not therefore in the power of the Country. This general trade depression having affected English trade, makes a severer impression on Canadian trade, and will require a year or two of careful management to bring about a healthy and vigorous state of affairs here.

Sir Alex Galt wisely, therefore, assigns the true reason when he says over importation and extravagance have brought about this disorder in trade. Along with over importation there has been over production also. The demand induced over production, and now reaction induces a fall in prices ruinous to producers. This is natural and is bearing abundant fruit

The connection between all this and protection is not perhaps so easily seen, but nevertheless some political economists see that a retaliatory tariff with the United States would be a panacea for all the ills under which we labor.

The protection tariff of the United States has not prevented trade depression there, nor has the almost free trade principles of England shut it out of that country. The folly therefore of looking for a return of prosperity from a tariff that would only affect about 000 to 1000 persons out of 4,000,000, must be apparent.

The sugar trade is the one particularly referred to by new advocates of protection, as suffering. If all the trade demanded were granted, not more than 1000 men would be directly benefitted thereby, while the whole country would be required to pay from 30 to 40 per cent more for their sugar. This class Legislation can never be popular in any Country, and that it has a single advocate is due to the fact that there is nothing else to grieve over.

THE METHODIST CONFERENCE

The Conference of this very large and important religious body in Ontario will meet in Peterborough on the 14th inst., in the New Methodist Church. It is expected that about 300 ministers will take part in its deliberations. On Friday (to morrow), the Stationing Committee will meet to discharge duties connected with stationing the Ministers for the coming term.

The Conference will be opened at 9 a m. on the 14th and a general prayer meeting be held from 12 to 1 o'clock.

ARRANGEMENTS DURING CONFERENCE SERVICES SABBATH JUNE 11TH.

GEORGE STREET. The opening service in connexion with the S. School and lecture Room of the new Church, will be as follows: At 11 a.m. the Rev John Bredin, of Barrie, will preach, and at 7 p. m. the Rev. Wm Briggs, of Belleville. At 2.30 p. m. a platform meeting will be held, when Revs George Young, of Wamipeg, C. Fish, and others, will give addresses. On the following Monday evening the ladies will give a soiree, when music and addresses will be given.

CHARLOTT St. 11 a m, Rev J. E. Betts; 7 p m, Rev W Tindall.

St Paul (Presbyterian), 11 a. m, Rev E H Harper, M. A; 7 p. m, Rev. W. A. Laird.

St Andrews, 11 a. m, Rev John Shaw; 7 p m Rev John G Laird.

Bible Christian, 10.30 a m, Rev Thomas Williams; 6.30 p. m, Rev. Clements

Baptits; 7 p. m. Rev. J. McCallum.

SERVICES, SABBATH, JUNE 18TH.

George St., 11 a m, Conference Love-Feast, Rev John Carrol.

George St. 11 a m, Ordination sermon by the President of the Conference.

PRAYER MEETINGS.

George St, Lecture Room, June 14th, 6.30 a m, Rev A Cunningham; June 15th, 6.30 a m, Rev Wm Halsted; 16th, 6.30 p m, Thomas Cullen; 17th 6.30 a m, Wm Smyth, and 7.30 p m, General fellowship and Prayermeetings, Rev Wm McFadden 19th, 7.30 a m, Thos S Keough; 20th, 6.30 a m, Rev Geo Washington, M A.

The Conference will probably close about the 20th

SCHOOL BOARD.

The Board met on Tuesday evening. Present, Messrs. Cox, Edwards, White, McClelland, Robertson, Johnston, Pentland, Morrow, Dr. Burnham, and Edmison.

In the absence of Mr. Stevenson Mr. Cox took the chair.

The Secretary read the minutes of the previous meeting which were confirmed.

Communications were read from:

Mr. Ming in reference to the state of the desks in his room, and asking that they be repaired.—Referred to the Property Committee with power to act.

Mr Stevenson entered and took the chair.

From D. D. Galletly, asking for the use of the South Ward School to teach vocal music after school hours.

The Secretary explained that this letter had been addressed to him in his unavoidable absence at the time of the last meeting, and hence had not been placed before the Board.

Another application for the use of a room in the Union School for the same purpose had since been handed in. Both were received.

Mr. McClelland explained that he had granted the use of the South Ward school room, until the Board should meet.

Mr. Edwards was opposed to granting the rooms as they would be abused.

An account from James Bradley for $12 for acting as Janitor for three months at the Methodist S. S. room, was referred to the Finance Committee.

From Miss Preston, in reference to some breach of etiquette in the school room was read, and after discussion was referred to the Committee on Appointments with power to act.

A report of attendance was then read:

COLLEGIATE INSTITUTE.

In Mr. Jeffers' room	26
" Earle's "	11
" McKee's "	29
Miss Panton's "	40
Miss Preston's "	39
Total	137

PUBLIC SCHOOLS.

In Mr. Braden's room	55
" Ming's "	52
Miss Dowling's "	37
" Mitchell's "	42
Mrs. Jones' "	53
Miss Blaisdell's "	44
Miss Jenkins' "	59
Miss Perry's "	46
Miss Matthews' "	45
Miss McCreedy's "	107
Total	537

SOUTH WARD SCHOOL.

In Mrs. Hunt's room	40
Miss Greenlow's "	41
Miss Sanderson's "	91
Miss Bagley's "	99
Total	271
Auburn School	92

The report was received.

A communication from Wm. Henderson, of Toronto, in reference to heating the school building was read, giving the cost of putting in a steam heating apparatus at $1.900.—Received.

Mr. Edmison, Chairman of Finance Committee reported, recommending payment of the following:

Breeze & Hutchinson	$10 00
R. Romaine	2 00
"	3 00

The report did not recommend payment of an account of the Janitor. Mr. Edmison further stated that the committee found that certain taxes on the South Ward School lot were found justly due by the Board and ordered by him to be paid.

The report was received and adopted.

It was moved by Mr. Pentland, seconded by Mr. Johnston, to grant Mr. Galletly's request.

Mr. McClelland explained that he had granted the use of a room in South Ward School to Mr. Galletly, and said that the Board had already granted the use of a room to Mr. Martin in the Union School building.

Moved by Mr. McClelland, seconded by Mr. Cox,—That Mr. Galletly's application be granted for south ward school.

Moved in amendment by Mr. Edwards, seconded by Dr. Burnham,—That it be not granted.

The motion was carried and the amendment lost.

The Chairman explained the difficulty in reference to Miss Preston, as Miss Preston denied being guilty of incivility.

On motion to refer Miss Preston's communication to the Committee on Appointments Mr. Cox thought the matter should be settled at once as some one of the two labored under some injustice

Mr. Edmison agreed with Mr. Cox.

The communication was referred to the Committee on Appointments with power to act.

The communication in reference to heating the building was discussed.

Mr. Morrow remarked that if 50 tons of coal were required this would cost $94 per cord, and therefore would be more than coal. He also referred to the smokey state of the present stoves, and the irregularity of the heat at present was not all it should be, and that therefore the heating by steam would be much better. The matter was laid over.

Moved by Mr. White, seconded by Mr. Johnston,—That the application of Mr. Galletly for a room in the Union School building two evenings in the week be granted so as not to interfere with Mr. Martin.—Lost.

The Board then adjourned.

TOWN COUNCIL.

The Council met pursuant to a call of the Mayor on Wednesday, May 31, 1876.

Present, the Mayor, and Councillors Cahill, Dixon, Taylor, Douglas, Haggart, Thornton, Peterson, McClelland & Cash.

The Mayor stated that the Finance Committee had met and were prepared to report on the petition of John Miller for a bonus for the manufacture of Sewing Machines, and the Committee had requested him to call a special meeting of the Council.

On motion the second rule relating to the reading of the minutes was temporarily suspended.

Mr. Cahill, as Chairman of the Finance Committee, read the following report, which was received and adopted:

To the Mayor and Town Council of the Town of Peterborough:

GENTLEMEN,—The Finance Committee to whom was referred the communication of Mr. John Miller, relative to the establishment of a Sewing Machine Manufactory in Peterborough, beg leave to report that they have examined the working of the machine, and have also heard the opinions of saddlers, shoemakers, and other practical men, and from all they have seen and heard they are of the opinion that the invention is likely to be one of the greatest practicability,

In view of the large amount of labor that such a manufactory would employ, and the consequent large expenditure of money in our midst, your Committee would recommend that a By-law may be submitted to the Ratepayers, as applied for by Mr. Miller.

(Signed) THOMAS CAHILL,
May 31st, 1876, Chairman.

Moved by Mr. Cahill, seconded by Mr. Taylor,—That the Clerk be directed to have the By-law read a second time, and published according to law.—Carried.

A communication was read from John Hillier, complaining of the digging of a drain near his premises. This was referred to the Street Inspector, with instructions to stop the work.

The Mayor stated that Mr. Pearse, County Clerk, had submitted an estimate of the probable cost of the improvements in the Court House Green, showing that it would amount to about $200. It was agreed that the work should go on.

The Mayor also stated that the parties in Campbellford who were negotiating about the old fire engine, had decided to take it at the price offered, viz: $600.

The Council then adjourned.

ASHBURNHAM COUNCIL

Council met on Monday evening.

Present—The Reeve, John Burnham, Esq., in the chair, and Messrs. Calcutt, Bennett and Mowry.

The minutes of the previous meeting were read and confirmed.

ACCOUNTS.

W. Swanston bread for the poor $1.80, Mrs. McGregor board for Isabella Mowry $10. J. Stevenson assessor $50, which on motion of Mr. Calcutt were ordered to be paid.

BY-LAW TO RAISE MONEY.

On motion of Mr. Bennet a By-law to authorize the Council to borrow $700 for the current expenditure for the year 1876 including school teachers salaries was read.

SCHOOL BUILDINGS.

Moved by Mr Bennett, seconded by Mr. Calcutt—That the By-law providing for the issuing of Debentures for the amount of $3,500 for the purpose of erecting new school buildings in the village of Ashburnham, and to provide for the payment of the principal and interest and to repeal By-law No. 51 of the said village, was read a first time.

On motion, the Council went into Committee of the whole, Mr. Bennett in the chair. The necessary blanks were filled in and on motion of Mr. Calcutt the Committee rose and reported progress

Moved by Mr. Calcutt, seconded by Mr. Bennett—That the Clerk have the Debentures by-law duly published in the Examiner. Carried.

WATER TANK.

Mr. Bennett said that several parties had been speaking to him about getting a Tank made for Fire purposes, as in case of fire there was no place for the engine to get water.

Mr. Calcutt said that Mr. Rogers had offered to give them the power to drive a pump for water works if the village would lay the pipes.

MEMORIAL.

The following Memorial was passed and the Corporate Seal attached thereto and authorized to be forwarded to the Ontario and Dominion Governments to have the dam repaired at the Locks.

To His Honor the Lieutenant Governor in Council:

The Memorial of the Corporation of the Village of Ashburnham in the County of Peterborough respectfully sheweth:

That owing to the manner in which the dam at the Locks in the river Otonabee situate at the southern limit of the said village is, constructed in the water of the said river, in the spring of the year is backed up to such an extent as to flood a considerable portion of the said village and seriously impede the working of the mills and manufactories thereon. That your memorialists are of the opinion that such backwater could in a great measure be prevented without in any way interfering in the navigation of the river by putting in the said dam a sluice way with stop logs which could be opened in the fall of the year and closed after the spring floods. And your memorialists therefore pray that your Honor in Council would cause the works at the said Locks to be altered in the manner above set forth, or in such other way as will remedy the injuries above complained of and your memorialists will ever pray.

JOHN BURNHAM, Reeve.

STREETS AND BRIDGES.

The Reeve wished to know what they intended to do in regard to getting gravel for the streets. He had asked Mr. Dumble what he would take for a lot that would make good gravel, and he wanted $400; that Mr. Craig had asked Mr. Romaine as he had some gravel advertised, and he offered it at five cents a yard.

On motion the Council will go into committee of the whole on Wednesday afternoon to examine the streets in the village and have the necessary repairs made.

Council then adjourned.

THE SEASONS

The following table of dates of commencing to plow and sow has been handed us by Thomas Rason, Esq., of Otonabee. Mr. Rason has kept careful register of daily changes of the thermometer for many years, and also a record of any important or strange occurrence in his neighborhood, and from this record the dates below have been collated.

Year	Plough Spit	Sowed first
1840		May 1
1841		May 10
1842		May —
1843	April 21	May 5
1844		April 23
1845		April 14
1846		April 10
1847		May 3
1848		April 19
1849		April 23
1850	April 15	April 25
1851		April 20
1852	April 23	May 3
1853	April 5	April 23

KINMORE.

The Municipal Council of the Township of Ennismore held their first sitting of the Court of Revision on the assessment Roll of 1876, in the Town Hall on Thursday the 1st instant. Present, Daniel Clendenning, Esq. Reeve, William Crough, John Donaghoe, Daniel Shannon and Maurice Galvin, councillors. After being sworn as required by law, they at once proceeded to hear the appeals coming before the Court for trial. Jeremiah Shannon over assessment on the south half of lot 4 in the 5th con., commenced sundered. An appeal having been lodged with the Clerk against the 6th con. that the owners and occupants was not assessed for the full amount of land in said con and 35 having been notified to attend the Court of Revision, in answer to the appeal great interest was taken in this particular case and the proceedings thereof, as to justice and a firm stand point the Reeve ably assisted by the council argued the case in a sound just and equitable manner, and although threatened to be ousted from office as soon as opportunity permitted, but as he said having twice taken oath for the year he was determined without fear or favor irrespective of consequences to do his duty, the threat of turning him out of office would never prevent him, and as all the council said, from doing their duty to the township. The ratepayers having selected Jeremiah McCarthy, as their speaker and leader also nobely fought their cause although getting a little excited he argued the point ably according to circumstances William Curtain, James Garmon, Cornelious M. Sullivan and Patrick M. Sullivan, also addressed the council on the case at issue, but this being one of those questions a firm council can only deal with, the present one has done so by unanimously passing the following resolution.

Moved by Daniel Shanahan, seconded by Wm. Crough,—That in addition to the present assessment of the fourth con. of the Township of Ennismore for the year 1876, that thirty five acres be annexed in addition to each hundred acres of nine lots in said con. An appeal has been entered with the Township Clerk by Mr. McCarthy, against the division of the Court, each party will now have an opportunity of arguing their case before the County Judge who will by his decision finially settle the dispute.

John Donaghoe also appealed on the south west part of the south half of lot 11 in the 5th con. as being assessed for 50 acres while it only contained 46 acres., appeal granted.

After some changes was made of a trifling nature on real estate and personal property, the Roll was finaly passed as revised, by the following motion.

Moved by Daniel Shanahan seconded by John Donaghue,—That the Court of Revision be now closed and that the court of revision be now closed and that the council proceed with their business—Carried

After the closing of the Court of Revision the minutes of last meeting was read confirmed and signed.

Moved by Maurice Galvin seconded by William Crough,—That Umphery O. Dond, be allowed to do his road work opposite his own residence,—Carried,

Nothing more being before the council on motion of Maurice Galvin, the council stands adjourned to the call of the Reeve. —Com.

LAKEFIELD.

A Box Found.—As the men employed making improvements in the grave yard of the Church of England, on last Thursday, while digging up some large stones they came across a small box, about the size of a raisin box, and when opened was found to contain the skull and bones of an infant. It is supposed it was interred without a minister officiating.

A Sad Accident.—We are sorry to learn that on Sunday last as Mrs. Sheldrake and several others were driving along the Burleigh Road, a short distance above Young's Point, when the horse shied in consequence of which she was thrown out of the buggy and severely injured about the head and face. Notwithstanding the severe injuries which she received, we are happy to inform her many friends that she is progressing favourably.

Band Practice and Serenade.—The Lakefield Brass Band met in the Council Chamber last night for practice, and after practicing for about an hour and a half they [illegible] marching Mr Percy Strickland and Mr. John Hull. They first proceeded to Mr. Hull's where after playing a a tune outside were invited in, where they played for sometime. They then proceeded to Mr. Strickland's, and went through the same performance. Both gentlemen were highly pleased, and it is needless to say the manner in which they were received in both these hospitable houses. The band is making rapid progress under the directorship of Mr. W. Walker.

The Lakefield *News* says, that there is a young man in Lakefield who has a hankering after a Peterborough girl, and who is inclined to be a little poetical in his remarks. A few evenings ago he addressed a letter to his guiding star, and at the bottom of the letter were the following few lines of poetry. "Come to the Bowers I have shaded for you, your bed shall be roses all sprinkled with dew." She received his appeal in the following manner; "To your Bowers I won't go with you, for my bed would be shavings all sprinkled with glue." The young man still lives.

Nearly Drowned.—On Monday, as a little boy, a son of Mr. Brown, was playing by the river side, a few miles from here, he accidentally fell in and was carried by the current a considerable distance, when fortunately a gentleman seen the poor little fellow, and went to his rescue. With the exception of a good wetting, he escaped unhurt.

Village Council.—The Council met last Friday night in the Council Chamber. Present—The Reeve, and Couns, Hull, Shields, and Strickland. Moved by Couns. Hall, seconded by Coun. Strickland that this Council resolve itself into Court of Revision. Carried. Moved by John Hull, seconded by G. R Strickland, that Mr. Urquhart's real estate on Queen street be reduced from $1,400 to $1,200. Carried. A lengthy discussion took place in reference to making some alterations in the Assessment Roll, but it was decided that the question should be taken in the matter until it goes under a more thorough consideration. No other business was before the Court. Moved by John Hull, seconded by G. R Strickland, that this Court of Revision adjourn till the next regular meeting of the Council, the second Monday in June, Carried. The Court then adjourned. The Council then went on with its regular Council business. Moved by Couns. Hall, seconded by Couns. Shields that the Road Commissioner be instructed to open up a drain through A. Wilson's, Jas. Bell's and Mr. Snelgrove's lots to the river, so that the water running off Nelson street will have free course to the river, and payment for wages to be presented to the Council at its next meeting. Carried. Moved by Couns. Hull, seconded by Couns. Strickland, that the Council adjourn to its next regular meeting. Carried. The Council then adjourned.—*News*

KEENE.

The May District Methodist meeting of this district was held in the beautiful new church at Keene on the 24th inst., and following day. A full representation, ministerial and lay, from all the circuits, was present during the several sessions. The Rev. N. R. Willoughby, M. A., in the chair, and Rev. R. Clarke being elected Secretary, the usual routine business pertaining to each day, and each department of the work, was harmoniously discussed and disposed of. It was a matter of devout thankfulness that death had not during the year invaded the ministerial ranks. A most edifying conversation on the state of the work occupied the prayerful attention of the hearers. One probationer for the ministry, after having passed very creditable examinations is cordially recommended for ordination and two others for continuance on probation. One promising young man was reserved on trial for the ministry.

The Rev. W. S. Barker was elected representative to the Stationing Committee, W. A. Mowry, Esq., to the Missionary Committee, and D. Maddaden, Wm. Byers, and J. C. Sharpe, Esq's., to the connexional funds committee. The sectional corner of the District show advanced signs of the connexional funds, with a small increase of members. Com.

BY-LAW NO.—

BY-LAW to provide for the issuing of Debentures to the amount of Thirty Thousand and Five Hundred dollars for the purpose of erecting a High School Building in the village of Ashburnham, and to provide for the payment of the principal and interest thereon, and to repeal By-law Number Fifty one of the said municipality of Ashburnham.

WHEREAS the Public School Board of the Municipality of Ashburnham, require enlarged School accomodation for the said Municipality and have determined upon erecting a new School Building therein and have notified the Council of the said Municipality to provide the necessary funds therefor.

And whereas for such purpose the amount required will be the sum of Three Thousand and Five Hundred dollars, and it will be necessary for the said Municipality to raise the same by the issue of Debentures of the said Municipality to that amount in the manner hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality of Ashburnham irrespective of any future increase of the same according to the last revised assessment roll of the said Municipality being that for the year 1875) is the sum of Three Hundred and Fifty Thousand Five Hundred and forty dollars.

And whereas there is no existing debt of the said Municipality of the Village of Ashburnham, either for principal or for interest.

And whereas it is desirable to make provision for the payment of the said Debentures and the interest thereon within fifteen years from the day hereinafter appointed for the coming into force of this By-law.

And whereas it will require the sum of Four Hundred and Forty three dollars and thirty three cents to be raised annually during the said period of Fifteen years by special rate on the whole rateable property of the said Municipality for paying the said sum of Three Thousand and Five Hundred dollars and interest thereon as hereinafter mentioned.

And whereas for paying the interest of the debt hereby created, and creating an equal annual sinking Fund sufficient for the payment of the principal of the said debt it will require an equal annual special rate of one mill and twenty seven hundredths of a mill on the dollar in addition to all other rates to be levied each year on the whole rateable property of the said Municipality.

And whereas the Municipality of the said Village of Ashburnham heretofore by By-law Number Fifty one of the said Municipality provised for the issuing of Debentures for the raising of the said sum of moneys for the purposes above designated, but owing to the said By-law providing for the issue and redemption of such Debentures under the two hundred and fifieth Section of the Municipal Act the said Debentures could not be disposed of to advantage and none of the debentures thereby provided for having been issued it is deemed expedient to repeal the said By-law number Fifty one.

The Municipality of the Village of Ashburnham by the Council thereof therefore enacts as follows:

1. That for the purpose aforesaid the Reeve of the said Municipality of the Village of Ashburnham shall cause Debentures of the said Municipality to the amount in the whole of the sum of Three Thousand Five and Hundred dollars, none of such debentures being for a less sum than One Hundred dollars to be sealed with the seal of the said Municipality and to be signed by the Reeve and Treasurer thereof and the said Debentures shall declare on the face thereof the authority upon which the same were issued.

2. The said Debentures shall bear date of the day hereinafter appointed for the coming into force of this By-law and shall be payable in Fifteen years thereafter at the office of the Ontario Bank in the Town of Peterborough.

3. The said Debentures shall bear interest at the rate of Six per cent. per annum from the date thereof which interest shall be made payable half-yearly on the Fifteenth days of the months of July and January of each and every year at the office of the said Bank in the Town of Peterborough and such Debentures shall have Coupons attached thereto for the interest to mature thereon from time to time.

4. That for the purpose of paying the debt hereby created and the interest thereon as hereby provided an equal annual special rate of One mill and Twenty-seven Hundredths of a mill in the dollar shall in addition to all other rates be assessed levied and collected in each year during the continuance of the said Debentures upon all the rateable property in the said municipality.

5. That the said recited By-law of the said Municipality of the Village of Ashburnham Numbered Fifty-one and passed on the 5th day of November A.D. 1875 be and the same is hereby repealed.

6. This By-law shall come into force and take effect on the Fifteenth day of July, One Thousand Eight Hundred and Seventy-six.

Passed this [illegible] day of June, A.D. 1876, by the Municipality of the Village of Ashburnham shall be taken on this By-law on Saturday the Eighth Day of July, One Thousand Eight Hundred and Seventy-six, commencing at the hour of Nine o'clock in the forenoon and closing at the hour of Five o'clock in the afternoon at the following places and before the following Returning Officers, namely—for the North Ward of the said Village at Lesby's old Tavern, Elizabeth Street, John Alexander McWilliams Returning Officer, and for the South Ward at the Town Hall, Jonathan Stevenson, Returning Officer.

3. That the Clerk of the said Municipality of the Village of Ashburnham shall sum up the number of votes given for and against this By-law at his office in the Town Hall in the said Village on Tuesday the Eleventh day of July, A.D. 1876 at the hour of Eleven o'clock in the forenoon.

9. That the appointment of persons to attend at the various polling places and at the final summing up of the votes respectively on behalf of the persons interested in and promoting or opposing the passage of this By-law respectively will take place at the office of the said Clerk in the said Village on Friday the Thirtieth day of June, A.D. 1876, at the hour of Eleven o'clock in the forenoon.

NOTICE.

The above is a true copy of a proposed By-law of the Municipality of the Village of Ashburnham which will be taken into consideration by the Council of the said Village after one month from the first publication thereof in the Peterborough Examiner newspaper, which said first publication is on the Eighth day of June, A.D. 1876, and that the Poll for the taking of the vote of the ratepayers thereon will be held at the places on the day between the hours and by and before the Returning Officers mentioned and set forth in the said by-law.

JOHN WOOD,
Village Clerk.

Dated the 5th day of June, A.D. 1876.

HOMES AND FORTUNES

FOR ALL!

Grand Distribution of Cash, Farms, Brick Blocks, Residences, &c. by The Kansas Land and Immigrant Association, August 25. 1876.

Capital Stock 1,000,000 Legally Authorized

The Kansas Land and Immigrant Association, of Atchison, Kansas—an enterprise chartered by the State inaugurated and managed by men whose reputation for honesty, reliability and integrity stands unsullied, and who have the hearty endorsement of State and city officials and citizens—will on the 25th day of August, 1876, make a grand distribution to its shareholders of many valuable awards of cash and real estate. Highest cash award, $75,000. Lowest $25. The real estate awards, consisting of choice farms, business houses, residences, &c., have been selected from the most desirable and valued property in the State. Price of shares only $5 00 each. Every shareholder will be fairly represented in the distribution. The chances offered to secure a home and a fortune are unprecedented. *Distribution positive*, Aug. 25, 1876 or money will be refunded in full.

Send in your order at once, so you may have your numbers carefully registered. For a more particular description of the enterprise, terms of agents, special offer to clubs, and purchasers of two or more shares, manner of drawing, list of endorsers and references, description of Kansas, &c., send for their illustrated paper, the "Kansas Immigrant," mailed free to any address. Send $6.00 for a share. Address

PETERBOROUGH, JUNE 8, 1876.

FISHING.—Parties who go trout fishing these days may not get many fish but they are sure to get lots of bites—mosquito bites.

REGISTRATION OF BIRTHS, &c.—The number registered by the Town Clerk for the month of May are births, 21, marriages, 3, and deaths 13

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

THE DUST.—The dust is doing immense injuries to our merchants; why cannot the water cart be got to work at once and prevent all this loss?

RETIRING FROM BUSINESS.—Mr. F. Lemay is selling out his entire stock at a great reduction, as he is retiring from the business. Give him a call.

TOWN MATTERS.—The Council has sold the old fire engine to the Village of Cavanbellford for $800. It is an excellent engine, and it does appear as a mistake to part with it.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

GORE'S LANDING.—It is said that the barley crop in the neighbourhood of Gore's Landing has suffered severely from the late frosts, but strange to say that eastward all the crops are looking well.

MIDDLESEX.—There is a very warm contest for the seat vacated by the decease of Mr. Scatcherd. The Opposition party is doing its best to make protection do duty. Anti-freetrade is their hobby.

HOW TO SAVE MONEY.—Ministers purchasing goods from Mr. John Elder will receive a discount of ten per cent. He will, no doubt, allow the same rate to their wives, or members of their families.

EXAMINATION.—Dr. McLellan, Senior Inspector of High Schools examined the classes in the Collegiate Institute on Monday and Tuesday, but our report thereon must be deferred till next week.

NEW FIRM.—Messrs. Ames & McWinnie have entered into partnership in the boot and shoe line. They have a superior stock on hand, and are prepared to make to order shoes, or moccasins, at moderate prices.

AUCTION SALE.—Remember the auction sale of thorough-bred horses, household furniture, &c., to-day, at the residence of John Moloney Esq., over Rush & Elliott's grocery store, at 1 o'clock p.m. Sale without reserve.

BOARD OF TRADE.—A meeting was held on Thursday evening last to organize a Board of Trade, and Messrs. Erskine, Mason, Garvey, Haslitt, Bertram, Cluxton and W. G. Thomson were appointed to draw up bylaws, etc.

BLOOMING.—The fruit trees in and around the town are now in full bloom and present a very nice appearance, while the fragrance emitted therefrom is grateful in the extreme to those whom business keeps in close offices and stores, from morning until night.

ENCOURAGING.—Messrs. Foy & Starr. Soda Water and Ginger Ale manufacturers, are meeting with good encouragement in the manufacture of the above summer beverages. 150 dozen per day we think rather a good beginning. We believe it meets with general satisfaction.

WAX MAKING.—We are not surprised that many of the ladies are improving the opportunity they now have of learning the art of wax flower making being introduced here by Mr. Stone. The work done this way is certainly very pretty, and we understand it is easy and cheap.

MOONLIGHT EXCURSION.—The Steamer Ontario will run a Moonlight Excursion on Friday evening the 9th June, from Bridgenorth to Oak Orchard and return, leaving Bridgenorth at 8 o'clock P. M., returning at 11 P. M. Good music will be provided for dancing. Tickets 50 cts. per couple.

FIREMEN'S BAND.—This excellent band have arranged to give an open air concert on the Court House Green, every Friday evening, weather permitting, they having commenced last week. Mr. F. Miller, is to be commended for his enterprize in bringing out his band for the delectation of the public.

FOUND.—On Wednesday morning Mr. H. Rush on opening his door, found in a basket neatly wrapped up, a male child, about one month old. It had been left there through the night. Constable Johnston has it in care till after the Coun cilmeets. No clue has been discovered of the mother.

BRIDGE REPAIRING.—Repairs are now being made on the old skating rink by John White & Co., who have purchased the building and intend using it for a show room for Agricultural Implements. This firm have bought out Mr. E. E. Boaly's agency for the sale of Implements for this county.

GOLDEN EYE.—The trial trip of the beautiful boat will take place on the 20th of June and she will commence her regular trips about the 25th, of which due notice will be given in this paper. She will connect daily with the Cobourg train at Harwood, and will run to Hastings and Keene three times a week.

CRICKET.—There will be a match played here to-morrow (Friday) between the Port Hope and Peterboro' Clubs. As some first class players will take part in the match good play may be expected. Wickets to be pitched at 10 o'clock A. M. Reserve to the ground 10 cents. The stand will be reserved for the ladies.

LOOK-OUT FOR BOTHERATION.—Whilst Mr. Blake, of Wellington and his family were at a singing practice lately his house was entered and $160 in cash taken therefrom. The burglars missed two gold watches and other valuables that were very easy of access. This should cause people to be careful not to leave their houses unprotected.

DOMINION DAY.—This will be a gala day this year in Peterboro. There will be a grand demonstration of the Good Templars, and the committee have secured the Hon Neal Dow to address the assemblage. There will be other speakers from a distance and good music. Let all who can come and hear the addresses. The grand meeting will be in the Drill Shed and Grounds.

ACCIDENT.—On Thursday afternoon a little boy aged about 4 years, son of Mrs. Hendrick, fell from a three story window in Dixon's block on Hunter Street, to the ground, injuring his head very seriously. Dr. O'Sullivan was called in, and under his care he is progressing as well as could be expected. At the time it was thought he would not survive the injuries received, which were very great.

LITTLE BOB BRIDGE.—The above bridge is in need of a little repairs. There are two places in it where the planks are worn so thin that at any moment some animal may get a leg through and broken. A plank in time may prevent danger. Pigeon Creek Bridge has also a bad spot or two. It is dangerous for horses that shy. Two or three planks would prevent any risk of danger. Who should see to these thing s?

A NUISANCE.—There are at the present time two dead horses and one or two dead calves on the Ashburnham side of the Locks Bridge, which, if our information is correct, have been brought from the town and thrown there, it being the easiest way of getting rid of them. This sort of thing should be put a stop to and the parties who put the animals there should be brought up before the P.M. and made bury them.

NEW FOUNDRY.—Messrs. John Whyte & Coy. have built a new foundry North of the old stand, near the old Harvey woolen mills, where they are making Agricultural Implements to suit the requirements of this section of country. They have also fitted up Hill's Rink for show rooms, where they will keep their articles for sale, being convenient to the centre of business. See their advertisement in another column.

THE latest plank in the Conservative Platform is said to be "office" and there is but one plank in it—"office" is their watchword. If they can attach a slab in the nature of "free trade" they will, but they have made but little head way yet. The old ship is in danger unless relief come soon. They want a leader, they require principles, and they require consistency and steadiness before they can hope to sail on such a narrow and worn eaten plank.

NEW BOOT AND SHOE STORE.—Mr. Robert Ternan, late of Montreal, is just opening out a large stock of Boots and Shoes in the store lately occupied by Mr. E. Walton, George street. Mr. Ternan has had long experience in the boot and shoe trade, and therefore is able to buy in the best markets, and he promises to sell at as low rates as the trade will allow. His advertisement will appear next week; in the meantime give him a call.

FOUND DROWNED.—On last Saturday evening the body of a man was found in the Little Lake. An inquest was held by Dr. Kingsid, when it was alleited that it was the body of John Doherty who was missed in March last. It is thought that while crossing King street bridge, not entirely free from the effects of whiskey, that he must have got into the swollen creek and been drowned. The verdict returned was "found drowned." He was about 45 years of age and unmarried.

GRAND SOIREE.—We have no doubt the tea meeting next Monday evening, in the Methodist Church George Street, in connection with the opening of the new school room will be a very fine affair. Tea will be served at 6.30, P. M. Addresses will be delivered by several members of the stationing committee, which commences its sittings on Friday. The excellent choir of the Church, led by Mr. Templeton Brown, will discourse music. Tickets 40 cents. We hope the tea will be well patronized.

STRUCK BY LIGHTNING.—On Friday evening a very heavy thunder storm passed South of the town, being very heavy in the south and east of Otonabee, with vivid flashes of lightning, one of which struck the barn of Mr. Peter Comrie, knocking the gable end out of it, and splitting both plates in the beam. There were horses in the stable at the time but received no damage. A portion of the lightning went into the ground the remainder passing along the plate to the centre post which directed it to the cellar without further damage.

THE FIRST SHOT.—License Inspector Drain fired his first shot last week by summoning Mr. Henry Myers of Warsaw for breach of License Law. It was decided that the latter should pay $20 and costs, in all about $29. We understand that he is about having two cases in Norwood also. If reports be true, there are other townships and villages likely to require his attention. It is currently reported that Ashburnham and Douro require a little watching. He will soon give them a little time and attention.

CAUTION TO MANITOBA IMMIGRANTS AND TOURISTS.—People travelling through Minnesota cannot be too wary of scoundrels in the shape of three card monte men, with whom the railroads and steamboats are infested, and who are daily and hourly robbing the travelling community. Fisher's Landing, and the Northern Pacific, abound with these characters, and every day we are hearing of people who have been robbed by them. Our advice to travellers is to avoid every stranger who speaks of cards, no matter in what way the subject is introduced.—*Manitoba Free Press.*

AN action for libel against the *Mail* Printing and Publishing Company for $30,000 has been entered in the Superior Court at the suit of Mr. Joseph Perrault. The action is taken for an alleged libel in a letter which appeared in the *Mail* of the 12th ult., from its Philadelphia correspondent, entitled "Corruption of a Canadian Commissioner;" the particular portion taken exception to being, "Mr. Wade, whom he (Mr. Perrault) employs to write the names and decorate the cases, pays him 20 per cent. on all he does; in other words Perrault, a public servant, deals far from honestly with the Canadian public."

LITERARY.—On Wednesday evening last, the members of the Literary Society held a public debate at the close of the winter's meetings. The subject was, "Is Party Government in the interest of the State?" Major Boulton and Mr. Jeffery maintained the affirmative. Messrs. Earle and Poussette took the negative. There was a small but respectable audience. W. H. Scott, Esq., presided, but left the decision to the audience, which decided in favour of the affirmative. At the close of the debate B. E. Edwards, Esq., read an excellent essay on "Canadian Progress." More interest should be taken in the object of this Society.

BURGLAR ALARM.—Mr. Robt. Edwards has shown us a very ingenious Burglar Alarm called the Monitor, for which he is taking orders. It is in the form of a small pistol that can be attached to any door or window, and when set the door or window cannot be opened without setting off the Monitor. No burglar can pick it. It can be placed in a minute to any door or window of a bedroom and thus be used by travellers to give them warning of any attempt to enter the room. It is a blank cartridge that is used, and hence no danger of accident other than alarm. It costs only $1.00. All orders will be promptly attended to by Mr. Edwards, general agent. His address is Peterborough.

LITTLE BOB BRIDGE.—The above bridge is in need of a little repairs. There are two places in it where the planks are worn so thin that at any moment some animal may get a leg through and broken. A plank in time may prevent danger. Pigeon Creek Bridge has also a bad spot or two. It is dangerous for horses that shy. Two or three planks would prevent any risk of danger. Who should see to these thin s?

COURT OF REVISION.—The Court of Revision for the village of Ashburnham was held on Saturday last and the Assessor seems to have given general satisfaction as there were only eight appeals which were disposed of in the following manner:—Mrs. T. O'Connell, assessment confirmed; John Ladgate, assessment confirmed; A. Dormer, reduced to $400; J. H. Dumble, reduced to $650; D. W. Dumble and T. G. Haslitt, reduced to $2,500; D. W. Dumble, reduced to $2,070; W. Snyder appealed against his personal income which was struck off on his production of a certificate of assessment elsewhere; R. Nicholls (Estate of Wm Hall), assessment confirmed. The Roll was then confirmed with the above alterations.

OBIT.—Mr. Wm Tierney, a prominent and well known Roman Catholic citizen of this place, died on Thursday last, after a short but severe illness of inflammation of the lungs. He was a native of Tipperary, Ireland, and was deeply and fondly attached to his native country. A man of strong will, he took a very prominent part for several years in everything affecting the well-being of Irishmen, taking the Liberal side in politics, as he believed that from that party his country men could best expect to receive justice and equal rights: feeling, as he often expressed himself, that they had tried the Conservative party but had been disappointed. His remains were intered on Saturday and a very large concourse of friends and citizens followed them to their final resting place in the Roman Catholic Cemetery.

METHODIST CHURCH.—The School and Lecture Room of the new Methodist Church in this town has been fitted up in fine style. It fully competes with the fine church to which it belongs. It is arranged especially with a view to the successful working of the Sabbath School and it must be exceedingly attractive to the youth of the town. The opening sermons will be preached next Sabbath. The Rev. John Breden, the Chairman of Barrie District, will preach at 11 A.M., and the Rev. Wm. Briggs, Chairman of Belleville District, at 7 P.M. We understand that both of these Rev. gentlemen are eloquent and effective pulpit men, and we have no doubt the church will be filled. In the afternoon at three o'clock, addresses will be delivered by the President of the Conference, Rev. George Young from Winnipeg, Rev. C. Fish and others. We mention elsewhere the tea of Monday evening.

GRANGERISM.—Meantime if the immediate effect of the Grange movements is to discourage some persons from embarking in country store keeping, it will accomplish a good purpose. Under the influence of a period of inflation a great many stores have opened, both in town and country, that have been little better than agencies for the disposal of the surplus stocks of the wholesale merchants. Young men with little or no capital have been encouraged to start in business, only to be wound up as soon as it was found they could no longer serve a purpose. The consequence is that the solvent and prudent man of business has been injured and discouraged. Perhaps, too, the Grangers' store experiment may familiarize farmers with the advantage of buying for ready money, and that, as a result, a more wholesome state of things in this respect may prevail, even if the source from whence the new experience emanates may, perchance, exist no longer.—*Globe.*

IT is stated that Mrs. Finlay, one of the actors, and a leading one too, in the Sombra tragedy, was last week liberated from gaol on entering into recognizances in the sum of $500, to appear when called upon, the Attorney-General having issued an order to that effect. She was taken home by her father. The Sarnia *Observer* hopes this ends the last act in this dark tragedy, which will now only be "spoken of as a thing of the past, and which, it is to be hoped, we shall never gain see repeated." But the Chatham *Banner* is not so sanguine. It "thinks the last has not been heard of the matter, by any means. Mr. John Finlay is making a strong effort to made political capital of his brother's blood, and is being assisted therein by the Tory press, with a sort of fiendish delight. The commutation of Smith's sentence promises to be one of the stock scandals of the Tory papers, which will have its day, like the steel rails, the spitroon business, and Proton."

THE GOLDEN-EYE—DOMINION DAY.—The Good Templars and others from Harwood and Gores Landing who wish to visit Peterboro on Dominion Day can come by the "Golden-Eye" as Mr Calcutt has kindly offered to make arrangements to run his steam boat for the purpose of accommodating all parties from Cobourg or Harwood who wish to take part in the Peterboro Demonstration. It would therefore be wise in the Committee of management to try and make this known as widely as possible. Arrangements can also be made for the return of the parties coming by the "Golden-Eye" so that they can remain just to suit themselves and charge only one fare.

MUD LAKE AND BOBCAYGEON.—Captain Bottom of the steamer "Ontario" has also kindly offered to make arrangements to bring all who wish to come from Bobcaygeon and to return to suit them, so that they can partake in the Demonstration and hear the addresses. To make these arrangements conduce to the great object of the Demonstration it might be well for the Committee to communicate with leading temperance men in Cobourg and Bobcaygeon and thus make it fully known that they can attend the Demonstration at reduced fares and enjoy a sail also.

SPECTACLES.—Philip Taylor has made a discovery for which millions of people will yet thank him. He has found it to be almost impossible to get a pair of spectacles or eye glasses of any manufacture that are perfect or correct. From the cheapest glass to the best polished, all alike are imperfect. And if any person is fortunate enough to get a pair it is only by chance. We learn Mr Taylor tests his spectacles and he has no hesitation in saying that more than two thirds of the spectacles now made are very incorrect and it is a wonder that people are not stone blind, and no wonder that the eye sight of so many fail so fast after they commence to use spectacles. Mr Taylor entered into a contract with the only manufacturer in the United States that could undertake to supply him with spectacles and eye glasses, that will be correct in every respect and are to be called P. Taylor's corrected lens spectacles and eye-glasses. P. Taylor will be stamped on the nose bridge of every pair, every glass will be thoroughly tested by him and every imperfect glass will be thrown out at the manufacturer's expense, so according to that it will be an impossibility to get an imperfect lens from Mr. Taylor, who will instruct ever purchaser to test his own glasses so that there will be no humbug. To give every person an opportunity, he has concluded to stop one week longer than he intended Mr Taylor will be found at the Huffman House, in room No 39, first flat, where he will be until June 17th. so that parties requiring spectacles can thus call and secure a pair. He assures the public that they are the best and most correct in the world.

The damage by floods in the vicinity of Ottawa amount to $31,000.

EVERYTHING in the Gentlemen's Furnishing are now at T. DOLAN & Co's. 21-tf

MILLBROOK.

The first assembly under the auspices of Albert Lodge, No. 10, O. Y. B., was held in the town hall on the evening of May 24th. The committee of management deserve credit for the gay appearance of the hall and the orderly manner in which the affair was conducted. A very large crowd were in attendance, fully more than were expected. Several of the brethren from Port Hope, Lindsay, Omemee and Peterboro' were present, and returned home well satisfied and highly pleased. The music was excellent and the door managed acted his part in a satisfactory manner. Every person enjoyed themselves to the full height of their appreciation. Altogether it was a decided success.

BOBCAYGEON.

We clip the following from the Bobcaygeon *Independent*:—"A great want among harness makers and workers in leather, has been a sewing machine that would use a waxed thread and make the lock-stitch. Several attempts have of course been made but none proved successful. The difficulties to contend with were that the waxed thread would not slip through the eye of the needle, and when forced through the leather stuck to the needle and made it impossible to get the shuttle between the thread and the needle in order to look the stitch. Mr. J. Miller, of the Beehive, has recently succeeded with great ingenuity, in perfecting a machine that is all that can be desired. In the usual place of the needle, an awl is used, this stabs the leather and is immediately followed up by a crochet needle which draws down the thread, when a very cleverly contrived semi-circular hook working on an elliptic takes the thread off the needle and holds it out while the shuttle passes through the loop. The thread is waxed by passing through a sponge kept warm with a lamp. Mr. Miller has the invention patented in Canada and the States, and has applied for patents in Europe. He has been offered a very large sum for his Canadian right and the money value of the invention to Mr. Miller is variously estimated at from one hundred thousand to two hundred thousand dollars."

This is the machine which Mr. Miller is asking a bonus for the manufacture in this town, which we have every reason to believe he will get. Ed Ex

SOUTH MONAGHAN.

COUNCIL MEETING.—The municipal Council of the Township of South Monaghan met in the council chamber at Centreville, on Monday, the 29th day of May, 1876, at 5 o'clock P. M. Members all present, the Reeve in the chair. The minutes of last meeting were read over and on motion confirmed. Several accounts for printing, gravel roads, &c., were presented. Moved by John Waterman, seconded by J. Wood.—That the Reeve issue his order on the Treasurer for the following amounts, viz:—Martin Parker, Assessor, $30; John Waterman, $7,50; James Stratton, printing, $5.50; J. A. Turnbull, salary, &c., $24; James Perrin, gravel, $3; J. Barnard, Committee, $3; Councillors, 1½ days, $15.—Carried. John Waterman presented By-law No. 201, being a By law for the purpose of reducing the statute labour appearing on the assessment roll of this municipality for the year 1876. Moved by R. Pue, seconded by J. Wood,—That By-law No. 201 be now read a first time.—Carried. Read a first time. Moved by Joseph Wood, seconded by John Waterman,—That By-law No. 201 be now read a second time in council and that the Reeve leave the chair. R. Pue in the chair. Moved by J. Barnard; seconded by John Waterman.—That the statute labor be regulated on the same scale as for the year 1875.—Carried. The Chairman reported the second reading of By-law No. 201, with blanks filled up. The committee rose, the Reeve resumed the chair. Moved by John Waterman, seconded by Joseph Wood,—That By-law No. 201 be now read a third time, signed and passed. Carried. Moved by Robert Bue, seconded by John Waterman.—That this council do now adjourn to meet again at Bailieboro, on Monday, 5th of June, 1876, at 2 o'clock P. M.—Con

COURT OF REVISION.—The municipal council of the Township of South Monaghan met as Court of Revision at Centreville, on Monday, 29th day of May, 1876, at 10.30 o'clock A. M. The members of the Court took their respective oaths of office and took their seats. On motion, John Waterman took the chair. On motion the Reeve proceeded to read the roll. The following appeals were heard: viz:—Henry N. Barnard, reduced $200 on his real property. The name of Wm. Roberts was entered on the roll instead of Colson Adamson, for con. 2, lot pt. 17. The name of Edward Mahood was erased and Colson Adamson entered in his stead for lot part 1 con 2. Wm. Emberson got an abatement of $60 on his personal property on account of debt. Daniel Hesald, got an abatement of $100 on his real property on 1 his acreage reduced to 40 acres. T. Graham, got an abatement of $475 on his real property. James Perrin Senr, assessment for last went half of 10 on Con 2 and north part 10 on con 1 was transferred to James Perrin Jr. with $150 of personal property. J. & R. Riddell, got an abatement of $300 on their real assessment. James Pinnmotte, got an abatement of $200 on his real assessment. Robert Fanning's assessment was raised $50. Robert Ward's assessment was confirmed. The name of P. Carter, was erased and the name of Joseph Bate's entered thereon for part 1 con 2. The name of John T. Pue, was erased and the name of Samuel Perrin entered instead for east half of 14 on con 1. Joseph Purdy was entered for a span of horses, valued at $150. One of Joseph Donaldsons dogs was struck off. On motion the assessment as revised, was confirmed, and the Court adjourned sine die.

THE LARGEST STOCK of Colored Shirts in Town will be seen at T. DOLAN & Co's 21-tf.

A MAMMOTH DISPENSARY.

"Among the notable physicians of this country, Dr. R. V. Pierce of Buffalo, N. Y., stands deservedly high. He has obtained professional eminence through strictly legitimate means, and fully deserves enviable reputation which he enjoys. A thorough and careful preparation for his calling, and extensive reading during a long and unusually large practice, have made him extraordinarily successful in his Private practice, and gained the commendation even of his professional brethren. By devoting his attention mainly to certain specialities, he has been rewarded in a very great degree, and in those lines is recognized as a leader. Not a few of his preparations, compounded for these special cases, have been adopted and are used in their private practice, by physicians throughout the country and his pamphlets no longer worth upon these subjects have been discovered as valuable additions to medical literature, and placed among the regular text-books of many medical schools. Acknowledgment of the service which has performed for medical science has been made by presentations of degree from two of the first medical institutions of the land. The increasing demand for his specifics, some time since necessitated the opening of a regular dispensary for their preparation, and from a small beginning the business of the establishment has now grown to mammoth proportions. Over 60 hands, persons are employed in the various departments, and a corps of able and skilled physicians are retained as an advisory board in difficult cases. Elsewhere in to-day's *Republican* a whole page is devoted to a communication from Dr. Pierce setting forth something of the history and details of this most establishment which will be found not uninteresting reading." If you would patronize Medicines, scientifically prepared by a skilled Physician and Chemist, use Dr. Pierce's Family Medicines. Golden Medical Discovery is nutritious, tonic, alterative, and blood cleansing, as an unequaled Cough Remedy; Pleasant Purgative Pellets, scarcely larger than mustard seeds, constitute an agreeable and reliable physic; Favorite Prescription, an unequaled remedy for debilitated females; Extract of Smart-Weed a magical remedy for Pain, Bowel Complaints, and an unequaled Liniment for both human and horse flesh; while his Dr. Sage's Catarrh Remedy is known the world over as the greatest specific for Catarrh and "Cold in the Head" ever given to the public. These medicines are sold by druggists.

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Perideeal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12¼ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay and all Medicine Dealers.

—ELECTRICITY—

THOMAS' EXCELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Ruman, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

TRUANT MADGE.

BY KATE PUTNAM OSGOOD.

The shadows lie sleeping on field and hill;
The cows come home an hour ago;
The bees are hived, and the nests are still,
Where can the child be lingering so?

Oh, where can the little truant be?
So swift of foot as she ever has been
It is not far, by the meadow way,
To the lane where the blackberry vines begin.

Her mother stands in the door-way there,
Shading her eyes from the setting sun,
And up and down, with anxious air,
Looks for a token of the truant one.

Has she wandered on where the swamp flowers blow,
In the darkling wood and lost her way?
Has she slipped in the treacherous bog below
That hides under mosses green and gay?

Nay, timorous mother, spare your fears,
Your little maiden is safe the while.
No marsh-bird screams in her startled ears:
No forest means her feet beguile.

She only stands amid the rye,
There at the end of the clover plain,
And pulling a daisy-star, to try
Whether her love loves back again.

And Will bends over the bar beside.—
Two handsome fellows than one, forsooth!—
Lounging and holding, eight-eyed
To see if the daisy tells the truth.

THE YOUNG FOLKS.

HOME RULES.—1. Shut every door after you, and without slamming it.

2. Never call to persons upstairs, or in the next room; if you wish to speak to them go quietly to them.

3. Always speak kindly and politely to the servants, if you would have them do the same to you.

4. Tell of your own faults and misdoings, not those of your brothers and sisters.

5. Carefully clean the mud or snow of your boots before entering the house.

6. Be prompt at every meal hour.

7. Never sit down at the table, or in the parlor, with dirty hands or tumbled hair.

8. Never interrupt any conversation, but wait your turn to speak.

9. Never reserve your good manners for company, but be equally polite at home and abroad.

10. Let your *first*, *last*, and *best* confidant be your mother.

MAY BASKETS.—I suppose the children of the school-house will be bringing may baskets to the little schoolma'am and to each other this year as they did last season. It's a pretty custom, but the birds tell me it is not so common as it should be. A May basket is the sweetest and freshest thing I know of, always excepting the little schoolma'am. Sometimes it is hardly more than a tiny white paper box with ribbon handles, filled with violets, but it is always lovely, with its white or blue ribbon streamers, and its moss and early wild flowers. I hope all little lame children, who can't go out and play, and children in hospitals, will have May baskets sent them this year. May baskets are such simple little things, they can be made and filled in any way one pleases—and, what is more, they grow like a flower, right out of loving hearts!

HOSPITAL FOR ANIMALS.—Well, now! Here's news for the birds and beasts and insects! I wish they all could go to India to live, though I should be lonely enough without them. In India there is a religious sect whose members make it their particular business to care for and nurse wounded and sick animals, from oxen down to flies. Hospitals have been built in Bombay, and are full of disabled cattle, dogs, cats, rats, birds, and sparrows sent their for treatment. It must be an odd sight to see cows with their eyes bandaged, and fowls strutting around with one wooden leg, and men feeding and waiting upon them. But it is much pleasanter than to see boys teasing a cat, or throwing stones at a bird. I wish a few dozen of those pious Jains would come to Canada—don't you?

AT Mumford, in Napa County, California, there is an unfinished church, which is built of petrified wood. In the stone of its walls and tower various objects may be clearly traced. Besides different kinds of wood showing the grain perfectly, there are leaves, ferns, twigs, tendrils, berries, and mosses, all perfect and beautiful in form and grouped together in wonderful variety.

THE NEW LICENSE LAW.

An attempt has been made to make political capital out of the dissatisfaction of the rejected tavern keepers at not receiving a license, but this attempt is too thin to go down with thinking men. It was to be expected that the working of an act, that would necessarily cut off a large number of licenses, would give a great deal of dissatisfaction among the disappointed. It was also to be expected that they would blame the government for their disappointment. If it had been the object of the government to make the license act serve a political purpose, they would not have commenced by cutting off so large number in the cities and towns, but would have left them all on the list and made them all subservient to their own interest. Then again they would have appointed quite a different class of men to the offices of inspectors and commissioners. The officers appointed are too stringent in the carrying out of the act to be good political tools. If the object were to make the tavern keepers subservient to the government, care would have to be taken that none were fined, for that makes them enemies at once. Care would also have to be taken that the license fee was low, for no tavern-keeper will thank the government for, or be likely to support it by being taxed, with a high license fee. A party must be hard up for a grievance that must blow hot and cold at the same time, or try to make capital out of the license act on account of its stringency and then charge the Dominion government with dereliction of duty in not passing a prohibition act

RIEL AGAIN.

The notorious outlaw Louis Riel, as reported last week, was some months ago secretly brought over to Longue Point Asylum and there lodged as a lunatic. From a reliable source it is learned that his madness appeared to be of an exceeding common type, as he was allowed to roam about the building and used to read the papers and act generally in a rational manner. He received visitors almost daily, but owing to the reports which got abroad it was deemed advisable to remove him farther away from that city, and, consequently, he was, on Saturday, sent down to Quebec, but beyond keeping his state room pretty closely noted, in no way different from the other passengers. If he is demented he is suffering from a very mild type of lunacy indeed. His health, however, is stated to be broken, and he could, it is alleged, have claimed an asylum with the news as an invalid. Inquiries among his old schoolfellows have elicited nothing in regard to why he came to Canada, but it is hinted that they with opinion afloat to have him pardoned now that he is in Quebec.

HOUSEHOLD AND FARM.

FLOWERS FOR THE GARDEN.———writer in the New England *Farmer* says of bedding plants, that it is rarely prudent to plant out tender plants, such as zonale geraniums, verbenas, lobelias, coleus, heliotropes, &c., until all danger frost has passed away. The beds for these plants should be made very rich with decayed manure, and a little sand to keep the soil from becoming baked in the heat of the summer; and as soon as all fears of frost are passed, select a dull, showery day for transplanting them, and dig suitable holes for each plant, making them at such a depth that the steam of the plant will be covered somewhat deeper than it was in the pot. In each hole put a little warmish water so as to allow the earth to be well moisted about their roots. Take the pot in the left hand and, after wetting the soil well, run a knife between it and the the pot, then turn the plant between the fingers, rap upon the bottom of it, and the ball of earth will slip out into the hand. Now place it into the hole dug to receive it, and press the soil tightly around it with a trowel. Close contact of the earth with the soil of the plant is greatly essential successful transplanting, for if the roots become distorbed, their leaves will flag, and the plant received a check but if they are not molested the plant will continue to grow more luxuriantly.

There are often a few potted plants which one does not desire to disturb, and yet would like to sink in the earth, but on account of the danger of their roots growing through the aperture at the bottom, are deterred from doing so. But if a trowelful of coal or wood ashes are placed at the bottom of the hole dug to receive the pot, the roots will wither whenever they attempt to stray and thus be restrained from wandering. Double geraniums, as a general thing, will bloom more plentifully if if grown in pots rather than in the open border, and there are some other plants which thrive better when limited in root growth.

Of annuals it is said, a hedge of sweet peas upon the north side of the garden, will be always a pleasing adornment. In truth, if I could possess but three kinds of flowers for the summer, I should select plenty of sweet peas, mignonette and sweet alyssm, and should be always abundantly applied with sweet flowers for the decoration of the parlor dining-room. But the peas should be sown by the pint, like their cousins, whose presence at the dinner table is always welcome, and not by the small paper or even handful, and then they can be gathered by the basketful; and by picking the first flowers, and not letting them form seed pods, they can be kept in continual flower until the frost cuts them down.

Now is the time to sow the seeds of these plants in sunny spots. Indeed we think they are more likely to come to perfection, when sown after the ground is thoroughly warm, and the heavy rains are over.

POTATOES.—There are many objections to the present method of culture, though it can not be denied that it has yielded abundant harvest. The best known method of ridge or hill culture is as follows: Select a strong, loamy soil, which has been in cultivation at least one year; fertilize thoroughly, if in the the hill; mingle the manure with the soil; mark in rows 3 feet apart; drop the seed in drills 18 inches apart; hoe twice, the second time forming a continuous ridge. The method will yield, in favorable years, at least 250 bushels per acre. This—and planting in hills three feet apart each way—are the method practiced by nine-tenths of our farmers. But there seem to be objections to them. All rain and moisture must necessarily soak quickly through the ridge, furnishing but temporary nourishment. The heat of the ridge, and renders its soil lifeless. We have observed that the ridges yield more potatoes when they are shaded somewhat by weeds, and while a weedy potato patch betokens a slovenly farmer there are many reasons for belief that weeds protect the potato ridge in season of drouth. The potatoes are also liable to exude from the hill and to be exposed to the sun, an exposure which ruins them.

CENTENNIAL NOTES.

Machinery hall cost $792,000.

Turkey exhibits none of her repudiated bonds.

The average number of visitors now is about 40,000 per day.

Australia will exhibit 93 varieties of apples at Philadelphia.

The regular hotels at Philadelphia reckon that they can lodge 34,385 persons.

Boston has a daily through train to the Centennial, which it reaches in 12 hours.

Russia, and Victoria, Australia came too late to make any show at all at the opening.

Eight or ten large fountains on the grounds compete with the numerous cocktail factories.

The police force on the exhibition grounds number 1,000, not including a large corps of "fly cops."

Among the "big things" exhibited by Mexico is one lump of quarts and bromide of silver weighing 1300 lbs.

The restaurant-keepers have been called before the Bureau of Concessions and their scale of prices are now under consideration.

The Rider life rafts, which have been adopted by the United States Government, are among the curious productions of the century that are most admiringly examined.

It is said that to walk through all the aisles of the Centennial Exhibition buildings one must travel seventy-two miles. Visitors who do the thing thoroughly will have to take a second day for it.

The ladies take especial delight in the Japanese exhibit, and view with curious delight the odd-shaped and odd-coloured cups, saucers, water-pitchers, and teapots, which are a conspicuous part of the display.

There is a Centennial Medical Department, to which those suddenly taken ill may be carried. Thirty or forty cases of exhaustion have occurred on the grounds, with others of laceration, fracture and bruise.

The Centennial Fire Department consists of 169 men, divided into three companies, one of which continually patrols the building, while the extinguishers and fire plugs are numerous enough to meet any possible demand for their use.

The Argo, which is said to be the largest steam pleasure yacht in the world, has arrived at Philadelphia with a party of English gentlemen.—They have been voyaging to the West Indies and Mexico, and have now come to witness the Exhibition.

GERMAN SOUP.—One pint of molasses, one cupful of butter or lard, one tablespoonful of ginger and cloves each, one tablespoonful of saleratus (pepper if you enough to roll out very thin. Bake on flat tins.

THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S
Before Taking. After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic liquors; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse; as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature, Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 per box, or six packages for $5, or will be sent by mail on receipt of the money, by addressing
WILLIAM GRAY & CO.,
Windsor, Ont
Sold in Peterborough, A.W. Kempt, by Dr. Bell, and all druggists. Sold in Lakefield, by E. Watson, and Northrop & Lyman, Toronto, Wholesale Agents

THE PHYSICIANS' REMEDY
When you are ill and don't know how to get over it you generally send for your physician. If the opinion of SIXTEEN LEADING PHYSICIANS of Montreal is considered worthy of confidence, you will try
Dr. BIRNBAUM'S
Rheumatism and Gout Remedy to the efficacy of which those Sixteen Physicians have certified, for the cure of
RHEUMATISM. NEURALGIA. GOUT, LUMBAGO STIFFNESS IN LIMBS OR JOINTS. SPRAINS, FROSTBITES, CHILBLAINS. BRUISES. CUTS. BURNS, WANDERING PAINS, &c. It has cured several of these Physicians and thousands of others in Canada, and is now considered on this Continent, as well as in Europe
The Only Reliable Remedy,
For all kinds of Rheumatic Affections. The fac-simile signatures of 16 leading Physicians of Montreal are on each bottle as a guarantee of its efficacy.
For sale by all Druggists at 50 cts and $1.00 per bottle.

CERTIFICATES OF PHYSICIANS
—ARE—
ON EACH BOTTLE!!!!
and can be had also by applying to
CHARLES MARTIN,

One of the Testimonials!
From DR DUNCAN MCCALLUM, Montreal—
I the undersigned have been suffering very much for the last two years from Rheumatism in the ankle joint, so much so that I was often prevented from attending to my calling, but three applications of Dr. Birnbaum's Rheumatism and Gout Remedy gave me that relief from pain and stiffness which I did not experience for the last two years, and after eight days' use of this remedy I find myself entirely cured.
I owns this statement to the public, to the profession and to the merits of that genuine article

VINEGAR BITTERS
PURELY VEGETABLE. PERFECTLY HARMLESS. CALIFORNIA VINEGAR BITTERS
WONDERFUL RESTORATIVE PROPERTIES VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and diseases are by some mysterious contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.
Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

METHODIST CHURCH

Toronto Conference.

For the first time in the history of Peterborough, this annual convocation of Methodist Ministers is being held within its limits. The spacious edifice on George Street, the Cathedral of Methodism in these parts—is the place of meeting, which has been fitted up in a convenient manner to suit the business of such a deliberative body.

The platform is at the east end of the Church, on which sits the President and Secretary and Assistants, and some aged Ministers, or such as hold official relationship with the Conference.

For nearly a week the Stationing Committee have been in session, and they have made out the first list of appointments, which will doubtless be subject to much criticism by the various interested parties, and will undergo various corrections before being finally adopted by the Conference. There are, we believe, more than two hundred Ministers in actual attendance.

The first session of the Conference was held on Wednesday morning, Dr. Wood, the retiring President, opened the Conference in due form, by devotional exercises, after which the roll was called, and then the duty of electing a President by ballott, was attended to. This seemed to excite much interest, as it was quite evident that there were various candidates for the office. The retiring President has filled the chair ten times, and positively refused to allow himself to be put in nomination again. This venerable Doctor has been in the ministry somewhere about half a century, and is held in great estimation by his brethren, and might without much trouble have been re-elected. In a little time all suspense was over, for Rev. Wellington Jeffers, D. D., was declared to be the successful candidate, an announcement which was received with considerable cheering.

Dr. Jeffers took the chair, and briefly addressed the Conference in a very appropriate manner. He has been in the ministry about thirty years, and is well known throughout the province as a most powerful and able minister.

Dr. Green in a speech of well chosen language moved a resolution of thanks to Dr. Wood, the retiring President, which was ably seconded by Rev. J. Hunt, and adopted by a rising vote of the Conference. The Ex-President in acknowledging the vote of the Conference was much affected.

Rev. W. Briggs was then elected Secretary of Conference, a post which it is believed he is well qualified to fill. Mr Briggs acknowledged the vote of the Conference in a brief speech which was greatly cheered. The retiring Secretary received the thanks of the Conference in a resolution which was moved and seconded by Revd's J. G. Laird, and E. Clement.

On motion of Rev. J. Breden, seconded by Rev. J. G. Laird, a nominating committee consisting of Revd's J. G. Laird, J. Breden, J. E. Betts, N. R. Willoughby and J. Shaw was appointed.

On motion of Rev. J. Potts, seconded by E. B. Harper, the Conference resolved that in future the Ex-President of the Conference is to preach the Ordination Sermon

At 12 o'clock the Conference Prayer Meeting was held, which continued for one hour.

SABBATH.

On Sabbath the pulpits of this town were occupied by Ministers of the Methodist Conference, which is being held here this week.

Rev. C. Fisk, formerly of Peterboro', gave a practical discourse in the Presbyterian Church, (St. Paul's) in the morning, and in the Baptist Church in the evening. At 2.30 he delivered an excellent address to the Sabbath School children assembled in the new Methodist Church, George Street. He even surpassed himself in this address. It was pointed, eloquent and interesting to both young and old.

The Rev. Mr. Mahon preached in the Baptist Church in the morning.

The Rev. Mr. Shaw preached in St. Andrew's Church in the morning, and the Rev. Jno. G. Laird in the evening.

The Bible Christian Church was occupied in the morning by Rev. Mr. Williams, and in the evening by the Rev. Mr. Clements.

Charlotte Street Methodist Church was supplied by Rev. R. H. Smith in the morning, and by the Rev. Mr. Rupert in the evening.

In the George Street Methodist Church the Rev. Mr. Breden, of Sarnia, preached in the morning. He is a clever, eloquent and practical preacher. In the evening the Rev. W. Briggs delivered an eloquent discourse. He paid [illegible] one of the [illegible] in the Methodist Church [illegible] and was followed by Rev. C. Fisk and Rev. Geo. Young. These services were [illegible]

METHODIST CHURCH

Toronto Conference.

For the first time in the history of Peterborough, this annual convocation of Methodist Ministers is being held within its limits. The spacious edifice on George Street, the Cathedral of Methodism in these parts—is the place of meeting, which has been fitted up in a convenient manner to suit the business of such a deliberative body.

The platform is at the east end of the Church, on which sits the President and Secretary and Assistants, and some aged Ministers, or such as hold official relationship with the Conference.

For nearly a week the Stationing Committee have been in session, and they have made out the first list of appointments, which will doubtless be subject to much criticism by the various interested parties, and will undergo various corrections before being finally adopted by the Conference. There are, we believe, more than two hundred Ministers in actual attendance.

The first session of the Conference was held on Wednesday morning, Dr. Wood, the retiring President, opened the Conference in due form, by devotional exercises, after which the roll was called, and then the duty of electing a President by ballott, was attended to. This seemed to excite much interest, as it was quite evident that there were various candidates for the office. The retiring President has filled the chair ten times, and positively refused to allow himself to be put in nomination again. This venerable Doctor has been in the ministry somewhere about half a century, and is held in great estimation by his brethren, and might without much trouble have been re-elected. In a little time all suspense was over, for Rev. Wellington Jeffers, D. D., was declared to be the successful candidate, an announcement which was received with considerable cheering.

Dr. Jeffers took the chair, and briefly addressed the Conference in a very appropriate manner. He has been in the ministry about thirty years, and is well known throughout the province as a most powerful and able minister.

Dr. Green in a speech of well chosen language moved a resolution of thanks to Dr. Wood, the retiring President, which was ably seconded by Rev. J. Hunt, and adopted by a rising vote of the Conference. The Ex-President in acknowledging the vote of the Conference was much affected.

Rev. W. Briggs was then elected Secretary of Conference, a post which it is believed he is well qualified to fill. Mr Briggs acknowledged the vote of the Conference in a brief speech which was greatly cheered. The retiring Secretary received the thanks of the Conference in a resolution which was moved and seconded by Revd's J. G. Laird, and E. Clement.

On motion of Rev. J. Breden, seconded by Rev. J. G. Laird, a nominating committee consisting of Revd's J. G. Laird, J. Breden, J. E. Betts, N. R. Willoughby and J. Shaw was appointed.

On motion of Rev. J. Potts, seconded by E. B. Harper, the Conference resolved that in future the Ex-President of the Conference is to preach the Ordination Sermon

At 12 o'clock the Conference Prayer Meeting was held, which continued for one hour.

SABBATH.

On Sabbath the pulpits of this town were occupied by Ministers of the Methodist Conference, which is being held here this week.

Rev. C. Fisk, formerly of Peterboro', gave a practical discourse in the Presbyterian Church, (St. Paul's) in the morning, and in the Baptist Church in the evening. At 2.30 he delivered an excellent address to the Sabbath School children assembled in the new Methodist Church, George Street. He even surpassed himself in this address. It was pointed, eloquent and interesting to both young and old.

The Rev. Mr. Mahon preached in the Baptist Church in the morning.

The Rev. Mr. Shaw preached in St. Andrew's Church in the morning, and the Rev. Jno. G. Laird in the evening.

The Bible Christian Church was occupied in the morning by Rev. Mr. Williams, and in the evening by the Rev. Mr. Clements.

Charlotte Street Methodist Church was supplied by Rev. R. H. Smith in the morning, and by the Rev. Mr. Rupert in the evening.

In the George Street Methodist Church the Rev. Mr. Breden, of Sarnia, preached in the morning. He is a clever, eloquent and practical preacher. In the evening the Rev. W. Briggs delivered an eloquent discourse. He paid [illegible] one of the [illegible] in the Methodist Church [illegible] and was followed by Rev. C. Fisk and Rev. Geo. Young. These services were [illegible]

in connection with the opening of the S. S. rooms in the basement of the new church. The rooms are beautifully fitted up for the work for which they are intended, at a cost of about $2,680. The furniture has cost not much short of $600. The seating is different from that generally adopted, as it consists, nearly altogether, of chairs, with hinges attaching a given number according to the number in a class, so that they can be drawn into a semicircle, or left straight as circumstances may require.

The Soiree on Monday was also very successful, realising about $100, and the collection on Sunday about $110, making in all about $210. On Monday, after addresses by the Superintendent, Mr. Lowry, and by Revd's R. H. Smith and — Laird, subscriptions were taken up, nearly equal to all required by the committee to leave the school room free of debt. The school is one of the largest in the province, and is conducted with zeal and earnestness.

ON SABBATH 18TH JUNE,

All the Protestant pulpits in town, except the Episcopal Church, will be supplied by members of the Conference, as nearly as possible according to the arrangements in last week's *Examiner*.

At the close of the meeting, Mr. Mason, on behalf of the Trustees of the Church, presented Mr. Richard Parnell with a very handsome and costly gold watch, as a token of their esteem for him, and appreciation of his valuable services as leader of the choir for many years. In doing so Mr. Mason referred to the old Mr. Parnell's family had rendered, a service that could be but faintly remembered by the Church. Mr. Parnell made a suitable reply. The watch bears the following inscription:

"Presented to R. Parnell, on his retiring from the leadership of the choir in the Methodist Church Peterboro."

The Choir, under the leadership of Mr. T. Brown, sang several appropriate pieces during the intervals.

THE ASSESSMENTS

The following comparison of the assessments of the Municipalities in this County and a carefully prepared table in another column, by M Sanderson, Esq Reeve of Smith, will be interesting to those concerned in the equalization of the Rolls. It will afford County Councillors a ready reference for all matters contained therein:

			No. of Acres	Assessed Value

TEACHERS' CONVENTION

The Teachers of Smith, Monaghan and Ennismore held a Convention in the School House of S.S. No. 4, Smith, on Friday and Saturday 9th and 10th inst.

There were present during the first session, Mr. S J Duff, President; M O'Brien, Secretary; Misses Duff and Smith and Messrs Metcalf, Wm M Wood, Hill and Moffatt.

Several Essays were read by members present, after which there was a discussion on the subjects introduced.

Mr. Duff's essay on reading and the discussion that followed occupied the Convention until noon. In the afternoon the County Inspector and Mr. Wm Wood and Mr Trumpour were also present and took part in the Convention. From 2 to 3.15 Mr O'Brien discussed and explained his method of teaching Arithmetic, the remainder of the afternoon was devoted to Geography—Mr Hill read an essay on the subject, and Mr. W M Wood read one on Penmanship.

Saturday, Mr. Metcalfe read an essay on English Grammar and Mr Moffatt one on the Powers of Letters.

Several visitors were present during the Convention.

The Teachers do not manifest enough interest in these Conventions. Only two female teachers were present.—Com.

TOWN COUNCIL.

The Council met on Monday evening.

Present—the Mayor, and Councillors Thornton, Cahill, Haggart, Douglas, Dixon, Cook, Elliott, Hopkins, and Paterson.

The minutes of the previous meetings were read over and confirmed.

Councillor Rutherford came in and took his seat.

COMMUNICATIONS.

From W. Lasher, reporting on the sewer block. He thought that it was performing a useful purpose, and if the ball should fall in could come deep about ten inches. He said that there was cast iron bedding it up, and that there was no danger of it [illegible]

[illegible]

From Dr. Hamil[illegible], asking that he had been [illegible]

From John Beavis, in his official capacity, whose wife he is now attending, and that here is a great deal of disease and suffering in the family; 3 of the children have died; Mrs. Beavis is suffering from brain disease, and will perhaps loose her eyesight; she has friends in Montreal who would take care of her if she were only there, and recommending the Council to send her.

From Mr. Garrison, asking for a bunch are license on Hunter Street, in the store of W. Paterson, Senr.

From W. Paterson, Senr., asking the council to grant the license for his shop on Hunter Street, as it is inside the limits of the butchers By-law.

From John Gibbs, Chief Engineer of Fire Brigade, drawing the attention of the Council to the fact that there is not sufficient hose to fill some of the tanks, and that the old hose is not safe.

From Mr. Belcher, Town Engineer, reporting on the Sherbrooke drain explaining the way it should be done.

From Mr. Belcher, reporting on Downey Street between Dublin and Edinburgh, explaining also what should be done on that street; the damage caused by the flood would cost about $1,300.

From Mr. Belcher, reporting on the Smith Street Bridge, and also the approaches and grading thereto.

From Dennistoun, Bros. & Hall, asking that the matter of the contract of Croly & Curtis for cutting, be left to the Town Solicitor to settle with him.

From Dennistoun, Bros. & Hall, in reference to the open pool in front of Mr. Croft's door on Hunter St., as it is a disgrace to the town to have such a place there, breeding disease from year to year.

From S Laurin and others, asking for a sidewalk in front of his place, a bridge over the drain, and a crossing on Aylmer Street.

From A. White, asking that the License Inspector change his license, as he has moved his shop to the west side of Hunter Street, although in the same ward.

From P. Lynn, asking for work so as to enable him to support his family.

From Thos. Harmer and others, asking for a sidewalk along the drain road, if the council would do nothing else, as they cannot sell their property or rent, for want of accommodation to reach it.

From the Treasurer of the town giving notice of the sums paid out during the month of May, which is as follows:

Charities,	$23 22
Miscellaneous,	36 97
Salaries,	150 00
Printing and Stationery,	240 06
Small Pox,	19 22
Special grants,	4 55
Streets and bridges,	642 31
Total	$1188 83

ACCOUNTS.

J. Stratton, printing	$20 99
John Irwin, refreshments	2 50
A. Comstock, roofing	23 00
John Boyd, extras and cost of Smith Street Bridge	302 54

DISPOSALS.

Treasurer's report, referred to Finance Committee. P. Lynn referred to Street and Bridge Committee. Mr. Belcher's report of Smith Street Bridge referred to special committee on bridge with power to act. Mr. Belcher's report on Sherbrooke drain and Downey Street received. Thos. Harmers received. P. Lynn and others referred to Street Inspector. With regard to Denniston Bros. & Hall, Mr. Cahill thought that the town might ask the County Council to do the grading and appoint a committee to wait on them. Perhaps the council would have the confidence in them now when they see the bridge up, as they had not last fall—referred to the Town Solicitor, J. Gibbs, Chief Engineer, referred to Fire Committee with other circulars to report.

The Clerk said that he had written to the Ashburnham Council in reference to the amount due the town on the fire engine, and had received no reply.

A. White's received; P. Laurin's referred to the Street and Bridge Committee; Dennistoun Bros. & Hall ones pool, referred to Health Inspector; A. Edmunds' Committee on Appointments, Mr. [illegible] received; Dr. Kincaid's Charity Committee with power to act; W. Lasher's received; J. Stratton and A. Comstock's accounts were referred to the Finance Committee; John Irwins ordered to be paid.

REPORT OF CHARITY COMMITTEE.

Mr. Cook, as chairman of the Charity Committee reported, recommending that they cannot do anything with Mr. Cole's application, as they had paid him all they agreed to, which on motion was received and adopted.

STREETS, &c.

Moved by Mr. Douglas, seconded by Mr. Thornton,—That no action be taken on the report of the Street and Bridge Committee till after the next meeting of the council, and that this council meet in committee of the whole on Monday night to consider the report.—Carried.

Mr. Thornton on rising said that a Philadelphia lawyer could not make head or tail out of the chairman's report of the Street and Bridge Committee, and that the longer the report was kept off the better.

Mr. Haggart said that the council should meet some evening and draw up a report.

Mr. Rutherford got a little riled and challenged any report that was ever made by any previous chairman of said committee to equal it, and appealed to Mr. Cahill to hear what he had to say about it.

The Mayor said that he thought Mr. Rutherford did not understand the report himself, that it might be a very eligible one but he could not understand it.

Mr. Cahill said that he seldom or ever agreed with the chairman of Streets and Bridges, but he thought in this case the council were treating him badly, he ventured to say that the report was a most intelligent and elaborate one that had been presented to this council for a number years, and that in his opinion it would be in the interests of the town to not upon the report and do the work

STONE BROKEN.

Moved by Mr. Rutherford, seconded by Mr. Cook,—That the Inspector let the balance of stones to be broken, by contract, by the yard.—Carried.

STREET OPENED.

Moved by Mr. Thornton, seconded by Mr. Douglas,—That the Street Inspector have all the streets opened in the town that are closed at present.—Carried.

REPORT OF STREET AND BRIDGE COMMITTEE

Mr. Rutherford, chairman of the Street and Bridge Committee, reported that they accepted the tender of John MacDonald for pine sawnlling, it being the lowest, at $7 65 per thousand, and that of Boyd, Smith & Co. for cedar sawnlling, at $6.25 per thousand feet, it being the lowest, which on motion was received and adopted.

WATERING STREETS.

Mr. Haggart said that the tender of W. Thornton had been accepted for the watering of the streets, at $495 until the first of October, it being the lowest, but if he did not do it better than he had done it to-day it would not give satisfaction.

TRANSFER OF LICENSE.

Moved by Mr. Haggart, seconded by Mr. Hopkins,—That the License Inspector be authorized to transfer the license of Mr. White to Simcoe St. to the premises adjoining Mr. Stevenson's Storehouse, if in the opinion of the License Inspector the premises are suitable for a bakeshop, and that the petition of W. Paterson, Sr., to rent his store as a bakeshop be granted.

MR. STEVENSON

addressed the council with reference to the [illegible] Inspector, that the council and [illegible] Inspector, gentlemen [illegible]

[illegible]

[illegible]

The Examiner.

PETERBOROUGH, JUNE 15, 1876.

JAMES DUNCAN, of Toronto is very ill—not expected to recover. He is advanced in years.

THE Police Court has been busy during the past three days with the whiskey sellers. Several have been fined.

DOGS.—A large black bear was shot in Whitby township on Friday within half a mile of Ashburn village.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

CAYUGA.—A large fire in Cayuga on the 8th inst. destroyed about $60,000 worth of property. The fire commenced on the roof of the kitchen of A. Gibbon.

LIME-OYER.—A communication on the claims of Archbishop Lynch that the Roman Catholic Church was founded by Jesus Christ, is unavoidably left over. It will appear next week.

AUSTRALIA.—A despatch from Melbourne states that all the Fenian prisoners confined in Western Australia have escaped in an American whale ship. There were 12 of them.

TECUMSEH.—A search is being made for the burial place of the celebrated Indian Chief Tecumseh. If his remains can be discovered they are to be placed beside those of General Brock.

MIDDLESEX.—Mr. Colin Scatcherd, Reform Candidate, has been elected by a majority of 562. Not much re-action there. In the Local Election the Conservative candidate was elected.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

COMMENCEMENT OF PUBLIC SCHOOL HOLIDAYS.—In accordance with the instructions of the Minister or Education, public schools are to commence their summer holidays on the 7th of next month instead of the 15th. The Schools will open again on the 7th of August.

KINGSTON.—This city has had a large fire. On Monday night a fire broke out in an out building of Horsey's hardware store, Princess street, Ferguson's block, in which was Mr. Hardy's dry goods store, which was consumed. The block was one of the finest in the city. The

BIBLE CHRISTIAN.—The Conference o this body was held this year in Oshawa. No change of note has been made in this county, Rev. Mr. Gordon remains in Peterboro and Rev. Mr. Richards in Lakefield. Rev. Mr. Rice, who has been assisting Mr. Gordon here, goes to Cleveland, Ohio.

ADVERTISING IN THE EXAMINER:—
Has created many a new business;
Has enlarged many an old business;
Has revived many an old business;
Has restored many a lost business;
Has saved many a falling business;
Has preserved many a large business;
And insures success in any business.

ONTARIO.—By a strange fatality both the Ontarios are vacant by the death of Hon. Malcom Cameron and Adam Gordon, Esq. Those gentlemen died within a very few days, and both were consistent and reliable Reformers. Their decease will cause new elections, and excited ones too, in north and south Ontario.

DOMINION DAY.—The "Young Irishmen" and the Trustees of the R. C. School are making arrangements for a Grand Pic-Nic on Dominion Day. Prizes will be offered for foot races of various kinds, dancing, etc. A game of Base Ball will be played on the grounds. This Pic-Nic will be held in Captain Wallis's Grove. A good time is expected.

MIDLAND RAILWAY.—We are glad to be able to state that the Midland Railway has not entirely forgotten Peterboro in their new time table, they are going to run three trains from Lakefield to Port Hope every day as follows:—From Lakefield at 8 a.m, 9.30 a.m. 3.20 p.m.; Peterboro at 6.05 a.m, 10.15 a.m. and 4.35 p.m. Arriving at Port Hope at 8.30 a.m, Lindsay 12.50 p.m. Peterboro at 6.40 p.m

DEPRESSION OF TRADE.—Sir Francis Hincks does not agree with Sir A. T. Galt on the causes of the present depression in trade. He attributes it to the reaction that had taken place after an extraordinary amount of money had been spent upon public works, which created a necessity for importation of articles required by new consumers. He concluded that they could not help themselves, as trade had been stimulated by these expenditures, which had now ceased, and a reaction had taken place. He says many of the gentlemen here will remember that precisely the same kind of reaction took place in connection with the Grand Trunk many years ago, and it necessarily follows that these events, whether productive or unproductive, for any argument it is of secondary importance The large amount of expenditure creates loss, and has been the cause of what is designated overtrade, and also designated as extravagance, whereas the merchants concerned have been unable to prevent it, and have suffered from the reaction that has taken place, a reaction they could not foss. I think it will be of use to press the facts upon you. We must all deplore this state of things. How long a lapse before the normal condition of things commences because the state of things has been abnormal we cannot tell. I can only hope we are approaching the end, and go with before long to me days-finder: but I don't think it is right to shove all the evidence which has been thrown to enable the Legislature that there is some figure to be struck at the commercial community—a state of things over which they have no control.

An Account of the Value by Assessment of Real and Personal Property and Income for the Co. of Peterboro', for 1875 and 1874.

LOCAL NEWS.—Our numerous correspondents will be good enough to keep us posted in regard to the local news of their respective sections. We require short items; and no one need writ to be regular correspondent. We are pleased to receive items of local news from anybody. Don't be alarmed because your handwriting is not good; and never mind the construction of your sentences. Let us have the news and we will see to it that it is put in proper shape. We trust our correspondents will keep wide awake and be prompt in furnishing their items. And those who are not correspondent may consider themselves such and for ward local notes at any and all times.—[Exchange. We "endorse" the foregoing and call the attention of our friends and correspondents to it.

PRESBYTERIAN.—The general assembly of the Presbyterian body met in Toronto on the 7th inst., and elected Rev. Dr. Topp of Toronto Moderator. The great question before the Assembly is the Macdonnel sermon and case arising out of it. There is a great division of opinions on the method of dealing with it. Some contend that his last statement should be received as satisfactory. A very large and respectable portion of the assembly threaten to secede if this be done. It will require a very wise and moderate course to prevent disunion. To accept his statement will cause discontent

Hence the need of wisdom in dealing with the matter. There does appear to be a dividing line in the assembly base on old church lines, and leading members of the assembly formerly of the Old Kirk, are anxious to save Mr. Macdonnel. The desire for Union and for personal safety is about as strongly manifested, as it is for maintaining the truth, as held by the church. That the end of all this is not yet may be safely predicted from the spirit manifested by members of the assembly.

DASTARDLY OUTRAGE.—On Wednesday June 7th, as John Reid, Esq., P.L.S. was proceeding home from town he was met by a man named Wm Bell and beaten and kicked, cutting his ear and nose, blackening his eyes and bruising his sides with kicks. Bell was brought before the Police Magistrate on Monday and fined $20 and costs. It appears that the cause of all this was that Bell last year wanted license to sell liquor near Auburn. Mr. Reid and about 100 others signed a petition praying the council not to grant him a license, and for this Bell beat him on Wednesday. Such an outrage deserves the severest punishment. What makes the act still more cowardly, is, Bell is about 30 to 35 years of age, while Mr. Reid is about 70 and unable to defend himself. The Police Magistrate regretted that he could inflict no greater punishment, which he felt was due him. It is certainly a strange state of affairs if a man for exercising his right of signing a petition, and especially of petitioning against the curse of a whisky shop at o near ones door, is to be beaten and abused while quietly walking along the street, then indeed the sooner such men are taught that he must be severely punished, the better for the peace and safety of the community.

CRICKET MATCH.

A closely contested game of cricket was played on the Ashburnham ground, on Friday last, between the Port Hope and Peterboro' Clubs. The attendance on this occasion was very good.

The Port Hopers arrived by special train at 10 o'clock a. m., their President, A. Hogel, Esq., together with quite a number of the fair sex and others accompanying them, showing the great interest they take in the sports which generally follows the members of that Club.

The wickets were pitched about eleven a. m., the Port Hopers being sent to the bat to the steady and sure bowling of Messrs. Lloyd and Rutherford. The batting of Mr. G. F. Hall, who succeeded in making the handsome score of 45 was very much admired. But no believe this is generally the way Hall handles the "willow". In this innings they made the handsome score of 85.

The Peterboro Club next went to the bat against the steady and strong bowling of Messrs. Read and Hunter. Unfortunately, however, in their eagerness to "make away" with their opponents some cheap runs were made, but it cost them one of their best men, who was run out before getting a ball. The batting of Mr. R. B. Rogers was very much admired, he making the handsome score of 27 and not out. This innings grew very exciting towards the close, as steadily the score o run on, but when within four of winning the game their last man was run out,

A heavy shower coming on play was stopped for a short time when it again ceased and play was again called, but only to last for a short time, as before the finish another fish spoiled another heavy shower came on which put an end to the play. The following is the score:

Sold in Peterboro by A. W. Keager, W. S. Johnston, Dr. McCamus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY.—

THOMAS' ECLECTRIC OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgement of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil, Read the follow ing as convinced:—Thos. Robinson, Fort Sam Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, so good for horse as for man."—A. Hopkins, Merrickville, Wadsworth, writes, "I have used many hundreds of bottles of Eclectric Oil, and it is pronounced by the public, some of the best medicine they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Keenan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. H. Hamilton, Markworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr Hayden of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

I certify the foregoing to be a correct return of the List of Convictions filed in my Office between the Second Tuesday in March and the Second Tuesday in June, A.D. 1876.

Office of the Clerk of the Peace, Peterborough, June, 1876.

C. A. WILLIS.

ONE BY ONE.

One by one the sands are flowing,
One by one, the moments fall;
Some are coming, some are going;
Do not strive to grasp them all.

One by one thy duties wait thee,
Let thy whole attention be
Given to each, however small thee,
Learn that first what these can teach.

One by one (bright gifts from heaven)
Joys are sent thee here below;
Take them readily when given,
Ready, too, to let them go.

One by one thy griefs shall meet thee,
Do not fear an armed band,
One will fade as others greet thee,
Shadows passing through the land.

Do not look at life's long sorrow;
See how small each moment's pain;
God will help thee for the morrow,
So each day begins again.

Every hour that fleets so slowly,
Has its task to do or bear;
Luminous the crown, and holy,
If thou set each gem with care.

Do not linger with regretting,
Or for passing hours despond;
Nor, the daily toil forgetting,
Look too anxiously beyond.

Hours are golden links, God's token,
Reaching heaven; but one by one,
Take them, lest the chain be broken,
Ere the pilgrimage be done.

Peace Hath Her Triumphs.

A man rushing down Main Street ran against another man, and knocked him over. The victim leaped up, and striking at the other, said:

"What did you push me over for?"

"Dont talk that way to me!" roared the first man striking back.

"I'll knock your head off!"

"You can't do it!"

"I can whip you blind, so I can!"

"You can't lick a flea!"

At this juncture a third man appeared, and, knowing them both, said:

"Here stop this! Mr. Blank here is going down the street to avoid a doctor's collector, while you Mr. Dash, are going up the street to get away from a tailor!"

"Then I beg your pardon," said Mr. Blank, "Then I beg yours," said Mr. Dash.

Then they shook hands, and white-robed peace sang her songs of joy.

Woman Always the Same.

"Hannah," pleaded a weak voice, "don't swear ag'in me!"

"Oh, won't I though, you brute!" responded a shrill female tongue. "I'll learn you better'n to come a-bruisin' home at two in the mornin',"

"But I didn't do nothin',"

"That's it; you never do nothin' you sling your time away a-foolin' about the streets and, mayhap, sponge on some on barrels and goods-boxes waitin' for somethin' to turn up, instead of gettin' around and turnin' somethin up, while I'm kept at home a-washin' and a-mendin' and a-nursin' Tommy, an' he a-teethin',"

"Is poor little Tommy Teethin'?"

"Three a-comin' below and 2 above."

"Poor little Tommy!"

"Don't cry, John."

"But I can't help it Hannah. Five little white teeth a-comin', and I won't be there when they come."

"Won't be there, John."

"No, I won't. If we had no switch-ed up for disturbin' the peace, and that is thirty days in the 'bocse."

"Don't take on so, John. I'll go to the house with you and take Tommy along."

"Say you won't swear ag'in me, Hannah."

"I won't, John."

"Come to my arms, old gal! I'll buy you a new calico dress, and we'll go to the fire-works on the Fourth of July. Tommy shall have a rubber ring and a bottle of syrup, and you'll—come to my arms, Hannah!"

Here the husband drew the little woman over the railing and frantically kissed her, while Tommy set up a jubilee of carping; and such affairs John was discharged for want a evidence.

MEAN MEN.

I have known some very mean men in my time. There was Deacon Overreach, now, he was so mean that he always carried a ham in his big box when he travelled to pay up the rents his horse wasted in the manger, and lay an egg for his breakfast in the morning. And then there was Hugo Hinnemuncan, who made his wife dig potatoes to pay for the marriage license. I must tell you that story of Hugo, for it's a good one, and good stories, like good potatoes, ain't as plenty as they used to be when I was a boy. Hugo is a neighbor of mine, though considerable older than I be, and a mighty higher in it, too. Well, when he was going to be married to Gretchen Kolb, he goes down to Parson Rogers, Digby, to get a license.

"Parson," said he, "what's the price of a license?

'Six dollars,' said he.

'Six dollers!' said Hugo, 'That's a dreadful sight of money! Couldn't you take no less?'

'No,' said he; "that's what they cost me at the secretary's office at Halifax.'

'Well,' how much do you ax for publishing in church, then?'

'Nothing,' said the parson.

'Well' said Hugo, 'that's as cheap I can't expect you to give no change back. I think I'll be published. How long does it take.

'Three Sundays.'

'Three Sundays,' said Hugo. Well that's a long time, too. But three Sundays only make a fortnight, after all, two for the covers and one for the inside, like; and six dollars is a great sum of money for poor men to throw away. I think will.'

So off he went a jogging toward home, feeling as mean as a new-sheared sheep when at once a bright thought came into his head, and checks he trotted as fast as his horse could carry him.

'Parson,' says he, 'I've changed my mind. Here's the six dollars. I'll tie the knot to-night with my wife; I argue that I can't untie with my teeth.'

'Why what in natur' in the meanin' of all this?' says the parson.

'Why,' says Hugo, 'I've been a-ponderin in my head, and it's cheaper than publishin' bans, after all. You see, sir, it's potato-diggin' time. If I wait to be called in church, her father will have her work for months, and as hands are scarce and labor big, if I marry her to-night she can begin to dig one own in-morrow, and that will pay for the license, and just seven shillin's over; for there ain't a man in all Chickaree that can dig and carry as many bushels in a day as Gretchen can. And besides, good wives, like fresh servants, work like smoke at first but they get lazy and lazy after a while.'

In 1871 the county of Hastings subscribed for $50,000 stock in the Grand Junction Railway. After paying $17,000 on this amount the Warden sold the stock for one dollar to a young man without means, who sometime after further payment by the county. The Railway Company brought an action to set aside this transaction, but the Court of Chancery [illegible]

HOUSEHOLD AND FARM.

STICK TO THE FARM.—A contributor to the Germantown *Telegraph* has the following to say in regard to the overcrowding of the professions:

The hard times, in my opinion, have been brought about by excessive extravagance in nearly every family, and the glowing advertisements to lure the young to run away from the farm and the trades, and all honorable pursuits, and look upon labor as dishonorable.

Those who have been able to survive the surf of this return tide, find themselves at the old farm again, but with less starch in their dickies than when they left. Many of this class are now wholly unfit for the honorable pursuits of life. But these times will will set people back upon a firm bottom, and teach them to do with less and take upon themselves more.

The farming community are well-to-do; no suffering; they may take courage and apply themselves earnestly to their farms, and produce all they can, for they are sure of a sale at fair prices. There never was so much encouragement at the present time.

Let us now look at the market, in the way of exchange, for the farmer. Four years since a neighbor's wife told me that she always was satisfied when she could exchange one pound of butter for one yard of prints; butter then was twelve cents a pound, and prints twelve cents a yard. Now see the difference in favor of the former, at present, when one pound of butter will bring in exchange eight yards of prints, which will make a woman's dress suitable to be worn on most occasions. Also, for one dozen of eggs you can get three yards of cotton cloth, or five yards of calico, or other goods in proportion.

Now, in looking over the productions of the farm, to say nothing of the small fruits and apples, and garden truck, which are very profitable in some locations, let me ask what has the farmer to complain of?

FARMERS WIVES.

THE LIFE OF FARMERS' WIVES.—I, a farmer's wife, insist that our lives may be the most independent, the freest from anxiety, of all the women in the land. We often hear the proverb that "it is not work but worry that kills," and as it rests with the wife to plan the three meals, the care is very much lessened if she knows that the cellar and pantry are well stocked with meats vegetables, fruits, boxes of honey, jars of pickles, bags of dried corn and beans, [illegible] milk, fresh and butter all of which can be easily produced [illegible] Contrast with this the cares of the wife of the mechanic or of the professional man, who must send out to half a dozen places to gather the materials for her Saturday's baking.

Again, I am at a loss to understand why it is any more drudgery for a farmer's wife to keep a house in order or to cook her husband's dinner than it is for other women, or why it is drudgery at all. The frequent repetation of an act only makes it easier. If a woman will wash dishes in the right way she will do it "slick as clover." I agree that nothing can take the place of a good broom, but I know from experience that a washing-machine, with a wringer attached washes as much as three women, with less labor and a great saving to the clothes. I have frequently done the week's washing for a family of six in two hours, and with little fatigue. And, again, in this age of cheap sewing-machines, if a woman needs to say anything at night, she is because she is a slave to the fashions of the day, which require her children's clothing to be tucked and ruffled until the time and labor of making them is increased four-fold.

I don't profess to be a model wife, nor yet a model housekeeper, but I would like to impart a secret or two to those women who, to use their own phrase, "never have a moment of their own." One is always put a thing back in its place after you have used it and require it of your children. I don't say of your husband, because as you did not bring him up you are not responsible for his habits; but there are very few men who will voluntarily add to a wife's burdens by habits of disorder. Another secret is to have certain days for certain work—baking days, churning days, and sweeping days—and don't plan anything for the afternoon; reserve that for rest and sewing, so that after an early supper you can spend an hour in the garden.

It is a great pity that so few of our women take an interest in gardening. I know of few things more pleasant than the gathering of vegetables that I have planted and cultivated with my own hands. A garden hoe or rake is as easily handled as a broom, and it is much easier to to transplant tomatoes or sift lime over the early cabbages than make out loaves of bread, so that the lessons that it is hard work falls to the ground.

I suppose there are all kinds of husbands in the land, but those I am acquainted with are more than willing to provide their wives with help in the kitchen, or relieve them from the labor of cooking for hired men, if they prefer garden or dairy work. I believe that many women make slaves of themselves quite unnecessarily, by supposing that they must always have a loaded table, when half the number of dishes, well cooked, would do quite as well.

In conclusion, our lives are pretty much what we make them, and if we cultivate a discontented spirit, and accustom ourselves to thinking that our everyday duties are drudgery, why, of course, we will feel oppressed and unhappy; but a contrary disposition and a little method and good management will work wonders.—*Mrs B. M. C. in Tribune.*

ONE OF THE EVILS OF POVERTY.—Many persons think they ought to keep several breeds of fowls; but one breed is enough for farmers, and all persons who nearly keep poultry for there own use. Young men are most inclined to buy several breeds, but a few years experience generally cures them of this propensity. One good breed is more profitable, and a great deal less trouble than two or three when kept separate. It will do very well to have different breeds of hens, if one desires to cross his fowls, with but one breed of cocks; but to keep several breeds in separate yards, without any intention to breed fowls from them, is not advisable. To those who desire to obtain new breeds I would say, that the statements in regard to the alleged good qualities of fowls in circulars and published in the papers cannot always be depended on. I cannot in this article go into the general merits of different breeds, but will simply say, have nothing to do with black fowls.

To remove mildew from linen, mix soft soap with black powdered, half the quantity of salt, and a small piece of lemon.

Destroying colonies of cockroaches: Mix plaster of Paris and sugar, and put into water, pound into holes, kills all that eat it in a few days, and the survivors [illegible] themselves off.

HAIR WORK.

[illegible] Have Their Combings and take them to [illegible] where you can get them made up very [illegible] cheaper than any where else in town. Switches and Pyramids dressed on short notice. Remember the place—opposite Mathers & Haley Bookstore. All orders supplied [illegible]

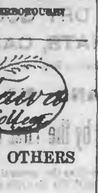
THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S
Before Taking.



After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended for the [illegible] Seminal Weakness, Spermatorrhœa, Impotency, and all diseases that follow as a consequence of self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.
The Special Medicine is the result of a life study and many years of experience in treating those special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, and will be sent by mail on receipt of the money by addressing
WILLIAM GRAY & CO.,
Windsor, Ont.
Agents in Peterborough, A. W. Keogh, by Dr. Bell, and all druggists. Sold in Lakefield, by N. Wilson, and Northrop & Lyman, Toronto, wholesale Agents.

CAUTION! Remember the genuine VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

SPECIAL INDUCEMENTS TO CASH BUYERS. Remember the Stand, Sign of the 2 Mortars, Next Door to Scriver & Co's Hardware Store, George Street.
Peterboro, May 15th, 1876. 19-1y

Ayer's Cathartic Pills
For all the purposes of a Family Medicine.

Perhaps no one thing is so universally desired by everybody as a cathartic, nor was any before so universally adopted into use in every country and in all classes, as this best efficient purgative PILL. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect in its composition. We have thousands upon thousands of certificates of these remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by any body. No sugar coating preserves them ever from being nauseous, and no taste can arrest from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements of the first organs of digestion, Dr. Ayer's Pills promote the health of the whole system. Minute directions are given in the wrapper of the box, for the following complaints, which these Pills rapidly cure:—
For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to restore the tone of each and restore the healthy action of the system.
For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the disordered action or remove the obstructions which cause it.
For Dysentery or Diarrhœa, but one cathartic is generally required.
For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continued, as required, to change the diseased action of the system. With such change these complaints disappear.
For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.
For Suppressed or Irregular Menstruation, as it produces the desired effect by sympathy.
As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach, bowels into healthy action, restores the appetite and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels vigorously well often finds a dose of these Pills makes him feel decidedly better, by their cleansing and removing effect on the digestive apparatus.

Burnett's Extracts
For cooking purposes.
Burnett's Extracts
"Preserved superior."—Parks Ex. House, Boston.
Burnett's Extracts
LEMON, VANILLA, ROSE, ALMOND, NEOTARINE, CELERY, ORANGE, PEACH, NUTMEG, CINNAMON, CLOVES, GINGER.
Burnett's Extracts
"The best in the world."—Fifth Av. Hotel, N. Y.
Burnett's Extracts
"Used exclusively for years."—Continental Hotel, Phila.
Burnett's Extracts
The superiority of these Extracts consists in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the fashionable fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used.

Ayer's Cherry Pectoral
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.
Probably never before in the whole history of medicine, has anything won so widely and so firmly upon the confidence of mankind, as this preparation, remarkable for its extraordinary compliance. Through a long series of years, and among most of the races of men which have risen higher and further in their culture, it has become better known. Its uniform character and power to cure the various affections of the throat, lungs, and chest, have made it a reliable protection against the most dangerous of all the insidious forms of disease and to young children, it is, at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a pectoral which assistant sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, it should be provided with this antidote for them.
Although settled Consumption is generally incurable, still great numbers of cases where the disease seemed settled, have been completely cured and the patient restored to sound health by the *Cherry Pectoral*. So complete is its master over the disorders of the Lungs and Throat, the most obstinate of these yield to it. When not even these could reach them, under the *Cherry Pectoral* they subside and disappear.
Ministers and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking it *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.
PREPARED BY

Ayer's Ague Cure
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.
As its name implies, it does *Cure*, and does it fail. Containing neither Arsenic, Quinine, Strychnine, nor any other mineral or poisonous substance whatever, it is novice is fever any patient. The number and importance of its cures in the agued districts, are literally beyond account, and we believe without a parallel in the history of American medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.
Emaciated persons, either resident in, travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.
For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.
For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
PRICE, $1.00 PER BOTTLE.

Peterborough Examiner.

PETERBOROUGH, JUNE 22, 1876

THE CONFERENCE.

The Conference concluded its work here on Wednesday—the Ministers leaving for their respective homes, except a few who remained for the fruit social last evening.

The meetings of Conference and services in connection therewith were very interesting and instructive, and are calculated to arouse any sleeping energy that members may have permitted to exist previous to their meeting together. Several Ministers of the Conference preached in the other Protestant Churches during the two Sabbaths they were here, and the discourses were acceptable, and in many instances clear and forcible expositions and applications of the Word of Life.

The Ordination Services of the young men who were received into full connection were calculated to impress not only those received, but all present, with the grandeur yet responsibility of the work of the Christian Ministry. The addresses by Dr. Jeffers, President of the Conference, Dr. Nelles, Rev. Mr. Dewart and others, on the occasion, were able, eloquent and logical, riveting the attention of the very large congregations, made up of persons from all the Protestant churches.

The new Methodist Church was filled every evening, and on Sabbath evenings it was crowded. The warmest sympathies of the people with the Christian work of the Methodist Church and a spirit of brotherly kindness and good were extended to the people of that Church. The dawn of denominational isolation, separation and disregard of each others welfare are happily gone by, and now all can afford to acknowledge the good work and Christian zeal that may be manifested by other brethren in endeavoring to extend the principles of their common Lord and Master.

PRESBYTERIAN.

The General Assembly of the Presbyterian Church has about concluded its sessions for 1876. The very important question agitated by Mr. McDonnell has caused no little alarm to that body—and indeed, to other bodies of Christians in Ontario. It is therefore a matter of great satisfaction that the Assembly has not allowed its doctrines to be treated as of little consequence. The attempt to raise the question of persecution has completely failed, and the Assembly has been enabled to declare its adhesion to one of the fundamental doctrines of Christianity,—that of future rewards and punishments. The vote on the subject showed a very large majority against tampering with doctrines that are so plainly taught in the word and so generally believed by all Orthodox Christians.

During the discussion there was the painful presence of a strong desire on the part of some to *save* Mr. Macdonnell even at the expense of the truth. Several of his friends were so bold as to express the existence of their own doubts and of the doubts of others, and from their existence, argued the wisdom of allowing Mr. Macdonnell to remain, and continue preaching his doubts. Such a course would have been ruinous to the growth and prosperity of Presbyterianism in the Dominion, and would have stamped the whole body as ready to sacrifice every thing for union, which, although worthy of great sacrifice, never could atone for the loss to vital godliness that would inevitably follow the preaching of annihilation, or even restoration, unless through the sacrifice of the atonement. The thanks of the whole Presbyterian body of Canada is due to those men who stood firmly for the truth notwithstanding the insinuations of bitterness and persecution made against them.

The charge of maintaining the Confession of Faith at the expense of the scriptures is almost too childish to even refer to. It is absolutely necessary for the very existence of a Church or an association of Christians that they have fixed views on the doctrines of the Bible; and because they have well established views, to accuse them of cast iron principles is childish. Every association must have rules for the guidance of its members, and it is only reasonable to require that the members united must be agreed on those principles. If any one feels that he can not accept those principles let him withdraw, and seek society holding principles akin to his own. There is no cast iron principle in this, as he is at liberty to withdraw, whenever the principles are not such as he can accept and defend.—There is no man possessing reason and intelligence who does not formulate for himself a creed on the subject of religion. By doing so he does not compel any one to accept his creed, but if others should declare adhesion to it, they surely should be bound by it, or otherwise they should withdraw from his society. This is what Mr. Macdonnell should have done, and thus have saved the Church from all the evils of the discussion and the danger of being charged with holding doctrines contrary to the Divine word.

The Assembly has a right in vindicating the teaching of their Church, a Church that has done much for the advancement of the Gospel, and the extension of sound principles throughout a large portion of the world; and those men who refused to compromise truth will be found to be the men who are most ready to defend it if need be.

METHODIST CHURCH, TORONTO CONFERENCE.

(From our Special Reporter)

FIRST DAY AFTERNOON SESSION.

This session was wholly occupied by the reviewing of character, which is somewhat peculiar to the Methodist Church. Every Minister undergoes a close examination at the District Meeting, and again at each conference respecting his moral character and capability for the real work of the Ministry. As may be supposed, such sessions are always conducted with closed doors.

A very pleasing episode occurred which excited much pleasure in the conference, W. E. Sandford, Esq., Hamilton, was introduced, and in a brief business like manner he informed the conference that it gave him much pleasure on behalf of himself and his brother executors, D. Moor, J. S. M'Callum, Esq., to present the Treasurers of the Missionary Society the Superannuated Ministers Fund, and the endowment of Victoria College, checks for the sum of Ten Thousand dollars each as the bequest of the late Mrs. Jackson, of Hamilton. The announcement was gratefully received in a series of resolutions which our limited space prevents us inserting.

SECOND DAY.

As thought the President would shew at the commencement of conference that he intended to be punctual at all the sessions an example which deserves commendation precisely at nine o'clock the President was at his post, and opened the session by devotional exercises. Minutes of the previous session were read and confirmed. The nominating committee brought in their first report, which was adopted.

EDUCATIONAL COMMITTEE.

Rev. R. Jones, Dr. Nelles, Professor Burwash, J. Potts, W. H. Laird, W. Tindall, G. Young, with Messrs. G. A. Cox, D. W. Dumble, W. J. Mason, R. Morrow, T. Robinson, and J. F. Jeffers.

CONTINGENT FUND COMMITTEE.

Revs. J. S. Keough, P Addison, G. M. Brown, D. E. F. Gee, J. Woodsworth, N. A. M'Dennian, and J. Webster.

COMMITTEE ON STATISTICS.

Revs. A. Cunningham, J. E. Howell, W. Smith, J. Anderson, H. S. Mathews, and W. R Barber.

EXAMINERS FOR MONTREAL COLLEGE.

Revs E. H. Dewart, and E. B. Harper, M. A.

COMMITTEE ON MEMORIALS.

Revs. C. Fish, K. Creighton, J. F. Germaul, H. Wilkinson, E. Clement, J. W. M'Callum, T. Thom, B. A., W. L. Scott, and W. Tomblin.

PASTORAL ADDRESS COMMITTEE.

Revs. J. Shaw, S. J. Hunter, and W. H. Withrow, M. A. For next year I. N. R. Willoughby, J. Breden, and J. W. Jeffery.

TEMPERANCE COMMITTEE.

Revs. W. H. Poole, E. Barrass, D. McDowell, E. L. Rupert, A. C. Wilson, J. I. Clarke, A. Browning, & R. Clarke.

CHURCH PROPERTY COMMITTEE.

Revs. I. Ross, J. Learoyd, R. H. Smith, R. Potter, J. C. Seymour, and J. Hunt.

COMMITTEE ON SABBATH OBSERVANCE.

Revs. M. N. Gadden, W. Burns, J. McClung, H. Lanner, J. Shuttleworth, G. Lech, and O. R. Lambely, B. A.

COMMITTEE ON THE STATE OF THE WORK.

Revs. E. H. Dewart, G. Young, J. E. Betts, J. G. Laird, W. H. Poole, T. Campbell, and Professor Burwash.

The names of the Sabbath School committee, as nominated by the respective District Meetings, were reported as follows,—Revs. J. I. Hunter, E. Barrass, J. H. Locke, T. Cullen, J. A. Chapman, J. W. Wicher, J. A. Jewell. J. W. Totten, A. Armstrong, J. C. Wilmot. C. E. Perry, W. C. Jolley, and G. H. Keuney.

At noon the conference adjourned with the benediction.

AFTERNOON.

After a recess of two hours the conference was again in session. After the introductory portions had been attended to, the Rev. J. G. Manly was introduced, he as a member of the conference but in the service of the French Canadian Missionary Society. A resolution was adopted expressive of the wishes and prayers of the conference for the prosperity of the society with which Mr. Manly is identified.

Jos. Andrew, who intends to join another church, tendered his resignation which was accepted, and a certificate granted as desired. Another who had been convicted of certain offences was expelled from the ministry and the church. Several memorials were presented relating to church property and referred to the committee previously appointed.

On motion of Dr. Green, and seconded by Dr. Nelles, it was resolved that the President and Secretary are hereby authorized to sign on behalf of this conference such a memorial as they may approve of, to be presented to the Dominion Parliament on behalf of the Oka Indians, who are now suffering a cruel persecution by which they have already suffered the loss of their church in which they worshipped God, and have been subjected to other unchristian acts of oppression.

The names of the Laymen appointed by the respective district meetings as members of the Missionary Committee were called, one from each district, Messrs. Gooderham, Gibbs, Dr. Beaty, Robbin, Morrow, Manning, Sweeney, Hilbourne, Armstrong, Dr. Norrias, Schell and Biggins.

The young men who are to be received into full connection and ordained were examined by the president in presence of the conference, and acquitted themselves in a very creditable manner. The class consists of twelve young men, who have, we trust, an honorable career before them. They were ordained on Sabbath morning. One who has completed his term of probation desires his ordination to be deferred, and another who has only travelled three years is to be ordained for special purposes.

Rev. J. H. Boyd, from Arkansas, U.S. was introduced to the conference.

FOURTH DAY.

At 9 o'clock the President was ready for the business of the day, and called the conference to order. Several Memorials were presented and forwarded to the respective committees.

The question was then taken up,—"Who have travelled three years?" T. Shaster, J. A. McCammus, F. Johnson, S. P. Rose, S. J. Shorey, W. T. Dyer, T. W. Hall, J. N. Harrison, R. C. Wilkinson, A. P. Lycon, F. Keam, W. Torrance, F. Lagate, W. R. Morrison, C. Mearing, J. Henderson, P. W. Davies.

Rev. R. Duke, from Ireland, well recommended, was admitted as a member of the conference.

AFTERNOON SESSION.

The names of probationers were still under consideration, under the question, "Who have travelled two years?" J. Waite, G. J. Reynolds, J. M. Wilkenson, J. B. Wass, G. C. Workman, B.A., H. Thomas, J. Boddy, W. B. Brown, D. Hegg, (who retires for one year in consequence of ill health), W. T. Hicks, W. Rowley, F. MacAmmond, T. H. Orme, T. B. Wilcox, T. Manning, W. H. Jamieson, W. A. Strongman, G. Brown, T. G. Coffey, G. Edwards, and A. J. Bailtrup.

Revs. J. MacAlister and A. Andrews, from the London conference, were introduced to the conference.

The names of young men allowed to attend the Colleges of Cobourg and Montreal were read by Professor Burwash from the Educational Committee,—L. W. Crown, J. W. Bell, W. P. Brown, T. W. Campbell, J. W. Freeman, J. S. Mills, J. A. Smith, S. R. Edmunds, J. H. Barkwell, A. Smith, W. Lloyd, W. A. Strongman, A. W. Ross, T. Orner, W. P. Brown, H. Thomas, J. Boddy, F. Johnson, G. Edwards, A. J. Bartrop, T. Shiles, S. J. Shorey, W. T. Dyer, J. C. Henderson and R. C. Wilkinson.

The remainder of the afternoon was occupied with committee meetings.

FIFTH DAY.

After devotional exercises and the reading of the minutes, the Book Committee asked the conference to mention the appointment of the Rev. G. C. Workman, B. A., as Assistant Editor, which was agreed to.

The President declared the Stationing Committee to retire and complete the stations, and in the meantime the Church Property Committee presented their report which was adopted. It mentioned the disposal of certain property which is no longer needed, or to be superseded by churches or parsonages of a better description.

Rev. S. Rose presented the report of the Book Committee relating to the state of the Book Room. It was gratifying that while there has been such a severe monetary pressure for the last twelve months, that the establishment is in a very flourishing condition, and One Thousand Dollars were donated to the Superannuated Ministers Fund.

The question,—"Who have traveled one year?" was taken up; the following were reported:—A Brown, R N Burns, W A Maddan, J S Mills, J M Barkwell, J W Freeman, T Lawson, S E Edmunds, J R Smith, L H Crews, A Smith, J W Stewart, J Dracas, A W Hastings, W Lloyd, A Stewart.

Rev. J. E. Sanderson, M.A., read the report of the Directors of the Ladies College, Whitby. The commercial depression of the times has necessarily affected all literary institutions, still the college has made a gratifying progress. The Board intend to issue additional stock to the amount of $50,000 with a view of increasing the accommodation of the college, so that there may be room for one hundred boarders besides day pupils. Rev J E Sanderson was appointed Governor, and J J Hare, Principal.

The question,—"What preachers are now received on trial?" The following were recommended from the diaries meetings,—F H Wallace, B.D., C W Watch, G W Hewitt, B.A., T Dunlop, J M Tate, W Marshall, T McKee, E Dewart Lewis, L W Hill, J Power, J A F Stewart, W F Wilmond, W Taylor, W F Moore, W O'Hewell, J E Allen and J Edge.

Rev A Andrews addressed the conference on behalf of the Sunday School Movement, at the close of which Dr. Nelles moved the resolution to the effect that the conference has heard with much satisfaction the address of Mr Andrews in relation to Sabbath Schools, entreats and recommends to our ministers the careful and candid consideration of the hints and suggestions contained in that address.

Rev W H Withrow, M.A., read a report of his visit to the Ladies' College, Whitby, respecting the mode of education and the attainments of the pupils. He spoke in terms of commendation respecting the Institution, and gave it as his opinion that it is rendering great aid in the way of education.

On motion of Professor Burwash the report was adopted, and it was further ordered that such extracts should be published in the minutes of conference as may be deemed suitable.

James Gooderham, Esq., and Rev Dr Green addressed the conference on behalf of the Ladies' College, and claimed that greater efforts should be made on behalf of the said Institutions, and as the facilities in connection with such institutions are great it is hoped that there will be a great increase of pupils during the next year.

Rev. Dr. Jeffers and E. H. Dewart were appointed examiners in the Theological Department of Victoria College.

Professor Burwash and Rev E B Harper, M.A., were appointed Examiners on behalf of this Conference, to the Montreal Wealeyan College.

A grand Missionary Meeting was held in the evening at which the venerable Dr Green presided, addresses were delivered by the Rev H Wilkinson, T W Jeffery, F Campbell, G Young and A Sutherland. Two of those gentlemen have labored several years in the North West, and the details of the work which they gave were exceedingly interesting. M.S. referred to Japan and the openings which are there presenting themselves.

At 10 o'clock, P.M. the Stationing Committee came into the conference and made their report. The stations were read by the Rev J Bredin, in great silence and in the presence of a large audience.

At the hour of midnight the conference adjourned.

SABBATH SCHOOL ANNIVERSARY

The last of the series was held on Tuesday night. The President occupied the chair. After prayer by Rev C Fish, the President delivered the opening address. Rev E Barrass Secretary of the Sabbath School committee read the report and delivered a speech. Revs J C Seymour, and J A McClung, then addressed the meeting which was of great interest. On motion of Dr Nelles, seconded by Rev R Jones, a vote of thanks was presented to the choir of the church for the services they have rendered in connection with the conference. The ordination class, then at the call of Rev N R Willoughby, ascended the platform and presented the President with a beautiful picture containing photographs of themselves with the President in the centre. The President accepted the gift and assured the young men that he would always bear them in remembrance, and take great interest in all their future welfare.

The next conference of 1877 to be held at Whitby.—The conference adjourned at noon.

AFTERNOON

At two o'clock, the usual devotional exercises were held. The first business was to hear the report of the committee which counted the ballots, given for chairman of Districts.

TORONTO DISTRICT—Rev G Young, Chairman, T W Jeffery, Financial Sec.

WHITBY—Rev W Laird, chairman, J Clarke, Financial Secretary.

COBOURG—Dr Jeffers, President of conference, chairman, J H Locke, Financial Secretary.

BELLEVILLE—E B Harper, chairman, J Howell, Financial Secretary.

PICTON—J W McCallum, chairman, J A Chapman, Financial Secretary.

PETERBOROUGH—Revs N R Willoughby chairman, N R Barber, Financial Sec.

LINDSAY—Revs C Fish, chairman, G Washington, Financial Secretary.

BRADFORD—Revs R H Smith, chairman, D E F Gee, Financial Secretary.

BARRIE—Revs J Brodeu, chairman. G M Brown, Financial Secretary.

COLLINGWOOD—Revs E Clement, chairman, W Casson, Financial Secretary.

OWEN SOUND—Revs D McDowell, chairman, W Johnson, Financial Sec.

WALKERTON—Revs W Tindall, chairman, Jas Anderson, Financial Sec.

ALGOMA—Revs J Williams, chairman, P D Will, Financial Secretary.

RED RIVER—Rev J S German, chairman.

SASKATCHEWAN—Rev J McDougall, chairman.

B COLUMBIA—W Pollard, chairman.

JAPAN—G Cochran, chairman.

Rev R H Smith, not having been chairman before, was called upon for a speech, he thanked the conference for the honor conferred upon him, and he trusted that he would always be able to maintain such a position so as to secure the favor of those who had conferred the honor upon him.

Rev J S German, who is about to proceed to Winnepeg, was called upon for a speech, he also thanked the conference for the honor conferred upon him and he hoped that he would be able to conduct himself so as to be always deserving of the confidence reposed in him.

Rev J McDougall, and G Cochran, were far away and could not acknowledge the honor now conferred upon them.

During the morning session, both the Editors Revs E H Dewart, and W H Withrow, addressed the conference on behalf of the periodicals which they respectively Edit, and appealed to the Ministers for an increase of subscribers both to the Guardian and the Magazine.

Rev J H Start, read the report of the childrens Fund committee which stated that the amount required per member for next year would be 43 cents per member, some cases of dispute were referred to select committees as adjudants, Rev J Thom read the report of the Memorial Committee which was accepted.

Rev C Fish, retired from the appointment of the Board of Examiners, and the names of Revs Messrs Jeffers and Dewart were substituted in the place of retiring, Toronto, Whitby and Trenton.

Rev E Barrass read the report of the Sabbath School committee, there is an increase in several of the items connected with the Schools, the only qualifying of which is the conversion of 1,231 children and the number meeting in class, viz: 3044.

Rev S J Hunter, read the Pastoral address, which was pronounced the best of the kind that some had ever heard, it was ordered to be printed and circulated in pamphlet form.

A Memorial was read from the woman's Temperance Christian Union, which on motion of Rev E Barrass, was accepted and a suitable resolution was adopted acknowledging the same, and praying for the divine blessing not only upon the woman's movement but all Temperance Associations.

SEVENTH DAY.

At the usual hour the President took the chair and conducted the devotional exercises, after which the minutes of the previous session were read and confirmed.

There was an omission in our last report, which we now supply. In recognition of the valuable services rendered to the Conference by Rev E Morrow, as Postmaster, a testimonial was awarded him consisting of some valvable books, which he gratefully acknowledged.

Rev John Breden also received a testimonial of $20 worth of Books as a small token of esteem for the services he has rendered for many years as Journal Secretary.

On motion of Rev J. G. Laird, a telegram conveying the christian and Methodist greetings was sent to the Montreal Conference now in Session in the city of Quebec.

The solemn question—Who have died? was taken up, and the following were reported as having departed this life—Revs John Sunday, O. Whitesombe, J. W Stockstader and G McDougal, Obituary sketches were read and various profitable remarks were made by some who had been intimately acquainted with them.

Two verses of a hymn were sung with much feeling.

The President of the Conference, Revs R Jones and R Brooking were appointed to collect subscriptions to erect a monumental *tombstone* at the graves of the late Revs W Case and John Sunday.

A Memorial was read from Rev John Langtry, chairman of a committee of Ministers, Toronto, relating to the desirability of securing a better religious instruction to the children in our public schools. A resolution was moved that the President, Dr Ryerson, Dr Green, Dr Nelles, and A Sutherland be a committee to act either jointly with committees of other churches or separately as they may see fit for the purpose stated in the memorial.

Who are the Superannuated Ministers? The following were reported,—A Green, D D, J Douse, W Price, L Taylor, D D. G Begnon, J Carroll, W Coleman, C Turner, B B Dundas (for one year), J Scott, W McFadden, D Jennings, J S Evans, C Vandusen, D B Madden, S C Philip, sen., J Norrins, J Seymour, sen., R Jones, J B Howard, J English, G T Green, W McCullough, W Steer, J Hughes, G Carr, C Taggart, S Huntingdon, W Young, T M Jefferis, J Sanderson, E Morrow, J Green, T Culhart, W Irwin, E Sallows, W M Pattyson, Jas Scott, E S Currey, W Sutton.

Who are the Supernumerary Ministers? J N Lake, J Doel, T McMullen, A B Donnell, A Fletcher, P J Robbin, G Millar, J Poole, S N Hill, J Brawford, J M'Quire, Henry Hall.

The report of the Contingent Fund Committee was read by the Rev J Woodsworth and approved.

On motion of Dr Nelles, the conference recommended the Educational Board to employ Dr Taylor, as the meeting of the Educational Society next year.

Rev F S Rupert, read the report of the Temperance committee which with some slight amendments it was adopted.

Rev A Sutherland gave notice of a series of resolutions relating to Circuit taking, additional Ministers and President's list of Reserve.

A resolution of thanks was adopted to medical gentlemen in different parts of the country for their gratuitous services in attending ministers and their families during the year, and thereby conferring a great benefit on them.

The Conference special committee which was accepted.

A very complimentary resolution was adopted thanking the people of Peterborough for their hospitality in entertaining the conference during the present year.

A resolution of thanks was adopted to the Railway companies who have conveyed Ministers to and from the conference at reduced rates.

Rev. J Holmes, formerly a minister of the Church of United Brethren was received as a supernumerary minister of this Conference.

Rev J Howell read the report of the Statistical Committee which was adopted The increase of membership exceeds 2,000 while most of the funds are also improving.

Rev D A Johnson was left without assistance at his own request.

The Minutes of the Session were read and confirmed. A few moments were spent in silent prayer and the President pronounced the benediction and the conference adjourned

CORRESPONDENCE

. We do not hold ourselves responsible for the views of our correspondents

"By this shall all men know ye are my disciples, that ye have love one towards ane other."

To the Editor of the Examiner.

SIR,—Archbishop Lynch, who was present at Sir Alexander Galt's lecture on Church and State, after mass at St. Michael's Cathedral, Toronto, delivered an answer to it. It is not my intention to review at present the whole discourse, but to confine myself to a portion of his remarks which I think deserves celebrity, viz: "That other churches were founded by men, and are named after their founders; but our Church was founded by Jesus Christ." This I must deny, and appeal for proof to the history of the heads of the Roman Catholic Church to show the absurdity of such an assertion. Take the history of the Papacy, not in a religious, but in a merely political point of view, and there is no other history that abounds with acts so much at variance with the teaching of Jesus Christ, or in which human nature so strongly manifests itself

Dating from the accession of John VIII, A. D. 872, they have been at feud, continually, with all parties. In the course of the 105 years that elapsed between the death of Formosus, in 896, and the election of Sylvester in 999, there were 29 Popes, 11 of whom were strangled or assassinated; three died in prison or exile, 14 were only Popes in name; and one could only reign in the society and under the protection of the Emperor Theodora. This woman, at the head of a powerful family and party, commanded as a sovereign in Rome, where she disputed the authority of her relative the deacon Sergius, who aspired to the Papal chair. Conquered and driven out repeatedly, Sergius, on being supported by Adalbert, the Marquis of Tuscany, returned as conqueror to Rome in 904. He had himself proclaimed Pontiff, and was reconciled to Theodora, who gave up to him her daughter Marozia, by whom children were born to him. These women, braving public indignation and popular riots, disposed of the Church, made Popes and had them strangled, as will Marozia was herself thrown into prison by her own son, Alberic, who turned his brother, John XI, son of Sergius III, out of the Pontifical See. To Alberic succeeded in turn, Octavian, who, uniting the temporal with the spiritual power made himself Pope under the name of John XII, and what a Pope! Baronius half pagan, and laughed at the sacraments, blasphemed like a Turk, and led the life not of a priest, but of a soldier. He was deposed by Otho I. He re-ascended the pontifical throne, when Otho was obliged to leave Rome, and in 964 was assassinated, having been stabbed in the back, like Absalom or Manfred. To the infamous family descended that of the Crescentii, the Counts of Tusculum and Theodora III. The Benedicts continued, and when the old dynasty, exhausted, and run into the ground, Crescentius raised the spectacle of the old barbaric republic. Otho III, put into the chair his cousin, Gregory V, who kept himself in it by terror, and died by poison. For three hundred years the Roman Church was a battle-field. Constantine obtained the chair by force, and was turned out of it by force, for Adrian III deposed him and had him assassinated. Adrian commenced his pontificate by chastising the crimes committed under his predecessor. Leo III took to flight to escape assassination. Pascal I had two Archdeacons of the church murdered in his own palace. Sergius II had John, his rival, cut to pieces. The election of Benedict III, and of Nicholas I, brought about an insurrection and almost a schism. Leo V and John X were strangled. John XI was deposed and imprisoned. Stephen VIII died of his wounds.—John XII was stabbed to death. Benedict V died an exile in Germany. Benedict VI and John XIV were assassinated by Boniface VII, and he was massacred in his turn by the frenzied people. Gregory V was expelled and then incarcerated. John XVI was deposed and put to death. The rebellion against Benedict IX, who was expelled for his crimes, Pope Victor III himself acknowledged, was smothered by Conrad in 1047. But the peace only lasted six years, and the Pope had to take to flight again. He returned to Rome a second time through blood, and over the dead bodies of his foes. He maintained himself in power until 1045, the period of his third flight. Gregory VI was treated by the Lombards as a heretic, Satanas, and adulterer.

This brief sketch taken from Roman Catholic authorities gives but a faint detail of the moral evils of the head of that power which Archbishop Lynch would have all Canadians believe was founded by Jesus Christ. To give all the details of their terrible violations of all law, civil and divine, would require volumes. But this Pope, Pius IX, like those who preceded him, claims to be the Vicegerent of Him who delivered the sermon on the mount!—of Him who said His kingdom was not of this world, and who told His impulsive followar to "put up his sword." What would he say to his Vicegerent who sacked *Pe ugia*? To his calling hirelings from all quarters of the globe to defend his temporal possessions? "And unless it were restored" as Cardinal Manning said: "There is a convulsion of society imminent such as will throw into the shade the conflict of previous times. No one could calculate the enormous elements of destruction stored up in the gigantic forces now existing in Europe, where even millions of men in arms were awaiting the call to war and bloodshed." The only conclusion I can come to is—That if the Pope represents God spiritually, most assuredly he represents no good spirit tempororally, as far as all outward and visible signs declare. And simply, such has been the history of the Papacy. Were we to take our religion from that source we would be sadly at fault, for we find in it

"HOLY JUGGLINGS—

Things that would startle faith and make us deem not this or that, but all religions false."

Candidates must notify me not later than the 22nd instant, stating class of Certificate for which each intends being examined.

JAMES COYLE BROWN,
June 3rd, 1876 24-3t P. S. Inspector Co. Peterborough.

BY-LAW NO.—

A BY-LAW to provide for the issuing of Debentures to the amount of Three Thousand and Five Hundred dollars for the purpose of erecting a new School Building, in the village of Ashburnham, and to provide for the payment of the principal and interest thereon, and to repeal By-law Number Fifty one of the said municipality of Ashburnham.

WHEREAS the Public School Board of the Municipality of Ashburnham require enlarged School accomodation for the said Municipality and have determined upon erecting a new School Building therein and have notified the Council of the said Municipality to provide the necessary funds therefor.

And whereas for such purpose the amount required will be the sum of Three Thousand and Five Hundred dollars, and it will be necessary for the said Municipality to raise the same by the issue of Debentures of the said Municipality to that amount in the manner hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality of Ashburnham irrespective of any future increase of the same according to the last revised assessment roll of the said Municipality (being that for the year 1876) is the sum of Three Hundred and Fifty-one Thousand two Hundred and seventy-five dollars.

And whereas there is no existing debt of the said Municipality of the Village of Ashburnham, either for principal or for interest.

And whereas it is desirable to make provision for the payment of the said Debentures and the interest thereon within fifteen years from the day hereinafter appointed for the coming into force of this By-law.

And whereas it will require the sum of Four Hundred and Forty three dollars and thirty three cents to be raised annually during the said period of fifteen years by special rate on the whole rateable property of the said Municipality for payment of the said sum of Three Thousand and Five Hundred dollars and interest thereon.

And whereas the amount of the whole rateable property of the Municipality of the Village of Ashburnham is the sum of Two Hundred and Fifty-one Thousand two Hundred and seventy-five dollars according to the last revised assessment roll thereof.

And whereas it is necessary that Debentures be issued for the sum of Three Thousand and Five Hundred dollars, payable in Twenty years from the time of issuing the same, with interest thereon at the rate of Six per cent. per annum, payable half-yearly on the First days of the months of February and August of each and every year at the office of the said Bank in the Town of Peterborough and such Debentures shall have Coupons attached thereto for the interest to mature thereon from time to time.

And whereas it is necessary to raise the sum of Four Hundred and Forty three dollars and thirty three cents annually during the said period of fifteen years by special rate on the whole rateable property of the said Municipality for payment of the said sum of Three Thousand and Five Hundred dollars and interest thereon.

And whereas the amount of the whole rateable property of the Municipality of the Village of Ashburnham is the sum of Two Hundred and Fifty-one Thousand two Hundred and seventy-five dollars according to the last revised assessment roll thereof.

And whereas it is expedient to repeal By-law Number Fifty one of the said Municipality provided for the issuing of Debentures for the raising of the said sum of money for the purposes above designated, but owing to the said By-law providing for the issue and redemption of such Debentures under the two Hundred and fifteen Section of the Municipal Act the said Debentures could not be disposed of to advantage and none of the debentures thereby provided for having been issued, it is deemed expedient

Peterborough, June 21st, 1876. 2t-d.

The Examiner.

PETERBOROUGH, JUNE 22, 1876.

THE EXAMINATION for promotion to the High Schools and Collegiate Institute commences on the 28th instant.

BARRY BRO. are receiving large quantities of excellent Strawberries. Now is the time for strawberry festivals.

NEW.—Mr. Thomas Eastland has added a very fine covered buggy to his conveyances, for the comfort of his patrons.

NEW PEAS.—Mr. Stephen Payne can supply his customers with green peas of home growth, already. Who can beat this.

ARSON.—A tramp in Hamilton set fire to the shed of a person in Hamilton, because he had been refused whatever he desired for dinner.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

THE GLOBE SAYS.—The Rev. D. J. Macdonnell preached his last sermon in St. Andrew's Church previous to leaving for an extended tour of Europe.

ST. PAULS CHURCH.—The Rev. Mr. Cameron, the lately inducted pastor of Millbrook, will preach in St. Pauls Presbyterian church here, on Sabbath first.

COMING.—Van Amburg's Circus and Menagerie, and W. W. Cole's mammoth Menagerie and Circus will visit all the principal towns in Canada this season.

GOLDEN EYE.—On Monday, July 3rd, Mr. Calcutt's new steamer, "Golden Eye" will run two excursion trips to Harwood, in connection with the Cobourg Railway, fare only 50 cents.

NORTH ONTARIO.—Mr. Currie, of Port Perry, is the unanimous choice of the Reformers of North Ontario, for the seat vacant by the decease of Mr. Gordon. Mr. Currie's election is certain.

CONVICTED.—The death sentence of Ward, the Caledonian wife murderer, has been commuted to penitentiary for life. Probably this is owing to the medical evidence, on the trial, of his insanity.

REMOVAL.—Messrs. McKee & Davidson have removed to Mitchell's corner, next door to their own old stand, where they have a full stock of all kinds of harvest tools in use. Read their advertisement.

WE understand the Big 6 Combination have been in constant rehearsal for some time, and intend showing about the last of June. Lovers of fun will not fail to see them. This is their last performance this year.

THE CENTENNIAL.—All who intend visiting the Centennial should procure their tickets at Mr. Hunt's Ticket Office [illegible] they will have time, trouble, and crowding at way stations. It will cost no more and will save annoyance on the way

ST. PAUL'S CHURCH.—The Rev. E. F. Torrance has received and accepted a unanimous call to the Presbyterian Church, as successor to the Rev. J. M. Roger, retired. The Ordination Services will take place on Wednesday, 28th inst., at 3 o'clock, p. m. At 7.30 there will be a welcome social and addresses.

CRICKET.—A match will be played on the Ashburnham ground to-day, between the Lindsay and Peterboro' clubs, wickets to be pitched at 10 o'clock a. m., sharp. Entrance to the ground 10 cents, ladies free. There will be a Moonlight Excursion in the evening on board the Whistle-wing for the entertainment of the Lindsay cricksters.

GRAND DEMONSTRATION.—We are requested to say that the Grand Temperance Demonstration will be held on Saturday, July 1st, notwithstanding the holiday being changed to Monday. Let the friends of Temperance do their duty on that day and make this one of the grandest temperance gatherings ever held in this part of Canada.

MUD LAKE.—The steamer "Ontario," Captain Bottom, will run an excursion trip from Bridgenorth on Wednesday, the 28th instant, to join the Lindsay masonic pic-nic, at Sturgeon point, that day. She leaves Bridgenorth at 9 a. m., returning in the evening. Stages will leave the town at 8 a.m. This will be a pleasant trip.

THE Cobourg *World* says;—Last week one of our late hotel keepers was fined $20 and costs, for selling without a license, and a day or two after, another, having a license, was fined $30, and sent to the lock-up for an hour for selling liquor to an Indian. The scenes all concerned understand that the provisions of the law in such matters will absolutely be enforced the better for themselves.

THE WEATHER.—The rains of the past few days have caused the farmers expectations to rise, no small degree. They are full of hope of an abundant crop of all kinds. Hay promises a large yield. All spring crops look unusually well, and with favorable harvest weather the farmers will have an abundant return for their labour, which will tend to relieve the country of much of the evils under which it is suffering from depressed trade.

BOAT RACE.—The four oar race came off Tuesday evening, as advertised, and was won by Messrs. Beckett, Beauvais, McNamme and Nesbitt, easily by a length and a half. The crew of the other boat were Messrs. McCollor, Rogers, Hall and Roger. There was also a pair oar race between Beckett & Nesbitt and Roger & Bowman. It was well contested, and was won by the former by half a length. Distance about one mile.

DWELLING BURNED.—We regret to learn that the dwelling house and furniture of Mr. John Gillespie, of the 3rd concession of Otonabee, was consumed by fire on Thursday morning last. The fire was discovered about one o'clock a. m., by his son. We understand that the family had to escape through a window, and did so with difficulty. Nothing was saved. Unfortunately it was in very favourable weather. We understand there is an insurance of $600 or $700 on house and outhouses the loss therefore must be considerably over that amount.

A DANGEROUS ANIMAL.—On Sunday afternoon, as Mrs. Swinton, who resides near the Auburn Mills, was on her way home from church, she was attacked by a cow, knocked down, and severely bruised and hurt. But for knobs on the horns of the animal, Mrs. Swinton might have been killed, or terribly gored. The owners of such animals, as dangerous to be at large, ought to be compelled to pay for allowing them to run where they may cause damage and perhaps loss of life. We are glad to learn that Mrs. Swinton escaped without serious injury.

A Woodstock paper warns it exchanges to look out for a Prof. Langton, who it says is a dead beat. There are unfortunately many dead beats as well as Langton, and they are to be found in almost every place. A Dead Beat List has lately been issued in every city and town in the Dominion in order that honest people particularly business men, may be protected against men from whom nothing can be collected, and who live by their wits. There is no sound reason why retail merchants should not combine to protect themselves against the birds of prey who live beyond their means, or wish to obtain a living without honestly working for it.

THE BONUS BY-LAW.—The By-law to grant $6,000 to Mr. Millar, to induce him to commence a factory for manufacturing his sewing machines, will be voted on on Monday. It is believed it will be carried We have not yet heard of any opposition to it. The amount is small, and therefore the trial of success of such an undertaking would be worth the money. All friends of the proposition should not fail to cast their vote for it. We have not advocated a bonus for any purpose except for railways, not being warmly in favour of the bonus principle, But in this case the sum is small, and hence a trial of what such a scheme might do for the town, can be made at a moderate outlay, we therefore say, vote for the by-law and let us see what the result will be.

IMPROVEMENTS.—Since the introduction of the new License Law, an improvement is visible in the order of those hotels that received license. It may be that they are not free from little slips, at any rate, they are nothing the worse of being under surveillance. The "Stewart House" now kept by Mr T. Cavanagh, has been completely renovated, papered, furnished, and made very comfortable. We are also glad to be able to render testimony to the quietness and order that prevails. We had our fears that where so many of an intemperate class stopped there would be trouble, but Mr. Cavanagh is keeping the house both quietly and orderly. Our opposition to the traffic will not prevent us giving due praise to those who make reasonable efforts to keep respectable houses

DROWNED.—We regret to have to chronicle the death by drowning of Miss Jane Sanderson, daughter of Edward Sanderson, Esq., of North Smith, on Thursday, 15th inst., in the Otonabee River, above the dam at Lakefield. From information received we understand that she and Miss Bell, daughter of Mr. Matthew Bell, of Smith, Mr. R. H. Brodin and Mr. S Ross, on that day had been attending a County meeting of Good Templars at Lakefield. In the afternoon they obtained a skiff from Mr. Gordon, and went up the lake or river for a sail. In passing up they went under a rope which is attached to a tree on the shore, and which was attached to a boom about 20 feet from shore for the purpose of running logs into the mill pond below. In returning down about 4 p. m., the young men were rowing the boat, [illegible] the stream, preventing them from seeing their exact position. In this way they came to the rope, intending to sail over it, but not being far enough out in the river for that, the young men attempted to pass the rope or sail under it. The strong current and surging of the rope prevented them; the skiff turned with its side to the current, and thus all were capsized. The young men held on to the rope and attempted to catch the young women, but both happened to catch Miss Bell, Miss Sanderson being towards the side the skiff capsized was thrown under the rest, and thus floated under the rope Mr. Bredin seeing Miss Sanderson pass under, threw himself across the rope and attempted to catch her, but he merely touched her with his hand, the hat coming off. None of the parties could swim, and therefore to let go the rope was certain death to both, and the unfortunate young lady was thus permitted to float away from them. Miss Bell getting hold of the rope held to it and was soon rescued. A party on the shore gave the alarm and a Mr. Smith went in a skiff to Miss Sanderson's relief, but having nothing but a pike pole, he reached the place just in time to see her sink to rise no more. This melancholy affair cast a gloom on the whole place. Miss Sanderson was about 22 years of age, a very excellent young woman, and admired and loved by all who knew her. The bereaved parents and friends have the warmest sympathies of the whole community in their sudden and sad bereavement. The body was not found till Sunday, when a young man named Coughlin, of Douro, found it a little above the Red Mills, and not less than six miles from the place of the accident. The funeral took place on Monday from her father's residence and was one of the largest ever seen in Smith. There were said to be 117 carriages at it, and the procession extended considerably more than seven eights of a mile. The accident is a melancholy one, but no blame, it is said, can be attached to those in the boat, except that of venturing out on the river when the water is so high and the current so strong, but it is hoped that the sad event will prevent a recurrence, by preventing parties venturing on water until accustomed to it.

COLLEGIATE INSTITUTE.

The Public Oral Examination of the pupils in the Modern Language Department of the Collegiate Institute will be held on Friday, the 23rd of June, beginning at 1.30, p. m. A number of prizes will be distributed to the pupils who have most distinguished themselves during the last two terms.

The following is a list of the gentlemen who have subscribed to provide suitable prizes in this department:—

A. W. Aytoun Finlay, Esq.	$4 12
J. Edwards, Esq.	2 00
Jas. Stevenson, Esq	2 00
Geo. Cox, Esq.	2 00
E. B. Edwards, Esq.	2 00
Geo. Edmison, Esq.	2 00
H. C. Rogers, Esq	2 00
Jas. Stratton, Esq	2 00
W. H. Scott, Esq., M. P. P.	2 00
D. W. Dumble, Esq.	2 00
D. Lemay, Esq	2 00
W. Loch, Esq	2 00
J. Murray Smith, Esq	2 00
Thos. Menzies, Esq., (Books)	——
Total	$32 12

The value of the books to be awarded is $23.55, of which the Department of Public Instruction grants $20.72. The total expenditure therefore has been:

Remittance per P. O. order	$4 00
Remittance in Postage Stamps.	77
Money order and stamps	35
Express charges	1 20
Total	$32 12

COUNTY COUNCIL.

The June Session of the County Council commenced on Tuesday, 20th inst., R. E. Birdsall, Esq., Warden, in the chair, and present Messrs. Sanderson, Bell, Miller, Blezard, Choate, Collins, Golborne, Burgess, Moloney, Burnham, Brown, Blewett, Costello.

The Clerk read the Minutes of the previous Session which were afterwards confirmed,

The Warden then addressed the Council.

WARDEN'S ADDRESS.

GENTLEMEN,—At this Session of the Council, it is your duty to equalize the Assessments of our several Municipalities and to provide for the current expenses of the County.

Owing to a tolerably united action of our Township Assessors, the valuation of Real Estate has been increased from three to five hundred per cent. This will render your annual task of revision of the Assessment Rolls more difficult than usual, and will call for considerable patient investigation.

As the basis which you fix this year will probably stand without much change for some time, it will be desirable for the Committee on Equalization to commence work as early in the Session as possible that the comparative standing of each Township will have ample time to be duly considered.

If, as is right and desirable, you decide to raise the County valuation proportionately to that adopted in the Townships, some provisions will have to be made regarding the Debenture Rates now levied under different By-laws. These are considerably in excess of the requirements, at our present valuation but if this valuation be increased three to four fold with out amending the rates imposed under the By-laws, the sums raised would be out of all proportion to the amount required

Although the County expenditure for the past year has considerably exceeded the estimates, yet our financial affairs are not in an unfavorable position. The deficiency has been met by borrowing as usual from our debentures sinking fund surplus, or in other words, from ourselves, and has been caused entirely by the very unusually large sums which were necessarily expended in rebuilding and renewing bridges, principal among which were the new iron bridge and the temporary bridge over the Otonabee river and incidental expenses connected therewith Our share of which was about $5,400. Replanking the floating bridges $2,000.

These may be regarded as strictly extraordinary expenditures and will probably not be a claim again for many years.

Included also with County liabilities is the appropriation of $1500 to assist in building a bridge over the narrows in Stoney Lake, between Dummer and Burleigh.

The County Council visited this place last summer, and after inspection formed the opinion that the idea of a permanent bridge was premature as the anticipated traffic would not justify the expenditure at the present time However, as great interest in the opening of this route is taken by the people of the adjacent portions of the County, the Asphodel Council on the invitation of the Council of Dummer went to Stoney Lake over the new road to the narrows, now being made through Dummer. *They found* that the Dummer Council had expended and was expending large sums of money on this line of road and that there would still be required about $600 more than the appropriation to complete it through Stoney Lake.

Seeing that this outlet would be of great advantage to more than one Municipality, it was considered advisable by those parties present to lay a claim before the County Council at the present Session and ask for the sum of $500 out of the vote of $1500 now standing to the credit of the proposed bridge towards the said new road. I promised to bring the matter on their behalf, before you and to call your attention to the fact that as the inhabitants of the eastern portion of the County have paid large sums towards the floating bridges at Mud Lake and Pigeon Creek which are of little or no advantage to them, it would be no more than fair for you to make some grant of the kind to the eastern people to put them in an equally favorable position.

The Chairman of the County Property Committee in conjunction with the Committee appointed by the Town Council have planted the park in front of the Court House with shade and ornamental trees. This will no doubt meet your approval as it is only completing work before commenced under your directions, and replacing dead and injured trees.

A Band of Music belonging to the Town of Peterborough commenced playing in this enclosure in the evenings, bringing with them large audiences. The caretaker of the grounds informed me that on the first night of the [illegible] there were no fewer than [illegible] trees were destroyed and several more damaged, I therefore instructed him to lock the gates at night and to prevent the band playing there again till your wishes could be ascertained.

In the year 1862 the By-laws of the County were consolidated and pointed but no By-law confirming the same was attached to the By-laws thus consolidated, your Clerk informs me that he is therefore unable to furnish *certified copies of the By-laws when required.*

If it be competent for Municipalities to consolidate their By-laws it will be advisable for you now to pass a By-law confirming the the consolidation of 1862 and having the consolidation By-law attached.

The arbitration between the County of Peterborough and the united Counties of Northumberland and Durham touching the indebtedness to this County of the village of Hastings lately separated from us has not yet taken place.

You appointed W. E. Roxburgh, Esq. as your arbitrator to act with one arbitrator to be appointed by the said United Counties.

The United Counties aforesaid and the Village of Hastings each appointed an arbitrator to act with the arbitrator appointed by you, thus giving them two votes to your one on the arbitration and in effect throwing out your arbitrator altogether. The latter however, informed me that he did not consider himself authorized by the By-law appointing him, to act with two arbitrators and therefore took no steps in the matter till he received further instructions from you.

Our Treasurer informs me that the Provisional County of Haliburton has not paid its debenture interest due to this County on the 1st of January last, also that some of the Municipalities of this County are still in arrears with their County rates.

According to your instructions I directed C. A. Weller, Esq., to commence legal proceedings against the Town of Peterborough for half the rebate received by them from the Contractors for the old iron bridge between Peterborough and Ashburnham. This amount or $425 is the sum stated to have been presented by the Contractors to the Town of Peterborough for School purposes.

The Town Council without permitting the matter to go before the Courts paid your Treasurer the half demanded, viz: $212.50 together with interest from the date on which the legal demand was made.

There are several communications, reports, etc., to which it is unnecessary for me to refer to here as they will come before the Council in the material order of Business.

R. E. BIRDSALL, Warden.

Council Chamber,
Peterborough, June 20, 1876.

On motion of Mr. Burnham, seconded by Mr. Brown, Messrs. Sanderson, Millar Collins, Choate, Golborne, Moloney, Brown and the mover, were named a Committee on the Warden's address.

Moved by Mr. Golborne, seconded by Mr. Collins,—That accounts and papers in the hands of the Warden and Clerk be referred to the several committees to which they relate.—Carried:

On motion of Mr. Blewett Mr Robt. Maxwell, of Galway, was heard before the Council in reference to injuries received by his horse on the boundary line between Somerville and Harvey. He said the County of Victoria had paid him half the loss he sustained in hiring a horse in his place.

The Warden remarked that the Townships on each side of the line, not the County, are accountable.

On motion of Mr. Collins, seconded by Mr. Golborne, the advisability of meeting the portion paid by the County of Victoria was referred to the Finance Committee.

A communication from Mr. Leonard asking for books for County Court.

On motion the com. was referred to the committee on County Property.

Mr. Boulton entered and took his seat.

Mr. Golborne moved, seconded by Mr. Brown,—That the Council adjourn to allow the Committee on the Warden's address to meet.—Carried.

The Council adjourned, and the committee met to consider the address.

After considering the address,

The Council resumed, the Warden in the chair, all the members present.

On motion of Mr. Burnham, seconded by Mr. Moloney, the committee on the Warden's address were allowed to report, Mr. Burnham, as chairman, read the report.

The Committee on the Warden's Address beg leave to Report:—

1. That they fully concur with the view expressed by the Warden as to the importance of the work devolving upon the Committee on equalization this year, and trust that the Committee will give the subject its best consideration.

2. Your Committee would recommend that a special Committee be appointed to consider the best course to be pursued with regard to the Debenture Rates now required to be levied and the surplus accrued on account of the Rates heretofore levied.

3. Your Committee would recommend that the propriety of making a grant in aid of the Road to the Narrows of Stoney Lake now being in the Township of Dummer be referred to the Road and Bridge Committee.

4. Your Committee while approving of the action of the Chairman of the Committee of County Property in replanting the Court House Park, consider that hereafter work entailing so large an expenditure should not be incurred without the express consent of the Council, and that any expenditure on the Court House Park should be done under the direction of the Joint Committee.

5. Your Committee would recommend that a special Committee be appointed to have the By-laws consolidated up to the present time and prepared for approval at the next meeting of this Council.

6. Your Committee approve of the action of Mr. W. E. Roxburgh and would recommend that a Special Committee be appointed to consider what steps shall be taken under the circumstances.

7. Your Committee would recommend that the Treasurer be instructed to take steps to collect the amount due by the county of Haliburton.

8. Your Committee regret that any Municipality should still be in arrears for the rates of 1875, and are of opinion that the resolution of the Council charging interest on arrearages should be rigidly enforced.

9. Your Committee rejoice that the Town of Peterborough have seen fit to refund one half of the amount illegally received by them in connection with the late Iron Bridge, and hope that hereinafter no such transaction will be attempted.

All of which is respectfully submitted.

JOHN BURNHAM,
Chairman.

Council Chamber,
June 20, 1876.

Mr. Burnham moved, seconded by Mr. Moloney, that the report be adopted

Mr. Golborne moved, seconded by Mr. Collins, to amend the report. After discussion the amendment was withdrawn and the report adopted.

Interesting to Invalid Ladies.

HARLEMVILLE, Columbia Co., N. Y. July 9, 1873. R. V. Pierce M. D. Buffalo, N. Y;

DEAR SIR.—Your favor is just received. I attended to have written to you several weeks since concerning the improvement in my health, which is now very apparent. I have used one bottle of Favorite Prescription with the best results, although I will admit I was somewhat discouraged after its use (for a short time only). I took it under very disadvantageous circumstances—leaving the supervision of the house and during the season of "house-cleaning" I was obliged, through the incompetency of help, to do more than I ought and, of course, suffered dreadfully, lifted when I ought not to have raised my hand, and did all I could to bring "order out of chaos."—but upon laying aside all cares and continuing the remedy I find after using less than one bottle to be so much benefited that I have discontinued the use, with no return of the symptoms of which I wrote you. I have suffered terribly and what added to my distress was the consciousness of not procuring relief from ordinary sources, at times it seemed impossible to stand so great was the distress. All of those severe neuralgic pains have disappeared, they were so bad at times I could hardly walk without some external pressure to have left me like magic, suddenly. and I have had no return: all others symptoms have been removed. The severe weakness and faintness disappeared, and I can go up stairs with comparative ease now. I would have informed you ere this of my improvement far I appreciated it, but I was fearful it was only transient benefit I was receiving, but I thing sufficient time has elapsed to consider the beneficial results permanent. Accept of my best wishes for your future success and your kindness is advising me.

Very truly, MRS. M. NETTIE SNYDER

BIRTHS

BELL—In Ashburnham, on the 17th inst, the wife of Mr. J C Bell of a son.

MARRIED

BROWN—LYNN—At the residence of the bride's father, on the 7th instant, by the Rev. R. Clark, Mr. Thos. Brown, son of J. P. Brown, Esq., to Miss Ann Jane Lynn, daughter of Joseph Lynn, Esq., all of Asphodel.

CUMMING—CONNOLLY—By the same, at the Methodist Parsonage, Norwood, on the 13th instant Albert A. Cumming, of Norwood, to Miss Eliza Connelly, of Dummer.

LOBB—WHITE—By the same, on the 12th instant, at Round Lake, Mr. Thos. E. Lobb, of Asphodel, to Miss Marion White, daughter of Wm. White, Esq., of Belmont.

BARNET—BARNS—At Peterborough, on Saturday 10th inst, by the Rev. C Carrol, Mr Cole Barnet, to Miss Martha Barnes, all of Peterborough.

DIED.

MANN—At Smith, on Thursday, 15th Inst., Sarah, wife of Stephen Mann, Esq

MURRAY—On the 13th Instant, James, youngest son of Mr. Roger Murray, of Belmont, aged 26 years and 6 months.

FEE.—At Peterborough, on Saturday the 17th inst, Elizabeth Agnes, daughter of Michael Fee, aged 6 months and 16 days.

SAWERS—At Peterborough, on Sunday the 15st Inst, Annie Walton, beloved wife of Mr. John Sawers, in the 34th year of her age.

GILLESPIE—At Peterborough, on Thursday, 15th Instant. Violet Patterson, only daughter of Mr. Alex. Gillespie, aged 8 months and 24 days.

MCNICOLL—On the 12th instant, at the residence of his father, Belmont, Daniel, son of Eugenie McNicholl, Esq., aged 23 years and 5 months.

HAZLEHURST—At Peterborough, on Wednesday, 14th Inst., after a lingering illness, Clara Ann, second daughter of the late George Hazlehurst, Esq., aged 22 years and 7 months.

MAYBEE—On Sunday evening, June 11th, at the residence of A. C. Dunlop, Esq., Francis Charles Maybee, third son of the late George Maybee, Esq., C. E., London, England, aged five years.

NEW WARE ROOMS.

EXTENSION OF J. WHYTE & CO'S AGRICULTURAL WORKS

We Beg to announce that we have fitted up for a Ware Room, the buildings formerly use by Mr. HILL as a SKATING RINK,

Opposite Henthorn's Livery Stable, Hunter st.,

and, from its central position in Town, will be a great convenience to our Customers and the public. In addition to the Implements manufactured by ourselves, we have succeeded Mr. R. E. Boyes, in the Agency for the sale of the Celebrated Mowing and Reaping Machines, Manufactured by Messrs. A. Harris, Son & Co., Brantford, of which we have the following:—

New Kirby Reaper, Combined. New Kirby Reaper, Single.
Kirby Combined Baltimore Rake.
Ceres or Burdick Single Reaper. Kirby Two-wheel Single Reaper.

We have at all times Patterns of and Repairs for the above Machines in stock at our Foundry

THE PLOW DEPARTMENT

comprises Eight Varieties chief of which is

"THE CHALLENGE & IMPROVED COMBINATION PLOUGH,"

Fitted with Iron beams and best hardened and tempered American Steel Boards and Steel Landsides. These Ploughs are admirably adapted for all kinds of soil.

We have also on hand, Points and Soles for all the Ploughs Manufactured by the late Wright & Davis, the Peterborough Manufacturing Co's, and Mr. Wm. Hicks, now a member of the late American and Scotch Firm, and Guaranteed to be Hard and Durable. We have also Repairs and Patterns for all the Machines sold by the above named parties, on hand.

Having decided to make PLOUGHS A SPECIALTY, and by using suitable, well seasoned material, and having a thorough knowledge of the business, combined with fair and honest dealing, we hope to merit and obtain a fair share of public patronage.

J. WHYTE & COMPANY,
Opposite Peterboro, Perryboro

JOHN WHYTE, Manager.

N.B.—The Foundry and Machine Shop is situated on McDONNEL STREET, immediately opposite the Carding and Woollen Mill of Mr. Augustus Brown.

Moonlight on the Graves.

It shineth on the quiet graves
Where many sires have gone,
It watcheth all those silent ones
Who "sleep the sleep of death,"
And not a round of busy life
To the still graveyard comes,
But peacefully the sleepers lie
Down in their quiet homes.

All silently and solemnly
It throweth shadows round;
And every grave-stone holds a place
In darkness on the ground.
It looketh on the tiny mound
Where a little child is laid,
It lighteth up the marble pile
Which human pride hath made.

It falleth with unaltered ray
On the simple and the stern,
And showeth with a solemn light
The sorrows we must learn.
It telleth of divided ties
On which no human have shone,
It whispereth of broken hearts
Which broklenly live on.

It gleameth where devoted ones
Are sleeping side by side.
It falleth where the maiden rests
Who in her beauty died.
There is no grave on all the earth
Which moonlight hath not kiss'd;
It graveth cold and pitilessly
Where agony hath been.

But it is well! That changeless ray
A deeper thought should throw,
Where mortal love pours forth the tide
Of unavailing woe.
It teaches us the shade of grief
Can touch the starry sky;
That all our sorrows fleeth here,
The glory is on high!

AFTER the close of the lecture delivered on Friday night at the Temperance Hall, Ottawa, by the Rev. Chas. Chiniquy, as lecturer and the Rev. Mr. Ami were proceeding to the hotel in a carriage, when opposite Baskerville & Brot., a storm of stones were hurled at the carriage one hitting Father Chiniquy on the head, and another striking Mr. Ami.—*Recorder*

THERE are at present confined in the Schuylkill County prison twenty members of the Molly Maguires. Of these twelve are charged with murder, the remainder being accessories after the fact to murders. The entire gang have been arrested from information given by detective McParlen.

QUOTE the Hamilton *Times*: The latest novelty in theft was exhibited in St. Catharines on Saturday night, when an organ was stolen from the Congregational church If this sort of thing continues, it will soon be unsafe to leave a railway car of doors at night, and the city lamp posts will require to be carefully padlocked to prevent them from being carried of. It is all the fault of Grit rule. No one ever stole a church organ when Sir John was Premier.

THE STEWART WILL CASE.—It appears that there is to be a scramble over the property of the late Mr. A. T. Stewart after all. The parties who are about to contest the will claim to be his third cousins of the deceased, their grandfather and the grandfather of Mr. Stewart having, as alleged, been brothers. As the ground upon which the will is to be contested cannot yet be ascertained it is impossible to form any opinion as to the merits or prospects of the suits. But Mr. Stewart's well-known business habits and firmness of character, together with the fact that he was in full possession of his faculties to the last, would seem inconsistent with the idea that his last will was not made in accordance with his wishes and intentions.—*N. Y. Herald,*

SHOCKING OCCURRENCE.

FIVE CHILDREN BURNED TO DEATH.

A dreadful calamity, we learn from the Windsor *Record*, took place near Stoney Point on Wednesday night. The dwelling house of Francis Mailloux, a farmer, took fire and five of his children perished in the flames. The family consisted of Mr. and Mrs. Mailloux, and seven children, the eldest of whom was a daughter, 17, and the youngest a boy, between four and five. The latter slept with his parents, and was the first to discover the presence of fire in the house, having been awakened by the smoke. He aroused his parents, who immediately realized the situation and barely escaped from the building with the help and a daughter aged 14, who slept in a bed in the same chamber, before the flames rushed in with great force. Up stairs the rest of the children had been sleeping, and being wild with fear for their safety, poor Mailloux attempted to open the stair door and go to their relief; but he could do nothing; he burned his hands badly, and after all was compelled to retreat. That is was in any case too late the innocents were already enveloped in death. On regaining the open air it was plain that the fire had originated in a back kitchen and burned its way steadily towards the front, gaining the upper flat early on, and laying hold of his own apartment only when all the rest of the house had been reduced to a shell and everything therein consumed When all was over the charred remains of all the victims were found in a heap, they having evidently huddled in a corner of their room when aroused by the flames, and there met their fate Doubtless the elder girl had gathered them to her, and encircled them with her affectionate but powerless arms.

DUMMER.

COURT OF REVISION.—May 27th, 1876. Court met at the Town and Agricultural Hall Warsaw, at 10 a. m. Present—T. G. Choate, Esq., and Messrs Crowe, Ritchie, Robb, and Wigmore, each member took the declaration of qualification. Moved by Mr. Robb, seconded by Mr. Ritchie,—That each appelant be sworn.—Carried. The cases were disposed of as follows:—Augustus Reche, on real property, Roll confirmed. Joseph Jory, on real property $50 thrown off. William Peg, on real property $200 thrown off. James Robb, dog killed since assessment, thrown off. R Z Rogers, on real property, Roll confirmed. Edward Payne, personal property struck off as he has sold out and left the country. Patrick Fitzpatrick's name was entered instead of Josiah and William Edward Payne, for west half of lot 17 in the 1st con, and their personal property thrown off as they have sold out and left the country. Silas Jenkins, 2 dogs and bitch struck off, as the dogs were killed, and the real owner had the bitch. Frederick Miles, one bitch struck off as she was killed. James Logan, 31 acres added to his other real property as the Court of Chancery has decided in his favor respecting said land since assessment. David Drain, senr. 1 dog and 2 bitches thrown off. Charles Davies, one bitch put on the roll. John Drain 1 dog thrown off. Richard Gallagher, senr. 2 dog thrown off. Robert J Kidd; $160 personal property thrown off. William Christie, 2 dogs thrown off, killed since assessment. John Doughty 1 dog thrown off, belongs to H. Doughty. P. Grath, 1 dog thrown off, killed since assessment. John Wilson, 1 dog thrown off. Robert Robison, $50 personal property thrown off. West half lot 3 in con V changed from William [illegible] to Charles McMillen. East half lot 7 in con 9 changed from S. Hearne, to James McMillen. John Taylor, 1 bitch thrown off. Hugh Kelly, real property, Roll confirmed. J. Middleton placed on the Roll for west half lot 7 in con 9. On Motion the Clerk was instructed to certify the Roll as revised, the court closed.

COUNCIL.—Minutes of last meeting read and confirmed. Moved by Mr. Wigmore, seconded by Mr. Crowe,—That Messrs Robb, Ritchie, and the Reeve be appointed a committee to inquire into and report on the petition of Thomas Choate and others respecting a Drain in Warsaw—Carried. The Clerk was instructed to get 200 copies of the By-laws relating to the duties of Poundkeepers and Fenceviewers printed in sheet form. The Reeve was instructed to settle some of arbitration with the arbitrators Messrs William Burgess, and Hugh Drain. Mr. Wigmore, reported respecting a proposed road on the 11th construing that it would take $600 or $700 to make it, and that large sums had been spent on the present road. Orders granted. To Alex Slavin, taxes refunded $2 05. William Dorling re assessor $60. Bylaw passed. Orders to provide for the payment of money. Council adjourned to Saturday, the 19th day of August, next to meet at the Town Hall.—Com.

FARM AND HOUSEHOLD.

Rice coffee is good food for children suffering with summer complaints, and a handful for the evening meal of rice boiled soft, and eaten with cream and afterwards drinking cream. It is not unpalatable, is very nourishing, and can be made any strength required. With the addition of sweet cream and loaf sugar, a child of two or three years will require no other food until the disease is removed.

AN easy method of breaking glass to any required form is by making a small notch, by means of a file, on the edge of a piece of glass, then make the end of a rod of iron red hot in the fire, apply the hot iron to the noch, and draw it slowly along the surface of the glass in any direction you please; crack will be made and will follow the direction of the iron. Round glass bottles and flasks may be cut in the middle by wrapping round them a worsted thread dipped in spirits of turpentine, and setting it on fire when dakened to the glass This process is fimiliar to old campaigners, with whom glass bottles, are more plentiful than tumblers, and the former is thus utilized to supply a want of the latter.

AN exchange says: "All over the land women are feeding their babies from nursing bottles with white rubber tops. The preparation used is bleaching rubber is a horrible and deadly poision—white oxide of mercury and kindred drugs—and the constant mumbling and chewing rubber so prepared places a child's life in danger. Paralysis has been caused by it, and many a baby dies in consequence of its use. A French mother or nurse, convicted of putting one to a baby's lip is fined 26 francs or imprisonment 10 days and to sell one in France is a grave misdemeanor."

When persons are feverish and thirsty beyond what is natural one of the best "coolers," internal or external, is to take a lemon, cut on the top, sprinkle over it some loaf sugar, working it downwards into the lemon, and then suck it slowly, squeezing the lemon and adding sugar as the acidity increases. Invalids with feverishness may take two or three lemons a day in this manner with the most marked benefit manifested by a sense of coolness, comfort and invigoration. A lemon or two thus taken at tea time, as an entire substitute for the ordinary supper, will give many a man a comfortable nights sleep and an awakening of rest and invigoration, with anappetite for breakfast, to which they would otherwise be strangers.

THE COMPOST HEAP.—Every farmer should have a summer compost heap, consisting of manure not sufficiently decomposed to cart in the spring. Manure will not decompose under cover half as rapidly as it will when exposed to the rains, therefore place your compost heap out in your barnyard, or in any place where there will be but little waste from being washed in heavy rains. A square heap does very well as to shape; and the top should be made flat so as not to shed rain. The more straw mixed with it the better, as the decomposition of the straw produces acids which tend to "fix" the ammonia emitted from the manure. The sides and top of the heap should be covered with straw to prevent evaporation. No lime should be mixed in such a heap, unless it is composed of very coarse materials, with but little manure. Plaster may be sprinkled through it to advantage as an absorbent of the ammonia of the stable dung. Salt is of no particular benfit over what it would be it applied to land separately. Muck is good that muck from swamps which has been drawn out in the fall, and left exposed to the frosts of winter to become disintegrated. That mixed in layers with the compost heap, will imbibe the grass and virtue of the stable dung, and the next spring the whole heap will be excellent manure, and in good condition to use on any crop; but the heap ought to be forked over twice during the summer. It is only the coarse portions of the contents of the barn-yard, and gatherings of weeds, etc., during the summer, that most require to be composted; yet, for many crops, if the heaps be properly managed, almost the entire contents of the stable and barn-yard would be better to lie over one season. Composting is only injurious when a large portion of the virture of the manure is allowed to escape into the atmosphere, by using no muck or loam, and by not properly covering the heap or so making them that the rains are carried off, instead of penetrating through them. Any ordinary soil may be used in the place of muck to about the same advantage.

CORESTOGA, June 8.—As Mr. Funtz, of this place, was driving over the bridge crossing the Corestoga river, two miles from here, the last span gave way, and himself, team, waggon, and another man and boy were precipitated into the water below, a distance of 16ft. The waggon and horses turned completely over, and the two men were fastened underneath in three feet of water, and would have been drowned had not the boy, who was hanging on the hind end of the waggon when they all went over, held their heads above water until assistance came. The men and horses were badly hurt. The boy escaped best. The waggon was loaded with [illegible] which went floating down the river. When the bridge broke it went off like the report of a cannon and was heard at a considerable distance

NOT QUITE SO.—"It is among the most savage and senseless of the cruelties to which the [illegible] of the horse has been neglected," but we believe there are many in civilized countries who are guilty of the same neglect, and without the excuse of the former; these all may [illegible] the use of an article which has done more than anything [illegible] known to improve the condition and relieve the suffering of the horse. Those who will not use it will be the losers, their horses the sufferers; to avoid both use "Darley's Condition Powders and Arabian Heave Remedy," and you will be satisfied with the result. Remember the name, and see that the signature of Burt & Co. is on each package. Northrop & Lyman, Toronto, Ont., Proprietors for Canada. Sold by all [illegible] dealers.

THE ERIE CANAL.—This canal is 360 miles in length and the tolls collected upon it for 1861 amounted to over three million dollars, which is nearly double the amount collected in any previous year; and while our neighbors have no more reason to be pleased at this result, it is gratifying to know that the sales of the "Canadian Pain Destroyer," for the cure of coughs, colds, sprains, bruises, [illegible], [illegible], [illegible] &c., is increasing much faster. Sold by all medicine dealers at 25 cents per bottle.

THE BLOOD gives life and color to minute globules which float in that fluid, and contain, in a healthy person, a large amount of iron, which gives vitality to the blood. The Peruvian Syrup supplies the blood with this vital element, and gives strength and vigor to the whole system.

WITH an exhibition of energy, whether or called to study, there is a coincident change of waste of nervous element, and, as this element may be restored as rapidly as it is expended by the judicious use of Fellows' Compound Syrup of Hypophosphites, persons may study or others as work with comparative impunity while using it.

PREMATURE LOSS OF THE HAIR.—Which is so common now a days, may be entirely prevented by the use of Burnett's Cocoaine. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay, and to produce a growth, and in very many instances it is at the same time unrivalled as a dressing for the hair. A single application will restore it soft and glossy for several days.

It is remarkable that the principal ingredients from which Fellows' Syrup of Hypophosphites is made are identical with those elements to very great extent. This, in connection with the fact that Fellows' Hypophosphites increasing the longevity of the human family, is a somewhat singular coincidence, and commands consideration in selecting remedies, particularly a tonic character.

SPECIFIC MEDICINE

Cures all Nervous Diseases such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back Dimness of Vision, Premature Old Age, and many other diseases too [illegible] to mention, Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at $1 package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing

VINEGAR BITTERS

THESE BITTERS PROCLAIM THEMSELVES the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and [illegible] which were [illegible] long contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tuberculous rare be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworms, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pits, Epilepsy, Neuralgia*, and the various *Uterine* affections of the muscular and nervous systems.

Syphilitic or Mercurial and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine

GENERAL

AGENTS WANTED.

Agents Wanted in every Township in Ontario to sell the famous Prize Medal Organs Manufactured by the South American Organ Co. and George Stock & Co's Pianos.

Special inducements will be given to first class agents and clubs of three or more wishing to purchase

Any number of testimonials in favor of these first class organs can be furnished, but as they are so widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—No testimonials, however flattering can add to their reputation

The Stock Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873

Churches requiring organs will be liberally dealt with. Style 23, South American, we would call attention to as being especially adapted for churches and halls. Its proportions are graceful and its musical qualities are unsurpassed The grand organ stop gives the player facilities for various and splendid effects, the stop sforbo used so as to slowly increase the volume of tone from a whisper or suddenly bring forth all the power of the instrument as a burst of harmony

Pianos and Organs furnished Wholesale and Retail from any of the first class American manufacturers

Circulars and price list sent free on application

LEETLE YACOB STRAUS.

BY CHARLES F. ADAMS.

I haf vun funny leedle poy
Vot gomes schust to my knee;
Der queerest schap, der oreatest rogue
As efer you did see;
He runs, and schumps, und schmashes dings
In all parts off der house—
Bot vot off dot? he vas mine son,
Mine leedle Yacob Strauss.

He got der measles und der mumps,
Und efery ding der's ouds;
He spills mine glass off lager beer,
Poots schnuff into mine kraut;
He fills mine pipe mit Lemburg cheese—
Dot vas der roughest choose,
I'd take dot vrom no oder poy
Bot leedle Yacob Strauss.

He dakes der milk pan for a drum,
Und eats mine cake as dey
He makes der schtockin to bust it mit—
Mine cracious, dot, vas drue!
I dinks mine head vas schpilt alretty,
He kicks cap apout a veeks—
Bot nefer mind, der joys vas few
Like dot young Yacob Strauss.

He asks me questions mosh as dese:
Who paints mine nose so red?
Who ves it vas dot schmoodth blace oudt
Vrom der hair upon mine hed?
Und where der plase goes vrom der lamp
Vensever der gits I deese—
How gan I all dem dings expplain
To dot schmall Yacob Strauss?

I sometimes dink I shall go vild
Mit sooch a grazy poy,
Und vish vonce more I gould half rest
Und peaceful dimes enshoy;
Bot ven he vas nabbup in bed,
So quiet as a mouse,
I prays der Lord, "Bake anydings,
Bot dond dot Yacob Strauss."

WON AGAIN.

A very cosy sitting-room it was that Frank Merwin entered as he returned from a long and wearisome day in the law-office. A soft glow was diffused from a fire or sea-coal in the grate; the cat lay dosing on the rug, and the fitful gleams of firelight flashed on a bookcase well filled with elegantly bound volumes, on a blooming camelia partially veiled by the heavy lace window-curtains, on choice pictures suspended from the walls, on handsome stuffed easy-chairs, and every now and then disclosed, resting in shadow, a little child's shoe that lay in one corner on the Brussels carpet. Near the grate was drawn up the lounge, with Frank's dressing-gown thrown over it, and his embroidered slippers just peeping from beneath.

"This looks like comfort," said Frank as he put on the gown, thrust his feet into the slippers, and threw himself on the lounge in a restful attitude; "I wonder where Mary is."

At that moment Mrs. Merwin entered, lamp in hand, and found Frank enjoying the quiet firelight.

"Why, Frank," she exclaimed, "when did you come in? I didn't hear your latch-key, and I'm on the table. she sat down beside him.

"Only a moment ago," he said; "but it's so pleasant to get home and rest. Is dinner ready? I'm very hungry."

Just then the tinkling bell announced dinner, and they were presently seated at the table. Minnie, the little two-year-old, was already in her high chair, and no sooner did her mother appear than she began, "Tato, tato, bread, bread, milk, butter"

A shade passed over Frank's face, but he said nothing as he helped Mrs. Merwin, and Mollie and Henry and Willie to the roast before him. For a minute or two at a time Minnie was still, but so soon as her eye rested on any dish she had not seen before, she began, "Cake, cake, raisins, sugar," and nothing beside could be heard. Mrs. Merwin, intent on stopping her clamor, gave no attention to any one else at the table. Frank drew a long breath, and said, in an undertone, as if to himself:

"I do wish she could eat before we do, and be asleep when I come home."

In response to this Mrs. Merwin said, in a petting tone, to Minnie, "Ittle darling dosen't want to eat all 'lone, and go to bed 'fore papa comes, does she?"

The other children were all over four years old, and had been trained by their father in table-manners so well that their presence was no annoyance; but this little Minnie he couldn't manage, and cunning and pretty though she was, she was a real torment to her papa when he came home tired and worn with the business of the day.

At last the dinner was over, and the baby put to bed, to Frank's great relief. "Now I can talk with Mary," said he to himself, "and forget the fatigues and annoyances of the day;" and he went to his overcoat and drew from its pocket the last new magazine to show her when she came in.

Entering with work-basket in her hand, Mrs. Merwin began.

"Such a time, Frank, as I've had to-day; I wouldn't tell you before, you looked so tired; but Bridget went off this morning to see a sick cousin, and got back just as dinner was ready, and I had everything to do. and Minnie to take care of beside. She's got a double tooth coming, and is awful cross. Right in the midst of my work who should call but Mrs. Kingfisher, and I had to leave everything and dress up and see her, and she stayed so long that my kitchen fire got so low that I thought I never could get dinner in time; then Henry came home from school with the earache, and I thought I never should get him quiet, but I did at last. Oh, dear! such a day as I have had."

"I've brought home the new magazine, Mary," was Frank's only response to this long catalogue of ills; but his mind ran back over the trials the day had brought to him, heavy business anxieties, annoyances that pierce to the quick, disappointments that involve more than he cared to compute, and he looked on his pleasant surroundings with a wistful eye, and half wondered why they brought him so little pleasure If he had not taken off his coat and boots, he would have made an errand into the street, and dropped into his club, where he was sure of meeting a dozen jolly fellows, and hearing only cheerful and pleasant things. But only that night, as he walked homeward through the gathering twilight, the doors of his comfortable and early married life had all once back to him, the long evenings he and Mary had spent in reading Milton, and Scott, and Bacon, and Thackeray, and Dickens; how he had dreamed she would always be his chosen intellectual companion, no less than the partner of his life; but now she seemed nothing but a mere society maid, a pleasing housekeeper, a good manager, with little other thought than to provide for the physical well-being of her household. What could he do about it? He would buy the new magazine, and read aloud to her, and see if they couldn't have a taste of the old sweet wine of their early companionship.

So, as she took up a new embroidered sack she was making for the baby, he opened to a story, and asked her if she would like to hear it. Why, yes, she would be very glad to; she got so little time to read now, there was so much sewing to do, and so very many things to see to, and so many interruptions, that she never had time hardly to open a book.

Frank was soon in the midst of the story, but when he read a gorgeous description of the boudoir of the heroine, Mary interrupted him:

"That makes me think, Frank, that we must have a new carpet for our best chamber, that's been on the floor ever since we were married, and it's all faded, it will do very well for one of the other bedrooms, but I think we *must* have a new carpet for that room and curtains to match; you know carpets are cheap now. and I saw an elegant ingrain at Sloan's last week, just the thing, and it wouldn't cost over fifty dollars; that room isn't so very large."

"You shall have it," said Frank, as he went on with the reading. Presently he looked up, enquiringly to Mary, and said: "Doesn't this spirited fellow remind you of Tom Bowling, my old college chum—your cousin Tom, you know? seeing that Mary looked a little doubtful.

"Why, yes, I guess he does," said Mary, who had been thinking, not of the story, but how she would arrange the new curtains and embroider a toilet set to match the carpet.

It was easy enough to see that reading would be a failure, and when the story was concluded Frank reclined on the lounge and read to himself "It's no use," he thought inwardly, "I can't get her to think of anything but trifles and I'll go back to my club."

So, on the plea of business, Frank absented himself more and more from home, until rarely did he spend an evening with Mary unless visitors were present. And she, absorbed in her domestic affairs, careful for his physical comfort, unconscious that they were so rapidly growing apart, gave herself more and more to household details and the constant oversight of her children.

Handsome children they were, and Mrs. Merwin must see that in dress and manners they were no whit behind their neighbors. Though she had a sewing-machine, her needle was constantly in use when her husband was at home, embroidering or finishing the garments she had prepared in his absense. In case there was nothing else, the crochet or tatting-needle filled up all

"Abominable crochet—horrible tatting!" Frank would say to himself, until at last all the parphernalia of tidies and lampmats, and wall baskets, and sofa pillows became inexpressibly odious to him, "It Mary would only knit up the ravelled sleeve of care I bring home daily, with soothing personal attentions—if she would give me herself, and let me rest my weary head on her heart. No doubt she loves me, but that kind of love does not satisfy. I want sympathy, I want her to go with me above those low-hung skies of care and petty ambition into the clear light that shone on us in those happy early days, when we read and talked so much together."

CHAPTER II.

A year or two after the opening of our story, Mrs. Merwin, worn with constant confinement and worry, accepted the invitation of an old schoolmate, and taking Minnie, went to Vermont to pass the warm days of summer. The other children remained at home with a tried housekeeper, who would be sure to look after them carefully. Frank had his club and would come occasionally to Vermont and pass the Sabbath during Mrs. Merwin's stay. He had known Mr. Banks, the husband of his wife's friend

PETERBOROUGH. JUNE 29, 1876

LAW THAT IS LAW.

We have heard of Courts of Law and Courts of Justice, but we think a report of a Court lately held at Norwood, will lead people to enquire, was it a Court of Law or of Justice?

License Inspector Drain was instructed by the Ontario Government to collect $150 from each of the Brewers in Ashburnham for License duty under the Ontario Act. The Brewers, it is well known, dispute the power of the Ontario Government to impose such a duty, and the case is now before the Supreme Court for final arbitrament. The Brewers asked for a week awaiting the decision. The week was granted, but at the end of it, they did not pay the duty. Inspector Drain was then instructed to force the payments of the duties, and in consequence he summoned both the Brewers before John Brackenridge, Esq. He also laid information against one Daley, and a person named English, for selling liquor without license. The four cases were to be heard on the same day at Norwood. As soon as summoned, the brewers paid their License Duties, viz: $150 each, leaving the deposit receipts with the Chairman of the Commissioners for the Inspector. The Chairman remitted the receipts by mail, and dropping the cases against the brewers, under the circumstances, as the matter was in dispute and awaiting the decision of the Supreme Court. The Inspector dropped the cases on receiving the deposit receipts.

The Magistrates, Messrs. John Brackenridge and Wm. Wignore met, and came to the following conclusion: "That as the Inspector failed to prosecute the Brewers, they, as Magistrates, would not fine the small craft," and hence they dismissed the cases against Daley and English, with costs. Daley and English paid their $4 each, and went away rejoicing at this stroke of Equity and Law.

If two Reformers had done this, now the *Review* would howl over Reform corruption and political dishonesty. The Magistrates are Conservatives, and Daley, English, and all the Brewers are Conservatives, and who can deny this piece of legal acumen on the part of the Magistrates is not a piece of Conservative policy?

But the Magistrates have left themselves amenable to the law, and may yet be taught how far this thing may be permitted to go.

Daley and English were either guilty or not guilty of violating the License Law. If guilty, the lowest fine is $20 and costs. If not guilty, they had no right to pay a cent of costs. Mr. Drain would then have had to pay the costs.—But the Magistrates knew they could not and dare not enforce costs off Mr. Drain, and so they took their costs off Daley and English. But this, we suppose, is Conservative Law.

The matter has been submitted to the Government, as the Magistrates, under Section 40 of the License Act of 1874, are liable to be imprisoned for three months. The Section reads as follows:—"Every person who shall be concerned in, or be a party to the compromise composition, or settlement mentioned in the next preceding section, shall be guilty of an offence under this Act, and on conviction thereof shall be imprisoned in the Common Jail of the County where the offence was committed for the period of three calendar months." Section 39 reads:—"Or of stopping, or of having the same dismissed for want of prosecution...shall be guilty of an offence under this Act, and on conviction thereof shall be imprisoned *at hard labour* in the Common Jail of the County... for 3 calendar months."

The two Magistrates would do well to ponder over these Sections. It has been stated that one of the Magistrates obtained the whiskey in either Daley's or English's or both. Perhaps this is the cause of his exceeding leniency.

We do hope that the *Review* will read a homily to his Conservative friends in thus prosecuting the Liquor Law for political purposes. He has *fifteen* good allies out of the sixteen persons licensed, and all the illicit dealers are on his side. He has abundant opportunities to deliver them a lecture on moral and legal responsibility. Will he do it?

THE ONTARIOS

The election contests in the two ridings of the County of Ontario, are being very keenly contested. Dr. Tupper, and Thomas White, of Montreal, have both visited the ridings and addressed the electors in the interest of the Conservative candidates, and the Treasurer and Post-Master-General and Premier have addressed the electors on the part of the Government candidates. The issues are not new. The stale charges made in the *Mail* for some time, are being rehashed and served up anew, and the Protection and Free Trade are prominent topics for about the first time in an Ontario election. Both parties express confidence in their success. The Ontarios are not very certain in the political attachments, but nevertheless, it is held pretty certain that they will declare themselves on the side of Reform Government. The Gibbs brothers are residents, and so is Mr. Currie, the Government candidate for the North Riding. Mr. Currie, too, is very well-known and popular. His election is considered safe. Mr. Edgar, who opposes Mr. T. N. Gibbs, is a resident of Toronto, which may militate against him, but it is thought not seriously. The contest is as favorable as possible a party one, although the result will not affect the strength of the Government to any appreciable extent. In a majority of about 100 the change of two votes could not materially affect the Legislature of the country, nor would the success of both the Opposition candidates indicate any great change in Canadian political tilting. Those ridings have different men on both sides, and hence the result would not be in any way indicative of Conservative reaction. The indications so far are in favor of the Mackenzie Government.

NOTRUTH IN IT.

As a sample of the political usefulness of the new Liquor Law to the present Administration, the *Mail* exposes the following case:—"The Bessie officers in Welland received a rebuke in connection with their refusal to grant a license to the Clifton House, which would have kept any but the most determined wrong doers in check for the full term of their office. But staunch 'Reformers' that they are, nothing can moderate their desire to serve their party friends. The Government authorized the granting of an extra license to the county, and these worthies have granted it to the California House, a shebeen in Welland owned by one of Mr Currie's most rampant supporters, Mr. Dave Dean, to wit. Meanwhile the Queen's, the Royal, and Loesby's by far the best hotels in the town, are left unlicensed, because, as Mr. Evans, of the Royal, was told by the Inspector, 'You used your influence for Mr. Rykert at the last Lincoln election, and when the news come of his return you cheered for him.' Thus prospers the work of elevating the standard of public morality." We have reason to believe that a deputation can be being attended in our County, and perhaps by this time has actually occured.

The above item is from the *Review* of the 23rd instant. It is needless to tell our readers that it is the result of some politically jaundiced imagination. For the last clause there is nothing in fact, and less for imagination, but if the dear creature can give a hit for John A. and the party of progress he fulfils his mission.

In the East Riding 16 licenses have been granted, and out of the 16 only one is a Reformer or professes to be. There was one case left over for the consideration of the Commissioners who were to meet on Saturday last, but being called away from home suddenly, we cannot tell what was done in the matter. What was done is of no consequence politically, as both applicants are Conservatives, and well known to be Conservatives. So much for the insinuation of that paragon of political honesty, the *Review*. O, how honest it is? How honest it was when it advised the return of Mr. Clurton, although he was in a minority of 41, and defended it at the cost of honor and consistency. How liberal he is in all matters, yet he would not give a Reformer an hour's work or employment. How truthful he is when he insinuates the falsehood that the License Commissioners are attempting to use the License Law for political purposes, while out of 45 or 46 licenses granted in the whole County, not more than 5 of the recipients are or ever have been known to be friendly to Reformers, and both Wynne and Major Boulton, the applicants whose cases were to be considered on Saturday, are well known to be conservatives, at least so we are informed of Wynne. R. C Strickland & Co. have only to be named to prove the truth of our assertion.

DEDICATION OF THE NEW ODDFELLOWS' HALL.

The new Hall, in Cox's new block, George Street, was dedicated on Thursday evening last, the very interesting ceremony being conducted by John Ham Perry, Esq., of Whitby, acting for the Grand Master. The commodious Hall was crowded with the *elite* of the Town, nearly one half the audience being ladies.

The Noble Grand of Peterborough Lodge, No. 111, (Bro. Robert Elder) took the Chair about 8 o'clock, and the Grand Lodge was declared odened, the following brethren acting as Grand Officers.

Grand Master, Bro. J. H. Perry.
Deputy-Grand Master, Bro. R. Elder, N. G., Peterboro' Lodge.
G. R. S., Bro. W. H. Scott.
G. L. S., Bro. R. Kincaid.
Grand Marshal, Bro. S. White.
G. H. of the North, Bro. G. Johnston.
G. H. of the South, Bro. G. L. Mitchell.
G. H. of the East, Bro. R. Lee.
G. H. of the West, Bro. J. Bathgate.
Grand Chaplain, Bro. D. Carlyle.

The ceremony of dedication is simple but impressive, and was very well performed by those members appointed to the important positions. The audience, throughout, seemed deeply interested and listened with wrapt attention to the addresses.

After the ceremony, Bro. Perry delivered a lengthy and able address, in the course of which he gave much useful information in reference to the Order, and its workings, tracing its wonderful progress in America, and giving a great many illustrations of the good done through Oddfellowship in different parts of the country in times of pressing need. The address was an able and exhaustive one, and as it was skilfully interspersed with humorous anecdotes the audience was kept in the best of humor during the space of nearly an hour, and if among those present there were any who were prejudiced before, against the Order, the exposition of its principles by Bro. Perry, must certainly have removed them, and inspired for the institution a feeling of respect and veneration. At the conclusion of his speech Bro. Perry was loudly applauded.

W. H. Scott, Esq., M. P. P., P. G. of Peterborough Lodge, followed with a short but eloquent speech, in the course of which he described the very satisfactory progress made by Oddfellowship in the Town of Peterborough, and adding his testimony to that of the preceeding speakers as to the harmonious and useful character of the institution. Bro. Scott's abilities as a speaker are so well known to our readers that it is unnecessary for us to say more than that he fully maintained his reputation. His remarks were very appropriate to the occasion, rather in the serious, solemn vein, and therefore very effective.

Addresses were also delivered by Dr. Kincaid, Rev. Mr. Macdonnan, and others.

The Choir under the leadership of Mr. Joseph McClelland sang several very beautiful anthems during the evening, which elicited the warmest praise from all present. Mrs. Bowman and Miss Rush being entitled to particular mention. Peterborough may well feel proud of such a choir.

At the conclusion of the ceremony, the members of Peterborough Lodge adjourned to the Huffman House, where a sumptuous repast was provided, to which ample justice was done, Mr. Allan F. Huffman surpassing even himself on this occasion, in providing an excellently spread table, with abundance of everything that could be desired. W. H. Scott, M. P. P., P. G., presided, with Bro. Perry to his right, and Bro R. Kincaid M. D., to his left, and Bro. R. Elder occupied the vice chair.

The inner man being fully satisfied, speech and song followed, the company separating about 1 o'clock.

We congratulate Peterborough Lodge, on the occasion of their removal into their new hall, and wish them the fullest measure of prosperity in the future.

COUNTY COUNCIL.

WEDNESDAY, JUNE 21st.

Council met pursuant to adjournment. The warden in the chair. All the members of the council present.

The minutes of yesterday were read and confirmed.

Moved by Mr. Sanderson, seconded by Mr. Hewitt, that the Clerk produce the resolution or any resolutions appointing a joint committee between the Town and County in regard to work to be done on the Court house grounds during the present year.—Carried.

Moved by Mr. Burnham seconded by Mr. Moloney, that Messrs Sanderson, Moloney, Golborne, Burnham, with the clerk be a committee to consider the best means to be pursued with regard to the Debenture Rates now required to be levied and the surplus on account of the rates heretofore.—Carried.

Moved by Mr. Beelton, seconded by Mr. Sanderson, that the deputation from the Town of Peterborough be allowed to address the Council.—Carried.

Wm. Poole, Esq., Mayor, and Messrs Douglass, Elliott, Haggart, and McClelland, addressed the council requesting that a grant be made to open up the approach to the Smith Street Bridge.

On motion of Mr. Golborne seconded by Mr. Collins the application of the Town Deputation was referred to the committee on Roads and Bridges.—Carried.

On motion of Mr. Millar, seconded by Mr. Blezard, the clerk was instructed to notify the clerks of the several municipalities within the county, of the number of Hawker's and Pedlar's licenses now outstanding giving the names of all parties who have taken out licenses as it is a fact that a number of men are pedling without license.—Carried.

On motion of Mr. Golborne, seconded by Mr. Millar, the council went into committee of the whole on a By-law to amend By-law No. 444, viz., a by-law for the imposing a Tax on Dogs and for the protection of Sheep, which passed through its several readings without amendment.

Council adjourned until ten o'clock, to morrow morning.

THURSDAY.

June 22nd, 1876.

Council met pursuant to adjournment. The Warden in the chair. All the members of the council present.

The minutes of yesterday were read and confirmed.

On motion of Mr. Burnham, seconded by Mr. Sanderson,—The committee on Equalization of the Rolls reported.

Moved by Mr. Burnham, seconded by Mr. Sanderson,—That the report on the Equalization of the Assessment Roll be adopted.

In amendment, moved by Mr. Collins, seconded by Mr. Brown,—That the report be not adopted but be referred back to the Committee to be amended so as to make the Townships of Monaghan, Otonabee and Smith equal on the equalization. The amendment was lost.

It was then moved by Mr. Moloney, seconded by Major Boulton, that the report be referred back to the committee with instructions to amend the report by equalising Douro at $23, instead of $24 per acre.—Lost.

On the motion to adopt the report being submitted it was carried.

On motion of Mr. Burnham, seconded by Mr. Bell, a By law confirming the report of the equalization committee was read a first time.

On motion of Mr. Brown, seconded by Mr. Sanderson, the council went into committee of the whole on the second reading of the By law, Mr. Burnham in the chair. Committee rose, Council resumed, Chairman reported. By-law read in committee of the whole without amendment.

On motion of Mr. Burnham, seconded by Mr. Sanderson, the By-law was read a third time and passed.

The Warden read the Auditors Report.

On motion of Mr. Brown, seconded by Mr. Miller, the report of the Auditors was received and referred to the Finance Committee.

On motion of Mr. Mansfield, seconded by Mr. Golburne, the propriety of granting Bobcaygeon Road was referred to the consideration of the committee on Roads and Bridges.

On motion of Mr. Collins, seconded by Mr. Choate, the committee on Appointments reported.

On motion of Mr. Burnham, seconded by Mr. Burgis, the report was adopted.

On motion of Mr. Miller, seconded by Mr. Burgis, the committee on Roads and Bridges reported.

Mr. Brown moved, seconded by Mr. Burnham, the adoption of the report.

Mr. Collins moved, seconded by Mr. Moloney, that the report be not adopted, but that it be referred back to the committee with instructions to strike out all special grants.

The amendment proposing to refer the report back to the committee with instructions to strike out all special grants was submitted and lost on the following division:—Messrs. Moloney, Blewitt, Miller, Collins and Bell voting for it, and Messrs. Mansfield, Boulton, Burnham, Brown, Choate, Burgess, Golborne and Sanderson voting against the amendment.

The motion for the adoption of the report was then submitted, and the report was adopted.

Moved by Mr. Miller, seconded by Mr. Brown,—That $200 be granted for the repairs on the boundary line between Otonabee and Douro, and Drummer and Asphodel, as the said road is in a very bad state at present, and that Messrs. Blezard, Moloney, and Jas. Wasson be Commissioners to expend the same.—Carried.

Moved by Mr. Bell, seconded by Mr. Golborne, that the sum of $200 be granted to assist in repairing the road from Lakefield to Douro.—Carried.

Moved by Mr, Golborne, seconded by Mr. Collins,—That a By-law appointing Baron Karly an examiner of Public School Teachers be read a first time.—Carried.

On motion of Mr. Collins, seconded by Mr. Golborne,—The Council went into committee of the whole on the second reading of the By-law, Mr. Golborne in the chair. Committee rose. Council resumed, Chairman reported. By-law read in committee of the whole without amendment.

On motion of Mr. Burnham, seconded by Mr. Sanderson, the By-law was read a third time and passed.

Council adjourned until 10 o'clock to-morrow morning.

FRIDAY.

June 23rd, 1876.

Council met pursuant to adjournment. All the members of the Council present.

The Warden, R. E. Birdsall, Esq., in the chair. The minutes of yesterday were read and confirmed.

On motion of Mr. Sanderson, seconded by Mr. Bell, the Committee on County Property reported, and on the motion of Mr. Sanderson, seconded by Mr. Moloney the Report of the Committee on County Property was adopted.

Moved by Mr. Burnham, seconded by Mr. Brown, that the Committee on the Debenture Rate be allowed to report.—Carried. The Debenture Rate was adopted.

Moved by Mr. Costello seconded by Mr. Blewitt, that $200 be granted to aid in repairing the road in the Township of Eanismore, between the Floating Bridges.—Lost.

Moved by Mr. Golborne, seconded by Mr. Miller, that Mr. Burgess be appointed Commissioner to expend the $200 voted at the last meeting of this Council, for the purpose of building a bridge over the Bow River in the Township of Belmont.—Carried.

The Warden stated that Mr. Hamilton was present and suggested that if he so desired he should be allowed to address the council. Permission being granted Mr. Hamilton addressed the Council and requested that the Council would pay a claim of his for plans, and travelling expenses, in connection with the Old Otonabee Iron Bridge.

Moved by Mr. Choate, seconded by Mr. Sanderson, that Fifty dollars be paid to Mr. Mrs. Hamilton, on payment in full of his claim for expenses, plans, &c., and connecting bridge, said sum being Council's share of said expenses, as it is the opinion of this Council in case proceedings be taken by Mr. Hamilton, costs will be incurred addition to payment of said sum.—Lost.

Moved by Mr. Burnham, seconded by Mr. Boulton, that a by-law to raise by way of loan the sum of Twenty thousand dollars be read a first time.—Carried. By-Law read a first time. Moved by Mr. Moloney, seconded by Major Boulton, that a By-Law to raise a sum of money to form part of the County School Fund for the currrent year be read a first time.—Carried. By-Law read a first time.

On motion of Mr. Blezard, seconded by Mr. Miller a By-Law providing for the expenditure of a sum of money on Road and Bridges was read a first time.

On motion of Mr. Sanderson, seconded by Mr. Collins the council went into committee of the whole on the second reading of the By-Law providing for the expenditure of a sum of money on Roads and Bridges Mr. Miller in the chair. Committee rose, Council resumed chairman reported By Law read in committee of whole without amendment.

Moved by Mr. Brown seconded by Mr Burgess, that a by-law providing for the expenditure of a sum of money on Roads and Bridges be read a third time and passed.

In amendment moved by Mr. Collins seconded by Mr Blezard that the by-law be read a third time this day month.

On the amendment being submitted the yeas and nays were taken as follows.—Messrs Collins, Blezard, Blewit and Costello voting for Mr. Collins proposed amendment, and Messrs Moloney, Mansfield, Boulton, Brown, Choate, Burgess, Golborne, Millar, Sanderson and Bell, voting against it. The motion for the third reading of the By-law was then submitted and carried on the same division reversed.—By-law read a third time.

Moved by Mr. Choate, seconded by Mr. Burgiss, that a by-law to assess, levy, and collect a sum of money for County purposes be now read first time.—Carried. By-law read a first time.

Council adjourned until 9 o'clock to-morrow morning.

SATURDAY.

June 24th, 1876.

The Council met pursuant to adjournment.

All the members of the Council present. The Warden, R. E. Birdsall, Esq., in the chair.

The minutes of yesterday were read and confirmed.

The Warden read a letter from Mr. McDonald, expressing his desire to purchase part of Lot No. 51, south of Portage Road, Eldon.

Moved by Mr. Burnham seconded by Mr. Brown, that the Clerk and Warden be empowered to sell the interest of this County in lands in Eldon and execute conveyances of the same if necessary.

Moved by Mr. Maloney, seconded by Mr. Mansfield, that the Committee on Schools be now allowed to report.—Carried. The report was read.

On motion of Mr. Sanderson, seconded by Mr. Miller, the report of the Committee on Schools was adopted.

Mr. Choate, Chairman of the Finance Committee, moved, seconded by Mr. Burgess, that the Finance Committe report by by law.—Carried.

Moved by Mr. Choate, seconded by Mr. Burgess, that a by-law to provide for the payments of the certain accounts and claims be now read a first time.—Carried.

On Motion of Mr. Choate, seconded by Mr. Burgess, the Council went into Committee of the Whole on the second reading of the by-law to provide for the payment of accounts and claims. Mr. Choate in the chair. Committee rose; Council resumed; Chairman reported; By-law read in Committe of the Whole without amendment.

Moved by Mr. Choate, seconded by Mr. Burgess, that a by-law to provide for the payment of certain accounts and claims be now read a third time and passed.—Carried. By-law read a third time.

Moved by Mr. Maloney, seconded by Mr. Brown, that the Council go into Committee of the Whole on a second reading of a by-law to raise a sum of money to form part of the County School Fund for the year 1876. Mr. Maloney in the chair. Committee rose, Council resumed, Chairman reported, By-law read in Committe of the Whole without amendment.

Moved by Mr. Maloney, seconded by Mr. Miller, that a by-law to raise a sum of money to form part of the County School Fund for the year 1876, be read a third time and passed.—Carried. By-law read a third time.

Moved by Mr. Choate, seconded by Mr. Burgess, that the Council go into Committee of the Whole on the second reading of the by-law to assess, levy and collect a sum of money for County purposes.—Carried. Mr. Choate in the chair; Committee rose; Council resumed; Chairman reported by-law read in Committee of the Whole without amendment.

Moved by Mr. Choate, seconded by Mr. Burgess, that a by-law to assess, levy and collect a sum of money for County purposes be now read a third time and passed.—Carried. By-law read a third time.

Council adjourned.

CRICKET MATCH.

The Cricket ground in Ashburnham was last Thursday the scene of another of those good old games of the "willow." Lindsay *vs.* Peterborough. The play began about 11 o'clock a. m., by Lindsay going to the bat. Their first innings was an excellent one, as steadily their score run up to 81, against the bowling of Messrs. Rutherford and Lloyd. The batting of Messrs C. Lloyd and J. B, Smith for 16 and 14 respectively was very much admired. The fielding of the Peterboro' Club in this innings was not as good as it should have been. On Peterboro going to the bat it was supposed they would run up that score, but their batting was only a repetition of their fielding—rather bad. Messrs. Hartly and Hammond however, made good scores, and the excellent bowling of Messrs. Veitch and Smith was hard on their wickets. Their score in this innings only reached 64.—Lindsay again took the bat but by this time the Peterboro Club were "wide awake," and after a very short innings and small score the last wicket fell for Lindsay with a score of 37. If the Peterboro Club failed in their fielding the first innings, they more than went for Lindsay in the second. Messrs. Rutherford and Lloyd taking their "stumps" in good style. The scores stood at this time 118 for Lindsay, leaving Peterboro 55 runs to make to win. But, as in former times, give Peterboro a second innings and they are bound to win, proved itself in this case. Messrs. Montgomery and Hartly on going to the bat succeeded by careful and steady play in making the handsome score of 27 before the first wicket fell. On Rutherford going to the bat some fish hits were made, when Hartly's wicket fell for 10. E. Rogers next took the bat when some very fine play was made. The winning hit was made by Rutherford with 3 runs to spare.

After the match three cheers were given for the Lindsay Club, which was responded to. Cheers were also given for the Ladies, and it was pleasing to see such a large number present. Lunch was provided for the Cricketers on the ground, by the Ladies of Ashburnham. The utmost good feeling prevailed throughout the game, and in the evening an excursion was given on the Little Lake, where the contestants of the "office" again met, but this time only to spend a pleasant call on board the steamer Whitestring. We understand a very pleasant evening was spent, although the attendance was not as large as expected.

The following are the scores:

June 3rd, 1876 24-3t

BY-LAW NO.—

A BY-LAW to provide for the issuing of Debentures to the amount of Three Thousand and Five Hundred dollars for the purpose of erecting a new School Building, in the village of Ashburnham, and to provide for the payment of the principal and interest thereon, and to repeal By-law Number Fifty one of the said municipality of Ashburnham.

WHEREAS the Public School Board of the Municipality of Ashburnham require enlarged School accommodation for the said Municipality and have determined upon erecting a new School Building therein and have notified the Council of the said Municipality to provide the necessary funds therefor.

And whereas for such purpose the amount required will be the sum of Three Thousand and Five Hundred dollars, and it will be necessary for the said Municipality to raise the same by the issue of Debentures of the said Municipality to that amount in the manner hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality of Ashburnham irrespective of any future increase of the same according to the last revised assessment roll of the said Municipality (being that for the year 1875) is the sum of Three Hundred and Fifty-one Thousand two Hundred and seventy-five dollars.

And whereas there is no existing debt of the said Municipality of the Village of Ashburnham, either for principal or for interest.

And whereas it is desirable to make provision for the payment of the said Debentures and the interest thereon within fifteen years from the day hereinafter appointed for the coming into force of this By-law.

And whereas it will require the sum of Four Hundred and Forty three dollars and thirty three cents to be raised annually during the said period of Fifteen years by special rate on the whole rateable property of the said Municipality for paying the said sum of Three Thousand and Five Hundred dollars and interest thereon as hereinafter mentioned.

And whereas for paying the interest of the debt hereby created, and creating an equal annual sinking Fund sufficient for the payment of the principal of the said debt in fifteen years an equal annual special rate of one and one twenty seven hundredths of a mill on the dollar is required to be levied each year on the whole rateable property of the said Municipality.

And whereas the Municipality of the said Village of Ashburnham heretofore by By-law Number Fifty one of the said Municipality provided for the issuing of Debentures for the raising of the said sum of money for the purposes above mentioned, but owing to the said By-law providing for the issue and redemption of such Debentures under the two hundred and fifteenth Section of the Municipal Act the said Debentures could not be disposed of to advantage and none of the debentures thereby provided for having been issued, it is deemed expedient to repeal the said By-law number Fifty one.

The Municipality of the Village of Ashburnham by the Council thereof therefore enacts as follows:

1. That for the purpose aforesaid the Reeve of the said Municipality of the Village of Ashburnham shall cause Debentures of the said Municipality to the amount in the whole of the sum of Three Thousand Five and Hundred dollars, none of such debentures being for a less sum than One Hundred dollars to be sealed with the seal of the said Municipality and to be signed by the Reeve and Treasurer thereof and the said Debentures shall declare on the face thereof the authority upon which the same were issued.

2. The said Debentures shall bear date of the day hereinafter appointed for the coming into force of this By-law and shall be payable in Fifteen years thereafter at the office of the Ontario Bank in the Town of Peterborough.

3. The said Debentures shall bear Interest at the rate of Six per cent. per annum from the date thereof which Interest shall be made payable half-yearly on the First days of the months of February and August of each and every year at the office of the said Bank in the Town of Peterborough and such Debentures shall have Coupons attached thereto for the interest to mature thereon from time to time.

4. That for the purpose of paying the debt hereby created and the interest thereon as hereby provided an equal annual special rate of One mill and Twenty-seven Hundredths of a mill in the dollar shall in addition to all other rates be annexed levied and collected in each year during the continuance of the said Debentures upon all the rateable property in the said municipality.

5. That the said recited By-law of the said Municipality of the Village of Ashburnham Numbered Fifty-one and passed on the Fifth day of November A.D. 1875 be and the same is hereby repealed.

6. This By-law shall come into force and take effect on the First day of August, One Thousand Eight Hundred and Seventy-six.

7. That the votes of the Electors of the said Municipality of the Village of Ashburnham shall be taken on this By-law on Saturday the Eighth Day of July, One Thousand Eight Hundred and Seventy-six, commencing at the hour of Nine o'clock in the forenoon and closing at the hour of Five o'clock in the afternoon at the following places and before the following Returning Officers, namely—for the North Ward of the said Village at Lesby's old Tavern, Elizabeth Street, John Alexander McWilliams Retur

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

The Editor of this paper has been unavoidably absent this week. We trust therefore that our readers will kindly over-look any error that may have crept into this issue.

P. B. C.—The regular monthly meeting of the Peterboro' Boating Club will be held at the Boat House, on Tuesday next, at 7.30, p. m., instead of Monday, on account of the Celebration of Dominion Day on that day.

HORTICULTURAL.—The annual show of this Society will be held on Tuesday, 11th July. The Committee is anxious that it should be successful. The members can make it a success if they exert themselves.

On Sabbath, July 2nd, Rev. Principal Caven, of Knox College, Toronto, will preach in St. Paul's, Presbyterian Church, at 11 a.m., and 7 p.m., and Rev. E. F. Torrance, the newly inducted pastor, will preach in the afternoon at 3 o'clock.

EVERYTHING in the Gentlemen's Furnishing line now at T. DOLAN & Co's. 21-tf

CRICKET.—The return match between the Port Hope and Peterboro' Clubs was played at Port Hope, on Tuesday, resulting in a victory for Port Hope of 38 runs. The scores for Port Hope were 124 first innings, and 63 second innings. The eleven for Peterborough were 112 first innings, and 37 second innings. The largest score for Port Hope was made by Mr Richardson, 62, and for Peterboro' was made by Mr. R. Rogers, 25.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

THE LARGEST Stock of Colored Shirts in Town will be seen at T. DOLAN & Co's. 21-tf

PUBLIC READINGS.—Mr. J. H. Siddons late Elocutionary Instructor of Queen's College, London, England, is giving Readings this week in the Temperance Hall. He is said to possess marked ability as an Elocutionist. No one who wishes to understand the modulation and proper control of the voice in either reading or public speaking, or who is engaged in teaching reading, should fail to avail himself of this opportunity of hearing good reading.

THE BOSS THRESHING MACHINE.—Messrs. Emery & Forsyth still continue to manufacture the *Boss Threshing Machine*. They have received *more orders this season than any previous year* since they have been in business. They sent one of their machines to Port Pope on Tuesday last, which is the first of a number of orders that they have received from the front. Parties wishing to get a Threshing Machine that cannot be beaten should give them a call. 25-1in.

THE $5,000 BYLAW. The Bylaw asking for a bonus of $5,000 for the establishing of a Sewing Machine Manufactory was carried on Monday last by a very large majority. The following is the result of the vote in the different wards:

	For.	Against.
Ward No. 1	49	6
Ward No. 2	89	5
Ward No. 3	66	9
Ward No. 4	34	1
	151	18

Majority for 133

COLLEGIATE.—The examination for entrance to the Collegiate Institute and also what is known as the Intermediate Examination in the Collegiate Institute, are being held this week. The examinations for Entrance were concluded yesterday, and the Intermediate Examination will conclude to-night. The regulations are very strict no person being permitted to see the papers after the work is done. Each pupil seals up his own work in an envelope provided for the purpose, and as soon as the examinations are concluded the whole papers have to be sent to the Department at Toronto No mark except a distinguishing number furnished by the Department is allowed to be put on any paper, hence even the examiners will not be able to detect at what school the papers were worked out, This will largely prevent partiality.

SCHOOL UNIFORM CLOTHING in great variety at T. DOLAN & Co's 21-tf

LAYING THE CORNER STONE.—The corner stone of the beautiful and capacious building just in course of erection by Thomas Menzies, Esq., was laid on Thursday last, by Mrs. Menzies, in the presence of the Contractor, and a select number of friends. Mr. Stratton, at the request of the Architect, Mr. James A. Bernard, and Contractors, and on their behalf, presented Mrs. Menzies with a new and beautiful silver trowel for the occasion. Mr. Sherwood, the contractor for the mason work, lowered the corner stone in its place, and underneath it was deposited a box containing the town papers, the daily Globe and Mail, current coins, and the usual list of Regal, Vice Regal and eminent names connected with our Province, the Town Councillors, Town Trust Commissioners, the Town Treasurer and the names of the Architect and Contractors. The building will be 47 feet long, 46 feet wide, two stories high, with a tower at the main entrance 47 feet high, and will be in Italian style. The whole will not cost less than $8000 to $10,000, and will be one of the most chaste, and finest dwellings in the town or county.

After the ceremony it was discovered that Mrs. Menzies had provided a table of such viands and varying beverages, which all present were invited to partake, which was willingly accepted, when the health, prosperity and long and happy lives of Mr. and Mrs. Menzies to enjoy the comforts of the handsome and almost nine solid palace they were entering.

CHEQUERS BAND.—Read Mr. Elder's advertisement in another column. We will draw attention to his business next week.

THANKS.—The Peterborough Lodge of I. O. of O. F. No. 111, beg to return their sincere thanks to Joseph McClelland Esq., and the other members of the choir who so ably assisted them in the dedication of the New Hall on Tuesday evening.

TOWN COUNCIL.

The Council met on Monday evening.

Present—the Mayor, and Councillors Oahill, Taylor, Paterson, McClelland, Haggart, Dixon, Elliott, and Rutherford.

The minutes of the previous meetings were read over and confirmed.

COMMUNICATIONS.

From John Carnegie, Sec'y of Town Trust, asking the council whether they would dispose at the debentures for $20th thus far there has been $2,740 sold for 94cts. on the dollar, and $5,000 at 93½ cts., as that is the highest offer made at present.

From Mrs. H. Morgan, asking the council to assist a young man named Kennedy, who has had a paralytic stroke and has been staying with me for about three months; also that she could not keep him any longer if the council did not do something for him as he has no friends here and no doctor attending him.

From Thos. Kent, asking to have the street surveyed, so that they would be able to fence their lots, as it was, they did not know where the street extended to.

From L. A. Williams, asking for a sidewalk in front of his shop on corner of Sherbrooke and Rubidge Streets, as he is about erecting an awning.

From James Brown and others, asking for a sidewalk on Donegal St. between Brock and Murray Streets.

From John Belcher, Town Engineer, stating that King St. bridge has been in a very bad state for some time, and it being a principal thoroughfare to the Midland Station, it needed prompt attention, and the bridge would require to be raised about 3 feet, and to cut a long story short it would require a new bridge altogether, at a cost of about $485.

ACCOUNTS.

Dixon Bros. charity goods... ....$2 00
R. Romaine, printing 80 24
E. O. Helm, services as fireman during past year.....50 00

DISPOSALS.

John Belcher's referred to Street and Bridge Committee with power to act. L. A. Williams' granted. Thos. Kent's granted. Mrs H. Morgan's received. John Carnegie's referred to Finance Com with power to act. The accounts were referred to the Finance Committee.

STREET AND BRIDGE REPORT.

The Chairman of the Street and Bridge Committee read over his report, which on motion was received and adopted, recommending that the following sums be expended on the streets, &c:

BIDDON STREET.—To remove stumps on Benson street, to make proper water tables and also a sidewalk 3ft. 4 in. wide to extend from Smith street North, to the farthest house built $30; to fill up all cuts from the railway to Stewart St, to make water table from Stewart street to Smithtown road $5.

ERNEST STREET.—To make a water table from Stewart to Smithtown road $20.

ANTRIM STREET.—Crossing and Culvert at Aylmer street $15; a sidewalk from George street east to Water street, 3 ft. 4 in. wide $35.

EDINBURGH STREET.—To make a drain and a water table west from George street to creek and a crossing, and repair Bridge on creek between Bethune and stewart streets $10.

DUBLIN STREET.—To grade road from Stewart to Rubidge streets and to fill up road from Dewale to Donegall streets, and to make a side walk three planks wide between same streets on the north side, and one culvert on Donegall street $100.

LONDON STREET.—Water table from Stewart street to the railway, $20; to culvert and make good the road at Gilchrist street, $15; to make good the road between Water and George streets, $5; and to make a sidewalk three planks wide from waterford to Railway crossing, $10.

[illegible] between Reid and Dewale streets, $15; to enlarge culvert at Reid, to raise the road between Aylmer and the railway and to enlarge the culvert at Bethune street, $35.

MURRAY STREET.—To enlarge culvert and fill in the road at Water street and to continue water table from Murray southward to Brock streets on east side of road $40.

CEDAR STREET.—To make a sidewalk from Park street to the furthest house west, 3 ft. 4 in. wide, and a water table all on the north side, $25.

BROCK STREET.—Culvert at Stewart street; to open a water table from Brock to Hunter streets on Stewart street east side, $10; culvert at Reid street; culvert and fill in at Donegall street, $20.

ELM STREET.—To grade road and open water table, $40.

HUNTER STREET.—Water table between Rubidge and Reid streets, $5; and between Rubidge and Bethune streets, north side $5; water table from Park street to Boundary line as far as necessary $25.

SIMCOE STREET.—Sidewalk between Reid and Rubidge streets, two planks wide, $10.

CHARLOTTE STREET.—To repair road from Park street to the Boundary line, $40. Your committee would recommend that the inspector and Health officers take the proper steps to get the property holders to open up a drain from Charlotte to Sherbrooke streets for the purpose of taking away the stagnant water lying on Charlotte street.

KING STREET.—Sidewalk between George and Aylmer streets, $25: sidewalk from George to Boat house, $25.

SHERBROOKE STREET.—Sidewalk from George to Water streets south side 6 ft. 6 in. wide, to make a proper drain from Aylmer to the creek, $100; a sidewalk 3 ft. 4 in. wide, from Rubidge street to the Boundary line north side $75; and to clean out the drain on the south side $10; water table from George to creek, $5.

DALHOUSIE STREET.—To grade road from George to Aylmer streets, $30; and also to make a proper guard at creek, $5; two culverts at Stewart and sidewalk on north side $10.

LAKE STREET.—Water table on north side between George and Aylmer streets $5; and sidewalk from Park to Bethune two planks wide on north side, $10.

CHAMBERLIN STREET.—To deepen water table and make sidewalks three planks wide and to gravel road on each as far as found necessary, $75.

PERCIE ALLEAN STREET.—To make sidewald three planks wide from drain road to the farthest house. $65.

PATTERSON STREET.—To water table and make good the road from drain to Boundary line, $75, crossing to be made for H. Smith, on the Drain road $5.

BETHUNE STREET.—Water table from King to Dalhousie streets, and sidewalk 3 ft. 4 in. sidewalk on west side of Bethune between Sherbrooke and Dalhousie streets, $40.

DUNDAS STREET.—To grade the road and make water table between Dublin and McDonnell streets, $40; to mow stumps and water table between Hunter and Brock streets $30; and also to make good the drain between Edinburgh and Dublin west side, $20; sidewalk from Simcoe to charlotte streets, $40.

PARK STREET.—To make a water table from Hunter to Murray west side and a culvert at Elm street; raise the road from Brock on the East side $44; to continue sidewalk south to Chamberlin street. $20.

GUELPH STREET.—To repair and make good the sidewalk on the east side between Brock and Murray streets, $15; water table from Brock street to creek, $25.

WATER STREET.—Sidewalk from London to Dublin street, $40

STEWART STREET.—Waterable from Dalhousie to Brock streets and south of Percy $35; sidewalk on Sherbrook street south side, $30; to fill up road near John Tagney's $15; water table from Edinburgh to Dublin streets, $30.

ROBERTS STREET.—Water table from Dalhousie to Brock streets, $40

PERCY STREET.—Sidewalk and water tables from George to Aylmer streets, $20.

PARK AND ROSLAND STREETS.—Water tables and sidewalks, $35. The attention of your committee has been called to the impassibility of making good, London, Dublin, Edinburgh and Guelph Streets, on account of the Midland Railway, which is to low and would recommend that the clerk communicate with the Midland Railway for the purpose of getting the road raised to a proper height. Your committee would also recommend that the works hereto conferred be as far as possible let by contract.

All of which is respectfully submitted.
A. RUTHERFORD,
Chairman.

June 26th, 1876.

CRESCENT STREET.

Moved by Mr. Haggart, seconded by Mr. Taylor,—That the Street Inspector have the bridge on Crescent Street repaired as it is in a dangerous state.—Carried.

ARBITRATOR.

On motion the council went into committee of the whole to pass a By-law appointing J. Stevenson as arbitrator for the town, to obtain the amount the town has to pay the administration of justice, which passed through its several readings and was carried.

BETHUNE STREET BRIDGE.

Mr. Rutherford asked for the report of the committee who waited on the County Council.

Mr. Haggart answered to the question and said that it was easily answered because "they did not get anything."

Mr. McClelland urged that the Smith St. Bridge be nailed up at both ends, and stop the traffic over it, for if the County could do without it the town could.

Moved by Mr. Oahill, seconded by Mr. Paterson, that the same committee that waited upon the County Council, be a Committee to wait upon the Ashburnham Council and see if they will not assume the responsibility.—carried.

REFUSE.

A communication was handed to the Mayor requesting that a sum of four or five dollars be given to get the dirt thrown over the bank at the north end of Water Street, as there was a very bad smell coming therefrom, as people clean out their yards, &c., and throw the refuse there. The Health Inspector was instructed to have the same attended to at once.

MCDONALD STREET WEST.

Moved by Mr. Paterson, seconded by Mr. Rutherford,—That as Mr. Hatton is spending considerable money in opening McDonald St. west, that the Street Inspector be authorized to spend an equal amount on said St., not to exceed $25.

Mr. Haggart said that there was a very good street there at present, and that Mr Hatton does not live in town. There are no houses on that street, and we have streets that there are houses on which need repairing worse than that street, and if there was money to spare the streets with the houses on should have the benefit.

Mr. McClelland said there was a By-law about being passed to limit the expenditure of the Street and Bridge Committee, and for them to try and come within the bounds if possible.

REPAIRING CULVERT.

Moved by Mr. Cahill, seconded by Mr. Taylor,—That the Street Inspector examine the culvert in the southern boundary of the town and have the same put in a proper state of repair. to be an equivalent for the statute labour done by the township of Monaghan.—Carried.

The council went into committee of the whole on the By-law to limit the expenditure of the Streets and Bridges, Mr. Cahill in the chair.

Moved by Mr. Haggart, seconded by Mr. Ratherford,—That the blanks be filled in with $6,000, as it was not necessary to spend that sum because it was provided.

Moved in amendment by Mr. Dixon, seconded by Mr. McClelland, that the blanks be filled in with $6,000.

After some discussion between the Mayor and Mr. Haggart, in which Mr. Haggart accused the Mayor of quibbling and going around the bush, the motion was put, six voting for it and five for the amendment, and it not being a majority of the whole council, both motions were declared lost, and the committee rose, with nothing to report.

TANKS, ETC.

Mr. Paterson said that the tanks that had been erected, one on Brock St., and the other on Murray Street had cost $362.50, and the filling cost $18.50, and the watering of the streets cost $495.00, which was an expenditure of about $900 a year for these things, and he therefore

Moved by Mr. Paterson, seconded by Mr. Haggart,—That as it is desirous to have Water Works constructed in this town, and that this is a good time to have said works commenced owing to the low price of material, be it therefore resolved that the Fire, Water and Gas Committee be a committee with power to add to their numbers, to consider the matter and re-

The Mayor said that there was $2,300 that had been given to the Ashburn Woollen Mills which they had no right to as they did not comply with the By-law, and for them to look after it.

Moved by Mr. Cahill. seconded by Mr. Taylor,—That no other works be undertaken except in cases of urgent necessity until the works recommended in the report of the Street and Bridge Committee are completed.—Carried.

The council adjourned for three weeks.

MODERN WOMEN.

It is a sad commentary upon our boasted civilization that the women of our times have degenerated in health and physique until they are literally a race of invalids—pale, nervous, feeble and back achy, with only here and there a few noble exceptions in the persons of the robust, buxom ladies characteristic of the sex in days gone by. By a very large experience, covering a period of years, and embracing the treatment of many thousands of cases of those *ailments* peculiar to *Women*, Dr. Pierce, of the World's Dispensary Buffalo, N. Y., has perfected, by the combination of certain vegetable extracts, a natural specific, which he does not extol as a cure all, but one which admirably fulfills a singleness of purpose, being a most positive and reliable remedy for *those weaknesses* and complaints that afflict the women of the present day. This natural specific compound is called Dr. Pierce's Favorite Prescription. The following are among those *diseases* in which this wonderful medicine has worked cures as if by magic and with a certainty never before attained by any medicines: Weak back, nervous and general debility, falling and other displacements of internal organs, resulting from debility and lack of strength in natural *supports*, internal fever, congestion, inflammation and ulleration and very many other chronic diseases incident to women, not proper to mention here. In which, Favorite Prescription effects cures—the marvel of the world. It will not do harm in any state or condition of the system, and by adopting its use the invalid lady may avoid that severest of ordeals—the consulting of a family physician. Favorite Prescription is sold by dealers in medicines generally.

BIRTHS

EARLTON.—In Otonabee on July 2nd the wife of Mr. F. A. Erskine of a son.

HUTCHINSON.—At Peterborough on Saturday the 24th inst, the wife of Mr. C. H. Hutchinson of the firm of Breese and Hutchinson of a son.

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution

In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' ECLELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q, writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Mayhew, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rowsan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three o four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weks I was troubled with a swelled ankle, which annoyed me very much. Mr. Mayhew of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

NEW WARE ROOMS.

EXTENSION OF J. WHYTE & CO'S AGRICULTURAL WORKS

We Beg to announce that we have fitted up for a Ware Room, the buildings formerly occupied by Mr. HILL as a SKATING RINK,

Opposite Henthorn's Livery Stable, Hunter st.,

and, from its central position in Town, will be a great convenience to our Customers and the public. In addition to the Implements manufactured by ourselves, we have recommended Mr. E. E. Bowen, in the Agency for the sale of the Celebrated Bowbes and Ramsden Machines, Manufactured by Messrs. A. Harris, Son & Co., Brantford, of which we have the following:—

New Kirby Reaper, Combined. New Kirby Reaper, Single. Kirby Combined Baltimore Rake.

Corse or Burdick Single Reaper. Kirby Two-wheel Single Reaper.

We have all these Patterns of said Repairs for the above Machines in stock at our Foundry

THE PLOW DEPARTMENT

comprises Eight Varieties chief of which is

"THE CHALLENGE & IMPROVED COMBINATION PLOUGH,"

Fitted with Iron beams and best hard-tempered American Steel Boards and Steel Landsides. These Ploughs are admirably adapted for all kinds of soil.

We have also on hand, Points and Soles for all the Ploughs Manufactured by the late Wright & Davis, the Peterborough Manufacturing Co'y, and Mr. Wm. Hales, made from a mixture of the best American and Scotch Iron, and Guaranteed to be Hard and Durable. We have also Repairs and Patterns for all the Machines sold by the above-named parties, on hand

Having decided to make PLOUGHS A SPECIALTY, and having the best of material, and having a thorough knowledge of the business, coupled with fair and honest dealing, we hope to merit and obtain a fair share of public patronage.

J. WHYTE & COMPANY,
Corner Simcoe and Hunter Streets, Peterboro'.

JOHN WHYTE, Manager.

N.B.—The handsome and Roomy Shop to rent on SIMCOE STREET, formerly occupied by the Carting and Waggon Mill of Mr. Augustus Stewart.

The Church-Yard Stile.

I left thee young and gay, Mary
When last the thorn was white;
I went upon my way, Mary,
And all the world seemed bright;
For thee
Beside the Church-yard Stile.

Above me, in the storm,
And many a blinded dream I had,
That brought thy gentle smile.
Just as it came when last I leaned
Upon the Church-yard Stile.

I'm here to-night thee now, Mary,
As all I love the best,
To tenderly tell thee how, Mary,
I've bid thee in my breast.
I came to yield thee up my heart,
With hope, and truth, and joy,
And crown with manhood's honest faith
The feelings of the boy,
I tremble thy name, but every pulse
Over
For I the trysting-place
Just by the Church-yard Stile.

My mountains deemed me brave, Mary,
Upon the sinking ship;
But flowers o'er thy grave, Mary,
Have power to blanch my lip,
I felt no throb of quailing fear,
Amid the wrecking surf,
But pale and weak I tremble here,
Upon the moved turf.
I came to meet thy happy face,
And woo thy gladsome smile,
And only find thy resting-place
Close by the Church-yard Stile.

Oh! years may pass away, Mary,
And Sorrow lose its sting,
For Time is kind, though
And flies with heedless wing;
The world may make me old and wise,
And hope may have my birth;
And other joys and other ties
May link me to the earth;
But Memory, flying to the last,
Shall treasure up thy smile,
That called me back to find thy grave,
Close to the Church-yard Stile.

Wanted an Apology.

Early yesterday morning a car on the Cass avenue route encountered a milk-wagon driven by a woman about forty years old, and the driver, shouted and motioned for her to turn out. She refused to leave the track, and car and wagon came to a halt.

"Why don't you get off the track?" shouted the car driver as he put on the brake.

"I don't like your way of hollering at me," she slowly replied. "I'm just as much of a lady in the Queen of England, and you must treat me with just as much courtesy as you would her."

"I say get off the track!"

"And I say I won't!"

He left the car to lead her horse off the track, but she had a long whip and she kept him off. He got behind her wagon to hit it off, but the whip cracked about his ears again.

"Will you get off the track?" he demanded.

"When you apologize I will!"

He was in a fix. His car was full, the milk woman was stout and full of grit, and he decided to come down. He said he begged her pardon.

"Well, that's all right," was the great moral lesson to your she replied, as she turned off the track. "When you see a milk woman on the track speak to her kindly and gently, don't endeavor to bluff.—*Detroit Free Press*

"Pull Down Your Vest."

"You keep vests, my frent? said a Dutchman, entering a Fulton street clothing store, the other day. The clerk promptly averred that the store was full of vests.

"I vant sweet, said the Dutchy, 'vat don't rise up on its hind legs mit the neck. I bought von in Syracuse not long ago mit a dwo dollar pill, and py shiminy, I don't notice not myself, but everywhere I go der poys cry out mit der streets, 'Yacob vy in der name of der pound of drusses don't you pull down your vest down? und py tam, I haf pulled dot vest more as dree dousand dimes down, till I vore der pinding off der puttons.'

The clerk explained the joke and sold him a vest and the Dutchman went out with the exclamation, "py shiminy, I don't hear somedings spout dot ever in Germany peoples."

COBSTOCK, June 8.—As Mr. Funtz, of this place was driving over the bridge crossing the Corvestogo river, two miles from here, last span gave way, and himself, team, wagon, and another man and two Orero Indians tated into the water below. Miraculously The waggon and horses turned completely over, and the two men were fastened underneath in three feet of water, and would have been drowned had not the boy, who was hitched on the horses, cut the harness and water until assistance came. The men and horses were badly hurt. The boy escaped best. The waggon was loaded with lumber, which went floating down the river. When the bridge broke it went off like the report of a cannon, and was heard at a considerable distance.

NOT QUITE SO BAD.—"Of all the most savage and debased tribes only that the condition and condition of the bird has been neglected," but we believe there are many in civilized countries who ill-treat the same species of animal without the excuse of the former; and we only wish ourselves of the use of an article which has done more than anything else heretofore known to improve the condition and relieve the suffering of the horse. Those who do not use Hunt's Condition Powders and Arabian Heave Remedy," and you will be satisfied with the result. Remember the name, and see that the signature of Hunt & Co. is on each package. For sale by Upton Watson, Toronto, Wholesale Agents for Canada. Sold by all Medicine Dealers.

With an exhibition of energy, whether or mind or body, there is a coincident change of system, and the enthusiast, such energy may be restored as rapidly as it is expended by the judicious use of Fellows' Compound Syrup of Hypophosphites, peppermint cordial or other such work with comparative impunity while using it.

PRESERVING THE HAIR.—Baldness is so common with [illegible] prevented by the use of *Burnett's Cocoaine*. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay, and to promote a healthy and vigorous growth of it, at the same time curing dandruff and cleansing the hair. A single application will render it soft and glossy for several days.

It is remarkable how the vegetable ingredients of Hagyard's Yellow Oil penetrate the skin, and through it the blood, which attends to very great ages. This, in connexion with the fact of Fellows' Hypophosphites increasing the activity of the whole family, is a somewhat [illegible] and commands consideration in selecting remedies, particularly a tonic character.

THE ERIE CANAL.—This canal is 360 miles in length, and the tolls collected upon it for 1861 exceeded over three millions dollars, which is nearly double the amount collected in any previous year; and while our neighbours have so much reason to be pleased at this result, it is gratifying to know that the sales of the "Canadian Pain Destroyer," for the cure of coughs, colds, sprains, bruises, rheumatism, [illegible] &c., is increasing much faster. Sold by all medicine dealers at 25 cents per bottle.

THE BLOOM covers its red color to minute globules, which float in the fluid, and carry, in a healthy state, to every [illegible] of Iron, which gives vitality to the blood. The Peruvian Syrup supplies to the blood this vital element, and gives strength and vigor to the whole system.

"Please, sur, what's the fare from Dublin to Chester? I inquired a cyar of the [illegible] of a shipping office [illegible] ings," replied the other. "An' what dye charge [illegible] cyar?" "Well," replied Pat, "look me as a pig."

FARM AND HOUSEHOLD.

ROAST FILLET OF VEAL.—Stuff and [illegible] the flap and skin with sliced ham which has been already boiled securing with skewers, or twine crossing the meat in all directions. Lay in a pot, put in two large cups of boiling water, [illegible] and stew slowly, and [illegible] it comes to boil, yet never boiling hard, for four or five hours. A large fillet will require nearly five hours. Remove the cover as seldom as possible, and only to ascertain whether the water has boiled away. If it is too low, replenish from the boiling kettle. Take off the strings when the meat is done; arrange the ham about the fillet in the dish, and serve a bit with each slice of veal. Strain the gravy, thicken with flour, boil up once, and send in a boat. Serve with stewed tomattoes and spinach.

STEWED KNUCKLE OF VEAL.—Put the meat into a pot with two quarts of boiling water, half a pound of salt pork or ham cut into strips, a carrot, two onions, a bunch of parsey and one summer savory—all cut fine—two dozen whole pepper-corns, and stew, closely covered, for three hours. When done, take the meat from the pot and lay in the dish. Strain the gravy, thicken with rice-flour, boil up once, and pour over the meat.

SWEET BREADS. (Fried.)—Wash carefully, and dry with a linen cloth. Lard with narrow strips of fat salt pork, set closely together. Use for this purpose a larding needle. Lay the sweet-breads in a clean, hot frying-pan, which has been well buttered or greased, and cook to a fine brown, turning frequently until the pot is crisp.

VEAL CUTLETS.—These should be thinner than beef-steak, and be done through-out. Few persons are fond of rare veal. Broil upon a well greased gridiron over a clear fire, and turn frequently while the steaks are cooking. Put into a saucepan four or five young onions sliced fine, a great teaspoonful of tomato catsup, or twice the quantity of stewed tomato, a lump of buttter the size of an egg, and a little thyme or parsley, with a small teacupful of hot water. Let them stew together while the steaks are broiling, thickening, before you turn the gravy out, with a spoonful of browned flour. Boil up once hard, and when the steaks are dished, with a small bit of butter upon each, pour the mixture over and around them.

CURRIED FOWL OR CHICKEN.—Ingredients: The remains of cold roast fowls, 2 large onions, 1 apple, 2 oz. of butter, 1 dessertspoonful of curry powder, 1 teaspoonful of flour, 1 pint of gravy, 1 tablespoonful of lemon-juice. Slice the onions, peel, core, and chop the apple, and fry the fowl into neat joints; fry them of the butter of a nice brown; then add the curry-powder, flour, and gravy, and stew for about 20 minutes. Put in the lemon-juice, and serve with boiled rice, either placed in a ridge round the dish or separately. Two or three shallots or a little garlic may be added if approved.

AUNT NELLY'S PUDDING.—Ingredients: Half lb. of flour, ½ lb. of treacle, ½ lb. of suet, the rind and juice of one lemon, a few strips of candied lemon-peel, 3 tablespoonfuls of cream, 2 eggs. Chop the suet finely; mix with it the flour, treacle lemon-peel minced, and candied lemon-peel; add the cream, lemon-juice, and 2 well-beaten eggs; beat the pudding well, put it into a buttered basin, tie it down with a cloth, and boil from 3½ to 4 hours. Sufficient for 2vs or six persons.

LIGHT GINGERBREAD.—To three quarts of flour put one pound of butter and three eggs, three pints of molasses, and three teaspoonfuls of pearlash dissolved in half a tea-cupful of sour cream or buttermilk. Unless biscuit gingerbread requires a good deal of soda to make it rise, and therefore pearlash is used, as being stronger. If soda is preferred, one dessertspoonful will not be found too much to allow to a quart of flour. This cake is better when the batter is poured into shallowing pans than when made into dough, rolled out, and cut in shapes. Your success must, after all, depend very much upon the kind of molasses used; the cheapest sorts will not make cake any more than syrup. Flavor with ginger, and add other spices to your taste.

BOILED APPLE SAUCE.—Pare, core, and cut up the fruit; put it into a jar, which place in a saucepan of water over the fire; when quite done, pulp it, and put in a good piece of fresh butter, sweeten to taste, and flavor with [illegible] season it with a little ground cinnamon or clover and serve it warm.

APPLE CAKE.—Take a pound of pulped apples, ¼ pound of flour, half a pound of butter, melted, some powdered cinnamon, six eggs well beaten and strained, two ounces of candied citron cut, and four spoonfuls of yeast. Knead it very well, let it rise, put it into a mould, and bake it in a quick oven. Sweet carraway may be introduced if desirable, but they must be added after the cake has risen.

PEACH A MELBA.—Take a quart of good, thick, and very sweet cream, put the whites of four eggs strained; beat it until it becomes a stiff snow; then, while still beating it, add half a pound of pulped apples, and a quarter of a pound of finely powderd sifted white sugar. Pile it high upon a dessert dish, and serve.

SAUCISSES AUX POMMES.—Take six large apples, pare and core them, slice them into a pan of boiling lard, brown them nicely, then take them out, and proceed in the same manner with a [illegible] of pork. When these are also of a good color, arrange them with the apples in a pie dish, put an edge of very light paste round the dish, and bake for half an hour in a quick oven.

APPLES AND QUINCES.—Take a quantity of golden pippins, [illegible] them into [illegible] them; put into a saucepan of boiling water, and simmer them until they form a jelly. To each pound of jelly add a pound of sugar. Then cut two or three quinces into quarters, and do them slowly in the syrup until they are tender. Serve in glass dishes for dessert.

THE EFFECTS OF COLD AND ONIONS ON COLOR.—It has observed by Koschlin that woollen cloth dyed with indigo had its peculiar blue color notably diminished by being exposed to a freezing temperature. According to some experiments, due to Geppesrader, this discolorization is due to ozone present, which act at temperatures below zero, but only [illegible] above zero. Dochineal reds on wool seem to lose their brilliancy when exposed to the action of ozone during eight days. Antline black was unchanged, but aniline brown on cottons was turned into a yellowish brown. Magenta, aniline blues, and violets, and [illegible] were unchanged, as were [illegible] which [illegible] reduced on Turkey red. Ozone seems, however to have, in some instances, the property of developing certain colors, more especially the aniline blacks.

THE GREAT ENGLISH REMEDY

DR. WILLIAM GRAY'S
Before Taking. After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature, Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing
WILLIAM GRAY & CO.,

VINEGAR BITTERS

WHAT IS CURE? A PREPARATION OR REMEDY WHICH WILL RESTORE THE SICK TO HEALTH. VINEGAR BITTERS is a purely vegetable preparation, made chiefly from the native herbs found on the Pacific slope of America, and is the most wonderful Invigorant that ever sustained the sinking system.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's
Hair Vigor
For restoring Gray Hair
its natural Vitality and Colo

A dressing which is at once agreeable, healthy, and effective for preserving hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved to usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, as injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich gloss, lustre and a grateful perfume.
Prepared by Dr. J. C. Ayer & Co.,

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. In even the worst cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Even those singular maladies, caused by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and in wisps the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.
Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations*, and *Female Weakness*, are commonly soon relieved and

PETERBOROUGH, JULY, 6 1876

DOMINION DAY.

On Monday the anniversary of Confederation was observed in Peterboro as a Public Holiday. In town the celebration was not of any account, with the exception of the Young Irishmen's Pic-Nic and the excursion on the steamer Golden-eye to Harwood and back, twice. The trips were made in good time and she promises to be a fast sailer.

In the afternoon she brought up the Cobourg and Hastings Bands and a large numberof excursionists. The bands did our town the honor of playing several pieces on their way to the hotel and return to the steamer. The Firemen's Band accompanied them to Harwood.

YOUNG IRISHMEN'S PIC-NIC.

The annual Pic-Nic of the Young Irishmen's Catholic Benevolent Association was held as usual in Wallis's Grove and passed off more successfully than on any former year. This is generally the Pic-Nic of the season and is looked for on every Dominion Day as a source of great pleasure and amusement. Among the amusements was a Base Ball Match between the Maple Leaf of Lindsay and the Pine Grove Club of Peterborough, which resulted in a victory for Peterboro by 21. The following are the scores:

LINDSAY.	R.	O.	PETERBORO.	R.	O.
Jas Nolen, 3 b	0	6	Callaghan, c	3	1
T. Dobbins, c	1	5	Sullivan p	2	4
Hetherington, p	2	4	McNamara 1b	4	4
Butler, 1 b	4	2	Martin 2 b	6	2
Hargreve, c f	5	1	O'Brien 3 b	2	4
E. Dobbin l f	2	2	Dunn s s	3	4
John Nolan, r f	1	9	Sovais l f	5	0
Clarey 2 b	1	4	Ravidock c f	4	3
Dewire, s s	1	3	Jeffers r f	4	5
	17	27		38	27

	1	2	3	4	5	6	7	8	9
Maple Leaf	3	1	1.	0	1	2	2	3	4
Pine Grove	2	6	6	1	3	2	1	4	1	3

ATHLETIC GAMES.

The athletic games also attracted considerable attention. The following list will give the victors:

Quoits.—8 entries.—1st prize, Fred. Mitchell, $2.00; 2nd prize, John Frith, 50 cents.

Putting Heavy Stone.—6 entries.—1st. prize, Chas. McDonell, $1.00.

Running Jump.—8 entries.—1st. prize, Henry Dens, $2.50 had presented by S. Hyman,

Hop Step and Jump.—7 entries.—1st. prize, Henry Dunn, gold cross $2.50 presented by G. J. Kelly.

Three Quick Jumps.—5 entries.—1st. prize, John McDonnell, 3 story cake $3.50 presented by A. Hall.

400 Yards Race'—6 entries.—1st prize, James McNamara, $3.00; 2nd. prize, Edward O'Brien, Toilet table, $2.00.

200 Yards Race:—open only to members of the Junior Young Irishmen.—1st prize, R. H. Carew, pair of slippers, $4.00 presented by R. Ternan.

200 Yards Hurdle Race.—1st. prize, Hugh Martin, fancy vest, presented by T. Dolan. value $4.00.

After the pic-nic was over they adjourned to the Music Hall, where by music and dancing they enjoyed themselves till near morning. This concluded the days amusement in Peterborough.

LAKEFIELD.

This ambitious little town had a gala day on the celebration of the natal day of our Dominion. The programme was a good one. A regatta occupied the early part of the day, an excursion together with athletic games and sports the afternoon. The following is the prize list after the regatta:

REGATTA

Single Hunting Canoe Race—1st David Drain $3. 2nd Fred Lillicrap $2.

Double ditto—1st Fred Lillicrap and Chas Grills $3. 2nd John and David Drain $2. 3rd Thomas Wallan and Giles Stone $1.

Row Boat—1st C. Todd, Johnston and Cowmeadow, $2. 2nd W. & E. Erskine and W Nichols $1.

Punt Race—1st C. Todd, Johnston and Cowmeadow $2. 2nd Haywood, Casement and Knox $1.

Boys Double Hunting Canoe—1st Jas Watson and Percy Strickland $2, 2nd Two Indian Boys $1. 3rd Wellington Bill and John Fitzgerald 50c

Hurry Scurry—1st Fred Lillicrap $2. 2nd C. Todd $1.

ATHLETICS.

The following list will give the victors in the athletic games and sports.

Foot Race.—One mile, 1st Geo. Rogers, $3.00; 2nd, E. Griffin, $1.50.

Foot Race.—Boys under 13 years; half mile; 1st, Casemnt, silver watch $4.00; 2nd, W. Nelson, $1.50.

Hurdle Race—1st. G. Griffin, $2.00; 2nd. Geo. Rogers, $1.00.

Girls Race.—1st, Lizzie Cotton, Parasol; 2nd, May Ball, Fan; 3rd, Ellen Hendrys, Glass Cream Pitcher and Sugar Bowl.

Wheelbarrow Race.—1st. Cotton, $150; 2nd, Thorndyke, $1.00.

Three Legged Race.—Griffin Bros., $1.

Egg and Spoon Race.—1st, Hattie Henderson, Toilet Box; 2nd, Annie Simpson, Ladies Scarf; 3rd, Jennie Smith, Girls Belt.

Sack Race.—1st, Thorndyke, $1.50; 2nd, Jas. Kelly, $1.00.

Boys Race.—Under six; 1st Simpson, Knife; 2nd, Clavin, Knife.

Hop, Step and Jump.—1st, G. Fitzgerald, $1.00; 2nd, Griffin, 50 cents.

High Jump.—1st, W. Griffin, $1.00.—3ft. 7 in.

There were several who tried to climb the greasy pole, but no one succeeded fairly, therefore there was no prizes given.

In the evening the village was beautifully lighted up with wax candles. The dwellings of Major Bolton, E. Graham and Dr. Bell being lit up from top to bottom.

The excursion party were numerous, and the Chippewa made good time. Everything passed off pleasantly. The trip was a delightful one, calling at Burleigh Bridge, where Mr. Holmes' commodious new hotel is situated.

In the evening the village had a splendid display of fireworks, which they caused all pleasantly to retire to the pleasures thereof respectively.

THE LARGEST Stock of Colored Shirts in Town will be seen at T. DOLAN & Co's tf.21.

PRESBYTERIAN.

The following is the report of the committee on the Maclennan petition presented by the General Assembly, at its late session, Toronto. It is sufficient comment to publish it, leaving the interpretation of all implied to the judgment of the assembly.

"That this Assembly sustain the reference for judgment, find that in the statement made before this Assembly, Mr. Macdonnell has declared that he does not hold the doctrine of everlasting punishment in the sense held by the Church and formulated in the confession of faith; never believed, that he has adopted no doctrinal views contrary to the Confession of Faith; therefore, resolved first, that the above two-fold statement is not satisfactory to this Assembly; twoond, that a Committee be appointed to confer with Mr Macdonnell in the hope that they may be able to bring in a report as to Mr. Macdonnell's views, which may be satisfactory to this Assembly."

Mr. Macdonnell then asked that the Assembly would remit the case to the Presbytery to proceed therein by libel, but the Moderator ruled that, in view of the resolution which had just been adopted, such a course would be incompetent.

Two hundred and seventy-eight members voted for the report, and one hundred and ten dissented.

From abstract of reports we gather the following items of interest:—

The total number of families is reported as 51,501, and of communicants at 83,434. The additions by certificates during the year were 4,083, and on their own profession and by action of Kirk Sessions 7,189, a total of 11,242. In consequence of defective returns, no judgment can be formed as to the increase which the Church has made in her membership during the year. It is perhaps safe to say that the clear increase over the Church was fully an average of 200 each Presbytery, or about seven thousand in all. Baptism amounted to 9,618, of whom 6,522 were children, and 496 adults—the largest number of the latter being in the Presbyteries of Truro, Prince Edward Island, Halifax and Toronto. The entire number of Sabbath scholars was 74,969, of whom 16,116 were in Bible Classes, and the number of teachers were 4,804. The number of Elders sum up to 3,218, and of other office-bearers, whether deacons or managers, to 4,826. There are 167,814 volumes in libraries, of which 141,741 belongs to Sabbath schools, and 16,073 to congregations. The number of sittings in churches is 206,725. The number of manses is 306, and of rented houses 30. Thirty-five churches were built, in one part, and one enlarged in the course of the year. Twenty-six manses were erected. Annual reports are published by a hundred and sixteen congregations, and 433 have their church property insured. The stipends paid by congregations amounted to $423,237.61. The total amount expended in building and repairing churches in the course of the year was $296,657.22; and of this the largest item was in the Presbytery of Toronto, and by one congregation in that Presbytery. The amount expended upon Manses was $49,029.56; and the number built or completed was 26, which would give an average cost to each one of somewhat less than $2,000. "Other congregational contributions" swell up to $144,744.54; and the total paid by congregations alone as stipend for churches, manses and other purposes more immediately connected with their interests was $697,753.13¼.

There were during the past year 1,224 vacancies supplied by Ministers, of which 1,099 were in Regular Charge, and 125 not in Regular Charge. The names of 678 Charges, with 523 Ministers, were reported. Vacancies were reported as 111.

The Presbytery of Toronto pays the largest average per family for Stipend, the Presbytery of Hamilton stands second, and that of Montreal third. The Presbytery of Manitoba raises the largest average per communicant for the same purpose, the Presbytery of Lunenburg and Yarmouth ranks second and that of Bruce third. The largest average contribution per family for all purposes is in the Presbytery of Montreal, viz.: $30.79 as also per communicant $30.56. The second is in Toronto, $30.68 per family and $13.30 per communicant, and the third in Paris per family, whereas Lunenburg and Yarmouth is third per communicant. Montreal stands first, Hamilton second, Toronto third, Kingston fourth in their average contributions per family for Home Missions, and Montreal first, Kingston second, Halifax third, Toronto and Quebec—which are equal in their contributions per communicant for the same object fourth.

EVERYTHING in the Gentlemen's Furnishing are new at T. DOLAN & Co's. 21-tf

PLEASE EXPLAIN.—Friends of John A. Macdonald will please explain how Mr McKenzie's Canadian Government has effected the following failures in England, Ireland and Scotland:

"The failure of Henway & Rees, of Cardiff, in Wales, with liabilities of $1,000,000, in addition to that of Macolmson & Co., in Ireland, a day or two ago, with liabilities of over $6,000,000, and a Glasgow firm with liabilities of $600,000, and a colliery firm at Darlington, England, with liabilities of $350,000, makes a grand total of about $8,500,000, in failures in the last four days. In addition to these, a disastrous fire on the Upper Thames, in London, at the close of last week, destroyed $1,000,000 worth of property.

Upon what principle has the Canadian tariff produced such far reaching effects? If the followers and disciples of Conservatism will allow themselves to be gulled by the clap-trap arguments of an effete leader, that the Canadian tariff, or the present government is the cause of the depression of trade in Canada, upon what principle will they explain the cause of the depression of trade to such an enormous extent in England under a Conservative government? Or in the United States under a Republic government that has protected itself into almost helpless bankruptcy? It is strange, indeed, that men possessed of reasoning minds will allow themselves to be led away by the tissues of lies and ravings of fanatic but baffled leaders, still seeking whom they may deceive.

ST. PAUL'S PRESBYTERIAN CHURCH.—On Wednesday last the services in connection with the ordination and induction of the Rev. E. F. Torrance to the St. Paul's Church, were held. The Rev. K. Maclennan presided. The Rev. Mr. Cameron, of Millbrook, put the usual ordination questions. Rev. Mr. Bennett of Springville, addressed the newly inducted minister, and the Rev. Mr. Donald, of Port Hope, addressed the people. In the evening a Welcome social was held, when Colonel Haultain occupied the chair. The ministers of all the town churches were present, which shows a Christian spirit and sympathy in their common work. The Chairman, on behalf of the congregation, tendered a cordial welcome to the newly inducted pastor, and J. W. Smith, Esq., on behalf of the Sunday School. The Rev. J. M. Roger, the late pastor, also expressed his cordial good feeling toward the congregation and pastor in a very happy address. Refreshments were then partaken of in the basement of the church. The Rev. Mr. Torrance enters upon his labors enjoying the most cordial friendship of all the congregations and the warmest sympathies of the ministers and Christian people in other churches. His is an earnest, practical preacher, endued with a high sense of the nature and importance of the profession, and, we trust has a long and useful life before him to spend in the work of his Divine Master.

SCHOOL BOARD.

The Board of School Trustees met on Tuesday evening. Present—Messrs. Stevenson, McClelland, Robertson, Stevenson, Cox, Morrow, Pentland, Whitehead, Anderson, and Dr. Burnham.

Mr. Johnston was requested to act as Secretary in the absence of Mr. Perry.

Accounts.—From J. Little, $5.60, for negatives of the school building for Centennial. From Thomas Carter, $5.50, for salary as Janitor of the Auburn School, and from James Bradley for four months salary as Janitor of the school in the Methodist S. S. Rooms, were submitted, and on motion of Mr. McClelland, seconded by Mr. Morrow, ordered to be paid.

On motion of Mr. Pentland, seconded by Mr. McClelland, the salary of Mr. Dixon to the end of the holidays, was ordered to be paid.

A communication from the Department of Education, contained a printed report of Mr. McClelland, on the present state of the Collegiate Institute, was read and received.

It recommends the employment of a first-class classical master; also, of a first-class Mathematical master, and a different organization, so as to teach by subjects, and secure to all the pupils the same quality and quantity of teaching.

A communication from Mr. W. Smith asking for information as to the probability of a Principal being required, was read and received.

The Chairman stated that the difficulty in reference to Miss Preston's room had been satisfactorily arranged.

Dr. Burnham, as Chairman of the Committee on Appointment, reported that the committee had met and agreed to secure the services of Mr. Blackadar, gold medalist and first honor man in mathematics, of the Toronto University, as Mathematical teacher, and had written to him offering him a salary of nine hundred dollars, and were awaiting an answer. In reference to the appointment of a Principal, the committee could not agree, and had referred it back to the whole Board. He therefore advised that the Board proceed to the matter at once.

Mr. McClelland referred to the matter of the appointments and thought that the Board should confirm what the Committee had done in the matter of Mr. Blackadar. It was agreed that the Committee had the power already.

Mr Edmison moved, seconded by Mr. White—That Mr. J. F. Jeffers be and is hereby appointed Principal of the Collegiate Institute and Public Schools during the period for which leave of absence has been granted to Mr. Dixon, at a salary of $1,200.

Mr. Cox moved in amendment, seconded by Mr. Pentland—That Mr. Jeffers be appointed Principal and English Master at a salary of $1,100 a year, and that the Committee on Appointments be requested to secure the services of a Classical Master at $1,000 and of a Mathematical Master at a salary of $900 a year.

After considerable discussion, which is better not reported, the amendment was put and carried on the following division.

YEAS—Messrs. Cox, Pentland, Morrow Robertson, McClelland and Dr Burnham.

NAYS—Messrs. Edmison, Johnston and White.

The main motion was therefore lost and the amendment declared carried.

Mr. McClelland said the buildings required whitewashing, cleaning and repairs, and he asked that authority be given to have the same done during the holidays.

On motion of Mr. Morrow, seconded by Mr. Edmison—The Property Committee was instructed to have all the necessary repairs done during the recess.

On motion of Mr McClelland, seconded by Mr. ——— A grant of $50 was given to Mr. Braden for this year.

The Board adjourned.

TURKISH AFFAIRS.

The accounts from Turkey are conflicting, but appearances are in favor of the insurgents. Hostilities have commenced, and a decisive action is expected immediately. The following is the latest news from the east:

CONSTANTINOPLE, July 4;—An official despatch received here fully confirms the report of the defeat of the Servians at Saitchar.

A Servian diplomatic agent will leave Constantinople on Thursday. All the Montenegrin residents are leaving Constantinople.

BELGRADE, July 4.—Servian official despatches announce that hostilities commenced on the south-eastern frontier yesterday. The Servians were successful in several engagements. They captured the fortified camp of Bobingliana by assault after three hours' fighting. The position was defended by several batteries. The Turks abandoned their arms and packages. The river Dwina was crossed yesterday, and an engagement ensued before Belochan.

LONDON, July 4.—The *Times* has the following telegram, dated Zairo, July 3, evening:—Scouts report that Mukhtar Pasha has abandoned Gotschk and retreated into Bosnia, and that the Montenegrins are following up their victory over the Turkish expedition sent against Antchi Medun is beleaguered, and Podgoritza is threatened.

The *Pall Mall Gazette's* Paris correspondent telegraphs that it is reported that there has been sanguinary fighting near Nisach: that General Tchernayeff has occupied a commanding position, and that the Turks have been defeated.

LONDON, July 4.—The *Times*, commenting on yesterday's debate in Parliament on the Eastern question, concludes that "the British people do not think it incumbent on them to pull down the Turkish authority which they aided in maintaining twenty years ago, but they will not allow themselves to be drawn into another Crimean war by the belief, which is probably a mere illusion, that a change in the disposition of the present dominions of the Sultan implies the advance of Russians to Constantinople."

The "Housekeeper" of our Health.

The liver is the great depurating or blood cleansing organ of the system. Set the great housekeeper of our health at work, and the local corruptions which gender in the blood and rot out, as it were, the machinery of life, are gradually expelled from the system. For this purpose Dr. Pierce's Golden Medical Discovery, with small daily doses of Dr. Pierce's Pleasant Purgative Pellets are pre-eminently the article needed. They cure every kind of humor from the worst scrofula to the common pimple, blotch or eruption. Great eating ulcers kindly healed under their mighty curative influence. Virulent blood poisons that lurk in the system, are by them rooted in their terrors, and by their persevering and somewhat protracted use the most tainted system may be completely renovated and built up anew. Enlarged glands, tumors and swellings dwindle away and disappear under the influence of these great remedies. Sold by all dealers in medicine.

"Glenda, a child about three years old, was greatly afflicted with sores on his legs and feet, so that he could not wear his shoes and stockings. Had eaten dirt at times with him. Had tried many remedies ineffectually. At last we tried the Golden Medical Discovery, and in about three weeks he was entirely cured. The sores were all healed, and his health greatly improved.

Respectfully yours, J. WILSON,
Vermillion, Edgar Co., Ill., Jan. 20th 1876

Sold by druggists.

SELWYN.

SELWYN, July 3rd, 1876.

To the Editor of the Examiner.

DEAR SIR,—The members of Selwyn Lodge, No. 20, I. O. of G. T., request you to insert the resolution in behalf of our beloved Sister in the columns of your paper:

R. J. THOMPSON,
Secretary.

"WHEREAS, it has seemed good to the Almighty Disposer of events to remove from our midst our late worthy and esteemed fellow member, Miss (Ann) SANDERSON, and whereas the intimate relation long held by the deceased with the members of this Lodge, Selwyn Lodge No. 20, I. O. of G. T., render it proper that we should place upon record our appreciation of her service and merits as a member of our Order, and her courtesy and affability as a companion and friend. Resolved, therefore, that we tender to her afflicted relatives our sincere condolence and earnest sympathy over the sudden and mournful loss of so affectionate and desirable a member of the family, and assure them that their sorrow is shared by the community generally, and by our Temple in particular. And resolved that our Charter be draped in mourning, and that the members of our Lodge wear the mourning badge of our Order while in Session, for sixty days."

This resolution is signed by our W. C. T., and attested by our W. Sec.

BY-LAW NO. ——

A BY-LAW to provide for the issuing of Debentures to the amount of Three Thousand and Five Hundred dollars for the purpose of erecting a new School Building, in the village of Ashburnham, and to provide for the payment of the principal and interest thereon, and to repeal By-law Number Fifty one of the said municipality of Ashburnham.

WHEREAS the Public School Board of the Municipality of Ashburnham require enlarged School accomodation for the said Municipality and have determined upon erecting a new School Building therein and have notified the Council of the said Municipality to provide the necessary funds therefor.

And whereas for such purpose the amount required will be the sum of Three Thousand and Five Hundred dollars, and it will be necessary for the said Municipality to raise the same by the issue of Debentures of the said Municipality to that amount in the manner hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality of Ashburnham (according to the last revised assessment roll of the said Municipality (being that for the year 1876) is the sum of Three Hundred and Fifty-one Thousand two Hundred and seventy-five dollars.

And whereas there is no existing debt of the said Municipality of the Village of Ashburnham, either for principal or for interest.

And whereas it is desirable to make provision for the payment of the said Debentures and the interest thereon within fifteen years from the day hereinafter appointed for the coming into force of this By-law.

And whereas it will require the sum of Four Hundred and Forty three dollars and thirty three cents to be raised annually during the said period of Fifteen years by special rate on the whole rateable property of the said Municipality for paying the said sum of Three Thousand and Five Hundred dollars and interest thereon as hereinafter mentioned.

And whereas for paying the interest of the debt hereby created, and creating an equal annual sinking Fund sufficient for the payment of the principal of the said debt it will require an equal annual special rate of one mill and twenty seven hundredths of a mill on the dollar in addition to all other rates to be levied each year on the whole rateable property of the said Municipality.

And whereas the Municipality of the said Village of Ashburnham heretofore by By-law Number Fifty one of the said Municipality provided for the issuing of Debentures for the raising of the said sum of moneys for the purpose above designated, but owing to the said By-law providing for the issue and redemption of such Debentures under the two hundred and fiftieth Section of the Municipal Act the said Debentures could not be disposed of to advantage and none of the debentures thereby provided for having been issued, it is deemed expedient to repeal the said By-law number Fifty one.

The Municipality of the Village of Ashburnham by the Council thereof therefore enacts as follows:

1. That for the purpose aforesaid the Reeve of the said Municipality of the Village of Ashburnham shall issue Debentures of the said Municipality to the amount in the whole of the sum of Three Thousand Five and Hundred dollars, none of such debentures being for a less sum than One Hundred dollars to be sealed with the seal of the said Municipality and to be signed by the Reeve and Treasurer thereof and the said Debentures shall have on the face thereof the authority upon which the same were issued.

2. The said Debentures shall bear date of the day hereinafter appointed for the coming into force of this by-law and shall be payable in Fifteen years thereafter at the office of the Ontario Bank in the Town of Peterborough.

3. The said Debentures shall bear Interest at the rate of six per cent. per annum from the date thereof which interest shall be made payable half-yearly in the First days of the months of February and August, of each and every year at the office of the said Bank in the Town of Peterborough and each Debentures shall have Coupons attached thereto for the interest to mature thereon from time to time.

4. That for the purpose of paying the debt hereby created and the interest thereon as hereby provided an equal annual special rate of One mill and Twenty-seven Hundredths of a mill in the dollar shall in addition to all other rates be annually levied and collected in each year during the continuance of the said Debentures upon all the rateable property in the said municipality.

5. That the said recited By-law of the said Municipality of the Village of Ashburnham Number Fifty-one and passed on the Fifth day of November A.D. 1875 be and the same is hereby repealed.

6. This By-law shall come into force and take effect on the First day of August, One Thousand Eight Hundred and Seventy-six.

7. That the votes of the Electors of the said Municipality of the Village of Ashburnham entitled to vote on this By-law on Saturday the Fifth Day of July, One Thousand Eight Hundred and Seventy-six, commencing at the hour of Nine o'clock in the forenoon and closing at the hour of Five o'clock in the afternoon of the following places and times, that is to say: At the Township Hall, Ashburnham, at the North front of the said Village of Ashburnham between Simcoe Street, John Hussey and William Burnham, Gilbert, and at the front West of the Town Hall, Jamieson Street.

8. That the Clerk of the said Municipality of the Village of Ashburnham shall sum up the number of votes given for and against this by-law at his office in the Town Hall in the said Village on Tuesday the Eleventh day of July A.D. 1876 at the hour of Eleven o'clock in the forenoon.

9. That the appointment of persons to attend at the various polling places and at the final summing up of the votes respectively on behalf of the persons interested in and promoting or opposing the passage of this By-law respectively will take place at the office of the said Clerk in the said Village on Friday the Thirtieth day of June, A.D. 1876, at the hour of Eleven o'clock in the forenoon.

NOTICE.

The above is a true copy of a proposed By-law of the Municipality of the Village of Ashburnham which will be taken into consideration by the Council of the said Village after one month from the first publication thereof in the PETERBOROUGH EXAMINER newspaper, which said first publication is on the Fifteenth day of June, A.D. 1876, and that the Poll for the taking of the vote of the ratepayers thereon will be held at the places on the day between the hours and by and before the Returning Officers mentioned and set forth in the said By-law.

JOHN WOOD,
Village Clerk.

Dated this 14th day of June, A.D. 1876.

THE death is announced of Rev. John Eadie, L.L.D., of Glasgow, a divine and author of great eminence. Dr. Eadie was a member of the Committee engaged in revising the Bible.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

FINE ARES.—A painting of Mr. Jim Ormond in his German Character by Mr. Workman, has been on exhibition for some days. For artistic design and excellence of execution it would be difficult to surpass. As an artist, Mr. Workman stands deservedly high.

WARD the Caledonia Murderer, whose sentence was commuted to imprisonment for life, when being removed from the Brampton Jail made violate resistance and assaulted the officers who were about to take him to Kingston Penitentiary.

PRESENTATION.—Mr. Charles Perry, Secretary of the School Board, has been the recipient of a handsome Meerschaum Pipe, the gift of the Teachers in the Union School for his kind and courteous conduct in his intercourse with them.

NEW GROCERIES.—Mr. M. Collins has opened out a new stock of groceries and provisions in the stand lately occupied by Messrs. McKee & Davidson. His stock is fresh, and he will be found accommodating and courteous. Give him a call.

POTATO BUG KILLER.—Mr. A. H. R. Sproule is manufacturing and selling Ainsmee' Colorado potato bug killer. It is said to be a superior article, making speedy work of the bugs. We have seen several certificates of reliable persons who have used it.

VOTING.—The ratepayers of Ashburnham will bear in mind that Saturday is the day for voting on the by-law to raise [illegible] hundred dollars, for the purpose of paying off the debt of the new school building erected in the village.

DIVISION COURT SITTINGS.—The sittings of the First Division Court of the County of Peterborough for the remainder of the year, will be held as follows.

Friday	1st of September
Friday	6th of October
Friday	10th of November
Friday	22nd of December

HYMENAL.—John Carnegie, Esq., led to the altar, on Wednesday, the eldest daughter of Wm. Snyder, Esq., of Ashburnham. The ceremonies were performed by the Rev. K. Maclennan. The happy couple left on a bridal tour by the evening train, accompanied by the greetings of their numerous friends, and we may add our best wishes for a long and happy future for both of them.

BIJOU COMBINATION—This Troupe will give an entertainment in the Music Hall this evening, when they will introduce their new Acts, Songs and Dances. The entertainment will be of a pleasing character to lovers of fun. The farce entitled "the Hotelkeeper's Spec," or poor accommodation, will conclude the programme of the evening. This Company will be found in advance of those who have proceeded them.

ACCIDENT.—On Wednesday last a painful accident happened to Mr. Lasher, carpenter, while attending to the putting up of a cornice in front of the new Town Hall. One end of the plank on which he was standing projected over the scaffolding, and on going out too far, the plank tiped up and he fell to the ground breaking his leg above the ankle. He was immediately taken home and Dr. Kincaid sent for, who set it and he is doing as well as could be expected.

NEW FIRE INSURANCE OFFICE.—Mr. R. Fairbairn having been appointed Agent of the old and reliable fire insurance companies, the Imperial and Queen's of England, is now prepared to do all classes of fire insurance business at as moderate a rate of premium as any first class company. He has opened an office over Davidson's book store, George Street, where he will be found prepared to do business in a manner calculated to merit public favor.

THE Quebec disaster has been repeated at St. Johns, Quebec, that town having been almost totally destroyed by fire on Sunday. The fire originated in a lumber yard, and in less than an hour the entire business portion of the city was in flames. A high wind prevailed, and nothing could be done to stay the conflagration, until it burned itself out, shortly before midnight. One woman was burned to death. Great distress prevailed among the people, and supplies of food were telegraphed for. The loss was about a million dollars.

12TH OF JULY.—At a meeting of the committee appointed by the Peterboro District Orange Lodge, held on Tuesday evening, it was decided that the Peterboro and Lakefield Lodges should engage the Firemen's Band for the 12th, and go via the Midland Railway to Cobourg. The members of Ashburnham Lodge will go by the Steamer Golden-Eye to Harwood and the Otonabee Lodges have chartered the Whistle-Wing and will go from Keene to Harwood thence via train to Cobourg, thus enabling all parties along the routes to see the procession in Cobourg and at one time all round.

A number of Horse Sheds will be given in Ashburnham in rear of the English Church recently opened there. The first will take place at the residence of Mr. John Burnham, on Wednesday, the 12th instant, at 7 p. m. Mr. D. Haggart and other gentlemen, have kindly offered their services. The public are invited to attend. Admission twenty-five cents.

DROWNING ACCIDENT.—Another of these fatal and heart rending accidents which very frequently occur during the summer to boys bathing, happened on Wednesday evening last to a son of Mr. McMurdy's, in the Little Lake. It appears that three sons of Mr. McMurdy's went down to the Lake to bathe, and the youngest, while in and not being able to swim, either got out too far or got into a hole, and the others not being able to assist him, he was drowned. Alyoung lad named Long dived after him, and after a time secured him, but not until life was extinct. The boy was about 11 years of age. A Coroners inquest was held before Dr. Kincaid, and the jury returned a verdict of accidental drowning.

THE VAN AMBURGH SHOW.—On Wednesday, July 19th, the large show of Van Amburgh & Co., exhibits afternoon and evening, at Peterborough. It is completely new, and consists of a menagerie of rare and numerous animals and a circus in which two rings are found necessary to properly present the sports of the arena to the multitude. In looking over the list of animals and birds we observe many that are scarce and seldom seen except in zoological gardens. In the circus department we recognize the names of athletes, gymnasts, riders, clowns, etc., who rank A 1 in their profession. The fame of Van Amburgh was a power in the land thirty years ago, and has never been associated with an inferior entertainment. A street parade will occur about noon. And everybody is advised to be on hand and judge from it the superior merits of the inside entertainment.—EX.

THE COLLEGIATE INSTITUTE.—From our report of the proceedings of the School Board on Tuesday evening, it will be seen that important changes are determined on in the staff of teachers. The Board also is in communication with a most accomplished mathematical master to take charge of that department, and we understand that the services of one of the best classical masters in Ontario has been secured. After the holidays, therefore, the school will open with a superior staff of teachers, who will be prepared to maintain the high standing to which the Peterborough Collegiate Institute had attained while Mr. Dixon was in health and vigor. It is exceedingly desirable that the best teachers should be employed and the best work demanded of them. To secure this end the Board is doing its utmost, and we trust they will be successful in their efforts.

TEMPERANCE DEMONSTRATION.—We regret that the demonstration which was to have taken place in this town on Dominion Day prevents us giving a full report of the proceedings and speeches in connection with the Temperance demonstration. The change of the holiday, till Monday, was somewhat unfortunate as it interfered with the hearing of the addresses without, we understand, in any way increasing the usual amount of business. The Hon. Neal Dow, of Maine; Mr. Knowlton, of London, and Mr. McNaughton, of Cobourg, delivered admirable addresses which we exceedingly regret we cannot lay before our readers. This Temperance question is assuming an importance in social and political economy that must assert itself before long, and every opportunity to prepare the way for the victory should be improved. The victory of right over might, of love over ill-will, and of prosperity over poverty is worth contending and working for. We learn that the Committee is somewhat behind financially, but the amount is no such as to embarrass.

A RECENT issue of the London *Hour*, a high class journal of wide circulation in England, contained a very complimentary review of the volume of Mr. Mackenzie's speeches. The *Hour* says: "These speeches have a double value, for while those delivered in Scotland last autumn will be useful in removing many prevalent misconceptions as to the nature and characteristics of British North America, Mr. Mackenzie's political speeches at Sarnia, Montreal and elsewhere, thoroughly explain the policy pursued by his Ministry. Of that policy it may be said that it is distinguished by the sound common sense, true courage, and capacity that would be expected from a self-made man such as Mr. Mackenzie, and possesses all the qualities likely to render it acceptable to the majority of Canadians. Nor can Englishmen complain, for apparently Mr. Mackenzie has at heart a desire to promote the well-being of both the Mother Country and the Colony. 'Our policy,' says the Canadian Premier at Sarnia, 'will be for the future to do our own work, but to be the foremost, and, I hope, the strongest Colonial ally that Great Britain can possibly have.' This pamphlet should be in the hands of all who are interested in Canadian politics."

P. B. C.—The Peterborough Boating Club held their regular monthly meeting on Tuesday evening last at the Boat House. The Club intend to make vigorous efforts to compel the mill owners on the river to cease throwing their mill refuse into the water, as they are in that way fast making our once beautiful river a disgraceful sight, and moreover, unnavigable. The large body of this refuse which has accumulated at the Cemetery Point is yearly increasing very rapidly, and so in all parts of the river and the Little Lake. The Club, therefore, appointed a Committee of three to obtain evidence in their prosecution against the mill owners, and they hope their efforts may be productive of some good. The Club accepted with regret the unavoidable resignation of their Captain, who was obliged to resign in consequence of leaving town. The Club was given to understand that the people of Lakefield intend organizing a boating club, the members of which would probably send a four-oared crew to compete at our next regatta. Probably our club has been the means of inducing them, and also the management of Bobcaygeon to go in for boating with greater zeal. The meeting adjourned till Friday next, at 8 o'clock, to take into consideration some important questions.

CRICKET.

On Tuesday a match was played on the Ashburnham ground, between the Campbellford and Peterborough clubs, resulting in a easy victory for the latter in one innings with runs 24 to spare. Below is the score:

SOUTH MONAGHAN.

(Correspondence of the Examiner.)

NEW GRANGE.—There was a Grange organized in the Township of South Monaghan on Monday the 26th of June, by John Jay Gould, Esq., Division Grange Deputy, under very favorable auspices. The persons selected officers were as follows:—Wm. Adams, Master; Joseph Wood, Overseer; Samuel Smithson, Secretary; Wm. Purvis, Steward; John Smithson, Assistant Steward; David Truscott, Chaplain; William Morrison, Treasurer; James Wood, Secretary; Jos. McLaughlin, Gate Keeper. Lady Officers—Mrs. D. Truscott, Ceres; Mrs. Wm. Waterman, Flora; Mrs. F. Thompson, Pomona; Miss A. Smithson, Lady Assistant Steward—the grange to be called the South Monaghan Grange.

ANOTHER Grange was also organized at Providence on Tuesday last, with the following officers:—Master—Thos. Johnson; Overseer—David D. Henderson; Lecturer—T. Sade Johnson; Steward—Robt. Miller; Assistant-Steward—Francis Sloman; Chaplain—John Stark; Treasurer—John Henderson; Secretary—W. M. Gervin; Gate-keeper—John Edwards. Lady Officers: Ceres—Miss S. Henderson; Pomona—Mrs M. Johnston; Flora—Mrs. M. Stark; Lady Assistant Steward—Mrs. M. Miller.

EMBMORE.

(Correspondence of the Examiner.)

ACCIDENT.—A serious accident happened here On Saturday night, a little after dark. While Timothy Murphy, of this Township, was crossing the floating bridge on Mud Lake with a single horse and buggy, accompanied by his son, they met J. Maden, son-in-law of Francis Montgomery, also driving a single horse and buggy, a little west of the swing bridge. Mr. Murphy's horse got frightened and cramped the buggy, breaking the railing of the bridge and upset into the lake. The boy jumped out, but Mr. Murphy was taken down with the horse and was struck by his front feet. After getting clear of horse and buggy he was happily rescued from his perilous situation. On Sunday morning James Murphy returned with help and succeeded in getting out the buggy and harness and sank the horse, a valuable one, worth $140, to the bottom of the lake with weights. No one is to blame for the accident as each party was trying to pass quietly. Mr. Maden rendered every assistance in his power to Mr. Murphy. Such accidents were predicted at the time the new plank were put on, as, instead of covering all the way of bridge as they should have done, there is about two and a half feet on each end of the old plank not covered on which horses are afraid to walk. Even in daylight it is sometimes difficult to get horses off the new plank so as to pass. COM.

THE PORT HOPE CENTRAL EXHIBITION.

THE HORTICULTURAL PRIZE LIST.

We have been requested to publish the following Prize List for the Horticultural Department of the Port Hope Central Fair, so that intending competitors may have time to prepare. We trust florists in this section will carry off a full share of the honors:—

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution.

In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,

New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail. Sold in Peterboro by A. W. Kennt, W. S. Johnston, Dr. McComus, Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' ECLECTRIC OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil. Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Mayhew, Merchant, Wackworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Ransan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Wackworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr Mayhew of this place induced me to try Eclectric Oil, and before one bottle was used I was cured It is a most remarkable medicine.

Sold by all medicine dealers, Price 25 cts.

S. N. THOMAS, Phelps, N.Y.

NORTHROP & LYMAN, Toronto, Ont., Wholesale Agents for the Dominion.

NOTE—Electric—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kennt, W. S. Johnston, E. Walton, and Ormond & Walsh. In Keene by A. Campbell Campbell McNeil & Co. C. Britton, Lindsay and all Medicine Dealers.

NEW WARE ROOMS.

EXTENSION OF J. WHYTE & CO'S AGRICULTURAL WORKS

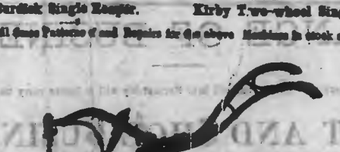
We Beg to announce that we have fitted up for a Ware Room, the buildings formerly use by Mr. HILL as a SKATING RINK,

Opposite Henthorn's Livery Stable, Hunter st.,

and, from its central position in Town, will be a great convenience to our Customers and the public. In addition to the implements manufactured by ourselves, we have succeeded Mr. E. E Bowie, in the Agency for the sale of the Celebrated Mowing and Reaping Machines, Man factured by Messrs. A. Harris, Son & Co., Brantford, of which we have the following:—

New Kirby Reaper, Combined. New Kirby Reaper, Single.
Kirby Combined Baltimore Plaids.
Corse or Burdick Single Reaper. Kirby Two-wheel Single Reaper.

We have at all times Patterns of and Repairs for the above Machines in stock at our Foundry



THE PLOW DEPARTMENT

contains Eight Varieties chief of which is

"THE CHALLENGE'S IMPROVED COMBINATION PLOUGH,"

Fitted with Iron beams and best hardened American Steel Boards and Steel Landsides. These Ploughs are of light draft and will work in all kinds of soils.

We have also on hand, Points and Soles for all the Ploughs Manufactured by the late Wright & Bros., the Peterborough Manufacturing Co's, and Mr. Wm. Hales, made from a mixture of the best American and English iron, and Guaranteed to be Hard and Durable. We have also Repairs and Patterns for all the Machines sold by the above named parties, on hand.

Peterboro, June 21st, 1876. 25-tf WM. GRAHAM.

FARM FOR SALE.

The undersigned offers for Sale that

WELL IMPROVED FARM

On the West half of Lot No. 6, in the 1st Concession of

ASPHODEL,

Containing 100 acres more or less, 75 acres are stumped and stoned so that a reaper can be used on it. The balance is in good standing timber. There are on the premises a good dwelling with two good barns, one of them a double cedar barn, together with the necessary outbuildings for a farm. There is a never failing spring on the premises and an orchard. The farm is situated on the Boundary Line between Asphodel and Otonabee, 3 Miles from Westwood and 7 Miles from Bridgenorth.

Title Indisputable.

Watching for Papa.

Up to the window are three little heads,
Lucy's and Willie's and two-year-old Fred's,
What are they doing there, all in a row,
Bobbing up, bobbing down, every way so?

Watching for papa to come home to tea,
Dear is their papa to all of the three;
Which pair of little eyes sparkling and bright,
Think you will be first to see him to-night?

Hark! who is that near whose footsteps they hear?
Far out their heads stretch to see him draw near;
Somebody's papa, perhaps, but not theirs—
Up to the three eager faces he stares.

Back from the window nods each little head;
"Papa make haste now," says dear little Fred;
Now they all see him just coming in sight:
Hark, how they clap hands, and scream with delight.

Happy at last, not a moment they wait,
Laughing and shouting they rush to the gate;
Joyfully pass the little troop mates,
Each rosy mouth with glad kisses he greet

Up in his strong arms he takes little Fred,
Willie and Lucy go dancing ahead:
Into the house all four of them come,
Mamma stands smiling her bright welcome home.

Pulling and tugging, they make him sit down,
One brings his slippers, another his gown;
Round him they hover and chatter with glee,
While they are making the summons to tea.

Little they know how their sweet, loving ways,
Comfort him after the wearisome days;
Arms full and laps full of dear little pets,
All of his worries and cares he forgets.

HOW TO BE HAPPY.

We shall have at least three hours for skating, said Charley, and just then they came in sight of old Goody Stevens' hut. Infirm as she was, she stood out in the cold trying to split some kindlings from a pine stick.

Let us stop and help her, suggested Charlie.

Not I; I am in a hurry to get to the pond, replied Rufus gruffly, and he passed on.

Please go in and get warm, and I will bring you in kindlings enough to last you a week, said Charlie, gently taking the wood from her trembling hands.

You have lost a good half hour, cried Rufus scornfully, when at last he appeared at the pond.

But perhaps I have gained a blessing, whispered Charlie to himself, remembering how the old woman had asked God to reward him.

Then came an hour of merry strife, cutting circles, playing Fox and Geese, etc., till he saw Ned Percy standing on the bank with longing eyes, for Ned's mother was too poor to buy him skates. Mine would just fit him, thought Charlie, and in a moment he had gained the shore.

Hellos, Ned! he cried cheerily, I will take turns with you, for I should hate to have my skates grow rusty while I am sitting down to rest. And for more than an hour he insisted upon Ned's keeping them.

When they went home, Rufus walked sulkily along, while Charlie whistled all the way.

I don't see why you enjoy life so much better than other folks, muttered Rufus discontentedly; I should think it was Easter morning with you all the year round.

I don't know, I am sure, answered Charlie, unless it is because I have learned that the secret of being happy is to try to make somebody else happy too.—*Child's Paper.*

How to be Unsuccessful.

1st. Consult Tom, Dick and Harry in matters of business, and then follow, not the best, but the last adqice given.

2d. Instead of marching straight over trouble with a firm front, crouch and let it march over you.

3d. Have no mind of your own, no self-reliance. Be as unstable as the sand on the sea shore.

4th. If you are knocked down to-day, conclude that your place is on your back to-morrow and next day, and so on.

5th. Because it rains to-day and is dismal, make up your mind that it is going to be rainy and dismal always.

6th. Never look among your clouds for silver linings, for ritta through to the blue sky and sunshine beyond.

7th. Follow these directions closely, and failure will track your steps like a bloodhound, in adversity you will be as worthless as an old rotten sheet for a sail in a gale of wind; when fire comes, as come it must, you will find all the metal you ever had in you turned to dross; and in the fire, you know, dross never purifies—it only burns.

Employ a Lawyer.

We believe in every man attending to his own business. A doctor should not attempt to manage a law case, neither should any one else but a lawyer. The following story will prove our assertion:—

A merchant in New York stopped in front of a furniture store, on his way to dinner, to look at a bed-room set worth $80, and remarked to the dealer that he admired it very much, and asked if $80 was the lowest price, which was found to be the case. The merchant went home and mentioned the fact to his wife. On his return home again at night, he found the bed-room set had been put up in his absence, his wife supposing he had sent it as a surprise. But he denied ever buying it. It occurred to him, however, that a lawyer might be of some service, and he remembered a needy little fellow down town, whom he called on and stated his case.

The lawyer said, 'Very well; keep the goods and leave it with me.'

Not long after a summons was served on the merchant for the price of the set; this he took to the lawyer and asked him what else should be done.

'Oh, nothing,' said the attorney, 'leave it all to me.'

'But don't you want me as a witness?'

'No; leave it all to me!'

Trial day came and passed, and the merchant, not a little anxious, called to learn the result, asking his legal friend how it came out.

'All right,' said young Blackstone; 'all right; the furniture is yours.'

But what have I to pay for it?'

'Nothing.'

'How can that be?'

'Easy enough; be put one witness on the stand to swear you bought the goods. I admitted it. I then put two witnesses on the stand to swear they saw the sale, but saw you pay $80 cash for it. Of course I won.'

This was conclusive.

A very sheepish young man asked his sweetheart to come to the door with him as he had something very important to say to her. She thought—Its coming noo after a' my waitin'. On getting her to the door, however, his pluck failed, and after a long and impressive silence he looked up to the sky, and drawing his hand across his chin, says—'I think, Kirsty, there's gaun to be fa' o' snaw noon.' Kirsty gave her head a toss and said—'Well, ye can stan' there till it fa',' and turned into the house, closing the door with a bang.

A gang of Italian ruffians assaulted two policemen at Ottawa, on Sunday week, and stabbed them in a vicious manner. Six were arrested.

FARM AND HOUSEHOLD.

Great wheat farms.—One of the most remarkable indirect effects of the panic of 1873 is the development of the wheat lands on the line of the Northern Pacific Railroad. A correspondent of the Philadelphia *Bulletin* writing from Fargo, Dakota, tells of a single wheat field, in Cass County, Dakota, of 10,860 acres, the joint property of Geo. W. Cass, of New York, Benjamin P. Cheney, of Boston, and Oliver D Irvinple, the wheat King of St. Paul. Other great wheat farms in the same county are recounted as follows: "John Dunlop, of Woodstock, Canada, an experienced agriculturist, with plenty of capital, owns 10,000 acres. He opened the property in 1875 by breaking 500 acres, building six farmhouses, and an immense barn. This season he will put up more buildings and increase his area of cultivated ground sufficiently to employ thirty families. He will work his farm on the tenant system, under long leases. The tenants are picked men, principally Scotch Canadians, and all skilful farmers. The culture of the estate will be general, with stock-breeding as a prominent feature of the estate will be the principal crop. Dunlop bought of the railroad company 'Edward Morris of Cowland, Canada, has 2,500 acres adjoining Dunlop's of which 450 are now under cultivation, to be increased by breaking this year to 1,100. Additional ground will be broken every season until the whole is under the plow for wheat.

If your chicks gets infested with vermin, anoint the poll of the head, under the wings and under the throat, with sulphur and lard; better still with kerosene, if you use it with judgement and discretion. If your chicks droop and you are at a loss for a cause, look for vermin; it is a bad sign to see chicks stand around cheep, cheep, cheep, cheeping! with drooping wings; look for lice or for gapes. Provide your setting hens with plenty of ashes to dust in, and the chicks with the same when hatched, and you will not be bothered much with vermin.

Fodder corn needs no commendation from us—a forage plant that is so universally recommended in almost all stages of its growth as a supplement for short summer pastures, especially for milch cows. It should be planted at various times, now and for weeks to come

Did it Pay?—Thirty-three years ago, two farmers settled side by side, with about equal advantages as to soil, market, &c. One of them subscribed for the *American Agriculturist*, and occasionally bought a book or two about his business, the whole costing him only $6 a year. His boys read and thought about their work, because interested in and respected it, and were happy in their toil, because they had something to think about. They grew up intelligent, and settled as good prosperous farmers, respected and influential. The other farmer "couldn't afford papers and books"; (he could afford 6 cents a day, or $20 a year, for tobacco, beer, etc.) His boys worked sullenly by day, and "skylarked" at night; they despised and hated work, which for them was only exercising brute force, with little mind applied. When old enough to escape parental restraint, they quit the farm, one for this, and another for that, and none of them ever amounted to anything. Six dollars a year, or even $1.60 a year, would have made a wonderful difference—would have changed their whole course of life. Would it have paid? Please show this item to some of your neighbours, who have perhaps not thought of this matter, and invite them to try this or some other good journal for the present year. You may do them a positive good by such a hint.—*American Agriculturist.*

Care of Young Chickens—Young chickens are often injured seriously by being exposed to heavy dews and rains Until they are a month or six weeks old, chickens should not be permitted to range in the wet grass in the early morning, and they should never be left out of the shelter of the coops on a stormy day. Those who have watched the lives of these tender creatures have observed the importance of this advice, and will take care that the young birds are kept out of the wet weather. We cannot too often or too persistently insist that great care should be taken in this respect if you wish to keep your young chicks free from sickness. Dry and clean quarters with good feeding and plenty of pure water and a supply of fresh green food where a grass run is not practicable, will insure you fine, healthy chickens

Fancy gauze veils are worn.

Linen parasols are fashionable.

Overskirts lapped diagonally in front are very popular.

Dresses closed in front and buttoned in the back are gaining in popularity.

New black lace sacques are made in points with lace edgings falling from beneath them.

Fashionable hats are those of moderate size which flare at the top of the head and bend down toward the ear.

The richest and most elegant grenadiens are satin-striped—the stripes vary in width from half an inch to an inch and a half.

Japanese fans are very popular again. They come in blue, red and black, and are the most convenient besides being the least expensive of any worn.

Among other dresses in a recently imported bridal *trousseau* was an exquisit morning robe of cream-coloured cashmere trimmed with silk and cashmere lace and a white muslin *négligé* costume embroidered and trimmed with small square bows of ribbon, in two sashes of blue.

A pretty hat is of white straw neither bound nor faced, but trimmed with deep pink *grec grain* ribbon twisted around the crown with a fall of lace and very long streamers in the back. A delicate willow tip droops over the crown from the left side and small pink flowers form the trimmings.

Exquisite costumes are made this summer of coloured grenadines and floriate gauzes These are generally worn over a silk foundation of silk slips For this purpose American silk is used, which costs from one to two dollars a yard according to quality. The gauze sells at from two to five dollars a yard.

A simple but exquisite reception dress is of silk and cashmere in a soft brown color suitable for a blonde complexion. The skirt is made with a narrow box-plaited flounces headed with a bias, one bound top and bottom, and laid in three knife plaits, one just over the other, having the lower edge facing and the upper one caught down between the plaits. The overskirts is without any trimming, simply being hemmed around the bottom and caught up on the right side in plaits under a long silk pocket, back of which it is also draped a very little. A sash of knife pleated silk pastes from the seam in the back to one on the left side. Three rows of buttons are placed on the back from the neck to the sash.

DR. WILLIAM GRAY'S

Before Taking. After Taking.
SPECIFIC MEDICINE
Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcholic spirits; but the Special Medicine is more especially recommended as an amazing cure for Sexual Weakness, Spermatorrhœa, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Diseases of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and self-indulgence.
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.
The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by addressing

VINEGAR BITTERS

WHEREAS Invalids and Drunkards proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
Reflect, you can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and more fatally so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is especially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.
Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.
Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

F. LANE & Co.
Respectfully intimate to the citizens of the County of Peterborough, that they have taken the premises recently occupied by Dr. BELL, on George St., and opened out a
NEW STOCK OF PURE DRUGS
Chemicals, Patent Medicines, Toilet Articles, Dye Stuffs, Oils
Paints, Lamp Goods, Coal Oil, and everything usually kept in a first-class Drug Store. We have also on hand Whisky, Port Wine, Sherry Wine, Pure Pittsburgh for Lithotrizing purposes, all of which will be sold at moderate prices. We will not be undersold, and are prepared to sell
SPECIAL INDUCEMENTS TO PHYSICIANS.
Having had a thorough practical experience in the business, we can guarantee that all orders entrusted to us will be carefully executed, with efficiency and promptness, and the best of attention paid to the wants of our customers. We have had the premises newly painted and refurnished throughout, and have spared no expense in order to make it attractive a Drug Store as can be found in the District. SPECIAL INDUCEMENTS TO PAINTERS, JOBBERS, AND SMALL DEALERS. We therefore solicit a call, and respectfully ask a share of the patronage of the public.
Sign of the 2 Mortars, Next Door to Bateman & Dale's Hardware Store, George Street.
Peterboro, May 24th, 1876.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* The hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands decayed and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Burnett's Extracts
The superiority of these Extracts consists in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the fashionable fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used.

Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no [illegible] medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but effectual purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any [illegible] who have used it, know that it cures their neighbors and friends, and all know that what it does cure it does always—that is never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—
For *Dyspepsia* or *Indigestion*, *Listlessness*, *Languor* and *Loss of Appetite*, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For *Liver Complaint* and its various symptoms, *Bilious Headache*, *Sick Headache*, *Jaundice* or *Green Sickness*, *Bilious Colic* and *Bilious Fevers*, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For *Dysentery* or *Diarrhœa*, but one mild dose is generally required.
For *Rheumatism*, *Gout*, *Gravel*, *Palpitation of the Heart*, *Pain in the Side*, *Back* and *Loins*, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.
For *Dropsy* and *Dropsical Swellings* they should be taken in large and frequent doses to produce the effect of a drastic purge.
For *Suppression*, a large dose should be taken as it produces the desired effect by sympathy.
As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

GENERAL

AGENTS WANTED.

Agents Wanted in every Township in Ontario to sell the famous Prize Medal Organs Manufactured by the South American Organ Co. and George Stock & Co's Pianos.

Special Inducements will be given to first class agents and sales of three or four will be purchased.

Any number of testimonials in favor of these first class organs can be furnished, but as they are to widely known—great numbers having been sold throughout the Dominion, and having given satisfaction in every instance—it is unnecessary, however flattering one may be their reputation

The Stock Piano Company received the only gold medal awarded to any exhibitor of musical instruments at the Vienna Exposition of 1873.

Churches requiring organs will be liberally dealt with. Style 32, South American, we would call attention to as being especially adapted for churches and halls, in proportions are grandeur and its musical qualities are unsurpassed. The grand organ stop gives the player facilities for various and splendid effects, the stop can be used so as to closely imitate the volcan of tone from a whisper or can fully bring forth all the power of the instrument in a burst of harmony

Pianos and Organs furnished Wholesale and Rete from any of the first class American manufacturers

Circulars and price list sent free on application
A. M. DARLEY,

Select Poetry.

A Sermon for Young Folks.

Don't ever go hunting for pleasure,
They cannot be found 'mong the flowers;
Nor yet fall a-digging for treasure,
Unless by the spade find the hoe.

The bee has to work for the honey;
The drone has no right to the food;
And he who has not earned his money
Will get from his money no good.

The nest builds her house by her labors;
The squirrel looks out for his nuts;
And he who depends on his neighbors
Will never have friends. first or last.

In short, 'tis no better than thieving,
Though tidied in a hard name to call,
Good things to be always receiving,
And never to give back at all.

And do not put off till to-morrow
The things that you ought to do now,
But then, set the shoulder your forever,
And throughout your hand on the plough

MILK FEVER.

BY A. D. FOSS.

The month of July is a critical season for cows that are coming into milk, especially for those advanced in years. It therefore behooves those with such stock to be watchful in the care and habits of such cows to ward off the destructive malady. The old axiom that an ounce of prevention is worth a pound of cure is applicable in milk fever. Causes that are fruitful in producing it are full feed, exposure from excess of heat, sudden chill from drinking too much cold water, a drenching shower and lack of a needed supply of water to drink, which suppress important changes in circulating fluids in the system about the time they are turning to flow of milk. It often happens after cows are turned to pasture that they calve far away from water and will not leave the calf until it will follow. The cow then being diseased by thirst, on reaching the water drinks too much, or if separated from the calf she may worry herself in the heat to over fatigue and cause depression of the nervous system, all of which may be avoided by judicious treatment.

To prepare the system of the cow for the changes that must take place at parturition, care is necessary. It may be done by taking four quarts of blood from the neck a day or two previous and administering a half pound of salts with one teaspoonful of saltpeter dissolved. This course will prevent a morbid condition of the system and may be a means of preventing an attack of the fever. By all means keep the cow from excess of heat or excitement, and do not ever feed either before or after parturition. After being four or five days in milk, her feed may be increased with her full flow of milk.

TREATMENT OF THE DISEASE.

The most virulent type of the disease is manifest in the attack by a wild, glaring look, high, excited movements of the head, irregular, giddy steps, and no apparent loss of strength until the cow falls in a convulsive fit; which lasts but a few moments. If the arterial circulation is not impended she rises and dashes about wildly till prostrated by another attack. In this type of disease I have found by immediate post mortem examination from the first fit, the blood in the large arteries extending under the back to the udder, so clotted as to be drawn out of the arteries like a rope. In this state, bleeding would be followed by death. So would any other prescription. It is in this type of the disease in its advanced stage that bleeding is found to be an untrustworthy remedy. But the chances are in favor of bleeding if the arteries are not already clotted No time should be lost in applying the lancet at the first symptoms described. Administer at the same time an active purgative, followed by opodeldoc and mix — if wanted [illegible] obstinately once in two hours with a half gallon of water with each dose. A dose should be twenty times larger than for an adult person, and so continued until the fever abates.

APOPLECTIC TYPE.

Another type of the disease is marked by lassitude, a staggering gait, falling with inability to rise; soreness of limb, cold extremities, dull eyes, and insensation to move or groan around her. She inclines to lie prostrate on her side for want of strength to lie in a natural position, indicating a general prostration of the nervous system with a moderate, dull circulation. Although this type of the disease is not so immediately dangerous as the former, it requires thorough administration of remedies, and constant care to keep the patient lying in a natural position, while the remedies given are working in the system. A well cow will die from lying on her side in eight and forty hours. So the fat of the sick cow is often fixed by neglect in cow when she cannot care for herself.

There are but few cows, after having been to grass a few weeks, that do not require bleeding in an attack of milk fever in any form. It has been my practice, attended with good success, to first bleed in nine ounce out of ten, from four to eight quarts, according to size and condition of the cow, dissolve one pound of epsom salts and one-half ounce of saltpeter in two quarts of lukewarm tea of good strength and give it a dose; in two hours after, give two ounces of laudnum, with a gallon of water, and repeat the laudnum and water once in two hours till eight ounces of laudnum be given; no other medicine should be given to counteract those given, which are found sufficient to carry the patient through from a very severe attack. After the first administration of bleeding all physic, laudnum and water are relied upon to raise the patient, which requires from twelve to forty-eight hours. When she rises, exchange the medicine for nourishing diet. In bleeding the strength and condition of the patient should be duly considered. If in low conditions and the pulse is weak and wavering, do not bleed, but give physic and stimulate with laudnum as directed. If in high condition, with quick, wiry pulse, lose no time in drawing blood, being always watchful of the pulse, and stop the blood if irregular beats are observed to increase by the flow of blood. If the pulse grows stronger on the flow of blood, do not be afraid to take from eight to ten quarts from a large strong cow. After bleeding largely, do not neglect to administer water freely, because it passes through the system, and carries the medicine with it and induces a flow of milk.—Ohio Herald.

D'ARCY McGEE'S WIT.

Two Good Stories.

"Not many years ago," said Thomas D'Arcy McGee only a few days before he was so foully murdered, "there was a jolly bishop of Newfoundland, a good fellow who knew what it was to have a good liver, and he concluded a trade about a piano with a Scotch dealer. After much haggling and bargaling, he which the bishop got about two-and-sixpence the better of the bargain. When the doctor came to send home the piano there was no vehicle big enough to carry it but the hearse, in which he sent it up to the episcopal palace, to the good bishop's great sorrow. 'Why did you select such a vehicle?' Didn't you think it was profaning the dead?' he asked of the doctor. 'Well, no,' answered the doctor; 'I just sent it yo in the hearse because yo got it for a dead bargain.'

The ruling passion of bull-making strong in death, or its near neighbourhood, was strongly illustrated in another story McGee was fond of telling—that of two Irishmen who were strolling along the docks of Liverpool, pessimism and without any prospect of earning money. Of a sudden, however, 'Presently they came upon a [illegible]

Royal Humane Society.
[illegible]
£1 10s.
[illegible] to-day?
[illegible] said Dan. 'Why, you see, that?
[illegible] Mike, 'I'll tell you. [illegible] to be a pound a piece.' 'Agreed,' said Mike; [illegible] and they both jumped in. Dan [illegible] to the [illegible] But the [illegible] had fallen in [illegible] and [illegible] Mike [illegible] [illegible] [illegible]

Peterborough Examiner.

PETERBOROUGH, JULY, 13 1876

THE ONTARIOS.

On Wednesday last the elections in South and North Ontario were held, and both the Gibbs' were elected. T. N. Gibbs by the majority of 43, and W. H. Gibbs by the majority of 86. The results were somewhat expected. In South Ontario, Mr. Edgar, the reform candidate, was a Toronto Lawyer, and hence an outsider. Mr. Gibbs was a wealthy popular local man, with large business connections and high social position, so that his election did not so much depend on political principles as on personal standing. Mr. Cerrie in the North Riding was a local man, it is true, and highly spoken of, but the absence of organization among Reformers is said to have been very apparent, and to such a degree that a large vote was left unpolled. These defeats may be advantageous if they lead to more united action or thorough organization in the province. We have had to urge this on our friends for many years, and when our advice was accepted, the result was never doubtful. We would, therefore, again point to the Ontarios, and urge that the lesson may not be in vain.

The Opposition press will make great ado about Conservative reaction, etc. This is all to humbug the unwary and less thoughtful. On the very same day, Mr. Guthrie, a Reformer, was elected for South Wellington by 138, and against a Reformer, Mr. Goldie, also popular, but who differed from his opponent on the question of tariff or protection. Hence the gain is so small and trifling that no one need be elated over it, as in a house giving Mr. McKenzie a majority of from 50 to 70, two votes are of little moment. Let Reformers accept the result graciously and arouse to action and organization. Protection and free trade questions may lead to gains or losses, but these are not likely to be the questions at the next general election. He that comes round protection theories will have exploded, having spent themselves on the air. More sober reflection will have convinced the people that if they desire protection, Mr. McKenzie has given them 17½ per cent. instead of 15 per cent., as under the Hincks tariff arrangements. The failures in the United States, Great Britain, and on the Continent, will have spent themselves, and a return of better times will also have demonstrated the utter fallacy of the arguments of Protectionists and Opposition ists, and then the people will give a verdict unmistakeably in favor of good government and an honest discharge of public duties.

The present imaginary gain to the Opposition will be found like all their inflated ideas of the return of John A. Macdonald to power. His glory is departed. He can never again hope to attain the confidence of the people of the Dominion.

WATER WORKS.

The question of Water Works is again coming forward. A meeting of Citizens was held in the Council Chamber, on Tuesday evening, to consider the matter, and to advise the Council as to what should be done to secure water for fire and culinary purposes at an early date.

The Mayor occupied the chair, and explained the object of the meeting, and urged the immediate action of the Council under the Water Works Act. He thought $15,000 or $20,000 might be expended this year, and this could be followed up next year until the works should be completed.

Mr. Romaine, Mr. Clarkson and Mr. D. Lemay, urged the speedy undertaking and completion of the works so as to secure pure water for domestic and culinary purposes, as they held there was no pure water in the centre of the town.

Messrs. Stevenson, Hazlitt, Stratton, and E. Burnham, wished to have a report as to costs of what was proposed, and said, that if the Council should attempt to proceed under the new Water Works Act, it would be strenuously opposed.

Mr. Stratton advised the submission of a motion, as discussion would be useless unless a motion were carried.

Mr. Romaine, seconded by Mr. D. Lemay, moved that Water Works, for fire and domestic purposes were desirable, and that the fire and gas Committee proceed to expend $20,000 this year.

Mr. Stratton, seconded by Mr. Hopkins moved for a Committee consisting of Messrs. P. Hamilton, Jas. Hall, J. J. Lundy, Walter Patterson and Geo. A. Cox, to report as soon as possible on the cost respectively of Water Works for fire purposes and for culinary uses, from the Dixon property and also from the Hilliard Mills.

Mr. P. Hamilton moved, in amendment to the amendment, that Water Works were desirable provided they could be obtained for not more than $30,000.

After an irregular discussion by Messrs. Clarkson, Romaine, Heslit, Stevenson, the Mayor, P. Hamilton and Stratton, the amendment was carried and a Committee appointed to report to a public meeting as soon as possible.

The matter will soon be before the people again for its final fiat.

ARE WATER WORKS DESIRABLE?

If this is the question that ought to be

...nside the test question at the meeting. The answer is easy given. They are desirable if they do not cost too much. It is a matter of dollars and cents and two comparative advantages; a report will bring these two questions before the people.

Shall they be constructed under the Water Works Act?

The majority of the people say emphatically, no. The Act is too arbitrary and expensive.

A THIRD QUESTION.

Is, who are to be commissioners? The Ratepayers want no selfish, speculative, extravagant Commissioners. They desire men of common sense, not counsellors, and yet when accounts can be audited and laid before the people. It was signalized at the meeting, that our best men don't come to the front as Councillors, Commissioners, etc. This may be so, or it may not. But at the risk of being accused of naming Commissioners as well as Committee, we will suggest some good names for Commissioners. Going Southward, we may suggest the name of William Wrighton, John Bertram, Esq., M.P., J. J. Lundy, Geo. Stothem, Richard Hall, John English, and Peter Hamilton, any three of these would meet the approval of the citizens and from the public knowledge of their past conduct would be a guarantee of economy and honesty in the discharge of their duties.

There are other gentlemen in town no doubt, who would make excellent Commissioners, but none would be more cordially approved of than those above referred to.

The cost, however, must be known before submitted to the people. It must also be known to whom the construction and management will be intrusted, and under what power, or in what manner they intend to raise the money.

When these things are definitely settled the people will be prepared to vote on the matter. The desirability of Water Works all admit. The costs thereof some do desire to keep out of the control of extravagant, speculative men

OBITUARY.

On Friday last Charles Perry, Esq., died suddenly at his residence, of apoplexy, it is said. Up till a few days previously he had been in his usual health, and, apparently, promised to live many years. He was in his 57th year, we believe, and was a comparatively young man. He was son of the Hon. Ebenezer Perry, of Cobourg, who was long well known in the New Castle district. The family is one of the old U. E. loyalists who came to Canada in its infancy, so as to be under British constitutional government. The subject of this sketch came to Peterboro' about 40 years ago, and for many years carried on the mercantile and lumbering business. In his early career he was a warm and earnest Reformer, and did good yeoman service for that party against the old family compactism that blighted the early history and interests of the country. Time wrought its changes, however, and for the last twenty years he attached himself to the Conservatives. In 1864 he contested the county against Col. Haultain but was not successful. In 1867, on the occasion of the confederation of the Dominion, he was again a candidate as a "no party" man but really as a Conservative and was successful against John Gordon, of Toronto, and retained his seat till the end of that parliament. When by the death of Thos. Fortye, Esq., a vacancy occurred in the collectorship of customs, to which he succeeded by appointment. He was mayor for several years and was esteemed as chief magistrate for his impartial and social qualities. His decease was quite unexpected and the bereaved family have our warmest sympathies under the severe stroke. His funeral took place on Saturday and was largely attended. The shops being closed as a mark of respect.

JAMES BYRON DIXON, ESQ.,

Principal of the Collegiate Institute and Public Schools died on Sunday morning, at 10 o'clock, of pulmonary diseases, after an illness of about two years. He was 42 years of age at his decease. He had been about nine years principal of our schools, in which capacity he had endeared himself to all his pupils and to a large number of citizens. He was generous and forgiving to a fault, an excellent principal and teacher, having few equals in Ontario and no superiors while in health, and by his industry had brought the educational interests of our town to a high position. But it was decreed that his useful life should not be prolonged to old age. The duties and cares of a large establishment were more than he could long sustain. Lung disease began its sure work, which ended in removing its victim at the early age referred to. His remains were interred on Monday. "Thus one by one they cross the river."

THE EASTERN QUESTION.

Reports gain currency that the Servians have suffered a defeat and are suing for peace. The very uncertain nature of Telegraphic news from Turkey forbids attaching much importance to first rumors. The latest telegrams will be found below.

RAGUSA, July 11.—Turkish advices received here state that an engagement had occured at Podgovitza between two battalions of Turkish regulars, assisted by volunteers, and 5,000 Montenegrins. The latter were driven from their fortifications, losing 400 and 400 wounded, including 30 officers. The Turkish only lost 36. Reuter's Telegram Company has a Scutari despatch, however, stating that firing was audible throughout Monday. The Turks in the neighbourhood of Podgovitza endeavoured to re-open the road to Medun. The attempt apparently failed. There was fighting throughout the day at Kazmits, on the west of Lake Scutari. The Turks suffered considerable loss. Many of the wounded are arriving at Scutari.

BELGRADE, July 11.—A Turkish gunboat has bombarded Movcosio, which was previously captured by the Servians. Some houses were ignited.

It is officially stated that the Servians have captured little Sevvernia. The defenders, consisting of three battalions of regulars and large forces of Bashi Bazouks, lost 200 killed and many wounded.

VIENNA, July 11.—The *Press* says it was agreed at the Reichstadt interview to close the harbour of Klek immediately against leading Turkish troops.

PARIS, July 12.—The *Temps* says the Russian Ambassador and General Ignatieff Constantine had an interview with Thiers to-day. What then transpired shows that Russia is determined to uphold non intervention and endeavour to induce Turkey to exercise moderation when her honour is satisfied by some important triumph.

ROME, July 11.—The Foreign Minister replying in the Chambers to an interpellation relative to eastern affairs, said the confirmation of the principle of non-intervention at the of the Ambassadors' interview strengthened the guarantees for the maintenance of peace between the Great Powers.

STONEMASON.

COURT OF REVISION.

MONDAY, May 29th.—The Court met. All the members present, who separately took affidavit as required by statute. On applications made, the following changes were made in Roll: Village lots 29 and 31, Allandale Place, on Resident Roll to William Edwards and marked off Non-Resident Roll. Four acres, part of west half lot 29, in 7th concession, assessed to John instead of William Edwards. Village lot No. 13, B. P. Rane, assessed to Charles Herrison instead of William Lang. East half of village lot No. 29, B. P. Rane, assessed to Charles Davis instead of Daniel Burgess. West half of lot 21 in the 6th concession, assessed to James Lang, sen., and jr., instead of James Lang, sr. Five acres of southwest corner of east half lot 21 in 12th concession, placed on Resident Roll to Edward and Peter Clancy and marked off Non-Resident Roll. Part lot No. 4, part of east half lot 26, in the 13th concession, placed on Resident Roll to Edward Clancy and marked off Non-Resident Roll.

APPEALS HEARD.

J. Hall, overcharge on hand, reduced,			$200
A. Campbell, jr., " of p. p.,	"		2,500

A. J. VanIngen,	"	"	100

Roger Reid, Edward Reid and Michael Hatrick appealed but did not attend Court. Their assessments confirmed. The Roll was then passed and the business of Court terminated for 1876.

COUNCIL MEETINGS.

Council met after Court of Revision business was disposed of. All the members present. Minutes of last meeting read and confirmed. On applications made the following orders were passed in regard to Statute labor of current year, viz: John Grady and Gabriel Learmouth allowed to do their labor in division No. 8; Thomas and Andrew Esson theirs in No. 33; Jas. Bennet and Ed. Emmerson theirs in No. 66; James Hall, his labour on boundary road opposite 7th concession; Andrew and Wm. Lamsden allowed their labor for improvements made on road by them; David Crowley, overseer, allowed to purchase two stone hammers for use of division No. 68; Chas. Edwards allowed to commute his labor for three years; Peter McNeil appointed overseer of division No. 39, instead of James Buchanan; parties residing on northeast half of lot 12, in 7th concession, allowed to work in Rane Division; Wm. Lang, Esq., appointed overseer of Keene Division, Wm. Healey applied for payment of work on Douro boundary road. Council decided this matter should be settled with Douro Council. The Treasurer was directed to pay Mrs. Mitchell $3.00 for cedars. A by-law to divide the Township into ten divisions for public pounds; to fix the compensation of poundkeepers; to declare what animals may not run at large, and to impose penalties, was introduced and passed after the usual readings.

The Clerk was directed to notify the Trustees of sub sections No. 1 and 3 that the Council intend to place east half of lot 22 in the 3d concession in School Section No. 1 instead of No. 3. Council adjourned to 12th June, 1876.

MONDAY, June 12.—June Council met pursuant to adjournment. All the members present. Minutes of last meeting read and confirmed. On applications made the following orders were made in regard to Statute labor of current year: John Lynch allowed to do his labor in division No, 57; John Borland, William and John O'Leary to do their labor on road between 3rd and 4th concession; James Fitzgerald allowed to commute his labor for three years, when done Mr. Girvan to certify the same; Richard and Samuel Stewart, Patrick Y. and Patrick and Michael Crowley allowed to do their labor on River Road, or as directed by Richard Stewart; G. Esson appointed overseer of division No. 26, instead of David Nelson; James Gillespie allowed to do five days of his labor on road between 12th and 13th concessions. The Reeve presented and read an application from Trustees of Union School No. 9, Otonabee and Douro, for authority to borrow $551 75 for the purpose of building a new school house in said section. Application received and By-law ordered to be prepared granting the authority asked. Council read Dr. Harrison be paid $6.00 for thirty-six feet of cedar, covering of the ditch opposite his place, when completed. The allowance of $4.00 per week for relief of Hugh McManus to be discontinued after the 19th inst. Council adjourned to 17th July next.

BELMONT.

The Rockdale Evergreen Lodge, of the United Temperance Order, held a public temperance meeting at their Lodge room, Mount Zion School House, Belmont, on Wednesday, the 28th June, which was very successful. After singing the opening ode, the Rev. H. Wilkinson offered an appropriate prayer, when W. E. Young, Esq., was called to the chair. The Chairman, in a few well chosen remarks, expressed the pleasure he felt in being present, and the necessity of Temperance lodges, and the advantages they were to the neighborhood in which they were situated. Able addresses in favor of temperance were delivered by Bros. Meikle, Mack and Rev. H. Wilkinson, of Blairton. The following pieces were sung: 'Greeting Song,' 'Away the Bowl,' 'Ply the Oar, Brother,' 'Speed the Happy Day,' 'We will Crown Thee with Roses,' 'Sound the Battle Cry,' 'The Temperance Ball is Rolling,' by an efficient choir composed of three sisters. Young and Bro. Thornton, of Rockdale Evergreen Lodge, assisted by Bros. Mark and Meikle, of Blairton, in beautiful style. Recitations by John Nixon, Jane Youmans and Louisa McGinnis; reading, by Sister Preston and Bro. Thornton; dialogues, 'The Crooked Tree,' 'Fashionable Dissipation,' 'The Pump and the Tavern,' 'Schoolmaster Abroad,' 'Much Ado about Nothing, 'Charlie and the Giant,' 'The Hoyden,' and 'Shall We Keep Liquor at Home?' were all done so well it is hard to draw comparisons; but in dialogues Sisters Wiggins, Youngs and Bonar and Bros. Nixon and Thornton, acted their parts splendidly. After a vote of thanks to the Chairman for the able and efficient manner in which he discharged the duties of Chairman, the meeting was brought to a close at a late hour by singing 'God Save the Queen,' with a hope that it would not be long before there would be another Open Temple at Mount Zion School House.—Com.

A Show Worth Seeing.

PETERBOROUGH TO BE INVADED.

1,000 Men and Horses—2,500 Wild Beasts—One mile of Chariots, Cages, Dens, Vans and Barouches—Five Trained Elephants—A Herd of Camels—10,000 Pound Rhinoceros—A Double Circus.

On Wednesday, July 19th, Peterboro' is to have a first-class entertainment, in the shape of Van Amburgh & Co's Menagerie, Front's Roman Circus and Royal Colosseum, which will give two grand exhibitions on the afternoon and evening of the day mentioned. Everybody knows who Van Amburgh & Co. are, and that for more than half a century they have owned the largest and finest exhibition in the country, known in every State in the Union, and have pleased and entertained millions of people.

Van Amburgh & Co. do not travel by rail, but move over the highways, with one thousand men and horses and are obliged to halt and exhibit at towns and villages where very inferior exhibitions seldom come, and such as Van Amburgh's not once in a lifetime. Travelling as they do, independent of railroads, the people of all the small towns and villages will be enabled to visit this stupendous show without being put to the trouble and expense of going to a distant city for the purpose, and Van Amburgh & Co. earnestly invite the manhood and womanhood, and everybody along the route, to look at the appearance of their 1,000 horses, the cages, harnesses and all their accessories and if they do not think Van Amburgh & Co. bring here the greatest and grandest show that ever was seen in this section of the country, then they say 'do not patronize us.'

Its special features are a 10,000 pound black rhinoceros—the only one in the country—a drove of elephants, a herd of camels, trained lions, tigers, panthers, leopards, zebras, etc., 2,500 beasts, birds and reptiles. There is also a double Circus held in a tent removed from the Menagerie tents, so that the most rigid Christians may visit the Menagerie and neither see or hear anything relative to the Circus. One price and ticket admits to all the tents, and it is at the visitors option to visit the Circus or not.

A grand parade will usher in the festivities of the day. It will consist of several hundred plumed horses, a mile of gilded chariots, cages, dens, and pageformers in line on horseback in oriental costume. A magnificent chariot, drawn by twelve Arabian horses, and containing a royal military band of sixteen pieces, will enliven the scene. All in all, it will be the grandest gala day this section of the country ever had, and to all our readers they say, don't fail to see this great show of Van Amburgh & Co., which will surely be here Wednesday, July 19th, 1876. 1 in

The Baptist ministers of Boston are having a lively time in the discussion of the amusement question, and also the question of the rightor wrong of church fairs. The young people of all the churches are now exerting considerable influence on the elders toward a relaxation of some of the old and stringent rules which used to make life a misery. Somebody introduced a resolution in the Methodist Conference at Baltimore the other day to the effect that Methodist Church members ought not to allow dancing in their houses; but nobody had any idea that such a resolution would prevail in the Conference, or that any great number of Methodist householders could enforce it if it should.

A BIG HAUL.

$250,000 FISHED OUT OF CHIPPEWA CREEK

(*From the Welland Telegraph.*)

We have been credibly informed that on Sunday, the 18th of June, a couple of gentlemen arrived in Port Colborne and called on Mr. Hep, diver, in the employ of Chas. F. Dunbar, contractor, and told him they wanted him to accompany them to a certain spot on the Chippewa Creek and there dive for something, for which service he would be well rewarded. He acquiesced in their wish, and while he was getting his diving apparatus ready, Mr. Abesault, a butcher of Port Colborne, was persuaded to go also with his wagon and take the diver and his equipment. They followed their employers to a point on the creek near Candasville, and work was then commenced. A large piece of cork, with a powerful magnet attached, was floated out on the water, and after a short time rested at a given point. The diver then put on his dress and walked in, taking with him a spade. After a little search a strong iron chest was discovered imbedded about two feet in the bed of the river. A strong chain was put around it and with much difficulty it was dragged ashore. The chest was about eighteen inches square by two feet long, and was one mass of rust. The two gentlemen then put the treasure into their buggy and drove to Fenwick, followed by Hep and Abesault; while there the latter overheard the others remark that the chest could not contain less than $250,000 in gold. After a little refreshment the men were paid off returning to Port Colborne, while the two strangers drove off with their treasure in another direction, their destination and names being unknown. It will be remembered by some that immediately after the Stoney Creek massacre in 1813, the Americans retreated to Chippewa Creek, and got in a boat to flee for the other side (there being no aqueduct across the creek at Welland as now), and were overtaken by the British troops and the boats burnt, and the supposition is that this treasure was then in the boat, and was either thrown overboard on the approach of the Englis or sank with the boat, most probably the former and has lain there ever since, some sixty-four years.

The above are all the particulars we have learned in connection with the affair save that several old settlers have from time to time grappled for a box which it was rumoured was lying in the bed of the river, and contained immense wealth, being left there by the Americans when they fled before the English in 1813.

For the Examiner.

(Lines composed in the field upon a little bird flying off her nest, where I was cutting thistles.)

I stood prepared to strike the blow
And lay the prickly thistle low;
When beneath its prickly shade
A little bird great fluttering made.
I looked beneath its sheltering crest,
And there beheld her simple nest;
Five little birds, but feathered not,
Scarce months, I could see down their throats.
Brown warbler of the field and wood,
Fear not, I won't disturb thy brood.
Don't chirp and flutter o'er the ground,
Remember that I your nest have found.
I know parental instinct bears
You to this quiet, secluded spot,
To build your little nest of straw,
Where no harm from would you meet;
Here did you build, with little fear,
And thought not I would find you here.
The dart of dread soon pierced your breast,
When you beheld me near your nest.
Fear not, sweet songster of the grove,
I know the power of parent's love;
I know thy love by signs expressed,
The mother-feelings in thy breast.
Your young, nor nest, I want to destroy,
Nor show them to my little boy.
Less he should steal them from your care
And leave you mourning in despair.
Sound not thy grief-notes: mount on high,
No foe is here—a friend am I.
I know the love your instinct bears,
And how my presence swells your fears.
O come back quickly to your brood.
Their mouths are open for their food.
It grieves me thus so near I drew.
This hapless grieves for a bird like you.
I leave the spot without consumed,
The thistle for your good shall stand.
To shield you when the sun shines bright,
Until your little brood takes flight.

WM. TELFORD.

Smith, July 5th, 1876.

NEW ADVERTISEMENTS

MORTGAGE SALE

OF

VALUABLE REAL ESTATE.

IN THE

TOWNSHIP OF HARVEY.

In pursuance of a power of sale contained in a mortgage, which will be produced at the time of the sale hereof, there will be offered for sale

BY PUBLIC AUCTION!

by Charles Stapleton, Auctioneer, at the

"STEWART HOUSE,"

in the

Town of Peterborough

on

TUESDAY, the 29th Day of AUGUST Next, 1876,

At TWO O'CLOCK in the Afternoon, the following valuable properties, namely:

The East Halves of Lots Nos. Nine and Ten,

Both in the Tenth Concession of the Township of Harvey, in the County of Peterborough, save and except One Acre off the South-east corner of said lot Number Ten, granted for a school site.

The said is said to be heavy and stony in parts. Forty acres, or thereabouts, are cleared and balance covered with cedar, hardwood and hemlock. It is partly fenced; the buildings are log.

The properties will first be put up en bloc lot, and if they do not bring the reserved bid they may then be put up in two lots.

TERMS.—A portion of the purchase money will be required down, and the balance can be left on mortgage on the land, payments to become made known at time of sale. Other conditions will be made known at time of sale. There will be a reserved bid.

For further particulars apply to

Cornwall Canal Enlargement

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the Secretary of Public Works, and endorsed "Tender for Cornwall Canal," will be received at this office until the arrival of the Eastern and Western mails, on WEDNESDAY THE EIGHTH DAY OF AUGUST NEXT, for the formation of a new entrance—south of the present one—at the lower end of the Cornwall Canal, embracing the construction of two Lift-locks, Waste-weir, &c.

The Works will be let in six sections, as indicated on the map of that part of the line, which, together with plans and specifications of the various works, can be seen at this office, and at the office of the canal superintendent, Cornwall, on and after FRIDAY the SIXTH DAY OF JULY (INSTANT), at either of which places printed Forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupations, and place of residence of each member of the same; and further, an accepted bank cheque, or other readily available security, for the sum of FOUR THOUSAND DOLLARS, must accompany each Tender, which shall be forfeited, if the party tendering declines or fails to enter into contract for the works when called upon to do so, at the rates named in the offer submitted.

The cheque or money thus sent in, will be returned to the respective parties whose tenders are not accepted.

For the due fulfilment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent. on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This department does not, however, bind itself to accept the lowest or any Tender.

By Order,
F. BRAUN,
Secretary.

BY-LAW NO.—

A BY-LAW to provide for the issuing of Debentures to the amount of Three Thousand and Five Hundred dollars for the purpose of erecting a new School Building, in the village of Ashburnham, and to provide for the payment of the principal and interest thereon, and to repeal By-law Number Fifty one of the said municipality of Ashburnham.

WHEREAS the Public School Board of the Municipality of Ashburnham require enlarged School accomodation for the said Municipality and have determined upon erecting a new School Building therein and have notified the Council of the said Municipality to provide the necessary funds therefor.

And whereas for such purpose the amount required will be the sum of Three Thousand and Five Hundred dollars, and it will be necessary for the said Municipality to raise the same by the issue of Debentures of the said Municipality to that amount in the manner hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality of Ashburnham irrespective of any future increase of the same according to the last revised assessment roll of the said Municipality (being that for the year 1876) is the sum of Three Hundred and Fifty-one Thousand two Hundred and seventy-five dollars.

And whereas there is no existing debt of the said Municipality of the Village of Ashburnham, either for principal or for interest.

And whereas it is desirable to make provision for the payment of the said Debentures and the interest thereon within fifteen years from the day hereinafter appointed for the coming into force of this By-law.

And whereas it will require the sum of Four Hundred and Forty three dollars and thirty three cents to be raised annually during the said period of Fifteen years by special rate on the whole ratable property of the said Municipality for paying the said sum of Three Thousand and Five Hundred dollars and interest thereon as hereinafter mentioned.

And whereas for paying the interest of the debt hereby created, and creating an equal annual sinking Fund sufficient for the payment of the principal of the said debt it will require an equal annual special rate of one mill and twenty seven hundredths of a mill on the dollar in addition to all other rates to be levied each year on the whole ratable property of the said Municipality.

And whereas the Municipality of the said Village of Ashburnham heretofore by By-law Number Fifty one of the said Municipality provided for the issuing of Debentures for the raising of the said sum of moneys for the purposes above designated, but owing to the said By-law providing for the issue and redemption of such Debentures under the two hundred and fiftieth Section of the Municipal Act the said Debentures could not be disposed of to advantage and none of the debentures thereby provided for having been issued, it is deemed expedient to repeal the said By-law number Fifty one.

The Municipality of the Village of Ashburnham by the Council thereof therefore enacts as follows:

1. That for the purpose aforesaid the Reeve of the said Municipality of the Village of Ashburnham shall cause Debentures of the said Municipality to the amount in the whole of the sum of Three Thousand Five and Hundred dollars, none of such debentures being for a less sum than One Hundred dollars to be sealed with the seal of the said Municipality and to be signed by the Reeve and Treasurer thereof and the said Debentures shall declare on the face thereof the authority upon which the same were issued.

2. The said Debentures shall bear date of the day hereinafter appointed for the coming into force of this By-law and shall be payable in Fifteen years thereafter at the office of the Ontario Bank in the Town of Peterborough.

3. The said Debentures shall bear Interest at the rate of Six per cent. per annum from the date thereof which interest shall be made payable half-yearly on the First days of the months of February and August of each and every year at the office of the said Bank in the Town of Peterborough and such Debentures shall have Coupons attached thereto for the interest to mature thereon from time to time.

4. That for the purpose of paying the debt hereby created and the interest thereon as hereby provided an equal annual special rate of One mill and Twenty-seven Hundredths of a mill in the dollar shall in addition to all other rates be assessed levied and collected in each year during the continuance of the said Debentures upon all the rateable property in the said municipality.

5. That the said recited By-law of the said Municipality of the Village of Ashburnham Numbered Fifty-one and passed on the Fifth day of November A.D. 1875 be and the same is hereby repealed.

6. This By-law shall come into force and take effect on the First day of August, One Thousand Right Hundred and Seventy-six.

7. That the votes of the Electors of the said Municipality of the Village of Ashburnham shall be taken on this By-law on Saturday the Eighth Day of July, One Thousand Eight Hundred and Seventy-six, commencing at the hour of Nine o'clock in the forenoon and closing at the hour of Five o'clock in the afternoon at the following places and before the following Returning Officers, namely—for the North Ward of the said Village at Leahy's old Tavern, Elizabeth Street, John Alexander McWilliams Returning Officer, and for the South Ward at the Town Hall, Jonathan Stevenson, Returning Officer.

8. That the Clerk of the said Municipality of the Village of Ashburnham shall sum up the number of votes given for and against this By-law at his office in the Town Hall in the said Village on Tuesday the Eleventh day of July, A.D. 1876 at the hour of Eleven o'clock in the forenoon.

That the appointment of persons to attend at the various polling places and at the final summing up of the votes respectively on behalf of the persons interested in and promoting or opposing the passage of this By-law respectively will take place at the office of the said Clerk in the said Village on Friday the Thirtieth day of June, A.D. 1876, at the hour of Eleven o'clock in the forenoon.

NOTICE.

The above is a true copy of a proposed By-law of the Municipality of the Village of Ashburnham which will be taken into consideration by the Council of the said Village after one month from the first publication thereof in the PETERBOROUGH EXAMINER newspaper, which said first publication is on the Fifteenth day of June, A.D. 1876, and that the Poll for the taking of the vote of the ratepayers thereon will be held at the places on the day between the hours and by and before the Returning Officers ment

PETERBOROUGH, JULY 6, 1876.

SUMMER UNDER CLOTHING in great variety at T. DOLAN & Co's 21-tf

MR. LEICH has on hand, an excellent assortment of Hats and Caps &c., at low prices.

ONTARIO CLOTHING STORE.—Read the advertisement of the Ontario Clothing Store in this issue; in next we will refer to it more fully.

HAYS.—Go to S. Hymans if you want a stylish hat of the best quality, suitable for the season, and at a lower price than anywhere else in town.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

ST. JOHN'S CHURCH.—We have been requested to state the quarterly collections in aid of mission funds of the diocese will be taken up on Sabbath, 16th inst.

ST. ANDREW'S CHURCH.—The Rev. Professor Mowat, of Queen's College, will occupy the pulpit of this church on Sabbaths the 16th and 23d, inst., morning and evening.

NEW PRINTS.—Mr. Doran is advertising a fine lot of American prints, purchased for cash, which he desires to dispose of at the prices named in the advertisement elsewhere.

BY-LAW.—The By-law for the raising of a certain sum of money for the current expenditure of the village was carried by nine of a majority—there only being nine voting altogether.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

THE WEATHER has been exceedingly hot during the past week; in many places fatal cases of sunstroke are reported. Although there have been several showers, accompanied with thunder and lightning, no abatement of the heat has followed.

READINGS.—We understand that the great elocutionist, Mrs. Jennie Bourne, will give one or two entertainments in town very soon. This will be a grand treat and no one should fail to hear her. The press speaks in the highest terms of her ability.

GOLD WATCH.—The Gold Watch as advertised by Mr. P. D. Doran, to be given away on Dominion Day to parties who had previously purchased a suit of clothes from him, was drawn for on Saturday, July 1st, at his store, at which James Linch, son of Brian Linch, Esq., the holder of the lucky numbers, was the recipient of the handsome watch. We wish to congratulate Mr. Linch on being so fortunate as to secure so valuable a present.

THE 12TH OF JULY.—Yesterday morning the different Orange Lodges of Peterborough and Lakefield Districts, proceeded, some by the steamer Golden-Eye, and others by the Midland Railway, to Cobourg, to celebrate the Battle of the Boyne. They made a very respectable turn-out. They will be joined at Cobourg by the brethren from East Peterborough, at Harwood, and by those of Durham at Millbrook and Port Hope. They will have a gala day.

FOR THE CENTENNIAL.—Before you start, go to Mr. Menzie and purchase your tickets. He is furnishing return tickets from Peterborough to Philadelphia and return by New York and Washington, for about $16 to $17. Obtaining your ticket before you start saves immense trouble on the way. He also supplies tickets to almost all parts of Canada. Before starting any place, call and consult him and get a through ticket, a return one, if you require it. You will save money.

DROWNING ACCIDENT.—On Saturday evening the only son of Mr. Alexander Simpson, of Smith, a lad about 13 years of age, was drowned in the Otonabee River, near Hilliards Mills, while bathing. It appears that he and some other boys had gone in to have a swim, a little above the Island; but young Simpson had ventured in, or was drawn in too far, and caught by the strong current, was soon swept beyond the aid of his associates and drowned. The body was found on Monday and interred on Tuesday.

PERUVIAN SYRUP is a standard remedy for building up and renewing broken-down or nervous constitutions. For dyspepsia, debility, liver complaint, kidney and bladder diseases, or any of the many irregularities of the various organs of the human frame, it is a sovereign remedy. It is a tonic without alcohol. This medicine is too well known already to require any commendation from us. It is only necessary for us to say to those who have never given it a trial that it will accomplish all that is claimed for it.—*Troy Daily Times.* 1ins

ACCIDENT.—As Joseph Walton, Esq., of North Monaghan, was proceeding home on Thursday last from town, his horse took fright and ran away. The pole of the carriage broke in his efforts to control them, and then all became unmanageable. He was thrown out, and falling upon a stone, it is said, received a severe cut on the head, and had an arm broken. We are glad to learn, however, that he is progressing favorably under the treatment of Dr. H. C. Barrett. It is fortunate, under the circumstances, that he was not instantly killed.

"BIG 6."—The Big 6 Combination gave two entertainments in the Music Hall, on Thursday and Friday Evenings last. The several songs and specialities were received with frequent rounds of applause. The performing of the "Big 6" was loudly applauded, the clog dancing was clever. The entertainment concluded with a laughable farce, in which several of the company took part. The first evening the audience was not as large as it would of been on account of the Regatta on Hunter street, to which the Band drew a great many spectators.

PERSONAL.—Mr. R. Innis, of the firm of Hall, Innis & Co'y, sailed on Tuesday for Britain. He is gone for the purpose of making purchases for the fall and winter trade. Messrs. Hall, Innis & Co'y, we understand, are about to extend their business. They have taken one of the new stores being erected by Mr. Nicholls, and intend devoting it to a carpet-room, and to opening a gentleman's furnishing department, and Mr. Innes is now gone to Europe to select stock for this trade. We wish him a pleasant trip, a healthful breeze among the heather, and a safe return.

THE BEST PAPER.—The pressure on our advertising space has attained to such a magnitude that it has been excessively on our news columns, and has compelled us to seriously ask what we are to do to meet this growing demand of our merchants to reach the people through the columns of the EXAMINER. It is pleasing to us to thus know that men of business consider the EXAMINER *the best advertising medium* in the county, and that they freely avail themselves of it. Should it continue increasing, we will be forced to publish a weekly supplement. The popular verdict, however, settles the question of which paper is the best advertising medium.

EASY PLEASED.—On Thursday evening Mr. Wm. Croft and a few boys got up a small subscription and obtained some chips, a few boxes and a barrel or two and got up a blaze, in celebration of the gaining of the two Ontarios. The crowd did not gather freely and they had to ring the fire alarm to get enough excitement to save appearance. At the close of the affair they got a box or table close to Mr Croft's bar-room door, and thus fortified with a blaze in front and tangle-leg in the rear, they had a speech or two on potatoboxs, protection and the license law. What harmless play! "If it pleases he, it don't hurt we."

THURSDAY EXCURSION.—As Mr Calcutt has advertised it so extensively it is hardly necessary for us to draw the attention of our readers to the fact that the new steamer Golden-Eye has commenced to-day her Thursday excursion to Harwood and Gore's Landing to-day, leaving the Peterborough wharf at 8.00 a.m; Ashburnham at 8.10, allowing five hours for fishing and sailing at Rice Lake. This will afford a splendid opportunity for pic-nic parties to enjoy a sail on the new steamer as well as to get away for a day from the annoyance and bustle of business. Meals, boats, &c., can be had from E. Brady, Harwood, and T. Harris, Gore's Landing. The ticket for the round trip is only fifty cents.

WHERE ARE THE FARMERS!—Mr. Ludgate, of Ashburnham, has, this year, planted eleven acres of potatoes, and they are looking well. He has bought one of May's Potato Bug Catchers, and thus does not allow a bug to trouble him. He says a man twice a week can gather all that attempt to enter. We have not learned what Mr. Ludgate intends doing with so many potatoes, but we know that he will be able to turn them to good account, in some worthy manner. He also planted out this year 1,100 trees in the same field and intends having a *bit of* an orchard. All his trees are healthy looking except two or three. Where are the farmers' potato fields compared with his? and after a time it will be asked where are their orchards?

CONSECRATION.—The Bishop of Toronto preached in Ashburnham on Sunday. The Episcopalians there have erected a small church, or rather a building intended to be a Sunday School room when a church may be erected there. The place was well filled, and the sermon a very plain practical one, founded on the words, "What must I do to be saved. Ashburnham and Otonabee have been erected into a parish, and a minister—the Rev. Mr. Bradshaw—has been placed over it. He will conduct services regularly at Ashburnham and Swan's Corners, but we have not learned the complete arrangements. *A series to parlor socials* have been arranged for in Ashburnham, and we believe all the people will gladly aid in removing whatever debt there may be on the present new building.

PROMPT RECOGNITION—SUCCESS TO THE ELEPHANT STORE.—It does not take long for a shrewd, wide-awake community like that of this county, to discover and make use of the bona fide advantages offered in any department of business. While slow to believe all the favorable representations made by storekeepers with regard to immense bargains, and all that sort of thing, our citizens only require honest evidence of special inducements to their patronage to induce them to bestow their most generous support. Having no sympathy with quasi claims, they are always liberal in their recognition of legitimate concessions. When, therefore, the announcement was made that the Elephant would offer the best quality of dry goods, &c., *at lower prices* than had ever before been charged in this town, the question to be settled by the public was whether the case was really as represented. To obtain the fullest satisfaction on this point, the easiest way, of course, was to visit the store and personally judge. As a consequence, as soon as it was made public in the paper that reaches the masses, there was a great rush of customers who critically examined the goods offered and compared the prices with those charged for the same goods in other stores. This investigation has been going on every day since, and the universal verdict is that the Elephant is by far the best store in the town to buy fine, durable goods at a reasonable figure. Mr. Elder has had great experience in the business, and is determined to overlook nothing to convince the public that the Elephant Store supplies the best goods for less money, for cash, than any other store in town. 1-in

—ELECTRICITY—

THOMAS' EXCELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN GOLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Mbefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Russan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three o four years, and I never found anything like it for curing lameness. It is a great public benefit.—A. M. Hamilton, Warkworth, writes, "For weks I was troubled with a swelled ankle, which annoyed me very much. Mr Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

Superior Spring Hoe Broadcast Seeder.
Superior Tuba Grain Drill and other Implements.

These Implements have given the greatest satisfaction to those who have purchased them heretofore. An INSPECTION INVITED. Repairs for all machines sold by me kept always on hand.

Peterboro, June 21st. 1876. 25.tf WM. GRAHAM.

NEW WARE ROOMS.

EXTENSION OF J. WHYTE & CO'S AGRICULTURAL WORKS;

We Beg to announce that we have fitted up for a Ware Room, the buildings formerly occupied by Mr. HILL as a SKATING RINK,

Opposite Henthorn's Livery Stable, Hunter st.,

and, from its central position in Town, will be a great convenience to our Customers and the public. In addition to the Implements manufactured by ourselves, we have succeeded Mr. R. E. Bowie, in the Agency for the sale of the Celebrated MOWING AND REAPING MACHINES, Manufactured by Messrs. A. HARRIS, Son & Co., Brantford, of which we have the following:—

New Kirby Reaper, Combined. New Kirby Reaper, Single.
Kirby Combined Baltimore Rake.
Ceres or Burdick Single Reaper. Kirby Two-wheel Single Reaper.

We have at all times Patterns of and Repairs for the above Machines in stock at our Foundry

THE PLOW DEPARTMENT

comprises Eight Varieties chief of which is

"THE CHALLENGE & IMPROVED COMBINATION PLOUGH,"

Fitted with Iron beams and best hard-tempered American Steel Bonnets and Steel Landsides. These Ploughs are admirably adapted for all kinds of soil.

We have also on hand, Points and Soles for all the Ploughs Manufactured by the late Wright & Davis, the Peterborough Manufacturing Co'y, and Mr. J. C. Aylmer, which are of the very best American and Scotch Iron, and Guaranteed to fit Right and Durable. We also keep Repairs and Patterns for all the Machines sold by the above-named parties, on hand

Having decided to make PLOUGHS A SPECIALTY, and by using nothing but first-class material, and having a thorough knowledge of the business, combined with prompt and honest dealing, we hope to merit and obtain a fair share of public patronage.

J. WHYTE & COMPANY.
OFFICE PROMPTLY, PETERBORO

JOHN WHYTE, Manager.

N.B.—The Foundry and Machine Shop is situated on Hall's Island, immediately opposite the Carding and Woollen Mill of Mr. Augustus Stevens.

SPECIFIC MEDICINE.

Cures of Nervous Diseases such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by or induced through the use of tobacco and alcoholic drinks; but the Special Medicine is more especially recommended as an infallible cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a consequence of self abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity, Consumption and a Premature Grave, all of which are as a rule, are first caused by deviating from the path of nature and over indulgence.

The Gray Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money, by address

WILLIAM GRAY & CO.,

Windsor, Ont., Canada.

☞ Sold in Peterborough by A. W. Kemp, by Dr. Bell, and all druggists; also in Lakefield, by E. Strickland, and Northrop & Lyman, Toronto, wholesale Agents.

HOMES AND FORTUNES FOR ALL!

Grand Distribution of Cash, Farms, Building Blocks, Residences, by the *Kansas Land and Immigrant Association*, August 25, 1876.

Capital Stock $500,000 Legally Authorized

The Kansas Land and Immigrant Association, of Atchison, Kansas, an enterprise chartered by the State authorities, and managed by men whose reputation for honesty, reliability and integrity stands unsullied, and who have the hearty endorsement of State and city officials throughout, will, the 25th day of August, 1876, distribute a grand distributive fund to its shareholders of many valuable awards in cash and real estate. Highest award, $75,000; lowest award, $80. The real estate awards, consisting of choice farms, business houses, residences, &c., have been selected from the most desirable and valuable property in the State. Price of shares only $5.00 each; every shareholder will be fairly represented at the distribution. Chances offered by no other enterprise. Distribution sure, Aug. 25, 1876, or money will be refunded in full.

Send for grant, order at once, so you may have your numbers carefully registered. For a more particular description of the enterprise, terms of agents, special offer to clubs, and purchasers of two or more shares, manner of drawing, list of endorsers and references, description of Kansas lands, &c., send for their illustrated paper, the "Kansas Immigrant," mailed free to any address. Send $5.00 for a share. Address

VINEGAR BITTERS

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Tombigbee, Yazoo, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Peterboro, May 24th, 1876 1ly

Ayer's Sarsaparilla

FOR PURIFYING THE BLOOD.

The wonderful cures this compound Extract of Sarsaparilla effects, is derived from its curative power, of which are truly marvellous. In numerous cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and subtle tenant of the organism undermines the constitution, and invites the [illegible] diseases, without [illegible] suspicion of [illegible] cause. Again, it seems to breed [illegible] and, then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, [illegible] may be suddenly [illegible] in the [illegible] or [illegible] processes by [illegible] on the skin, [illegible] alone [illegible] one of a [illegible] of [illegible] Sarsaparilla [illegible] [illegible] [illegible]

HENRY OWENS is still Manufacturing the leading pumps of the Dominion And would ask intending purchasers to call and examine the New Patent Cone Pumps, (lift and force) before purchasing elsewhere. The particular Lever Pump has four advantages over any other lever pump yet offered to the public, a full description will be given on calling at his factory. Sole manufacturer in the Counties of Peterborough and Victoria of the Carbonized Pumps in different styles.
All kinds of common pumps always on hand at reasonable rates.
He also begs to bring to your notice the celebrated Sewing and Force Pumps which have already taken the First Provincial Prizes wherever they have been exhibited. There can be no reasonable doubt after so many years trial, of the superiority of these pumps which at once combine all the advantages of a Fire Engine, and are particularly adapted for watering Gardens Washing Buggies, &c., &c.
Pumps supplied and repaired on short notice.
ALSO STILL AGENT FOR
The Massey Manufacturing Co'y., Wood's Reap and Wood's Mower, Johnston's Reaper, Cayuga Chief Mower, Sprague Mower and Combined Reapers and Mowers.

SEND 25c. to G. P. ROWELL & Co., New York, for Pamphlet of 100 pages, containing list of 3000 newspapers, and estimates showing cost of advertising.

Select Poetry.

On a Portrait of the Author of "Rab and His Friends."

Here's a face without a furrow—
John Brown's at Edinboro';
Father Time, his creature out him,
Oh, let nothing ill befall him,
Nothing cross his open door
But what beauteous fortunes pour!

Come! a health to that John Brown
Who, in Edinboro' town,
Practises for every body,
Pay or no pay. There's no shabby
In his starting-line condition.
He is such "a good physician."

Give another stalwart's health
To him who does grand things by stealth;
Him you'll never find a-sleeping
When there's Weal or Sorrow weeping;
When Death's "somewhere to the centre,"
Straight to Rab and set him down.

Here's a forehead without brow to
Stamped and corona-ed on Jove's Crown.
What a brain! how fine the tissue!
Pity you can see a skewer
Thin more full of a rare flower's humour,
One for Janie more prone to Bible-cum,
Wee man's brave one,
Like a blithest thrush that sings,
Lake that comes, when rains comes,
Stuffed with ever-lasting plums!

Here's John Brown, and before ye:
Here's Rab—Rab to the life!
Spaniel-sense in nose—Spaniel sense!—
And a pair of eyes behind 'em
Throw such light on the old planet,
All your Tyndalls could not span it.

Come! a rouse to Dr. Rab,
Including Jack, his master,
Including every dog he owns,
And each Bible-reading lass's bonnet!
For, when Our Doctor's night shows dark,
Just dog or Bible shows a spark,
And life has been once more to feed
A little ally and a friend him need,
And through a glass, darkly, (as now),
We can dogs (as we know!) are all at play,
While I start to hear his Scottish name,
And I'm the land that gave him fame.

—JOHN T. FIELDS in *Harper's Magazine for August.*

PETERBOROUGH, JULY, 20 1876

THE DEPRESSION.

WHAT IS THE CAUSE?

From the way in which unprincipled politicians and unthinking persons discuss the causes of the depression in trade, it is very evident that they are willing to deceive and be deceived. Canadian politicians, at least those who have no character at stake, and less veracity to impugn, are attributing the stringency in trade circles to the policy of the present government, and they keep reiterating this with a pertinacity not manifested by them in promulgating the moral law.—When asked to account for the immense failures in Great Britain they are silent. Last week we referred to the week's failures in Ireland, amounting to $30,000,000, and asked them to account for it on political principles as in Great Britain at present, a Conservative Government controls affairs; but there has been no response.

The English news this week furnishes the following important information which we would recommend for the consideration of those men who are seeking to mislead the public, and we ask them to account for the depression in the Indian trade on political grounds:

The London *Times*, of July 17th, has a special despatch from Calcutta saying the exchange question occupies public attention to the almost entire exclusion of other topics. Whether the lowest point has been reached, whether the depression will be permanent or temporary, and whether any or what remedy is possible, are the main subjects of conversation among all classes. The rate now is a fraction above 1-6 per rupee, so that remitting small sums costs about 35 per cent; large sums cost slightly less. This tells severely on persons with fixed incomes and all having families at home, but an inevitable rise in the prices on all imported articles makes a serious difference to everybody. The Government loss will be nearly equal the gain from the opium revenue. Except the munity this is the worst crisis in Anglo-Indian history, and there are few instances anywhere of a calamity so crushing and so general. If the depression continues it will probably paralyse the export trade. The problem before the Indian Government calls for the most anxious consideration, and if the depression is to be permanent it will resolve itself into the question of how to stave off national bankruptcy.

The Indies are a part of the Empire and the Government controlled from Downing street almost entirely, and the trade of the country will be affected by every fluctuation in the London trade. Will those wiseacres who take upon them to enlighten the public on the cause of the depression in Canada, explain how it has reached England, Ireland, India, France, Austria and Prussia?

In the United States, during the first six months of this year, the failures have equalled $107,000,000, and their progression has reached the extreme limit and gone beyond what the people can bear. The reaction first manifested itself there. With the failure of large American houses strong houses in Europe tottered and fell, and these failures affected Canadian trade.

It is well known that the entire trade of Great Britain is deranged. Last week about 50,000 men were thrown out of employment in Lancashire, and there is every prospect of this continuing for a time. With the great Trade Centre depressed, the arteries must affect the outer portions of the body, and as Britain is the great centre towards which all trade converges, or from which everything affecting trade radiates, it is surely only reasonable to look to Great Britain for the cause of even Canadian depression to a large degree, next to the United States, on which we border.

Sir John was willing to assume the credit of good crops and prosperity because the conservatives were in power. Never in the history of Canada did crops promise so well as they do this year, will they not give the MacKenzie Government credit for the good crops? The Banks have more farmers' money on deposite now than they can well use to advantage. This indicates the general prosperity of that important class of our citizens. That they are enabled to lay by such sums is, no doubt, due to their own industry and the blessings of an over kind and bountiful Providence. But may not reformers claim that the smiles of providence are due to the fact of a reform Government controlling canadian affairs.

This is a kind of reasoning that cannot recommend itself to the thoughtful or honest mind, but may as reasonably be used by Reformers as Conservatives. But if sin be the curse of a people, the Pacific Scandal will remain the curse of the Dominion, and it certainly would be more reasonable to attribute the Depression of trade in canada to the frown of Omnipotence because of that Scandal and the general corruption of the 20 years of conservative Rule.

THE PRESS AND THE BENCH.

By general consent it has been admitted be t in the in erest of justice and equity, to allow the decisions of judges to pass unnoticed, except by impeachment. This has perhaps fostered a spirit of self-sufficiency that now and then leads to acts not fully defensible. At the present time, the *Globe* has seen fit to animadvert pretty strongly on the conduct of Mr. Justice Wilson, because of some remarks of his, entirely unasked for, on an application for a criminal information against the West Durham *News*. Senator Simpson had applied for the criminal information, and the court decided to grant it on two counts. On the trial, all questions affecting Senator Simpson and the editor of the *News* would be before the court. All the letters would be placed in evidence, and then Mr. Justice Wilson would have had an opportunity of referring to their contents and the imaginary motives of the writer. He, however, did not, perhaps [illegible] await the trial, or perhaps feared that the opportunity might not again offer itself, and hence his reflections on the whole matter, while the person on whom he reflected had no opportunity of defending himself against mere insinuations, arising out of a newspaper article. Mr. Justice Wilson was careful, however, to gather together all the evidence and reports likely to seriously affect the writer of the letter, and while doing so, must have forgotten that the person to whom the letter was addressed was at least to be considered innocent of evil motives or intentions until proved having acceded to the requests of the letter, supposing it to be illegal.

The question before Mr. Justice Wilson was wholly between Senator Simpson and the editor of the West Durham *News*, yet he dragged into his remarks the Hon. George Brown and a letter written, or said to be written by him to Mr. Simpson, and to which Mr. Justice Wilson wished to attach corrupt motives. In doing so he must, for the time, have forgotten his high and responsible position, not only between the persons, but also between parties. The judiciary of Canada has been esteemed for its ability and impartiality, and it should be the highest ambition of all members thereof to maintain the esteem and respect that has been so readily accorded. The *Globe* deals severe blows at the Judge, and not a few are inclined to think they were deserved, at least to some extent.

The letter referred to certainly contains nothing to warrant the Judge attributing base motives to the writer, much less to the receiver; and then, when it is taken into consideration, that Mr. Simpson had destinctly denied, on oath, the allegations or charges of the West Durham *News*, it assuredly gives the public room to fear that the bench may act so indiscreetly as to lead the people to believe that a Judge may be biassed before he hears the case, and thus destroy the confidence heretofore placed in the judiciary.

The letter from Mr. Brown to Mr Simpson was as follows; "(*Private and Confidential.*)

"TORONTO, 15 August, 1872.

"MY DEAR SIR,—The fight goes bravely on, but it is hard to work up against the enormous sums the government candidates have in their hands. We have here expended our strength in aiding the out counties and helping our city candidates, but a big push has to be made on Saturday and Monday for the East and West Divisions, if we are to succumb to the cash of the Government. We could carry all three divisions easily but for the cash against us, and if we carry the first on Saturday the other two will go with us in spite of all the cash they can muster. We therefore make our grand stand on Saturday There are but half a dozen people that can come down handsomely, and we have all done what we possibly can do, and, and we have to ask a very few outsiders to aid us. Will you be one? I have been urged to write to you. and comply accordingly.

"Faithfully yours.

"GEO BROWN."

"Hon. John Simpson,
"&c., &c."

Now this letter was not before the Court, and yet Judge Wilson refers to it, and goes out of his way to comment on it—something heretofore unheard of in our courts, as nothing, not put in the evidence, is ever admitted or referred to.

This letter does not warrant the Judge in using the language he did, even if inevidence. He said:

"It is, of course, a plain demand for money to oppose, it is said, the expenditure by the Government candidates at the Toronto elections, and it is an admission that the writer and those co-operating with him had expended their strength, which I suppose means their money, in other constituencies for the like purpose. It is a letter written for corrupt purposes to interfere with the freedom of elections. It is an invitation to the recipient, as one with some others and the writer, to concur in committing the offence of bribery and corruption at the polls."

In referring to this case the Oshawa *Reformer* says:—

This is not the first case in which Judge Wilson has acted in a manner not calculated to foster the respect with which the Bench is regarded in Ontario. In the Farewell and Brown election trial his first decision was a surprise to all who heard the case. Afterwards Judge Wilson himself took occasion to state publicly that he had made a blunder and would render a different judgment were the case to come before him a second time, and finally on the appeal entered at his own instigation, he changed his mind a second time, and confirmed his first judgment. Such a course pursued by a Judge is not re-assuring to those who seek for intelligent judgment in our courts. In this, as well as in the matter of the "big push" letter, Judge Wilson has himself to blame if the public begin to fear that his discretion is not always sound and his judgment not always just.

THE MAIL AND THE ACCOUNTS

The *Mail*, the organ of the great Liberal Conservative party, has been indulging in some of the party dodges. It has been publishing statements of department expenditures for 1872-73 and 1875-76, with a view of proving the present Governments extravagant, compared with Sir John, of clean hands notoriety. The *Mail* wisely withholds the information that during the two or three days previous to his resignation, Sir John added no less than 400 new offices to the civil list entailing an additional expenditure of very large sums. In its frantic efforts in this line of argument, the organ, however, has given statements of its own manufacturing, with the view of deceiving the public.

On Thursday last the *Globe* gave the following flat denial to the *Mail's* statements:—

"The statements made in the *Mail* of Tuesday, on Departmental contingencies are entirely incorrect. *No such figures are put down for* 1872-3 (when the late Government held office) *can be found in Public Accounts or any other authentic record.* The same contradiction applies to the statement on Departmental salaries in the *Mail* of June 1st. They are wrong from the beginning to the end."

This should open the eyes of Conservatives, and lead them to mistrust men or parties who will falsify public accounts for base purposes. How can they in future trust the *Mail* in its statements.

WHERE IS THE MONEY?

There appears to be a question of doubt in the minds of the Town Council, and the Town Trust Commissioners, as to the state of their accounts. The Town Clerk and Mayor have made out a statement which shows, they say, that the Commissioners have received over $11,000 which really belongs to the Town, and should be paid back to to the Town Treasurer. This statement was handed to Mr. W. H. Scott, to test its accuracy, and after an examination, we suppose, of the books' etc., he declares the amount to be $9000 larger, or about $20,000 in the hands of the Commissioners which of right belongs to the Town Council.

The Commissioners, not formally however, but in conversation, deny having any such sum on their hands, but on the contrary assert that the Council owes the Commissioners about $11,000 or $12,000. That the Railway Company owes them about $9,000 which the Town Council requested them to give time on. They further say that they, the Commissioners, have lent the Town Council various sums for building bridges, etc., not yet fully accounted for, and that with the reliance which they received they retired debentures falling due. The accounts of the Commissioners evidently don't tally with the ideas of the Mayor and Council, and it certainly is the duty of the Council and Commissioners to have this little difference of $20,000 understood, so that the people may learn the real state of the finances of the corporation.

It is too soon to attribute laxness of book-keeping or of ideas to any one until the matter as to where this money is is known, but we cannot refrain from expressing surprise that such a large sum is held in uncertainty or doubt. Where is it? in whose pocket is it? The matter has proceeded so far now that it is in the interest of both the Council and Commissioners to have it fully and intelligently understood.

THE UNITED STATES.

Our Cousins have a little Indian trouble on hand just now, which is causing them no small annoyance. The Sioux Indians appear to be a brave, bold and determined people, unwilling calmly to suffer wrong. The United States Indian Policy has been not just or reasonable, and in consequence they have had continual bickerings with the redmen. These almost continual Indian struggles have reached a point that will either compel a wiser Indian policy at Washington, or lead to the entire destruction of Indian tribes. Already this season the American troops sent against them have suffered severe reverses, but in the end the contest will prove an unequal one. General Custer, a brave American, was surrounded and his small force completely destroyed. The other Generals in the immediate seat of action are slower to enter the Indians places of ambush, but as their strength increases, their boldness will also, and eventually the poor Indians will be compelled to withdraw to new territory.

TOWN COUNCIL.

The Council met on Monday, pursuant to an adjournment.

Present—the Mayor, and Councillors Cahill, Taylor, Paterson, McClelland, Haggart, Dixon, Cook, Douglass, Hopkins and Rutherford.

The minutes of the previous meeting were read over and confirmed.

COMMUNICATIONS.

From Thos. Chambers, calling the attention of the Council to the state of McDonald street, between Aylmer and Bethune, as the drain made by the council last year is not sufficient to carry away the water, and that if something was not done immediately his place would be submerged in water.

From Mary H. Wood, asking the council for a pass on the railway, to convey her to the house of industry, to see her son.

From E. Burnham, stating that he had made a thorough good drain, sufficient for all purposes on the 13th lot of the 13th concession, and asking for the council to extend it further south, as it would almost be a necessity.

From Mrs. H. Morgan, asking the council to pay the board of a young man named Kennedy, who had a paralytic stroke, and had been staying there about 3 months; the amount was $67.

From Wm. McDonald asking the council to assist him, on account of his being laid up for about 5 months, by falling on the sidewalk through a defective part, and as he was fatherless and motherless and no person able to take care of him.

From Jas O'Brien stating that he had erected a bridge over the drain at Park street, and have kept the same in repair at his own expense for some time, and as the plank was commencing to get bad, perhaps the council would grant him the planks to repair it with.

From the Town Clerk, giving notice that the by-law for to grant $5,000 to the Sewing Machine Company had been carried by a majority of 163, and that he had duly declared the same at the proper time.

From H. Calcutt—steamer "Golden-Eye"—and James Barber, President of the C. P. A M. E. R., requesting the council to take a trip to Cobourg on Thursday, over the new route.

From N. Preneveau, asking the council to have the street repaired on Bethune street, in front of the station, as it is a mud hole, and also for a sidewalk.

From Wm. Wyer, asking to have the water conveyed off the street, referred to the Street Inspector.

The yearly statement and demand of the Commissioners of the Town Trust was read and submitted for $5460.83

The Treasurer submitted the expenditure for the month of June, also the half yearly receipts and expenditures for the half year, showing a Balance of $2360,27 cash on hand at July 1st, 1876.

R. O. Helm	$ 5 00
T. Menzies	25 78
Davidson & Co	17 90
Bertram & Co	21 21
John Marshall	21 75
Scott & Edwards, { Nicholls vs. } Cummings. }	177 37
Scots & Edwards, { Cummings. }	128 05
John McDonald, Lumber	189 77

DISPOSALS.

J. Marshall's acct, was ordered to be paid, and the balance referred to the Finance Committee. The Treasurer's statement was referred to the Finance Committee. H. Calcutt's was received. H. Woods' received. W. McDonald's, asking assistance, received. W. Preneveau, asking for sidewalk, received. T. Chambers', received. Mrs. H. Morgan's referred to Charity Committee, E. Burnham's, referred to Street Inspector.

FIRE, WATER AND GAS.

Mr. Patterson as Chairman of the Fire, Water and Gas Committee, reported recommending the Counsel to purchase 500 feet of new hose from the Canadian Rubber Company, of Montreal, and complaining about the way the gas lamps are lighted, and also, recommending the discontinuance of gas for the clock in front of Mr. J. R. Ormand's jewelry store, and in front of the Music Hall, and that the Chief and assistant constables see that the street lamps are lighted according to agreement, which was on motion carried

FINANCE.

Mr. Cahill, as Chairman of the Finance Committee reported, recommending the payment of the following accounts: R. Romaine, printing, $78.99; J. Stratton, printing, $30 99; W. H. Robertson, printing, $6.34; Jas. English, fixing fire alarm, $30.00; Gas Company's quarters gas, $33,000; removing posts, $21.40; A. Evans, caretaking old Iron Bridge, $6.00; A. Comstock, coffins, &c., $30.00; Dixon Bros., goods for funeral, $2.00.

The application of Mr. Pearse for remission of taxes against a certain lot which had not been assessed right, was granted, and also leaving the taxes of the church to be dealt with by the Council, which on motion was received and adopted.

BELL TOWER.

Mr. Patterson, as Chairman of the Fire Committee, reported on the request of Mr. Belcher, in reference to the clock tower, recommending the building of a floor right under the bell, so that if any accident might occur, the clock would receive no damage, also, to have diagonal braces put in the tower in order to stiffen it, said that proper means of access be made thereto. All of which was carried.

REMOVAL.

Moved by Mr. McClelland, seconded by Mr. Patterson, that this council would recommend the removal of Wm McDonald to Hotel Dieu, at Kingston, and that the chief constable make arrangement to that effect.—Carried.

TRIP TO COBOURG.

Moved by Mr. Haggart, seconded by Mr. Hopkins, that the council accept the kind invitation of Mr Calcutt, to visit Cobourg, on Thursday first, and that the thanks of this council be tendered to Mr. Calcutt for his kindness.—Carried.

DEMAND ON COMMISSIONERS.

Moved by Mr. Rutherford, seconded by Mr. Douglass, that, whereas, in the year 1869 the corporation of Peterboro' obtained the passage of, a special act, authorising the commissioners of the Peterborough Town Trust to sell certain lands at the south end of the town, which act further provides that the monies carried from the sale of such lands shall be paid over to the Town Treasurer on the demand of the council. Be it therefore resolved that the said monies be and are hereby appointed for the general purposes of the town, and that the Treasurer be directed to make a demand on the chairman of the Commission Board to hand over to him say moneys received by them from the above source, up to this date.—Carried.

Moved by Mr. Patterson, seconded by Mr. Hopkins, that Mrs. Drake be allowed two dollars per week for keeping the child which she is now keeping for the town.—Carried.

Moved by Mr. McClelland, seconded by Mr. Cahill, whereas, the corporation has, during the last 3 or 4 years, incurred debts to the extent of $16,000 in building a school house costing $6,000 in ward No. 1 of the town; $5,000 in an Iron Bridge; and $3,000 in the Locks Bridge with a view of meeting the same by the issue of debentures, and whereas they wished for and obtained a special act authorizing debentures to be issued to the above amounts, for the above purpose and no other. And, whereas, the said debentures have been issued and handed over to the Commissioners on the implied understanding that they, the Commissioners, would apply the proceeds thereof for the specific purpose for which their issue was authorized; and, whereas, the said Commissioneis have sold the said debentures, but decline to either asume the payment of the above debts or to give the said money to the Town Treasurer, thereby to enable him, on behalf of the corporation, to apply the money for its legitimate purpose. Be it therefore resolved that the Treasurer be directed to promptorily demand of the chairman of the Commissioners Board to either asume the payment of the above debts or hand over to him what money is in their hands from that source.—Carried.

Moved by Mr. Paterson, seconded by Mr. Hopkins—That the Treasurer pay Mr. S. Deticher. $2.50 for cleaning out the Tank under the bridge on Bethune Street, on the certificate of the chief constable.—Carried.

Moved by Mr. Dixon, seconded by Mr. Hopkins,—That the taxes of the New Methodist Church be remitted for the year 1875.

Mr. McClelland showed the council that the assessors did not assess the property of the Methodist Church correctly, they have assessed the property for $35 when it cost more in the first place, and at this time there had been expended about $8,000 in the foundation of the building.

The motion on being put was lost.

$600 GRANT.

Moved by Mr. Cook, seconded by Mr. Haggart, that the Mayor be granted $600 for his very valuable services to the town during the present year.

After some discussion as to the advisability of the motion, and at the request of some of the councillors, together with the mayor, it was decided to lay it over for three months.

MR. M'NAUGHTON

was heard before the council, complaining of the way the Street Inspector had repaired the road in front of his property and that the cutting was very uneven, there being no exactness in the work, and that the Street Inspector told him that the Chairman of the Street and Bridge Committee said it was a good job. The complaint was referred to the Street and Bridge Committee.

The council then adjourned for three weeks.

EASTERN AFFAIRS.

It is difficult at this distance from the scene of action to obtain reliable information. What comes by telegram is very contradictory. One days news is favorable to the Insurgents, the next to the Turks. All that we can do is give the most important telegraphic news, which we do below:

The *Times'* correspondent telegraphs from Paraikin on the 14th inst.:—"I had an interview with Prince Milan to-day. He denies that Servia is the tool of Russia. On the contrary, Russia advised Servia against war. The war has arisen because Servia believes prosperity is impossible under Turkish administration. He does not look to diplomacy now, but to arms. He believes Servia will be victorious. He does not ask any power to assist, but expects no Christian State will take part against her. She will fight to the death for her rights."

The *Times* Constantinople correspondent sends the following by way of Odessa on Sunday:—Contrary to Turkish official bulletins, despatches received at Embassies report that the Servians have surrounded and bombarded Novi Bazar. Gen. Tchernayeff was victorious at Akpalanka and Cheirkesy, and threatened Sophia. The Montenegrins have advanced within one hour's distance of Mostar. Communications from their frontier to the sea at Klex are open to them.

A *Times* special Vienna says:—Roumania has sent to the guaranteeing Powers a memorandum explaining the unsatisfactory position in which she is placed under the Paris treaty. The memorandum says this position constitutes great danger to peace between Roumania and Turkey, and formulates seven points upon which amendment is desired. Six of these points refer to her relations with Turkey, and if granted they would make Roumania virtually independent. The seventh asks for the whole Delta of the Danube, from the Tultcha downwards.

A special to the *Daily News* recounts an interview with Prince Milan, of Servia, on Friday, to a similar effect with that of the *Times*. The Prince explained the comparative in action of Gen. Tchernayeff, who is marching northward along the eastern frontier towards Saitschar, with eight battalions, to attack the Turkish army, which is now at Ivor. Gen. Tchernayeff holds Arpalanka defile of Novi Bazar. The Prince says the co-operation of the Montenegrins is thorough and hearty.

The *Telegraph's* Constantinople special says the Servians were defeated at Leschovic in Bosnia, losing 200 killed and 300 wounded, and also at Ivor, where they lost 900 killed and wounded.

WATER WORKS AGAIN.

To the Editor of the Examiner:

SIR: Notwithstanding the former manifestation of public indignation against the great and ridiculous scheme of water works, advocated by that far-seeing, practical man who devised and is trying to carry out the still greater and more ridiculous plan of hugh pumping of the south part of the town; this same practical gentleman, aided by the mayor and some of the councillors of the town, is again striving to bring this precious scheme to the surface. Of course these gentlemen are all perfectly disinterested in this matter, and no doubt they think that their services are necessary in order to its accomplishment; but I would like to know why it is that they are so very anxious, in this particular instance, to serve the town, and why it is that nothing will suit their purpose but the expenditure of some two or three hundred thousand dollars and the consequent overburdening the people with taxes. The generality of the ratepayers, however, could tell the reason for all this superabundant zeal if they were to speak out, and they would further say there has been quite enough of this sort of work on the part of the gentlemen alluded to, and that it is time now it was stopping. Since the present councillors have been in office, we have had one scheme after another for the expenditure of the public money, and the town has been put to a good deal of expense thereby, and it is more than likely that when a new election takes place the people will show their appreciation of these men by leaving them at home. One can hardly restrain his indignation when he reviews the conduct of our municipal authorities for the past year and counts up the large sums wasted and still larger sums sought to be expended for no earthly practical good, except to put money in the pockets of the favored few, who seem determined to serve their own interests while they have the opportunity, and the result has been to force the poor burthened tax-payers to be constantly on the watch in order to prevent a state of things which cannot fail to be destructive of the prosperity of our town. Mr. Romaine may continue to abuse those who oppose his wild and foolish schemes; he may insult those whom he cannot control; he may fill up the columns of the *Review* with attacks upon all who desire to see economy in the past high expenditure and to keep down taxation; but in the end he will find that honesty is the best policy, and that he will have enough to do to look after his own affairs and to mind his own business, for the people of this town are not such fools as to believe that they can get rich by wasting their resources, or that they can build up the town by plunging it irretrievably into debt, nor are they going to spend some two or three hundred thousand dollars for the purpose of carrying water into Mr. Romaine's brick yard, and for the purpose of providing good salaries for a few favorites, of whom, no doubt, Mr. Romaine expects to be overseer. PETERBORO'.

ANOTHER MOWING MATCH.

MR. EDITOR—SIR:—I notice in your issue of the 6th a notice of a field trial between the 'Brampton Meadowlark Mower," by Haggart Bros., of Brampton, and the "Champion," manufactured by the Ontario Manufacturing Company, to be held on the Hamblin Farm in Dummer, but did not give day or date when the trial would take place. As I had no intimation of the trial whatever, I began to make enquiry as to when it would take place. I found that the agent for the "Champion" had on the 7th inst., the day after the notice was published, gone to Mr. Hamblin's, to whom they had sold a machine, and sent for two or three farmers in the neighborhood and had the trial, and as there was no chance given for the "Meadowlark," or any other machine to be present, the "Champion," all alone in her glory, took the first prize, of course.

Now, sir, as we think the trial referred to very unfair on the part of the "Champion," and as there are a great number of farmers desirous of seeing the two machines tried together on their own merits, viz: The 'Combined Meadowlark,' manufactured by Haggart Bros., and the "Combined Champion," we, therefore, offer to meet the "Champion" on Monday, the 24th day of this month, on the farm of Mr. Joseph Suey, No. 20, Con. 1, in the Township of Aspodel, on the following conditions:

1st. That the owners of each machine deposit $100 in the hands of Thos. Blezard Esq., before the match commences.

2nd. That the machines be tried at both reaping and mowing, (mowers to be tested on the 24th inst., as above, and reapers as agreed to at the mowing match).

3rd. Draft of machine to be tested by a regular draft-tester; the cutting and superior qualities of the machines to be decided by the majority of farmers present.

4th. The agent or owner of the machine to which the first prize is awarded, to receive $100.

5th. That the Agricultural Association of the East Riding of Peterborough receive $50, the remaining $50 to be disposed of as may be decided by the Reeve and Deputy Reeve of Otonabee.

J. W. HOWSON,
Agent for Haggart Bros.

Keene, July 17th, 1876.

ENNISMORE.

The crops in this township, as a whole, look well and will come fully up to the average, excepting fall wheat, the most of it was ploughed up in the spring, what remains will be a two-thirds crop. Untold visitors, the potato bugs are committing great havoc among the potatoes, although paris green has been freely used, still it don't appear to have the same effect as in previous years.

The fourth school section is now fully organized, two weeks ago the freeholders and householders at a public meeting, called for the purpose, elected the following, according to the school law; David Costello, William Crough and Francis Moloney, Trustees, who, after the meeting appointed Thomas Telford Secretary and Treasurer.

According to the registry for the half year ending 15th of July, we have the following: 9 births, 9 marriages and 9 deaths, about 1½ per cent for the year, of our population.—COM.

LITERARY.

RECORD OF THE YEAR.

Fifth number now ready, with a fine Steel Portrait of Commodore Vanderbilt. And besides the unique and valuable Diary of important events this number contains, among two hundred other articles, the following points of special interests:—Dethroesement of Abdul Aziz Kahn-Ancedotes of A. T. Stewart. A charming article on the "Bohemians" in America in which Fitz Green Hallock, Walt. Whitman, William Winter, Edgar Allen Poe and others are considered. The beautiful Cleopatra Poems by Lytle and Collier. The Danish Hymn sung at the funeral of Hans Christian Anderson. McCormott's touching poem, 'O! do not sing that song again." Plaiforms of all the Political State Conventions. Harrison's great speech in Congress on the Marine Band. Stonewall Jackson's Poem 'My Wife and Child.' Victor Hugo on Amnesty, Opening of the Philadelphia Centennial. Whittier's Centennial Hymn and 'May' Youth and its troubles. Things to be laughed at, popular and touching poems, sketches, incidents, &c., in such attractive variety, that it forms the richest amount of really valuable and entertaining reading almost ever embraced in a magazine.

Price 50 cents a month, or $5.00 for a year's subscription—postage paid by the publisher, G. W. Carleton & Co., Publishers, Madison Square, New York.

HARPER'S MAGAZINE FOR AUGUST

HARPER'S Magazine for August contains the entire sixth book of GEORGE ELIOT'S "Daniel Deronda;" the second part of the anonymous serial story, "A Woman-hater;" the third part of Mrs. Craik's old-fashioned love story, "The Laurel Bush;" more of Julian Hawthorne's "Garth;" and three excellent short stories. The beautifully illustrated paper on Wellesley College, which opens the Number, is a part of our Centennial Exposition, so far as woman's education is concerned—this institution bring the first to adopt the same educational standard that has been adopted in colleges for young men, and being, in some esthetic features, superior to the latter. John W. Chadwick contributes a thrilling account of "The Battle of Long Island which effectively illustrated. Mr Holly's fourth paper on "Modern Dwellings" is devoted to furniture, and is profusely illustrated. William L. Stone contributes an exceedingly interesting illustrated paper on "Saratoga Springs." In the brief historal sketch, by Miss Susan F. Cooper, of Rear-admiral William Branford Shubrick, there are recounted some of the most spirited incidents in our naval history. All cultivated readers remember "Rab and his friends," by John Brown of Edinburg. In this number they will find an admirable portrait of the author, with some characteristic verses by James T. Fields. William Gibson contributes a beautiful poem, "Hymn to Freya." The easy chair discusses political mass meeting as presidential campaigns, takes no among the transcendentalists of Brook Farm, and gathers some hopeful indications from the Centennial retrospect of our political history The other Editorial Departments are as full and interesting as usual.

NEW ADVERTISEMENTS

PETERBOROUGH NAVIGATION COMPANY.

The Examiner.

PETERBOROUGH, JULY 6, 1876.

BISHOP BOURGET, of Montreal, is dangerously ill.

SUMMER UNDER CLOTHING in great variety at T. DOLAN & Co's

THE TOWN CROON on Sunday way very quiet, taking no note of time; not even by its tone. The hands on the eastern dial caught and prevented the movements of the works.

CLEVELAND.—The depression in the iron trade of Cleveland is likely to exterminate in disastrous failures

FENELON FALLS.—The shingle mill of Smith & Fells, of Fenelon Falls, were consumed by fire on Monday last, loss not stated.

☞ Leading Sewing Machine Makers recommend CLARK'S Best Six-Cord Extra Quality Sewing Cotton. NOTICE THE ANCHOR ON EACH SPOOL.

ST. LUKE'S, ASHBURNHAM.—We are requested to state that services will be held in this church every Sunday in the morning at 11 a. m., and in the evening at 7 p. m. Seats free.

CASTLE GARDEN BURNED.—Castle Garden, New York, was destroyed by fire on the 9th instant. There were 250 emigrants in it at the time, but all got out. Loss about $50,000.

☞ You will save time and trouble with your Sewing Machine by using CLARK & CO'S Best Six-Cord Extra Quality Sewing Cotton.—NOTICE THE ANCHOR ON EACH SPOOL.

THE WEATHER is still extremely hot. Farmers, however, find it an excellent season for hay making. This crop is reported good everywhere. Scarcely barn room enough to stow it away, and it will be well saved.

CRICKET.—Our team go, to-morrow, to play the Cobourg team. A good match is expected, as we understand the Pickwicx and Cobourg clubs have amalgamated and turn out a first-class team. We wish our team success.

ATTEMPT TO MURDER.—John Riordan had a son arrested on Tuesday morning for attempting to murder him the previous evening. Young Riordan is given to drink, and has served six months in the Central Prison for a similar attempt some time since.

BELLEVILLE.—The wife of Mr. Philip Roblin, of Sidney on Sunday, succeeded in compelling a tramp, who had entered her house while she was out, to give up a gold watch which he had taken from the bedroom. The thief has been arrested. He elected to be tried summarily.

PERSONALS.—Messrs. G. Gladman, A. Wilson, J. I. Davidson and Miss N. Jenkins leave to-day for the Centennial.—We wish them a pleasant trip and a safe return. Henry Bennet, Esq., of Ashburnham, left last Friday morning for the same great scene of attraction.

BAILLIEBORO.—The Baptists of Baillieboro and vicinity opened their new brick chapel on Sunday last. On Monday they held a very successful tea. The building is of brick and is both neat and comfortable, and what is very creditable to the liberality of the people, it is out of debt.

THE EAST.—Inspector Drain, on the 8th Inst., arraigned Henry Fox, of Otonabee, before D. Rose, Esq., and John Brakenridge, Esq., on the charge of selling liquor at Westwood, on Dominion Day, without license. He was found guilty—rather acknowledged his guilt to save trouble, and was fined $20 and cost

ASHBURNHAM CHURCH SOCIAL.—The Social which took place at Mr. John Burnham's on Wednesday, the 12th inst., was well attended, and everything went off to the satisfaction of those present. The financial result was gratifying; as we understand $34.09 was realized. The next one of the series will take place at Mr. H. T. Strickland's on Wednesday the 26th inst., at 7 p. m.

SAD.—It is a cause of sincere regret to see an attempt in the last issue of our town contemporary to carry political and personal feelings even into the grave.—Our good-will may, but our hates never should pass beyond the tomb. The introduction of a new Editor can be no excuse for, or defense of the absence of those sympathies that men delight to extend to the afflicted and bereaved.

FALL IN SILVER.—The *London Echo* says the depression in the value of silver has occasioned a feeling little short of consternation throughout India, and among the English producers for the Indian Market. The present price of Indian exchange represents a loss of $10,500,000, to the Indian Government on drafts sold by the Indian Council here to meet the Government's English indebtedness.

THE leaders of the Grand River gang have been arrested and are now in Woodstock jail awaiting trial. They are named Jack Brown, *alias* Bertram, and William Patterson, *alias* Poss. A supposed associate, named Flemming, was shot in February last, while attempting to rob a farmer named McCarty, in Thamesford. Flemming refused, even when dying, to tell his own name or the names of his associates.

CORRECTION.—We were mistaken last week in saying the new building in Ashburnham was Consecrated: it was only dedicated. The Socials too are not for funds to pay off the debt, as we are informed that there is no debt, but for some other purpose, of which we have not learned. We candidly admit we don't see the difference between dedication and consecration. We know there is a difference, and we give the correction gladly.

THE LIBERAL CONSERVATIVES are holding conventions in various western counties of Ontario. If the Reformers were doing so, what howls would be heard from the Tory press throughout the Province! What are Reformers doing? If they allow their enemies to organize, while they are inactive or indifferent, and then suffer defeat when the time of trial comes, let them remember the cause. Their enemies are active everywhere; why are they not at work?

RE-CONVERTED.—Mr. John J. Hawkins, who made a political somersault last election, immediately after his appearance in Peterborough, defending the Pacific scandal, has, it is said, jumped back. What a consistent man he must be? If the Opposition consists of such accommodating politicians, what may the country expect from them should they attain to power and office? Let the people beware of men so easily converted and reconverted.

MAN AND WOMAN KILLED BY LIGHTNING.—On Friday morning about 9 o'clock a severe rain-storm accompanied by lightning and thunder passed over Luther The frame house of Mr. Wm. Dawson, Reeve of the township of Luther, was struck by lightning, and Wm. Oliver, a painter, who was working at the front door, and Mrs. Hugh Taylor, a domestic servant who was in the front part of the house, were instantly killed. Another painter working outside on a ladder was stunned and fell to the ground.

POST HOPE CENTRAL EXHIBITION.—We have been requested to intimate that the Managing Committee of the central exhibition are publishing a prize list, about 2,000 copies will be printed. Advertisements will be inserted at the following rates: a page $8; half page $5; quarter page $3. The list will be ready by 1st August. Parties wishing to advertise should send their order to Mr. Rea Dickson, Secretary, or to J. B. Trayes Esq, of the Port Hope *Times*. Parties desirous of giving special prizes for any article or animal can also communicate with them.

POWDER ACCIDENT AT KEENE.—On Monday last, whilst three children belonging to Mr. Jas. Dixon, of Keene, were alone in the house, they got a powder flask containing powder and were playing with it, spilling considerable around them on the floor. The eldest of them, a boy about 8 years of age, obtained a tap of a barrel and putting powder in it set a match to it, causing an explosion and the ignition of the powder on the floor by means of which three children were very badly burned about the face and heads. It is feared the largest boy will loose his eyesight through it.

INSURANCE.—Mr. G. A. Cox, is prepared in the Fire and Life Insurance business to be foremost, he is agent for some of the best companies in the world, and is prepared to do business on favourable rates. As every man should Insure his property against fire, and his widow against loss, we would advise them to go to him and protect both as far as he can. No man can afford to lose his property, and no woman should be left to suffer the loss of a dear husband without something in the way of a life policy as a set off. Read his advertisement in another column.

A FARMER SHOOTS HIS NEIGHBOR.—A farmer named Wm. Mohr, in the Township of Tarbolton, last year set fire to some brush, which resulted in setting fire to the barn of a neighbor named Bressenham. This year Mohr was going to set fire to more brush, when Bressenham told him if he did so he would shoot him. Hot words ensued, when Bressenham went home, took his gun and went to where Mohr was mowing and deliberately shot him and returned home. He afterwards took the gun, walked out, and has not been seen or heard of. An inquest was held and a verdict of wilful murder returned. Tarbolton is in or adjoining the County of Carlton.

THE ONTARIO CLOTHING STORE.—Mr. John Taylor, who is now managing the Ontario Clothing Store, has put the whole place in most beautiful order, and is determined that it shall not only be a cheap place to buy in, but a beautiful place to visit. Their stock of the "Improved Heart Shirt," which is said to be a most perfect fit, is very large, and in prices they offer to suit all who want one. Their Summer suits are very nice and cool. Their gents' furnishing department is complete in everything. Their hats and caps of latest fashions. In the furnishing line, intending purchasers would do well to read their advertisement, examine their goods and they cannot fail to be pleased and to purchase.

NO NEW THING.—The Conservatives of South Ontario, in the late contest resorted to extraordinary means to secure the return of Mr. Gibbs. The circulation of fly-sheets containing the most infamous falsehoods were among the means used, but the parties who did so have not been allowed to get off unpunished. One Geo. Monk, an employee of the Messrs. Gibbs cabinet factory, and a man named Sheridan, who watched the Conservative club rooms and posted up their bills, circulated in the fly-sheets referred to, swore that they had been offered money to vote for the Reform candidate. Mr. Wm. Dickie and Mr. M. Warren, who were charged with offering the money, have taken proceedings against Monk and Sheridan for perjury. If guilty of perjury to serve their unscrupulous leaders, or for gain, or for any purpose, it is to be hoped, in the interest of political fair play, that they will both receive due punishment.

THE LARGEST STOCK of Colored Shirts in Town will be seen at T. DOLAN & Co's tf.21.

AMERICAN INDEPENDENCE.

THE CENTENNIAL CELEBRATION YESTERDAY.

PHILADELPHIA, July 4.—The day was ushered in at sunrise by the firing of a national salute at Fairmouth Park and by the ringing of the chimes and church bells throughout the city. The troops were reviewed by General Sherman in front of Independence Hall. A stand with seats for 4,000 invited guests which had been erected, was entirely filled. The members of the Japanese Centennial Commission were among the first to take their places on the platform. The arrival of Gov. Hayes, Gen. Sherman and Gen. Sheridan soon after was the signal for great cheering. Gen. Hawley then called the immense assemblage to order, and the orchestra of 250 members, under the leadership of Gilmore, opened with the grand overture, "The Great Republic," arranged by Jeo. F. Bristowe. While music was in progress a shout of enthusiasm signalized the arrival of Dom. Pedro. At the conclusion of the music Gen. Hawley made an address. Richd. Henry Lee, of Virginia, read the Decalration of Independence, from the original manuscript. Following the reading of the Declaration, came the greeting from Brazil, a hymn for the first Centennial of American Independence, composed by a Carlos Gomes, of Brazil at the request of Dom Predo. The anuouncement of this portion of the programme was received with every manifestation of favour. The Emperor rose to his feet witi the rest of the distinguished personages present, and listened with great attention. Bayard Taylor then recited a national ode composed by himself. The ceremonies concluded with the singing of the Doxology "Old Hundred," in which the entire assemblage joined.

SYMPTOMS OF CATARRH.

Dull, heavy headache, obstruction of the nasal passages, discharge falling into the throat, sometimes profuse, watery, acrid, thick and tenacious mucous, purulent, muco-purulent, bloody, putrid, offensive etc. In others, a dryness, dry, watery, weak, or inflamed eyes ringing in ears, deafness, hawking and coughing to clear the throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired smell and taste, dizziness, mental depression, theckling cough, etc. Only a few of the above symptoms are likely to be present in any case at one time.

When applied with Dr. Pierce's Nasal Douche, and accompanied with Dr. Pierce's Golden Medical Discovery as constitutional treatment, Dr. Sage's Catarrh Remedy produces perfect cures of the worst cases of Catarrh and Ozaena of many years' standing. This thorough course of medicines constitutes the only scientific, rational, safe, and successful manner of treating this odious disease that has ever been offered to the afflicted.

INDISPUTABLE EVIDENCE.

Thos. J. Bishop, of South Brooklyn, N. Y., writes that his wife had suffered since a child with Catarrh until it had resulted in what eminent physicians pronounced Consumption; that she used Dr. Sages' Catarrh Remedy with Dr. Pierce's Golden Discovery, and they have worked wonders with her case.

Some parties who left Western Ontario a few years ago because they couldn't get protection, are now in difficulties in the United States, and sorry they went there Protection has been too much for them—at least such protection as they found south of the lines.—*Uxbridge Guardian.*

SPECIAL NOTICES.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This individual medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates excess and removes obstruction, and

TO MARRIED LADIES

is peculiarly suited, and although powerful, contains nothing hurtful to the constitution

In all cases of Nervous and Spinal Affection Pains in the Back and Limbs, Fatigue and Slight Exertion, Palpitation of the Heart, Hysterics, and Whites, it will effect a cure when all other means have failed. The pamphlet around each package, has full directions and advice, or will be sent free to all writing for it, sealed from observation.

JOB MOSES,
New York, Sole Proprietor.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pills, by return mail.

Sold in Peterboro by A. W. Kempt, W. S. Johnston, Dr. McCamus, Ormond & Walsh. in Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers

—ELECTRICITY—

THOMAS' EXCELSIOR OIL—WORTH TEN TIMES ITS WEIGHT IN COLD.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but a few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectrical Oil, Read the following be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally, as good for horse as for man."—A. Mayhee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Russan, township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. H. Hamilton, Warkworth, writes, "For weks I was troubled with a swelled ankle, which annoyed me very much. Mr Mayhee of this place indused me to try Eclectric Oil, and before one bottle was used I was cured It is a most remarkable medicine.

Sold by all medicine dealers. Price 25 cts.

OUR DARLING'S DEAD.

[Lines on the death of Willie Gibson, only darling of A. and G. Gibson, aged three years.]

Sweet love that lived but three short years to reign
And softly mourn thy early doom;
Yet glorious immortality
Is thine beyond the tomb.

Thy lovely form, dear to our hearts,
Must lie and moulder in the dust,
Yet hope its radiant flame imparts
And mid our tearful grief and trust,

O blessed Hope! immortal Life,
Shall, too, be ours beyond the tomb,
When all the cares and toil and strife
Of life shall be forever gone.

Then let us strive the more therefor
To serve the Lord with holy fear,
Till we through grace obtain the prize
And bid "farewell" to every tear.

TO ——,

That you have lost your love for me—
Oh, God! I cannot bear the thought;
Rather all else fgom me unsought for are,
Life, soul, whate'er I've thought or sought.

I know another's lips will touch your own,
Another's head lie close against your breast,—
And words of tender meaning greet her ears,
Her slight form in your warm arms safely rest.

But, darling, in your heart of hearts,
A pulse is beating, warm and strong;
I felt its throbbings yours agone,
And at that thought wild fancies round me throng.

I fancy, low and sweet, your voice again;
I feel the touch my lips have pressed of yore;
I meet your earnest gaze of love and pain,
Your arms are round me, clasping close and strong.

I fancy—nay, I know that you are mine,
No sweet delusion binds me with its pitying spell;
But love, omnipotent, bids me forgive—clasp,
The right within your inmost soul to dwell.

And I, too, keep locked up within my heart,
With all my best emotions, confidence and tears,
A sacred, pure and holy trusting-spot,
Where I meet you, my darling, only you.

So, no! you have not lost your love for me;
I smile at absence, time, or any power the.
We conquer all—all, even death:
And love, the stronger, claims the victory.

FARM AND HOUSEHOLD.

CUTTING HAY EARLY.—The hay crop is the most important of all the crops raised in the New England States, where inclement winter necessitates the housing of cattle. According to the census of 1871, there was raised in the New England States, 3,936,580 tons, and in the four Middle States, 9,026,289 tons. In the one State of New York, where the hay production was 5,614,205 tons, that of the cereals was but 70,317,063 bushels, or 1,963,850 tons. If we lump the cereals at $.50 a bushel, not a very large estimate, we can call their value at $76,000,000, while the hay crop at $15 is over $84,000,000.

In New England the discrepancy is still more, the hay crop being 3,926,560 tons, while the cereals, calculated on the same basis as in the case of New York, comes to but 415,938 tons; or at the above conjecturally low valuation, we have the values for hay $58,948,000, and for cereals $26,766,000.

Hence we see the importance the discussion of the Hay crop must periodically have, as we near the harvest time. A saving of a dollar a ton, or the loss of the dollar, amounts, in the aggregate, to a vast sum. If we were directly taxed to this amount, in addition to our other taxes, we should esteem it a heavy burden; yet, in reality, we are more heavily taxed each year through our own ignorance and mismanagement, and are slow to reckon the loss. Hence, it is often of service to deal in aggregates and call attention to facts so unused as to present to the imagination a definite idea of what is happening, and to that extent knowledge may benefit our practice.

The early cutting of hay has been very extensively discussed, and it seems to be universally conceded to contain more nutriment in the same bulk than when over-ripe. Of one thing we may rest assured—that for milch cows, a larger proportion of early cut hay is more digestible than of the over-ripe. We may also speak of the advantages derived from hay cured properly over that which is otherwise.

According to the tables of Wolff, red clover hay in full blossom contains 13.4 per cent. of nitrogenous matter, and when ripe but 6.4 per cent. Here is a loss of 4 per cent., or 80 pounds in the ton. We know not what is the difference between the albuminoid percentage of early cut and ripe hay, but must conclude that it is large. For illustration, however, if it be remembered that our figures "are" for illustration only, we may assume all our hay crop to be clover (although far from being the case), when the difference between cutting early and late in New England alone as feeding value alone may be estimated at 1,200,000 tons. In other words, a late crop of clover of 3,936,000 tons, if cut early would be equal in value to about 5,000,000 tons for the purpose of the farm.

These figures, be it again mentioned are not exact, nor do they apply, except as illustrations; but for this purpose even, they are not more startling than the opinion offered by Prof. Arnold, a gentleman given to careful investigation, and who always speaks with authority. I present the following, clipped from a newspaper, whose name I have lost.

"Dried grass is considered by such good authority as Prof. Arnold, as worth, pound for pound, as much as corn meal; at present prices of meal $26 per ton, dried grass would be worth $26 per ton; while after grass has blossomed, and is made into what is called hay, it is not actually worth half that price to feed out. What makes dried grass so much more valuable than hay is that it is all digestible, while, dried hay is partially so. This shows the importance of cutting grass early before it heads out. Less in bulk and weight will be obtained, but its actual value will be greater, and the land will not be exhausted nearly so much, and on rich land a second or even a third crop will be realized. Clover and herds-time, cutting each time just before the heads appeared. There is no question but that an ton of corn fodder is cheaper than a half ton of corn. Cut grass early this year."

Is not this article suggestive enough to induce farmers to try the experiment of early cutting? Of one thing I am confident in this connection, and that is, that the weather of those favorable for hay-making in the early part of July than later. There seems to be less danger from showers in the first half of July than later on into as for example, I kept my first week hay harvest by the weather bureau reports, with advantage. *Country Gentleman*

TO MAKE HOUSE WINE OR MEAD.—To a gallon of water put 2½ pounds of honey and 1 pound sugar; boil for an hour, put in the whites of four eggs to clarify, and skim it quite clear while boiling; then put it into a clean tub, and let it stand for a week, putting in a toast with honey to make it work; then put in a cask, adding the peels of three or four lemons to it, stand for a month and then if it is not sufficiently fine put in more honey, and let it stand longer.

DOMESTIC AND USEFUL.—To boil eggs for Breakfast Pour boiling water on them till it rises an inch above the eggs. Cover the kettle, drive close and let them stand five minutes. They will be thoroughly cooked without being hard.

FRENCH TOAST.—Beat four eggs very light and stir them in a pint of milk; slice some bakers' bread, dip the slices in the egg, then lay them in a pan of hot lard and fry brown; sprinkle a little powdered sugar and cinnamon over them and serve hot. If nicely prepared, this is an excellent dish for breakfast or tea—quite equal to waffles

---

INDIAN DOWDIE is a dish we like very much. I take a three-quart basin or pan and cut it not quite full of quartered apples, sprinkle a little salt over, pour in water till they are not quite covered, then make ready a "batch" of johnny cake or brown bread dough and cover the apples, heaping up a little. Set in the oven and bake till the crust is done and the apples soft, then take out, break up the crust and stir all in among the apples, mixing and mixing till both are well incorporated. Then cover close and keep warm—not hot—till your next meal is ready. Then take out a plateful and pour over it milk (or cream), and with a bit of cheese, you will have a dish fit for a king. I think the daintiest pudding ever made would not tempt my people from breakfast of "Indian dowdie," made just nice.

SLOW-WALKING HORSES.

Many horses walk very slowly, in fact, go at a snail's pace. This is a great fault, and involves a loss of time, which often equals money. A team of good walking horses will do far more ploughing in a day than one of slow walkers. Many horse-teams travel no faster in the furrow than oxen. When the roads are bad, how provoking to have a horse or team whose walk is a mere crawl! No wonder a heavy load is to be drawn, it makes a mighty difference whether the horse or team be slow or quick on the walk. Slow walking is the result of bad breaking. An Ohio correspondent of the N. Y. *World* lately wrote that journal a communication on this subject. He thought, as a rule, that drivers fail to teach their colts to walk as fast as they should. To walk fast is one of the most desirable points a horse can have, and to develop the colt into a fast walker should be the driver's aim. In order to gain this desirable feature this correspondent takes a good horse with a good walking gait and hitches the colt beside him and drives them together. When the colt lags behind he urges him along and makes him keep even with the horse. With a little care the colt will soon contract the habit of keeping up with his mate. When it is not convenient to take him out with another horse, the best book way is to lead the colt with a bridle or halter every day, taking along a whip with which to gently urge him in order to keeping briskly walk. This training should be persisted in until the colt can walk at least four miles an hours When a horse stumbles do not raise your voice, as any angry chiding only increases his want of assurance. A horse is so sensitive and timid that a show of anger and the sudden use of the lash overpowers its reasoning faculities. The better way is to reassure the nervous animal, speaking kindly and encouraging to restore those perceptions which form the best guard against a repetition of the fault, whatever that may be.

The Increasing Ravages of Lightning.

That the destruction of barns and other buildings by lightning is of more frequent occurrence than formerly must be apparent to all who read the newspapers. Scarcely a day passes during the season of thunder-storms but that from one to six or more accidents by lightning are chronicled. But a few days since the *Globe* gave an account of five barns and their contents being destroyed by lightning during one thunder-storm, and within a small radius of country.

This increasing frequency of lightning strokes is the natural results of clearing up and improving the country. The cultivation of the soil facilitates evaporation, causing it to proceed more rapidly, but which means a greater amount of electricity as well as vapor is carried into the atmosphere. The lowering of streams is accounted for on the same principle. The electricity like the vapor, when condensed, will again fall to the earth, but as the air presents very great resistance to it, seeks out easier paths. Trees, buildings, and other objects rising above the earth into the air furnish paths for its return. As the country is cleared these paths for the return of the electricity to the are diminished, while the number of lightnings are multiplied. Barns are the most frequently selected by the electricity, from the fact that the decomposition of matter accumulated about them, as well as the sweating of their contents produces gases, which, ascending into the air, invites the lightning by furnishing it a path of less resistance than the air. The building, however, being but a very poor conductor presents such resistance to the passage of the electricity that violence usually ensues, and the building is either shattered or set on fire.

It is now a well-established fact, that metal only furnishes a path of slight resistance as to admit of the passage of electricity with its wonderful velocity without creating injurious violence. Copper Conductors of suitable size are now pronounced by the best authorities the surest safeguards against damage by lightning. And where they are properly applied it is considered that they obviate all danger from the lightning stroke.

It has been shown by Prof. Whenstone that electricity moves along a copper wire one-twelfth of an inch in diameter at the rate of 286,000 miles in a second of time, a velocity greater even than that of light.—*Philosophics Transactions*, 1843. Messrs. Fizeau Gounelle 92,700 miles per second as the velocity on an iron wire one-fifth of an inch in diameter.—*Tomlinson.*

THE Baptists in Tennessee are making great efforts to signalize the Centennial by extra effort in the endowment of one of their colleges. The "Centennial agent" met recently an Episcopal clergyman, and pleasantly chaffed him on the indifference of his Church to the great jubilee. "It is well enough," said the other, "for you young fellows to get excited over such matters; the novelty makes it natural for you; but our folks, having had eighteen of them, have grown kind o' tired of centennials."

A WELL-DISPOSED gentleman at Bloomfield, New Jersey, sends the following:—

A few months ago the janitor of the public school died. The school building being closed on the day of the funeral, Johnny M—— spent the time playing by the lake near his house. A few days since his mother sent him to school as usual, but Johnny preferred playing at the lake, where he met his father at work. Mr. M—— inquired why he was not at school. Johny said there was no school, and when pressed for a reason, replied, triumphantly, "That man is dead again.

SPECIFIC MEDICINE

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic liquors; but this Special Medicine is especially recommended as an antidote for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as consequence of Self-Abuse, as Loss of Memory, Dimness of Vision, Pain in the Back, Diseases of the Kidneys, Premature Old Age, and many other diseases too numerous to mention, unpeopled and a Premature Grave, all of which are, as a rule, are first caused by departing from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one addressing

VINEGAR BITTERS

CURATIVE PROPERTIES OF VINEGAR BITTERS. the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by *purifying all its fluids with* VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worm, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicines, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

SPECIAL INDUCEMENTS TO PHYSICIANS.

Having had a thorough practical experience in the business, we can guarantee that all orders entrusted to us will be carefully executed, with efficiency and promptness, and the best of attention paid to the wants of our customers. We have had the privilege of [illegible]

For all the [illegible] Medicine.

Persons by one class of [illegible] are universally required by everybody as a cathartic, nor was ever any before so universally accepted into use, in every country and among all classes, as this mild but efficient purgative pill. The obvious reason is, that it is a sure reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all seasons and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Jaundice or Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery or Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

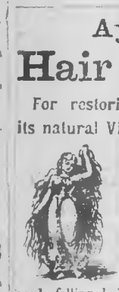
Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.



A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glossy and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wants merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambrics, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
